VOL. 70 "Since 1890" PUBLISHED EVERY FRIDAY AT STERLING CITY, TEXAS JULY 13, 1962 No. 27

City Street Paving To Resume Aug. 1

2½ Miles City Streets To Be Paved

Paving of Sterling City streets will resume about August 1. The City Council said that the Reece Albert Construction Co. would be back for resumption of paving then and about 2½ miles of city streets (that have not yet been paved) would be paved.

If anyone wants any private paving such as driveways, parking spaces, etc. they should call the city office and make such arrangements, said Mrs Horace Donalson, city secretary.

For Social Security SOCIAL SECURITY REPORTS

If you are self-employed, you are responsible for the correctness of your own social security account, explained Floyd B Ellington, District Manager of the San Angelo office of the Social Security Administration. Filing complete and correct tax returns will assure you of receiving correct social security benefits.

Ellington emphasized four easy steps for a self-employed individual to take in order to keep his social security account straight. He should make sure his social security number is shown in item 4 of Form SE (attachment to Schedule C or Schedule F). He should file his tax returns on time. He should keep accurate records of his business income and expenses. He should check his social security account once every three years.

Ellington stated that any social security office will furnish a postal card to be mailed to their accounting office in Baltimore. A statement of the earnings credited to the individual's account will be sent. If it is not correct, the individual should notify the social security office immediately.

Mrs C L King's sister Mrs Bud Long of Nacodoches visited the Kings here the first part of the week. She was accompanied by Mrs King's Mrs Nelson Rusche and her two children, Steve and Suzanne, of Pasadena, Texas.

The Thomas Fosters spent last week in Ruidoso, New Mexico. Son Tommy went with them, but their little daughter, Marilyn, spent the week with her grandparents, the George Demeres near Water Valley.

doughBelly Price Reports

Well, another fourth of July has gone by. I was in Santa Fe and it didn't look to me like there was much Patriotism shown there or in Taos, either. The flags, what few there were were draped down like a chicken with the limber neck. People ain't got time to show any patriotism nowadays.

They are either on the road trying to be killed or from being killed. And if the rate of deaths don't ease up some, there won't be enough people left in A few years to celebrate. I have said several times and will say again, that I have the remedy for these highway deaths. Don't let a car on the road till it is paid for, then the highways can be used to produce more surplus groceries.

People don't care any more for nothing but the Dollar. The papers keep talking about getting ahead of Russia. We can't get ahead of Russia till we get behind America. Maybe when the dollar gets to the point where it ain't worth nothing then we will begin to wake up and see how far down the road we have gone, the wrong way.

If this outflow of gold don't stop we ain't going to have any dollars to worry about. One thing shore, if we run out of gold at Fort Knox maybe Washington can cut expenses A wee bit by firing the guards there. Or they may just keep them there in order to remind them of what we once was and what the big Vault had in it.

We had plenty of everything, didn't have to ask nobody for nothing and now we can't do anything unless we ask nearly everybody if it suits. And is Kruchev having A lot of fun watching us squirm in coming off of this big BINGE we have been on. We can get better but it will take A long time to get well, doughBelly Price Taos. New Mexico

Zone Chairman Met With Lions

The Lions Club met Wednesday noon in the community center for the regular luncheon meeting. The new president, Judge W R Brooks, presided.

Secretary-treasurer Marion Hays read a financial report of the club's finances and bank balance.

Guests present included Carruthers, Bill Coleman, Billy Bauer, and Carl Peel.

The prize went to Lee Douthit.

New York and Canada Trip

Mrs R T Foster and her granddaughter, Janet Westbrook, recently returned home from a trip to New York and Canada. They did a lot of sightseeing on the trip and saw some plays in New York City.

The two flew to New York City and stayed four days.

Then they took a Thomas Cook's Tour up to Canada, where they visited Niagara Falls, Toronto, Ottawa and Montreal. A colorful part of the trip was the return down the Hudson River Road back into New York, said Mrs Foster.

State Bar Column JURY DUTY

Jury duty is an experience everybody ought to have.

In a criminal case twelve jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The twelve jurors vary in their ability, temperament, character, education and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends—the life or liberty of others, and the public good. So it may take them days of talking among themselves, all to agree.

Jury duty calls for insight, common sense, courage, tact, fairness, patience, (especially toward the jurors who disagree with you), good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect to the opinions" of others.

More and more women share civic duties, especially as jurors.

Time was in Texas when women could not serve on juries. They still cannot in four states.

A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law—the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have any "reasonable doubt,"—not imaginary or far-fetched—acquitt the accused.

Civil cases do not demand a moral certainty, merely the "preponderance" of what you regard as reliable and believable evidence.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved because a slight variance in facts may change the application of the law.)

Janet Westbrook visited her grandmother, Mrs Dyess, in San Angelo this week.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. E. A. Medart Dismissals since Thursday morning of last week— Kent Jones Mrs O T Jones Ethiriam Rodriguez

Mrs Guy Dayvault of Dallas is here visiting friends and relatives for a few weeks.

Mrs Ruth Allen is in the Shannon Hospital this week for treatment and observation.

Mr and Mrs H L Hildebrand are due to land in New York City on July 17. They have been on a ship tour of the northern Scandanavian Countries this summer.

Visiting Mrs C L Coulson here this week have been Mr and Mrs I L Watkins of Midland and their daughter, Mrs Sam Mercurio of Missouri.

The Bubba Fosters and the Ray Mixons are vacationing in Las Vegas, Nevada.

Mrs Rufus Foster and Mrs C L Coulson returned last week from Las Vegas, New Mexico, where they visited Mrs Foster's daughter, Mrs Fred Allen

Closed on Two Mondays

Mrs Lillian Blair, owner of Lillian's Beauty Shop here, said her shop would be closed on two Mondays in July—the 16th and 23rd only.

Mr and Mrs Horace Donalson left Wednesday on their vacation. They went to Richardson to visit their daughter and son-in-law, the Bill Barbees. They wanted to see little grandson, Billy Hull play baseball this month.

Visiting the O F Carpers here this week from Ennis, Texas are Mrs Winnie Baker and her daughter, Mrs Bill King and her daughter, Brodwin.

NOTICE

Effective July 13, 1962 Whites may swim in the city park pool on Friday, Saturday, and Sunday of each week and Latin Americans may swim on Monday, Tuesday, and Wednesday. The cost will be \$25 per person. Small children must be accompanied by an adult. Not responsible for accidents.

The hot weather in making the asphalt paving "bleed" over town-and on the highways. The 100 degree plus heat-and no rain in several months not only is making the streets soft, but is burning the pastures and wilting yard lawns and plantings in town.

Mr and Mrs D J Norton spent last week vacationing in northwestern New Mexico.

The G W Tillersons of Selente visited here last week with the H A Chapples and the Riley Kings.

Mr and Mrs Earl C Hays of Clyde, Texas visited the Marion Hays family here last week. They are Marion's parents.

Shallow Wildcat Test

Tucker Drilling Co, Inc. et al, of San Angelo, has staked the 3,500-foot Wichita Albany Wildcat test two miles south of Sterling City, one location southeast of Yates oil production in the Durham pool and 1½ miles west of the South Sterling Clear Fork pool of Sterling County.

It is the No 2 E R Foster et al, 660 feet from south and east lines of section 19, block 12, SP survey.

Mr and Mrs Bob Barrett of Mason County visited here with his brother and family, the Dayton Barretts, the first of the week. They were accompanied by a niece, Becky Polk.

AROUND THE COUNTY by

ARTHUR BARLEMANN, JR. COUNTY AGENT

A Management Meeting for Bankers and County Agents will be held in San Angelo Next Wednesday, July 18. The meeting is sponsored by the district headquarters of the Extension Service and the San Angelo Clearing House Association. An information program will be sponsored by the Extension Service while the Clearing House Association will sponsor the noon meal.

Speakers on the program will speak on livestock, crops, and records. Emphasis will be placed on the place of these items in the economy of this area. Management will be featured from the standpoint of the producer and the banker both.

A similar program will be held in Kerrville on Thursday.

**** Kits for backtagging cows going to market are now available in the county agent's office. Under this program which is a part of the brucellosis eradication program in Texas, a rancher places the tags on the backs of cows going to market. When, and if, the cows go to slaughter, she is bloodtested for brucellosis. By means of the number on her back, she can be credited back to the rancher and the county of origin. Then, if sufficient cows have been tested by this means at the expiration of the current accreditation, a test program similar to the one held here in March of 1961 is not necessary. In event the county does not qualify percentage wise, the rancher still receives credit and he may have tested enough that it will not be necessary to retest his herd.

There is no charge for either the tags or the testing under this program. In the event the cow does not go to slaughter, there is no use made of the tag as I understand it and the rancher shipping and tagging the cow is not out anything other than a minute or two or his time to tag her. It is possible to qualify your herd as free under this method by tagging your cull cows. Then when it is necessary to retest in 1964, you would be exempt from the testing.

**** The Animal Husbandry Department of Texas A&M College is sponsoring the 12th Annual Beef Cattle Short Course on the campus July 30, 31 and August 1. Ranchers, scientists, and others will appear on the program during the three days.

Anyone interested in attending can see a copy of the program in the county agent's office. There is a \$5 registration fee for the course and this includes a smorgasbord supper on Monday night.

**** The first box of sterile flies produced in the new Mission plant came off the Assembly line last Wednesday and were released by air Friday in South Texas. The Mission plant will gradually build up to a production of about 50 million flies in the next 2 or 3 months. The Kerrville plant will continue to produce up to 20 million but will be cut back as the Mission plant increases production.

Flies are now being released in an area of about 60,000 square miles below a line from Del Rio to Coleman to Comanche to Port O'Connor. In addition, flies are being released north of this line in areas that are trouble spots as the flies are available.

**** Purpose of the concentration south of this line is to keep down the flies in this area where they normally can be expected to overwinter. In this way, they can be killed

Our WASHINGTON Letter By Congressman O. C. FISHER

The trade bill, which sailed through the House, is due for a thorough going over by Senator Harry Byrd, Senate Finance Committee, before final action is taken.

Already, some of the most ardent of the free trade supporters are conceding the bill which cleared the House goes beyond anything ever before proposed in respect to foreign trade in this country. They admit that if improperly administered the program can be disastrous to large numbers in U.S. industry.

In fact, administration spokesmen have estimated that initially, following the drastic tariff reduction being planned, some 300 American businesses will have to fold but sponsors contend this impact will be offset, they hoped by stepped-up exports by other industries. In the field of agriculture, the legislation is most liberal. Here the President is given power, at his own discretion, to completely eliminate all tariff on practically all agricultural commodities and all agricultural products. That includes live animals—sheep, goats, hogs, and also chickens and turkeys. These lists may also include wool and mohair.

This authority is granted to the President to be exercised by the State Department, for a period of five years, with no effective right of Congressional review during that time.

From the standpoint of Texas, the bill ignores the plight of domestic oil producers where a real depression is now in full swing, due to excessive dumping of low cost foreign oil.

**** Much of the opposition to the bill crumbled in the face of full-dress pressures that were brought to bear. Now it's up to the Senate to remove some of the bugs and apply a semblance of moderation and restraint, plus some guide lines in lieu of blanket delegation of powers by the Congress to the Executive, with no strings attached.

David Durham, son of the Worth Durhams, spent last week at Texas University at an orientation course and schedule. David will attend T U as a freshman this fall majoring in math.

**** out where they normally overwinter and the spread northward can be halted. The large number of flies in the area this spring coupled with the limited production of flies at Kerrville made this a difficult and impossible job this spring.

To date, 43 samples have been submitted from Sterling County and reports received on them. Thirty-eight were identified as screwworms while five were other than screwworms.

Three persons have found boxes on their places indicating that sterile flies have been recently released there. Clinton Hodges, Dayton Barrett, and Stanley Horwood have found boxes; other boxes probably have not been found.

Travel Time Tips

There are 336 hours in a two-week vacation! And you can put each to use if you plan your time before vacation starts. Decisions on what routes to take, what sidetrips to make can all be planned before the trip by careful attention to maps and brochures. Also, check your car before you start to avoid possible mechanical delays which are time consuming.

For any trip, keep one small overnight bag easily accessible, packed with pajamas, toilet articles and other basic essentials. You'll save time each evening and morning and gain additional hours for travel and sightseeing.

A travel alarm clock can be your best friend on a vacation. The new compact Travalette by Westclox is only 1 inch high when closed. It slips easily into a suitcase pocket or glove compartment of your car. It can be set to signal times for activities, meals—and will get you up bright and early each morning for a quick start—the best time of day to cover many miles of highway safely.

Civil Service Examination

The United States Civil Service Commission has announced a new examination for Transmitter and Receiver Operator and Maintenance Technician for filling positions in field locations of the U.S. Information Agency's Voice of America program. The positions to be filled pay from \$3.05 to \$4.49 an hour and are located at Greenville, North Carolina and Honolulu, Hawaii. In filling the positions in Honolulu, preference in certification will be given to persons living in Hawaii.

The Voice of America broadcast operations are on a 24-hour, 7-day week basis. Assignments to these positions will be made to an 8-hour, 5-day shift based upon a flexible schedule subject to change. Shift assignments are made in accordance with broadcasting schedules.

To qualify, applicants must have had responsible experience in the operation and maintenance of broadcasting and receiving equipment which demonstrates a thorough knowledge of radio transmitter operations. Full details concerning requirements to be met are given in Announcement No. 283 B. Applications will be accepted until further notice and must be filed with the Executive Secretary, Board of U.S. Civil Service Examiners, U.S. Information Agency, Room 2738 Tempo R Building, Washington 25, D.C.

BOYS RANCH STOCK ROUNDUP UNDERWAY

The roundup of stock to be donated to the Boys Ranch of West Texas is underway and Sterling County Wagon Boss Riley King said if anyone had any livestock that they wanted to donate to the ranch they should get in touch with William Foster, Ralph Davis or Ewing McEntire, and they could accept it for the ranch.

Any kind of livestock that can be sold at auction is needed, or money donations will be welcomed, said King.

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All devisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Amusement Park Rides For Summer Thrills And Safety

If you're planning on riding a roller coaster or floating to earth on a parachute jump this summer, rest assured you'll always get back to terra firma healthy and happy.

The safety that over 100-million American families will enjoy this season at the nation's amusement parks is the result of a complex and expensive program that makes riding the roller coaster safer than taking a Sunday spin in the family car.

Safety is a never-ending process with fun-park owners, and their efforts have resulted in an enviable safety record.

Visit a park any day before the gates open and you'll see a maze of people running here and there, climbing ferris wheel girders and walking miles of track in search of a loose bolt or rusty nail. Never a day goes by without every inch of track and machinery being scrutinized by veteran, trained safety engineers. Many have been at their jobs over 50 years.

A pre-opening visit would also allow you to witness the "dead-man's run," a daily ritual where sand bags are piled into the rides at weights twice that of a full car of people. Around and around the sand bags go. Then the ride is checked even further by a ride-tester who determines that the cars and tracks are in "go" condition.

Safety devices are carefully checked on all rides. Cars on roller coasters cannot leave the tracks because the wheels are locked beneath the rails. Rides where cars swing out from a center pivot point are safely connected to the center by three or more devices. The old seat strap found in rides years ago has been replaced in most parks with an automatic locking device that adjusts for each individual. And there's no way of opening the safety lock-in bar until the cars come to a complete stop.

The multi-colored cars of amusement park rides receive a complete lube treatment every morning. Excess grease is wiped clean by mechanics in a grease-pit beneath the tracks and fresh lubricant is applied while all moving parts are tested.

It's a comfortable feeling to know that a dedicated group of people guards amusement park safety. It means that every member of every family can enjoy the fun and thrills of the amusement park and lose his tensions.

Have fun, forget your troubles and "Leave the safety to us."

MOLES CAN CAUSE PHYSICAL, MENTAL STRESS

A little mole can seem like a mountain, especially since the public has become increasingly cancer conscious. The question of removing a mole often is posed by a patient to his physician.

Procedure in dealing with moles is discussed by Dr M Knox, associate professor of dermatology at Baylor University College of Medicine, and Dr Robert G Freeman, assistant professor of pathology, in the June issue of the Texas State Journal of Medicine.

The average number of moles on a young adult is 40. Although it would be impractical and unnecessary to remove all moles, Dr Knox and Dr Freeman cite three indications for removal: Signs or symptoms suggesting malignancy, potential sites for the development of malignancy, and the cosmetic desires of the patient.

Removal by surgical means is recommended for all moles that appear malignant and those regarded as potential sites for development of malignancy. Benign moles may be removed safely with any method that provides a satisfactory cosmetic result. Many physicians believe that all moles which are removed should be examined histopathologically.

When a mole is removed for cosmetic reasons, the primary effort of the physicians should be directed toward choosing the procedure that will leave the least evidence of scar. Several factors should be considered, including the character of the mole, the location, and the convenience factor.

On the trunk and extremities, the authors write, the usual procedure is to eliminate moles that are unsightly because of size or number. The cosmetic objective is not as important in the latter areas and it is more difficult to obtain a perfect or nearly perfect result on the trunk as compared to the face because of skin differences.

Dr Knox and Dr Freeman also point out that in later life there are fewer moles, which suggests that some moles spontaneously disappear.

Visiting the Tom Onstotts here last week was Mrs Josie Kelly of Memphis, Tenn. The Onstotts grandchildren, Diane and Don Hodges, of New Orleans, are here visiting their grandparents.

Funeral services for Mrs Tony Beavers of Milano, Texas, a sister of Mrs Ray Tindall were held there the latter part of last month. Mrs Tindall and Carolyn attended the funeral.

CARD OF THANKS

I want to thank all my friends and neighbors for the many flowers, gifts, cards and visits while I was in the hospital. I wish to thank Dr Swann and the hospital staff for their wonderful care and attention while there.

May health and happiness be with you always.
Riley King

Alfred Chapple, Tony Allen, and Sam Nance, local college boys, will act as escorts in the Miss Wool Contest pageant in San Angelo this weekend.

1600 ACRES

In the Tres Piedras country. That is selling fast and I mean fast. This is not improved at all, just sagebrush country. This is A good investment if you never do A thing to it. That country has raised from six dollars to fifteen in the last two years and is still going up. \$15.00 per acre, 29% down, balance in yearly payments, five years to pay. etter get your surplus money in land and have it working for you. AIRY JELLIED APPLE SNOW

Desserts are jolly. And the jolliest ones are often jelly. Consider this lighthearted jellied Apple Snow, for example. You'll make Apple Snow for the fun of it. You'll serve Apple Snow because it's pretty. And you, and everyone, will spoon into Apple Snow for the sheer delight of eating it.

There it stands on the dish, a jellied white foam, smoothly delicate. And over all and through all is the piquant tang of apples.

When to serve Apple Snow? Why, any time you are looking for a dessert that's light, refreshing and summery... for family meal, guest meal, to dress a buffet party table or for late evening refreshments. Put together early in the day, it can rest calmly in the refrigerator until the moment of serving.

Apple Snow

- 1 envelope unflavored gelatin
- 1/4 cup cold water
- 2 cups canned apple sauce
- 1/4 teaspoon nutmeg
- Dash salt
- 1 cup sliced fresh strawberries
- 1 teaspoon vanilla extract
- 2 egg whites
- 1/2 cup sugar

Soften gelatin in cold water 5 minutes. Combine apple sauce, nutmeg and salt; heat. Add gelatin, stirring until dissolved. Cool until slightly thickened. Add strawberries and vanilla extract. Beat egg whites stiff, gradually add sugar, beating constantly. Fold into apple sauce mixture. Pour in 1 quart mold; chill until firm. Unmold on serving plate. If desired, garnish with whipped cream and whole strawberries. Makes 6-8 servings.

Mr. and Mrs. George Case left Friday for Irving to visit with the John W. Dentons.

Mr and Mrs Hubert Williams have bought the old Green Williams house in east Sterling and are remodelling it for their home.

The Ray Tindalls have purchased the Sam Simmons home and property on the block just north of the bank. Ray also bought Sam's tow truck, it was said.

Sgt. Sam Mancell and family are here visiting the Rex McCluses this week. Sgt. Mancell has been stationed in Germany the past three years and has been transferred to Webb Air Base at Big Spring.

Visiting the Henry Zettlers here are two nieces of Mrs. Zettler, Donna and Janice Wagner of Abilene.
