COUNTY

ARTHUR BARLEMANN, JR. COUNTY AGENT

The Sterling County Livestock Show date is near. Date for the show is Monday, January 17. Judge for this year's show will be Fred Wilkinson, county agent of Crane County. Wilkinson judged last year's show.

4-H Club and FFA members will be exhibiting lambs, breeding sheep, market steers, and swine in the show. This year's steer show will be the largest held here in recent years; a total of nineteen head of steers are being fed this year.

With the coming of winter, many people roll up their garden hoses and store them for the winter, bringing them out in the spring to begin watering their yards, shrubs, and various plants. Unless it is a wet winter, this long dry period can be very injurious to yards and plants.

Drying is especially serious on evergreens and late winter and early spring flowering plants. These plants have rapidly developing flower buds and require a steady supply of moisture. Such plants should be watered thoroughly at four to six week intervals.

During cold weather, the watering should be done early in the day so that the foliage dries before nightfall. This practice will help reduce plant diseases.

Lawns should be watered periodically during the winter also. It is a good practice to soak the turf thoroughly every four weeks if there is no moisture provided by nature.

Livestock producers, particularly those with cattle in the feedlot, are reminded that the withdrawal time for diethylstilbestrol (DES) is now seven days. Effective this week, it is necessary to certify that cattle being shipped to slaughter have not been on feed containing DES. Violations of this directive can result in legal action.

During the holiday season, more information on the current quarantine on cattle shipments because of the scabies outbreak was received. As of December 16, thirty-four counties in the Texas Panhandle were placed under quarantine. The quarantined area includes all counties north of a line from Bailey County on the west side of the Panhandle eastward to Foard County, or all of the Panhandle north of Lubbock which is just south of the quarantine line.

All cattle leaving this area must have been certified by inspectors. Each state has different requirements for cattle entering the state from a quarantined area and the inspectors or veterinarians will know the requirement for the particular state. It is possible that some of our local livestockmen have cattle on wheat pasture in the area and will be affected by the quarantine.

Mr. and Mrs. Lee Augustine spent a week in New Orleans visiting Dr. and Mrs. Frank J. George and family. Mrs. William Foster and Mrs. J. Q. Foster flew down and returned home with the Augustines.

The Louis Glombs of San Angelo spent Christmas here with Mrs. Glomb's parents, Mr. and Mrs. George Turner and family.

## Heart Group to Meet Tuesday Evening

Mrs. Chesley McDonald, president, of the local county group of the American Heart Association, has announced a meeting of the group and all volunteers here for next Tuesday, January 11, 7 p.m. in the community center.

David Watson, field representative from San Angelo, will meet with the Sterling group. Mrs. T. J. Finnegan, drive chairman again for this year, said all who would help again — or new ones — are asked to be present Tuesday.

No materials for the drive have arrived, but plans for the drive will be discussed, said Mrs. Finnegan.

## Young Couples Bridge Club

The Young Couples Bridge Club held their Christmas party in the Stan Horwood home on December 22. Bridge was played and Mrs. Bobby Dodds and Jim Davis made high scores and Mrs. Danny Stewart low.

## SPECIAL NOTICE

Dear Taxpayer: This is to advise you that Senate Bill 414 which was passed by the last session of the Texas Legislature REQUIRES this office to collect (\$1.00) one dollar in addition to any other penalty and interest that may be due on EACH 1971 past due or delinquent tax statement issued after February 1, 1972.

You can save this additional (\$1.00) one dollar penalty by paying your taxes before February 1, 1972.

This office is opposed to the additional penalty on past due taxes (February 1 to July), but we haven't any choice in this matter.

Not any of this money is retained by Sterling County, or the State of Texas. The additional (\$1.00) one dollar collected goes to the Legislative Property Tax Committee created by Senate Bill 414.

## Home Demonstration Club Date Changed

The home demonstration club here will meet on January 24 at 1:30 p.m. due to cancellation of the January 10 meeting.

## Paper Shower Honors Charlotte Foster

Mrs. Claude Collins and Mrs. Tom Crossler were hosts at a paper shower in the Collins home here Tuesday honoring Charlotte Foster, who will be married to Barney Sisco soon.

The party was a Hawaiian brunch, with the Hawaiian theme carried out in decorations and refreshments. Strawberry punch, refreshment cups, little sausages, etc. made up the menu.

Bridal games were played and about twenty took part in the gift shower.

## COLD, COLD

The thermometer got down to a low of 5 here Wednesday morning and a low of 8 on Tuesday. Some snow and sleet accompanied the cold.

School was dismissed — or rather not held on Tuesday — as it was in many West Texas schools that day.

The chill index or chill factor really dipped — all over Texas — getting as low as a -40 in some areas.

A warming trend began with clearing skies on Wednesday and the weather is expected to moderate.

### Social Security Tips CHECK YOUR SOCIAL SECURITY RECORD

"How do I know my work under social security is being credited to my record, and how do I find out about it? This is one of the questions most frequently asked," says J. M. Talbot, social security manager.

In explaining the process involved in reporting social security, Mr. Talbot said, "When you work for wages, your employer deducts social security tax from your paycheck each pay day. At the end of each calendar quarter, he submits your name and number with payment for these taxes to Internal Revenue. Internal Revenue forwards copies to social security's main office in Baltimore, Maryland. Your wages are then posted to your record. The same process is followed for a self-employed person except that his earnings are recorded yearly."

Mr. Talbot states that the possibility of an error being made in the process does exist. He recommends that you request a statement of your earnings at least every three years.

All you have to do to secure the statement is to send a post card request available at your social security office to Baltimore, Maryland. If the reply you receive is incorrect in any way, contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area.

Each calendar quarter, the Social Security Administration receives employer reports of earnings showing incorrect social security numbers of employees, according to J.M. Talbot, social security manager. These incorrect reports, in many cases, happen when a girl has married but does not have her name changed on social security records.

Mr. Talbot stated that when a girl marries, she should complete a 'Request for Change in Social Security Record' form. After completing the form and returning it to the social security office with her old card, she will be issued a new social security card with the same number but showing the new name.

If the name and number reported by an employer do not match the name and number on file with the Social Security Administration, the earnings might not get to the proper account. This could result in a later loss of social security benefits or in a smaller benefit being paid.

"Did you know that if you operate any type of agricultural business, the hired workers you have in that business may be covered by social security?" J. M. Talbot, social security manager, asks.

Any employee who works and earns \$150 or more for one employer during any year or works at least 20 days on a time basis for an agriculture business, is covered by social security. Even part-time employees could meet the earnings or work test. You, as their employer, would be liable to withhold social security tax from the employee's check, match that tax yourself, and report the earnings at the end of the year.

### ADOPTION OR ABORTION!

Adoption or abortion? Is there a choice? Unmarried mothers do have a choice—Today The Smithlawn Maternity Home of Lubbock extends a compassionate hand to the young lady who wants to take advantage of their confidential maternity care and know that her baby will be adopted into a solid Christian home.

The Smithlawn Maternity Home has cared for more than 600 unwed mothers and the adoption of their babies in the past decade.

### Water Can Be Tested for Salinity

The school now has the chemicals on hand to test well water for salinity — salt water content. So says Fred Igo, local vocational agricultural teacher. If landowners want to keep a check on the salt content of their water wells, they can bring a sample in for testing. Cost of the test is only 50c, which will defray cost of the chemicals used, said Igo.

### DISABLED WIDOWS BENEFITS

"Two years have passed and many persons are still not aware of the change in the social security law which provides monthly benefits for disabled widows at age 50," said J. M. Talbot, social security manager.

Since the law became effective in February, 1968, more than 32,000 disabled widows have qualified for monthly payments, Mr. Talbot estimated however that another 30,000 widows who might qualify for these benefits have never applied.

"The requirements for disabled widows' benefits are apparently not as well known as those for the more familiar widows' benefits at age 62, or reduced widows' benefits at age 60," Mr. Talbot continued.

To qualify for benefits a widow, age 50 to 60, must have an impairment so severe that it keeps her from engaging in any work. The condition must also be expected to last for at least twelve months.

The widow's disability must have begun before her husband's death or not later than seven years after his death. A widow who has previously been entitled to benefits if she becomes disabled before payments to the children end or within seven years after they end.

#### For Social Security

Worried about proving your age? J. M. Talbot, social security manager, said the people at your social security office may be able to help you make your claim. There are some things you can do ahead of time. If you were born in a state that kept birth records when you were born, write for your birth certificate. If the state where you were born wasn't keeping birth records at the time, the next best thing is a baptismal record.

If you were baptized before age 5, you'll be asked to find out if there is a record. If there is, it is all the proof of your age you'll need.

If you have no birth or baptismal record, the people working in the social security office will be happy to suggest some other possibilities. Some examples are an old family Bible, school records, and federal census records.

You may not recall now, but when you bought your marriage license you gave your age. You may also have some old insurance policies about the house. The list of proofs to try is quite long.

When you file your claim, it helps if you have already fund the oldest thing you can that shows your age. Usually, the older the record the better it is for proving your age.

It will help the people at the social security office pay your benefits sooner if you think ahead on your age.

Many times a telephone call before you visit the social security office will help. You may be able to file your claim by phone. Contact the Social Security Office at 3000 West Harris Avenue (P. O. Box 3808) in San Angelo, Texas, or see the representative when he is in your area. Persons who are unable to meet with him are encouraged to call the office in San Angelo at 949-4608.

**Behind the 8-Ball**

By the editor.

"It's unwise to pay too much . . . but it's worse to pay too little. When you pay too much, you lose a little money — that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing it was bought to do. The common law of business balance prohibits paying a little and getting a lot — it can't be done. If you deal with the lowest bidder, it is well to add something for the risk you run. And if you do that, you will have enough to pay for something better."

**8-BALL**

Nowadays, I'm at least one behind in styles for men's clothes. You can call me one-behind D.

I notice that pants legs are getting wide again. Almost as wide as the jelly beans wore 'em in the 20's and 30's. So — naturally, I'm behind. All my slacks are so narrow-legged that I have to take off my shoes and socks and grease my feet to put 'em on or take 'em off. (Maybe I'm two-behind.)

And the very newest double-knits are beltless, no less. They fasten like an infant's or preschooler's used to. And I've got a whole drawer full of belts — black, brown, wide, medium and narrow ones. Just one-behind.

**8-BALL**

Nowadays, take shirts. They have such long collar points that you don't really need the rest of the shirt. That collar acts as a dickey and you're covered up without the rest of the shirt. All of mine have little bitty points — or none — and they're still good, too.

**8-BALL**

Take ties — my neat little slim ones and kaput. They won't even hold a candle to the wide in-style ones with Joseph Coat's colors and the ones that rival the rainbow. Oh well.

**8-BALL**

And shoes. I haven't bought any in so long all mine are either black or brown — one color each — no less. No buckles, no bows, no straps, no fancy gimmicks that make the wearer look like a Pilgrim or a Mexican dancer.

I've seen more two and three tone shoes recently this winter than since the late 20's. And all white are the rage now — even though it's winter.

The \$35 7X Beaver (Stetson) of the 30's now costs \$100 and is made out of rabbit or cat hair — no beavers. And they don't hold their shape or crease like the old timers. **Land Bank Interest Reduced**

R. H. Emery, Manager of the Federal Land Bank Association of San Angelo, announced today that the Federal Land Bank of Houston will reduce the interest billing rate on variable rate loans to 7%. "This reduction will be effective January 1, 1972 on all variable rate loans and affects more than 177 million dollars in loan volume to more than 5,000 Texas farmers and ranchers," Emery stated.

The variable rate loan plan which was introduced by the Houston Bank in July, 1969, lets the interest rate "float" over the variations in the money market. This is the third time in the past year that the billing rate has been reduced. "Continued improvement in the money market has made this reduction possible and is in line with the Bank's policy of providing farmers and ranchers of Texas credit at the

lowest possible cost consistent with sound business practices," Emery stated.

The Federal Land Bank of Houston makes long term real estate loans throughout Texas. The Bank has over 573 million dollars in volume of loans outstanding. The local association makes and services loans in six counties. Officers and directors of the association are R. H. Emery, Manager, James M. Cowser and Herbert Loeffler, Assistant Managers—Bill Pfluger, President of Board of Directors, Paul Pruitt, Vice President. C. E. Arrott, Clyde Flanagan, Arnold Fuchs, A. J. Seifick and David Glass Directors.
