National Magazine Features Linda Dill

A Baird teen-ager was given national acclaim this week when she was featured in an article in Teen Magazine, a national publication dedicated to teenagers of America.

The story, written by Ann Barton, a Baird High School student, was accepted for publication in the magazine, along with a picture submitted by Eddie Brumbaugh, Baird photographer.

The story, which bore the heading, "Linda Dill, Outstanding Student from Baird, Texas", told of the teen agers accomplishments and talents and paid tribute to her parents, and to her grandmother, Mrs. Frank Estes, who has accompanied Linda to class during her 11 years in Baird schools.

Miss Barton tells of Linda's talents and accomplishments, and points out that she is an A student despite handicaps of deafness, the inability to talk, and the fact that she is an invalid, who is confined to her wheelchair.

Linda, the story points out, is an artist, a writer of ability, a successful designer and an expert seamstress. "But the truly outstanding about Linda," Miss Barton points out "is her outstanding personality." She calls the readers attention to the fact that Linda has always been an inspiration to all her classmates because of her fine attitude, her interest in the things at hand. It was a fine tribute, her friends said, to a girl who has made life far more stimulating and fulfilling for the rest of her classmates.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN — For the first time since 1872, Texas Republicans are presenting a strong threat to capture statewide and legislative offices from the Democrats.

Following his nomination for the Governorship on the Democratic ticket, John Connally took immediate steps to meet the challenge with a united front.

Connally invited all Democratic nominees for state and legislative office to a barbecue to be held on June 16 at his family ranch near Floresville. Purpose: to make some campaign medicine.

Saturday's outing will launch the campaign for the November 6 general election.

Jack Cox of Breckenridge, the Republican nominee for governor, is backed by a slate of 20 nominees for the 23 seats in Congress; 15 candidates for the 31 state senate seats, and 86 candidates for the 150 house seats.

Also there are candidates for county and precinct offices in many counties.

Lined up with Connally will be Waggoner Carr of Lubbock for attorney general, opposed by T. Everton Kennerly of Houston; Preston Smith of Lubbock for lieutenant governor, opposed by O. W. (Bill) Hayes of Temple; Jerry Saddler of Palestine for land commissioner, opposed by Albert Fay of Houston; John C. White of Wichita Falls for agriculture commissioner, opposed by Harry Hubbard of Marfa; Ben Ramsey of San Augustine for railroad commissioner, opposed by Bernold M. Hanson of Midland; Jesse James of Austin for state treasurer, opposed by Allen Lacy of Abilene; and Robert S. Calvert of Sweetwater for comptroller, opposed by Mrs. Hargrove Smith of Houston. Republicans are not contesting judicial seats.

The Constitution Party also has fielded a slate of candidates for state offices, all but one of them from Houston.

SPEAKERSHIP — One of the more important offices in state government is the speakership of the house. Unlike the Senate, however, the people have no voice in the selection.

The speaker is elected by the 150 members of the house, Rep. Byron Tunnell of Tyler laid out the names of 95 Democratic nominees who have pledged to

support him, and called on his opponents for the speakership to withdraw.

Rep. C. W. Pearcy Jr. of Temple did. Another opponent, Rep. Ben Glusing of Kingsville, was defeated in the runoff primary, so he no longer is eligible. Rep. Alonzo Jamison of Denton remained in the race. He had claimed 61 pledges.

FACULTY FIRING — Dr. Rupert C. Koeninger's firing as professor of sociology at Sam Houston State College may cause Texas to be "blacklisted" by the American Association of University Professors.

No reasons were given when the board of regents for state teachers colleges fired Dr. Koeninger. Also no criticism of his teaching ability was brought out at the hearing.

The college professors association does not employ a strike or a picket line when it feels a professor has been done wrong. It merely "blacklists" the school by giving notice to other college teachers that it is not the best place to accept employment. Gradually, over the years, faculty members who feel Koeninger was done wrong will accept jobs at other schools which are not on the "blacklist."

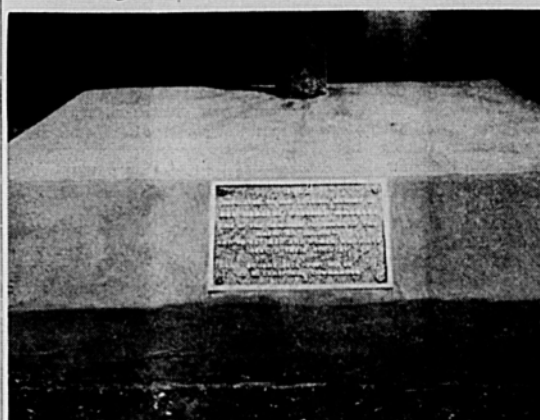

IN THE RED AGAIN — Heavy payments of state aid to the schools in May pulled the state's main checking account -- the general revenue fund -- into the red again.

When May started, the deficit was \$73,934,636. But heavy collections of corporation and insurance taxes wiped out the deficit, which has been present for nearly four years. This put the fund into the black by the middle of the month.

But when the school payments came due, it pulled the fund \$9,391,468 into the red at the end of May. Early June expenditures made the deficit \$28,015,980. It will go back into the black again when sales tax payments reach the treasury in July.

In memory of the men who have given their lives in all American wars, the Baird American Legion and the Baird Chamber of Commerce sponsored special services at the monument in front of the courthouse, and at Ross Cemetery, May 30th. A floral cross was placed on the monument by Rupert Jackson. Rev. Bob Eklund made a memorial talk and Rev. A. W. Hicks gave the invocation. Elton Ables served as M.C., and Eric Lovell played "Taps" in the background.

To conclude the ceremonies, a service was held at the American Legion flag pole at Ross Cemetery. The new flag pole and the bronze plaque was dedicated to Rev. Herbert G. Markley, former pastor of the Baird Presbyterian Church, who was one of the founders of the American Legion. Legionnaire Clyde White presided at the ceremonies.

CROOKED HOLES — State investigators from the Railroad Commission report that of the first eight oil wells in the East Texas Field tested, seven were "deviated" beyond the three percent allowed by commission rules.

The work is slow, and it may be months, or even years, before the extent of the crooked-hole drilling program in that giant field is known.

Atty. Gen. Will Wilson has filed one civil lawsuit, contending that a group of operators drilled four wells on a slant so the bottoms of the holes were on someone else's property, and that they plugged two more wells with cement before they could be tested.

Civil suits are being filed by oil companies against owners of nearby leases, contending that crooked holes have drained oil which belonged to them. So far, eight such suits have been filed. If court-type evidence is found by the commission's engineers and Texas Rangers, evidence will be turned over to U. S. Dist. Atty. Wayne Justice for possible prosecutions under the federal law -- usually called the Connally hot oil act -- which makes it a federal offense to move oil in interstate commerce after it has been produced in violation of state laws or regulations of the Railroad Commission.

LAWYERS ELECT — Buster Cole of Bonham was chosen as president-elect of the State Bar of Texas. This means he will take over as head of the group in July, 1963.

Lawyers elect a year ahead of time. This July, when the State Bar meets in Mexico City, Leon Jaworski of Houston will succeed William L. Kerr of Midland as bar president.

UNIVERSITY OF HOUSTON DEGREE PROGRAM — A curriculum and degree program for the University of Houston which becomes a state-supported school next year, was approved by the Texas Commission on Higher Education.

It calls for doctor of philosophy degrees in psychology, business and industrial psychology, chemistry, physics and chemical engineering.

Dr. Phillip Hoffman, University of Houston president, appeared pleased. He said the Commission's adoption of a large portion of a "role and scope" plan was a satisfactory recognition of the needs of Houston and the State.

Commission also agreed to consider at its July meeting the merger of the law and pharmacy schools at Texas Southern University with similar schools at the University of Houston. A Commission member said he didn't think the state could afford two schools of law and pharmacy so close together.

GOVERNOR'S APPOINTMENTS — Gov. Price Daniel announced these appointments:

Sol Parks and Mrs. Sally G. Pettus of Goliad as members of the Fannin State Park Commission. Parks succeeds Mrs. Louise Donaghue of Goliad for a term expiring Sept. 5, 1967. Mrs. Pettus succeeds Walter Bluntzer of Goliad, resigned, for a term expiring Sept. 5, 1963.

Jac Hightower of Vernon, O. L. Bell of Quanah, Ralph O. Harvey Jr. of Wichita Falls, Tom Craddock of Seymour and Dr. E. N. Jones of Dallas as members of the Board of Regents of Midwestern University, for six-year terms. Hightower and Bell are now appointees. Harvey was re-appointed, Craddock and Jones are filling vacancies. Jones, secretary of the Christian Education Commission of the Baptist General Convention of Texas, is a former president of Texas Tech College.

Russell D. Austin of Andrews as judge of the 109th Judicial District, which includes Winkler, Crane and Andrews counties. He succeeds the late G. C. Olsen. A graduate of the University of Texas law school and former county attorney of Andrews County, Austin won the Democratic nomination for the district judgeship on June 2.

Union Usuals and Unusuals

By Mrs. Veda Yarbrough

Hi neighbor! Yes, we had a rain. No big rains but several small ones. The most we got at one time was 1.5 inches; some got a lot more. Now all the farmers will be planting cotton as soon as the ground gets dry enough.

The old black bugs are here again, so late in the afternoon I am stomping black bugs. They are worse than ever, it seems.

Mrs. Mary Ramsey is at Mark and Ollie Burnams now. She spent last week with Lula and Dock Isenhower and will spend this week with Ollie and Mark. Think she will soon be able to go home. She is doing real good now, it seems.

Glenn Burnam and family of Hobbs, N. M., spent the week end with his dad and mother, Mark and Ollie Burnam.

Linda Isenhower spent last Thursday night with Gayle Burnam.

Gayle Burnam is spending the week in Hobbs, N. M., with the Glenn Burnams and the Jack Everetts.

Mrs. Clint McIntyre visited with John and Roma McIntyre. She came by Monday to see me a while. I wanted her to spend the day with me but she said she had to get home.

Mr. and Mrs. Jackie Holmes and son, Mark, spent one night last week with John and Roma Mc. The Holmes live in South Texas somewhere, can't remember the town. They also came to see me a while.

Nancy Chatham and children were by to see me a while Monday. Was glad to have everyone.

Mr. and Mrs. Fred Ellis, Mr. and Mrs. Jewel Ellis of Moran visited Mrs. Mary Ramsey and Mark and Ollie Burnam Sunday afternoon.

Burette Ramsey visited a while Monday afternoon with Mrs. Mary and Ollie.

Roma McIntyre and I stopped by a while Saturday afternoon to see Mrs. Mary and Ollie. I spent Friday night with Roma and John Mc.

Thursday night I went to Mark and Ollie's when the weather man said there was a tornado northeast of Clyde and headed East. We all went to the storm cellar. We did not have a storm, just rain.

Ruth and Betty Mobley spent Tuesday with me. Was real glad to have them. Been quite a while since Ruth had been here. We are glad to say she is doing

fine now.

John and Roma McIntyre visited with Weldon and Louise Isenhower Sunday afternoon.

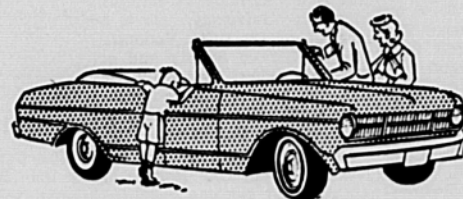

I went over to see Maurine and Enoch McCollum a while Sunday afternoon. They are doing fine.

The Baird Star, Baird, Callahan County, Texas, June 15, 1962

Ollie Burnam and I visited a night over east of my house. She was doing fair.

Mrs. Beth Coats and Paula. Called Graham hospital while there. Be good and I will see you next week if I don't give out stomping black bugs. I don't think I ever saw them so bad.

Why does GAS give you the only "family-duty" REFRIGERATOR?

Gas refrigerators are built to work better, last longer — and for less! You know they can take it — and here's why:

LONGEST WARRANTY ON THE MARKET — Family-planned 10-year warranty on the sealed GAS system is twice as long as any other — backed by reliable Lone Star Gas Service.

MONEY-SAVING OPERATION — Refrigeration costs less because it's GAS! Fewer moving parts to wear in the Gas system mean lower repair costs and less worry than with compressor types.

ICE DISPENSER MODELS, NEVER ANY FROST in frost-free models. Ice is always fingertip-handly in the server basket. No frost forms in continuous-cold GAS refrigerator-freezers. Big zero-degree freezer is a separate compartment. GAS refrigerator prices are the lowest ever.

Miss Grimes Attends State Convention

Miss Isadore Grimes of Baird attended the Delta Kappa Gamma Society celebration in Austin Friday night, June 8, when 1,000 members met at the Stephen F. Austin Hotel to pay tribute to the Presidents.

One hundred sixty presidents of local chapter marched in an impressive Procession of Presidents, carrying lighted red candles, in an hour-long pageant. Miss Grimes, president-elect of Beta Upsilon Chapter was one of the 160.

Miss Zora Ellis, of Talladega, Ala., international president of Delta Kappa Gamma, was principal speaker.

The meeting continued through Saturday where scholarships were awarded at a luncheon Mrs. Eunah Temple Holden,

of Florida, past Executive Secretary, spoke at a Founder's Banquet Saturday night. She told of a gap in education. "Some states are putting into their courses of study, from the first through the twelfth grades, a study of economics which will fill this gap." Citing a recent article from the Saturday Evening Post, in which it was pointed out that young people have little comprehension of the economic system of the US and free enterprise, Mrs. Holden said that many young people today do not know the rudiments of how to work, how to spend, how to save money. It is important that children know how to spend wisely, Money, or lack of it, causes divorces, helplessness, and many other of the world's ills, yet schools, for the most part, ignore money.

Well, its rain, hail and storm clouds for Texas news.

Through this part, we had a little twister last Wednesday night breaking large limbs and some tree tops around the L. V. Harris and Ira Crawford place. Then later hitting the Raymond Breeding place, up-rooting trees and damaging some good size trees. Again Saturday night, we had 65 to 70 mile per

hour wind and with all this and remembering the tornado at Denton Valley, we, along with other families, are spending much time in storm cellars. We have had good rains of 5 or 6 inches, which was needed very much.

The hardest hit families by the tornado at Denton Valley, were given a miscellaneous shower Saturday night. Many useful gifts were given, which will help them start over again.

Ira Crawford entered Callahan County Hospital Thursday morning, seeking relief from pain in the sciatic nerve, caused by an injury to his back. He suffered the injury loading a heavy wheel in the pick-up.

Mr. and Mrs. Dale Crawford

and family visited his Dad Saturday night, and out to the farm Sunday afternoon.

Welcome to Mr. and Mrs. Charlie Miller and family, who are living at the Elbert Crawford home place.

SOIL CONSERVATION DISTRICT NEWS

"Increasing numbers of farmers and ranchmen are becoming interested in planting or re-seeding their lands to grass," says D. C. Cox, Work Unit Consultant of the Soil Conservation Service Work Unit. Recent plantings that have been made with adapted seed of good quality and put out with the right kind of equipment have been successful in about all instances.

Many are interested in planting old fields that have been turned out of cultivation. Most of these are being planted to a mixture of native grasses on prepared seedbeds. Some are trying a new method for this area, seeding in a thin stand of small grain where blowing is a problem in establishing grass seedlings. The grain is mowed or shredded in the boot or early head stage and not allowed to

mature seed or to compete excessively for shade and moisture. This method offers a firm seedbed with very little competition and serves as a nurse crop for young and tender grass plants.

Planting grass on rangeland following brush control is one of the most popular practices. Most of it is done following tree dozing, root raking or rootplowing.

Seeding in the holes and disturbed areas following tree dozing has been highly successful when done thoroughly and seed are placed in the disturbed areas. This is one of the least expensive methods for adding better grasses to existing stands of grass. Planting the seed immediately after the ground is disturbed and before a rain is essential. The first rain melts the clods to cover the seed and the plant starts growth immediately when the soil warms up.

When the existing grass stand is poor and it is desirable to seed the entire area, a rootrake or roller chopper is used to disturb the soil and prepare the seedbed. Regular farm equipment such as a chisel type plow or tandem disc may be used where rocks, brush or stumps do not prohibit. Seeding rangeland without some type of soil disturbance has not been successful.

Rootplowing creates a seedbed that in most instances must be modified or firmed for good results. Some of the methods used to firm the seedbed are anchor chains, pipe drags and rolling packers or choppers. Some ranchmen prefer to use the root rake and pile the brush in order to leave the area smooth enough to spray or mow for weed control later if necessary. In this case, seed are planted at time root raking is done.

Resting the grass on the seeded area during the first growing season is a must for early establishment. After light grazing during the winter, a second rest the next growing season is often desirable. The young grass seedlings need a chance to establish a deep and vigorous root system and to produce viable seed as soon as possible. Practicing proper range use by removing no more than half of each year's growth will insure a vigorous plant with a long

productive life. Weed control is frequently needed and the planting can be sprayed when weeds offer damaging competition for moisture and sunlight. Care should be exercised to spray at recommended rates, according to local and State laws, and after the grass plants have developed three to five leaves. Some plantings can be successfully mowed or shredded for weed control. In all cases, grass plantings need to have good management and each planting generally presents need for special treatment, based upon existing conditions.

County Agent By TRAVIS ALLEN

The County Screwworm fund has reached a total of \$8,213.25 as of May 29. The new contributors in the Baird-Clyde area are: D. C. Cox, P. M. Ray, Howard Barton, B. N. Nichols, J. W. Vinson, Edgar Smith, Clinton Waddell, Johnson Bros., Arlie Nobles, E. E. Harrison, Arthur S. Harker, Richard Coleman, A. A. Williams, G. M. and C. Lee Smith and Lucion Pierce. Every one who has not contributed to the fund is urged to do so as we are still about \$1,800 short of our goal.

Six hundred and sixty-four herds, representing 15,175 cattle have been tested for brucellosis in the county as of May 25. The level of infection in the individual herd count is running well below the 1 percent margin allowed. However, the herd infection is running close to the 5 percent margin, but it is felt that when the smaller herds are tested, this margin will come within the limit. The crew chief, Jim Ellis, who is in charge of the testing work, feels the testing is going good and says that cooperation between the lineup men, testers, and individual owners has been very good. It is estimated to take another three to four weeks to finish the county.

The Callahan County Trapper Association met this week and elected Doug Fry as president. They also voted to have a director over each precinct to help collect the 5 cents per head for each goat and sheep, and keep the government trapper work-

ing in the county. Of the 15 men attending the meeting, it was unanimously felt that this was a very small fee for the service rendered by this man. They are urging all livestock owners in the county to pay this fee at the earliest opportunity, so that the trapper may be kept in our county. The money may be left at your local bank, or sent to Doug Fry, or the director in your precinct.

"Reading Club" For Boys and Girls

Callahan County boys and girls, from primary through the teenage group, are invited to join the Texas Reading Club, sponsored by Callahan County Library and the Texas State Library.

Mrs. Rosa Ryan, library clerk states that a two-color Vacation Reading Club certificate will be issued free, by the Texas State Library, to each member of the club who reads at least 12 books on his or her reading level before August 31, 1962.

Anyone wishing to become a member should register at the County Library, in the basement of the Courthouse before June 22nd. Mrs. Ryan will explain details of the plan.

Many Texas boys and girls already have joined the Texas Reading Club, the purpose of which is to encourage and stimulate reading interest among the younger age group.

During the convention, the 1962 posture queen of Texas was selected, Miss Beth Lollar of San Angelo.

LEGION TO MEET

The nominating committee will be appointed to select new officers for the coming year. C. H. Lunsford, Post Commander, stated that the post now has 159 members.
