THE
COUNTY
by

ARTHUR BARLEMANN, JR. COUNTY AGENT

Word has been received from the Extension Entomologist stating that ranchers should be advised not to use Ruelene for grub control on cattle at this time. Ruelene is recommended by the manufacturer as a "pour preparation" for grub control on cattle.

C.F. Garner, Extension entomologist, says that he has received reports of injuries and toxic effects from the use of the preparation. Injuries similar to burns were observed where the chemical was used in accordance with the manufacturer's directions. Toxic effects were observed when it was used as a spray.

The difficulties were found only in a small number of cases but there were too many to recommend the use of the material at this time. The trouble is attributed to the emulsion concentrate rather than the chemical and the company will probably be able to correct it. Until such time as it can be recommended on a blanket basis, ranchers are advised not to use Ruelene.

Three 4-H Club boys attended the Electric Clinic in San Angelo on Wednesday, August 8. Boys attending were David Foster, and James Morgan.

The clinic is an annual affair for club boys and girls sponsored by the West Texas Utilities Company. Personnel from the company's office in a number of West Texas towns instructed the boys and girls. They also sponsored the barbecue dinner.

The 4-H Electric program is an opportunity for boys and girls in towns and on ranches and farms to learn more about electricity and its wide variety of uses. Applications range from wiring buildings to making lamps, surveys on the cost of operation of appliances, food freezing, and lighting.

The Sterling County Game Management Association annual meeting and barbecue has been set for Monday, August 20, by president Bill Humble and the board of directors of the association. Cal Roberts will do the honors on the goats and beans as usual.

The program arrangement has not been completed yet. Personnel from the screw-worm eradication program at Kerrville have been contacted for an appearance but as yet no word has been received.

L.B. HALLMARK, JR. BUYING CATTLE IN MISSISSIPPI

Among cattle buyers for packers at the Meridian, Miss. livestock auction ring is L.B. Hallmark, Jr. formerly of Sterling. The Hallmarks now live at Starkville, Miss.

Approximately 200 cattle per hour go through the ring, about one each 15 seconds and daily sales run over \$100,000 per day. Over 1,000 cattle and 300 or 400 hogs are sold daily in the huge air-conditioned sales ring.

Cattle last week went as feeder steers up to 33.5 cents, fat calves 27.75 per hundred and slaughter cows 15 to 17 cents a lb with heavy bulls up to 20 cents.

Buyers for the packers have different ways of bidding—a flick of cigar ashes, a wink, a nod—all known to the auctioneer.

Mr and Mrs Ray Lane returned home from Midland last weekend, where they have been staying with the Jimmy Floyds. Mrs Floyd is the former Ginger Lane. They brought little granddaughter, Renee Floyd, home with them for a month's stay.

WATER IS RESPONSIBILITY OF EVERYONE

The development and wise use of our water resources is the responsibility of everyone—from the individual citizens and private organizations to all levels of government. The right to enjoy water resources carries with it the duty to pass on our lakes, rivers and streams in as good or better condition than we received them.

Lieut Gen W.K. Wilson, Jr., Chief of Engineers, U.S. Army, in a recent speech before the National Rivers and Harbors Congress, said:

"What this country needs now, and needs badly, is fuller realization of the great scope and size of the water-resources development task confronting it, and an absorbing dedication to an all-out generation-long, water development effort."

Gen. Wilson cited studies made by Resources for the Future, Inc., for the U.S. Senate Committee on National Water Resources, together with Corps of Engineers, own nationwide inventory of additional needs, and said:

"The outstanding conclusion reached by combing the results of the two studies is that by 1980—only 18 years from now—the Nation will need to add more than 400 million acre-feet of reservoir capacity to its existing systems. This is two and one-half times the capacity of all the reservoirs the Corps of Engineers has built in the past—mainly in the last two decades. And it somewhat exceeds the aggregate capacity of all reservoirs that have been built in the United States since its beginning."

"What we are dealing with involves the total future of our Nation. Water resources development must be undertaken not merely because it is profitable, or so that we may live more comfortably. It must be undertaken to preserve our national economy, our security, and our way of life. It is one of the foundation-stones of national defense and our country's future greatness. No task is more urgent. It is a challenge to us all."

Judge O.F. Dent, member of the Texas Water Commission, recently said that despite the heavy construction of dams since 1957, "another drought like the one of 1950-57 would put Texas in an even more serious water crisis than it was then, because construction has not kept pace with growth in population and demand."

Weather scientists predict that "by 1972 or 1975, we are likely to have seen a drought more severe and more sustained than the recent droughts of the 1930's and 1950's."

The water-resources task confronting Texas is great and a challenge to every Texan. The warnings are ample.

Rains Dampen Area Around Sterling

Thursday afternoon of last week a big blow from the southeast accompanied a drenching rain here. The winds finally got out of the north before the rain storm was over, and more than an inch of rain fell here. The south fronts of businesses let water into the places for the first part of the rain and mopping up was the order of the day. Several TV antennas were blown over and some telephone poles were downed on the divide.

The rain was not general enough but really helped the county where it did fall. Coming about a week from the previous showers, the moisture is making the ranges green up and look good.

Our WASHINGTON Letter

By Congressman O. C. FISHER

Haunted by thoughts of home, there's a lot of restlessness showing up in the House of Representatives these days. Perhaps a month ahead of the Senate in advancing the legislative program, House members are beginning to fuss and fret about delaying tactics in the Senate.

Only recently the Administration-sponsored communications satellites bill, which cleared the House almost unanimously, bogged down in the Senate when Senator Wayne Morse and a small minority of liberals objected to the bill being taken up in the Senate. A one-week filibuster was broken only by an agreement to send the bill to a committee for one week, following which there may be another talkatn by the liberals.

Morse, surrounded by a small group of like-minded liberals, got his dander up when Senator Mansfield, majority leader, objected to some of his tactics. Morse, in a huff, disowned Mansfield as his future leader. Republicans facetiously hinted that turncoat Morse, who deserted the Democrats a few years ago, might be about to do another turn-about and they speculated on what they would do with the prodigal if he did return to his first-love.

Earlier in the session the Senators killed the better part of three weeks debating a bill, of doubtful constitutionality, prohibiting literacy tests applied to voters in various states. The abortive effort very properly went down the drain, but not until some Senators had made a record which they could point to appeals to gullible, racial-minded, minority group voters this fall. And that one also marked another defeat for Attorney Bobby Kennedy, who has spent a good part of his time in office dreaming up new schemes to use in trying to prove to Negro voters that he is their Fair Haired Boy in the political sense. And so it goes.

Among recent guests have been Lt. Col. and Mrs H. Reed Faust, of Comfort, now stationed at nearby Ft. Meade, Md.; Mr and Mrs Otho Drake, and Olen B. Selman, of San Angelo; also Lt. Col. W.D. Tatsch of San Angelo.

Nona Gaye, Becky, and Duane Blair are in Robert Lee this week visiting their grandparents, Mr and Mrs Odgen Mskiney and Mr and Mrs Jeff Blair.

LIONS CLUB

Dr Wm. J. Swann talked on clean-up for the town at the Lions Club program Wednesday. Jay Latson of Ft. Worth was a guest. The prize went to Will Durham.

Dr Swann said the clean-up for our city should be a year-round or continuous affair. He said in a community effort perhaps we could work out a regular schedule of pickups of trash and garbage. The town is already attractive to passers through, but a stable year-round program would make it more so, the speaker added. He thought civic pride would be heightened by a cleaner, nicer town.

With an interest in community health, he said the town needed a building code for the disposals, etc. A cleaner, neater town would cut down on insects such as flies and mosquitoes, said Swann.

President W.R. Brooks read a letter from KMID-TV asking that a Sterling panel of person appear on their TV community program, telling about Sterling City.

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 46 proposing an Amendment to Article III of the Constitution of Texas by adding to Article III a new Section to be known as Section 49-d authorizing the Texas Water Development Board to acquire and develop storage facilities in reservoirs and to dispose of such storage facilities and water upon such terms as the Legislature shall prescribe; providing for the use of funds received from the disposition of acquired storage and water; providing that any enabling legislation be invalid because of their anticipatory character; prescribing the form of ballot and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new Section thereto to be known as Section 49-d, as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use, enjoyment and benefit of the people. To this end, and with the approval of the Board of Water Engineers or its successor, the proceeds from the sale of State bonds deposited in the Texas Water Development Fund as provided in Article III, Section 49-c of this Constitution, may be used by the Board of Water Engineers or its successor, under such provisions as the Legislature may prescribe by general law, for the additional purposes of acquiring and developing storage facilities, for the conservation and development of water for useful purposes in and from reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, by any one or more of the following governments or governmental agencies: the State of Texas, any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations.

State bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the State's investment.

The aggregate of the bonds authorized by said Section 49-c, plus the principal of the obligations incurred under any contracts authorized hereunder, shall not exceed the Two Hundred Million Dollars (\$200,000,000) in bonds authorized by said Section 49-c of Article III of this Constitution.

The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the State that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Board of Water Engineers or its successor authorizing the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use, enjoyment and benefit of the people. Money received from the sale, transfer or lease of storage facilities shall be used to pay principal and interest on State bonds issued for contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities may be used for the acquisition of additional storage facilities or for providing financial assistance as authorized in Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities and the payment of principal and interest on debt incurred.

Should the Legislature enact enabling legislation in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on November 6, 1962, at which election all ballots shall have printed thereon:

Well, this may be the last bellyache you will have for a week or more, owing to the fact that I am checking into the hospital, Monday morning. My little silo ain't doing the job and my little legs get so short by night that they don't hardly touch the ground.

I know the rounds, they take your britches away from you and give you one of them little split tail shirts that just covers enough to keep the rest from showing. Then they will assign you a cell and go jabbing you with them long needles. And when they get done with that your behind looks like a honey comb. And every time you raise a squawk the little nurse will say it's the doctor's orders and that stops that argument.

The dear doctor will come by once a day, look at you from a distance and shake his head. He will have on one of them white garbs that makes him look like the grand gobber of the Klu Klux Clan. But them birds shore come in handy, sometimes when your sewer line gets stopped up.

I talked to him, yesterday and he used some words that was as long as A lariat rope. And I just said "Yes Sir". I can just hear them whetting their knives. I hope they do a good job sharpening them for I don't like the idea of being haggled on with a dull knife.

But we can be thankful that we have them pill rollers. They have set several bones for me and done A good job or I wouldn't be here. One time one of them birds wanted to cut my leg off and the other didn't, so he set it and now it is the best leg I have got.

So long live the pill rollers and hope they get paid for some of the wonderful work they do.

"Section 11. The Legislature may by law authorize the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, each district to be coterminous with the limits of such county."

"If any such district is created, it may be authorized to levy a tax not to exceed Seventy-five Cents (75c) on the One Hundred Dollar (\$100) valuation of taxable property within the district; provided, however, no tax may be levied until approved by a majority vote of the participating resident qualified property-tax-paying voters who have duly renounced their property for taxation. The maximum rate of tax may be changed at subsequent elections so long as obligations are not impaired, and not to exceed the maximum limit of Seventy-five Cents (75c) per One Hundred Dollar (\$100) valuation."

The maximum tax rate submitted shall be sufficient to discharge obligations, liabilities, and responsibilities, and to maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the purchase, construction, acquisition, repair or renovation of improvements and initially equipping the same, and such bonds shall be payable from said Seventy-five Cent (75c) tax. The Legislature shall provide for transfer of title to properties to the district."
