

Thursday Morning, June 10, 1922.

TERMS OF SUBSCRIPTION: One copy one year, \$10.00; one copy six months, \$6.00; one copy three months, \$3.50; one copy one month, \$1.00.

It is pointed out in the course of the article that the surplus of everybody here, figured from a measure upon the profits of his employer. If the profits are large, good wages are paid and promptly, and if the profit is shown, the workmen have to lower their demands, or the business ceases and the men get no work at all price.

DISPUTED TERRITORY.

A Washington special to the Cincinnati Commercial says: By looking at the map of the United States, a small scope of country will be noticed to the northeast of Texas, lying between the two forks of the Red river and bounded on the west by the 100th meridian.

The Washington correspondent is mistaken as to the nature of the dispute between the United States and Texas in respect to the territory referred to as the disputed territory between the two forks of the Red river, but it does not arise from a misunderstanding as to the exact terms of the original treaty with Spain.

THE SAN ANTONIO WOOL MARKET. The Banderita has expressed in general terms, on more than one occasion, his dissatisfaction with the manager in this wool commission.

At least one other party up for the race for lieutenant governor, Cal. John T. Coffey, of Georgetown, as a lieutenant-governor he may do, but as a beverage, coffee is not a favorite with the party generally.

Wendell Terry approached the senatorial throne, in the 24th district, with his hair black and sparkling his tail and snapping his heels.

Common sense is so scarce at San Francisco that if a man can be found or placed under the influence of drugs or liquor he will become unrecognizable.

It is believed he will rally the entire democratic party, and will not doubt be elected by a majority of forty thousand. He has high character and great personal popularity.

THE WORKINGMAN AND THE TARIFF. Our evening contemporary, the Times, is making a determined fight against protection, and declares in effect that labor realizes no benefit from the protection policy.

THE CHICAGO INTER-OCEAN indulges in this bit of sarcasm at the expense of congress. "There has been no deputy of congress," the inter-ocean says, "in the hands of our public discussions."

CHARGE IN GOSSALE COUNTY the people are not of a sympathetic nature when cattle brand blotches are under consideration. A correspondent of the Veterans Advocate of Saturday last says: "A high-couraged jury in Gonzales on Tuesday figured a reckless herder of cattle into a small fine of ten thousand three hundred and fifty dollars."

It is necessary for his welfare to sell, and the factory operative, therefore, depend in a great measure upon the profits of his employer. If the profits are large, good wages are paid and promptly, and if the profit is shown, the workmen have to lower their demands, or the business ceases and the men get no work at all price.

The stewards of Pennsylvania are endeavoring to whip in the republicans of that state by preaching that democratic success means no tariff, but the New York state, the most inveterate enemy of our present tariff, responds to this as follows: "It is a simple, flat-footed, unmitigated lie to say that there is no tariff, or no tariff for there is not a prominent and avowed democrat in the United States who would not support a tariff which would abolish all tariff revenue taxes."

These free trade papers, therefore, would be doing the country better by joining with the Tariff Excesses in demanding a revision of the tariff laws in such a manner as will give a reasonable protection to all our industries. If a full investigation of the facts and circumstances show that certain industries are necessary to enable them to compete with reasonable profit with similar manufactures of other countries, the tariff on such goods should not be attempted to destroy the whole system because of a few defects.

THE SPLITTING OF THE RIVER. The Washington correspondent is mistaken as to the nature of the dispute between the United States and Texas in respect to the territory referred to as the disputed territory between the two forks of the Red river, but it does not arise from a misunderstanding as to the exact terms of the original treaty with Spain.
