Five Area Plans Open House Ceremonies

On Sunday, November 11, the Five Area Telephone Cooperative will have phone Cooperative will have their open house at their new buildings located directly behind the Bailey

County Civic Center and Coliseum. The open house will begin at 2 and last until 6 p.m. with refreshments and door prizes all the while. "We at Five Area are proud of our new facilities and we hope that those who are members will feel the same and help us to celebrate," says Hubert Kidd, manager of the Coop.

After 26 years as a chartered cooperative and some 33 years of hard work, we now have a home of our own," Kidd said. A new device which will be introduced soon for Five Area customers is the mechanical calling card service, or MCCS. This is the new name assigned to telephone credit cards. For those subscribers who are now using credit cards, the change will be slight. For all other subscribers, the possibility of applying for a Five Area credit card might be looked into.

MCCS is a new computer system for using and billing credit card calls. It is designed by the Bell system to help eliminate

his efforts. Second place was taken this week by our own coach Scott Murray. Murray missed six games and was five points off in the tiebreaker. He will get a check for \$3 and six points towards the end of the contest.

Tied for third place are Sam Gonzales and D. Wade Cargile, who both were six points off of the tiebreakers and missed six games each. They will split both money and points, receiving \$1 each and 2 points for their work.

In what may well go down as a record in Bailey County, voters flocked 2096 strong out of 3366 registered voters to vote in Tuesday's November 2 general election. Bailey County Clerk, Hazel Gilbreath stated that this was "most likely the largest number on record to have voted in an 'off' election year, or non presidential year. In the 1980 general election, Bailey County turned out by 2651 and in 1978, the last 'off' year prior to 1982's, only 1573 turned out to vote."

Another record was probably broken with this year's voting, as well, in that a

didate, was 858 votes to the good when all were tallied at about 11:30 p.m. Tuesday, to close out her opponent Dee Treadwell with a total vote of 1320 to 462.

In the third contested race, Dorothy Turner won by perhaps one of the largest majorities in the County. Turner tallied 1729 votes to her opponent, Jean Treadwell's 301 votes, a wide margin of 1528 votes.

In the race for Justice of the Peace, Precinct 1, Jack Bates won over Paulette Cuevas by a margin of 283 votes. Bates received 431 votes to Cuevas' 148.

In other county races, although unopposed, the candidate for County Clerk, Barbara McCamish received 1656 votes, Kathleen Hayes for County Tax Assessor - Collector received 1662 votes.

In the County Commissioners' races, for Precinct 2, Roy Whitt received 407; for Precinct 4 Rudolph Mo-

Police Badgered By Minor Incidents

Muleshoe Police have been busy over the past week, with accidents, thefts and criminal mischief, along with a number of public intoxications.

On October 31, City officers investigated an accident with injuries at the corner of Avenue E and West 5th Street. The driver of one of the vehicles was arrested and jailed on a charge of DWI. A witness indicated that Costilla was driving on the wrong side of the road. One person was taken to a Lubbock hospital and some others to West Plains Medical Center.

Sheriff Asks Commissioners For More Help

On November 1, the Bailey County Commissioners met in special called session in the courthouse.

Meeting with the court was Sheriff Bob Henderson who requested some extra assistance in his office in the form of an extra jailer. The Court took no action on this matter at this time. Cont. Page 6, Col. 4

On October 29, Santos Rincon of Hereford was arrested following a rear-end collision with another vehicle which was being driven by Maria Ybarra. Officers reported Rincon to have been following the Ybarra vehicle at a very close distance. He was later released on bond.

On October 30, Sarpio Vasquez reported to have been following the Ybarra vehicle at a very close distance. He was later released on bond.

On October 30, Sarpio Vasquez reported to local officers that someone had taken lumber and nails from a construction site at 609 West 9th. The theft was thought to have occurred sometime during the night of October 29.

Adeline Zimmerman reported to police officers that someone or ones threw or hit her windows at the Muleshoe Manor on October 30. Also on the 30th, Nazrio Flores was assulted for disorderly conduct, (abusive language) and simple assault, by local police. He was placed in jail pending bond. Cont. Page 6, Col. 4

Mules Venture To Hornet Territory This Friday

Well, football fans, it's really on the line this Friday night as the Mules will venture into the Tulia Hornet's nest hoping to come out unscathed with a win. If...if...if... Tulia gets beat and if Friona gets beat and Dimmitt pulls it out against Abernathy, the second place title for District 2-3A will become a three way tie and will be decided by the flip of a coin. According to Coach Windy Williams, he has never been lucky on a coin toss, so it just might be that his run of luck could change.

At any rate, look for an all out battle Friday, as Coach Mike Sullivan will be pulling out all the stops for a big win over the Mules. Sullivan says his team is healthy, they are strong and their workouts have been good. "Our lack of experience is our only drawback," Sullivan said, "and, we have made a big transition from one district to another." As far as tactics, the Tulia team has about the same basic formations as the Mules, and to quote him: "We will run out of a multiple wing T offense and mix up everything we have to go with against the Mules."

Coach Windy Williams has no delusions about Friday's game. "This is it, if we don't win it, we are out."

Migrant Council Still Registering

David Gutierrez, Center Director of the Texas Migrant Council in Muleshoe announced recently that the Council is still registering children who are 2 1/2 to 5 years of age.

Qualifications for registration are based on whether or not the children are migrant children and seasonal farm workers. In order to register, information is needed regarding immunization records, birth certificates, social security number, date of household, annual income and proof of immigration. Cont. of district play for 1982." Williams, however, says that "Though we don't feel good about losing (Friday), we've had good workouts. Our kids are intelligent, they can see mistakes just the same as anybody and they don't blame others. Losers blame others for their losses, these kids are not losers!"

Named once again as offensive player of the week

Football Contest Eludes Two-Time Winners

Winners of the October 28 football contest are now official, and though we have not been able to tote up the entire standings for the season, just a glance has told us that Jerry Gleason is still in the over all lead for the contest. From there on, we will have to put a pencil to it.

Taking first place in the contest this week was Raul Lozano of Muleshoe. Raul missed five games and was 20 points off in the tiebreakers, however, he had just enough edge to move him into first. He will receive 10 points and \$6 for

against Friona was Alex Paez, and two were named for defensive players: Hector Flores and Roby Wilson.

The Mules have a few bumps and bruises, some sprains, but nothing in the serious way of injuries. Hopefully, Williams will have all of his squad back in play, with a lot depending on the rest of the

Junior Varsity Mules Cop District 2-3A Title

The Muleshoe High School Junior Varsity Mules have just taken the District 2-3A title with a total overall record of 6-2, losing only to Portales and

Idalou, both non-district games.

Coach Scott Murray and Jerry Robinson are just about as proud as any coaches could be of their JV team - "They wanted it (the district) and they took it," said Murray, in a telephone interview Tuesday.

Murray also gave a little background on the team stating that they started out with a small team with about 15 or 16 players and everybody having to play both ways, both offense and defense. "We had some good, tough players, all outstanding," Murray said. He specifically mentioned Isaac as a good lineman, Eddie Perez as a top receiver and two apt and adept quarterbacks in Mark Moton and Todd Jones.

"Our passing average per game set at about 100 yards, with about 150 per game in rushing," Murray said. "There were at least four games - namely those against Farwell, Abernathy, Dimmitt and Friona where we had over 400 yards total offense." Murray proudly pointed out.

Members of the 1982 Junior Varsity team are:

Mark Moton, quarterback; Todd Jones, qb-end; Michael DeL Toro, wingback; Eddie Perez, end; Jerry Gleason, fullback; Smiley Orozco, tailback; Paul Silguero, wingback; Carlos Carmona, fullback and Chad Williams, guard-end.

Other players were Noe Mora, tackle; Jason Scoggins, guard; John Isaac, tackle; Chris Hernandez, center; Rob Donaldson, end; Derrick Magby, tailback and Danny Sanchez, guard. As pointed out previously, all of those boys played dual roles on offense and defense, but the ones listed are the offensive positions.

For game records, it may be noted that in their first game, the JV Mules fell to Portales by a mere two points in a 6-8 ballgame. Their second game, against Farwell, went slightly more their way with a 40-2 rack-up against the JV Steers. Idalou came back however, and took the sweet out of the victory over Farwell with a 0-30 shutout by the Wildcats.

Getting geared up for district play, however, the Cont. Page 6, Col. 3

Halloween Carnival Draws Large Crowd

The PTA Halloween carnival was held Saturday, October 30 in the Bailey County Coliseum. From the moment Mrs. Toni Eagle blew her whistle and announced "Let the carnival begin", until her final whistle blew at 9 p.m. the building was filled with miniature goblins and their families. Enjoying the game booths and refreshments were witches, mummies, a host of clowns, one big turkey and many other costumed children.

Volunteers manning the game booths greeted large crowds and many of the booths used all their prizes by the end of the evening.

Judges awarded ribbons to the following booths: first place, the spook house from Mrs. Skipworth's and Mr. Brewer's classes; second place, Prather's Pumpkin patch from Mrs. Prather's class; and tying for third were the duck pond sponsored by Mrs. Ellis' class and bombs away from Mrs. Neal's class.

Before the carnival began, costumes were judged for all age groups from preschool through fifth grade. Preschool winners were Clifton Knowles, first place; Quint Ellis second place; and Brandon Thomason, third place.

Confused
 A small girl went to church with her grandmother. When the collection plate was passed, the youngster gazed at the assortment of bills and change and then quietly deposited her dime. When they arrived home, she remarked in bewilderment, "I didn't know some people had to pay a dollar in church. I got a good seat for a dime."

Boys Will Be Boys!
 Little Tom had just been vaccinated. When the doctor tried to put a bandage over the spot, Tom insisted that he wanted the bandage on the other arm.

"Why Tom, the bandage should be put on the sore arm so the boys at school won't hit it," the doctor said. "Put it on the other arm, Doc," Tom replied. "You don't know those guys."

Appearance Determines Successfulness

Does a woman's appearance really determine how successful she will be in her career? According to many "dress for success" authorities it does, reports Becky Saunders, clothing specialist with the Texas Agricultural Extension Service, Texas A & M University System.

A recent study funded by a major beauty products corporation photographed potential employees "before" and "after" makeovers.

According to the study, the recommended changes in hairstyles, makeup and clothing definitely improved the woman's possibility of being hired. Their salary estimates were also higher.

In response to the question, "what should a female manager or executive look like," the employers answered "confident, organized, in charge, serious, intellectual and career-oriented."

Eye contact and a direct smile were also considered very important by those who answered the questionnaire.

Hairstyles noticeably influenced employers, Saunders says. Shoulder-length or shorter styles were favored.

Hairstyles noticeably influenced employers, Saunders says. Shoulder-length or shorter styles were favored.

In addition to being easy to care for, shorter hair also draws attention to the eyes and creates a more approachable and friendlier image. Women who were chosen tended to have natural hair color and makeup.

Muleshoe AAUW Tours Talk Plant

The Muleshoe Branch of the American Association of University Women toured the Roy Talk generating plant which is located ten miles east of Muleshoe, Monday evening November 1.

Roy Gibson was the guide and gave a very comprehensive tour for approximately 30 women who donned hard hats, rode elevators, climbed stairs, visited the boiler rooms, computer controlled centers and listened as Gibson explained this phenomenon of technology.

Gibson said that when both units are in full operation electricity will be generated for a wide area, even tie-ins with New York and California.

After the tour the members of AAUW went to the home of Jean Allison on the Plainview Highway and were served banana splits. Cohostesses were Lucy Faye Smith and Johanna Wrinkle.

Martha Kent, president, presided during the business session and Jo Ellen Cowart handed out the membership cards.

The Children's Theater was announced for December 9, but due to the renovation of the Muleshoe High School, the presentation may have to be postponed until spring.

WHY SMOKE?

The Ulcer-Cigarette Link

Research has established a definite link between smoking and duodenal ulcers. It puts cigarette smoking right at the top of the list of culprits associated with this disease. It affects the development, severity, healing and recurrence of ulcers. Among the facts recently defined:

- Cigarette smokers are about 1.7 times as likely to have duodenal ulcers as nonsmokers;
- Ulcer disease is more common among heavy than among light smokers;
- Ulcers do not heal as rapidly in heavy smokers; and
- Death due to ulcer disease is about twice as common among smokers.

If you smoke and have chronic stomach pain, you should see a doctor to find out if you have a duodenal ulcer.

This information comes from Smith Kline & French Laboratories, discoverers of the prescription drug "Tagamet".

ATTENDS MEETS--Four gymnasts from Hawkins and Purdy's School of Dance and Gymnastics competed in two district meets recently. Accompanying the gymnasts to the meets were Coach Oberbeck, Sherri Hawkins, Cindy and Aaron Purdy. Top row (from left) Michelle Finney and Krystal Angeley. Hypertension--Major Health Concern

Hypertension, or abnormally high blood pressure, is one of the most prevalent health problems in the United States and is also one of the major contributors to heart attacks and strokes, reports Dr. Mary Ann Shirer, health education specialist with the Texas Agricultural Extension Service, Texas A & M University System.

Although progress has been made to increase public awareness of hypertension and to develop effective ways of treating it, the problem still remains a major health concern.

"High blood pressure often has no clear signs or symptoms and a person can have it and not know it. That's why it's so important to get your blood pressure checked regularly and, if it is high, to follow the treatment your doctor prescribes," Shirer says.

Leaders of an industry-funded symposium on nutrition and blood pressure control recently gave these guidelines concerning hypertension. They recommended that people:

1. Define their risk status, including diabetes, obesity, and family history of the disease.
2. Check blood pressure regularly, whether or not they are in a high risk group.
3. If pressure is normal, continue present lifestyle.
4. If pressure is slightly high, begin a program of moderate exercise; lose weight, if needed; and reduce salt intake as necessary.
5. Stop smoking and cut down alcohol intake.
6. If over 40, get a doctor's advice on exercise

and take a stress test.

7. Do not drastically alter your diet by cutting out all fats or all salt-containing foods, or by following only a high fiber diet.

If you cut out dairy products because they contain salt, you will also lose calcium, which is essential to blood pressure regulation.

8. If sodium-sensitive,

follow a prescribed medical diet. Persons with normal blood pressure need not restrict their salt intake, but prudent use is advised.

9. If your doctor decides that you don't need medication, don't insist on it. It's better to regulate blood pressure through diet and exercise than with chemicals.

Community property and painting on leather are the two topics to be discussed on "The Creative Woman" show on November 9 and 13 on KENW-TV. Community property is becoming such a familiar word to so many people. It's important for us all to have more knowledge about it and to know how to use this knowledge. Guest Marcia Driggers an attorney from Las Cruces will discuss when and where the concept of community property originated and why it's a consideration in probate proceedings.

Another guest, Barbara Miller from Las Cruces will demonstrate painting on leather. She'll talk about what types of leather to use, where to get patterns for this type of art work and will share ideas for framing the finished piece. This is a way to save money and be very creative at the same time.

On November 11, the topics will include quick meals, a book review and low sodium. For many people adding salt to food is practically an automatic reflex. While our bodies can

handle some excess sodium, too much on a regular basis may be a factor in promoting high blood pressure and increase the risk of heart attack or stroke. Karren Moreland is a registered dietician and a consulting nutritionist from Roswell, and she's going to discuss the relationship between sodium and blood pressure.

A book review will be given by Len Walker, Director of Promotion at KENW-TV. The book "Pioneer Women" is by Joanna Stratton and provides an interesting insight to the early-day times of women in this country.

Quick meals are a help to all busy homemakers. Evelyn Davis is Extension Home Economist from Tucumcari and she'll be sharing ideas for us in using commercially prepared foods, using our own homemade mixes and making better use of appliances and utensils we all have in our kitchens.

"The Creative Woman" is produced and hosted by Sheryl Borden for KENW-TV.

did you know?

As partners of Southwestern Public Service Company, you, our customers, are invited to an open house at the new coal-fired power plant near Muleshoe, Texas. We hope you'll tour the plant, Talk Station, November 20 or 21. Talk is located about 10 miles east of Muleshoe, just south of highway 70. The open house will begin at 10 a.m. and continue until 4 p.m. on Saturday, November 20; then continue from 1 p.m. until 4 p.m. on Sunday the 21st. As our partners, you have helped SPS make energy decisions which built Talk Station. Come see it.

Ben Green, Talk Station Manager, Muleshoe.

It won't be hard to find Talk Station. It can be seen across the plains from miles and miles away. The stack is 400 feet tall, and the structure which houses the boiler for the turbine generator is as high as a 20-story building. The great size is required for equipment large enough to supply the growing demand in our area for electrical power. Talk can produce enough electricity for 225,000 people.

Dave Cavitt, Manager, Muleshoe.

We are proud Talk Station's Unit No. 1 was completed for less than one-half of the national average cost for coal-fired plants. The 561,000-kilowatt unit began testing in June and began commercial service in August. Unit No. 2, which will be identical to Unit No. 1 at Talk, is now being built and is scheduled for completion in 1985. Our own generation-plant design engineers help us tremendously in keeping down the cost of the plants. And that helps us keep down the rates you pay for electricity.

Henry Hamilton, Group Manager, Production, Amarillo.

For answers to your questions, call or write your SPS manager.

You and SPS, partners managing electricity, make the difference.

Fighting Irish Will Take On Pitt

To give you an idea of the frustrations of following and forecasting the fantastic fickle finals of "fun-filled" football week after week, here are the results of two extremes of weekly picking. One of our poorest Saturdays in recent memory was October 9th; 123 right, 52 wrong, for an unexciting .705 average. (We're sure all 52 underdogs won!) However, just one week later, on October 16th, the entire picture was reversed with a happy .803 average. We had 143 winners, only 35 losers. Fascinating!

Notre Dame has the dubious distinction on successive Saturdays of engaging the "Perils of Pennsylvania," namely Pittsburg and Penn State. Powerful Pitt is the first obstacle. And though the Irish have a reputation for upsetting undefeated teams plus breaking lengthy winning streaks, the Panthers look to be too formidable. Pitt's at home.. and Pitt should be the winner.

Georgia and L.S.U. could take big strides within the Southeast Conference this week. However, it'll be no easy task for either.. both play on the road. L.S.U. is an underdog to Alabama in Birmingham and Georgia is a slight favorite over Florida in Jacksonville.

And the race in the Atlantic Coast Conference heats up considerably as Clemson entertains North Carolina. The Tigers, on their way to both a conference championship and a national championship last fall, just edged the Tar Heels 10-8. Grain Promoted Through Checkoff

West Texas grain sorghum farmers will host a feed grain and livestock team from the German Democratic Republic (East Germany) October 27 - 31. The team will be in the High Plains area to study the potential of grain sorghum in their livestock feed. They are here at the invitation of Texas Grain Sorghum Producers Board.

East German livestock producers are not currently buying U.S. grain sorghum, according to TGSPB Executive Director Elbert Harp. "They will not buy sorghum, regardless of prices, until the men on this team are convinced that grain sorghum is a good live-

stock feed," Harp stated. Bringing this team to West Texas is a part of TGSPB's continuing effort to increase the sales of grain sorghum. Over 100 foreign livestock and feed grain officials visit the Texas sorghum producing area each year as guests of TGSPB.

Export promotion of U.S. feed grains continues to be the best potential sales outlet for U.S. grain. Exports of grain sorghum and corn have increased by 135% since 1965, while domestic consumption increased by only 28%. Production has increased by 90% in that same time, causing surplus stocks to build.

Grain sorghum farmers in the Texas High Plains, Kansas and Nebraska join together in their market promotion work by paying an assessment on grain sorghum production. The assessment is collected at elevators where the grain is sold or stored, or (effective October 13, 1982), by ASCS when grain is placed in the Government Loan or Reserve Program.

In the Texas High Plains, sorghum farmers voted to establish the checkoff program of 5 cents per ton in 1969. The referendum to adopt the assessment was passed by a vote of 68%. Farmers in the Texas High Plains still have the option of not participating. They may file an assessment exemption with their elevator on the grain they sell, or directly to Texas Grain Sorghum Producers Board on sorghum placed in CCC loan or reserve programs.

"An aggressive sales program is essential if we are to bring grain prices back to a profitable level," Harp said. "We ended this year (on Oct. 1, 1982), with

more than three and one-half months carryover." Historically, feed grain prices reach profitable levels, only when carryover stocks are reduced to a one-month supply.

"We must push export sales and at the same time, conduct an effective crop reduction program, if we are to balance supply demand," Harp said. "Both require the full support of farmers."

FMHA Makes 22 House Loans Here In 1982

The Farmers Home Administration (FmHA) made 3,288 home mortgage loans to Texas families in fiscal year 1982 that ended September 30, FmHA State Director J. Lynn Futch announced today; twenty-two of these loans were made in Bailey County.

FmHA is a credit agency of the U.S. Department of Agriculture. It provides loan assistance to farmers and other rural residents who need credit but who cannot get it from private banks or other lending institutions. The loans are to be repaid in full, plus interest, to the U.S. Government. FmHA has more than 2,000 field offices throughout the country with 130 in Texas.

Preliminary figures show that nationally the agency provided more than 78,000 loans to families across the country who were without safe, decent and sanitary housing. Another 30,000 families were offered an opportunity at better housing through 1,428 loans that financed rental housing construction. The total amount of FmHA housing loans for the fiscal year was 3.5 billion.

In Texas, FmHA provided 3,170 single family home loans totaling \$90,840,700. J. Lynn Futch said. Fifty-eight rental housing loans were made for \$50,757,920. Total housing loans for the year amounted to \$141,598,620.

Letters To The Editor

Dear Editor:
I am a certified EMT in Colorado now living in Lubbock and was visiting my grandparents here in Muleshoe when an accident occurred on the corner of 5th and Ave. E. the ambulance arrived quickly and I was very impressed by EMT, Trey Ellis. He immediately took control of the scene. I then went and identified myself and offered my help. Luckily there were no major injuries. Muleshoe should be grateful to have such qualified people.

RECALLED BY FORD
DETROIT - Ford Motor Co. recalled about 150 defective 1982 bus chassis, some of which may be part of school buses on the road. The problem could "momentarily delay return of the throttle to the idle position."

12 PERCENT NEW YORK - Four major banks slashed their prime lending rates a full point to 12 percent, the lowest level in 25 months and a reflection of sharp declines in market interest rates that have sent stock and bond prices soaring.
