Natural Gas Now on in Sterling

Mayor Reed Turns Gas on Last Week

The first natural gas for Sterling City was turned on for use in the city lines last week by Mayor Lee Reed. The scene of the turning on was the Ramgas installation in the north part of town Thursday.

Present at the turning on of the gas besides Mayor Reed were city councilmen Foster S. Price, Harvey Glass, Roland Lowe, and Hugh Harzke. Skipper Lively, president of the Ramgas company, was at the scene with the city officials.

The first meter had been set at the Mixon Dairy Hut a week and a half ago. Ray Mixon had asked over a year ago that he get the first meter. Company president Lively obliged him with the first.

The on deposits will be \$10 for home and \$15 for average business houses, said Lively. The minimum bill will be \$2 a month, which will pay for the first 2,000 cubic feet of gas, said the company official.

The source of supply to Ramgas is the El Paso Natural Gas Company pipeline—northwest of town.

LIONS CLUB

Harvey Palmer of San Angelo, Lions District Governor of this district, was a guest and speaker at the Lions Club luncheon Wednesday of this week. Governor Palmer told of the last Lions International Convention that he attended in New York City. He, in his talk, stressed that Lions Clubs were service clubs—in organization and in practice.

The prize went to Joel Hewitt, a visitor.

Following the meeting, the district governor met with the local board of directors of the club briefly.

Baptist Time Change
Beginning Sunday, October 2, the following time changes are listed for the services at the First Baptist Church. Sunday School will begin at 9:45 A.M. followed by the morning worship services at 11 A.M. Training Union will begin at 6:30 P.M. followed by the evening worship service at 7:30. The new time for the Wednesday services beginning at October 5 is—Teacher's meeting at 7 P.M. followed by the Prayer meeting at 7:30.

HOSPITAL NOTES

Patients in the Sterling County Hospital on Thursday morning of this week included—

Mrs. W. B. Atkinson
J. E. Bynum
Temp Foster
Mrs. W. N. Reed
Nolan (Pedro) Fincher
Mrs. Leslie Cole and infant daughter, Tracy Lyda, born September 26
Dismissals since Thursday morning of last week include: Mrs. Sterling Foster
Mrs. Irene Medina and infant daughter.

P-TA Meeting Held Monday Night

The first meeting of this year's Parent-Teacher Association met Monday evening in the school auditorium. Presiding was the president, Mrs. Max Duncan.

Fred Igo gave the devotional and Susan Terry played two piano solos.

Chesley McDonald, board president, was main speaker, and he talked on "The Potentialities of Our Schools."

The school teachers were introduced by principals J.R. Dillard and James Thompson. A reception in the school cafeteria was held following the business meeting.

Cars Should Be Registered in Home County

Sheriff, Tax assessor-collector Jim Cantrell this week pointed out that all motor vehicles must be registered in the county of the owner's residence—according to state laws.

All this money stays in the county here. (The first \$50,000 stays in the county where the license is issued.) After that, the state starts cutting in on the license fees.

The local office figures that at least \$2,000 is lost each year to Sterling County by new car owners having the dealer register them in the county where bought. The dealers naturally would like to keep that money in their county, but Sterling County needs it, says the sheriff.

And the law says that all cars must be registered in the county of the owner's residence.

The penalty for violation is a fine of \$50 to \$200, said the tax collector.

Rance Hord has opened up the Shell Service Station in Sterling City, and has been operating it the past two weeks.

Boy Scout Fund Drive Is Planned

The annual drive for funds for the Boy Scouts of America is scheduled to get underway here next month, beginning with a kick-off breakfast on Wednesday, October 12.

Skipper Lively, fund drive chairman, was host at an early morning breakfast Wednesday at the community center. Some of the key workers and guests and Scout executive Bill McRee of Big Spring were present.

Lively presided at the meeting and told the group of the plans for the October drive.

McRee explained the program of Scouting and the need of the money for the council. About \$600 will be needed, and hoped for, it was said.

Among those present were McRee, Lively, Mrs. Kenneth Peel, Mrs. Nan Davis, Jim Davis, H. L. Bailey and Jack Douthit.

FHA MEETING

The Sterling City FHA met at school in the homemaking department Monday evening. Susan Mixon and Lynn Alexander were hostesses. A total of 18 members were present.

Mrs. Bill Brooks gave a talk on "What's in a Label?"

Game May Be Broadcast

Tonight's ball game between Sterling City and Miles is expected to be broadcast over KTEO, a San Angelo radio station. Such information was given to high school principal James Thompson Thursday of this week by radio officials.

Mr. and Mrs. Ross Foster, Charlotte and Skeete and Debbie Reed visited Rosanne Foster last weekend in Dallas—where Rosanne is a student in SMU.

They attended the SMU-Navy football game.

SALESMEN WANTED Advertising Specialties

Wes Texas' newest and fastest growing distributor of advertising specialties, calendars, pens, matches, business gifts, etc. needs salesmen or saleswomen full or part time. You can practically pick your own territory if you act now. Call Midland 915 MU 2-9496. Ask for Ernie Webb or write to EAGLES ADVERTISING SPECIALTY COMPANY, P. O. Box 548, 113 North Colorado, Midland, Texas 79701.

Now that fall is officially here, the nights are rather cool, but the days are still hot. The temperature gets up into the nineties each day.

Phone in news of your visitors or visits to the News-Record. Phone 8-3251.

Sterling County Draws Wildcat

Scurlock Oil Co., Houston, will drill a 9,500-foot Ellenburger wildcat in Sterling County, 19 miles southwest of Sterling City, five miles north east of the Cope (Sprayberry field and nine miles west of the WAM, South (Fusselman) field. It is the No. 1 Hannah B. Bailey.

Location is 660 feet from the north and west lines of 23-2-T&P.

Production Indicated

Leonard oil production was indicated in the WAM, South (Fusselman) field of Sterling County with the recovery of 1,080 feet of heavily oil and gas cut mud, estimated to be 30 per cent oil, on a straddle-packer drillstem test at Champlin Petroleum Co. No. 1 R. T. Foster, in 13-21-H&TC, one mile north or a recent 3 3/4 mile north extension, and 10 miles south of Sterling City.

Gas surfaced in 85 minutes on the 95-minute test taken between 5,296-5,376 feet. Flowing pressure was 432-483 pounds; 45-minute initial shut-in pressure was 2,381 pounds; and two-hour final shut-in pressure, 2,236 pound. Earlier, a 63-minute test of the Fusselman at 8,520-84 feet recovered 165 feet of slightly gas-cut mud. Operator was running 5 1/2-inch casing to 8,584 feet, the total depth.

Are Your Guns Registered?

Sheriff To Keep Gun Registration File

What if one or more of your guns were stolen? Could you tell the name and serial number of them to law enforcement officers? Could you actually prove they were yours?

Chances are you couldn't if you didn't have down a description and serial number of it—or them.

Sheriff Jim Cantrell has a book wherein he will keep a registration of guns, their description and numbers in for reference.

So, he asks that all gun owners write down two lists of their guns, kind, description and serial numbers, and keep one list and give him a list to record. Then, if your

The Sterling City Eagles will play the Miles Bulldogs here tonight in a non-conference game at 8 o'clock. Normally, the Bulldogs play six-man football, but tonight they will play eight-man. Last year in the Sterling-Miles ball game at Miles, six-man ball was played.

The locals had a week off last week. It was an open date for coaches Dillard and White's boys.

Week before last the Eagles won a close one over Loraine 2-0. The score came in the second quarter when Johnny Copeland covered a Loraine ball behind their goal line, giving the locals a safety.

On Friday of next week the Eagles will play Christoval here at 8 p.m.

Conference games for the Eagles will begin October 21 with a game at Sands (Ackerly).

Young Ranchers To Meet October 4

The Sterling County Young Ranchers Association will hold their next meeting on October 4, 7:30 p.m. in the vocational agriculture classroom at the Sterling school.

The program will feature Keene Williams of the firm of Dewar, Pancoast & Robertson members of the New York Stock Exchange. Mr. Williams will discuss dealings in the stock market as it affects agriculture.

There will be a supervisor's election for the North Concho River Soil Conservation District at 7 o'clock, prior to the meeting.

MANY GATHER TO SEE JUBILEE FILMS HERE

Over 100 persons showed up at the community center to see movies and slides made at the Sterling County Diamond Jubilee here in August.

Home movies were shown by Levi Martin, Tom Asbill and Mrs. Harvey Glass. Some prints were displayed and a number of slides were shown. A lot more people had taken movies and slides at the Jubilee, but failed to come and show them. Many have some real good pictures of the parade and pageant, and it had been hoped that they would show them.

The pictures were mostly of the events at the park on the afternoon of crowning of the Queen of the Jubilee and the parade.

TO ATTEN STATE CANCER MEET IN HOUSTON

Ross Foster, delegate from the Sterling County Unit of the American Cancer Society, will attend the statewide Division Annual Meeting of the American Cancer Society, October 5-6 at the Shamrock Hilton, Houston. Dr. Wm. J. Swann is alternate delegate from the local unit. Mrs. Ross Foster, a member of the Sterling County and the State Board of Directors, will also attend.

OUR THANKS
We want to thank each person in Sterling City for the rewarding year we lived there. Your warmth and the many kindnesses shown us result in our feeling that Sterling is "home."

We hope that many of you will come to visit us whether we are in California or at some other base. Our prayers are with you all.

Sincerely, The Wiemers, Janey, Bill, Debbie, Dick, Kay and Janet.

gun or guns are stolen or lost, they can be described and identified. Without a description and serial number this is hard to do.

AROUND THE COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

Livestock producers all over Texas are being urged to keep a constant lookout for screwworms. As you have been informed by newspapers, magazines and radio agricultural and TV programs, eradication officials are concerned about the current outbreaks in the state. A number of cases have occurred in the western part of the state in recent weeks and particularly in the Edwards Plateau region; Sterling County is located in the Edwards Plateau. The nearest confirmed case to date has been in Schleicher County.

Reason for the concern over the cases now is the fact that the number of confirmed cases are higher now than at any time since the start of the program. A case in livestock now, if not found and treated, could result in an outbreak in an area now or even next spring. The weather now has been favorable for the development of the worms. The outbreak of cases last summer in this county reminds all of us that they can happen here and build up in a hurry. Check all your livestock, treat all cases of worms, and submit a sample of the laboratory.

A number of ranchers have mentioned having fleeceworms lately. If there is any doubt in your mind about the identity of the worms, submit a sample. It's better to have them identified as non-screwworms than to miss a case.

In their search for winter feeds for livestock, producers are finding the natural protein feeds high in cost. Many of them are again coming face to face with the question of using urea in their feeds. Recently, there have been several articles concerning urea in agricultural magazines.

U. D. Thompson, Extension Animal Husbandman at Texas A&M, says that urea can be utilized if the correct amounts are used. Correct amounts thoroughly mixed with molasses or grains gives comparable results to vegetable protein supplements. Urea is a non-protein-nitrogen compound

which through bacterial action in the rumen and in the presence of readily available carbohydrates is converted into to protein useable by the animal.

Several points should be considered in feeding urea to cattle. Among the points are these: (1) Mixtures containing urea must be mechanically mixed; thorough mixing is a "must". (2) Getting cattle adjusted to feeds containing urea is very important. Range cattle may be fed one-fourth of their daily supplemental protein allowance for the first three days. Then gradually increase it until they are receiving their full daily requirement within two weeks. (3) Urea may provide one-third of the protein in a supplement. (4) Urea may make up one percent of the total ration. (5) Urea is most efficiently used when fed with a readily digestible carbohydrate. For each pound of urea in a mixture, add 7 to 8 pound of ground grain or 9 to 10 pounds of molasses. (6) Urea probably serves no useful purpose when included in a ration that is already adequate in protein.

Urea contains 262% crude protein equivalent. It contains no digestible protein, fat, fiber, or total digestible nutrients. Its use lies in its ability to convert the carbohydrates into protein in the rumen of the animal. Five pounds of urea, 60 pounds of cottonseed meal, and 35 pound of ground sorghum grain would give a feed with 41% protein equivalent. The total digestible nutrients would approximate that of 41% cottonseed meal. This mixture would have to be fed daily at no more than two pounds a day.

If mixed thoroughly and fed properly, urea is not toxic. This has been one of the questions concerning its use in the past. There have been some mishaps in the past with its use but all nutritionists feel that these mishaps could have been prevented through proper use.

SCIENCE SKETCHES

MOST POWERFUL high-frequency dielectric generator ever built delivers 600,000 watts, 12 times the power requirements of U.S. "clear channel" AM radio transmitters, according to its manufacturer, Votator, Louisville.

AVANT GARDE art fabricated from wrecked automobile bumpers is being produced by Purdue University sculptor John Lewis. He's also developing and building a prototype "safety car" from junkyard scrap.

UNDERGROUND poultry houses for hens of the future are predicted by Dr. Henry Garren of North Carolina State University. The underground hen houses permit land overhead to be used for crops and other purposes.

SCIENCE SKETCHES

GOLFERS are benefiting indirectly from carbon dioxide. Golf ball centers are frozen with the gas to make them firm prior to winding, reports Cardox, Chicago.

POLAR BEARS may be evolving into a sea mammal like the whale according to scientists. Animal behaviorists have discovered that the white Arctic bear doesn't kick with its hind legs like most animals do when they are swimming.

ANSWER to the riddle of the Rajasthan Desert is being sought by University of Wisconsin scientists who have launched an air-borne probe of the atmosphere over India and parts of Eastern Asia.

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and final conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When two or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted, will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If, upon conviction, a defendant confesses other thefts, no additional reward will be paid. All deviations concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

Know the Proposed Amendments

Editor's Note: A brief explanation of the 16 constitutional amendments to be voted on in November follows. These 16 amendments appeared in the paper through August.

Amendment No. 1
 Provides that all land owned by natural persons and designated for agricultural use shall be assessed for all tax purposes on the consideration of only those factors relative to such agricultural use.

Amendment No. 2
 Would authorize creation of airport authorities composed of one or more counties.

Amendment No. 3
 Increases the permissible term of office for directors of conservation and reclamation districts from two to six years and validating present statutory terms of office for such officials.

Amendment No. 5
 Would authorize the legislature to provide for a system of retirement, disability and death benefits for county officials and employees and others.

Amendment No. 6
 Provides for payment of assistance to survivors of law enforcement officers, custodial personnel of the Texas Department of Corrections and full paid firemen.

Amendment No. 7
 Would repeal the Constitutional provision requiring a poll tax as a prerequisite to voting and requiring the Legislature to provide for annual registration of all voters.

Amendment No. 8
 Would authorize the Legislature to enact laws permitting persons to vote for state officers and for president and vice-president of the United States without having fulfilled residence requirements to vote for other officers, as well as laws permitting former residents of the state, for a certain period, to vote absentee for president and vice-president.

Amendment No. 9
 Increases to five the number of judges on the Texas Court of Criminal Appeals and lengthens the term of that court.

Amendment No. 10
 Provides that taxes or bonds previously voted in any independent school district or in any junior college district shall not be abrogated, cancelled or invalidated by any change in boundaries and authorizing the continuance of the levy after such change without further election.

Amendment No. 11
 Would authorize the issuance of an additional \$200,000,000 in bonds by the Texas Water Development Board upon two-thirds vote of the Legislature and expanding the uses to which money in the Texas Water Development Fund may be put.

Amendment No. 12
 Provides the method and manner for dissolution of hospital districts.

Amendment No. 13
 Would authorize the Legislature to provide for consolidating the functions of government within a county having 1,200,000 or more inhabitants and to provide for inter-governmental contracts between political subdivisions of the county.

Amendment No. 14
 Would allow members of the armed forces to vote in Texas upon satisfying the residence requirements applicable to Texans in general.

Amendment No. 15
 Authorizes the channeling of funds from private and federal sources through the state for use by privately owned or local agencies in establishing and equipping facilities to assist the handicapped in becoming gainfully employed.

Amendment No. 16
 Establishes the date on which newly-elected members of the Legislature qualify and take office.

Some 3000 Texans who may be eligible for disability benefits under the new Social Security provisions, have not yet applied for them. Under recent liberalizations of the law, persons with nonpermanent disability may now qualify for benefits. Ellington said that under the previous law a person was eligible only if he had a severe disability that was expected to last a long and indefinite time. Now benefits can be paid if the severe disability has lasted or is expected to last as long as 12 months by his doctors. There are also more liberal requirements for certain persons who are blind.

Natural Gas Is Here!

TO THE CITIZENS OF STERLING CITY:

GREETINGS FROM RAMGAS—

After 5 and 70 years, we of Sterling City can enjoy the beauties of natural gas. The only fuel that is cheaper and safer than natural gas is mesquite wood and cow chips. El Paso Natural is Ramgas' source of gas supply.

A 100 cubic foot of natural gas will furnish as much heat as 10½ gallons of butane. The cost of natural gas is about ½ as much as other types of fuel and energy. For about a dollar a month you can have all the hot water you want. Natural gas fires the boilers used to furnish us with electricity.

If you do not have a meter set, call 8-4191 and we will install one promptly.

RAMGAS WISHES TO DEBUNK SOME FALSE RUMORS:

Copper pipe is excellent for natural gas use. If you have it piped with ½-inch pipe and it is adequate for the fuel you are now using, it is of sufficient size for natural gas.

WARNING — For connecting to our gas system, do not be taken in by costly suggestions and don't pay an excessive price for connecting on to natural gas. Call RAMGAS if you think you are getting skinned—we can give you a free estimate of what you should pay for this service. To tie on natural gas is a very simple operation.

HELPFUL HINTS—To change jet sizes in your cook stove and heating equipment is as simple as threading a needle. Ramgas will lend you a drill to make the jets the proper size for gas. New jets cost approximately 25c each. Many jets are adjustable with a small wrench.

Ramgas' office will be in Skipper Lively's house on the Robert Lee road. Phone 8-4191.

RATES—

Tie in charges: None. Deposits \$10 on homes and \$15 for most business houses.

- Minimum \$2.00 (This includes the first 2,000 feet used.)
- Next 8,000 ft. 86½c
- Next 40,000 ft. 55c
- Next 50,000 ft. 50c
- Next 200,000 ft. 38c
- Next 200,000 ft. 33c
- Next 500,000 ft. 28c

Meters will be read between the 25th and last day of the month. Bills will be due from the first to the tenth of the month.

RAMGAS apologizes for inconveniences caused you by laying of the lines in town, but like building good roads, it's the end results that count.

RAMGAS wishes to thank the ranchers for their patience while we were laying lines across their properties.

Yours for cheap energy—RAMGAS.

**For any information,
Dial 8-4191**

MAYOR LEE REED TURNS ON NATURAL GAS

Shown above is Mayor of Sterling City Lee Reed turning on the valve at the main control of RAMGAS here last week, thus bringing natural gas to Sterling City. Also shown are City Councilmen (left to right) Foster S. Price, Harvey Glass, Roland Lowe, Mayor Reed and Hugh Harzke.

FIRST METER GOES TO MIXON'S DAIRY HUT

The first natural gas meter went to Mixon's Dairy Hut earlier this month. Here is Skipper Lively, Ramgas president, shown installing the first meter. Shown is (left to right) Bobby Taylor, gas line-laying contractor, Lively and Dairy Hut owner, Ray Mixon.
