THE CORPUS CHEISTI HARBON IS CLOSED.

It is now over six months since a steamer has been inside of Corpus Christi bay, on account of the closing of the Aramas Pass. I really think it has desire the old town good, as it has half-way awakened the old moss-backs doing business here, and they have now succeeded in getting an appropriation of \$35,000 from congress to open Aramas Pass, and some \$15,000 from the state legislature for the improvement of Copus Christi Pass. To the latter sum the city has added \$10,000, making it \$25,000 A dredge boat has already been purchased and is on the way down from Calveston. Soon work will be resumed on the bulkhead in the latter pass, and it is predicted that by the middle of summer a good channel of from ten to fifteen feet of water will be open by the pass. The channel will be free, and that ouerous tax by the ship canal on vessels by way of Aramas Pass., will be avoided. Then the improvement of the latter pass will allow the regular line of coast steamers to come in above, touch at Rockport, St. Mary's and Fulton, if they wish, and, after stopping at Corpus Christi, go on down the coast to Brownsville without going back through the Aramas. I was shown a map of the United States coast survey of both passes by Mr. L. M. Johnson, collector of curtouns, and it appears to me that the most practical plans have been adopted. It appears to me that the future of this town lies in her harbor facilities. All the railroads in the world will not bring in vessels loaded with goods for the interior and Mexico. Once the vessels at the wherves, then railroads will be needed to carry their cargoes inland.

where I arrived about 5 o'clock. I willies we a description of this place for my next letter, but will add that in appearance, at least, I was agreeably disappointed in the town. Not a human being did I expect to meet whom I knew but what was my surprise to be halled as agon as I got there by a voice—'hallos! Hans Alickle, whe're you going?' and sure enough there stood J. W. Tokins, of Piedras Plutas, about 15 miles west of this place. Mr. Tokar is one of the most successful business men and sheep-raisers in Duval county and I had met him while at Laredo. He is one of the county commissioners, and it is owing to such enterprising officials that Duval county owes its prosperity. SAN DIRGO,

H. M. S. PINAPORE AGAIN.

The Galveston Pinafore company, aided by several persons connected with our company, appeared at the Casino last evening to a fair assemblage of our best people. Without entering into a personal criticism, the reporter rather feels disposed to make a contrast as between the Galveston and our own company. The resident of the Expanse will remember that we urged our annateurs to take greater pains with their acting, remarking that acting without singing or singing without acting, in opera, destroyed its magic. While the Galvestonians do not compare to our company in so far as the singing is concerned, yet they manifest a greater degree of vivacity upon the stage, the acting is excellent, and the general arrangement and contumes are good. With such musical ability as is possessed by the San Antonio company, the Galvestonians would be hailed with applause on any stage in the country, while, if our company could be invested with the dramatic talent which characterized the acting last evening, the a invested with the dramatic threat which haracterized the acting last evening, the ame might be said on the other hand. hose who attended the performance were entrelly pleased. The operetta will be reseated this evening.

The Vance House.

On Thursday afternoon, last, the second ward school, comprising the classes of Missee Fisk, Carleton and Orider, held their annual pienic at the San Pedro springs. The children entered with a zest into all sorts of sports, until dark, when they were put en route homeward, very well pleased with thei holliday.

Fire men Pretest.

Fire company No. 3, colored, had a large meeting last evening at their hall, west of the San Pedro, and entered a protest against the recent move by the city council to resolve them into a hose company to be styled San Pedro hose company No. 1. The company claim that it is duly organized and chartered as a company of firemen, and its members say they will not surrender the name their organization has borne nor their charter for any other. They showed an inclination to do whatever duty might be imposed upon them as firemen, but under no consideration would they change their name. The chief of the company, William Logwood, was in structed to inform the mayor and councon council that they would not submit to the changes above referred to.
