Thursday, October 10, 1985

**DUO HOSPITALIZED FROM ACCIDENT**--Shortly after 11 p.m. Monday night, police and ambulances were summoned to a one car accident about four miles west of Muleshoe on Highway 84. The car shown at the left had left the highway and slammed into a concrete culvert. DPS Trooper Jim Cook holds a flashlight, far right, as EMT Larry Rasco works on one of the victims, while EMT Wayne Wauson is administering emergency treatment to another victim who is still in the vehicle. Both were still hospitalized at presstime at West Plains Medical Center, with 'severe lacerations, contusions and multiple trauma' according to Director of Nursing Trina Wilson.

## Wet Weather Stops Harvesting In Area

### October 26; Special Day For Mules

According to Toni Eagle, "the Chamber of Commerce and Agriculture urges everyone to become better acquainted with the beautiful animal that Muleshoe is named for. October is a big month for the mule, as it marks the 200th year of service of the mule."

George Washington began the tradition of U.S. Mules when he was given two jacks by the King of Spain in 1785. Washington's breeding experiments produced the American mule. Since this time, the Mule has been a major factor in the history of the United States.

Congress has declared October 26 as "Mule Appreciation Day, U.S.A." The Chamber, through its manager, said they would urge everyone to visit one of the mule breeders in the area or read up on the mule at the library.

Activities are being planned by local clubs to 'show-off' the Mule, and you are urged to participate.

Mrs. Eagle said to help celebrate this special month, the Chamber has every day and special occasion cards from Muleshoe for sale. In the Chamber office now, are the birthday cards, Halloween cards, and scratch pads.

Soon to be on hand are all holiday cards, anniversary cards, and note cards. For something special, Mrs. Eagle suggests you drop by the CofC and pick up a pack of cards. A single card is 75 cents; and a package of eight is \$5 or less than 65 cents a card.

Grey, leaden skies continued to threaten more rain at mid-week as the northeast corner of Bailey County was still being inundated with rain.

Tuesday and Tuesday night, an additional 1.01 inches of rain was officially recorded here, with more rain predicted by the National Weather Service for Thursday and Friday.

Accompanying the rain was the usual "rash of accidents" as inattentive drivers attempted to drive on rain-slick highways as though they were driving on dry pavement.

School buses found the 'going tough' as many could not make their regular runs, and parents had to pick up and deliver their children to pavements.

Of course, all harvesting operations came to a screeching halt as the rain soaked fields

prevented the harvesting of corn, sunflowers and grain sorghum.

It was reported that some corn was beginning to fall, and cotton was feeling the effects of the prolonged cool, wet weather. Grain sorghum was also beginning to show effects of the rain as well, according to many feed grain producers.

Most of the current rain was confined to the northeast corner of Bailey County, and in the Lazbuddie area in Parmer County.

DPS Trooper Lacie Kirk and his partner, DPS Trooper Jim Cook found themselves very busy with the usual rash of accidents which accompany wet weather.

Late Monday night, Trooper Cook investigated an accident about four miles west of Muleshoe on Highway 84, not weather related, which left two young Clovis residents hospitalized with varied injuries.

This was followed by an early morning rollover of a pickup from Waco, which left one victim, a passenger in the pickup, injured.

Around mid-morning Tuesday, a Highway Department truck, with a low-boy and front end loader overturned in the median about four miles east of Muleshoe on Highway 84. The driver and a passenger were uninjured. Trooper Kirk said both were wearing seat belts.

### Burning Wires Bring Firemen To Newspaper

Around 4:30 p.m. Monday, Journal employees called the Muleshoe City Police Department and requested 'one fireman' to come to The Journal offices to help find the source of a strong smell of burning electrical wiring coming from the attic of the building.

Responding were a fire truck and around 10 firemen, who went to work quickly in an effort to find the source of the burning wires.

They traced the potential fire to two adjacent light fixtures with 'very hot wires.' At no time was there any blaze in The Journal offices.

The firemen disconnected the light fixtures while work continued as normal in the newspaper office. An electrician was called to replace the light fixtures and check all other wiring in the building.

## DHT Helps Traffic Problems In District

Last year, 107 persons were killed in the 17-county Lubbock District, according to Mel Pope, district engineer, State Department of Highways and Public Transportation, of Lubbock.

"Alcohol, speeding and not wearing seat belts continue to be our greatest problems," said Pope. "Here in the Lubbock district, which includes 17 counties surrounding Lubbock, we had 10,669 accidents."

There were 166 accidents in Bailey County, alone, six of which were fatal, with eight people being killed during 1984.

The number of accidents and fatalities in this area is cited as the reason the State Department of Highways and Public Transportation (DHT) will be working more closely with local traffic officials, police departments, the schools, and education for the community as a whole, said Pope.

The city of Lubbock has a grant of \$59,209.00 this year from the department for a DWI Selective Traffic Enforcement Project (STEP). These funds are used to pay the salaries for personnel at 20 specific locations in Lubbock where a DWI problem exists. There is a proposed contract for the next fiscal year, in which the state will participate in the STEP program with \$31,195.

Lubbock County has a grant for \$21,799 to assess the problem of processing DWI cases in the county. A proposal for expansion during the next fiscal year is under consideration. Jim Freeman is the coordinator for this project.

The Health Education Department at Texas Tech University has a grant from the DHT for \$50,867 for this year, and there is a proposed grant for \$38,153 for the 1985-86 fiscal year, to educate the public on wearing seat belts in a 9-county area surrounding Lubbock. Education reinforces the laws recently

passed. Elizabeth Elias is the coordinator for the seat belt project at Texas Tech.

In 1983 an alcohol education kit called "No Power" was distributed to junior high schools in the District Five area. This kit was designed to help young students resist the peer pressure to drink and to educate them on the dangers of the drinking/driving combination. A

## Big Race To Precede Circus

Ford Bros. Circus is due to arrive in Muleshoe early Sunday morning, October 27, and acres of canvas, including a large big top, will be erected at the Boy Scout Grounds on South Main St.

A spokesman said the circus will be unloaded between 7 and 8 a.m. and the big top will be

pulled into the air by elephants between 9 and 10 a.m.

The Muleshoe Chamber of Commerce and Agriculture is sponsoring the circus in Muleshoe. At the time the circus was booked to come here a couple of months ago, Gerald Reid, president of the CofC and Toni Eagle, Chamber manager, asked Clea Williams to ride one of the two elephants in the elephant race preceding the circus. She accepted and Reid volunteered Mike Raider, KMUL D-J, as her opponent. Although Raider was informed at the time, he has never made formal acceptance of the informal challenge.

On Monday, Raider received a letter, reproduced below: "Dear Mike:

"As per our three way telephone conversation following 'Coffee Time' Saturday morning, consider this my official challenge to you to race against me on the elephants preceding the circus scheduled here in three weeks.

"Knowing how you hate to lose -- and I plan to win -- race me if you dare.

"Sincerely,  
"Clea (Williams)  
"cc: Gerald Reid  
"Toni Eagle"

### New Winners For This Week For Contest

Once again, after carefully tabulating all the entries in the weekly football contest, three new winners emerged.

This week, the contest was apparently easier for most contestants, as each of the three top winners missed only four games, thus bringing in the double tiebreaker to determine the winner.

On the basis of the tiebreaker score, Mrs. John (Kathleen) Hayes, who usually comes in for her share of the prizes each year, won first place. She missed four games, but was only a total of 19 points off on the tiebreakers.

In second place, also missing four games, was Kenneth King. He has also been consistent in past years. However, his tiebreaker point spread was 33 points.

Winning third place was Scott Calvert. He, too, missed only four games, but his point spread in the double tiebreaker was 45 points.

A 'whole flock of folks' missed five games, just one too many to put them into convention for a win, at least for this week.

At presstime, Raider still had not accepted the challenge to race against Clea Williams, preceding the circus. What may be prompting his hesitancy is unknown at this time.

Performances of the circus are scheduled for 1:30 and 4:30 p.m. on Sunday, October 27.

Advanced sale, reduced price, tickets for the circus have gone on sale at this time, and are available from the CofC office at the Muleshoe City Hall, or from any board member. These reduced rate tickets are available only up to the day of the circus.

Ford Bros. Circus will be travelling over 25,000 miles this season, showing in over 225 cities in 23 states and four Canadian provinces, said a

## Mules Plan For Invasion Of Wildcats

Friday night, the Muleshoe Mules will be hosting the Idalou Wildcats, who will be coming 'fresh' off an upset victory over the powerhouse Littlefield Wildcats last Friday.

Littlefield fell in district play for the first time in 28 games Friday night. They lost a district game to Muleshoe on October 26, 1979, by a score of 16-3, and that was the last time the team went down to defeat in district action.

Idalou has now taken the league lead, and will be battling to protect that lead when they arrive in Muleshoe this week. The Wildcats maintain a district record of 2-0 and a season record of 4-1 at this point.

At the same time, the Mules are still looking for their first win of the season. They are 0-5 in season action and 0-2 in district play.

No great surprises are anticipated for the Friday night game, as the young football players take to the field. Head Football Coach Dale Keeling has a game plan that he expects his players to 'get down pat' and will be staying with his game as planned, and the players work steadily together.

Also this Friday, Dimmitt will travel to Littlefield, after falling to Tulia 14-10 last week; Floydada will be traveling to Friona, after Friona fell to Morton, 20-14 last Friday night and Tulia will be open.

Make your plans now to be at Benny Douglass stadium Friday night to watch the Mules and the Wildcats tangle.

### Around Muleshoe

The Journal received the following note from Henry Honea of Amarillo on Tuesday morning:

"TO ALL OF THE PEOPLE OF THE 31ST SENATORIAL DISTRICT: Due to the discontinuation of the Sarpalius Mobile Office, I will no longer be seeing you in that capacity. Therefore I would like to take this opportunity to say Thank You for your help and friendship over the past four years. It has been a pleasure having served you."

Members of the Muleshoe Fire Department Auxiliary are currently selling two-year pocket calendars.

To obtain your calendar, call Becky Churchman, Mary Wauson or Barbara Reeder.

The Moonlight Extension Homemakers Club is accepting applications for booth space at their seventh annual Arts and Crafts Bazaar. The Bazaar will be held on Friday, December 6 and Saturday, December 7.

Since space will be very limited, if you are interested in reserving a booth, please contact Linda Huckaby at 902 West Eight St., Muleshoe, TX 79347.

The Muleshoe Chamber of Commerce and Agriculture will again sponsor the Halloween Decorating contest. Toni Eagle, CofC manager, said the contest will begin this week and the winner will be announced on October 29. Homes and businesses will be judged, she said.

Mrs. Eagle also said the winner will be determined by the number of votes cast by calls to the Chamber office. She concluded that the Chamber urges everyone to "spook up" their office, business, or home.

Texas Migrant Council will be continuing registration of children from the ages of two and a half to five years of age.

Cont. Page 6, Col 1

**ELECTRICAL FIRE**--At mid-afternoon Monday, Muleshoe firemen were summoned to the E.W. Locker home on the West Camp road for a house fire. The firemen found the roof and back of the garage burning, from an apparent electrical short caused by high wind rubbing an electrical line against the garage. No damage was done to the Locker home, just to the garage area.

**DANCE STUDENTS**—Kia Morris, daughter of Mr. and Mrs. Bill Morris, (second from left) was selected as September Student of the Month at Muleshoe School of Dance. (From Left) Staci Light, Kia Morris, Tiffany Balderas, and Lauren Ray.

## Time Management Requires Seasonal Adjustments

In an effort to gain better control of their time, people often make daily or weekly schedules, only to be frustrated when so many things come up that were not in the original schedule.

"We sometimes make unrealistic schedules, but often the problem is simply forgetting to make seasonal adjustments," says Mary Clayton Nance, a resource management specialist with the Texas A&M University Agricultural Extension Service.

### Kia Morris

### Named Dance

### Student Of Month

Classes have been going strong during the month of September, at Muleshoe School of Dance. Students of all ages, boys and girls are enrolled.

Kia Morris, daughter of Mr. and Mrs. Bill Morris has been selected as the September Student of the Month, by Sheri Hawkins, Director of the dance program.

She has attended every weekly class and has shown much improvement according to her instructor. Kia is five years of age, has a twin brother and says she enjoys swimming and dancing. "She is one of the many leaders in her dance class" Mrs. Hawkins continued.

"The fall semester dance classes will continue through May '86 at 219 E. Ave. B. and Mrs. Hawkins encourages everyone to go by and see the talented youth of Muleshoe.

"Time is a resource, similar to money," she observes. "Just like back-to-school and Christmas expenses can strain a weekly budget, yard work, holiday preparations and other seasonal activities can play havoc with a daily schedule."

Financial advisors suggest that people plan ahead for seasonal and unanticipated expenses by setting aside money on a regular basis so it will be there when needed.

A variation of that idea can also work for time management. Although specific chores can't always be spread evenly over the year, planning ahead can help even out the work load, Nance points out.

For example, the week of your child's birthday or a two-day business trip may be easier on you if you postpone regular weekly chores, such as lawn mowing or vacuuming and cleaning the floors, to the next week. This will create the extra time you need for shopping or errands associated with these special events, says the specialist.

"Accomplishing one thing often means a trade-off with something else which will have to wait," Nance remarks.

Before giving up on a time schedule, she recommends checking to see if you have made allowances for seasonal activities. If you plan to clean the house every Saturday, but fall Saturdays going to football games, you need a revised plan for the season.

"Schedules are to help you feel in control," Nance says, "but when the schedule controls you, it's time for a new plan."

## Clogged Gutters Cause Property Damage

Clogged gutters probably cause more damage to houses than any other single maintenance problem.

"When gutters are clogged, water can back up under the roofing," says Dr. Peggy Owens, a housing specialist with the Texas A&M University Agricultural Extension Service.

"Once the water gets inside the roof, it will be absorbed over time by the house material -- the insulation, gypsum board and plaster," she explains. "All this moisture may create termite problems as well as walls that are rotted through."

Owens recommends checking the gutters two or three times a year, usually in the fall and again in the spring, to make

sure they are free of branches, leaves or anything else that may block the flow of water.

This is also a good time to clean out the downspout strainer, says the specialist. Above every downspout should be a wire-cage strainer to stop large debris from entering.

"If the gutter doesn't have a downspout strainer, install one," Owens recommends. "They cost less than a dollar each and can save the messy chore of disassembling and cleaning a clogged downspout."

Once you have cleaned the gutters, she recommends checking the flow of water by filling the gutter with water from a bucket or garden hose.

If the water doesn't flow,

flows sluggishly or flows the wrong way, you should increase the slope of the gutters toward the downspout. This type of minor slope adjustment can be made by bending the gutter hangers, says the specialist.

A water test will also give you a chance to spot rough spots in the gutter that may trap debris, or holes and loose joints.

"Catching and curing gutter problems when they are small insures that routine gutter

### ONE MINUTE SPORTS QUIZ

1. Name the college football team rated # 1 by the preseason AP poll.
2. Bobby Wine was recently named as manager of what pro baseball team.
3. Name the pitcher who became major league's first 20 game winner this season.

Mrs. J.D. Bayless

Mrs. Orphus Fort of Brownwood visited in the home of Mr. and Mrs. Bill Key Sunday, also Mrs. Mamie Adams, Mrs. Bonnie Long and Mr. and Mrs. Bobbie Adams visited with them.

\*\*\*

Rev. and Mrs. Gerald Moore of Las Vegas, New Mexico were supper guests in the home of Mr. and Mrs. Clifford Snitker Sunday and spent the night with them. They had been to her 50 year class school reunion at Vernon, Texas, they also went to her old home place where she was raised.

\*\*\*

Mr. and Mrs. Maurice Hazzard of Eastland spent Sunday night with her sister, Mr. and Mrs. Edward Crume and visited another sister, Mrs. Etta Layton Monday.

\*\*\*

Mrs. Craig Kirby and children, visited her parents, Mr. and Mrs. Goldman Stroud Sunday.

## Update The Old-Fashioned Foods

When Mother was a girl, canned salmon was the family staple for unexpected company. If cousins came to the front door, she was sent out the back way to the corner grocery. Soon Grandmother served a main dish of salmon patties or a salmon loaf. If the cousins happened to come on the right day, dessert was a delicious bread pudding.

Mother's granddaughter may serve canned salmon in toast cups or over chow mein noodles, but it's still a reliable staple that provides food flavor and nutrition. Sardines, salmon and fresh collard rank just behind cheese, yogurt and milk as excellent sources of dietary calcium, the mineral that is so important in

the prevention of brittle bone disease (osteoporosis). To build a truly balanced meal, toast cups can be used as the base for salmon and peas served in a Cheddar cheese sauce.

Bread pudding is usually made with left-over breads and sweet rolls in a rich custard. Variations include French and brown breads and sweet rolls as well as the traditional white bread. Grandmother often added raisins or other dried fruit. Trendy restaurants today are using croissant or brioche to make the pudding. No matter what the variation, bread pudding adds a good helping of nutritious milk, eggs and bread to the menu.

Basic to good health is a balanced diet with foods from the milk group, the meat group (including fish, eggs and legumes), the bread and cereals group and the fruits and vegetables group. The body also needs good exercise and good sleep.

## Sudan Booster

### Club News

The Sudan Booster Club met for their regular weekly meeting Tuesday, October 1st at the high school. President, Sammy Crowson, called the meeting to order and Shirley Martin gave a financial report. Project members, Larry Brotherton and Bob DeLoach gave a report and discussion was held on ideas for money making projects. Several projects were decided on and items will be for sale by booster club members as soon as they arrive.

Coach McAdams reviewed the film and commented on the Sudan-Lazbuddie game. He also reported on what to expect from both teams for the Sudan-Farwell game.

Refreshments were served to 30 club members by Patti Miller. Refreshments for next week will be served by Larry and Mary Ann Brotherton.

Sammy asked that all people supporting the Sudan Hornets join in the victory line before kick off. "Lets let these boys know that we support them and are behind them for every game."

Son Qualls has sold all of the Sudan Hornet caps, but he is still selling membership cards. At press time he had sold 129.

## Muleshoe AAUW Meets In Kent Home

The Muleshoe Branch of the American Association of University Women met Monday evening October 7, at 7:30 P.M. in the home of Martha Kent.

Co-hostesses were Jean Allison, Esther Marie Dillman, and Lucy Faye Smith. Virginia Bowers, president, made announcements relative to articles in the "University Woman" and to selection of members for the Scholarship Committee. Membership cards were distributed and the new year books were given to the members by Joyline Costen, Program Development First Vice President.

Martha Kent introduced the Program Panel of Dorann Jones, Wilma Smith, and Elizabeth Watson who reviewed sketches of "Our Fore-Mothers"-Women Who Worked for Our Freedom. Deborah Sampson was the first woman to enlist as a soldier disguised as a man, in the War for Independence; Molly Pitcher and Captain Molly followed their husbands into battle and served as nurses and housekeepers; Lydia Barrington Daragh was a Quaker who housed the British soldiers but informed General Washington concerning the British military moves.

Caice Hendrix, daughter of Elaine and Alton Parker, was selected as the October AAUW Girl of the Month.

Members present were Ethel Allison, Jean Allison, Virginia Bowers, Julie Cage, Joyline Costen, Jo Ellen Cowart, Esther Marie Dillman, Pam Hancock, Maurine Hooten, Dorann Jones, Martha Kent, Barbara Mutschler, Mary B. Obenhaus, Nan Pool, Magann Rennels, Lucy Faye Smith, Wilma Smith, Elizabeth Watson, Eloise Wilson, and Mabel Wolfe.

No. 1 can tomato juice 10 cents; coconut 19 cents pound; red raspberries 53 cents gallon; and prunes 3 pounds 21 cents.

## Home Economists Win National Recognition

Eight Texas A&M University Agricultural Extension Service home economists were honored by the National Association of Extension Home Economists (NAEHE) at the association's annual meeting, Sept. 22-27, in San Diego, Ca.

Shirley Long, Kent County Extension agent, received the Florence Hall Award, the highest award given by the national association each year. Long was cited for her outstanding leadership and initiative in implementing an annual cotton show to promote and use cotton products.

Seven other Texas home economists received Distinguished Service Awards for creativity in county level educational programming during 1984.

Those county Extension agents honored were Mary Greer, Young County; Mary Frances Hall, Brazoria County; Nancy Fuhrken, Lavaca County; Cara Nell Decker, Jackson County; Angela Dickey, Wood County; and Patricia Hohensee, Concho County.

Dr. Susan Quiring, a former county Extension home economist with the Kansas Extension Service, and now a housing specialist with the Texas Agricultural Extension Service, also received a NAEHE Distinguished Service Award for her work in Johnson County, Kansas.

The Extension home economists were recognized for a variety of educational programs in nutrition, consumer skills, family finances, health and housing.

# Creative Living

with Sheryl Borden  
Two topics which pertain to sewing will be presented on "Creative Living" on October 8 and 12. Donna Grant is with the Singer Company from Portland, Oregon and she will demonstrate machine monogramming. She will show examples of different fabrics that work well for monogramming and explain how to set up the sewing machine and tell what supplies and equipment are needed.

Another item that will be presented is making soft luggage. It's really becoming popular in today's casual lifestyle. It's lightweight to carry and easy to care for, and it's also easy to make at home. Soft luggage made at home can be from a kit, or from fabric and notions you choose yourself. Susan Wright, Extension Clothing Specialist, NMSU, Las Cruces, will demonstrate how to make several different items of soft luggage.

Three topics will be presented on the show on October 10. Quality time with children, and other topics pertaining to parenting will be presented by Kay Willis, a "mothering-expert" to Fisher-Price Toys. Much of what she will present is based on first-hand experience, as Kay is the mother of ten children. She is from Rutherford, New Jersey. Before she's done, Kay says she wants to transform motherhood from a "bewildering, self-sacrificing role into a career that adds to a woman's self esteem."

Another guest serves as a color consultant and representative to 800-FLOWERS. Dominique Isebecque will discuss 800-FLOWERS, a nationwide flowers-by-phone service that enables consumers to order top-quality floral arrangements -- satisfaction guaranteed -- anytime day or night. She will also discuss new trends in flowers.

Finally, Dulcie Simonds, Pub-

lic Relations Supervisor with Rubbermaid Co. from Wooster, Ohio, will discuss proper and safe food storage.

"Creative Living" is produced and hosted by Sheryl Borden. The show airs on KENW-TV at 12 noon on Tuesday and Thursday and the Tuesday show is repeated on Saturdays at 2:00 pm. (All times are Mountain Standard).

Viewers can request copies of printed materials offered on the show by calling on KENW-TV's toll-free telephone lines. In New Mexico, the number is: 1-800-432-2361, out-of-state: 1-800-545-2359, and Portales and Roosevelt County: 562-2112. Viewers are asked to call between 8:00 am and 5:00 pm.

Monday through Friday. "Creative Living" show also has available for purchase a new 60-page booklet called "Creative Living - Volume II." The price is \$6.50, which includes postage and handling.

## New Category Being Added To Adult Art Show

The Plains Art Association has announced that an additional category will be added to its Adult Art Show to be held during March of 1986.

That category will be one emphasizing the Texas Sesquicentennial. Art works may feature historical or modern day Texas, the natural beauty of Texas or symbols of Texas. Any medium may be used.

Details of the Adult Art Show will be available after the first of the year.

Cont. From Page 1

Trooper Kirk said the driver was driving at a reasonable speed, but the trailer started 'floating'. The driver headed into the median, but the trailer was twisted enough to tip over the entire rig.

Around 2 a.m. on Wednesday morning, Trooper Kirk was again called to approximately the same location where a truck had jackknifed across the rain slick highway.

Trooper Kirk found it difficult to control the speeding traffic while waiting for large wreckers to arrive to move the jackknifed truck. Many vehicles skidded sideways, lost control and in general, created multiple problems for the officers trying to control traffic until the highway was cleared.

The DPS and Highway Department issued warnings to the driving public to take extreme precautions when driving in this area in wet weather.

Numerous accidents are reported each time there is a rain, and in winter, with snow and ice.

Officers and emergency personnel are hard pressed to keep all the accidents checked during wet weather.

Lighter rain fell to the west of Muleshoe, and to the south, Frank Stegall said no moisture had fallen there other than a 'sprinkle' on Tuesday morning.

The Lazbuddie area recorded approximately the same amount as Muleshoe, with some rain amounts of up to nearly two inches being reported in isolated areas.

**VISITORS AT OPEN HOUSE**--Lifesaving equipment was on full display Sunday afternoon when the West Plains Ambulance Service had open house for their new ambulance building located behind West Plains Medical Center. Visitors toured the building, viewed the ambulances and emergency lifesaving equipment and were served refreshments.

**New Mule Cards  
Going On Sale  
At Muleshoe CoFC**

Muleshoe Chamber of Commerce and Agriculture manager, Toni Eagle, has announced the arrival of 'Mule' occasion cards, just in time for the month of October. She commented, "October is a very important month for the Mule because it marks the 200th anniversary of the mule in the United States."

She added, "These cards are a direct product of Muleshoe and proudly declares the sender as a Muleshoe supporter."

"Each card was designed with a small mule as the central focal point, participating in a holiday-like activity."

"The idea originated in the Chamber. From an idea, came artist sketches from the GRAD Agency. Hellen Adrian and Neva Gray did an outstanding job on the art work. Bob Stovall did all the printing of the cards. The finished product is something that the Chamber is very proud of and invites everyone to see."

"At present time, the chamber has received the Birthdays, and Halloween greeting cards. Soon to be on hand are Anniver-

sary, Thanksgiving, Christmas, Valentine, St. Patrick's Day and note cards with the same type art.

"They will be on sale in the near future, concluded Ms. Eagle. "Take time to drop by the Chamber office and look at these very unique cards."

**Mule Skimmers  
Plan Activities  
To Honor Mule**

Muleshoe's Mule Skimmers held their second meeting last week, with plans being made to celebrate October as the Month of the Mule.

Meeting in the new fire department, Mule Skinner

limited number of copies are still available.

The DHT has also developed a Project Graduation kit to help high school seniors have a chemical-free graduation party. This kit will show students, teachers and parents how to make chemical free graduation parties so exciting that everyone will want to attend. Copies of this kit are available at the District DHT office.

"We have the tools to reduce our traffic problem and save lives. If people would obey the speed laws, wear safety belts and eliminate drunk driving, our fatalities would drop by at least 80 percent, said Pope. "We build our highways with every safety precaution...our motorists need to drive with that same kind of precaution."

For further information, and for information on free programs furnished to civic clubs, schools, hospitals, and businesses, call Ruby M. Jackson, traffic safety specialist, State Department of Highways and Public Transportation, at 806/745-4411.

members discussed that October 26 has been designated as "Mule Appreciation Day, U.S.A." by Congress.

A proclamation will be signed, designating October 20-26 as "Mule Week" in Muleshoe.

The Mule Skimmers are inviting everyone in the area who owns mules to meet Sunday, October 20 at 3 p.m. on the "Mule Memorial" lot. From the lot, a 'wagon train' will proceed

through the city of Muleshoe. After 6 p.m., the train will be led to Jeff Smith's where the Mule Skimmers will provide supper for members of the train.

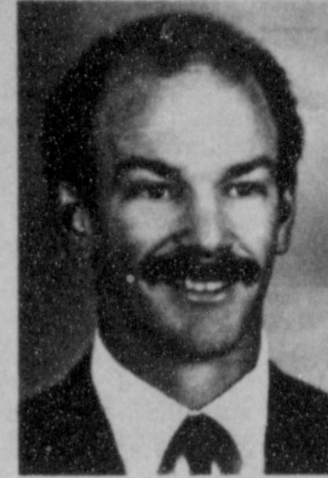

During this week, the city of Muleshoe may be seeing more of the mules, as additional activities are currently being planned.

If you are interested in participating, call Toni Eagle at 272-4248.

# MULES TALE

Thursday, October 10, 1985

Editor: Susan Lunsford

Official Publication of Muleshoe High School Written and Edited by Students of the Muleshoe Schools

## Ill 'Winds Blow Away The Mules

Last Thursday, October 3, the Mules travelled to Floydada to give it their best "kick." However, when the dust had cleared the Mules came out with a disappointing 38-6 defeat.

Daniel Olivas scored the Mule's only touchdown, but the conversion failed. Some outstanding plays were made by Edward Olivares and Jeff Hicks, who both intercepted Whirlwind passes. Darrel Bruns ran a Mule pass for 35 yards but ended in a non-scoring drive.

The next game will be against Idalou on the Wildcats home field. Everyone is encouraged to go out and cheer the Mules on!

## MHS Library Is Computerized

"I am not sure the computer is saving time now, but when we become accustomed to using it I feel all the effort will be worthwhile", commented Mrs. Dillman, MHS Librarian.

The library was two weeks late in opening, because of time involved in entering the title of every book into the computer as well as putting a barcode label on every book, and assigning each student and each member of the faculty a library card with another barcode number. A wide variety of books and magazines are available for use.

According to Mrs. Dillman, in a week or two new books will be on the shelves ready to be checked out by students or by the faculty. She encourages students to come by and visit the MHS Library.

## FCA Breakfast Brings Students Out Very Early

Everyone has heard the saying, "The early bird catches the worm." The F.C.A. members that rose early on September 27th, received a delicious meal not of worms, but consisting of scrambled eggs, bacon, biscuits and gravy, orange juice and milk at the First United Methodist Church. Rev. Bill Kent delivered the message, titled "everything is not what it seems to be."

Officers for the 1985-86 year include, Mike Holt, president; Sherri Stovall, vice-president; Casey King, secretary; and Loy Triana, treasurer. F.C.A. sponsors are Coach Andy Gamble and Mrs. Pam Gamble. The next F.C.A. breakfast will be October 11th at Richland Hills Baptist Church.

**ACTION AT FLOYDADA**--Wade King, No. 15, piles on top of a Whirlwind at Floydada last Friday night as the Muleshoe Mules try to stop the Whirlwinds. Although Michael Dunham caught a pass in the end zone for a Muleshoe TD, the Mules fell to the Floydada 'Winds, 13-6.

## Required Test To Be Given Juniors

This fall the nearly 1.5 million students across the United States who take the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test will have a special opportunity to familiarize themselves with the testing format also used on the Scholastic Aptitude Test (SAT).

On the PSAT/NMSQT, the 50 students taking the test at Muleshoe High School on October 22, 1985, can preview the exam process for the SAT - the prerequisite for many college-bound students.

## Knowing Your Potential

By James Ziegenfuss

Potential is something that is existing in possibilities. If you achieve something it will show how much potential you see in yourself. If you have much potential you will be able to achieve things easier than if your potential is low.

To achieve your potentials you have to believe in yourself. You can not have a bad self-image or an "I can't" attitude. There is no such word as I can't; you can if you want it bad enough. You just have to say to yourself, "I am super good, but I'll get better!"

Since 1959, about 30 million high school students have taken the test, which measures verbal and mathematical abilities.

This year, the PSAT/NMSQT will be offered on Tuesday, October 22 at almost 20,000 high schools nationwide.

Through the PSAT/NMSQT students are selected for the National Merit Scholarship Qualifying Program, which enables talented students to compete for scholarships, and Hispanic students are considered for the National Hispanic Scholar Awards Program.

In addition, students can use the test as a guide to see how they ranked nationally among other students.

As preparation for the 100-minute, two-part test, students receive a *Student Bulletin* containing a complete sample test with an answer key and scoring instructions.

After taking the actual test, students will receive a booklet, *About Your PSAT/NMSQT Scores*, a descriptive explanation of test results. Students will also be able to compare their individual answers with the correct answers by consulting the Report of Student Answers, another valuable guide. Actual test booklets will also be made available to allow students to spot mistakes and work out answers correctly.

Any student that is presently ranked as a junior may take the PSAT/NMSQT at Muleshoe High School on October 22. Students are encouraged to register for the test in the counselor's office. The fee for the test is \$5.00.

## VICA Chooses Jose Sanchez As President

On September 18 the Muleshoe High School V.I.C.A. (Vocational Industrial Clubs of America) elected their officers for the 1985-86 school year. The officers elected are as follows: president, Jose Sanchez; vice president, Jamie Torrez; secretary-treasurer, Precilla Sandoval; parliamentarian, Tommy Recio; reporter, Rudy Pena; sergeant at arms, David Navejar. All of the officers are seniors. These officers will be going to Estacado High School in Lubbock on November 2, at 10 A.M. for an officers training course.

## Navy Downs Rebels In Powderpuff Game

After a hard-hitting girl titt, which included a few hair-pullings on the line of scrimmage, the Navy team vanquished the Red Rebels Monday night, October 7, in the traditional FTA Powder Puff game.

The Rebel Mobile charged around the track as the Rebel players were introduced. The Rebel cheerleaders were chanting, "SINK THE NAVY, SINK THE NAVY!!!" when the Navy started a counter-cheer.

Navy had the first touchdown in the first 6 minutes of the game when Casey King ran quarterback Joey Heathington's pass in for a touchdown. Debbie Isaac added 6 points to the score on a 56-yard touchdown in the 2nd quarter. Navy's 2 points were gained on a safety.

Halftime started with a score of 14-0 against the Rebels. During the halftime coronation,

the Rebels sweetheart was Sergio Leal, escorted by Karen Wooten. Other attendants were Mike Holt, escorted by Stacy Smith; Wade King, escorted by Michelle Logsdon; and Jarrod Embry, escorted by Kristy Landers. For the Navy the sweetheart was Scott Bickel, escorted by Debbie Isaac. Other attendants were Todd Bessire, escorted by Casey King; Lance King, escorted by Jana Brown; and Darren Albertson, escorted by Casey King.

The fourth quarter started with a score of 14-0. During the last two seconds of the game, the Red Rebels decided to take six points against Navy Blue. Kristi Landers made the touchdown as well as the 2-point conversion, making the final score 14-8, Navy Blue.

Coaches for the freshman and sophomore Red Rebels were

Head Coach Wade King, Jarrod Embry, Mike Holt, Loy Triana, Sergio Leal, Joe Ambriz, Brett King, and Sean Shipman. Performing capably as cheerleaders were Ricky Rasco, Chris Young, Kevin King, Ronnie Logsdon, David Sanders and Michael Dunham.

Serving the junior and sophomore Navy Blue team were coaches Head Coach Lance King, Scott Bickel, Michael Angeley, Todd Bessire, and Shawn Bussey. Leading their team on to victory were cheerleaders Jerry Bob Graves, Chau Gunstream, Pat Grady, Mark Underwood, Gant Barnhill, and Edward Olivarez.

Undertaking the hazardous tasks of refereeing the Powder Puff game were Greg Young, Russell Brown, Michael Precure, Sergio Gonzales, and Russell Young. According to FTA sponsor Kerry Moore, "Coaches spent more time on the field than the players, giving referees the rules made

up on the spur of the moment to advance the ball in their favor."

According to one spokesman, memorable moments of the evening included and excellent tackle on #10 by Debbie Brown on the Navy Blue's first play of the game. The refs called clipping against the Red Rebels and called back a touchdown made by Jo Ann Gutterez during the first quarter. Some harsh words were exchanged between linemen during the entire game, and apparently, on the line of scrimmage, Leah Bell's temperament was not that of "Tinker Bell."

Fans can look forward to the 1986-87 FTA Powderpuff game, which will once again produce "thrills and excitement."

## ONE MINUTE SPORTS QUIZ

1. Who won the Texas Open golf tournament?
2. Name the winner of the Holly Farms 400 NASCAR race.
3. Gary Carter plays pro baseball for what team?
4. Severiano Ballesteros is known in what sport?
5. Tommy Kramer quarterbacked for what team?

## Answers To Sports Quiz

1. John Mahaffay.
2. Harry Gens.
3. New York Mets.
4. Golf.
5. Minnesota Vikings.

## Army Reserve Helps With College Dollars

While many sources of state and federally-sponsored scholarships have been drying up in recent years, one way to pay for the ever-increasing cost of tuition is the New GI Bill.

The tuition benefit for those who serve in the Army Reserve is as much as \$140 per month if a student is enrolled in school full-time; \$105 per month for those attending three-quarters time; and \$70 per month for half-time enrollment.

The money, as many high school seniors pondering their future already know, can always be put to good use.

There's no course requirement; students choose what they want to study in college, and they can attend the school of their choice, as long as it's accredited.

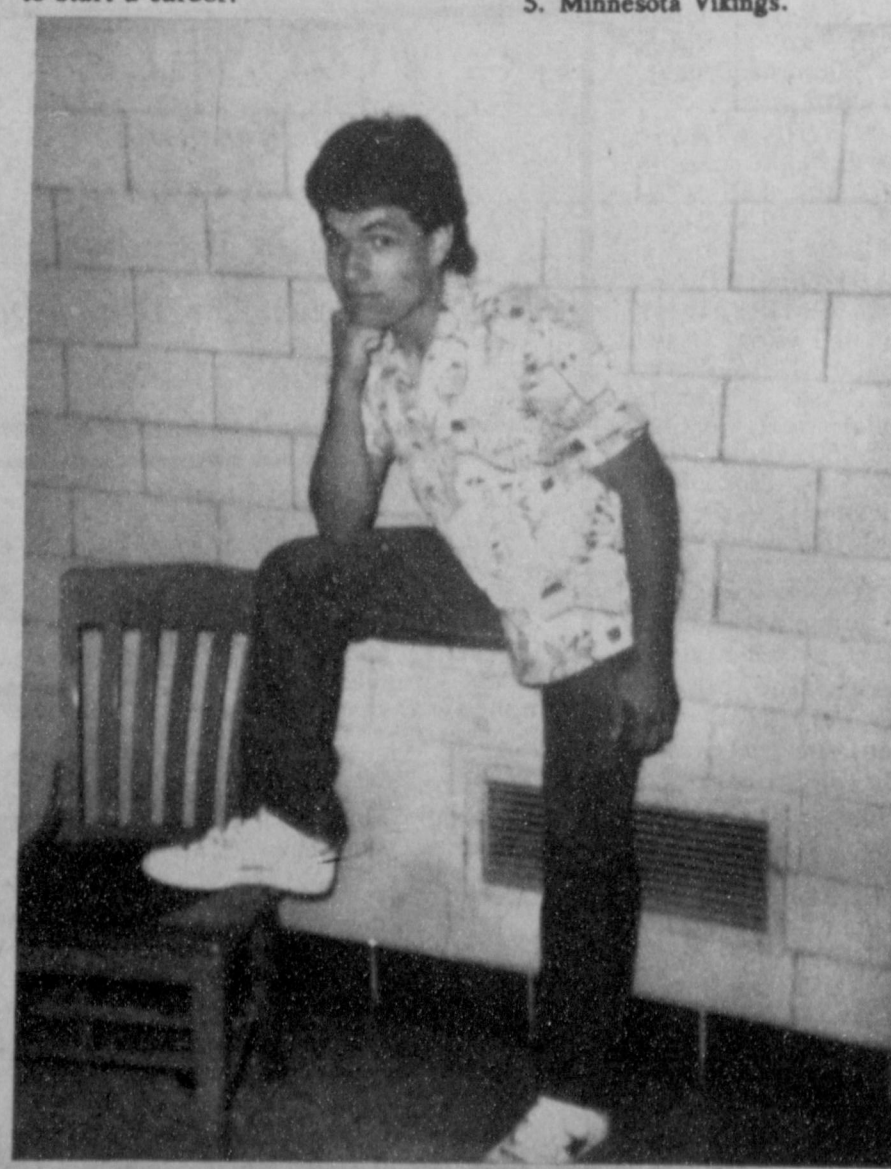

Few students are aware of the New GI Bill, and many are not sure what the Army Reserve has to offer.

In the Army Reserve, young men and women from throughout the nation train with pay to do a soldier's job on a part-time basis for one weekend a month at a local Army Reserve center, and for two weeks of annual training -- about 38 days a year.

In addition to the military training, Army Reservists receive skills training in one of 350 job specialties, most of which are applicable to the civilian job market. The instructors, like those on campus, are

## Coach's Comments

I felt as though our kids gave a great effort Friday night against Floydada. Our defense played better than it has all year and we were proud of all the kids who played defensively on Friday. The offense never got untracked as we had a hard time pushing the ball into the end zone all night long. We made several key mistakes on offense when we had the ball down in Floydada's territory. Many of our young players have come a long way since the start of the season and we are very proud of their improvements. The kids are still working very hard and we are looking forward to a great night this Friday against Idalou. They have an outstanding football team and probably the best running back in this part of the state. They are coming off a big win against Littlefield, so we will really have to be ready to play. If our kids will play mistake-free football and really get after them on defense, we should be in great shape this Friday night.
