A dollar for a loaf of bread a few weeks ago was the prediction of some. Roland Smith, grain marketing specialist with the Texas Agricultural Extension Service, says this isn't so. The price of wheat would have to go from the present price of \$4.58 per bushel to about \$30 a bushel.

The actual cost of wheat is not the cause of increasing prices of bread according to Dr. Carl Shafer of the Department of Agricultural Economics and Rural Sociology, Texas A&M University. He says that a loaf of bread contains a little less than a pound of wheat flour. At the above price of \$4.58 per bushel, the farmer's share is about 8.5c. The miller who grinds the flour adds his cost and profit and sells the flour for just over 11c.

The baker adds 4c to the cost for his ingredients. He sells the loaf to the retailer for about 39c, a spread of 24c for profit, advertising, packaging, transportation and other costs. Add 8c for the retailer's cost and profit and you have a 47c loaf of bread.

In any event, the economists feel that one dollar bread based on wheat prices alone seem remote, because wheat futures prices from May through December are less than \$5 per bushel.

Most livestock producers know by now that the hearing in Washington on March 27 concerning the use of the M-44 experimental coyote control program resulted in the judge's ruling against the Humane Society's request for an injunction. The judge ruled that to enforce an injunction on the program would be detrimental to the program since it was aimed at gathering information on control methods. Thus, the Environmental Protection Agency will be allowed to proceed with the program in the 44 counties in Texas.

Educational meetings being held by the Texas Department of Agriculture and the Texas Agricultural Extension Service to qualify persons to use the device have been resumed. Twenty-eight were certified to use the device at the Sterling County meeting on March 4.

Several have inquired about the required reports to be made in conjunction with the program. Since the program was under a temporary injunction and was not operative, a report is not required for March as we understand it. With the removal of the injunction, those certified to use the device will have to make a report at the end of April. If you did not get report blanks at the meeting, a supply is available in the county Extension agent's office.

The time is approaching when Shin Oak poisoning in cattle becomes a problem. Dr. J. W. Dollahite, Professor of Pharmacology at the Veterinary College at Texas A&M University, says this poisoning is a problem

School Board Election Last Saturday

BILL DAVIS AND C. J. COPELAND WINNERS

In last Saturday's school board trustee election, Bill Davis and C. J. Copeland were the winners.

There were three names certified for the ballot, being Davis, Copeland and Troy Templin. Davis received 158 votes, Copeland 140 and Templin 105.

On a write in Winn McClure got 18 votes and Jack Peel 7. A few more scattering votes were written in for other individuals, but not enough to list as serious contenders.

Along with the official canvas of the votes here Monday night the board ordered a recount of the ballots. Present at the recounting were Bobby Dodds, Charlie Davis, Reynolds Foster and O. T. Jones. The recount confirmed the results as announced by the election officials.

Long time president of the board, Reynolds Foster, decided not to run, and his place was open, and Copeland's term was expiring. Davis will be the new man on the board.

Other members of the board are I. W. Terry, Charley Davis and Larry Glass and Billy Cain Humble.

Among those who received from one to three votes in sporadic write-ins were Tom Cleveland, Eunice Cleveland, Dan Glass, Betty Glass, Billy Blair, and Elizabeth Horwood.

The meeting was a success, according to Troy Templin, local fire chief, and he said that the cooperation of the Sterling people and the local department is what made the convention a success.

Financially, the affair broke a little better than even. \$900 in registration fees were taken in and the dance got \$150 in paid admissions.

In the primary grouping Cynthiajean Schovajsa won 2nd and Reed Stewart 3rd. They will be entered in the state competition at the state meet in College Station.

The first tournament will be here on Saturday, April 27. It will be an ABC Best Ball tournament. There will be a \$5 entry fee per entrant, and one must qualify by April 24 on a 12 hole qualifying score, said James Thompson, association president.

SOD HOUSE SURVEY

Have You A Sod House Heritage?

Did you ever live in a sod house a dugout, or an adobe building; or were you born in one? Did you ever teach school, attend school or church services in such a building, or help build one? Or are you a child or perhaps a grandchild of a former pioneer sod house dweller or builder?

If you can answer yes to any of these questions, the Sod House Society of America, with headquarters at Colby, Kansas, would like to hear from you. The unique society is making an effort to compile a census of people who have had any kind of personal experience with sod houses, including dugouts, part sod, and adobe buildings, which were once common in the United States, Canada and Mexico; also the descendants of such persons.

If you are a former sod dweller or a direct descendant of a family that can claim a part of the sod house heritage during the pioneer settlement era of North America, or in more recent times, the society wishes to have the information to include in a permanent historical record of sod, dugout, and adobe dwellers and their families.

To make this survey a success, information is needed from people in all parts of North America. Sod buildings in some form were used in well over half the North American continent. If you have any information concerning present or former sod dwellers, your report of this will be most welcome. Please tell where the buildings were located, and give family names, as well as your own. Reports should be sent to:
