Our people in matters of this kind, as evidenced at both the election on the constitutional amendment, and on Monday last, that we have a few skillful manipulators, with a few hundred dollars at a special election, or a few millions at a general election. It is the people who get punished severely a time or two in this way, they will therefore pay a little more attention to their interests.

Tom Scott, who has just returned from Europe, denies that one object of his European tour was to secure capital aid in the building of the Texas Pacific. He says that he was merely a tourist, and that he had no business transactions in the United States.

San Antonio, with its large back country which is being rapidly settled up, presents to business men a fine chance for investment in various enterprises. As our maximum trade will not be exceeded for many years, and is increasing steadily from season to season, it is natural to expect that the city and its suburbs will be rapidly developed. It is a fact that in the face of the fact that our freight charges by the Galveston, Harbinger and San Antonio railway company have diverted a large amount of government freight to that port, and will shorten the distance to Dallas, Fort Worth and other points north of San Antonio through the board of trade, and by competing lines of railway from this city leading north, or to the Gulf. General E. O. Col, our department commander, is also having a new road from Fort Worth to San Antonio, which will save over a hundred miles in the distance from San Antonio to that port, and will shorten the distance to Dallas, Fort Worth and other points north of San Antonio through the board of trade, and by competing lines of railway from this city leading north, or to the Gulf.
