# Citizens Express Outrage Over Lebanon Tragedy

## Around Muleshoe

Muleshoe students will have NO CLASSES ON FRIDAY, OCTOBER 28, however this date is an in-service day for faculty.

The Muleshoe ISD's Superintendent's office will be open Saturday, October 29 from 9 a.m. until 2 p.m. to give patrons of the district an opportunity to speak directly with the superintendent regarding school or community matters. Citizens are urged to come and share ideas, complaints or commendations directly with H. John Fuller, Muleshoe's superintendent of schools. Specific appointments may be made by phone.

A fund has been established at the Muleshoe State Bank for the Albert Ramirez family. The Ramirez family lost all their home furnishings in a fire Saturday afternoon.

The Muleshoe Young Homemakers will be sponsoring skating Friday, Oct. 28 from 7 until 9 p.m. at the Civic Center. Admission is \$1 per skater.

The Muleshoe Hospital Auxillary will again sponsor their annual "Christmas Card" project, with the drive scheduled to get underway on November 1. Further details will be released soon.

Littlefield merchants will sponsor a musical show featuring the "Six Pounds of Music" group from Memphis, Texas on Saturday. Con't Page 6, Col. 2

## Muleshoe ISD Will Sponsor

### 'I Can' Seminar

H. John Fuller, superintendent of Muleshoe Schools, announces that Friday, October 28 will be a holiday for students, but will be an in-service day for administrators, teachers and aides.

Mr. Fred Haley, Jr., representative of the Zig Zigar Corporation, Dallas, will present the "I Can" Seminar to the faculty and staff. "This seminar is designed to help participants discover exciting proven ways to help staff and students have a healthy self-image, be Cont. Page 6, Col. 5

## Mixed Drink Tax Rebate Up 7.4 Percent Over '82

State Comptroller Bob Bullock sent checks on October 19 totaling \$10.7 million to 219 counties and 416 cities as their share of the state's 10 percent mixed drink tax collected during the third quarter of 1983.

Bullock said the state collected a total \$37.2 million in taxes on the sale of mixed drinks during the quarter, up 7.4 percent over the same period last year.

Mixed drink taxes for Bailey County for the third quarter of 1983 totaled \$6,246.82, with the county receiving \$937.02 as its 15 percent remittance. The City of Muleshoe's total revenue for this period was \$3,622.49 and the remittance received amounted to \$543.37.

In Castro County a total of \$6,676.91 was reported in total county tax revenue for the third quarter, with the County's rebate being \$1,001.54. The City of Dimmitt reflected a total re-

"OLD GLORY" AT HALF-MAST...Signifying the loss of close to 200 American Marines in Beirut last Sunday, flags in Muleshoe were flown at half-mast in a patriotic gesture for those fallen comrades. Public furor over the Marines' mission in Beirut continues to grow. Some 25-35 French paratroopers were also killed in a similar, near simultaneous attack at their command post.

## Mules - Chieftains Will Clash Friday Night In Friona

Okay, Mule Fans...The Muleshoe Mules have another big game coming up this Friday night as they travel into Indian territory to steal the feathers and the thunder from their old adversary, the Friona Chieftains.

The Chiefs will come into the game with a 6-2-0 season record and a 2-1-0 district record. The Mules stand 5-2-1 in season and 2-1-0 in district. The winner of the game could very well come out as the second team of the two now scheduled for playoffs in District 2-3A.

Friona cinched a berth in last year's playoffs by the flip of a coin, but this year, Coach Tommy Moss thinks that they'll have to "get by the Mules" first. Coming off of a resounding loss to Littlefield last week, the Mules are going to be looking for vengeance, and Friona may be the ones to take the brunt of their attack.

All mistakes and errors aside from last week's game, the Mules showed their class. They played the ballgame all the way and

gave their best. What more can you ask?

Getting back to Friona, Coach Moss says that most of his Chieftains will be healthy except for the usual bumps and bruises. "We lost a game a couple of weeks ago, to a much improved Abernathy team, and it really knocked us down," Moss said. However, the Muleshoe-Friona games are another one of the traditional "UP" games and usually turns out to be a battle royal.

"We don't throw the ball too often," Moss said, "because we've had some throwing problems." He also said that when they did throw, it usually turned into a big kind of play for them.

## Two Contestants Tie For 1st Place Lead

Say, contest buffs, we've really got a contest going now. This week brought us two brand new winners for first and second place and a

third place winner with previous points. The contests are getting tougher each week, and new entries are coming in with each week.

Winning first place in the contest was a Midland, Texas resident, Bobby Gleason. Gleason missed one game (Tech) and was four points off in the tiebreaker score. He will receive 10 points and a check for \$6 for his efforts.

Second place went to another newcomer in the winner's circle, James Hanson. Hanson also missed only one game, but was 10 points off in the tiebreaker score. He gets a check for \$3 and 6 points overall.

And, coming up with third place this week was previous winner and holder of 16 prior points, Debbie Weir! She will receive four points and a check for two bucks.

Last week we reported that Raymond Villalobos had a total of 16 points, but after a double check of each contest, we found that he had a total of 20 points towards the grand prize. So, with Weir's third place win this week, she joins Villalobos in a tie with 20 points each for first place in the overall contest. By the way, Debbie only missed one game also and she was off by eleven points in the tiebreaker.

In Lamb County, tax remittances on mixed drinks totaled \$9,239.37, with the county's portion being \$1,385.91. The City of Littlefield had total tax revenues of \$4,795.94 and received \$719.39 in rebates.

Con't Page 6, Col. 2

## Cross Country Teams Sweep District Games

In a late afternoon conversation with Coach Jerry Johnson of Muleshoe, he notified the Journal that Muleshoe's Varsity Boys Cross Country team had swept District with a big first place win. Johnson, who coaches all cross-country, also said that the Girls Varsity team won second place and all seven members of each team had qualified to go on to regional competition which will be held on November 5 in Lubbock.

In individual placings, Muleshoe's Tony Luna, 1982 state champ veteran, won District Champion honors with a time of 16:23 for the event. Other times for the varsity boys were: Aldo Almanza, 3rd - 17:00; Tony Rojas, 4th - 17:11; David Medlin, 5th - 17:26; Ronnie Logsdon, 6th - 17:43; Danny Sanchez, 9th - 18:06 and Allan Beasley, 11th - 18:24.

Juanita Garcia was high point girl on the Muleshoe women's team, placing third with a time of 13:31. Teena Sizemore placed 7th with 14:06; Brenda Ellis placed 9th with a time of 14:13; Marylyn Lewis placed 11th with a time of 14:18; Adeena Lindt placed 17th with a time of 14:47; Norma Castorena placed 16th with a time of 14:44 and Meischelle Logsdon placed 20th with a time of 16:16.

A big congratulations is in order for Coach Johnson and

all of his cross country runners. Muleshoe Boys Varsity is the defending state champion of 1982.

Muleshoe's Cross Country teams traveled to Dumas, Texas on Saturday, October 22 to enter the open meet there in preparation for the upcoming District meet in Lubbock on Tuesday, October 25.

Taking a first place win with a triumphant boys' varsity squad, Coach Jerry Johnson was well-pleased with the Mules. Tony Luna finished fourth with a 15:25. Con't Page 6, Col. 1

## Time Changes Sunday

Don't forget to move your clocks back this weekend. The Muleshoe School district along with the rest of Muleshoe will be moving from Daylight Savings Time back to Standard Time Sunday morning, October 30. Set your clocks back one hour before you go to bed on Saturday night in order to have the correct time when you wake up Sunday morning. Remember Spring Forward - Fall Back.

## Superintendent Speaks To Rotary On Education

Muleshoe Superintendent of Schools, H. John Fuller, was a special guest at Rotary on Tuesday to discuss "What's Happening In Education?" today in the state and on the local level.

The superintendent gave a brief explanation of the Select Committee on Education which was created by the 68th Legislature to study the issues and continuing concerns related to public education in Texas. This committee is scheduled to hold its first meeting in July and is chaired by H. Ross Perot of Dallas upon appointment by Governor White.

Fuller told the group that he expected to have a meeting with Perot on November 29, 30 this year to testify regarding matters of concern for community schools in this part of the state.

## Christmas Parade Plans Underway

Plans are currently being made for Muleshoe's annual Christmas Parade. This year's parade is scheduled to take place on Saturday, December 3. The theme for this year's parade is "Christmas Is...." Entry forms for the parade were sent out by the Muleshoe Chamber of Commerce and Agriculture with the Chamber's October newsletter. Any club or organization or any business or individual interested in participating in this year's parade should contact the Chamber for an entry form if they have not already received one.

"The annual Christmas Parade is a longstanding Muleshoe tradition," said Chamber Manager, John Gully, "and officially ushers in the Christmas season in Muleshoe with the arrival of Santa Claus in the city." All clubs and organizations are encouraged to take part in this year's parade.

## 'Can't Get Out Now'

As the death toll climbs near the two hundred mark, bodies are still being recovered from a shattered Beirut command post where U.S. Marines were killed in what has been described as the bloodiest attack against the United States military since the Vietnam wars. The attack came as the Marines slept, early Sunday.

The Journal went to the people of Muleshoe to find out what their reactions were concerning the tragedy and what they thought should or could be done about it.

The general consensus of the people here admit that the U.S. has to take a stand, and that it would be next to impossible for us to pull out of Lebanon now. "The United States credibility is at stake here," said Tom Jinks, Muleshoe Assistant School Superintendent. Jinks is an ex-marine who feels just a little more sympathetic to the situation. "I felt, first: heartbreak, then frustration. I don't know if we can pull out of this mess now. I still support the President, but I hope we don't get into a no-win situation again, as with Korea and Nam."

Mayor Charles Bratcher told this reporter that he was "appalled that there are people in the world like that. Right now, we don't know who is responsible and who the enemy really is." Bratcher also admitted that he had very mixed emotions about the tragedy, "Sometime, somewhere, you have to take a stand, or soon it may be in your front door."

"The U.S. can not get out of Lebanon now," said Dave Marr, City Manager. Last week, maybe, but not now. Not without giving the appearance of running away. "The United States can not afford that," Marr said emphatically.

"This is a horrible tragedy, especially for the families of the service men over

in Lebanon," said Judge Gordon H. Green. Green added however, that he felt it would be ill-advised for any terrorist action to cause the withdrawal of American troops from the area. "I definitely feel that measures necessary should be taken to beef up the security against any terrorist actions."

Olan Burrows, a local upholstery shop owner said that it was his opinion that the U.S. was dealing with a "people who have no morals nor sense of decency. "Until we know who the real enemy is, though, we can't take any drastic action."

Sheriff of Bailey County, Bob Henderson sort of brought things into perspective when he stated: "It's in the Bible this way." However, Henderson is of the opinion that the United States must protect their allies and stop the strife there, "else it will be in our own front doors." "I don't look forward to a fight, but I'd rather fight them there than here, where our families are," Henderson said.

"The first thing I felt was shock," said Hubert Kidd, manager of Five Area Telephone Cooperative. "We're in sort of a strange situation; you are in trouble if you do anything and your in trouble if you don't." Kidd admitted that he really wouldn't want the responsibility facing the President now. "I just really hate that we have our young men in areas like this now, but we can't allow any irate take overs of allies." Kidd said, "Every American should be more aware of these situations and the Country should be firm in their appreciation and support of these young men, he added.

H. John Fuller, Muleshoe ISD Superintendent stated that in his opinion, the United States could not leave Lebanon now. He admitted that his first reaction to the stunning news was "shock" Con't Page 6, Col. 6

## Arthritis Drive Goes Over The Top

Bailey County residents contributed \$3271.39 to the recent Victory March for Arthritis. This is the largest sum ever raised in this county for the Arthritis Victory March, the next largest sum having been in 1978, when a total of \$2633.43 was contributed.

Elaine Damron, Bailey County chairman, expressed her gratitude to all the volunteers who made the march a success. Mrs. Damron said, "It takes many dedicated workers to conduct a drive of this magnitude, bringing in this kind of

money from a small town. Without each one's concerted effort, this total never could have been reached. This \$3271.39 means added hope to arthritis patients in terms of greater research efforts and in terms of expanded patient services." Serving with Mrs. Damron on the Steering Committee were Georgia Pena and Sharon Montgomery. Of the \$3271.39 raised, \$2108.54 was contributed in the City of Muleshoe, and \$1162.85 was contributed in the rural areas. Serving as Con't Page 6, Col. 4

PERFECT RECORD...Dimple D. Sims was recently presented with an award by Postmaster Tom Lobaugh for her "hard work and perseverance during her tenure as Safety Captain from January through September. The Muleshoe Post Office had no accidents.

**Letter To The Editor**

BAILEY COUNTY JOURNAL  
Muleshoe, Tx. 79347

Dear Editor:  
In response to letter to Editor in the Sunday, Oct. 9, 1983 issue of the Bailey County Journal, Rita G. Long's disdain for cleaning the tar from her sky blue paint and kitty's paws.

There is a product (that can be found at Pay-and-Save) called "Goop". It is one of the best that I have come across. Just a small amount on the end of your finger and place on the spot and in a few seconds the tar will melt away to be cleaned with a paper towel. No harm is done to the paint on your automobile and certainly none to Miss Kitty's paws.

I trust this will be helpful not only to Mrs. Long but to others in the area as well. We must have our streets resurfaced for the dreaded "Pothole" will not only ruin our tires but our cars as well.

Sincerely,  
Charles Harvey  
Muleshoe, Texas

in voting FOR Proposition 5, the school bond amendment, in the November 8 constitutional amendments election.

The amendment could save our schools and local taxpayers \$435 million in interest payments alone in just the next 17 years.

It comes as a surprise to many people that the awesome resources the State of Texas dedicates to education are not taken into account by national bond markets when setting local school district bond ratings and interest rates. Local bonds are judged solely by the local district's situation.

Proposition 5 would cure that by permitting qualified local school bond issues to be backed by the state's \$3

**Elderly May File To Postpone Delinquent Tax**

A taxpayer aged 65 or older may take advantage of a special type of property tax relief-deferred payment of delinquent taxes on his homestead-by filing a sworn affidavit at the office of the appraisal district in which he lives.

If a lawsuit has already been initiated to collect delinquent taxes on the elderly taxpayer's homestead, an affidavit asserting age and ownership of the property must be filed with the court in which the suit is pending.

According to Kenneth Graeber, executive director of the State Property Tax Board (SPTB), the Texas Property Tax Code provides that, after an "over - 65 tax deferral" affidavit has been properly filed, taxing units may not press or initiate delinquent tax suits on the homestead under as long as the applicant owns and resides at that property.

Graeber said that forms for the deferral affidavit are available from appraisal district offices. The form should be completed and signed by the applicant and his signature witnessed by a notary public or other official authorized to take oaths. For the elderly homeowner considering application for tax deferral, Graeber stressed that it allows postponing payment, but that a lien remains on the property for delinquent taxes, penalties and interest. "Those amounts continue to accrue during the period of deferral," he said. "Once the applicant no longer qualifies for deferral-that is, if he no longer owns or resides at the homestead-all those accrued amounts become

billion Permanent School Fund. The result would be better bond ratings and lower interest rates for our local districts.

The state's Permanent Fund would simply be lending its good name; it would not be paying off the bonds. Texas schools have a fine bond record. In the unlikely event of a default, the state would simply pick up the payments by withholding the local district's state allotments.

I urge Texas Voters to approve Proposition 5.

Sincerely  
Bob Bullock  
Comptroller of Public Accounts

**Mrs. Gore Services Held In Comanche**

Services for Ruby L. Gore, 87, were held at 2 p.m. Monday, Oct. 24 in the Comanche Funeral Home Chapel with the Rev. Richard A. Rust, of the East Baptist Church of Comanche, officiating.

Interment was in Morcer's Gap Cemetery under the direction of Comanche Funeral Home. Local arrangements were under the direction of Ellis Funeral Home. Mrs. Gore died at 8:05 a.m. Sunday in the Muleshoe Nursing Home.

A native of Chandler, Mrs. Gore was born Oct. 8, 1896 and moved to Muleshoe in May of 1981, from Comanche. She was a housewife, a member of the East Side Baptist Church of Comanche and the Woodman's Circle. She married John Irvin Gore on Sept. 7, 1913 in Comanche. He died in 1964.

Survivors include one son, Hilton Gore of Abilene; one daughter, Mrs. Louise Allen of Muleshoe; six grandchildren; and ten great grandchildren.

**'Trick Or Treat' Precautions Urged**

Miniature monsters will soon invade neighborhoods and the cry, "Trick or Treat", will be heard throughout the land.

Major V.J. Cawthon, Regional Commander of the

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Acres examines a new polling system this week.

Dear editor:  
There's a new way to gauge a candidate's standing in a political race that may put public opinion pollsters out of business.

Why go to the trouble and expense of taking a "scientific" sampling of voter opinion when this new method is available to anybody who can read figures? All it consists of is finding out which candidate is raising the most campaign money, on the principle that the one that raises the most is most likely to win.

Here it is a full year before the Presidential election and the news pundits routinely say so-and-so is leading because he raised \$2 million last month to his opponent's \$1 1/2 million.

In other words, if one candidate is \$500 thousand ahead in money, he must be that far ahead in votes. You can figure up what your vote is worth under this financial polling system.

It is now estimated that to run a race for the nomination for President, a candidate, if he's to be taken seriously, has to raise at least \$10 million. Then if he wins there, he'll need 20 or 30 or even 40 million dollars to run for the Presidency itself.

Most of this money, candidates agree, will be spent on television commercials. In the next 12 months television stations will take in millions and millions of campaign money.

Therefore, it's possible that parents will now be telling their kids: "Sure, it's possible that any child can grow up and become President, but if you're smart you'll try to grow up and own a television station."

Yours faithfully,  
J.A.

**Sandhills Philosopher**

6,367 injured in Texas during 1982. A pedestrian's chance of getting killed or injured are increased at night. If parents and motor-

ists join together and think of children's safety, Halloween 1983 can be a safe and enjoyable evening for everyone.

**Good Suggestion**  
A day would be improved a lot if it began at some other time than in the morning.

# He's Ready To Kick

Just because kickers spend a lot of time in practice away from the rest of the team...just because a few kickers have done some bizarre things, people get the wrong idea about a kicker's life. It's really not a life of loneliness lived by flakey individuals.

Kickers are people, too. Just as West Texas State University place-kicker Dennis Steinbock.

"When I first got here, me and (other kickers) Press Theriot and Larry Martin were called the "Granola Squad", said Steinbock, a senior from Lazbuddie. "You know, nuts and flakes."

"But, it doesn't bother me. It's more of a joking thing now. They (other players) like to give me a hard time, but I just give it back to 'em'."

However, the Buffs may not be so quick to pick on Steinbock now. After all, he led WT in scoring last season with 40 points (16 of 21 PATS and 8 or 16 field goals), and in this season's two games, he's the only Buff to score at all - field goal in each game.

"I'd like to get some extra points in... said Steinbock, 2 of 4 in field goal attempts this year. "We're 0-2 and we haven't scored any touchdowns yet. I feel good about the team goals, but as far as the team...it would get our spirits up if we could score some touchdowns."

"People around the campus have said a few things about me being the leading scorer, but then they turn around and ask what's happened to the team. It's kinda hard to explain."

"Sometimes people just see kickers as individuals. We're part of the team. When you go in to kick, if you make it you're a hero, but if you miss you're down...people don't acknowledge you."

Steinbock has fond memories of last year's 25-17 win over McNeese State. The reason: he kicked four field goals (23, 27, 29 and 38 yards) to set a school record and tie the conference mark. And, he was named the Missouri Valley Conference Player of the Week for that performance.

"I was really excited about that," said Steinbock, who rooms with starting offensive guard Robbie Roberts. "As far as football is concerned, that's one of my biggest honors."

"I missed my first two field goals this season, but I've kicked two straight now, as of mid-September. I've had good workouts and feel good about the games. I don't know if opponents will try to put me out of the game because of last year. I had some guys in high school come at me (to take him out). By the time I'd get my feet on the ground on my follow through, they'd be there to take my head off. But, I really haven't seen that in college," Steinbock said.

The 21 year old kicker enjoys the challenge of working and improving his talents alone.

"After you get your leg in shape, it's (kicking) more

mental than physical. During a game, I get on the bench by myself to stay mentally in the game. If I get around the offensive or defensive players and start listening to what the coach is telling them, I lose my concentration," Steinbock explained.

"And, you can't just watch the game when your offense has the ball. You never know when the defense might come up with a touchdown, and you have to be ready to kick."

And...Steinbock is ready to kick.

Dennis Steinbock is the son of Mr. and Mrs. Max Steinbock of Lazbuddie.

DENNIS STEINBOCK

Lech Walesa, founder of Poland's Solidarity labor movement, after winning Nobel Peace Prize:

"The struggle for human rights is also the struggle for peace."

Elizabeth Dole, Transportation Secretary, in speech to American Automobile Association:

"Make no mistake about it, Americans today have declared war on the drunk driver..."

PROMOTION...David G. Mathis of Muleshoe, after being promoted to chief warrant officer four at HQ Fifth Army, Fort Sam Houston, is pinned with new insignia by his wife, Cynthia and Fifth Army Chief of Staff Brig. Gen John E. Rogers. Mathis is Fifth Army Band commander/bandmaster. (U.S. Army Photo)

## Muleshoe Man Promoted To Chief Warrant Officer

David G. Mathis of Muleshoe, Texas, commander / bandmaster of Fifth Army Band, was promoted to chief warrant officer 4 recently in a ceremony at Headquarters Fifty Army, Fort Sam Houston, Texas. His wife Cynthia and Fifth Army Chief of Staff Brig. Gen. John E. Rogers pinned on the new insignia as Mathis' parents, the H.B. Mathises of Kingsland, Texas, looked on.

Mathis came to the band in July 1981 from the triservice School of Music at Norfolk, Va., where for three years as a faculty member he was in charge of all advanced courses. Before that he commanded the

296th Army Band in Japan. He also served in Vietnam 1971-72.

Stateside assignments have taken him to Fort Leonard Wood, Mo., 1968-69; Fort Sheridan, Ill., 1969-71; Fort Bliss, Texas, 1972; and Redstone Arsenal, Ala., 1972-75.

A 1957 graduate of Muleshoe High School and 1961 graduate of Eastern New Mexico University, Portales, Mathis attended Wayland College, Plainview, Texas, in 1962. Before entering the Army he was a high school band director at Tatum, N.M., and at Lockney and Forsan, Texas.

The Mathises have two

married daughters and two at home. One daughter, Pfc. Liane McKinnley, came from Norfolk, Va., to attend the ceremony. She is on the School of Music staff.

## Baby Shower Honors Mrs. Cox, Jeffrey Allan

Mrs. Gary (Kim) Cox and Jeffrey Allan were honored with a baby shower Sunday, Oct. 23 from 2 until 3 p.m. in the home of Mrs. Ben Green.

Guests were greeted by Mrs. Ben Green and Mrs. Gary Dale and registered by Miss Jennifer Green and Miss Rebecca Green. The guest book was surrounded by little boy toys.

Mrs. Gary Hooten and Mrs. Paul Cox served punch, cake and nuts from crystal and silver appointments and napkins in bright primary colors.

The serving table was covered with a 90 inch round white cloth with wide lace trim and accented with a primary colored mobile in a nest of green grass. Little boy toys were arranged in the grass. The centerpiece was a gift to the honoree. The honoree's corsage was blue baby sock flowers.

Special guests included Mrs. Butch Cox and Mrs. Gordon Wilson, both of Muleshoe, grandmothers; Mrs. Henry Sager of Littlefield, Mrs. James Cox of Amherst, Mrs. George Y. Mitchell and Mrs. Gladys Wilson, both of Muleshoe, great grandmothers; and aunts, Miss Tisha Cox, Miss Michelle Cox, Miss Kendra Wilson and Mrs. Danny Wilson, all of Muleshoe.

The hostesses gifts were a gray leather car seat and a mobile for the baby bed.

Hostesses for the occasion included: Mrs. Larry Combs, Mrs. Paul Cox., Mrs. Gary Dale, Mrs. Ben Green, Mrs. Bill Harmon, Mrs. Gary Hooten, Mrs. Bill Kinard, Mrs. Merlyn Neel, Mrs. Haney Poyner, Mrs. Curtis Smith, Mrs. Dave Sudduth, Mrs. Butch Vandiver and Mrs. Cleo Ward.

### Tax Law Affects Family Insurance

Changes in the tax law affecting the amount of uninsured personal casualty or theft losses that can be claimed as deductions have important implications for family finances.

Under the old rule, you could deduct all but the first \$100 of uninsured losses, explains Nancy Granovsky, a family resource management specialist.

But beginning with the 1983 tax year, you will only be able to claim total losses in excess of 10% of your adjusted gross income, says Granovsky, a home economist with the Texas A&M University Agricultural Extension Service.

Under the new rules, only the most catastrophic unreimbursed losses would probably be deductible for an average-income family, although any loss could cause a financial hardship, says the specialist.

"People who haven't experienced a fire, theft or other loss this tax year, may be unaware of how this rule change could affect them," Granovsky says.

It would have the greatest impact on those consumers who raised their insurance deductible over the past several years, thinking they could write off any uninsured losses on their income taxes, she adds.

Some of these consumers may wish to decrease their deductibles again as a shield against losses that would not be offset by a tax deduction.

Families will need to choose between increasing insurance -- and premiums -- to compensate for the loss of tax advantages, or risking a greater casualty or theft loss with a high deductible, says the home economist.

In making this decision, consumers should remember that the purpose of insurance is to cover those risks and hazards that we would not be able to cover ourselves, says Granovsky.

MRS. GARY COX AND JEFFREY ALLEN

MRS. HECTOR LEAL AND NATALIE DION

### Creative Woman

By Sheryl Borden

Topics to be presented on "The Creative Woman" show on November 1 and 5 include popcorn butters, forcing Spring bulbs and storage areas using accessory items.

Do you know why popcorn pops? Guest Nina Swan, Director of Consumer Relations with the National Oats Co. in Cedar Rapids, Iowa has an interesting story she will share with viewers. She'll also talk about the nutritive value of popcorn and compare the calories in corn popped in a hot air popper with corn popped in oil. Ms. Swan will prepare two very tasty popcorn butters.

If you want Spring flowers, now is the time to plant the bulbs. Jim Sais is Urban Horticulturist with the Cooperative Extension Service in Albuquerque and he will talk about planting Spring bulbs and discuss forcing bulbs, choosing bulbs and supplies needed.

The final segment on the show will be on storage areas using accessory items and this will be presented by Lindsay Newberry, Kitchen Designer with T-Bird Home Center in Artesia.

Stress management and a folded star quilting technique will be the topics to be covered on November 3 and 6 on "The Creative Woman" show.

Carolyn Ruiz, counselor for Mental Health Resources, Inc. in Clovis and Portales will discuss stress and some effective ways to cope with it. Stress can be both positive and negative and a person's attitude and perception have a lot to do with the amount of stress we experience.

The second topic will be presented by Mary Lu Stark, owner of The Quilt Works in

Albuquerque and she will demonstrate the folded star technique by making a hot pad. The design can be used on tote bags, wall hangings and also on clothing items. The radiant star hot pad she will make would be a nice gift idea, a hostess gift or a good item for a bazaar.

"The Creative Woman" is produced and hosted by Sheryl Borden. The show is seen on Channel 3, KENW-TV in Portales on Tuesday and Thursday at 12 noon, at 2:00 p.m. on Saturday and at 7:00 p.m. on Sunday. The show is also carried nationally and in state by KRWG-TV in Las Cruces and by KNME-TV in Albuquerque. Viewers can request copies of printed materials offered on the show by calling on KENW-TV's toll-free telephone lines. In New Mexico, the number is 1-800-432-2361, out of state: 1-800-545-2359 and Portales and Roosevelt County: 562-2112.

Study as if you were to live forever.

Study as if you were to live forever.

## Baby Shower Fetes Mrs. Hector Leal

Mrs. Hector Leal and Natalie Dion were feted with a baby shower Monday, Oct. 17 from 7 until 8:30 p.m. in the fellowship hall of the 16th. and Ave. D Church of Christ. Guests were registered by Mrs. Dave Poyner.

Ana Gonzales and Patsy Poyner served pineapple punch and thumbprint cookies filled with pink frosting. The serving table was covered with a white lace cloth and accented with a pink and burgundy floral arrangement with tapers.

Special guests included: Mrs. H.J. Leal, Jr., mother in law of the honoree; Mrs. Jim Hartline, mother of the honoree; and Laura Leal, sister in law of the honoree.

The hostesses gifts were a high chair, walker and baby crib furnishings.

Hostesses for the occasion included: Ana Gonzales, Patsy Poyner, Wanda Griffin, Sandy Turner, Sandra Robinson, Josie Gonzales, Billie Downing, Helen Free, Consuelo Hernandez, Cuca Cuevas, Alice Gonzales, Josie Pedroza, Angelica Orozco, Lupe Camarillo, Sally Rosas and Fernanda Orozco.

### Blair Lecture

#### Set At SPC

The Sam Blair Lecture Series will begin Friday (Oct. 28) at South Plains College, featuring luncheon speaker Charles W. Mayfield, state executive director of the Texas Agricultural Stabilization and Conservation Service.

Mayfield will discuss "Evolution of the USDA Farm Program," including Payment in Kind, during the luncheon from noon-1:15 p.m. Friday. Cost of the luncheon is \$7 per person. Contact SPC at (806) 894-9611 to make reservations.

The lecture series, an annual historical symposium, focuses this year on "Agriculture: Its History and Prospects in the Southwest." Guest lecturers will include Dr. David Murrah, director of the Southwest Collection at Texas Tech University, speaking on "Cattle Kingdom to Dry Farming," from 10-10:45 a.m. Friday (Oct. 28), Dr. Donald Green, chairman of the history department at Central State University, Edmond, Okla., discussing "Transition to Irrigation," from 11-11:45 a.m.; and Dr. Dean Hughes, associate professor of agricultural economics at Tech, discussing "Farm Financing" from 1:30-2:15 p.m. All lectures except for the luncheon will be in the SPC Theater for the Performing Arts.

The Sam Blair collection of more than 3,000 volumes on Southwestern history will be open for public viewing during a reception at 2:30 p.m. The collection is located on the second floor of the SPC Library.

### Western Art Exhibit Benefits Boys Ranch

Over one hundred original pieces of Western Art and Sculpture will be on display and for sale at the Western Art Exhibit and Sale to benefit West Texas Boys Ranch. The exhibit and sale will be held November 5th and 6th, from 9:00 a.m. til 5:00 p.m., at the San Angelo Convention Center located at 500 Rio Concho Drive. The works of twenty two of the nation's finest contemporary Western Artists will be featured. Many of the artist will be present at the exhibit - a great opportunity to view a truly outstanding Western Art Show and meet the artists themselves.

#### Erika Elena Ortiz

Mr. and Mrs. Eddie Ortiz, Jr., of Texico, N.M. are the proud parents of a daughter born at 9:36 a.m. Oct 19 in West Plains Medical Center.

The young lady weighed five pounds nine ounces and has been named Erika Elena. She is the first child for the couple.

Grandparents are Mr. and Mrs. Merced Rojas of Texico, N.M. and Mr. and Mrs. Irene Ortiz of Bovina.

Great grandparents are Luciona Galavez of Lubbock, Ramona Galavez of McAllen and Bonafisio Castro of San Antonio.

#### Kayla Rena Newton

Mr. and Mrs. Presley Newton are the proud parents of a daughter, Kayla Rena, born at 12:03 p.m. Oct. 21.

Kayla Rena weighed six pounds and eight ounces. She is the first child for the couple.

Grandparents are Mr. and Mrs. Matt Mosley of Muleshoe and Mr. and Mrs. T.S. Newton of Textline.

Great grandparents are Mr. and Mrs. T.S. Hancock of Bovina.

Good living includes a balanced life--devoted to work, culture, religion and recreation.

Human beings for some reason seem more interested in the mistakes that others make.

Faith and patience are great assets and wonderful aids if you have them when you need them.

It's funny how much argument people will go through with the sake of saving a few dollars.

## Cost-Conscious Consumers Should Stock Up on Meat

"Now is an excellent time for cost-conscious consumers to stock up on meat for the freezer," says Mary K. Sweeten, a foods and nutrition specialist with the Texas A&M University Agricultural Extension Service.

More cattle and hogs are being marketed because of the summer drought. This increased supply has resulted in lower prices.

According to USDA economists, steady to slightly declining prices for red meat are expected from October through December, says Sweeten. The economists expect that price levels for meat will be relatively unchanged at the first of the year, but anticipate moderate price increases through 1984, she adds.

Consumers can take advantage of lower prices by buying a whole carcass, side or quarter; wholesale cuts; or retail cuts of meat.

Before buying meat in quantity, Sweeten suggests that you consider your available freezer space, the amount of meat your family can use within a reasonable amount of time, the type of cuts your family enjoys, and the amount of money you have to spend.

A carcass, side or quarter is sold by its "hanging weight," or total weight including fat and bones, says the specialist. The amount of edible meat will be about 75 percent of the hanging weight, with the other 25 percent lost in cutting and trimming.

The carcass or side will yield a variety of all cuts, and not all of them will be equally tender or equally liked by your family. A quarter is limited to only certain cuts, so the buyer can choose more specifically the type of meat wanted, she says.

The hindquarter includes the short loin, sirloin, round and flank sections and will yield more steaks and roasts. It will also cost more per pound than the forequarter.

The forequarter contains the delectable rib section, but also has more of the less tender cuts coming from the chuck, shank and brisket sections, says the specialist. The yield of edible meat is actually greater in the forequarter.

If freezer space is limited or you prefer cuts from a particular section, then whole or primal cuts (also known as wholesale cuts)

will probably be your best buy, says Sweeten.

Wholesale cuts usually are bought from locker and freezer provisioners and others who sell meat as sides or quarter, although sometimes they can be bought at a supermarket.

Individual cuts of beef, like pot roast or T-bone steak are called retail cuts. Their wide variety allows consumers to buy as little or as much of a particular cut as they want. Even though the price per pound is usually greater, it is not as costly initially as buying a large quantity of meat all at one time, she says.

But retail cuts must be rewrapped for long-term freezer storage, notes Sweeten.

"Comparing costs and making sure you are getting a good value can be difficult when buying a product with which you are unfamiliar. And most consumers are unfamiliar with meats in carcass form," she says.

That's why it pays to find a dealer who has a well-established reputation for honesty and fairness. In general, beware of advertisements which offer meat bargains which are too sensational to believe. No dealer can afford to give meat away, and reputable ones will not pretend to do so, adds the specialist.

**GHOST AND GOBLINS...** Story Hour at the Muleshoe Public Library Wednesday morning was invaded by 21 ghost and goblins. This week's Story Hour was hosted by the Muleshoe Young Homemakers. Debbie Cloud assisted Anne Camp, librarian, in the telling of stories. Story Hour is held the first and third Wednesday of each month.

## Northwest Texas Teen-ager Pageant Set

The 13th Annual Miss Northwest Texas National Teen-Ager Pageant will be held at Wayland Baptist University, Plainview, on May 11, 12, and 13. Young ladies between 13 and 18 years of age, who are interested in competing for over \$30,000 in scholarships, are invited to participate. Finalists are judged on scholastic achievement

leadership; poise - personality; and appearance. There is no swimsuit competition. Each Finalist will present a talent (either visual or performing arts), or at her option, an Essay on "What's Right About America", before a special panel of judges.

This program is the Official State Preliminary to the Miss Texas National Teen-Ager Pageant which will be held at Texas Christian University, Fort Worth, on June 1, 2, and 3. The Northwest Texas Winner will receive, among other prizes, a \$1,000 Cash Scholarship, a Full Four-Year Tuition Scholarship, totaling over \$10,000, of Oklahoma City University, a \$2,400 Scholarship to Wayland Baptist University, a Full Modeling Course Scholarship from Barbizon International, and an all expense paid trip to compete in the State Pageant. In addition, ALL Finalists will receive a SCHOLARSHIP award to Wayland Baptist University.

In 1983, State and Regional Pageants were held with the participation of 41 Colleges and Universities. More than two million dollars in cash, tuition scholarships, and awards were paid to participants in State Pageants. The 1984 National Pageant will award to the Winner over \$50,000 in Cash Awards and prizes, including a 1984 Mazda GLC Deluxe, a Fashion Merchandising Course Scholarship from Barbizon International, a time-sharing Condominium in Florida, and a tour of the United States and Europe.

Each Finalist will participate in the Volunteer Community Service Program, which is designed to promote teen involvement in volunteer civic and community affairs. A Mini-Modeling Charm Course will be given during the three-day weekend.

Miss Sabrina Lynch of Plano, Texas is the reigning Miss Texas National

Teen-Ager. She will participate in the weekend activities and crown the new 1984 Winner.

Northwest Texas Teen-agers who wish further information may write To: Mrs. Debra Barnard, 5106 FM 1960 West, Suite 1006, Houston, Texas, 77069.

## Three Way News By Mrs. H.W. Garvin

Mrs. Adolph Wittner visited her father B.J. Emerson and her sister the Roland Nitcher family the first of the week.

Mr. and Mrs. Jack Furgerson attended the funeral of a friend, Mrs. May Gene Fenton in Lubbock Tuesday.

Rev. B.A. Dichenson from Plainview preached at the The Three Way Baptist Church Sunday.

The Three Way junior high football boys played Southland Thursday afternoon on the home field with Three Way winning the game.

The high school football team played Southland there Friday night losing the game to Southland.

The heavy rains in the community the past week was very harmful to crops after all the hail Sunday.

Guests in the Bill Dolle home Sunday were Bills parents Mr. and Mrs. Herbert Dolle from Littlefield. Bills two brothers, Don Dolle and family from Canyon and J.T. Dolle and family from Littlefield.

Clarence Benton from Stamford is visiting his daughter the Rayford Mastens.

Mrs. Adda Masten from Morton spent Sunday with her son the Rayford Masten family.

Mr. and Mrs. George Tyson are in Lubbock visiting their daughter the Tommy Durhams. Mr. Tyson is building his daughter a garage.

## Art Department Gives Painting By Mrs. Chitwood

The Muleshoe High School Art Department will be giving away a painting by Sandi Chitwood. The winner of the painting will be announced at 10 p.m. at the Fine Arts Booster Halloween Carnival Saturday, Oct. 29th. You need not be present to win.

The painting is on display at Leal's Restaurant. For each donation to the Art Department you will receive a ticket for the drawing and donations can be made at Leal's Restaurant, Western Drug or to any Art Club member.

Donations will be used to support the Art Club Halloween candidate, Melissa Wilbanks and her escort, Hector Garcia.

MELISSA WILBANKS

## Baby Shower Fetes Leticia A. Sierra

### Leticia A. Sierra

Leticia A. Sierra was feted with a baby shower Sunday, Oct. 16 from 2 until 5 p.m. in the Catholic Center.

Guests were greeted by Clara Flores, Betty Rejino, Mrs. Jesse Anzaldúa and Victoria Cuevas and registered by Sandra Martinez and Angie Jaime.

Alice Gonzales, Inez Flores, Irma Leal, Mary Ann Ramirez, Josie Reyes and Lupita Dominguez served fruit punch, cake, cookies, dips and chips.

The serving table was covered with a white lace over yellow tablecloth and accented with yellow rose arrangements with baby powder, baby oil and baby lotion. Also a receiving blanket rolled around decorated with pacifier, bottle, safety pin, rattle and lace around it. The honoree's corsage consisted of yellow roses accented with baby items.

Mrs. Alma Jaramillo of Hobbs, N.M., grandmother of the honoree; Josie Reyes of Muleshoe and Mary Garza of Farwell.

The hostesses gifts were a Jenny 'Bind Crib, bassinet and play pen.

Hostesses for the occasion included: Sandra Martinez, Angie Jaime, Blanca Anzaldúa, Margarita Posadas, Josie Reyes, Betty Rejino, Aurora, Maria, Maria Montes, Maria Valenzuelas, Irma Leal, Celia Garza, Esther Ybarra, Josephina Cruz and Esmeralda Delao.

Also Clara Flores, Angie Salinas, Victoria Cuevas, Mary Toscano, Licha Villareal, Lola Pacheco, Linda Orozco, Aida Pacheco, Lucy Lucero, Inez Flores, Lupita Dominguez, Sulema Rodriguez, Mary Franco, Mary Garza, Anita Flores, Mary Ann Ramirez, Alicia Gonzales, Janie Garcia and Andrea Paez.

Special guests included:

## RECIPE

By Sarah Anne Sheridan

Here is an easily prepared recipe for that universally appealing meat--chicken. It's also an excellent one-dish meal in these days of higher meat prices.

### Chicken & Dumplings

5 lb. chicken.  
1/8 t pepper  
2 t salt  
few stalks of celery

Cut chicken into pieces and cover with boiling water. Add celery. Reduce heat and cook slowly until tender, about 2 to 2 1/2 hours.

Add salt after 45 minutes of cooking. Let stand until fat collects on top. Remove most of fat with a spoon.

Take out chicken and remove skin and bones. Heat to boiling point. Add dumplings.

### Dumplings

1 1/2 c flour  
1 t salt  
2 t baking powder  
3/4 c milk

Sift flour, salt and baking powder together. Add milk gradually. Beat until smooth. Drop into hot stock by tablespoons. Cover closely. Cook for 15 minutes. Spoon dumplings and remaining liquid over chicken which has been arranged on a serving platter.

### 20 Years Ago

1963  
Grocery specials advertised in the Journal this week included: 5 pounds sugar 57 cents; 5 pound flour 39 cents; 3 pound can shortening 59 cents; 400 count facial tissue 12 1/2 cents; 20 ounce package Cascade 45 cents; tall can evaporated milk 12 1/2 cents; quart jar salad dressing 29 cents; pork roast 29 cents a pound; sape ribs 39 cents a pound; sirloin steak 89 cents a pound; New York steak \$1.39 a pound; rib roast 69 cents a pound; pork steak 49 cents a pound; pork chops 59 cents a pound; and sliced bacon 2 pound 97 cents.

### 10 Years Ago

1973  
Mr. and Mrs. Carson Clayton and Belinda were welcomed to Muleshoe this week. The Clayton's moved here from Snyder where Clayton was the assistant manager of Perry's in Snyder and his wife, Betty, worked for C.R. Anthony's. The Clayton's attended the First Baptist Church in Snyder. Clayton is the new manager of Perry's here in Muleshoe.

## School Boards Favor Proposition Five

Texas voters will be asked in November to decide whether the assets and income of the Permanent School Fund can be used to guarantee bonds issued by local school districts. According to Muleshoe ISD superintendent, John Fuller, most of the administrators and educational associations are supporting the passage of proposition 5. The Texas Association of School Boards also supported the guarantee proposal during the recent legislative session, and support the approval of the amendment at the November election.

Proposition 5, which was brought about by SJR 12, was adopted by the 68th Legislature, but will not become effective until approved by the voters on November 8.

### Cross Country...

time, and Aldo Almanza finished tenth with 15:52. Others who placed were Tony Rojas with a time of 16:08; Ronnie Logsdon with a time of 16:21; David Medlin with 16:22; Allan Beasley with 17:05 and Danny Sanchez with a time of 17:19.

The Mule Junior Varsity boys took a third place win, with Norman Perez, Jose Sanchez, Rudy Gonzales, Anthony Orozco and George Alvarado doing the honors. Varsity Girls placed ninth in the Dumas meet. Runners for the girls included Juanita Garcia, Brenda Ellis, Marylyn Lewis, Norma Castorena, Adeena Lindt, Mary Norma and Meischelle Logsdon.

Should the Mules qualify in District competition, they will then go to Regionals on November 5 at Lubbock. State competition will be held November 12 at Georgetown, Texas.

est decreases the overall cost of the bond issue and thereby saves the taxpayers money, Fuller said.

Experts in municipal bonds indicate that a guarantee with the Permanent School Fund of public school districts' bonds would very likely raise all district ratings to Aaa or Aa. This change would mean substantial savings to taxpayers - thousands or even millions of dollars over the life of the bonds, Fuller pointed out.

Safeguards to the Permanent School Fund are built into the proposal. In the event of default by a school

October 29 in the Junior High School Auditorium. The auditorium is located on West First Street in Littlefield. The show is scheduled from 8 p.m. until 10 p.m. and no admission will be charged.

Hunters applying to hunt in any of the state's three sandhill crane hunting zones should include the name, address and county of residence of every person who intends to hunt.

### Rebate...

Con't From Page 1

Total County revenue for Parmer County for the past quarter was \$268,70, with the county's rebate being \$40.31.

Texas cities and counties each receive a 15 percent rebate on the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks in the state.

The state's general revenue fund will receive the balance -- \$26.4 million -- of the tax money collected.

The mixed drink tax is collected by the Alcoholic Beverage Commission and city-county rebates are sent out quarterly by the Comptroller's Office.

Bullock said the mixed drink tax brought in \$111.2 million during the first three quarters of 1983.

district on a guaranteed bond issue, the Permanent School Fund will be reimbursed for payments made on behalf of the district from the first state monies, not constitutionally dedicated, payable to the district (e.g. Foundation School Monies.)

Fuller also points out that "In addition to the safeguards mentioned, it should be noted that no Texas public school has ever defaulted on any of its bonds."

### Bratcher

#### Named To

#### Who's Who

The 1984 edition of "Who's Who Among Students in American Universities and Colleges" will include the names of 14 students from Wayland Baptist University, including one from Muleshoe, who have been selected as national outstanding leaders.

Heading the list is Joel Lynn Bratcher of Muleshoe. Campus nominating committees and editors of the annual directory have included the names of the Wayland students based on their academic achievement, service to the community, leadership in extracurricular activities, and potential for continued success.

They join an elite group of students selected from more than 1,500 institutions of higher learning in all 50 states, the District of Columbia, and several foreign countries.

Outstanding students have been honored in the annual directory since it was first published in 1934.

A 1980 graduate of Muleshoe High School, Bratcher is a senior history/psychology major at Wayland, where he is presently serving as president of the Student Government Association. He has been active in Phi Alpha Theta and Alpha Chi national honor society, and has been the recipient of numerous awards.

Bratcher is the son of Mr. and Mrs. Charles Bratcher of 514 Dallas, Muleshoe.

James Watt, resigning as Interior Secretary:

"It is my view that my usefulness to you in this administration has come to an end."

## Area Cotton Classing Brought To A Halt

The 1983 "hard-luck" High Plains cotton crop suffered another setback October 16 when high winds, heavy rain and hail knocked a large volume of cotton onto the ground. Record October rains followed the Sunday storm and left most cotton fields flooded and much cotton strung out of opened bolls.

Prior to Sundays weather, growers had chemically defoliated several thousand acres, according to Mack Bennett, Area Director of USDA's Marketing Services

### Arthritis...

Con't From Page 1

team captains in the city were: Margaret Hamilton, Dani Heathington, Carol Kenemer, Pat Nickels, Sammye Hall, Jo Addine Mayhugh, Cynthia Noble, Jo Wood, Mary Obenhaus, Pete Wilkinson, Hazel Gilbreath and Jane Griffiths.

Rural chairmen of the Victory March were: Jackie Johnson, Zona Gatewood, Harold Allison, Sharon Grant, Donna Shaw, Dorothy Bogard, Judy Watson, Lindy Schuster and Kay Kindle.

Speaking for the West Texas Chapter of the Arthritis Foundation, Mrs. Damron also commended everyone for their generous response to the arthritis appeal.

"It has been a rewarding experience for me to serve on the arthritis team, and to see the Victory March go over its goal," she said. "Bailey County can be proud of its generosity and willingness to help a worthy cause such as this," Mrs. Damron added.

Spot cotton prices were higher during the week. Trading was limited mostly to southern markets where harvesting was most active.

JOEL LYNN BRATCHER

### Education...

and Dwayne Hammer of Farwell. Other guests included H. John Fuller and Stan Jensen, of Valley Grain in Madeira, California. All Rotarians were reminded of the fish sale on Thursday from 10 a.m. to 6 p.m. on the Energas Parking Lot. Pre-orders will be taken up to the day of the sale.

### Football...

Con't From Page 1

Mules. "The Mules are one of the better ball clubs in the Panhandle, they've got a super-tough defense, and can make the big play offensively when they have to," Moss says.

However, the game will not be any "shoo-in" because Friona is tough and healthy and Moss has a lot of returning lettermen.

So, all you football fans, make your plans to attend the game in Friona on Friday night and help the Mules make the 1983 playoffs. They've come a "long way baby" and they need your assurance and support. Remember 7:30 p.m. Friday at Friona - BE THERE!

office at Lubbock. Samples from early harvested ginnings were arriving at the rate of 3500 to 7000 per day. The back log of samples was building fast enough to start a second shift last Friday, Bennett continued. Gins continued operating during the heavy rain, and by Wednesday a third classing shift was established. "This around-the-clock classing made USDA history" Bennett said. This was the first three-shift cotton classing operation ever attempted by USDA.

Lubbock's Marketing Service had classed about 17,300 samples by late Monday, October 17. This compares with about 650 classed by the same date last season.

The season's predominant grades were grade 42 and 40 percent, grade 32 was 24 percent and grades 41 and 52 amounted to nine percent each. About six percent was reduced one grade because of bark and two percent for grass.

Predominant staples were staple 30 at 13 percent, staple 31 accounted for 22 percent, staple 32 was 19 percent and staple 33 amounted to 15 percent for an average of 31.4 thirty-seconds of an inch.

Micronaire 35-49 accounted for 73 percent, 33-34 was 13 percent, 30-32 was nine percent and 27-29 amounted to four percent for a season's average of 37.

This season's average HVI breaking strength was 24.7 grams per tex.

Growers sold early harvested mixed lots of mostly grades 42 and better, staples 30-32, mike 35-49 at about 1135 to 1300 points over 1983 loan rates. Gins paid High Plains growers \$160 to \$170 per ton for cottonseed.

Trading was limited mostly to southern markets where harvesting was most active.

### Seminar...

Con't From Page 1

self-motivated, enjoy school more, set and reach goals, and more fully realize their potential," said Fuller.

The program will begin at 9 a.m. in the Muleshoe High School Auditorium. The Speech Department will serve lunch in the High School Cafeteria from 11:30 to 1:30 p.m. for a charge of \$3.

Local citizens who would like to attend the "I Can" program, should contact Mrs. Elizabeth Watson at 272-3325 to register. There is no fee.

### Contest...

Con't From Page 1

That's not all of it, folks, we had a lot of other one pointers, but their tiebreaker scores were just too high. We also had a number of entries with only two games missed.

So, all of you contest enthusiasts need to get to clicking and turn those entries in. We still have four or five weeks of football games to work with, and a lot can be accomplished in that length of time.

Several contestants still remain in the running, and not really any one can be counted down at this point. Those who still stand with ten points include this week's winner, Bobby Gleason and previous winners: Kathleen-Hayes, Sam Whalin, Gerald Shanks, Jo Wood.

Watch your p's and q's and do some close figuring. Your's could be the next winning entry. Don't forget to back the Mighty Mules this Friday night as they travel to Friona for a very important game against the Chieftains. The winner of this game will be the most likely to be one of the teams going to playoffs. Show the Mules that Mule Pride is worth something and be there - 7:30 p.m. Friday night - Friona, Texas. GO BIG MULES.

J. Lynn Helms, Federal Aviation administration chief:

"I am becoming increasingly concerned regarding potential possibilities flowing from recent events concerning the air carrier industry.

Governor Mark White

### REPORTS

AUSTIN - Divorce is an emotionally painful experience for anyone. But for more than 155,954 Texas children, divorce left them with an unwanted "second home" - a place on the current welfare rolls.

Child support cases turned over to the attorney general for collection numbered 150,570 in July. Nearly one-quarter of those involved parents who had been ordered by a court to support their children.

If all absentee parents had paid child support that month, payments would have totaled \$4.5 million. Actual collections, however, came to only \$680,230, which means many parents did not pay.

Children need the emotional and financial support of both parents. On November 8, Texas voters will have an opportunity to help ensure that divorced parents meet their obligations by approving a proposed constitutional amendment passed by the Legislature last spring.

Proposition 6 would give Texas courts a new enforcement tool: the option to order an automatic deduction of up to one-third of a parent's paycheck to cover that person's child support obligations. Forty-eight other states already have such a law, making it the responsibility of divorced parents - not general taxpayers - to

pay the cost of raising children from broken homes.

Since 1876, the Texas Constitution has prohibited garnishment of wages to pay creditors. That basic protection would continue to apply, except in cases when a divorced parent either fails or refuses to make child support payments. Both the Texas Association of Business and individual labor leaders are supporting the measure, which was sponsored in the Legislature by Wichita Falls Sen. Ray Farabee and Rep. Rene Oliveira of Brownsville.

If Proposition 6 is adopted, employers could not terminate, refuse to hire or take any disciplinary action against an employee whose paycheck a court has ordered partially deducted for child support. To cover the administrative cost of making such a deduction, employers could charge a \$5 monthly fee.

Jailing parents for failing to pay child support is not the answer. Once jailed, they cannot work to pay support and their children become prisoners of poverty and neglect.

A nonpartisan statewide coalition of business, church, professional and parents' groups is backing Proposition 6 under the banner "Texans for Child Support." Linda Gale, my wife, serves as honorary chairperson for the group.

## Citizens Speak Out

Con't From Page 1

and a sense of disbelief."

Robert Montgomery, a Muleshoe State Bank officer stated that he "was not opposed to the marines being in Lebanon, but I am not opposed to it either." Montgomery expressed his feeling that the servicemen need the ability to protect themselves in these situations when they are placed there because of our government policies.

A youth that the Journal talked to who did not wish to be identified pretty well summed up what a lot of kids his age (18) feel. "I

think if we're going to go into war, we should be able to fight back and defend ourselves as well as our country. I don't want to be a sitting duck for anybody." Some might question the integrity or strength and honor of today's youthful population, but when the cards are down, they come through with some pretty down to earth decisions.

As far as this reporter was able to tell, there was no one in or near Muleshoe who had servicemen in this area. If there is someone, the Journal would like to talk to you.

We are supporting Proposition 6 because, among other reasons, it can save Texas taxpayers about \$10 million a year in welfare payments under the Aid to Families with Dependent Children program.

Delinquent child support is a national problem. According to a nationwide study released by the U.S. Census Bureau this year, only 46.7 percent of all child support payments that should have been made were actually received in 1981.

Texans can help improve this dismal record by voting for this constitutional amendment. Children of broken homes face enough difficulties growing up. Child support deserves our support.

## Computers, U.S.A.

Warnings about the onrushing computer age are increasing. There's fear of computer crimes, involving money transfers. Banks have turned increasingly to computers.

There's fear of delay in correcting computer mistakes. There's fear of an invasion of privacy. (The average person's name is now punched into 39 government and 40 private computer information systems, according to the Privacy Journal.)

In the teaching profession, some have gone overboard on computers. Manufacturers are telling students computers will do their work for them (a substitute for learning?).

There's concern over national security. Recently youths in Milwaukee broke into 14 major U.S. computer systems (systems used by the military). Fears rise that an enemy might do more harm disrupting U.S. computers than by traditional military action.

Computers, then, can be a blessing, or a danger. Everyone doesn't need them. They are not always indispensable. And when the electricity goes off, their electronic brain goes off.

It's good to be able to do basic math in one's head - and not be totally dependent on electronics.

Tell any person that she, or he, has charm and the chances are better that there will be charm.

## SUPER HARVEST SPECIALS

October closeout specials on John Deere  
40 Series tractors: finance charge waiver to March 1, '84, or up to \$1,550 in lieu of waiver

We have a dwindling supply of 40 Series tractors, the most popular John Deere ever offered. So if you want a certain model, now's the time to act.

Year-end is not far away. Buy a new 40 Series tractor now and you can still take advantage of investment tax credit (ITC) and depreciation for 1983. Buying now will improve your field efficiency and head off possible breakdowns with your old tractor. Plus, the 40 Series will perform right along with higher-priced competitors.

And look at this. During October if you finance your new tractor with John Deere you'll save \$100s or even \$1,000s. Because tractors bought by October 31 are eligible for finance charge waiver to March 1, 1984. Or you can get a cash rebate in lieu of waiver for the amount shown here.

Leasing is another option. Lease a new 40 Series tractor and lease payments will be discounted by an amount comparable to the finance charge waiver. Use leasing to get modern power, plus tax advantages, even if your 1983 taxable income is low.

Model	October '83 Cash Rebate In Lieu of Waiver	Model	October '83 Cash Rebate In Lieu of Waiver

# October Proves Busy For Local Law Enforcers

Law enforcement officers in Muleshoe and Bailey County have had an increase in activity during the month of October, as compared to a fairly quiet September.

On October 8 a minor collision was reported between Linda Flores and Anne McFarland Camp, but no injuries were reported.

Irma Garcia reported to local police on October 10 a simple assault, and was referred to Judge Huckaby. On October 14, the Texas Migrant Council reported the theft of license plates from a vehicle belonging to them. No recovery has been made.

On October 10, Bradley Henley reported a theft to local police, when a suspect entered his home and after a conversation allegedly took his wallet and removed a \$50 bill from it, walking out the door. Roman Garcia, Jr. was arrested by city officers

on October 15 on a warrant for alleged assault. He was taken to the sheriff's office and booked, pending bond.

Samuel Barron Alvarado was arrested on October 16 on alleged charges of DWI. He was arrested in the 1400 block of American Boulevard after officers observed his erratic driving. He was transported to the sheriff's office and booked, pending bond. Also on the 16th, a minor two car collision occurred between Clyde O. Holt and Gordon Noble. No other damages were reported other than to the vehicles.

On October 11, Rogelio Rameriz was arrested on a warrant for alleged trespassing. He was transported to the county jail and booked with bond set at \$300.

City officers arrested Glen A. Servis on October 13 on a charge of alleged DWI after he was observed traveling in

the city at a high rate of speed on American Boulevard. He was taken to the county jail and booked pending bond. On October 17, Eufemio Rodriguez was arrested on a charge of alleged DWI after officers observed his driving on American Boulevard. He was taken to the county jail and booked, pending bond.

On October 12, Fabian Toscano was arrested on a capias warrant for alleged criminal mischief charges. He was taken before Justice of the Peace Jack Bates for arraignment, and bond was set at \$750. On October 17, Raul Cantu Gonzales was arrested on a charge of alleged DWI after officers spotted his westbound vehicle traveling erratically on American Boulevard. He was taken to the county jail and booked, pending bond.

On October 13, officers arrested Mario Gomez, Jr. on charges of alleged possession of Marijuana. He was transported to the SO and booked, pending bond. Francisco Diaz was arrested on October 19 on a failure to appear warrant for traffic violations. He paid one \$80 fine and was to return on 10/24 to pay the balance.

Alfred Duran Flores, Jr. was arrested on October 18 on a warrant for alleged possession of marijuana. He was taken to the SO where he was arraigned and bond set at \$2500. On October 22, Quincey Romeyo Kirvin was arrested on a charge of alleged possession of marijuana. Another male and a juvenile female were also taken in custody. Kirvin was taken to the SO, booked and placed in jail, pending bond.

Also arrested on October 22 was Domingo Ramos, Jr. on a charge of alleged carrying of a prohibited weapon. He was transported to the county jail and booked pending bond.

On October 22, local officers arrested Arnaldo Ontiveros on a charge of alleged public intoxication, after he was observed in the 300 block of American Boulevard. He was placed in jail, pending bond.

Williams Lawrence Hernandez was arrested on October 22 in the 800 block of American Boulevard for alleged public intoxication. He was booked into county jail, pending bond.

On October 22, a male juvenile reported a criminal mischief occurrence. The juvenile's bike had been run over by a white, female suspect, who drove away. The bike was valued at \$112. There was also a witness to the incident.

On October 13, Bennie Gomez was arrested on charges of alleged possession of marijuana, after he was discovered with a large group of kids gathered around his vehicle, parked behind 614 West 5th Street. He was taken to the county jail, and booked pending bond.

On October 17, Sergio Davila was arrested in the 100 block of American Blvd. on a charge of alleged public intoxication. Police had prior contact with the driver of the vehicle on a DWI arrest. Davila was placed in jail, pending bond.

In the Bailey County Sheriff's Department, the following list of arrests, suspects

and charges along with bonds appeared during the past week: On October 17, Jerry C. Rodriguez was arrested on a charge of alleged public intoxication. He was released after posting \$75 bond. Also on that date, Eufemio Rodriguez was arrested on a charge of alleged DWI. He was released after posting a \$750 bond. On October 18 Alfred D. Flores was arrested on alleged possession of marijuana (felony). He was released after posting \$2500 bond. On October 19, Bennie Gomez was arrested on a charge of alleged possession of marijuana. On a prior judgement. He was fined \$500 plus court costs.

On October 19, George E. Williams was arrested by the Sheriff's office on charges of alleged public intoxication and assault. He was released after posting \$200 bond on each count. On October 21, Arnaldo Ontiveros was arrested on a charge of alleged public intoxication. He was released after posting a \$75 bond.

The Sheriff's office arrested Mollie Stacy on an alleged theft charge warrant. She was released to Curry County officials. Also arrested was Phillip Lee Hyatt, on a charge of alleged unlawful taking of a vehicle. He was released to the Portales police department.

On October 22, Quincey Kirvin was arrested on one

count each of alleged possession of marijuana and making alcohol available to minors. He was released after paying \$750 bond. William L. Hernandez was arrested on October 22 on alleged public intoxication charges. He was released following posting of a \$75 bond. On October 23, Lee Edward Murphy was arrested on alleged charges of driving with license suspended. He was released after posting a \$750 appearance bond.

Domingo Ramos, Jr. was arrested on October 22 on a charge of alleged unlawful carrying of weapon. His bond was set at \$1,000 and at the time of this report, had not been paid.

## Local Court Dockets Have Busy Two Weeks

Activity in both Municipal and Justice Courts over the past two weeks have netted a total of 114 filings for various violations. Disposals of these and previous cases in the two courts number 120 for the time period involved.

Filings on speeding violations in Municipal Courts numbered eight, according to Judge Linda Huckaby, but were followed quickly by seven filings for minors in possession of alcoholic beverages. A total of three cases were filed on public intoxication and violation of city ordinance. Two cases were filed on the following: expired plates, expired MVI, no drivers license and making alcohol available to a minor. One case each was filed for running stop sign, failure to use headlights as required, unsafe passing, no insurance and invalid MVI. Total filings for the recent period in Municipal court were 34.

Thirty-six disposals were made by Judge Huckaby, with nine being for speeding and eight for violation of city ordinance. Three disposals were made on running stop signs and two each for the following violations: expired MVI, bad checks, minor in possession of alcoholic beverage, failure to yield right of way, and public intoxication. One case each was disposed of on the following: possession of narcotic paraphernalia, expired plates, disorderly conduct, running red light, contest of speed and no commercial drivers license.

In Justice Court for the period of October 11 to 17, a total of 47 cases were filed with Justice of the Peace Jack Bates. Speeding again topped the list with 22 filings. Four filings each were made on the following: no operators license and defective tail lamps. Three filings were made for: expired MVI, violation of drivers license restriction; and two for running a stop sign. One case each was filed on the following list of violations: over length, failure to show change of address, expired license plates, public intoxication, no registration in truck, no commercial drivers license, operating unregistered in Texas, failure to drive in single lane and one for defective muffler.

Out of the 47 cases filed for that week, another 47 were disposed of. Those disposals are as follows: 25 for

speeding, six for defective tail lamps, three for no operators license and three for expired MVI. Two cases were disposed of for expired license plates and running stop signs. One case each was disposed of on the following: overlength, overheight, failure to show change of address, disorderly conduct and one for failure to yield right of way.

During the period from October 18 to October 24, JP Court had a total of 33 filings and 37 disposals. Cases filed included 19 for speeding. Two cases each were filed for driving on wrong side of road, expired MVI, and minor in possession of alcoholic beverages. One case each was filed on the following: failure to stop at stop sign, assault of a peace officer, public intoxication, defective stop lamp, cutting across drive, no operator's license, displaying fictitious license tags, operating unregistered.

Cases disposed of over the most recent period included 24 for speeding, two each for expired MVI, and no operators license. One case each was disposed of on the following: driving wrong side of road, failure to stop at stop sign, defective stop lamps, operating unregistered, no motor carrier authority, violation of driver license restrictions, fail to display red flag, illegal load to rear and one for over-width.

### PRIZE WINNER

OSLO, NORWAY -- Lech Walesa, founder of Poland's Solidarity labor movement which shook the Communist world, won the Nobel Peace Prize recently for his fight on behalf of the "unconquered longing" of all people for peace and freedom.

Walesa said he would give the approximately \$190,000 award to Poland's Roman Catholic Church.

### WALK OFF JOBS

OLONGAPO, PHILIPPINES -- About 22,000 Filipino workers walked off the job in a strike against the United States' two largest foreign military bases causing non-essential services to stand still.

### NEUTRAL CEASE-FIRE

BEIRUT, LEBANON -- President Amin Gemayel gave into Syria and its Druse allies and agreed to accept observers from non-aligned nations to supervise a Lebanese cease-fire.

## American Valley remains one of the top Valley dealers in the country.

## Times like these demand a good hard look at the best.

There's not a dealer organization in the industry that tops Valley. And there's not a Valley dealer that tops yours. He's a Valley Irrigation Professional. (Ever notice that VIP patch on his sleeve? It's not a decoration — he earned it.)

And that's something to think about the next time you look for a center pivot or linear system. Because they are one of our best. Only one in three Valley dealers achieve VIP status. It's an elite crew — the VIP.

To achieve VIP status, your dealer had to be rated "excellent" by Valmont in more than 40 areas

including parts inventories, production knowledge, equipment, and service. He also had to receive the highest marks for sales and service training programs.

So next time you see him, comment on his VIP dealership. It means first-class service on a professional, timely basis. It means parts in an emergency, with full-time factory-trained service personnel.

It means customer service schools with special maintenance and preventative maintenance programs. And computer energy analysis to design and maintain

the most energy-efficient system possible.

It's good to know that during a time when many dealers have decided to leave the business, your Valley dealer is making a commitment to his.

# BACK THE MULES FOOTBALL CONTEST

1st \$6

2nd \$3      3rd \$2

**CONTEST RULES:**

1. Pick the winner of each of the games contained in the advertisements on this page. Write the name of the teams you think will win opposite the game number in the blanks provided on the official contest blank.
2. The contestant must be 12 years of age or older.
3. Only one entry per person may be made for any one contest.
4. Bring you entry blank by The Journal office by 5:30 p.m. Friday, or, if mailed, the entry must be postmarked not later than 5:30 p.m. Friday. Write "FOOTBALL CONTEST" on mailed entry, and mail to P-O- Box 449, Muleshoe, Tx. 79347.
5. Pick and write in the score of the tiebreaker game. This score will be used to break weekly as well as grand prize winners. Decision of The Journal's scoring judges will be final.
6. Check the team you think will win; 10 points for first place, 6 points for second place and 4 points for third place.
7. To count for grand prize, entries must be on official blank printed in the paper.

**Grand Prize \$100**

# HEALTH

Lawrence E. Lamb, M.D.

By Lawrence Lamb, M.D.

**DEAR DR. LAMB** — I'm concerned that I've developed a dependence on caffeine. I'm a night bartender in a busy bar. It's important that I work hard and stay "up" like an entertainer in front of an audience. I find that in between coffee breaks I become grouchy, uncoordinated, easily bored and less able to joke and chat with customers. Sometimes I get very weak for short periods.

I never drink a lot of coffee at one time. I just keep a constant level of one or two cups in my system all the time.

I have trouble getting out of bed in the morning, sometimes sleeping nine and 10 hours. Even when I get six or seven hours of sleep I feel awful when I get up.

I've tried to stop drinking coffee but I get too weak. I've tried to mix decaffeinated coffee in with the regular coffee but I still notice the difference.

How can I ease myself off caffeine without affecting my job performance? Also how can I solve the problem of wanting to oversleep and feeling bad when I get up?

**DEAR READER** — Your description of your problem is a perfect example of the effects of caffeine. It is a drug habit and a person can develop a dependence on it. Caffeine is a brain stimulant and you are correct in describing the "up" feeling.

You would probably do better in withdrawing if you could take a two-week vacation. Taper off by using only a cup or two a day. Then one — and then none. This helps prevent withdrawal symptoms.

## Caffeine addiction

Start exercising to stimulate yourself.

Set a limit on how long you will allow yourself to stay in bed and when you first get up force yourself to exercise. Exercise does wake up the system and energizes a person. That is why you need to avoid too much exercise immediately before bedtime.

I am sending you The

Health Letter 14-4, *Controlled Beverages: Coffee, Tea, Colas and Chocolate*, so you can familiarize yourself with the effects of these. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

## Majority Of Cotton

### In U.S. Is 'Foreign'

Approximately seven of every eight bales of foreign cotton textiles coming into the United States are grown outside this country, according to a National Cotton Council study.

Dr. Dean Ethridge, director of the Council's economic services, presented findings of the study in Memphis, Tenn. recently at a meeting of the Producer Steering Committee.

Of the 1.8 million bale equivalents of cotton textiles imported into this country from the top 20 foreign suppliers in each of the last three years, he said only about 233,000 bales or 12.9 percent were U.S. cotton.

The Council economist pointed out that the proportion of U.S. cotton in textile imports dropped by more than half between 1975-77 and 1980-82.

He noted that the decrease occurred in years when this country's raw cotton exports were reaching modern historical highs and textile imports were also increasing.

Acknowledging that specific linkages are possible between cotton textile imports and raw cotton exports, the economist said, however, that "simply allowing increased textile imports will reduce domestic demand for our cotton more than it will expand export demand."

"There can be little doubt that the lack of import restraints would result in much of the U.S. market for

cotton textiles being supplied by foreign mills," he said.

Turning to prospects for world cotton production, Ethridge said that China has increased both acreage and yield to become the world's largest producer. But he said it appears that Russia is not likely to increase its production substantially in coming years. He noted that Russian yields have trended downward at the rate of one-half percent a year over the last decade.

However, the economist said indications are that the U.S. will have to compete vigorously to maintain its position of dominance in world cotton trade. He pointed out that plenty of acreage is available for cotton production in the rest of the world and productivity gains are likely.

"Over the long term, the U.S. cotton industry must reeducate itself to being the most cost-efficient in the world, while formulating and enacting policies specifically designed to strengthen its competitive position on all fronts of the world market," Ethridge said.

## STRAIGHT TALK ON TEETH

Just about everybody knows that "braces" are used to straighten teeth. But how do they actually work? How are the teeth straightened and how long does it take?

Simply put, "braces" are attached to the teeth by the orthodontist in an effort to cause a pressure on each tooth. The light force on each tooth from the braces (often termed "appliances" by your orthodontist) causes a slight pressure on the bone next to the tooth's root. Under this steady pressure, the bone eventually dissolves and the tooth then has space to move a very microscopic distance. Additional bone will grow in the now empty space on the other side of the tooth where there is no pressure. This bone helps the tooth to remain in its new position.

During all stages of treatment, light pressure helps produce the maximum amount of bone changes and movement desired. "Braces" are tightened many times during treatment so the pressure is maintained for continuous movement of the teeth. The teeth can be moved only within the limits of the supporting bone.

Each patient has subtle differences in treatment needs. That's why no two treatments may be alike or last the same length of time. Treatment time may vary from 12 months to anywhere from 24 to 30 months depending on the severity of one's problem and the degree to which the teeth can be moved.

Now that you know how "braces" move teeth, test your knowledge on a family member or friend.

For more information about orthodontics and how to seek a qualified orthodontist for treatment, write to the American Association of Orthodontists, 460 North Lindbergh Blvd., St. Louis, MO 63141.

**CHANGES IN AG POLICY**—A Texas Agricultural Extension Service economist predicts some changes in agricultural policy are forthcoming. Agricultural policy in the past has dealt with particular problems at a moment in time and have been made in a patch work fashion—frequently on a crisis basis. Establishment of a consistent food and agricultural policy requires the development of a set of overall goals as well as a consistent set of policies and programs to achieve them. Domestic farm and food policy goals need to be related to general economic policy, foreign policy and economic development.

## Enochs News

By

Mrs. J.D. Bayless

Mrs. Juanita Holt and Mrs. Lorene Whiteburg of Littlefield former residents of our area also Mrs. Dean McBee and Mrs. Gertrude Fred returned home Saturday from a 15 day tour on Pauline and Billy McDaniels Tour Bus. They went through 15 states up to Washington D.C. They reported a good time.

Burley Roberts, Sib Hubbard and Arnold Archer were in Lubbock Wednesday to be with Burley's mother, Bertha Roberts at Methodist hospital where she had surgery, she was dismissed from the hospital Saturday.

Mr. and Mrs. Tom Bogard attended the 50th anniversary of friends, Mr. and Mrs. Robertson, 2:30-5:30 Sunday afternoon at the Methodist Church at Hale Center.

Mr. and Mrs. Edward Crume, Mrs. Irene Parker, Mrs. Etta Layton also Mr. and Mrs. Robert Parker from Portland, Maine visited in the home of Mrs. Juanita Snow in Muleshoe Monday afternoon.

The community was surprised with a rain and hail storm around 6:45 p.m. Sunday, Oct. 16, then they had the second rain and hail around 8 p.m. The rain ranged from .7 to 2 1/2 inches some received some small hail and some in the south east of Enochs got completely hailed out and had large golf ball size hail.

Rev. and Mrs. Mike Heady, Mrs. Etta Layton, Mrs. Bill Key and Mrs. J.D. Bayless attended the annual Association at the Baptist Church at Amherst Friday.

Sid Key and Mrs. Bill Key drove to Roswell, N.M. Saturday and visited the Hamiltons and Mrs. Sid Key returned home with them, after spending the week with the Hamiltons.

Supper guests in the home of Mr. and Mrs. Edward Crume Sunday evening were her brother, Mr. and Mrs. Robert Parker of Portland, Maine, and sisters, Mr. and Mrs. Moarice Hazzard from Eastland, Texas, and son Don Hazzard from San Antonio, Mrs. Juanita Snow of Muleshoe, Mrs. Vida Cash, Mr. and Mrs. Harold Manning, Glen Cash, Mr. and Mrs. Dale Cash daughter, Mr. and Mrs. Chubby Black and Coby all of Hereford, Mrs. Etta Layton and Mr. and

Mrs. J.E. Layton, and Harold Layton. The Parker family all met for a family gathering to help their mother, Mrs. Irene Parker celebrate her 87th birthday and she got ill and was admitted to the Littlefield Medical Center in Littlefield Sunday morning.

Mrs. Dorwin McBee visited her parents, Mr. and Mrs. Morris Phillips Sunday.

Breana and Chad Huff of Lubbock are visiting their grandparents, Mr. and Mrs. Bud Huff.

Harold Layton of Dell City came Saturday and returned home Sunday night.

Mr. and Mrs. Dennis Turney and children visited her parents, Mr. and Mrs. Truman Nix at Littlefield, Sunday. Her dad had been in the Littlefield Medical Center and was dismissed Thursday.

## Autumn Skincare Program Recommended

Once summer is over, many people believe they no longer need to worry about the destructive after-effects of exposure to the sun.

Wrong, say dermatologists and beauty experts.

According to these authorities, the sun's ultra-violet light damage can harm skin all year, indoors and out. Problems caused by over-exposure to that light, they say, continue to accumulate slowly, day after day, season after season — all year long. Chill winds and the drying effects of indoor heating systems can also provoke complexion distress.

Prevention, say the experts, is the best weapon in the constant battle against dryness and the ravages of time.

There are two key elements in every good skin care program: moisturization and light protection. Fortunately, this autumn there is some excellent, practical assistance available.

Researchers for Whitehall Laboratories recommend using a moisturizer such as Youth Gard which contains Octyl Dimethyl PABA — a light-restricting B-vitamin derivative that protects the skin from the ever-present harmful effects of ultra-violet light.

This autumn, these researchers recommend starting your preventive skin care routine by taking these simple steps now:

\* Maintain a balanced, nutritional diet; get plenty of rest, regular exercise, and drink lots of fluids. They all help keep skin glowing.

\* Moisturize regularly, including under makeup, morning and night, even if you're going to be indoors.

\* Protect yourself — the dry, scaly or flaky skin that usually follows undue exposure to wind means you've let your skin get dehydrated. A highly emollient moisturizer like Youth Gard helps you avoid these symptoms.

\* Moisturize before indulging in any sport — the combination of sun and wind is a double threat. Skiing, autumn sailing or even walks in the woods can often leave their mark, discoloring your skin or causing it to wrinkle prematurely. Moisturizers with PABA help give you the double protection that lets you more fully take advantage of activities you enjoy, whatever the season.

Youth Gard is available in two convenient sizes and can be found in drug stores, supermarkets and discount stores everywhere.

## Florida Favored To Win

### 'Squeaker' Over Auburn

Somebody has to lose, and this weekend some of the mighty will fall. Just for starters: Auburn entertains Florida, Michigan invades Illinois, Maryland hosts North Carolina, and Miami challenges West Virginia. It's difficult to pick a headliner from that group because so much is riding on the outcome of each game. And, believe it or not, only five weeks remain of the college football season.

Auburn and Florida, both very involved in the race in the Southeast Conference, come into this contest under different circumstances. The Tigers are in a season-concluding back-breaking schedule that started last week with Mississippi State, finishes with Maryland, Georgia, and Alabama. The Gators, on the other hand, have just one major conference test remaining, Georgia in two weeks. Florida nipped Auburn 19-17 in Gainesville last fall, a loss that kept the Tigers from finishing in the runner-up spot in the conference. Auburn will slow the Gators' bid for the Southeast title,

but Florida is favored to win in a squeaker and remain undefeated in the league.

The score in Champaign last fall was just 16-10 as Michigan subdue the Illinois. This year, with both Illinois and Iowa doing their best to unseat the Terrible Two (Wolverines and Buckeyes), the implications of winning and/or losing are many. Michigan tangled with Iowa last week while Illinois shot down Ohio State two weeks ago. The winner in this one, by a hair, Illinois.

In the major battle of independents, West Virginia, conqueror of Maryland and Pittsburgh, among others, will be a slight underdog to Miami. The Hurricanes, after an opening loss to Florida, have come on strong. And Miami will be playing at home.

The outcome of the North Carolina-Maryland clash will probably decide the Atlantic Coast championship. Both are undefeated in the conference, the Terps beaten only by West Virginia. Last fall, it was 31-24, Maryland. This year, Maryland again.

Presented by:

"Additional farm income will not come out of marketing margins but will come from taxpayers, consumers or improved farming efficiency."

That blunt statement is the most eye-catching part of a timely and thought-provoking reappraisal of farm program options entitled "The Emerging Economics of Agriculture." The report was compiled by a task force of 23 members of the prestigious Council for Agricultural Science and Technology (CAST), chaired by Oklahoma State University Economist Luther Tweeten.

Explaining its stand on the possible sources of additional farm income, the task force says science can help reduce the instability of farm income, "but biological processes of nature set limits upon the extent to which instability can be reduced at favorable cost-benefit ratios."

Also made is the point that while research and extension to improve farming technology, management and marketing contribute to efficiency gains, they often benefit the whole population more than farmers.

Identifying price and income stability, cash flow and international market competition as the most pressing economic problems in agriculture, the report discusses four general policy alternatives that could be adapted to cope with these issues. Advantages and disadvantages of each are listed, preceded by the statement that the role of weighting the good and bad under the various options is for policy participants, including farmers, the agricultural community at large, consumers and policymakers at all levels.

The four policy alternatives range from a "relatively free market" to a system of mandatory controls. They are described as:

(1) A supplemented private sector, which envisions the stabilization of agriculture without commodity programs but with public measures to provide income insurance, assistance with the holding of commodity reserves and strengthening of forward-pricing markets;

(2) Direct payments, without production controls, allowing farmers to be competitive in foreign markets while providing income protection focused on family farms;

(3) Demand expansion, which "in theory" could bring farmers an adequate return from the market while removing the burden of administrative and other expenses of government control, and

(4) The referendum-quota system, with mandatory controls for all farmers to limit production (thus raising prices) if accepted by vote of a specified majority of farmers.

Any attempt to condense the task force's in-depth treatment of these alternatives here would be ill-advised at best. But a copy of the 38-page report is available for \$3.00 post paid from CAST, 250 Memorial Union, Ames, Iowa 50011.

## CAPITOL UPDATE

John Tower  
U.S. SENATOR for TEXAS

WASHINGTON, D.C. (AP) — Many criminals in this country are escaping punishment completely, even though they have been convicted on federal offenses. They are criminals who have been fined rather than being sent to jail — and simply never paid their fines.

Over the past 16 years, the federal government has collected only about 50 percent of all criminal fines, and the record over the past few years is even worse. Since 1968, the collection rate has fallen from about 80 percent to 34 percent over the past 18 months.

Five of every six fines are levied on criminals who do not go to prison. Half the time, they are not even on probation, and most criminals with unpaid fines have never paid one cent of those fines. Today, more than 22,000 fines are unpaid, totaling over \$132 million. In 83 percent of these cases, no payment has been received in the past year.

When a prisoner escapes from jail, the escape itself is an offense. But when a criminal "escapes" a fine, there is no similar offense. Although criminal contempt proceedings may be initiated against an offender who willingly avoids paying a fine, this remedy is cumbersome, and has been used successfully only once in the past 15 years. In addition, there is no provision in law to allow interest or penalties for delinquent or overdue fines, so a criminal has every incentive to avoid payment as long as possible.

This has led to some flagrant examples of fine avoidance. In 1978, a doctor who was convicted of falsely charging the U.S. government for more than \$90,000 in Medicare claims. He was sentenced to a \$10,000 fine. Although this doctor owns five homes, three-fourths of his fine remains unpaid five years after his conviction.

A defendant who pleaded guilty in September 1981 to income tax evasion was sentenced to six months in a work-release program, three years probation and a \$10,000 fine. This individual, who owns more than a half million dollars in real estate, more than \$80,000 in cash and \$35,000 in stocks, has paid absolutely nothing on his fine. Absolutely nothing.

I have joined in sponsoring legislation to stop these abuses. The Criminal Fine Collection Act would make it a crime to willfully avoid paying criminal fines. The legislation also gives judges the authority to resentence criminals for their original offense, within the original sentencing authority, when offenders have allowed their fines to become delinquent. Additionally, the bill would give the Justice Department authority to obtain liens, similar to those imposed for delinquent taxes, on property owned by criminals who do not pay their fines. Fine payment also would be a condition of both probation and parole. Interest and penalties would be established for unpaid fines.

For those relatively few cases in which there is a good reason for a criminal not to pay his fine, a procedure would be established through which convicted offenders could petition for modification or remission of fines, based on their changed circumstances and conditional on their good-faith effort to pay at least a reasonable part of the fine. This procedure also would allow restitution or reparation payments to crime victims to be used to offset a criminal fine obligation.

All of these provisions are reasonable and sensible approaches to ending the disgraceful situation in which criminals are allowed to avoid punishment. I hope that Congress will act expeditiously to enact this much-needed law.

## Nursing Home News

By Joyce Stancell

Thurs. afternoon Floyd Ruthardt, J.E. Embry, and Maud Kersey came to play 42 and dominoes with the residents.

John Boor visited the Nursing Home Thurs.

Clara Rickett was visited tional. Sun. afternoon the over the weekend, by her son, Mr. and Mrs. Dale the Hospital and Nursing Home Aux came to shampoo and set the ladies hair and give manicures.

Our thanks to the Ell Northcutt family for the delicious cake for the staff.

The Spudnut Shop brought spudnuts for the residents Thurs.

Ernest Kerr's brother and his wife from Ill. are here visiting. Linday and girls and Ruby Lee visited him Wed.

Clara Lou Jones, Clara

Crain, Laverne James and Dorothy played Skip-Bo with the residents Tues. afternoon.

Mr. E.E. Holland was visited by his son last week and Mrs. O'Hair of Lazbudie.

Mrs. Shofner's daughter from Estes Park Colo. visited her about two weeks ago.

Barbara Case was visited last week by her daughter in law and grandson of Roswell, N.M.

Annie Dunn's grandson visited her last Thurs. He lives in Lubbock.

Our thanks to the Mary Martha Class of the First Baptist Church for their

generous donation for our craft class.

Rickert of Clovis.

Lula Mae Shanks visited the Nursing Home Tues.

Marie Engram was visited by Maud Kersey, Beatrice Garcea, Jerry Hutton, and Nelda Merriott.

Bunnie Hurd went out with Mary Edmiston Sunday afternoon.

Alta Tyler was visited last week by her sister Lena Young and her brother Mr. and Mrs. Herbert Clay.

Thurs. Oct. 27th at 2:30 the Needmore Community Club will host our monthly Birthday Party. Residents

having a birthday this month are: Ruby Gore, 10-8-1896; Murphy Berry, 10-21-1906; Alva Shofner, 10-24-1891; Ernest England, 10-11-1900. We invite family and friends to attend.

Dottie Wilterding was visited this week by Mr. and Mrs. D.B. Head and Mr. and Mrs. Marshall Head.

Cleo Bellar returned to the Nursing Home Monday after being hospitalized. Welcome back Cleo.

## ABOUT YOUR HOME

By April Rhodes

Check your attic, basement and closets for fire hazards. Discard all unused and unnecessary objects.

Be prepared for a fire emergency in your home. Call a responsible dealer for information on a home fire extinguisher.

You can add room trimmings with a personal touch by adding window shades to your windows. Clean mildew off your shoes by wiping with a 50-50 solution of rubbing alcohol and water or saddle soap. Dry in sunlight.

We all thrill to a...  
**FAMILIAR TUNE**

It is so soothing, comforting, and pleasing to listen to our favorite tunes when played by capable artists. These tunes can make our minds wander back to pleasant memories of days gone by, and also awake us to new joys. Each Sunday we have the opportunity to be thrilled by the preaching of God's word, and the story of God's great love for us. Attend church Sunday and enjoy worshipping God with others.

**EVERYONE IN THE CHURCH**  
**THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**Public Utility Commission of Texas**  
  
**Consumer Update**

In our last report, we told you about the dual purpose public utilities have in today's society. Utilities must provide service at a reasonable price to everyone in their service areas. They also must generate profits in order to acquire capital and meet ever-increasing demands.

Utilities also are monopolies not subject to competition and other forces of our free-market system. Regulation has been devised as a substitute for the constraints and controls of competition in utility service.

In 1975, the Texas Legislature passed the Public Utility Regulatory Act (PURA), and established a comprehensive regulatory system through the Public Utility Commission (PUC), the Railroad Commission and individual cities.

The PUC sets rates and service standards for all telephone utilities, and for private or investor-owned electric, water and sewer utilities operating in unincorporated areas. The PUC also regulates electric cooperatives.

Approximately 744 utilities, including 78 telephone, 104 electric, 482 water and 80 sewer companies, fall under PUC jurisdiction. The Commission also has limited authority over another 682 utilities.

The purpose of the Commission is to assure that the standards set for operations and services, and the rates received for such services, are just and reasonable for both the consumers and the utilities. Determining and protecting the public interest while maintaining the financial integrity of the utilities under PUC jurisdiction is a constant challenge.

The PUC consists of three members appointed by the Governor subject to confirmation by the Texas Senate. Commissioners serve six-year terms which are staggered so that one appointment is made during odd-numbered years.

The Commission also has an executive director, the Director of Public Utilities, who supervises agency operations and acts as a liaison with other state and federal offices.

PUC staff is divided into eight divisions. Each of the divisions, except for Administration and Energy Efficiency, participates in all rate hearings before the Commission.

Accounting monitors utility compliance with PUC accounting and rate-making rules and procedures. Through detailed analysis, the accounting staff determines a utility's fair and reasonable cost of service.

**Economic Research** examines and evaluates economic and financial conditions of individual utilities, as well as of the entire utility industry. This enables the staff to project the revenue a utility requires to maintain its financial integrity while providing service at the most reasonable cost to ratepayers.

**Energy Efficiency** administrators federally-funded energy conservation programs. It provides information and technical assistance for Texans who want to use energy in an economical and efficient manner without being deprived of comfort and productivity. The division offers field assistance to

local governments and school districts, as well as publications and workshops geared to the general public on specific energy topics.

**Engineering** monitors utility compliance with PUC service rules and regulations. The engineering staff performs service investigations and tests to maintain minimum quality of service standards. Engineering provides testimony on the utility's service quality, as well as on rate design, current cost of plant and depreciation.

**General Counsel** represents the public interest before the Commission through presentation of the PUC staff's case in public hearings. General Counsel coordinates case presentation, files required legal documents and provides legal interpretation of PUC rules. The Consumer Affairs Office also is part of General Counsel.

**Hearings** conducts hearings at the Commission, and receives and processes all filings with the PUC. Hearings Examiners prepare Examiner Reports which are case recommendations considered by the Commissioners in reaching final decisions.

**Utility Evaluation** audits utility company costs and operating performance. The division also will play a major role in the enforcement of recently-passed rules concerning the recovery of fuel costs by utilities.

**Administration** provides support services for PUC staff. Offices within this division include personnel, budget and purchasing, the library, central records, public information, word processing, automated data processing services, and a print shop.

This spring, the Legislature extended the life of the Commission until 1995 under provisions of the Sunset Act. We are ready to assist you with any utility-related question or problem. Please write us at the address listed below, or call us at (512) 458-0223 or 458-0227. TTY for the deaf is (512) 458-0221.

**Consumer Update** is prepared and distributed by the Consumer Affairs Office of the Public Utility Commission of Texas. Our address is 7800 Shoal Creek Boulevard, Suite 450N, Austin, Texas 78757.
