Washington, November 12.—All the mentions of the Cabinent were present at the session to day. Several important subjects to be included in the President's message were discussed, and an interchange of optimize occurred referring to the alleged violations of the election laws, especially in Louisiana, during the recent elections, the United States Attorney for the State having furnished a list of cases alleging personal violence, intimidation, etc. The sentiment of the Gabinet was that all such violations of law should be examined with a view to pun-

error, to the Supreme Court of Tennessee, the principal question being whether the railroads named can be compelled under acts granted by the General Assembly in Tennessee in 1875 and 1877, to pay taxes upon their capital stock and appurtenances, when by their original chartem they were expressly exempted from taxation.

The internal revenue commissioner in his forthcoming report will oppose the proposed reduction of tax on tobacco from 24 to 18. cents per pound for reasons. 1st, because in the present low state of revenue from this source the money could not be spared. 2nd, because he considers it unwise and inexpedient to unsettle business interests by Congressional agitation of the question.

Talegrams to the Internal Revenue office report great success of the revenue raiders.

illicit distilleries have been captured and fourteen persons arrested.

It is believed here that Lord Satisbury in reply to Secretary Evarts is as carnest in his position thus the Canadian fishery award was made in accordance with the treaty of Washington, as Mr. Evarts is in maintaining an opposite view. The correspondence will not likely be concluded before the 23rd inst., when the award is due and when it will probably be paid under protest.

The Treasury yesterday declined to pay checks drawn by the commissioners of this district because the half million dollars heretofore advapced by warrant of the Secretary of the Treasury had not been accounted for. This account was, however, rendered to-day, and the vouchers filed therewith are being examined by the proper officers. Should they be satisfactory the checks of the commissioners will be honored
