LONGER BENEFITS UNDER SOCIAL SECURITY FOR STUDENTS (Up to 22 Years)

The social security law now provides monthly benefits to unmarried students under age 22. These benefits are payable only on the record of an insured parent who is drawing disability or retirement payments, or who is deceased. The amount of the benefit depends on the earnings of the parent and the number of dependents entitled to payments on the parent's account. Student payments can be as high as \$102 per month and more in future years.

Students whose benefits were stopped under the old law when they reached age 18 may be eligible to receive payments now.

Ted F. Moellering, District Manager of the San Angelo Social Security Office, believes here are many students in this area who could qualify for monthly payments.

These payments are not automatic. Any student who has a parent who is retired, disabled, or deceased should contact the people at the social security office for additional information and application forms. If you wait too long, you risk losing benefits.

The district social security office is located at 3000 West Harris in San Angelo. The telephone number is 949-4608. The office remains open each Monday evening until 8:30 for the convenience of those who are unable to come in during regular office hours.

LONG DISTANCE RATES TO BE REDUCED

Reduced long distance rates for most station-to-station calls within Texas will become effective January 1, 1967 for customers of General Telephone Company of the Southwest, Southwestern States Telephone and Four States Telephone Companies, according to E. H. Danner, president of the three companies.

State-wide reductions on calls vary from five to fifteen cents on most station-to-station calls over 56 miles in distance within Texas. Reduction for calls over three minutes are even greater, according to Danner. The reductions apply to calls made during the time when "day rates" are in effect as well as to all intrastate (within Texas) station-to-station calls made during the "night rate" hours after 8 p.m. and all day Sunday.

The new tariffs reflecting the reduced rates will be distributed to all offices handling long distance calls at the earliest possible date, Danner stated.

SOCIAL SECURITY OFFICE HOURS CHANGED

Ted F. Moellering, manager of the Social Security District Office located at 3000 W. Harris in San Angelo, announced a change in office hours.

During the past few months the office has been open from 8:30 AM until 8:30 PM each Monday. According to Moellering, the reason for the extended hours was to take care of callers who could not come in during regular hours.

A need still exists for these extended hours, said Moellering. However, experience has shown that very few persons come in during the last hour. Therefore, the new Monday office hours will be from 8:30 AM until 7:30 PM.

This change will be effective after January 9. The office will be closed on December 26 and January 2 in observance of holidays.

Moellering said that there will be no change in the office hours from Tuesday through Friday. These will remain from 8:30 AM to 4:30 PM daily.

SCIENCE SKETCHES

WALKING or hiking is an excel-
lent exercise available nearly every
day of the year, says the American
Medical Association. If your doc-
tor tells you to "take a walk,"
don't be offended. He's looking
out for your health.

EASTERN railroads are replacing
conventional 39-foot rail segments
with quarter-mile continuous
welded rails. The long rails are
made by electrically heating and
squeezing together the ends of
conventional rail in a National
Cylinder Gas rail welding unit. A
50-ton blow forces impurities and
excess metal from the joint.

LIQUID traveling from a nozzle at sup-
ersonic speed can cut wood and
inch-thick concrete, according to a
research team at the University
of Michigan. The team used a jet of
water one-thousandths of an inch
thick, shooting it at three times the
speed of sound. It cut through the
one-inch concrete at a rate of 15
inches per minute.

SOUPER MEAT LOAF IS EASY

Few main dishes meet with as much family approval as the
ever-popular, budget-pampering meat loaf. Its wonderful beefy
aroma and succulent, tender goodness make it a dish you never
tire of.
Many good cooks rely on dependable, double-rich condensed
soups to make their meat loaves especially moist and flavorful.
A bit of condensed soup inside the loaf helps bind the ground
beef mixture together, as well as imparting chef-blended sea-
sonings to the meat.
Use the remainder of the can of soup as a good-tasting sauce
for the loaf. Heat it with some of the meat loaf drippings for
extra zip. For this recipe we've chosen condensed cream of
mushroom soup to give rich, subtle mushroom flavor to the
ground meat. Green pepper, onion, parsley, Worcestershire con-
tribute zest.
Round out the meat with braised carrots and celery, cole-
slaw, hot spicy poached pears, milk, and coffee.

Meat Loaf Deluxe

- 1 can (10½ ounces) con-
densed cream of mushroom
soup
- 1½ pounds ground beef
- ½ cup uncooked rolled oats
- 1 egg, slightly beaten
- ¼ cup finely chopped onion
- 2 tablespoons chopped parsley
- 1 tablespoon Worcestershire
pepper
- 1 tablespoon minced green
pepper
- ½ teaspoon salt
- Dash pepper
- ¼ cup water

Combine ½ can soup with all other ingredients except water;
mix thoroughly. Shape firmly into a loaf; place in shallow bak-
ing pan. (Thorough mixing and firm shaping will result in a
moist, easy-to-slice loaf.) Bake at 350° F. for 1 hour. Blend re-
maining soup with water and 2 tablespoons drippings; pour over
loaf. Bake 15 minutes longer. Makes 6 servings.
