No Raise Granted
Bamag, Inc.
The Bamag, Inc. natural gas company, serving Sterling City, was denied a rate increase Monday
by the Texas Railroad Commission.
The company had asked for a rate increase of $2 per McF-
thousand cubic feet.
The examiner did not allow an increase at all but said the company probably was due a
raise and should apply again in March, said Skipper Lively.
The company was A.C. Skipper, presi-
dent, and C.F. Apperson, vice president.
Appearing for the city against the
company were county commissioners
Ron Foster and Noel J. Reed, and
state Representative Grant Nelson.

Lively said that the company that provides the gas for the
local company, the Four Natu-eral Gas Company, has recently
gotten a raise of $2 per McF and
that Bamag could pass along this
to the customers.
The president said he believed
that he would withhold his decision for an
increase and file for permission
to take up his lines here after the
hunting season is over next year.

Social Security News

Social security checks should be cashed within a reasonable time after they are mailed, though there's no time limit on cashing them, according to social security officials here.

"If your check is lost or stolen, go in touch with your nearest social security office at once," a spokesman said. "It can be replaced, but it takes time. Handle your check carefully when you see it and when you know where it is while it's being replaced."

Social Security Administration officials say there are over 74 billion dollars in benefit checks so any and all lost or stolen items should be returned immediately.

THE LANGUAGE OF FOREIGN MARKETS

Competition for the foreign mar-
ket, "agent" in French, and "gelt" in German, money is bringing increasing numbers of American executives to visit distant lands in search of business.

Programme companies are realizing that the demand for the bilingual executive is growing. They have, therefore, begun adopting language training programs for their personnel.

Similarly, training of em-
ployees was done in class rooms.

But most com-
panies have found that the
busy businessman couldn't be tied down to a 10:10 class twice a week—nor an individualized approach to learning.

Employees of Control Data Corporation had an even more troublesome "limes" problem. Twenty-five em-
ployees of this computer company were being sent to Frankfurt to set up a system for one of the largest book German but couldn't, he pointed down to a sched-
ule, since they were needed when even coming from six different areas.
