For Social Security

The San Angelo Social Security Office is now taking applications for supplemental security income payments, a Federal program scheduled to start in 1974 that will establish an income floor for people in financial need who are 65 or over, or blind, or disabled, according to J.M. Talbot, social security manager.

But, people already getting State old age assistance or State aid because they are blind or disabled don't have to apply, he said. They'll be getting more information later this year about how the program will help them.

"The first monthly payments under the Federal program will be made in January, 1974," Mr. Talbot said. "Until then, State and local public assistance offices will continue to make payments in the usual way."

People not getting public assistance now who think they may be eligible for the new Federal payments should call or write social security to find out if they should apply, according to J.M. Talbot.

"Federal supplemental security income payments will be made by the Social Security Administration," Mr. Talbot said. "But the program will be financed by Federal general revenues—not by social security contributions from workers and employers. It's not the same as social security."

The aim of the new program is to provide supplemental payments in cases of need so that people 65 or over, or blind, or disabled will have a basic cash income of at least \$130 a month for one person and \$195 a month for a couple.

"This doesn't mean that every eligible person or couple will be getting that much from the Federal Government every month," Mr. Talbot said. "The amount of the Federal payment any person gets will depend on how much other income he has."

"Eligibility for Federal payments will depend not only on the amount of income people have but on the value of their assets," Mr. Talbot said.

"If you're single—or married but not living with your husband or wife—you can own things worth up to \$1500 and still get Federal payments," he said. "A couple can own things worth up to \$2250 and get payments. Not everything you own has to be counted toward your total assets, however."

"A home of reasonable value will not be counted as an asset," Mr. Talbot said. Personal effects and household goods won't count in most cases. Insurance policies or a car may not affect eligibility either, but it will depend on their value.

Certain income will be discredited in deciding on an application for supplemental security income. The first \$20 a month of income generally won't affect the Federal payment at all, Mr. Talbot said. "In addition, people who are working part time should know that the first \$65 a month of earnings won't be included in counting their income and only half of the rest of their additional earnings will be counted, he said.

Apart from earnings, other income above the first \$20 a month generally will reduce the Federal payment. This includes social security checks, veterans payments, workmen's compensation, pensions, annuities, and gifts, Mr. Talbot said. And, if you live in someone else's household, your basic Federal payment will be reduced by one-third before other income that may affect your payment is deducted.

Social Security Tips

Social security checks should be cashed within a reasonable time to prevent loss or theft, even though there's no time limit on cashing them, according to social security officials here.

'If your check is lost or stolen, get in touch with your nearest social security office at once,' a spokesman said. 'The check can be replaced, but it takes time.'

Handle your check carefully when you get it and you won't have to wait while it's being replaced.'

Social security pays over \$4 billion a month in benefit checks to almost 29 million people—eligible retired and disabled workers and their families and families of deceased workers who worked long enough under social security.

NEWS OF ECOLOGY

SCOUTS GIVE TRASH THE SACK

Three billion dollars! That's the estimated annual bill Americans are paying for public collection and disposal of garbage and solid waste—the third most expensive community service in the land. . . . which is exceeded only by spending for highways and schools.

Concerned citizens, of course, can make significant contributions to cleaning up this national mess. As in Watertown, N. Y., where the initiative of the Environmental Systems Division of St. Regis Paper Company and a local Boy Scout Council is currently leading the way.

Recently, the more than 500 Boy Scouts of Jefferson and Lewis County launched an intensive environmental clean-up campaign to make their community a better place in which to live.

Soliciting the aid of the 30,000 homeowners in their area, the Scouts began their drive with the sale of St. Regis disposable refuse sacks. In addition to their 30-gallon capacity and convenience; these sacks were selected because—unlike plastic sacks—they will break down in sanitary land fill without adding to our ecological problems.

Watertown homeowners who purchase these sacks sepa-

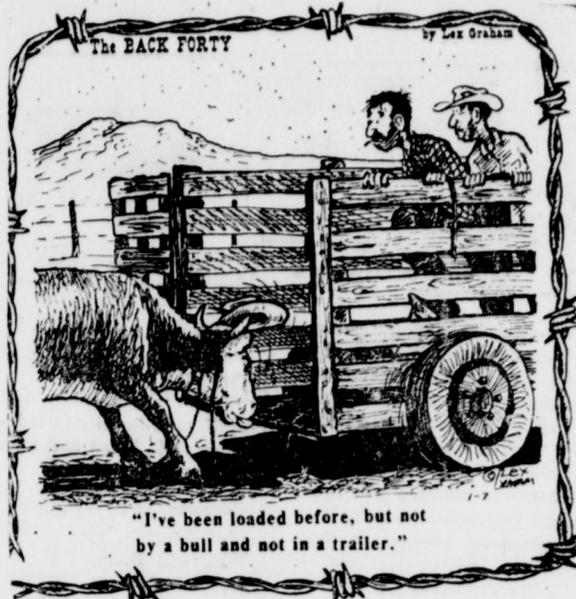

rate paper, cans, rags, metal, returnable bottles and miscellaneous glass. Then, free of charge, the Scouts pick up the differentiated sacks and dispose of them in ways compatible to our ecology. Glass bottles, for example, are sold for recycling; bio-degradable trash is sent to land fill sites. Provi-

sions have even been made to tow away abandoned automobiles.

The best part about the program is that everyone profits. The community gets a cleaner environment; the Scouts get the credit for a job well done—and the modest proceeds from selling the sacks and whatever trash they can. . . . for the support of other worthwhile Scouting programs.

Now—what are you doing in your community?

Wool from Sterling County once again proved it is of the highest quality at the recent American Royal Wool Show in Kansas City. Fleeces entered by Foster S. Price and Frank Price won two blue ribbons and one red ribbon in addition to two champion banners and two reserve champion banners at the recent show.

One fleece entered by Foster in the commercial class of the show won first place in that division and went on to championship of the commercial show. It beat out the first place fleeces of each of the other four classes—the half-blood, three-eighths blood, quarter, and low quarter blood classes.

Two fleeces entered in the Territory class by Frank won first and second place honors in the finewool class of the Territory Division. These fleeces were judged champion and reserve champion Territory fleeces. The Champion Territory Fleece was also the reserve champion fleece of the entire wool show being beaten out for the championship honors by a Columbia fleece from Montana.

There have been several inquiring about grazing Johnson grass and sorghum derivatives following frost. All plants of the sorghum type are highly susceptible to prussic acid poisoning or cyanic acid poisoning following frost. It is not known what actually happens but the sugars in the plants undergo a chemical change from the sugar to the prussic acid or cyanic acid.

If a light frost occurs, remove cattle from the field until a heavy frost has killed the entire plant. When a heavy frost does hit, if cattle have not already been removed, do so immediately. Keep them out for a week or ten days until the plant is completely dead. After this time, it is usually safe to put them back into the field.

Each year numerous animals are lost to this poisoning. The main losses are to cattle. Sheep are also susceptible to it but cattle are more so.

November has been declared FOOD AND FIBER MONTH in Texas. Agriculture is an important sector of the food and fiber production enterprise and is due a big salute during the month of November.

At times we hear it said that agriculture is not important to the state and nation. Yet, where would this nation get its food and clothing if it were not for agriculture?

A look at some dollars and cents figures put sense into the importance of agriculture. The cash receipts from farming, ranching and related activities in Texas in 1972 amounted to \$4,057,000,000. This did not include \$529 million in government payments.

Agriculture and the related industries of agribusiness provided employment for about 30 percent of the Texas labor force. Hired workers alone on the farms and ranches numbered 88,000 in 1972 and were paid 300 million in wages.

Agriculture is one of the most efficient sectors of the economy. In 1972, each U.S. farm worker supplied himself and 53 other persons with food and fiber needs. This is fourteen times the number supplied in 1820 when

data was first kept on this segment of agriculture.

Output per man-hour of farm work has increased 238 percent since 1950. During this same period, crop and livestock production increased by 47 percent. Improved technology and management were the key factors in these increases.

In 1972, 6.5 minutes of farm labor in Texas resulted in one dollar of cash receipts at the farm level or \$2.60 of income to the economy of Texas. The farm operator received 17 cents of the dollar in cash receipts while the other 83 cents were absorbed by production costs. The remaining \$1.60 of the \$2.60 went to the processing and distribution sectors of agribusiness. In short, an increase of 1 million dollars in agricultural income results in an increase of \$2.6 million to the total Texas economy.

Agriculture a small business? Hardly so when it multiplies the total economy of the state by 2.6!

RESOLUTION TO HOLD PROBATE MATTERS IN THE COUNTY COURTS

Whereas, County Judges and County Commissioners throughout our state are striving to perform important governmental functions and to render responsible, vital services to the people in their county, and

Whereas, one such function has been to protect and defend the rights and monies of widows, orphans and dependent children in probate matters; and

Whereas, there exists a movement by some to remove this responsibility from the county judges' office; and

Whereas, the County Judges and Commissioners Association of Texas meeting in general assembly this 1st day of October, 1973, does wish to officially record our opposition to such move,

NOW, Therefore, be it resolved that by resolution, the County Judges and Commissioners Association of Texas does hereby oppose Amendment No. 6 on the November 6, 1973 Texas Constitutional Amendment Election and be it further resolved that copies of this resolution be forwarded to all major daily newspapers, state elected officials and others as might be deemed necessary.

(Signed) Robert N. Barnes, President.
