Commissioners Will Meet Friday

The Bailey County Commissioners Court will meet in a special session in the Courthouse on Friday, September 30.

The meeting is scheduled to begin at 10 a.m. and will continue until all business items are concluded, according to County Judge Gordon H. Green..

Items on the agenda include consideration of the acceptance of the old Santa Fe Depot as a senior citizen's center.

Also, Commissioners will consider the disignation of a county representative to the board of directors of the Bailey County Appraisal District.

Other miscellaneous items will also be attended

of workers who de-stem the peppers outside of the plant prior to the cutting and further processing on the Free Farms. About 20-30 people are employed in this phase of the operations and the farms eventually hope to make this a full time employment set-up.

Mules-Indians Will Clash In Homecoming Game Battle

this Friday night draws nearer. The Muleshoe Mules are set to meet the Morton Indians in what is traditionally a battle that draws a lot of attention.

The coronation of the 1983 Homecoming Queen will be held at 7:40 p.m. September 30, just prior to the game with activities getting underway at Benny Douglass Stadium. Candidates for queen this year will be Sherri Bessire. Deena Burris, K.K. Flowers and Tonda Gunstream. They will be escorted by members of the Muleshoe Mules varsity team.

Prior to the Friday coronation,a big homecoming bonfire and pep rally is set for Thursday from 8 to 9 p.m. on the Boy Scout grounds at the south end of Main Street. A barbeque will preceed the bonfire. Then on Friday, at 2:50 p.m. the regular pre-game pep rally will be held in the high school gym.

The DECA organization will host their annual pre-game supper, serving barbeque with all the trimmings. Prices are \$4 for adults and \$2.50 for children 11 years of age and

The Indians will be on the warpath, and the Mules will be ready, as they alagainst the Indians.

Mauldin has been Morton six years, and is beginning his fifth season as head basketball and football coach. In a conversation Tuesday, Mauldin told the Journal that he is pleased with his teams playing. "We have a balanced attack and can run or throw the football." he said. Mauldin indicated that Morton was a little

short in the depth department with only 20 young men out for the varsity team. Like Muleshoe, though, all twenty of them play and have some speed and experience. Morton is Cont. Page 8, Col. 4

Chamber Will Launch Eighty -Forward Project

The appearance of Muleshoe is the focus for a project being initiated by the. Muleshoe Chamber of Commerce and Agriculture. The program dubbed the "Muleshoe Eighty-Forward project", is targeted at cleaning up Muleshoe with a specific goal in mind: to attract new businesses to Muleshoe. According to Chamber President Robert

Texas Safety Education
Officer J.C. Brown of Wichita Falls was special guest at the Muelshoe Rotary Club meeting on Tuesday at noon. His topic of discussion was on handgun safety, and he was introduced by Bob Stovall who was in charge of the program.

Brown told the group of various laws concerning handguns and explained that carrying a handgun was illegal due to several reasons - one in particular being the ease with which they can be concealed on the person. To prove his point, Brown began pulling guns from several places on his person where he had previously hidden them. 'To be within the law, a person has to be a commissioned law enforcement officer in order to carry a

The safety officer, who has been in this line of business for 25 years, showed and explained the various mechanisms of the 22, 38 and 45 caliber weapon, as well as a .357 magnum. Brown said that the .22 is generally considered to be a "safe" weapon due to the low caliber, but pointed out that this is not true. Safety is not sufficiently stressed with this kind of weapon and it can be a very dangerous one, he said.

Brown also compared the semi-automatic weapon to the revolver. He mentioned that with a semi-automatic it is almost impossible to tell if it is loaded by just looking at it. He also said that removing the clip or magazine does not unload a semi-automatic, since one shell will still remain in the chamber and is loaded into it automatically.

The DPS speaker then compared guns to automobiles with reference to Cont. Page 6, Col. 6

3-Way Tie Splits **First Place Points**

If all you football fans studied your lessons this weekend, you know what a time we had figuring this football contest. A lot of upsets were pulled off and the Muleshoe-Idalou game left us with "zero" points for a tiebreaker score. As a result, we have a three way tie for first place in the contest, a loner on second,

and a two-way tie for third. Winning with five games missed and 35 points each off in the tie-breaker games were Randall Stevens, Donnie McDonald and Mrs. Fred Wilbanks. They will each receive 3 1/3 points each and \$2 each for their

Standing alone in second place with five games missed and 30 points off in the tie-breaker was Scott Calvert. He will get a total of 6 points for second place and \$3, actually coming out ahead of any of the other winners.

Third place was a two-way tie between Barry Lewis and Bruce Bruns. They both missed five games each and were 37 points off on the tie-breaker. Bruce and Barry will receive two points each and \$1 each for their entries.

The fact that there was no score in the tie-breaker game accounted for the large differences in tie-breaker scores.

Still in the lead with 14 points overall, is Debbie Weir. All of the entries winning this week were first time winners, so there was no chance to add on additional points for previous winners. Other winners up to now who have ten

Letter To The Editor

Dear Editor,

For several months I have been reading the paper. The diversity of areas covered by the Journal is impressive. There's something of interest for almost everyone. From Senator Bill Sarpalius Reports, news of Texas crude production, the coverage of Fiesta Days, to articles like Creative Woman, news of upcoming events, community and nursing home news, and school news, a wide segment of the community is included.

Support for the town of Muleshoe and it's people is evident in the number of business persons who believe in newspaper advertising. This acquaints the consumer with available services and supplies.

I usually read and enjoy the little anecdotes scattered about the paper. However, you printed one recently that I found offensive. It was a joke between an adult and child. It concerned the currently rampant social disease-AIDS.

This is no joking matter. It would better serve community need to publish information on who to contact if one suspects he might have this problem. This is what is needed, information for those who do not know or are afraid to ask.

Please continue printing the best in news, and leave some printables to other publications.

Cordially, Delphene McConnell Bos 207 Muleshoe, Texas 79347 Sept. 27, 1983 Dear Editor,

8th Grade **Mules Cage** Wildcats

The eighth grade Mules improved their record to 2-1 with an impressive win over the Idalou Wildcats Thursday night. The score ended 12-6, Mules' favor.

The Mules scored first when Joe Mendoza ran in for a touchdown with a great offensive line helping him. The PAT failed and the Mules led 6-0. The defense did an outstanding job in stopping the Idalou Wildcats, and they also caused many turnovers in which the Mules gained yardage. The first half ended 6-0, Mules.

The start of the third quarter was hard hitting and rough, also scoreless. In the fourth quarter the Mules scored a touchdown around the end which made the score 12-0. The PAT. failed. The Wildcats had a strong drive in the last of the fourth quarter and scored a touchdown, but the PAT failed, and the score remained 12-6 in favor of the Mules. The Wildcats recovered the on-side kick time running out and threw a successful long pass to a Wildcat receiver deep in Mules territory. The next pass by the Wildcats with

The seventh grade Mules played the Idalou Wildcats at Idalou last Thursday, September 22. The Idalou Wildcats made a touchdown on their very first play of the first quarter. They tried for the extra two points and roughly but successfully made it. The score stood at 8-0, Wild-

cats' favor. During the second quarter, the Wildcats scored another touchdown, with their quarterback running the ball in. They tried for the extra two points, but Kevin King, halfback for the Mules, blocked the pass that would have made the score, leaving the Wildcats with a lead of 14-0. Near the end of the third quarter, the Mules made a terrific touchdown by wingback Daniel Olivas. The Mules tried for the extra two points but were tackled about two or three yards from the end zone.

During the fourth quarter, the Mules and Wildcats were equally matched and neither team scored another touchdown, leaving the Mules with a 14-6 loss.

Athletic Boosters Update

by Donna Shaw

by: Donna Shaw The Muleshoe Boosters met Tuesday night in the cafeteria with a good crowd on hand. Boosters don't have to have a son or daughter involved in athletics to be one. All fans are considered booster mem-

The Boosters now have "Mule Mania" scarves to sell and they can be purchased at the gates before football games for the sum of \$3 each. Also available are Mule Bumper Stickers and hat or lapel pins.

The High School Club has pom-poms, and Junior High Student Council has their "Mule Mania" thing going, with shoe laces and ribbons. Ann's T-Shirts has Mule Mania caps available. Fans should be on the lookout for the new Muleshoe Mules or Mule Mania pennants. This is the year that Mule Mania is going to the playoffs, so get into the swing of things by purchasing one or all of these items.

The Boosters are also working on getting more miniature footballs for the cheerleaders to throw into the stands when the Mules score. Come out to the games and try to catch one of these for a souvenir.

Muleshoe coaches and the Muleshoe Mules now stand 3-0 for the season and what a team we have! "Together They Are." The cheerleaders are really working hard to promote spirit and the antics of the Mighty Mule Mascot are superb. Anthony Gibson and the Mighty M Band, the flag corps and the pep club are creating what is called MULE FEVER, and it is catching. So, if you come out to the games, be prepared to catch this bug.

Boosters and fans are reminded to attend the Pep Rally held each Friday at 3 p.m. in the high school gym. Let's get up and stand when the Mules kick the football and yell "Mule Mania." enthusiasm catches on, so come on fans and lets get behind our Mules and help them win. "Together We Can."

There was a Booster Club meeting at 8 p.m. on Tuesday, September 27, so come out each week and meet with us. We need your help and support. GO, BIG MULES.

Texas A&M pioneers new developments in fire ant research

COLLEGE STATION-Texas A&M University fire ant researchers say they have perfected techniques for artificially inseminating female ants and tagging worker ants-two developments that could lead to more effective control of the insect that plagues much of the South and Southwest.

The ability to artificially inseminate female fire ants is the starting point for research to produce a sterile male ant, said Dr. Brad Vinson, head of the fire and project and professor of entomology.

Sterilization was the highly

successful screwworm control program launched in Texas more than 20 years ago.

ALTERNATIVE MINIMUM TAX (Complicated - Don't Get Trapped) Good Tax planning usually involves

sheltering some of your income long-term capital gains, accelerated depreciation, etc. Such items are given favorable tax treatment and are therefore called "tax preference items."

Taxpayers with large amounts of "tax preference items" may find themselves subject to the expanded alternative minimum tax (AMT) and find that the favorable tax treatment they so agressively sought is diminished considerably.

Generally, here's how the new AMT is calculated. You begin with adjusted gross incode and add to it the so-called tax preference items: your capital gain deduction (the 60% you exclude from regular tax), interest from all-savers certificates, the \$100/\$200 dividend exclusion, the bargain element of incentive stock options, certain accelerated depreciation, definitely review your situation with your percentage depletion, intangible drilling accountant.

costs, and others.

From this total, you subtract an exemption, \$30,000 if you're single, \$40,000 if you're married thing a joint return, plus your charitable contributions, your home mortgage interest, casualty losses, medical expenses exceeding 10% of adjusted income, other interest to the extent of total net investment income and a few other miscellaneous deductions. The balance is your "alternative mini-

mum taxable income" subject to a 20% tax rate. If the tax so calculated is larger than your regular income tax, you are required to pay the higher amount. Very few credits can be used to offset the AMT, so don't count on sizeable investment credits, targeted jobs credit or other such credits to eliminate this tax.

The AMT is one of the most complicated provisions in the tax law. If you think you may be faced with it, you should

Mobile/Manufactured Homes Offer

Architectural Styles To Please All Buyers!

By Susan Fiske Today's mobile/manufactured home is a far cry from the "house on wheels" from which it evolved. What it has lost in mobility it has gained in livability through innovative planning and design.

According to the Manufactured Housing Institute (MHI), the 180 manufacturers producing homes at 410 factory sites throughout the nation offer virtually limitless choices in architectural designs, floor plans, interior decors, and exterior finishes.

There are great rooms, dens, formal living rooms, informal dining areas and country kitchens. One can choose from French Provincial, Early American, Danish Modern, even Mediterranean and Oriental decors. Also available are such features as cathedral ceilings, bay and greenhouse windows, stucco siding and slate shingle roofs.

Kitchens feature full size brand name appliances using gas or electricity. Bathrooms have double vanities and even sunken tubs!

Walnut Brownie Cupcakes

1/3 cup butter or 2 1-ounce squares margarine, softened unsweetened 1 1/3 cups granulated sugar

chocolate 1 2/3 cups all-purpose teaspoon vanilla

2/3 cup milk 2 teaspoons baking 3/4 cup chopped powder Diamond Walnuts 1/4 teaspoon salt

Melt chocolate over hot water; cool. Sift flour with baking powder and salt. Cream butter with sugar until light and fluffy. Beat in eggs, one at a time. Mix in vanilla and chocolate. Blend in flour mixture alternately with milk. Stir in walnuts. Spoon batter into 2 1/2-inch muffin pans lined with paper cupcake liners, filling about 2/3 full. Bake at 375 degrees F, for 20 to 25 minutes or just until cake tops spring back when touched lightly. Cool on wire racks. Makes about 18 cupcakes. If desired, frost with a chocolate buttercream frosting and top with walnut halves and large pieces.

The second phase of the Chamber's Eighty-Forward project will involve contacting prospective businesses in order to encourage them to locate a business in one of the vacant buildings in Muleshoe. However, the Chamber manager stresses that this is not very likely

to happen until Muleshoe s made to look like a place where such a business would be able to make a profit. "That is the purpose of the clean-up phase of the Eighty-Forward Project", according to Gulley. Any merchant or other interested citizen with questions or comments concerning the Eighty-Forward Project is encouraged to ntact the Chamber office for more details.

Virginia Will Meet Powerful Maryland We've made the state-In the two biggest headliners in the nation this week, Pittsburgh will nip West Virginia (the Moun-

ment in our columns in previous years that it's always delightful to see new names among the nation's top ranked football teams. Colorado State, Rice, or even Slippery Rock. Sorry, none of them is remotely close. However, Virginia, ex-Navy coach George Welsh, is raising lots of eyebrows. The Cavaliers have disposed of Duke, Navy, and James Madison..they played North Carolina State last Saturday. This week comes a test that may come too soon in the Virginia scheme of things. They meet Atlantic Coast Conference power Maryland. The Terrapins shellacked Virginia 45-14 last fall, 48-7 in 1981, and are naturally favored again. But watch out, Top Twenty, the Cavs are coming.

Another stranger that's making loud noises is East Carolina. After being edged by Florida State in their season opener, the inde-pendent Greenville, N.C., Pirates shook every foundation in Raleigh, upsetting North Carolina State 22-16. This week East Carolina invades one of the perennial powers of the Big Eight, Missouri. The Tigers of Mizzou are one and one against two Big Ten opponents. They whipped Illinois, but were nipped by Wis-consin. Should be an excellent challenge

both..we favor Missouri. Arizona upset Arizona State 28-18 in the final game of the 1982 season (remember, 'Cats, we picked it!). This was an indication of things to come, and things have been just that so far in 1983. Arizona has bombed Oregon State, Utah, and Washington State.. Cal-Fullerton was last week's opponent. This Saturday, it's Joe Kapp's California Bears. Should be another semi-bombing. The entire season for the Wildcats comes in November as they meet - in order -

Washington, U.C.L.A., and

taineers will be a home), and Auburn will beat Florida State.

being on the ground. Ideally, the two farmers hope that the majority of the harvesting can be done by machine.

Following the harvest, the peppers are brought into the plant site, where they are de-stemmed outside by hand labor. About 20 or 30 people work in this phase of the operation. The peppers are dumped into a bin, moved by conveyor through the de-stemming and washing processes. They are then drained and sent through the dicing machines. Wimberly explains the dicing machine as a series of knives set to cut a certain size.

After the peppers are diced, they move through the "brining" process and are conveyed into 30 gallon plastic-lined drums or barrels for storage or shipping. What comes out of the dicing machines is a mixture of red and green peppers that greatly resembles the holiday season. Wimberly

Services for Buddy Omer Jacops, 73, of Friona were held at 2 p.m. Tuesday, Sept. 27 in the First Assembly of God Church of Muleshoe with the Rev. Hazel Norred, Assembly of God minister of Friona, officiating.

Interment was in Bailey County Memorial Park under the direction of Ellis Funeral Home of Muleshoe. Jacops was killed in a car accident 1/2 mile west of Roscoe Sunday morning at 11:30.

A native of Robert Lee, Jacops was born August 14. 1910 and moved to Friona seven years ago from Muleshoe. He was a retired section hand with the Santa Fe Railroad and a member of the Assembly of God Church of Frioan. He married Winnie Hazel Long on Aug. 4, 1934 in

Services for Patti Ryburn, 27, of Farwell were held at 10 a.m. Tuesday, Sept. 27 in the First Baptist Church of Farwell with the Rev. Pat Riley, pastor, officiating.

Burial was in Sunset Terrace Memorial Park in Farwell under the direction of Steed-Todd Funeral Home of Clovis, N.M. Mrs. Ryburn died about midnight Saturday in Methodist Hospital in Lubbock of injuries she suffered in a motorcycle accident earlier in the day in Farwell.

A native of Farwell, Mrs. Ryburn was valedictorian of her 1974, graduating class at Farwell High School, a 1977, graduate of Texas Tech University and was employed as an accountant by a Farwell accountant, Jim Berry. She was a member of the First Baptist Church of Farwell. She married Mark Ryburn on May 6, 1978, in Farwell.

Survivors include her husband, Mark; her parents, Leon and Mary London of Farwell; two sisters, Gay Goettsch of Farwell and Karen Lusk of Clovis, N.M.; her grandmother, Maggie London of Muleshoe.

Just as you're getting into the fall/spring tillage season, John Deere announces a big dollar-saving offer on major tillage tools. Depending on the tillage tool you buy (see the chart), your dealer will deduct 5 or 10 percent from the latest base machine price. For example, the discount on an 181/2-foot 235 Disk would save you more than \$1,100.

On any of these you can save even more by financing with John Deere. Finance charge will be waived to March 1, 1984, for qualified buyers.*
