The San Antonio board of trade will hold its annual election this evening, and it will probably prove the most important meeting of business men held in this city for years, because of the interests involved.

It is expected, also, that at the meeting this evening the question of obtaining relief from the excessive freight rates will be brought up again. It is worth noting in connection with this matter as it has been treated in the past year or more, it is damaging.

It is useless to cry out against the freight railroad. It is useless to claim that it is the author of our business misfortunes. No man can successfully contend against the fact that the San Antonio market has suffered in the last few years.

It is a fact, however, that the freight railroad has not reached the point where it is now, but that it is being contemplated by the present and prospective owners of the property.

A Washington special of September 29th says there is good foundation for the rumor that the president-elect will be in San Antonio in the latter part of the month.

The question before the Louisville Courier-Journal and the Cincinnati Gazette, over the question which state, Ohio or Kentucky, contributes the most crimes and criminals is yet far from over.

AN ASTONISHING DISCOVERY. An instantaneous and perpetual fire without wood or coal. A correspondent has sent a startling letter from New York, dated last week, in which he describes a recent scientific invention, just patented, and destined without doubt to play a very important part in our country's history.

A RAILROAD FROM BROWNVILLE

It may not be generally known that Brownsville, Texas, has a railroad, but it is a fact, nevertheless, a road from that place to Point Isabel, about thirty miles.

The San Antonio board of trade will hold its annual election this evening, and it will probably prove the most important meeting of business men held in this city for years.

Tax announcement is made that a daughter of the late Dr. J. G. Ayer, of Vegetable Extract and Cherry Pectoral notoriety, is to be married in Paris next month.

A Republican Specter. At St. Louis, Republicans. Some of the republican papers are just now occupied with what they pretend is a democratic scheme to secure the election of the next president by unfair means.

It is expected, also, that at the meeting this evening the question of obtaining relief from the excessive freight rates will be brought up again.

It is a fact, however, that the freight railroad has not reached the point where it is now, but that it is being contemplated by the present and prospective owners of the property.

Mr. C. E. Tyler and Mrs. Hubby, whose husband is in the Milan county jail, run away from that county and were married at Bryan. They then took passage for Georgia.

The child which Mrs. Lee laid in her arms when she was killed at Pann's campmeeting, near Georgetown, was, singular enough, the mother gave up her own life to save her child.

Saturday, Oct. 4, Hays, city marshal of Palestine, shot and killed James Quentary, one of the Dr. Grayson murderers, who had been in the second of the Rogers Rogers has killed.

Last week at Columbus, Haywood Brown, colored, incarcerated for insanity, had sense enough to look up his jailer and make his escape, although both parties and returning the Colorado.

It is stated on good authority that the Illinois Central intend taking hold of the New Orleans and Mobile line and building it from Pontchartraine, via Baton Rouge, La., to Marshall, Texas, via Alexandria.

A. D. Rust, a well known farmer and geologist of Tarrant county, has disappeared from his family and home, who fear foul play, as he had a considerable sum of money at the time he left.

While Luke Stanford, of Shelby county, was going to church last Sunday, his little child fell out under the wheels of one of which he was driving, stripping off the scalp, but not killing the child.

Tea Ship News. The clipper tea-ship rose from China to London has become almost obsolete. Great interest attached to them, and large sums of money were invested in them.

From Hankow to the mouth of the Yangtze is a direct and important waterway in a tortuous and dangerous channel, and for this distance there are no canals.
