You can get a pair of spectacles that will keep your eyes in as good condition forever after as when you first use them. These Medicated Glasses have been thoroughly examined and analyzed by Prof. Berger, the great French cealist, and Dr. Carl Hollander, the framous tierman cealist, and pronounced as far superior to any glasses as vet made, and recommended as the only glasses to be used to save the eye. American occulists claim that the Medical Glasses have no equal and can in some cases restore the eye to its original sight when used to time, and in no case can the eye become impaired by the use of these glasses, if properly a lapted, for the following reasons:

1. The chemicals soften the light to the eye, completely doing away with that threoome season that is experienced in using glasses after one or two hours' mas.

2. The medicated propenties contained in the glass make as hard as a diamond. It will retain its polish and never become dull or dion, hence you will always see through it as bright and clear as at first.

3. The chemicals keep the glasses cold as ee—result is your eptle nerves are always exed, doing away with any feverials sensations to the eye.

4. These glasses have no equal for night reading or sewing. With them you can sit up all night, and the light has no effect on the eye, with no tires one accusation whatever, which necessarity continues to improve the eye.
