NATIONAL CAPITOL NEWS.

SENATE PROCEEDINGS.

Washington, March 24.—Saulsbury's resolution calling on the secretary of the treasury for information concerning the negotiation of United States securities, the amount of interest paid, etc., was passed.

A motion was then made to proceed with the election of officers of the senate.

An animated debate here sprung up. Mr. Anthony said that nothing but a revolution would prevent the forcible conclusion of the election.

It was demanded that the officers be elected by a sweeping change of office, not because it is demanded by duty, but because partitioned as demanded.

As one who held in respect, if not reverence, the precedents and usages of the senate, he desired to enter his protest against the personal inconveniences to which they would all be subjected, and the disturbance of the order of business of the senate which would occur by an abrupt change of officers.

He mentioned the names of several officers of the senate who had never been disturbed in their official relations to that body.

Mr. Hamble followed Anthony, saying he hoped a party spirit would not run riot in the senate.

Mr. Wallace replied there was no intention to interfere with business or break down the life of the senate.

The majority only desired that the offices held so many years by Republicans should be filled by Democrats.

They had gentlemen abundantly qualified to fill them.

Mr. Conkling uttered his regrets at the fact that officers of the senate were to be displaced.

Mr. Bayard was impressed with the speech of Senator Anthony, as it contained much of historic interest.

He regarded as dangerous and degrading the rewarding of partisans with government places. It had entered the civil service of the country, unless it should be in a great degree modified, it would increase to the detriment of the good government.

Removal of the officers of the senate should be in consideration of the welfare of the country, dignity of the government and purity of its institutions.

The power of appointment to offices in the body had fallen to his party. He did not understand that it contemplated any such slaughter of innocents as was contemplated by the opposition.

Observation had shown that instead of the federal offices having been bestowed for the good of the country with capable and honest incumbents, they had been used for many years for the benefit of a single party.

Those here who now complained never neglected to fill offices with their party friends.

The debate was further participated in by Senators Beck, Blake, Hill, and others, and at a late hour the senate proceeded to vote on the resolution.

The resolution was carried by a vote of 23 yeas to 76 nays, the majority being in favor of the Democratic caucus.

During the debate on the motion to proceed to election of officers, a discussion arose as to the secretary of the senate.

Mr. Gorham, the secretary of the senate, was also responsible for a circular issued in May, 1878, by the national republican executive committee, and signed by him as secretary.

The circular contained a statement that contributions toward defraying the party expenses in the then approaching campaign.

It referred to the fact that in 1875 the secretary of the senate in 1875 was elected by the Democratic caucus.

The avowed purpose of the Democratic party was the revolutionary expulsion of the president from his office.

The bill was introduced providing for the transportation of convicts under contract.

A favorable report was received authorizing the purchase of the Alamo.

Bill defining official misconduct and prescribing punishment passed; also the bill declaring the enclosing of public domain a misdemeanor.
