ARTHUR BARLEMANN, JR. COUNTY AGENT

A Lamb Evaluation and Judging Clinic will be held at the Texas A&M Research and Extension Center in San Angelo July 18-19. Co-sponsors of the clinic are the Texas Sheep and Goat Raisers Association and the Texas Agricultural Extension Service. The clinic is being supported by the livestock shows at Dallas, Fort Worth, San Antonio and San Angelo.

The clinic is open to all interested adults and older youth interested in lamb feeding. It will open Friday morning, the 18th at the Research and Extension Center at 9:00 A.M. with registration beginning at 8:30. The first portion of the program will consist of a discussion on live lamb evaluation. Following this, the participants will evaluate between 20 and 30 live lambs. These lambs will then be slaughtered at the Wilson Packing Company plant where the participants will meet Saturday morning at 9:00 to view and discuss the carcasses. The remainder of the Friday program will consist of discussions on lamb merchandising, lamb carcass research reports, a lamb feeder and packer panel, show lamb classification and selection, and new approaches to lamb showmanship.

The Friday program will conclude shortly after 4:00 P.M. and the Saturday portion will end around noon at the Wilson plant.

All interested adults and older youth are invited to attend. Cost for adults is \$7.50 and for youth it is \$5.00. This covers a noon lamb barbecue on Friday and the cost of the lambs, feed, and other incidentals.

Prospective and current judges of the lamb shows are being invited to attend. Also, the shows will have representatives present to get ideas on the lamb shows from the participants.

Sterling County marked up its first confirmed case of screwworms on June 26 when a sample sent in by Curtis Wilson from the Collins and Wilson Ranch in the southwest portion of the county was identified as screwworms. The sample was taken from a wound on an old firebrand on a cow. Ground release of sterile flies was made that week and was to be followed by aerial drops as has been done in the past.

Another sample was sent in from the John O'Banion Mendenhall Ranch on July 3. It was taken from the navel of a new born calf on the ranch by Roy Bennett. To date—Wednesday—there has not been a report on this sample. However, the screwworm eradication laboratory at Mission has found that the majority of these cases are found to be screwworms.

In view of this, all producers are urged to keep a close watch on their livestock, check all wounds, send in a sample, and treat the wound with an approved screwworm remedy. Collection vials and mailing tubes are available at the feed store and the county extension office.

A total of eighty-five dogs and cats were given the rabies shots at the annual clinic on June 30. This is a slightly greater number of animals immunized than in the past.

Two persons have taken the shots as a result of exposure to a rabid cat on the Clinton Hodges Ranch on June 18. The cat

Electric Short Course at School Next Week

A Farm Electrification Short Course for adult farmers will be held July 14-17 under the sponsorship of the Sterling City High School Vocational Agriculture Department, according to James Thompson, superintendent and Fred Igo, teacher of vocational agriculture.

The short course is being sponsored by the vocational agriculture department of the local high school.

Cleve Walkup, Farm Electrification Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University, will do the instructing in the course. He is headquartered at Texas A&M University.

Mr. Walkup holds a B.S. Degree in Industrial Education and a M. Ed. Degree in Agricultural Education.

The short course here is scheduled to begin July 14 at 7:30 p.m. in the vocational agriculture building. Other meetings in the series of four will be held July 15, 16 and 17. The classes will be conducted in the new vocational agriculture building on the north side of the building building, said Igo.

During the dates the short course is in progress, Mr. Walkup will be available to assist farmers and ranchers with individual problems and to provide on-the-farm instruction, according to Igo.

Farmers or ranchers interested in attending should write or call Mr. Thompson, or Igo, or Ross Hardware. An entry fee of \$5.00 will be charged. Farm Electrification Short Course Certificates are to be presented to each one who attends all the sessions.

Subjects to be covered include how to ground electrical equipment for safety, double insulated tools, groundfault interrupter devices, fuses and circuit breakers, switches, wire sizes and voltage drop, splices and connections on both copper and aluminum wire and how to calculate the cost of operating electrical equipment.

Call in your news items to the News-Record, 378-3251.

bit Frank Sanchez as he was feeding it and the Sanchez's two year old daughter had played with the cat during the time it was probably carrying the active virus. The head was sent to the laboratory in Austin and diagnosed as positive for rabies.

Patti Bynum and Melinda Terry gave their horse demonstration on television station KCTV in San Angelo on July 8. Mrs. Billy R. Bynum made the arrangements earlier with Mrs. Pat Atteberry to give the demonstration on her evening program. The girls did a marvelous job of presenting their demonstration.

The team will participate in the Southern Region National Contest in Jackson, Mississippi, August 13-16. Teams from thirteen states in the south will be competing there. At the present time, arrangements are not complete for their performance as no word regarding the final time and location has been received.

Buy J.T. Davis Ranch

The H. L. Hildebrands and the Stan Horwoods have bought the 22,380 acre ranch of the J. T. Davis Estate (owned by Flavy Davis). They also bought the livestock on the ranch.

The new owners plan to keep ranch manager Bill Davis on the job.

Flavy Davis of Houston, a nephew of the late J.T. Davis, got the ranch following the death of Mr. Davis and settling of the estate. He had hired Bill Davis as ranch manager several years ago.

The buyers include Mr. and Mrs. Hildebrand, Mr. and Mrs. Horwood, and their children, Lisa, Larry, Lennie and Lonnie.

Crisp Williams New Basketball Coach

The Sterling School Board last week hired Crisp Williams as head basketball coach, assistant football coach and teacher of history in the high school here. Mrs. Danny Slaughter was hired to teach business half time replacing Mrs. Milford Wiley in the school.

Crisp replaces Milford Wiley, who retired to manage a ranch near Alvarado. Crisp, the son of Mr. and Mrs. Hubert Williams of Sterling City, is a native of Sterling City. He was an outstanding basketball player as well as a football player for the Sterling Eagles. He has been teaching and coaching at the Boling School in South Texas.

New DPS Man Here

John Harris is the new Texas Highway Patrolman here. He replaced Herb Edwards, who joined the narcotics division of the DPS and lives in Lubbock.

John bought the Milford Wiley trailer home here and he and his family moved in about two weeks ago. He is from Big Spring where he was with the DPS drivers license division.

GOLF TOURNAMENT WINNERS TOLD

Winners in the golf tournament here on June 28 were:

- 1st. Bobby Dodds, Rudy Rodriguez and Jimmy Watson.
- 2nd. Jerry Gartman, Early Barton and Medina.
- 3rd. Bill Jones, Jack Peel and Louis Watson.

SHOWS AT SNYDER ART SHOW

Mrs. George (Maxine) Turner and her son, Wesley, entered in the Snyder Art Show last weekend. Maxine took two first places, one on landscape and one on contemporary painting. Wesley took a second and third in the junior division.

George's brother, Kenneth Turner and family of Freeport, came up for a visit and went to the Snyder show with the local Turners.

The Snyder Art Show and big blowout in July each year, is sponsored by the Jaycees, the churches and clubs. They put on an art show, a crafts show, a carnival, puppet show, choir singing and fireworks.

Little League All Stars Named

The Sterling City Astros won second place in the Little League district this season. Bronte won first (Yankees).

Astros named to the all-star team were Lonnie Greenfield, Paul Wayne Posey, Victor Medina and Mike Hinklin. The team's coaches were Bobby Myrick and Wayne Posey.

Sterling Giants named to the

LIONS CLUB

On July 2 the Lions Club met at noon in the community center for the regular weekly luncheon. Skeete Foster and Howard Meadows were guests.

County agent Arthur Barlemann Jr. announced that Patti Bynum and Melinda Terry, the 4-H Demonstration team that won in the state contests, would be on TV Tuesday, July 8. He also told that they would appear with their skit in the southern regional contests next month.

Bro. Traugott Vogel told of a trip that he and his family had just completed out west.

The prize went to D. Kirk Hopkins.

JULY 9 MEETING

On Wednesday, July 9, Rodney Bonner was a guest of Albert McGinnes. He is the new service man with the West Texas Utilities Co., replacing Jim Westbrook, who moved to Houston.

Acting president Howard Cudd announced that the bi-monthly golf tournament would be held here this Saturday, beginning at 1 p.m. All who will may enter.

Ross Foster reported an electrical shortcourse would be held at the school the first three days of next week. Classes will be held each night at 7:30.

Wayne Posey reported that the Little League All-Star games would be played in Robert Lee next week.

The prize went to Bonner.

Mrs. Jan Foltz Buried Here

Services for Mrs. Jan Thornton Foltz, 20 of San Angelo, were held on Thursday, June 26 in the local Church of Christ and burial followed in the Montvale Cemetery. The officiating clergymen were Bro. R.B. Hamilton of Sterling City and Bro. Marion Hays of Rocksprings. The Ross Funeral Home was in charge of arrangements.

Mrs. Foltz died on the Sunday before of injuries sustained in an auto accident early this year near Llano.

She was born July 10, 1954 in San Angelo and had been a resident of San Angelo all of her life. She was a member of the Church of Christ, was a licensed vocational nurse at St. John's Hospital and received LVN training at St. John's. She attended San Angelo public schools.

Survivors include a daughter, Tammy Lynne Foltz of San Angelo; two brothers, Jack Thornton of Sterling City and Jimmy Thornton of Tampa, Fla.; her parents, Mrs. Carolyn Thornton of Dallas and Gene A. Thornton of Tampa, Fla.; her paternal grandmother, Mrs. L.D. Thornton of San Angelo and maternal grandparents, Mr. and Mrs. W. Y. Bengé of Sterling City.

all-star team were Gary Maricle, Lupe Navarro and Steve Griffin. Coaches of the Giants were Troy Templin and Gary Maricle.

The Bronte Yankee coach Jackson was named to coach the all stars and helpers are Bobby Myrick and Wayne Posey. The all-star game will be played on July 14 at 7:30 p.m. in Robert Lee. They play a team of all-stars from Ballinger.

Lynn Rich coached the Senior League team in Sterling. Boots Demere was named to the all-star team. They play the all-star game on July 17 at 8 p.m. in Robert Lee.

In Little League all-star selections, 18 were named, 14 will suit out and the others are to be back-up players.

The Sterling Baseball Association expressed its appreciation to all who helped in any way make this season's program a success.

2 Highway Projects Completed Here

The State Department of Highways and Public Transportation and the Contractor, Seidel, Inc. of San Angelo completed two highway projects last week in Sterling County.

Reconstruction of a 6.4 mile section of State Highway 158 from the Coke County line west across the divide to a point near M.C. Hendry's home was completed last week with pavement widened to modern highway standards with improved shoulders and drainage structures. This road had previously been paved by the Highway Department in 1948 and had been a part of the State Highway System since that time. A greater part of this road has been in approximately the same location since it was opened by Commissioner's Court as a third class public road before 1900.

Construction of a new 5 mile section of Ranch to Market Highway No. 2139 has been completed which extends from State Highway 163 (the Barnhart road), just north of Sterling Creek, 6.4 miles south of Sterling City, southwest on a new location to a point on the present Sterling City and Big Lake road on the Carper Ranch. This road will replace a section of the old Sterling City and Big Lake Public Road (much of which has been on the same location since 1912.)

Joint VBS Here Next Week

The Joint Methodist-Presbyterian Vacation Bible School is to be held here next week, July 14-18. Classes will be held from 9 to 11:30 for ages 4-12.

Kindergarten teachers will be Mrs. Mike Foster and Carol Jones with Paula Radde, helper.

Grades 1, 2 and 3 teachers will be Mrs. Stan Horwood and Mrs. Bob Allen with Becky Hodges, helper.

Classes 4, 5 and 6, teachers are Mrs. Bill Davis and Mrs. Bobby Myrick.

Music will be furnished by Mrs. Larry Glass and Judy Copeland.

Children from age 4 years through last year's third graders will meet at the Methodist church and last year's 4, 5 and 6 graders will meet at the Presbyterian Church.

The women of both churches will furnish refreshments. Mr. and Mrs. Ross Foster will furnish cups and napkins.

Mrs. Clinton Hodges is the superintendent this year.

Ted C. Reed Dies in California

Ted C. Reed, 49, of Windsor, California died of a heart attack on July 6. Services were held at 3 p.m. Thursday, July 10 in Santa Rosa Memorial Gardens and burial followed there.

Ted was born in Carlsbad, Texas on July 9, 1925. He lived in Sterling City 15 years. He was a veteran of World War II (Navy) and has lived in Windsor, California since his discharge and he worked for the Masonite Corp. at Cloverdale.

Survivors include his wife, Irene, a daughter, Teresa Catherine of the home; a brother, W. A. (Pete) Reed of Big Spring, Texas; three sisters, Mrs. Edward M. (Irene) Wright, Mrs. Jack (Estelle) Bush and Mrs. Pete (Geneva) Criswell, all of California. He was preceded in death by his parents and two brothers, Max and Jerry Reed.

NEWS OF ECOLOGY

ALUMINUM STRETCHES ENERGY RESOURCES

Now that pollution clean-up is underway, environmental concern seems to be shifting to energy supply. Some ecologists worry about America's accelerating use of fuels — coal, oil, gas and uranium.

These basic sources of energy, burned directly or transformed into electricity, propel all vehicles, heat and cool our homes, run appliances, cook and refrigerate foods and power our industries.

The use of aluminum, an environmentally thrifty metal, stretches fuels and energy, the people at Reynolds Aluminum point out.

"Aluminum does not deteriorate and is easily recycled with little expenditure of energy," said Dr. Robert F. Testin, director of environmental planning for Reynolds. "That makes it an energy bank that can be drawn upon again and again. When long-lasting aluminum products are finally discarded, melting them down for refashioning into new products takes less than 5 per cent of the energy used to make the aluminum originally."

Because it is so light — only one-third the weight of steel, copper or brass — aluminum provides a greater quantity of material per ton. "This phenomenon stretches the energy used in making aluminum products, as a ton of aluminum yields two to three times more items than are obtained from a ton of other materials," according to Dr. Earl E. Patterson, who heads up Reynolds metallurgical research.

An example of Dr. Patterson's point is beer and soft drink containers. A ton of steel produces 15,400 steel cans, and a ton of glass makes 5,000 bottles, but a ton of aluminum results in 32,680 all-aluminum cans.

An article in the Reynolds magazine reveals many other

ways aluminum conserves energy.

Transportation of all kinds consumes 30 per cent of America's energy supply. The light metal cuts fuel consumption in all kinds of vehicles — aluminum highway trucks, automobiles with their aluminum parts, aluminum railroad cars, aluminum boats and ships with aluminum superstructures. The 1973 autos average about 78 pounds of aluminum per car.

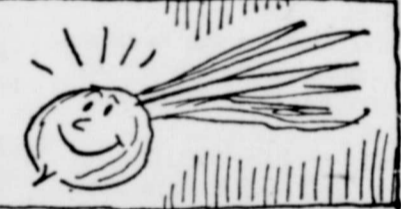

In heating and air conditioning, which take 27 per cent of the energy supply, aluminum insulation and ducts, because of their high heat reflectivity, cut fuel consumption.

Durable aluminum siding, windows and other construction items greatly reduce use of resources and energy in maintenance, repair and replacement. The article points out that aluminum will not rot or warp, and is immune to red rust, mildew and termites.

In cooking, the rapid heat conductivity of aluminum pots and pans — six times faster than steel, for example — conserves electricity and gas. In the refrigerator, foods in aluminum foil chill or freeze quicker than when wrapped in paper or plastic film, saving electricity.

The public depends on aluminum electrical cable for low-cost delivery of electricity to the home. Replacing expensive copper, aluminum cable has lowered everybody's electrical bills.

THE ONION IS A MEMBER OF THE LILY FAMILY!

He can make you a bonus offer.

The top pros get the bonuses. And, the tops in the Army are the Armor, the Infantry and the Artillery. Right now, when you enlist to serve in one of these elite outfits, the Army will pay you a generous bonus. It pays to go with the best. You choose the branch and the station. Besides you earn good pay and a lot of other benefits. See your Army recruiter.

WOODMEN TO MEET

The local Woodmen of the World Camp will meet on June 19 and set up plans for the Log Rollers Convention that will be held here on July 21.

Roy Martin, local president, said that Bob Kirk would be the main speaker at the convention.

REWARD NOTICE

A reward of \$500.00 will be paid by the Texas Sheep and Goat Raisers Association to any person (other than law enforcement officers) giving information causing the arrest and first conviction of any person or persons found butchering or stealing any sheep or lambs or goats belonging to any Association member in good standing. When 2 or more persons give information, the above sum will be divided at the discretion of the Board of the Association. When two or more defendants are involved in a single crime, the total reward is limited to \$500.00, but the conviction of one defendant, even though the other defendants are acquitted will entitle the claimant or claimants to said sum of \$500.00. All claims must be submitted within ninety (90) days following conviction. If upon conviction, a defendant confesses other thefts, no additional rewards will be paid. All decisions concerning the payment of such reward and the conditions of payment will be made by the Board of Directors of the Association.

TEXAS SHEEP & GOAT
RAISERS ASSOCIATION

SEMI-DRIVERS NEEDED

No experience necessary. Will train. Earn \$300.00 to \$400.00 per week. For application call (317) 639-6138, or write to Associated Systems, 1040 East Washington St., Indianapolis, Indiana 46202.

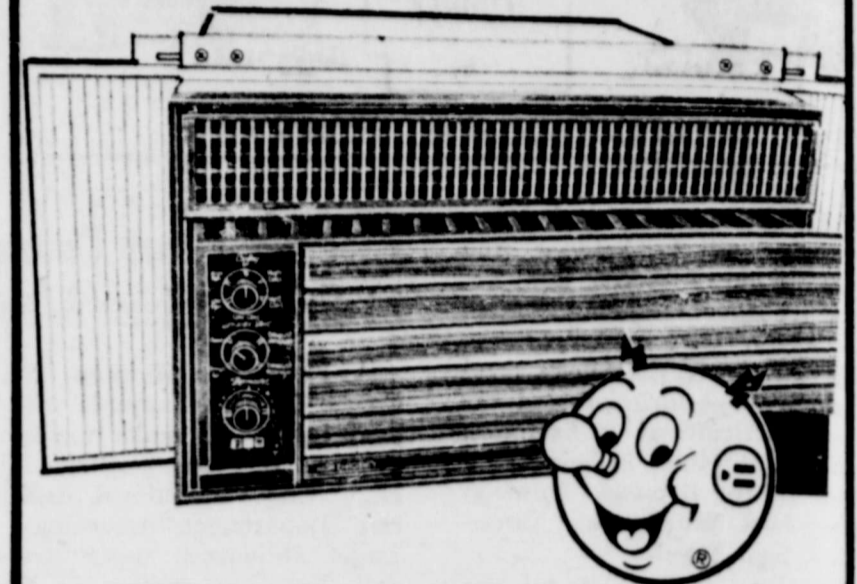

EXTRA INCOME PART TIME ADULTS

needed to inspect houses, talk to debtors, collect money, pick up credit cards, investigate, skip trace, etc. No experience necessary. No selling, pleasant work, good pay. You can be our representative for the area where you live. For application & full details send your name, address and phone number to: TRAYCO, 10715 Winner Road, Independence, Mo. 64052.

HOMEWORKERS WANTED IN THIS AREA: Men, women, students. No experience necessary; stuffing & addressing envelopes (Commission Mailers). Earn sparetime money at home. \$100.00 weekly possible, SEND \$1.00 (refundable) and long stamped envelope for details; PPS-901, 216 Jackson No. 612, Chicago 60606.

HOMEWORKERS NEEDED immediately! \$200 possible weekly stuffing envelopes. Rush 25 cents and self-addressed envelope to BJB, Rt. 2, Box 171, Springville, Ut. 84663.

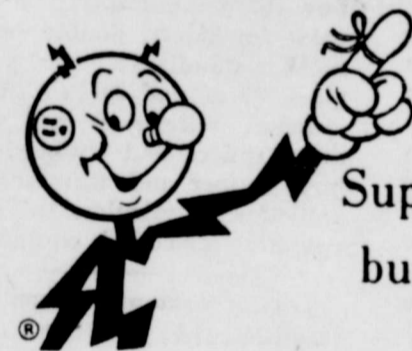

Reddy's helpful tips for your Room Air-Conditioners

- Set air-conditioner to maintain a slightly higher temperature than you might normally; each degree cooler than 78 uses substantially more energy.
- Clean the filter regularly.
- Close draperies, blinds and use shades or awnings on all windows exposed to sun.
- Use appliances that give off heat (ovens, dishwashers, dryers) during cooler times of the day.
- Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

NEWS OF SCIENCE

ENGINEERING FOR A BETTER WORLD

Bioenergetics, bioentrainment, bioenergotherapy, generic memory—scientific mumbo jumbo for ecology, right? Wrong! Translated, these words might sound more like dowsing, fire walking, mediums, levitation, faith healing and ESP, terms you might ordinarily associate with "hocus pocus" magic and occult. But not anymore. Engineers and scientists in Russia and more recently in the U.S. are taking these phenomena seriously while trying to explain how and why they occur and if there is practical value to these events. It's all called parapsychology.

At the recent International Convention of the Institute of Electrical and Electronics Engineers (IEEE), a team of American engineers described their investigations of parapsychological phenomena. With numerous referrals to Russian work in the new field, the group explained experiments to measure mental telepathy, to explain acupuncture, and to determine the effects of electric fields on human behavior.

One of the most widely heard-of forms of Extra Sensory Perception (ESP) is mental telepathy, the ability to pass information from one mind to another. ESP has three other subcategories—clairvoyance, direct passing of information from matter to mind; psychokinesis, mind over matter; and precognition, direct obtaining of information about the future.

Investigations both in this country and in Russia, parapsychology speakers told the IEEE audience, have convinced most researchers that one or all the forms of ESP exist. The Russians have conducted experiments with a woman who can move an object without touching it. They found that near the object that she moves there is enough electrical energy to light up a small fluorescent lamp. American scientists are seeking clues to clairvoyance and precognition.

While ESP is relatively easy to categorize, the phenomena associated with electromagnetic fields around living systems are much

more difficult to assign and analyze. The basic problem is measurement. How do you measure something that you can't prove exists?

One measurement method, discovered by the Russians, put a high voltage electric field around the subject which is then photographed with special film. This tech-

Dr. John Mihalasky, Newark College of Engineering, discussed parapsychology at IEEE INTERCON.

nique, called Kirlian photography, has helped to form some explanations of why acupuncture works. Kirlian photos show radiations around various body zones that coincide with acupuncture points. In fact a device called a tobiscope can actually find acupuncture points by using electronic circuits. To explain this, one American scientist postulates the existence of an unknown circulatory system in the body that seems to be composed of energy and electric fields.

Certainly the practical aspects of telepathy are intriguing and the possibilities in the biomedical areas are encouraging. But, all the benefits or parapsychological research are by no means obvious. As one engineer told the IEEE International Convention, "The potentialities of the individual human being are far greater than we ordinarily imagine them to be and far greater than the in-vogue models of man would lead us to think possible. We are finally beginning to discover some of these potentialities."

NEWS OF ECOLOGY

SCOUTS GIVE TRASH THE SACK

Three billion dollars! That's the estimated annual bill Americans are paying for public collection and disposal of garbage and solid waste — the third most expensive community service in the land, which is exceeded only by spending for highways and schools.

Concerned citizens, of course, can make significant contributions to cleaning up this national mess. As in Watertown, N. Y., where the initiative of the Environmental Systems Division of St. Regis Paper Company and a local Boy Scout Council is currently leading the way.

Recently, the more than 500 Boy Scouts of Jefferson and Lewis County launched an intensive environmental clean-up campaign to make their community a better place in which to live.

Soliciting the aid of the 30,000 homeowners in their area, the Scouts began their drive with the sale of St. Regis disposable refuse sacks. In addition to their 30-gallon capacity and convenience, these sacks were selected because — unlike plastic sacks — they will break down in sanitary land fill without adding to our ecological problems.

Watertown homeowners who purchase these sacks sepa-

rate paper, cans, rags, metal, returnable bottles and miscellaneous glass. Then, free of charge, the Scouts pick up the differentiated sacks and dispose of them in ways compatible to our ecology. Glass bottles, for example, are sold for recycling; bio-degradable trash is sent to land fill sites. Provi-

sions have even been made to tow away abandoned automobiles.

The best part about the program is that everyone profits. The community gets a cleaner environment; the Scouts get the credit for a job well done — and the modest proceeds from selling the sacks and whatever trash they can. . . for the support of other worthwhile Scouting programs.

Now — what are you doing in your community?

JERRI DEAN REED

Jerri Dean Reed, 17, Wreck Victim

The fourth victim of an automobile-tractor-truck crash in or rather near Denton on IS35 on July 2 was identified as Jerri Dean Reed, 17, daughter of Mr. and Mrs. William Arthur (Pete) Reed of Big Spring.

Miss Reed would have been a senior at Big Spring High School this fall. She was a popular member of the Meistersingers in the Big Spring Choral Club and took the role of Moonbeam McSwine in the high school musical of Lil Abner. She was working in Dallas this summer.

Other victims in the crash were Franklin E. Shelton, 21, of Suitland, Maryland; Mark Southard, 19, of Oxonhill, Md.; and Gerry Roberts, 19, of Lubbock.

Investigating officers said they were not able to identify Miss Reed for some time because she carried no identification on her.

The truck driver in the crash, Leonard G. Bowles, 49 of Downes, Kansas, escaped injuries.

Miss Reed was born December 23, 1957 in Big Spring.

Survivors, in addition to her parents, include two sisters, Mrs. James (Dorothy) Crowe, Dallas and Stacy Irene Reed, of Big Spring; two brothers, William Arthur (Pete) Reed Jr. and Kenneth Franklin Reed, both of Big Spring; the maternal grandfather, Frank Ward of Big Spring; and three nephews, Mark Crowe, Todd Crowe and Brandon Crowe.

NOTICE TO BIDDERS

Notice of Sterling County Intention to Receive Bids for the Restoration of the Sterling County Courthouse

SEALED PROPOSALS addressed to Roland L. Lowe, County Judge of Sterling County, Texas, at Sterling City, Texas, will be received at the office of the County Judge until 10:30 A.M. on the 14th day of July, 1975, for restoration and waterproofing of the outside surface of the Sterling County Courthouse.

The right is reserved by Sterling County to reject any or all proposals. All bids will be retained by the County and will not be returned to the bidder.

ROLAND L. LOWE
County Judge
Sterling County, Texas

Behind the 8-Ball

By the editor.

Due to the Fourth of July holiday and the fact that I had a breakdown of my linotype machine (the one that sets the type for the paper) I had to forego publishing last week — so this week's paper is two weeks in one again. Maybe it won't happen anymore. Let's hope so.

Directions for Packing and Shipping Heads from Suspected Rabid Animals to the Laboratory

Increasing difficulty to confirm a diagnosis of rabies is being experienced with the submission of animal heads for rabies examination when shipment by air takes as long as four days between shipping date and receipt. If at all possible, we recommend to those who use the State Department of Health laboratory service in Austin, that they USE THE VARIOUS BUS COMPANIES. Pack the animal head in a leakproof plastic bag. Enclose a second leak-proof plastic bag filled with ice or use water frozen in plastic bottles. An outside container of sturdy construction (styrofoam serves nicely and is inexpensive) must be used. Also, use packing material to absorb water in the event of leakage. The box should be securely taped down and marked, KEEP UPRIGHT—PLEASE. A note to telephone the Health Department Laboratory (454-3781 Ext. 313) on arrival, should be prominently displayed.

NOTICE

The Texas State Department of Health has established, in accordance with the Federal Public Health Service Act, the current annual level of uncompensated services for Sterling County Hospital, Sterling City, Texas, to be that the facility does not intend to deny anyone admission to the facility or any of its services because of an inability to pay. The documents upon which the determination was based are available for public inspection at the Texas State Department of Health, 1100 West 49th St., Austin, Texas from 9:00 A. M. to 4:30 P.M. on regular business days. The level of services set out meets the presumptive compliance guidelines of the Federal regulation.

HOMEWORKERS WANTED IN THIS AREA: men, women, students. No experience necessary; stuffing & addressing envelopes (Commission Mailers). Earn sparetime money at home, \$100.00 weekly possible. Send \$1.00 (refundable) & long stamped envelope for details to PPS-1038, 216 W. Jackson Blvd., Chicago, Ill. 60606.
