A MINISTERIAL CRISIS IN STALY.

Rome, Dec. 4.—Yesterday's debate in the Chamber of Deputies lost much interest because of the absence of the Premier. Cairoti would not permit him to attend. The Opposition attacked the Cabinet regarding the recent lawless outbreaks and declared that complete order reigned in Italy until the Left came into office. The government wapporters said the threwing of bombs, organization of Barsanti clubs, and other lawless evils, are inherited from the Conservative government. The discussion is likely to continue several days and end by the government demanding a vote of confidence. Meetings in favor of the Igovernment are organizing throughout the country. A meeting, attended by 15,000 persons, was held in Millan last night. La Liberta states that 230 deputies are pledged to vote against the government, being a majority of 20. The progress made during the last year in refunding the public debt at low rate of interest, is very gratifying. The amount of 4 per cont. bonds sold during the present year prior to November 23, 1878, is \$100,270,900, and 6 per cont. bonds, commonly known as 5-20's, to an equal amount have been or will be redeemed as calls mature. It has been the policy of the department to place the 4 per cent. bonds within easy reach of every citizen who desires to invest his savings, whether small or great, in these securities. The best mode suggested is that the department be authorized to issue certificates of deposit of the denomination of \$10 bearing interest at the rate of 3.65 per cent. per annum, and convertible at any time within one year after their issue into the 4 per cent. bonds authorized by the refunding act; and to be issued only in exchange for United States notes, sent to the tensury by mail on otherwise Sinch a change for United States notes, sent to the treasury by mail or otherwise.
