AROUND THE COUNTY by

ARTHUR BARLEMANN, JR. COUNTY AGENT

The pecan casebearer is causing some pecans to fall or shed at the present time. This should be the last invasion of this pest this year as the nuts will soon be too hard for the casebearer to chew through the shell. It is also too late to spray for the pest as once the insect has entered the nut, no spray will give control.

The dropping pecans are of concern but for the most part, the nuts dropping have no sign of insect damage of any type. Most of the drop-off is due to periods of stress for water. Trees this year have a good crop of nuts and are requiring a great deal of moisture. Not enough is present to supply the need so the nuts are shedding. Pecans are like some other crops in this respect: when food or moisture becomes critical, the plant sheds some of its fruit and tries to supply what is available to the remainder.

There has been some evidence of the pecan weevil during the past week. In checking his trees recently, John Brock found one or two of the pests under trees which have always been infested with the weevil. Since John does irrigate his trees rather heavily, he decided to undertake preventive measures in the form of spraying. You may or may not desire to spray yours if your trees have had a history of weevil damage. Recommendations call for spraying with 2 or 3 pounds of Sevin or 6 pounds of wettable DDT per one hundred gallons of water.

The weevils will emerge after every rain or watering at this time of the year. Thus, it is necessary to check the trees following each rain—if any—and each watering. Then, if 4 to 5 weevils per tree are found, control measures should be taken.

The fifth case of screwworms in Sterling County for the year was reported to us by the Mission laboratory. This latest case was found on the Nick Reed Ranch about six miles northwest of town. It was in a sample taken from a calf's navel. The latest case was about two miles from another positive

case on the J. C. Reed Ranch on July 24.

Livestock owners are urged to keep up their guard—check for worms in all livestock, send in all suspected samples, and spray their livestock whenever possible. They are urged to postpone surgical operations until cold weather if possible.

Program officials report a total of 1866 cases in Texas in 1968. Most of the Texas cases are now occurring in the Big Bend-Trans-Pecos area and South Texas area. Eradication program officials are particularly worried about the South Texas situation since the number of cases in Mexico is running very high. The Mexican state of Coahuila just across from Laredo reported 30 times as many cases in July 1968 as it did in July 1967. Other northern Mexican states reported from three to ten times as many cases during 1968 as they did in 1967.

Revised copies of the Texas Guide for Controlling Household Insects are now available in the county agent's office. The latest guide, L-311 contains some revisions of the earlier guide as well as added treatment recommendations. It includes recommended controls for insects such as flies, mosquitos, fleas, silverfish, ants, scorpions, cockroaches and many others.

Congratulations to the Foster Conger Estate, R. T. Foster, Jr., and Harvey Glass on the showing their calves made in the Feeder Calf Sale held in San Angelo Monday. Each of these producers made an excellent showing in the show and sale. Sterling County cattle like its sheep, can compete anywhere. There may have been other entries from the county in the show and sale and if so, we did not omit them on purpose—our only information came from the show and sale report in the newspaper Tuesday morning.

## Selective Service

Below are questions now being asked at draft boards. The answers are by Col. Morris S. Schwartz, State Selective Service Director, 209 W. 9th St., Austin, Texas 78701. He will welcome your questions.

Q. Where may a person volunteer for induction?

A. A registered man may volunteer only at his local board. If not registered, he may register, then volunteer, but only at the board having jurisdiction over his place of residence. He must be at least age 17.

Q. As a college senior, I hope to attend graduate school. May I take my armed forces physical exam prior to graduation to determine acceptability so can make plans accordingly?

A. If induction may occur shortly, the board may order you for the examination; such action is not mandatory, however. The board's first concern is to fill current and imminent calls from those classified as available for service. If time, space, and funds are available, the board may comply with your request. You should check with your own local board for a decision.

Q. If there is a substantial increase in calls from the Department of Defense, will those in class II-A be reclassified before those in III-A, or vice versa?

A. Neither. There is no prescribed sequence for review of classification. It is observed, however, that classification in class II-A is limited to one year. At the time of expiration, the case will be reopened and considered anew. The II-A may be continued if circumstances warrant, or a new classification given, if appropriate.

**Social Security Tips**

The "length of marriage" requirement in social security's definition of "widow", "widower", and stepchild of a deceased worker" has been changed, reports Ted F. Moellering, District Manager of the San Angelo Social Security Office. A widow, widower, or stepchild may now qualify for social security benefits based on a marriage that has been in existence for only 9 months just before the death of the worker.

Mr. Moellering added that in some cases a marriage that has lasted for as little as 3 months may qualify the survivor. These are cases involving accidental death or death in the line of duty in the uniformed services.

Benefits under this change in the law were first payable in February, 1968. Any person who has been previously disqualified because a marriage had not been in effect long enough should contact the Social Security Office at 3000 West Harris Avenue in San Angelo, Texas, or see the representative when he is in your area.

**For Social Security**

People who sign up for social security only to gain Medicare coverage are often amazed to learn that they will also be drawing some checks for the year, according to Ted F. Moellering, District Manager of the San Angelo Social Security Office.

For instance, a person entitled to a monthly benefit of \$122.90 who expects to earn \$3000 in 1968 would draw a check of \$17.40 for June, 1968, and full checks for the rest of the year.

"This is possible because of the liberalized retirement test under the present social security law," Mr. Moellering said.

"A social security beneficiary can earn \$1680 per year and draw his checks every month. If his earnings are \$2880 or less, an amount equal to one-half the earnings between \$1680 and \$2880 is subtracted from total benefits payable for the year. If earnings are over \$2880, an additional one dollar for every dollar over \$2880 is subtracted from benefits payable.

"There has been no change in the provision that a person can draw a check for each month that he is age 72, regardless of his total earnings for the year."

MRS. BARRY TODD CHURCHILL

**Recent Bride**

Pictured above is recent  
 bride, Mrs. Barry Todd Church-  
 ill, the former Miss Nelwyn  
 King, who was married in the  
 First Baptist Church here Aug.  
 1. Below are some added facts  
 to our wedding story of Aug.  
 9. The picture was not avail-  
 able in time for the first write-  
 up of the wedding.

Mrs. Churchill wore a gown  
 of silk linen accented with re-  
 embroidered Venise lace. The  
 Empire bodice featured a  
 scooped neckline and elbow-  
 length sleeves overlaid with  
 scalloped lace. Seed pearls  
 traced the floral design of lace  
 which formed the overlay of  
 the bodice and accented the  
 skirt which formed a sheath  
 silhouette with an overlay of  
 lace framing the panel down  
 the back of the A-line skirt.  
 Her bouffant veil fell in tiers  
 from a lace-pearled cap en-  
 hanced with a cluster of tiny  
 flowers. Her bouquet was a  
 formal cascade of white carna-  
 tions backed with tulle and  
 English ivy and showered with  
 picot satin centered with a  
 large white orchid.

The bride's cousin, Miss Dee  
 Ann Bass of Nacogdoches was  
 the maid of honor. She wore  
 a floor length gown of yellow  
 silk linen trimmed in white  
 lace with a matching yellow  
 contour bow pouffed circular  
 veil to form her headpiece.  
 She carried a traditional colo-  
 nial bouquet of yellow and  
 white snowflake chrysanthem-  
 ums.

Following a wedding trip to  
 Dallas, the couple made their  
 home in San Angelo. For trav-  
 eling the bride chose a gray  
 and white coat dress ensemble  
 with matching accessories and  
 the orchid from her bouquet.

The reception was held in  
 the Community Center. In-  
 cluded in the houseparty were  
 Mrs. Ray Lane, Mrs. Roy Mor-  
 gan, Mrs. Amos Lawson, Mrs.

 fewer colds, no fumes, and walls stay

THE CECIL RICHARDSONS  
 HAMLIN, TEXAS

"We like total-electric living so well we recommend it to  
 our neighbors," Irene Richardson says. Working conditions are better  
 and her electric appliances save her so much time. She thinks flameless  
 electric heating and cooling is wonderful for her skin problem.

Terry Cecilia, the Richardson's 5-year-old granddaughter,  
 plays comfortably the year' round and always has plenty of fresh clean  
 clothes. "I use the washer and dryer every day — sometimes several times a day," Irene Richardson says.

The Richardsons cook a lot, burn the lights a lot, and entertain friends, yet find total-electric living  
 economical. "We're very satisfied with it," Mr. Richardson says.

Richardson is manager of the Hamlin Farmers Compress, Irene Richardson is a full-time homemaker,  
 and Terry Cecilia pre-kindergarten age.

### SCIENCE SKETCHES

CARTOONS and cocktails are giving University of Wisconsin psychologists added knowledge of human behavior. The psychologists have developed a method of using humor and alcohol to reveal personality traits.

THE SATURN ROCKET must be fed fuel pressurized by compressed helium, which is inert and will not react with the propellant or plumbing. Pennsylvania Forge, Philadelphia, which machined containers to hold the helium, says the light weight gas is stored in aluminum "bottles" 211.8 inches long, 19.1 inches in diameter and 0.90 inches thick. Despite their size the four containers required for a firing are almost lost inside the rocket's huge liquid oxygen tank.

EARLY colonists of America often used corn as a medium of exchange instead of money.

### Social Security Tips

Want to get that first social security on time?  
"Everyone does, but not enough people do anything about it," says Ted F. Moellering, District Manager of the San Angelo Social Security Office.

According to Mr. Moellering, every person who files an application for social security benefits will be asked to present certain proofs. Most applicants will also be asked to give the exact amount of earnings for the past year and for the current year.

Most persons do not bother to find out ahead of time exactly what they will need. "George waits until the day he files an application," said Mr. Moellering. "Then he has to go back home and dig around for records, or write letters requesting the necessary documents, causing a delay in the processing of his claim."

A claim for social security benefits may be filed as early as three months before entitlement to benefits.

Mr. Moellering suggests that claimants get in touch with the social security office several months before this three month period to find out ahead of time what proofs and information will be needed.

"The satisfied applicant," continued Mr. Moellering, "is the one who does this, and consequently has all necessary proofs and information with him. The result—everything is completely taken care of during this one visit at the social security office, and he gets that first check right on time."

For further information, contact the Social Security Office at 3000 West Harris Ave. in Sa Angelo, Texas, or see the representative when he is in your area.

### LEATHER LOOKS—FOR LITTLE MONEY

Time to let that leather look liven up your wardrobe! Why not take a tip from some legendary ladies who knew the lure of leather—and of styles borrowed from the boys?

Robin Hood's Maid Marian very likely wore a doeskin doublet while frolicking in Sherwood Forest. And Pocahontas undoubtedly sported a fringed buckskin shift. Stitching up real leather can be tricky, but the new leather look-alikes make for simpler sewing—at a substantial saving.

Transform that Wild West uniform, the cowboy shirt, into a sleeveless or long-sleeved button-front dress with McCall's Pattern #9429. Copied from the cowhands are buttoned flap pockets and a hip-slung (or waist-whittling) belt. A split-level version, shirt and skirt in sunset and sand shades, doubles the design's impact.

The "vest" of everything is a feminine version of an English gentleman's waistcoat. Unlike the London clubman, the all-American girl will sport her vest atop a dirndl skirt marked

by a blow front and center. For sporty separates, mix with wools and tweeds. Or be a bold smoothie in matching vest and skirt, regular length or modishly mini. Whip up a supply of shirts in pastels or plaids and watch your wardrobe multiply before your eyes. The three-part harmony, McCall's Pattern #9329. For Young Juniors and Teens, Pattern #9330.

Vested interests can pull a switch by adding sleeves to a weskit paired with the front-zipped jumper of McCall's Pattern #9432. Curving princess seams, top-stitched, flatter the figure and give a smooth finish to your leather look-alike. Match jacket and jumper, add a checked wool weskit and bright turtleneck sweater, and you have a perfect outfit for country weekends. Photos, courtesy McCall's Pattern Magazine.

The leather look is both sporty and sophisticated. And since imitation is the sincerest form of flattery, styles borrowed from the boys are sure to impress the man in your life!

DID YOU KNOW THAT:

Since 1928 the Texas Forest Service has produced 415 million one-year old baby seedlings in its nurseries for reforestation purposes by Texas landowners. Set out with a spacing of 6 by 8 feet this number would be sufficient to plant 457,000 acres, an entire county the size of Trinity or Wood. Today, the Indian Mound Forest Tree Nursery near Alto in Cherokee County produces about eight million trees annually.

### PUBLIC NOTICE

Proposed **CONSTITUTIONAL AMENDMENT**  
NUMBER THREE ON THE BALLOT (HJR20)

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 11a, Article VII, of the Constitution of the State of Texas, be amended to read as follows:

"Section 11a. In addition to the bonds enumerated in Section 11 of Article VII of the Constitution of the State of Texas, the Board of Regents of The University of Texas may invest the Permanent University Fund in securities, bonds or other obligations issued, insured, or guaranteed in any manner by the United States Government, or any of its agencies, and in such bonds, debentures, or obligations, and preferred and common stocks issued by corporations, associations, or other institutions as the Board of Regents of The University of Texas System may deem to be proper investments for said funds; provided, however, that not more than one per cent (1%) of said fund shall be invested in the securities of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; provided, further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for five (5) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors.

"In making each and all of such investments said Board of Regents shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not

in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital.

"The interest, dividends and other income accruing from the investments of the Permanent University Fund, except the portion thereof which is appropriated by the operation of Section 18 of Article VII for the payment of principal and interest on bonds or notes issued thereunder, shall be subject to appropriation by the Legislature to accomplish the purposes declared in Section 10 of Article VII of this Constitution.

"This amendment shall be self-enacting, and shall become effective upon its adoption, provided, however, that the Legislature shall provide by law for full disclosure of all details concerning the investments in corporate stocks and bonds and other investments authorized herein."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the state at an election to be held on the first Tuesday after the first Monday in November 1968, at which election all ballots shall have printed thereon the following:

"FOR the constitutional amendment providing for investment of the Permanent University Fund by the Board of Regents of The University of Texas in certain types of securities within the prudent man rule."

"AGAINST the constitutional amendment providing for investment of the Permanent University Fund by the Board of Regents of The University of Texas in certain types of securities within the prudent man rule."
