Social Security Tips

"Area residents should file their social security claims before they retire in order to insure prompt payment of benefits," Floyd B. Ellington, social security district manager in San Angelo, said today.

Many people of retirement age do not get their first social security checks as early as they might, simply because they waited too long to apply for their benefits, Ellington pointed out.

Applications may be filed any time within three months of when a person wants benefits to start. Since the average processing time of a claim is 4 weeks, Ellington advised people to take advantage of this early filing and submit their applications as soon as possible.

Many claims are delayed because the applicants do not have the necessary information or papers to establish their eligibility for benefits, he said. These delays could be avoided if people would get in touch with social security office ahead of time to find out what they should bring with them when they apply for benefits.

Ellington stated that a short visit or phone call to the social security office before the time of filing can significantly speed up the processing time of the application.

The San Angelo District Office is located at 204 Continental Bldg. The phone number is 653-6861.

It was most interesting to see how the families take part in the fair. On one side of the fairgrounds was what is called tent city. Here, families come to spend the week at the fair. They bring their tents and pitch them in the tent city area. Cooking, eating, and sleeping is done in the tents and the week serves as vacation for the family.

Ranchers are reminded that claims for the refund of the federal tax on gasoline used on the ranch are due in the office of the internal revenue service on or before September 30.

This refund of four cents per gallon is for gasoline and diesel used during the year beginning July 1, 1962 and ending June 30, 1963. It has no connection with the refund of the state tax.

Those who filed claims in 1962 should have received their blanks some time ago. If yours has gone astray, you can get blanks and instruction booklets at the county agent's office.

Sterling County has had only eleven cases of screwworms confirmed by the eradication program laboratory through the month of August. At the same time in 1962, ninety-three cases had been mailed in and confirmed at the laboratory. The last case this year was on July 27th.

Certainly, the dry weather has been a factor in the reduction of cases this year but it is doubtful that all the credit can be given to the weather. The control program is working in all areas of the state and the hot-spot method of treatment in areas out of the drop zone is most effective.

Even though the number of cases has been reduced sharply, there is still a need for inspection of livestock by the producer. In the next two or three months, cases could break out in the event of wet weather. Each producer should inspect his livestock regularly, and treat all cases promptly, and be alert for any animals with wounds that could serve as potential screwworm cases.

Sterling City as green as any of Texas on our return from our vacation trip. Coming through East Texas and Central Texas which usually is much greener at this time of the year, we found part of the state greener than many other parts. The rainfall in all of the state is short. Crops are showing the effects of it in all of Texas.

Nor is the dry weather confined to Texas. Other states are also suffering from a shortage of rain. In Kansas, Oklahoma, they are also considerably below their normal for this time of the year. Parts of Missouri and Illinois are also somewhat short. The corn crop, which was in the roasting ear stage and needed rain, is being put into the silo in some sections. They figure that it will be worth more in the form of silage than grain in the dry areas.

While visiting Lincoln's home and tomb in Springfield, Illinois, we had the opportunity of visiting the Illinois State Fair which was in progress at the time. It was an experience to see their fair.

It was evident that they have more participation from the individual farmer. Being in the corn belt and hog producing area, they have a large hog show. 4-H club members, FFA members, and adults all show. I would not guess how many hogs were on the grounds but there were plenty of them. There was a big dairy show, quite a few beef cattle, a good number of sheep, and horses of all types. It seems that nearly every farmer has one or two hogs that he thinks are pretty good; a cow or bull of which he is especially proud, or, a draft horse or mule that is above average. He takes them to the fair and lets the judge decide

Social Security

Many people are not aware they don't have to retire completely to receive social security benefits according to Floyd B. Ellington, social security district manager.

Ellington stated that special provisions in the social security law make it possible to receive some social security benefits even though a person may have fairly high earnings. He explained that a person can earn \$1200 during the year and receive all of his benefits. And just \$1 in benefits is withheld for every \$2 earned between \$1200 and \$1700. For earnings over \$1700, \$1 in benefits is withheld for each \$1 earned.

Ellington pointed out that a full month's benefits is payable for any month in which the beneficiary does not earn over \$100 in wages and does not actively engage in self-employment.

Ellington urged all workers to visit the social security office when they near retirement age to learn more about their benefit rights. The office is located at 204 Continental Bldg., San Angelo, Texas.

Has disability robbed you of your earnings capacity? If so, you should check with your social security office, according to Floyd B. Ellington, district manager in San Angelo.

Monthly benefits can be paid at any age to working people who have become unable to work by reason of a severe disability that is expected to last for a long time. Benefits begin with the seventh month of disability, but an application may be made before that time. To be eligible, the disabled worker must have social security for at least 5 years' work in the ten year period before he became disabled.

When you make your application, the social security office will assist you in securing the medical evidence necessary. When this evidence has been obtained, along with other facts, a decision will be made as to whether your condition is severe enough to qualify you as "disabled" under the terms of the law.

If you think you meet the requirements or know of anyone who may be eligible, get in touch with the social security office in San Angelo as soon as possible. Delay may result in a loss of benefits.

Labor Day Traffic Toll Forecast

The director of the Texas Department of Public Safety announced today an estimated 31 persons will be killed in traffic crashes in Texas over the three-day Labor Day weekend, and called for "an all-out effort to prove the statistics are wrong."

Col. Homer Parrison Jr. pointed out that the estimate by the DPS Statistical Services is based on past experience, but added:

"There is always a chance that it can be proved too high if motorists will put forth a concentrated effort to hold the line by driving within safe and legal limits and remaining especially alert to the added dangers of holiday travel."

To emphasize these hazards, he said, "Operation Motorcade" will be placed in effect from 12:01 a.m. Saturday, August 31 through 11:59 p.m. Monday, September 2. During this period, all traffic fatalities on the streets and highways of the state will be tabulated and released three times daily to the public through the cooperation of the news media.

In addition, the Department of Public Safety will do everything possible with the

THIS new show-off party punch is sure to be a sensation with young graduates. Start with an envelope of instant soft drink mix, add frozen strawberry halves and mint leaves for a colorful garnish, and serve icy-cold in a watermelon shell punch bowl.

Minted Melon Cooler

1 small watermelon; 1 envelope Pineapple-Grapefruit Kool-Aid; ½ cup sugar; 2 quarts water with ice cubes; 1 package (10 ounces) frozen strawberry halves; mint leaves (dried or fresh).

First prepare the melon: slice a lengthwise section from the top of the melon. Scoop out the fruit and seeds. Then cut diagonal sections from the rim to make jagged scallops. Chill melon shell thoroughly.

Meanwhile, dissolve instant soft drink mix and sugar in water with ice cubes. Add frozen strawberries and let stand until thawed. Add mint leaves. Pour drink into melon shell for serving. Makes 2½ quarts or about 17 servings.

limited manpower available to stop reckless and illegal driving on the highways, Garrison said. Officers from other DPS uniformed services will be assigned for the holiday period to High way Patrol duty to add to the enforcement effort.

The DPS Director said Labor Day this year comes at a time when traffic tragedy for the year 1963 appears to be heading for an all-time high. He reported that more than 1,400 persons have been killed already this year for an increase of some eight per cent, adding that if the trend continues the toll will exceed the high of 2,611 persons killed in 1956.

Garrison noted that several public and private agencies are carrying on programs to supplement the safety emphasis effort for the Labor Day Holiday. The Texas Safety Association will conduct a public information program stressing the need for courtesy and caution. TSA Vice-President W.F. (Bill) Leonard will coordinate the efforts of Junior Chambers of Commerce over the state in operating numerous "rest stops" for fatigued drivers to whom free coffee will be served. The Texas Association of Broadcasters will conduct a statewide "Drive Lighted and Live" program in which appeals will be made to motorists to drive with their headlights on dim during the daylight hours to focus attention on the need for legal and safe driving.

The Texas Highway Department will carry on a continuing information and education program instructing drivers in freeway driving and the need for caution near highway construction areas. And the Texas Council of Safety Supervisors and the Texas Motor Transportation Association will sponsor a fleet of 35 to 40 cars which will be used to assist stranded motorists over the state. This "Holiday Road Patrol" will be manned by the safety directors, safety supervisors and safety engineers of the trucking industry who comprise the membership of the Council. Its primary purpose is to help relieve highway patrolmen for enforcement work by aiding motorists in distress.

Candy or Cooky — You Choose!

By Betty Barclay

A new dimension has been added to some of our old time favorite recipes now that caramel chips and lemon chips have joined chocolate chips on the grocers shelves.

Here, for example, is a caramel chip variation of the ever-popular Alpha-Bit Confection—part candy, part cooky. All you do is melt one cup of caramel chips over hot water. Remove from heat and mix in two cups of alphabet oat cereal and half a cup of chopped nuts. Drop by teaspoonfuls onto waxed paper or shape into balls. Be hold! some 24 delicious candies—or cookies. You makes 'em and you takes your choice.
