### **Civil Service** NEW CIVIL SERVICE EXAMINATION

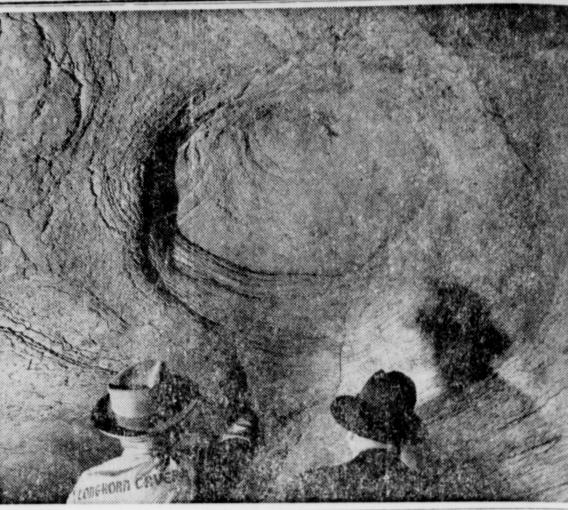

A new examination for Immigration Patrol Inspector has been announced by the U.S. Civil Service Commission, for filling position paying \$6,050 a year with the Immigration and Naturalization Service of the U. S. Department of Jus-

These positions offer young men interested in immigration law enforcement an opportunity to begin a career in such work with on-the-job training for positions of greater responsibility. No experience is required for these positions. To qualify, applicants must pass a written test of verbal abilities, judgement, and aptitude for learning a foreign language; those who pass the test will be interviewed to determine if they have the personal qualities needed for the work. Since the duties are arduous, applicants must be in sound physical condition.

Full information is given in Announcement No. 359-B. Applications will be accepted by the Board of Examiners, Immigration and Naturalization Service, Washington, D. C. 20536, until July 8, 1965. Constitution of the State of Texas be amended to read respectively as follows:

"Section 2. The Senate shall consist of 39 members. The House of Representatives shall consist of 150 members.

"Section 25. The state shall be divided into Senatorial Districts of contiguous territory according to population, as nearly as possible.

"Should the Legislature enact any enabling legislation in necessary proclamation for the anticipation of this Amend- election and this Amendment ment, no such law shall be shall be published in the manvoid by reason of its anticipa- ner and for the length of time tory nature. "This Amendment shall be- and laws of this state.

State Senate from 31 to 39 members, retaining the present membership of the House of Representatives, requiring apportionment of the Senate according to population, and deleting the limitation that no single county is entitled to more than one Senator." Sec. 3. The Governor of the

State of Texas shall issue the as required by the Constitution production, resulting in a statewide distribution of income which currently averages about \$3 billion a year, according to Texas Mid-Continent Oil & Gas Asociation.

With 203 out of the state's 254 counties producing crude oil, each section is marked by several prolific fields.

"The widespread development of production in all sections of the state has been fostered by the state's oil and gas conservation laws," James L. Sewell, Association president, has pointed out. "By giving all fields in the state, regardless of location, a share of the market for Texas oil the Texas Railroad Commission has encouraged development of resources in every sector both in drilling and in the building of a transportation system to get the oil to refineries."

Sterling County, which has recorded production since 1947, has had at total crude oil output of 8,542,000 barrels up to the beginning of 1964. Sterling County production in 1963 was 749,000 barrels at the rate of 21,000 barrels a day.

Texas has 35 counties scat tered over the state which produced at the rate at 25,000 barrels or more per day. The three largest are: Andrews, 195,000 barrels a day; Ector, 164,000 barrels per day; and Crane, 114,000 barrels per day.

Gregg County is the only county that has produced more than two billion barrels of oil. Two had produced one billion or more up to 1965: Ector and Rusk. Andrews celebrated its billionth barrel this year.

SUNDAYS

KGKL SAN

You and I pay the taxes but we have precious little to say about where they go. Take the \$750,000,000 we've poured into Indonesia in recent years. That's three-quarters of a billion dollars of our hard-earned money. What's it gotten us?

Comment from the Capital -

By now you know, of course, that Sukarno has confiscated United States owned firms. You may not know that he has also taken over all companies owned by foreign interests. And you probably haven't seen the "Hate America" billboards that line the streets of Djakarta these days.

One particularly gory poster stands near the luxurious Hotel Indonesia — which was built with American aid, by the way. It shows President Johnson bashed in by a sledge hammer. Such vilification is in direct defiance of the Afro-Asian Conference Sukarno hosted in April, which was dedicated to the "Spirit of Bandung." The original Spirit of Bandung emphasized peaceful coexistence and non-alignment as policies for the Far East and Africa, but in his latest tantrums Sukarno branded all non-aligned nations as "lackies of the imperialists."

With Sukarno's eyes turned toward Peking today, it is dangerous for foreign businessmen and diplomats even to walk the streets of Djakarta, for fear of injury by mobs egged on by Sukarno's tirades.

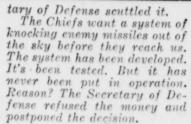

This is what we've gotten for our \$750,000,000? Now even the State Depart-

Now even the State Department agrees that Sukarno has gone completely berserk, but feels that, given more American dollars, anti-Communist groups will depose him in the near future. Exactly how this is expected to happen is a mystery to me, since Sukarno has dictatorial control of aid programs as well as everything else in the country. It looks like typical Communist bait — perhaps planted by the wily Sukarno himself, hoping to get his hands on another threequarter billion dollars.

Who knows more about the military than the military? Ci-vilians!

An Army general may have graduated from West Point, studied military matters all his life, and gone through two or three wars, but he's no match for a know-it-all civilian who's read a newspaper.

Crazy? Look at the record. The Joint Chiefs of Staff are

NEWS THAT HASN'T MADE THE PRESS

by Vant Neff

gress voted \$52,000,000 for the purpose and the Secretary cut that to \$24,000,000. We had planned for siz

We had planned for six nuclear submarines in 1966. The Secretary has cut the number to four. Who knows more about mili-

tary matters than military experts? Now you know.

Senator Fulbright-yes, the same Senator Fulbright who called Castro a mere "nuisance," and who labelled anti-Communism one of the "old myths" of foreign policy, and who suggested taking the American labels off foreign aid goods so that the recipients wouldn't be "embarrassed" -Senator Fulbright is at it again. This time the Senator wants us to stop bombing North Vietnam so we can get on with the peace talks. His notion is that if we stop the bombing, the Commies will be more willing to come to the conference table.

Senator Fulbright supports his theory by comparing Hanoi to the British under the German bombs of 1940. If your memory is better than the Senator's, you'll recall that when the Germans stopped the bombing, the British got a muchneeded second wind and carried on with the fight. Are we going to be fool-brighted on this one?

So Premier Alexie N. Kosygin is horrified by our use of gas and napalm and phosphorous bombs in Vietnam. Hmm. Well, I suppose those missiles the Russians set up in Cuba and aimed at our mainland were full of whipped cream. for subversion. It's part of the plan for taking over non-Red countries agreed upon at the famous Communist meeting in Havana. As particularly ripe for "liberation," the Reds singled out Guatemala, Colombia, Venezuela and the Dominican Republic. And of course the Russians promised all the weapons the "liberators" could

use. Now Guatemala is ready to explode. "La Violencia" has flared up again in Columbia —, and this time the Reds are in complete control of the terrorists.

Castro-armed FALN thugs are threatening Venezuela once more. And only firm, fast action by the US has saved the Dominican Republic from a Communist take-over.

munist take-over. Of course the Commies and liberals are in there howling "imperialist" as usual. How anybody can swallow this line again after Castro's Cuba is beyond human understanding.

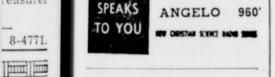

Raise your boy to be a union leader if you want to assure him a snug financial future. The Labor Department reports that the heads of large American unions average \$34,695 each year in salary, plus an additional \$7700 in expenses. and allowances. And who heads the list of the labor elite? James Riddle Hoffa, with a "visible" \$75,000 salary and a \$16,208 expense account. Bet you never would have guessed.

Who needs more trade with Soviet Russia and her satellites? The White House seems to think we do . . . a 12-businessman committee has been set up to study just such a program. We're already doing business with Poland and Yugoslavia on a "most favored nation" basis. And that's too much right there. All the Communists are after is machinery and strategic materials they can't make themselves in either large quantity or high quality. So who needs East-West trade? The Reds do. But, aside from paltry profits (if we get paid at all) what do we get out of it?

There's some good news for a change regarding our gold supply. Most of the drain to foreign countries has been stopped — thanks to LBJ's request that banks cut down on foreign loans and to the easing of Federal Reserve requirements on backing deposits with gold.

life-long military experts who have been selected by the President and confirmed by Congress. But:

The Chiefs urged \$121,000,000 to study and plan advanced aircraft. The Senate okayed the amount. The Secretary of Defense cut it to \$82,000,000. We have a great airplane on the drawing boards, the YF 12. It is an interceptor — purely a defensive plane. The Joint Chiefs wanted it. The Secre-

Take any bunch of unshaven bandits starting an insurrection. Give them machine guns and grenades. Supply them with a few well-indoctrinated organizers. Call them a "National Liberation Front," (or something high-sounding for the "people") and call "imperialist aggressors" anybody who tries to resist them ...

In case you didn't know, that's the Communist blueprint

Foreign aid caused a lot of this drain—\$3.5 billion a year. But foreign aid is still the Administration's sacred cow. In 1965 we're pouring it into 99 countries and 9 territories. Wouldn't it be a good idea to limit aid to military supplies and equipment for countries we can carefully screen? Countries who would use our dollars to resist Communism instead of inciting mobs to wreck our t embassies?

## A Newspaper Depends on Advertising A Town Depends on Trade . . .

A newspaper can no more survive by simply selling papers than a restaurant can make money by serving only free ice water.

It is through advertising that a newspaper is able to make its way.

Many Sterling City firms advertise regularly in The Sterling City News-Record. Study their advertisements each week . . . you can trade at home and save at home.

Our merchants who advertise are serving a two-fold purpose. They are helping to support the community's newspaper, which the community needs, and serving the public by listing their goods and services at competitive prices.

We cannot survive without our advertisers. They cannot survive without you.

Read your hometown newspaper and support the hometown merchants who use its advertising columns.
