EARLY YELLOW FEVER NEWS.

The Disease is Officially Pronounced Epidemic—Report of the Howard Association.

Suspicious Cases Reported in Mississippi—Cases in New Orleans for Ten Days.

NO NEW CASES FOR TEN DAYS.
New Orleans, August 9.—At a meeting of the sanitary association to-day, Dr. White, sanitary director, reported that no death of yellow fever had occurred during the last week, and that no person had been taken sick with yellow fever for ten days past, and that no case of yellow fever suspicious cases exist. The city is enjoying the highest degree of health. Dr. White, of the national board of health, concurs in the above statement.

TWO SUSPICIOUS CASES IN MISSISSIPPI.
New Orleans, August 9.—Regarding a reported case of yellow fever at Meridian, Miss., Dr. Koss says that an investigation showed the disease to be malarial fever. The case reported at Mayeville is being investigated by the national board of health authorities.

Victims, August 9.—A fatal case of yellow fever was reported yesterday at Mayeville, Miss., by the board of health. Considerable excitement exists there, but doubts are expressed as to the being a case of yellow fever. No other cases reported.

REPORT OF MEMPHIS BOARD OF HEALTH.
Chicago, August 9.—In answer to a telegram received by the Health Board of Memphis, Tenn., from the board of health of that city, the Memphis board of health reports that the total number of cases in this hour within the city limits, officially reported, is 220. Of this number 94 have died. In addition there have been about thirty cases and five deaths of Memphis refugees located within six miles of the city. The disease has not been reported in any of the surrounding towns, on account of the rigid quarantine. The fever has increased in Memphis very perceptibly in the past ten days and is spreading from its original center. We cannot hope for a discontinuance until at least thirty thousand persons have left, of whom twenty thousand are located in camps. James Matthews and Mark, situated four and a half miles from Memphis, have had three cases in camp, Mark, and one death. At least twelve thousand negroes are in the city, only one hundred have gone to the country. The board of health says that they are labeling those who attend to the sick as they are taken sick. Our only safety is in depression. In consequence of the fever spreading among the negroes, there is a growing disposition to go to the camps. Should their appeal to the United States board of health be met with a favorable answer, the negroes will not do more as soon as they get hungry. No one but a Howard visitor or physician of the city should attend to those people who are sick, in which they are taken sick, and too frequently die. We have at present 450 patients sick with various diseases. Two of these people we furnish nurses, medicine, attendance and food. About 200 have been discharged. Our expenses are about \$500 per day, and will probably increase. We have on hand \$18,000. This amount does not include the amount of the negroes that have followed the example of the white people, and left the city. We hope to be able to furnish them with food and clothing. We will do so to do so. The sanitary condition of the city is excellent.

FAVORABLE REPORT.
Meridian, Miss., August 9.—The city and county boards of health and representatives of the state board examined the case of supposed yellow fever at this place several days ago, and agreed to issue a certificate of health. The patient is now up and the excitement is entirely subsided. There are no more cases of this disease.

UNUSUAL COOL WEATHER IN MEMPHIS.
Memphis, August 9.—Up to noon today fifteen cases of fever have been reported to the board of health, but within the hour the number of cases reported was reduced to five. The weather during the night was unusually cool, and the temperature fell to 64 at 12:30 p. m., it marked 75. Mr. Moore is considered out of danger.

YELLOW FEVER OFFICIALLY PROHIBITED.
Memphis, August 9.—Six more cases were reported this afternoon, all colored, and an additional eighteen cases were reported after the city had been declared free of the disease. The board of health has issued a certificate of health. Two deaths have occurred since noon—Edward Taylor and L. Roberts, both at the city hospital.

THE FEVER GRADUALLY SPREADING, and Only the Depopulation is What Saved Memphis from a Repetition of Last Year's Scenes.

Special Dispatch to the Daily Express.
Memphis, Tenn., August 9.—The fever is gradually spreading from the three centers of infection, with few intermissions in other parts of the city. There have been three hundred and forty-four cases and ninety-four deaths since July 10th. The prompt and rapid depopulation of the city saved Memphis from a repetition of the scenes of last year. The poor of Memphis are suffering for want of food and medical attention; because they refuse to go to camp, and nations will not be sent to the city. The negroes generally refuse to go to the camps, and have sent out representatives to solicit aid. Dr. Cobbin, of Mobile, presented a plan this evening to the committee of safety for stopping the progress of the epidemic. He is too late, and all that can be done now is to continue to send out those liable to the disease.

FROM THE STRICKEN CITY.
The Fever Gradually Spreading, and Only the Depopulation is What Saved Memphis from a Repetition of Last Year's Scenes.

Special Telegram to the Galveston News.
Marshall, August 9.—F. M. Nugent, who is too much married, is wanted here. He has married an estimable widow, Mrs. Rep. Taylor, here a few months since, and then afterwards ran off with a daughter of a section foreman on the Texas and Pacific railway, and led an adulterous life. He is said to have one more wife, certain one Austin, and perhaps another in Louisiana.

The first trial for violating Sunday law here was held to-day. The defendant, John W. L. Pope, for defendant. The light between Mr. A. E. Steadman, for the state, and W. H. Pope, for defendant, was a very close one. The jury returned a verdict in favor of the state, and the defendant was fined \$25.00.

King Alfonso Narrowly Escapes Death—Big Fire in Turkey.

The First American Man-of-War Enters the Black Sea—Prospective Cardinals.

BOASTED TURKEY.
Saratoga, Turkey, 9.—The fire which broke out in this city yesterday, was extinguished at 8 o'clock this morning after tremendous exertions by the men of the partition. Help is urgently required for the houses, who are now estimated to number thousands of persons. Three soldiers of the partition were killed. Some of the newspapers declare the fire was caused by Mohammedan fanaticism.

THE FARMER'S DREAM WAS "BOOM."
London, August 9.—The Liverpool Observer says the Panama canal shares are quoted in Paris at five francs below par, and public buyers are scarce. The Times financial correspondent says the market will probably be in some quarters in the money market.

TEXAS COMPARES UNFAVORABLY WITH LAST YEAR.
LOUISIANA, MISSISSIPPI AND ARKANSAS.
Louisiana, Mississippi and Arkansas send cheering reports.

TEXAS REPORT.
Galveston, August 9.—The Galveston cotton exchange reports the weather here hot and dry in 37 counties; some rain has fallen in 18 counties; very copious rains in 7. It is estimated that the cotton crop is exceeding 5 per cent. in the average; no land has been abandoned in 56 counties. This year's cotton crop is reported to compare with last year more favorably, 27 less favorable, 13 the same. The plant has been formed and blossoming well in 25 counties, but in 12 counties there is complaint of shedding in most of them for want of rain; 36 counties report not forming or blossoming well. The present condition of the crop is reported to be favorable in 18 counties, less favorable in 23; about the same as last year in 12. The country looks dry and weather having cooled, the hope to mature more rapidly and open much earlier than any season ever known before, the picking commenced very much earlier than usual, and the early receipts are reported to be unprecedently large at the expense of the later months.

LOUISIANA REPORT.
New Orleans, August 9.—The Louisiana report was completed on the 25th of July. It shows that the crop is reported to be favorable in 18 counties, less favorable in 23; about the same as last year in 12. The country looks dry and weather having cooled, the hope to mature more rapidly and open much earlier than any season ever known before, the picking commenced very much earlier than usual, and the early receipts are reported to be unprecedently large at the expense of the later months.

MISSISSIPPI REPORT.
Meridian, August 9.—It is stated that at the next meeting of the state board of health, at Vicksburg, Mississippi, will be created a committee to investigate the epidemic.

KING ALFONSO'S NARROW ESCAPE.
Madrid, August 9.—Full accounts of the accident to King Alfonso on his way from Escorial to Sagunto, on the 28th inst., are given in our issue of the 8th inst. It is stated that he and the Princess Asturiana, who accompanied him, had an exceedingly narrow escape. The position continued to reverse the vehicle to the opposite side of the road, but he escaped unhurt, and the whole party must have been killed.

PROSPECTIVE CARDINALS.
London, August 9.—It is stated that the next meeting of the state board of health, at Vicksburg, Mississippi, will be created a committee to investigate the epidemic.

THE FIRST AMERICAN MAN-OF-WAR ENTERS THE BLACK SEA.
Constantinople, August 9.—The frigate Wronski, with the American flag, is reported to have entered the Black Sea. This is the first American man-of-war that has ever entered the Black Sea.

PROSPECTIVE CARDINALS.
London, August 9.—It is stated that the next meeting of the state board of health, at Vicksburg, Mississippi, will be created a committee to investigate the epidemic.
