The cost of the hall was, properly speaking, \$10,000, upon which the sum of \$3,000 has already been paid. The assets of the association are \$21,000, and its liabilities but \$11,000. The present membership of the association is 200, and its sources of income are monthly dues, rent of hall and additional rooms. It is evident from the above figures that the organization is in a most healthy condition. Its way for future prosperity is elser and defined. The organization has many reasons to rejuice, and the anniversary of the completion of the new hall must certainly be an occasion of new hall must certainly be an occasion of special rejoicing. The exercises this even-ing will be of a combined, social and literary
