AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Nine Sterling County 4-H Club members participated in the Abilene Fat Stock Show this week. Members who showed their lambs were Mitsy Davis, Larry Stewart, Jerry and Carolyn Payne, Cecilia and Jeanie McDonald, LeRuth Reed, Rosanne Foster and David Foster.

The Abilene show has grown tremendously in the few years that it has been in existence as a regional show. Being a regional show, entries are accepted from 63 counties in central and west Texas. This year there were just under 1000 lambs entered in the fat lamb show.

Rosanne Foster had the 18th place lightweight fine-wool lamb in that class of 227 lambs. LeRuth Reed had 29th place lamb in the same class.

Rosanne had the 5th and 11th place heavyweight fine-wool lambs, and Carolyn Payne the 13th place lamb in that class of 69 lambs. In the pen of three finewool lambs, LeRuth was 4th and Rosanne 7th.

The crossbred show was a complete blank as far as placings for the Sterling County exhibitors. The cross bred class includes fine wool crosses with Hampshire, Suffolk, or Corriedale blood. It is difficult for a Suffolk cross to beat or even compete with a Hampshire cross which takes most of the placings in the crossbred classes.

The auction sale of fat lambs and all other livestock will be held Friday morning. At this time we do not know if any of the local club members will have any animals in the sale. The sale is limited to 50 lambs. These fifty lambs are selected on a percentage basis with the largest number coming from the largest class. Small classes sell very few lambs. Group classes sell none.

Economists say that beef cattle prices during 1959 may not vary much from the 1958 prices although the average might be a little lower.

John C. McHaney, Extension economist, says that the increasing cattle inventory is setting the stage for price declines in the next few years. If the build-up does not become too large, the drop in prices might not be too severe.

The demand for young cattle for feeding and herd expansion will keep the price for this type cattle high in comparison with fed and slaughter cattle. Meat consumers will have more meat available also. Estimates call for about 6 percent more red meat during 1959. Higher grade beef will remain fairly abundant but lower grades will continue scarce.

Now is a good time to spray your fruit and nut trees for scale. Scale is a small insect which each year causes much damage to fruit and nut trees throughout Texas. Control measures are effective but they must be used during the winter months when trees are dormant.

The only effective control for scale is spraying with an oil emulsion spray. This spray will burn the leaves on trees and for this reason is used only during the winter months.

Spray your trees with a spray consisting of 3 1/2 gallons of a 97% oil emulsion in 100 gallons of water. Cover the entire framework of branches and the trunk of the trees. In severe cases of scale it may be necessary to spray twice at 30 day intervals.

The scale is a tiny insect found on the trunk and the branches of trees. It resembles a small snail with a dot in the center.

## Mothers' March—Jan. 30 th

1776 with a sketch of the Nation's first flag, the symbolism has remained the same though the design has had some helter-skelter changes in the intervening 183 years.

Betsy Ross stitched hers in a neat circle, each star with five points. Later, as the Nation grew and added states, the stars went every which way, sometimes placed in rows, sometimes in the outline of a great star, or an enlarged circle with a large star in the center.

Washington recorded the meaning of the flag in these words:

"We take the stars from heaven, the red from our mother country, separating it by white stripes, thus showing that we have separated from her, and the white stripes shall go down to posterity representing liberty."

OLD Glory is going through a bit of "agonizing readjustment" right now. The admission of Alaska called for a 49th star, and President Eisenhower recently announced the design. But the U.S. Code provides the addition of one star to the flag for each new state "shall take effect on the fourth day of July then next succeeding admission." Therefore, by the dawn's early light of next July 4th the Nation officially will have a new flag—the 26th in U. S. history.

Flag makers, who have been turning out about seven million flags annually are in a dither about what to do with it appearing likely that come July 4th still another star will be added with the admission of Hawaii, which would make a 49-star flag out of date.

The last change to the familiar Star Spangled Banner now in use was made in 1912 after the admission of New Mexico and Arizona as the 47th and 48th states, respectively.

It would be perfectly appropriate to start flying the new flag right now, but it is not really official until July. Indeed it is legal to fly any of our past flags—including the one used by the 13 original states. Once legal a flag is always legal.

### ... About Your Social Security

Floyd B. Ellington, District Manager of the Social Security Administration in San Angelo reminds farm or ranch operators that the report of wages paid to employees in 1958 must be filed with the Director of Internal Revenue no later than January 31, 1959. If, in 1958, a farm worker was paid \$150 cash wages, the employer must send in a report of the wages paid, along with 4 1/2% social security tax (2 1/4% deducted from the worker and 2 1/4% paid by the employer.)

The same report (and tax) is due regardless of the amount paid to the farm worker if he worked for at least 20 days for cash wages computed on a time basis—that is—so much an hour or so much a day.

Any one wishing further information concerning old-age, survivors, or disability benefits may see the Social Security Representative when he makes his regular trips to Sterling City, Jan. 15, Feb. 12 and Mar. 12. He will be in the Commissioners Courtroom at 100 p.m.

### Films Taken In Russia To Be Shown

On Wednesday evening, January 28 at 7:00 p.m. Joe Shubert, a Bible instructor at Abilene Christian College, will show pictures he took while on a 6-weeks tour of Europe and Russia last summer.

Mr. Shubert was among a group of five men who spent three weeks behind the iron curtain surveying the cultural, social and religious conditions in the Soviet Union. Among the countries visited were Germany, Italy, Belgium, France, England and the Scandinavian countries.

In addition to the numerous colored slides, Mr. Shubert made while on the trip, he also has a recording of singing and conversation with the Russian people.

Bro. Hays said he had seen these films twice and can assure everyone that it would be well worth their time to see first hand really what conditions exist in Russia. The public is invited and there is no charge.

#### METHODIST SPEAKERS

Ralph Hasten, Methodist pastor, said Dr. Eugene Harris of San Angelo, district superintendent, would be the speaker at the Methodist Church on Sunday morning, February 1. Stanley Horwood will preach that night.

**TAX FACTS #4  
Deductions That Cut Your Tax Bill**

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Certified Public Accountants and the Texas Society of Certified Public Accountants, in cooperation with the Internal Revenue Service.)

**THE** big question facing the small taxpayer at this time is whether to itemize deductions or take the standard deduction.

Before you give up and file a "short" form, take the time to add up the family expenses that could be deducted. If the deductions that could be itemized total more than 10 per cent of your adjusted gross income, it will pay you to file a "long" Form 1040.

Here is a list of the more important items to watch for while you compile the list of family deductions:

**Interest on Loans** — The interest you paid on loans is deductible. This includes any mortgage, automobile, appliance, home improvement or personal loans you may have had. Interest on installment purchases is also deductible. Evidence, such as a statement from the seller, should be obtained to show the amount of interest that you paid during the year.

**State and Local Taxes** — Most taxes, other than federal taxes, are deductible. These include, state and local real estate, personal property, income, retail sales, gasoline and poll taxes. You can deduct auto license fees, but not auto inspection fees. If you don't have an exact record of some of these taxes, you can make a reasonable estimate.

**Charitable Contributions** — Gifts to charitable, religious, educational, scientific or literary organizations are deductible. Generally, these contributions are deductible up to 20 per cent (in some cases 30 per cent) of your adjusted gross income. In adding up your donations, don't overlook the old clothes, toys, books or furniture you may have

contributed to a local charity or church. The fair market value of these gifts is deductible.

**Medical and Dental Expenses** — Unless you or your wife has reached the age of 65, your medical expenses are deductible only to the extent that they exceed 3 per cent of your adjusted gross income. Include in your medical deduction the cost of doctor nursing, dentist's X-rays, and hospital services. You may also deduct premiums for health, accident and medical insurance.

**Casualty Losses** — You are entitled to deduct your uninsured home losses from fire, theft or storm. Damage to an automobile is deductible if the accident was due to faulty driving but not negligence on your part.

**Child Care Expenses** — Unemployed, divorced or legally separated taxpayers, and in some cases any taxpayer, who must pay for the care of a dependent while they work can deduct up to \$600 of this expense. Check carefully the requirements in the official instruction book before claiming a "baby-sitter" deduction.

**Miscellaneous Deductions** — If you had certain expenses in connection with your employment (other than travel and reimbursement expenses), you may claim them as miscellaneous deductions. Examples would be tools, uniforms, union dues and employment agency fees. "Periodic" alimony or separate maintenance payments ordered by the court are also deductible under this heading.
