There is a critical decision to be made on November 2nd. It goes far beyond the question of which Presidential candidate can govern with integrity and honesty. We must determine which candidate has the ability and strength to lead our country out of economic chaos, and the vision to see that all Americans—not just the powerful and influential—have a better future.

During the past two years, the middle class has paid far too dear a price for a President lacking that ability.

Since Gerald Ford took office, the unemployment rate has risen 50%, from 5.5% or 5 million people, to 7.3% or 7-1/2 million jobless Americans. Today's inflation rate of 6% is higher than it was at any time between the Korean War and the inauguration of Richard Nixon. The 1968 food dollar is now worth 57c.

Mr. Ford's budget will account for more than 1/3 of the public debt incurred during our entire 200-year history.

And who is most affected by these distressing statistics? Not the Washington establishment, or the economic elite courted by the Republicans. The burden falls on the person who can least afford it: the average American. Jimmy Carter means to change all that. As President, he will make government responsive to your needs.

Tax Reform: "The average family in this country actually pays a proportion of their income in taxes that is twice as high as the average family that makes more than a million dollars a year. That's disgraceful. We need to move toward a truly progressive and simplified tax system, with reduced tax rates for the average American." Economic Aid: "We have a balanced budget now, and an end to the inflationary problems as long as we have 7-1/2 million people out of work. Employment needs to be the major thrust of the whole domestic policy of our government."

Government: "We now have in the federal government the most bloated, confused, wasteful bureaucracy ever created. There's no way to get an answer out of Washington and no way to understand what's going on there. We need to reform the executive branch of government, making it fair, efficient, effective, and responsive to the people's needs."

Housing: "No government that cares about its neighbors would stack the tax deck against them. A landlord can set a building run down, and make a good living on tax breaks. But when a home owner spends a little hard-earned money fixing up his home, the assessor raises his taxes. And the FHA no longer cares about families getting started in their own homes. I intend to reverse the FHA policy from the time when, for a down payment, a family could get a mortgage which the government would insure.

Health Care: "We need a national wide health care delivery system which will make adequate health care a right for all people."
Deposit. Money invested now will grow rapidly and insure you and yours of a happy future.

HOW WILL THE RISING COST OF AUTO REPAIRS
AFFECT THE COST OF COLLISION INSURANCE?
Rising auto repair costs have a definite correlation to future rates for collision insurance. Throughout the year, state Automobile Insurance Boards, all over the country, are meeting to examine and most probably reset collision rates. Rates are determined statistically on a pro rate basis according to surveys taken in the applicable geographic areas to ascertain what it will cost to repair automobiles in the present and near future. This cost will mark the course collision insurance rates must take in order to be feasible, both to the public and to the companies.

LET YOUR CHILD TAKE YOU THROUGH DENMARK

One of the questions you have asked is what tourists plan their vacation is:

"Where do we find a place where all members of the family can have fun and where prices fit our family budgets?"

The answer is easy. For tots and teenagers, for 20-year-olds to senior citizens, Denmark offers a variety of fans that can’t be found anywhere else.

Your children will be completely captivated by a visit to the miniature village in Odense, from July 1 to September 1, 1976. It features miniature buildings and is filled with miniature animals in a totally transportable enjoying a miniature.

At the Circus Building, Odense, Denmark’s biggest circus, presents world-famous elephant and monkey shows from April to September 28.

There are museums and libraries throughout the summer. There is a museum filled with vintage antique cars and motorcycles.

Denmark is truly a children’s wonderland. Of course, there are summer camps, riding schools and sailing schools. But what about the children’s traffic park with its Renaissonce castle Egeskov, erected in 1652, on the island of Funen? Not only is there a museum filled with vintage antique cars and motorcycles.
