AROUND  
THE  
COUNTY  
by

ARTHUR BARLEMANN, JR. COUNTY AGENT

Sterling County's tenth confirmed case of screwworms was reported last week. This one came from the Bailey & Finley ranch on the county line between Sterling and Coke County. It was taken from a calf's navel.

Personnel at the laboratory in Mission say that you can just about bet on this type case being screwworms. This is also the experience and observation of many ranchers. Program personnel at Mission say that their experience shows that ninety per cent or better of the navel cases are screwworms.

The ten cases this year compares with seventy-four for the period ending July 31 last year. Last year the largest number of cases were along the North Concho River on the Foster & Hildebrand country, and on William, J.Q. & Lester Foster's country, and on the creeks such as Sterling and Lacey. This year there have been no cases on the river thus far and only two within several miles of Sterling or Lacey. The weekly drops of sterile flies in these areas has paid off well.

During the week of July 14-20, there were ninety cases confirmed in Texas this year; last year there were 1,905 in the same period. Only twelve cases this year came from inside the drop area. Many counties that did have a case during this period inside the drop area were reporting their first case in a month or two.

The USDA Crop and Livestock Reporting Service has just released its estimate of the 1963 wool crop in Texas. Their figures are down six per cent from last year. The 1963 crop shorn and to be shorn is estimated at 46,544,000 pounds (grease basis); last year's crop was 49,752,000 pounds.

The number of sheep shorn is estimated at 5,995,000, five percent below last year's total of 6,344,000. Average fleece weight in the state is expected to be 7.8 pounds, the same as last year. The five year average, (1957-1961), was 8.1 pounds. How do your fleece weights compare?

Texas produced nineteen percent of the national crop last year. Production last year on the national level was 248,538,000 pounds; this year's estimated grease weight production is 241,175,000, or three percent below last year.

Some stockmen may experience trouble with prussic acid poisoning caused by stock grazing stunted plants of the sorghum family according to the extension veterinarian, Dr. C.M. Patterson. The only trouble in this county would come from animals which have excess to johnsongrass in the low areas in pastures or along the roadside ditches.

Prussic acid poisoning results when the plants are stunted by dry weather such as we have had. Johnsongrass is one of the offenders and about the only one that would cause trouble here. Death comes very quickly after animals eat the plants. An animal that is found in time can be saved if a veterinarian can be found to give treatment.

Symptoms are restlessness and fast breathing. Patterson says that animals can be saved sometimes by drenching with syrup or a sugar solution to slow the action of the poison and calling a veterinarian.

Betty Jo Barrett and Rosanne Foster returned home last Saturday from Lamar Tech College, Beaumont, where they were enrolled in the high school twirling clinic.

### JURY DUTY

Jury duty is an experience everybody ought to have.

In a criminal case twelve jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The twelve jurors vary in their ability, temperament, character, education, and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends—the life or liberty of others, and the public good. So it may take them days of talking among themselves, all to agree.

Jury duty calls for insight, common sense, courage, tact, fairness, patience, (especially toward the jurors who disagree with you), good humor, tolerance, balance willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect for the opinions" of others.

More and more women share civic duties, especially as jurors. Time was in Texas when women could not serve on juries. They still cannot in four states.

A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law—the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is concerning.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have any "reasonable doubt,"—not imaginary or far-fetched—acquitt the accused.

Civil cases do not demand a moral certainty, merely the "preponderance" of what you regard as reliable and believable evidence.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Mrs. W.B. Murtishaw of Kingsville spent last week with the Lee Augustines.

Mrs. Vella Jordon of San Angelo spent 3 days last week with Mrs. Lester Foster.

Alfred Chapple enrolled in the second 6-weeks summer school at A.C.C. last week.

## Rain Cools Off Sterling

A half inch rain here Monday cooled off Sterling City and parts of the county, especially to the north and west. Not too much good was done for the pastures, but out here we're thankful even for small favors.

## LIONS CLUB

District Governor Lou Carrothers of Big Spring was a visitor at the Lions Club luncheon Wednesday. The visiting governor talked on the power of friendship and friendliness of clubs and club members.

Billy Bauer was a guest. The prize went to Hal Knight.

W.R. Brooks told the club that the final courthouse bonds had been paid off on Wednesday of this week.

## Alumni Banquet Held Last Saturday

Eighty-six persons attended the Sterling Alumni Banquet last Saturday night at the Town & Country Club in San Angelo. About 175 persons attended the dance that followed, said Mrs. Billy Ralph Bynum, 1963 president.

The western theme was carried out in the decorations and appointments. Mrs. Norman Smith from Las Vegas, N.M. came the longest distance and Vern Davis was recognized as the oldest member present. They were given engraved key chains.

## New Officers

The officers for next year were elected as follows:

Mrs. Nan Davis, president  
Mrs. Bill Cole, vice-president  
Mrs. Finis Westbrook, secretary-treasurer

Mrs. David Glass, historian  
J.Q. Foster, Billy D. Blair, and Clinton Hodges, dance committee.

This year's nominating committee was composed of Mrs. Bill Brooks, Mrs. Hubert Williams, Mrs. J.I. Cope and Mrs. William Foster. Mrs. Jack Turner read their report.

At the banquet Roland Lowe gave the invocation, Mrs. B.R. Bynum welcomed the group, Mrs. Nan Davis welcomed the 1963 seniors and their response was given by Edna Davis.

Larry Glass played dinner music and Mrs. Bill Sims read the history. Mrs. Ross Foster gave the memorial service and Mrs. Stan Horwood read the roll call.

Leonard King's orchestra played for the dance that followed.

## WHY NOT?

Under a buy now, pay later philosophy, the present generation has run the national debt up to \$305 billion. But there is a catch. There is no practical way to pare the debt drastically. So most, if not all of it will be passed on to today's and tomorrow's children.

To help Congress check the growth of this debt, committees of the Chamber of Commerce of the United States have analyzed President Kennedy's 1964 budget and have itemized 117 spending requests that could be cut without hurting national defense or essential services. The cuts could save as much as \$9.1 billion.

Spending is paid by taxes or by incurring debt. (Debt eventually must be paid from taxes.) Thus taxpayers present and future would save this amount.

Texas taxpayers would save \$397,670,000 on small sum to leave in the state to further progress and economic growth and lighten the debt load on its children.

Most of the spending cuts recommended by the Chamber committees, moreover, are in continuing programs. Curbing their size now would make it easier to curb them in the future. Savings, instead of spending, might snowball.

The Bill Barbees of Richardson have been here visiting Mrs. Barbees' parents, Mr and Mrs. Horace Donalson.

Mrs. J.D. Tye of Gilmer, mother of Mrs. Dale Bryce, has been here visiting the Bryces.

By Congressman O. C. FISHER

A proposed atomic test ban, and a move to scrap our restrictions on admission of immigrants, topped the news in Washington last week.

The test ban treaty, which must be ratified by the U.S. Senate to be effective, would commit us, Britain, and the Soviet Union not to set off atmospheric tests. It does not apply to underground testing.

While the objectives are laudable, the value of this agreement must, in the final analysis, depend upon the extent of good faith on the part of the Russians. For they can continue atmospheric tests, without fear of detection, if such tests stay below one kiloton capacity. Our detection techniques simply will not reveal the light weight tests fired in the atmosphere. That is the view of Dr. Edward Teller, the father of the H-bomb and a highly respected authority.

"Such small tests," Teller wrote me recently, "could be decisive in developing missile defense, a field of utmost importance in which the Russians may already have a considerable lead."

Senate debate on ratification will be extensive, and every facet of the problem will be developed. Above everything, we must not lose sight of the fact that the Russians are still communists and are hell-bent on world domination. And up to this time they have never been known to keep faith with an international agreement, unless that course happens to suit their strategy.

President Kennedy proposed last week to scrap our quota system which restricts the admission of immigrants to this country. This system, which has been in effect for more than 40 years, limits the number of new immigrants from European countries and assigns to each country an annual quota based upon the proportionate number of Americans from those various nations, as of 1920.

Minority group pressures have been built up, calling for the scrapping of this quota protection. Certain racial groups from countries entitled to relatively small quotas, want the quota restrictions removed. Only in that way, they figure, can hope to see more of their own racial group admitted. Hence, taking note of this pressure, and the political mileage involved, Truman, Eisenhower, and now Kennedy, have plugged for the scrapping of our time-tested method of admitting new immigrants from Europe. Let's leave it like it is.

## Baptist Revival Starts August 4

The Rev. Norris Taylor of San Angelo will do the preaching at the Baptist revival here August 4-10. He is pastor of the Fort Concho Baptist Church in Angelo and will be here beginning on Monday, Aug. 5, said local pastor Sherman Conner.

Services will be held each week day at 10:30 a.m. and 7:45 p.m. said Conner. The singing will be led by Conner.

A nursery will be operated for those with small children, said Conner.

Dayton Barrett's mother has been critically ill in a Brady hospital. The Barretts went to Brady to be with Dayton's mother last week.

**To Help Them Live Again**

The blind can lead the blind. At the Lisbon government's request, the International Labor Organization (ILO) sent a rehabilitation expert to Portugal for a year to advise on the vocational training of blind workers. The expert, who had successfully completed a similar mission to Brazil, is sightless. ILO mentions the case in reporting on 10 years of expanded aid to the physically handicapped. As a United Nations specialized agency, ILO has set up or assisted at vocational centers for the handicapped in the Philippines, Indonesia, Egypt,

Korea, Ceylon and elsewhere. Through its efforts the blind have learned to weave, type, operate telephone switchboards and work in factories. Disabled trainees have been graduated into such diverse fields as welding and poultry-raising. All of ILO's rehabilitation aims at equipping the disabled for full integration into the community's productive activities. Success has been gratifying, says ILO, concluding: "By modern vocational rehabilitation techniques, earning power can be restored to the majority of disabled persons."

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 9, 1963. SENATE JOINT RESOLUTION NO. 26 proposing an amendment to Article XVI, Section 62 of the Constitution of the State of Texas, to create a new subsection authorizing all political subdivisions of Jefferson County, Texas, to provide retirement, disability and death benefits for all appointive officers and employees of all political subdivisions within Jefferson County; providing for the necessary election, form of ballot, proclamation and publication.

Highlight Summer Meals With Sparkling Molded Salads

A beautiful molded salad will always take top honors. Shimmering high with color and flavor, this one takes after the famous gazpacho of Spain. Canned condensed tomato soup is the base—fresh summer vegetables are the fill. Surround the platter with cold sliced ham and turkey... brownies a la mode for dessert... iced tea to drink.

Molded Gazpacho

- 1 envelope unflavored gelatin
1/2 cup cold water
1 can (10 1/2 ounces) condensed tomato soup
1 tablespoon vinegar
Dash salt
Dash "Tabasco"
1/2 cup chopped cucumber
1/2 cup finely chopped green pepper
1/4 cup minced onion
Crisp salad greens

In saucepan, soften gelatin in cold water. Place over low heat, stirring until gelatin is dissolved. Remove from heat; stir in soup, vinegar, salt, and "Tabasco". Chill until slightly thickened. Fold in cucumber, green pepper, and onion. Pour into a 3-cup mold. Chill until firm. Unmold; serve on salad greens. If desired, garnish with thin cucumber slices.

Canned condensed consommé combines with fresh vegetables for another sparkling molded salad. This time use carrot, celery, and green onion. It's exquisite in appearance, delicious in flavor, and low in calories!

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 9, 1963.

SENATE JOINT RESOLUTION NO. 16 proposing an amendment to Section 49-b, Article III of the Constitution of the State of Texas, to increase the total amount of bonds or obligations that may be issued by the Veterans' Land Board to Three Hundred Fifty Million Dollars (\$350,000,000); providing for the issuance of said bonds or obligations and the conditions relating thereto and the use of the Veterans' Land Fund; and providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III of the Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. By virtue of prior Amendments to this Constitution, there has been created a governmental agency of the State of Texas performing governmental duties which has been designated the Veterans' Land Board. Said Board shall continue to function for the purposes stated in all of the prior Constitutional Amendments except as modified herein. Said Board shall be composed of the Commissioner of the General Land Office and two (2) members to be appointed by the Senate; one of whom shall be well versed in veterans' affairs and one (1) of whom shall be well versed in finances. One (1) such citizen member shall be appointed biennially by the Governor to serve for a term of four (4) years; but the members serving on said Board on the date of adoption hereof shall complete the terms to which they were appointed. In the event of any such citizen member, the Governor shall appoint a replacement to serve for the unexpired portion of the term to which the deceased or resigning member had been appointed. The compensation for said citizen members shall be as is now or may hereafter be fixed by the Legislature; and each shall make bond in such amount as is now or may hereafter be prescribed by the Legislature."

"The Commissioner of the General Land Office shall act as Chairman of said Board; and the administrator of the Veterans' Land Program under such terms and restrictions as are now or may hereafter be provided by law. In the absence or illness of said Commissioner, the Chief Clerk of the General Land Office shall be the Acting Chairman of said Board with the same duties and powers that said Commissioner could have in present."

"The Veterans' Land Board may provide for, issue and sell to not exceed Three Hundred Fifty Million Dollars (\$350,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund, Two Hundred Million Dollars (\$200,000,000) of which have heretofore been issued and sold. Such bonds or obligations shall be sold for not less than par value and accrued interest; shall be issued in such forms, denominations, and upon such terms as are now or may hereafter be provided by law; shall be issued and sold at such times, at such places, and in such installments as may be determined by said Board; and shall bear a rate or rates of interest as may be fixed by said Board but the weighted average annual interest rate, as that phrase is commonly and ordinarily used and understood in the municipal bond market, of all the bonds issued and sold in any installment of any bonds not to exceed four and one-half percent (4 1/2%). All bonds or obligations issued and sold hereunder shall, after execution by the Board, approved by the Attorney General of Texas, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchaser or pur-

chaser, be incontestable and shall constitute general obligation of the State of Texas under the Constitution of Texas; and all bonds heretofore issued and sold by said Board are hereby in all respects validated and declared to be general obligations of the State of Texas. In order to prevent default in the payment of principal or interest on any such bonds, the Legislature shall appropriate a sufficient amount to pay the same.

"In the sale of any such bonds or obligations, a preferential right of purchase shall be given to the administrators of the various Teacher Retirement Funds, the Permanent University Funds, and the Permanent School Funds.

"Said Veterans' Land Fund shall consist of any lands heretofore or hereafter purchased by said Board until the sale price thereof, together with any interest and penalties due, have been received by said Board (although nothing herein shall be construed to prevent said Board from accepting full payment for a portion of any tract), and of the moneys attributable to any bonds heretofore or hereafter issued and sold by said Board which moneys so attributable shall include but shall not be limited to the proceeds from the issuance and sale of such bonds; the moneys received from the sale or resale of any lands, or rights therein, purchased with such proceeds; the moneys received from the sale or resale of such lands, or rights therein; the bonuses, income, rents, royalties, and any other pecuniary benefit received by said Board from any such lands; sums received by way of indemnity or forfeiture for the failure of any bidder for the purchase of any such lands; the interest and penalties received from the sale or resale of such lands; and interest received from investments of any such moneys. The principal and interest on the bonds heretofore or hereafter issued and sold by said Board shall be paid out of the moneys of said Fund in conformance with the Constitutional provisions authorizing such bonds; but the moneys of said Fund which are not immediately committed to the payment of principal and interest on such bonds, the purchase of lands as herein provided, or the payment of expenses as herein provided may be invested in bonds or obligations of the United States until such funds are needed for such purposes.

"All moneys comprising a part of said Fund and not expended for the purposes herein provided shall be a part of said Fund until there are sufficient moneys therein to retire fully all of the bonds heretofore or hereafter issued and sold by said Board, at which time all such moneys remaining in said Fund, except such portion thereof as may be necessary to retire all such bonds which portion shall be set aside and retained in said Fund for the purpose of retiring all such bonds, shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All moneys becoming a part of said Fund thereafter shall likewise be deposited to the credit of the General Revenue Fund.

"When a Division of said Fund (each Division consisting of the moneys attributable to the bonds issued and sold pursuant to a single Constitutional authorization and the lands purchased therewith) contains sufficient moneys to retire all of the bonds secured by such Division, the moneys thereof, except such portion thereof as may be necessary to retire all of the bonds secured by such Division which portion shall be set aside and remain a part of such Division for the purpose of retiring all such bonds, may be used for the purpose of paying the

Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

principal and the interest thereon, together with the expenses hereof, of any other bonds heretofore or hereafter issued and sold by said Board. Such use shall be a matter for the discretion and direction of said Board; but there may be no such use of any such moneys contrary to the rights of any holder of any of the bonds issued and sold by said Board or violative of any contract to which said Board is a party.

"The Veterans' Land Fund shall be used by said Board for the purpose of purchasing lands situated in the State of Texas owned by the United States or any governmental agency thereof, owned by the Texas Prison System or any other governmental agency of the State of Texas, or owned by any person, firm, or corporation. All lands thus purchased shall be acquired at the lowest price obtainable, and shall be a part of said Fund. Such lands heretofore or hereafter purchased and comprising a part of said Fund are hereby declared to be held for a governmental purpose, although the individual purchasers thereof shall be subject to taxation to the same extent and in the same manner as are purchasers of lands dedicated to the Permanent Free Public School Fund.

"The lands of the Veterans' Land Fund shall be sold by said Board in such quantities, on such terms, at such prices, at such rates of interest and under such rules and regulations as are now or may hereafter be provided by law to Texas veterans who served not less than ninety (90) continuous days, unless sooner discharged by reason of a service-connected disability, on active duty in the Army, Navy, Air Force, Coast Guard or Marine Corps of the United States between September 16, 1940, and March 31, 1945, and who upon the date of filing his or her application to purchase any such land is a citizen of the United States, is a bona fide resident of the State of Texas, and has not been dishonorably discharged from any branch of the Armed Forces above-named and who at the time of his or her enlistment, induction, commissioning, or drafting was a bona fide resident of the State of Texas. The foregoing notwithstanding, any lands in the Veterans' Land Fund which have been first offered for sale to veterans and which have not been sold may be sold or resold to such purchasers, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now or may hereafter be provided by law.

"Said Veterans' Land Fund, to the extent of the moneys attributable to any bonds heretofore issued and sold by said Board may be used by said Board, as is now or may hereafter be provided by law, for the purpose of paying the expenses of surveying, monumenting, road construction, legal fees, recordation fees, advertising and other like costs necessary or incidental to the purchase and sale, or resale, of any lands purchased with any of the moneys attributable to such additional bonds, such expenses to be added to the price of such lands when sold, or resold, by said Board; for the purpose of paying the expenses of issuing, selling, and delivering any such additional bonds; and for the purpose of meeting the expenses of paying the interest or principal due or to become due on any such additional bonds.

All of such moneys then remaining or thereafter becoming a part of said Veterans' Land Fund shall be governed as elsewhere provided herein.

"All of the moneys attributable to any series of bonds heretofore issued and sold by said Board (a series of bonds being all of the bonds issued and sold in a single transaction as a single installment of bonds) may be used for the purchase of lands as herein provided, to be sold as herein provided, for a period ending eight (8) years after the date of sale of such series of bonds; provided, however, that so much of such moneys as may be necessary to pay interest on bonds heretofore issued and sold shall be set aside for that purpose in accordance with the resolution adopted by said Board authorizing the issuance and sale of such series of bonds. After such eight (8) year period, all of such moneys shall be set aside for the retirement of any bonds heretofore issued and sold and to pay interest thereon, together with any expenses as provided herein, in accordance with the resolution or resolutions authorizing the issuance and sale of such additional bonds, until there are sufficient moneys to retire all of the bonds heretofore issued and sold, at which time all such moneys then remaining a part of said Veterans' Land Fund and thereafter becoming a part of said Fund shall be governed as elsewhere provided herein.

"This Amendment being intended only to establish a basic framework and not to be a comprehensive treatment of the Veterans' Land Program, there is hereby reposed in the Legislature full power to implement and effectuate the design and objects of this Amendment, including the power to delegate such duties, responsibilities, functions, and authority to the Veterans' Land Board as it deems necessary.

"Should the Legislature enact any enabling laws in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall become effective upon its adoption."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Saturday after the first Monday in November, 1963, at which election all ballots shall have printed thereon the following:

"FOR the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such funds to be expended in accordance with instructions and requirements that may be provided by law; and

"AGAINST the Amendment to Section 49-b of Article III of the Constitution of Texas to increase the Veterans' Land Fund by \$150,000,000.00; said Fund to be used for the purpose of purchasing land in Texas to be sold to Texas veterans who served in the Armed Services of the United States between September 16, 1940, and March 31, 1945; such funds to be expended in accordance with instructions and requirements that may be provided by law."

If it appears from the returns of said election that a majority of the votes cast were in favor of same Amendment, the same shall become a part of the State Constitution and be effective from the date set forth in said Amendment, and the Governor shall issue a proclamation in keeping therewith.

Section 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution and Laws of this state.

## 30 MILLION WOMEN . . . Education Determines Jobs Ahead!

National 4-H Service Committee Photo

Within the next decade about 30 million women are expected to be holding down jobs, says the U. S. Department of Labor. Women now make up about one-third of the total labor force of 75 million. Modern invention and technological advances will add new jobs to the wide span already being filled by women. Many positions are and will be in the home economics field. Employers indicate that more professionally educated women are needed, and those trained in specific skills as well.

### Educators Urge Early Career Choice

Today educators urge students to complete high school, and make an early choice of career so that later training and education can be planned accordingly. One group of young women who have a head start, reports the National 4-H Service Committee, are 4-H members.

#### 1.3 Million Girls

At some time during club membership, nearly every one of the 1.3 million girls now enrolled in 4-H receives some training in her dual role of future homemaker and career woman.

Sewing, meal planning, nutrition, home management, interior decoration, fashion and consumer education are among

the projects in which 4-H Club members participate.

They start in 4-H as young as 9 years of age, and many remain for as long as 10 years. Volunteer adult and junior 4-H leaders supervised by the Co-operative Extension Service head the local clubs.

Helping to encourage these future home economists, scientists, writers, mothers, teachers and business women are two corporations that annually contribute funds, educational literature and technical assistance to the national 4-H clothing and the foods-nutrition programs.

#### Scholarships Help

They are Coats & Clark Inc., which this year will help 12 girls with their college education by way of \$500 national clothing scholarships.

General Foods Corporation

will give six \$500 scholarships to top-ranking club members in the 4-H foods-nutrition program.

#### Chicago Delegates

Both firms will bring to Chicago as delegates to the week-long National 4-H Club Congress state award winners from all 50 states and Puerto Rico—102 in all. Here they will be honored by their hosts at elegant parties and banquets.

During the week-long congress these talented teens will hear prominent educators and noted speakers. Along with 1300 fellow 4-H'ers they will participate in several challenging and inspiring events. For most, it will be the first trip to a big city.

Coats & Clark and General Foods are but two of hundreds of private enterprises helping the youth of this country achieve future goals.

### D.P.S. Needs Patrolmen

Major Leo E. Gossett, Commander of the sprawling West Texas Region of the Texas Department of Public Safety announced today the Texas DPS is now accepting applications from young men who are interested in becoming patrolmen with the four field services of the Department. Vacancies now exist in the License and Weight Service, Driver License Service and Highway Patrol Service.

"The last session of the Texas Legislature authorized beginning salaries ranging from \$441.00 - \$453.00 per month, plus other job benefits," Gossett said. Young men between 21 and 35 years of age who can meet the basic qualifications

are urged to contact the nearest DPS Office for further information and application forms.

Basic qualifications for applicants are: He must be between 21 and 35 years of age, sound physically, high school education, residents of Texas for at least one year immediately prior to submission of application, of good moral character, and willing to accept assignment anywhere in Texas.

Upon successful completion of the entrance examination process, recruits are given 16 weeks of intensive training at the Department's Law Enforcement Academy in Austin, after which the successful recruit emerges a commissioned officer in top-flight mental and physical condition.

**doughBelly Price Dead**

An ex-cowpuncher, rodeo hand, and prospector, dough-Belly Price, died in a Taos hospital June 8th, following a long illness. He was 66. Few knew him by his given name, Steven Carrol. A brief period as camp cook on a cattle drive when he was a young man earned him the name by which he was best known. During his rodeo days, he was a member of the Tex Austin group that made several European appearances. In recent years, he operated a real estate firm in Taos. Survivors include his wife, two step-daughters, and two brothers: Romie, Apache Creek, and Goober, Belen.

*What in the WORLD!* by TED  
**The Silent Struggle**

Man is waging atomic warfare against insects. First successful against screwworm flies, the technique is being used against a widening variety of other insect pests, says the International Atomic Energy Agency (IAEA). The screwworm larva has infested Southwest cattle herds for years. In 1933 it spread to the Southeast, where damage had reached \$20 million a year when a vigorous radiation campaign was launched in 1958. The technique involves sterilizing captive male flies with cobalt-60 radiation and releasing them. Females that mate with radiated males lay sterile eggs, thus reducing the fly population at the source. In 16 months, 3 billion sterile flies were released, and the Southwest's scourge was wiped out. The cost: \$10 million—half the annual loss in infested cattle. In Athens recently IAEA, a United Nations affiliate, sponsored a worldwide symposium on atomic warfare against insects. A hundred scientists from 28 countries reported that the technique is being extended to other insect pests: the olive fly in Greece, malaria-bearing mosquitoes in Indonesia, fruit flies in the United States. Other experiments are aimed at eliminating tsetse flies, roaches, ants, bedbugs and house flies.
