Draught Broken: Area Receives General Rains

The Bailey County Commissioners Court will meet in special session in the Bailey County Courthouse, Friday, May 30.

The meeting will begin at 10 a.m. and will continue until all business is concluded, with the following items on the agenda: (1) Approve the minutes of the previous meeting, (2) Payment of routine county bills, (3) Open bids for a used truck in Precinct 1, (4) Open bids for seal coating in Precinct 3, and (5) Miscellaneous items.

Delton Wilhite was in charge of the Rotary Club meeting at noon Tuesday. Howard Watson gave a talk on the principals of Rotary wing flying. He talked on the history and explained the problems that were solved in order to fly and steer helicopter air craft.

Dr. Muyschondt and Dr. Lepord will be initiated into Rotary Tuesday, July 1 and officers for the coming year will be installed.

The Rotary Board approved donating \$500 to Muleshoe Area Opportunity Plan.

Visitors for the meeting were Dave Reshel and Ben Roming.

"Rainbow of Promises" Vacation Bible School is planned at the Richland Hills Baptist Church, June 2-3 and 4 from 9-11 a.m. Classes will be for boys and girls four years of age through the fifth grade.

Jay Stovall, who will graduate Friday night from Muleshoe High School has received a basketball scholarship to Ranger Junior College at Ranger, Tx.

He is the grandson of Mr. and Mrs. Murray Lemons of Muleshoe.

Belinda Clayton of Muleshoe has been named to the Dean's List for the 1986 spring semester at Western Texas College at Snyder.

The Dean's List is made up of students who are enrolled for at least 15 semester hours with a grade point average of at least 3.5 on a 4.0 scale. Forty-three

Funds Are Available To Help Irrigators

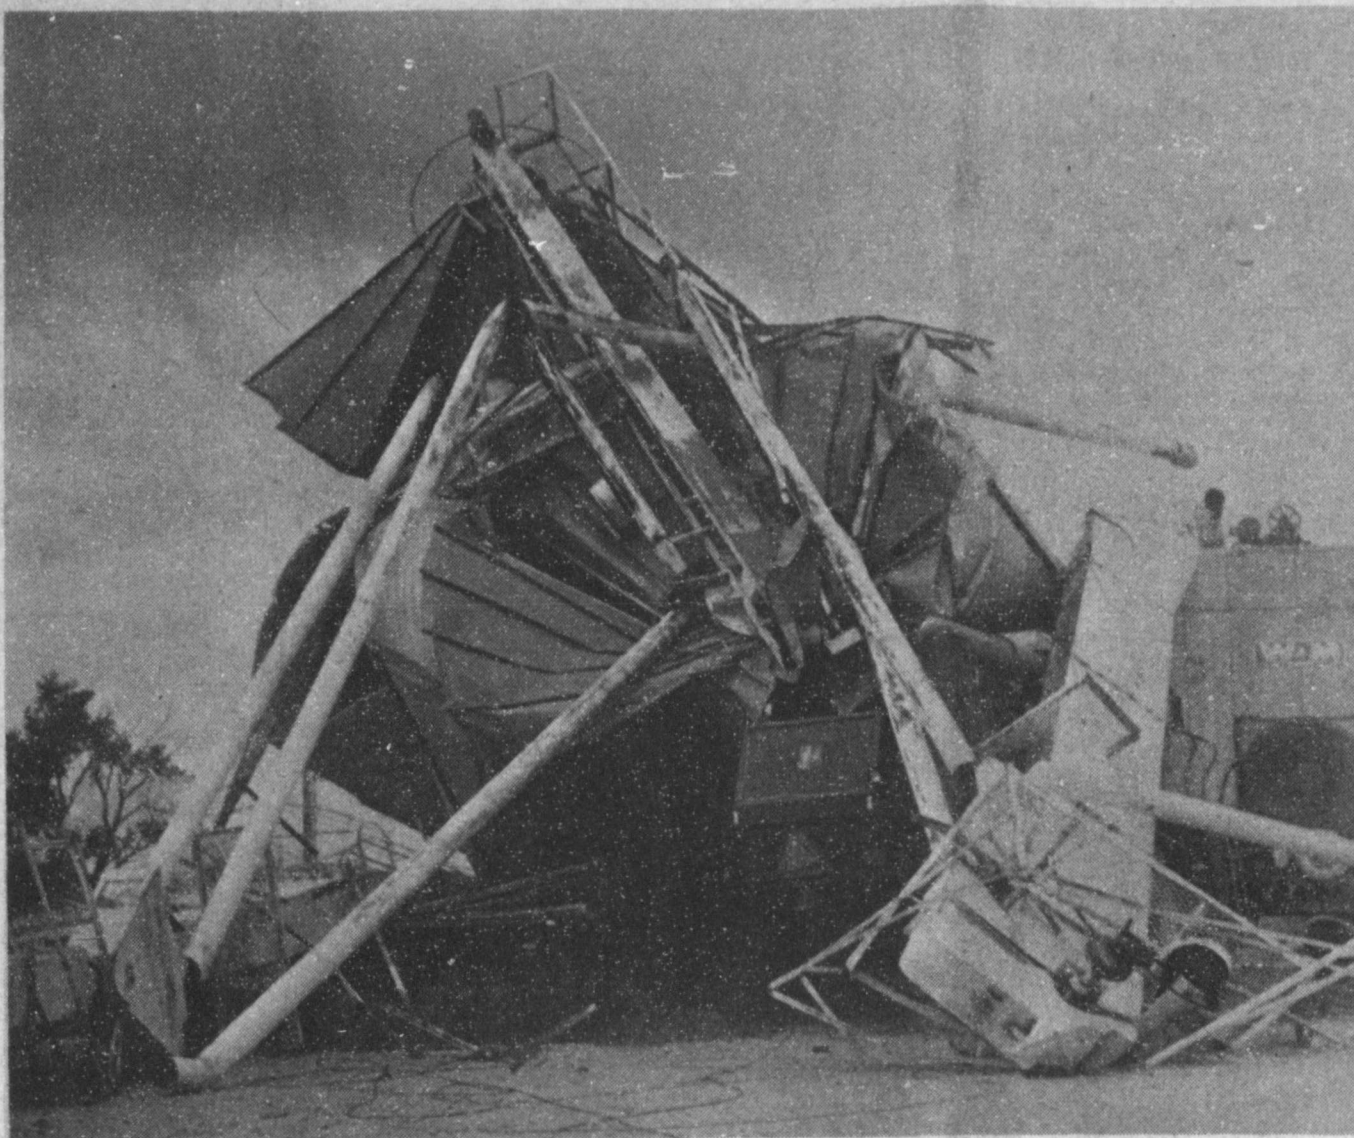

The Texas Water Development Board has authorized a \$15,294 grant and a \$1 million loan to the High Plains Underground Water Conservation District No. 1 to help improve the efficiency of irrigation systems and thereby conserve water in the district.

The grant is available through a new Board program that provides as much as 75 percent of the money needed by soil and water conservation districts and underground water conservation districts for the purchase of equipment to test the efficiency of irrigation systems.

In the High Plains underground district, the grant money will be used to upgrade field laboratories and provide additional testing equipment. Previous tests in the district indicate that new irrigation technologies can boost water savings as much as 50 percent.

The loan is available through a new pilot loan program, administered by the Board, that provides money to soil and water conservation districts and underground water conservation districts for loans to farmers for the purchase and installation of water-conserving irrigation equipment. A farmer may apply to a district for a low-interest loan to finance up to 80 percent of the cost of labor to install it.

Both programs were authorized last year by the Texas Legislature, and the state's

CORN DRYER-NOT ANY MORE—A small tornado dipped down late Saturday afternoon on the Willis James farm, one mile west and a half mile north of the intersection of FM1760 and 1731, leaving this scene of destruction. The James' were not at home when the twister hit. No damage was done to their home.

Depth-To-Water Level Same: First Time In 35 Year History

For the first time in the 35-year history of the High Plains Water District, the depth-to-water level measurements made in the District's observation well network show a "0" average change from January 1985 to January 1986. In other words, the volume of water in storage in the District's service area as of January 1986 is the same as it was in January 1985.

Measurements of the depth-to-water were taken in January and February in 950 privately-owned water-level observation wells located throughout the District's 15-county, 5.2 million acre service area.

Individual county depth-to-water level measurements show either a small decline in the water level, or an actual rise in the water level for the one-year

average. Average depth-to-water level measurements made in wells in Armstrong, Cochran, Crosby, Floyd, Hale, Hockley, Lubbock and Lynn Counties showed a rise. Crosby County showed the largest average rise in the water table with a rise of 2.50 feet.

The average depth-to-water in the remaining seven counties (Bailey, Castro, Deaf Smith, Lamb, Parmer, Potter and Randall Counties) showed a small increase in the depth-to-water, indicating a decline in the water table. Average declines for individual counties ranged from a 0.08 of a foot decline in Bailey County to a 1.40 foot decline in Parmer County.

For all wells measured, the 10-year average change shows a total decline in the water level of 9.70 feet, or an average change of 0.97 of a foot per year.

The five-year average change in water levels for the period 1976 to 1981 shows a total decline of 7.40 feet, which is an average decline of 1.48 feet per year.

Over the past five years, Residential Telephone

Rate Increase

Begins June 1

Single line business and all residential telephone customers across the nation, including those served by General Telephone, will begin paying a monthly two dollar subscriber line charge on June 1, 1986.

This two dollar charge represents a one dollar increase to the subscriber line charge and is in second phase of a federally mandated process that is intended to gradually eliminate the practice of charging customers more for long distance service in order to keep residential rates artificially low. An initial one dollar subscriber line charge became effective June 1, 1985.

Business customers with more than one line have been paying a six dollar subscriber line charge since May 1984. This subscriber line charge will not change.

Under the Federal Communications Commission plan for implementation of subscriber line charges, the total revenues of the local telephone companies

1981-1986, there has been a dramatic decrease in the rate of decline in the aquifer. The five-year average change in water levels for the period 1981 to 1986 shows a total decline of 2.30 feet, for an average decline of 0.46 of a foot per year. The change in water levels from 1981 to 1986 indicates a 69

McCormick, Martinez, Brownies Win Walk-A-Thon Trophies

Prizes earned during the 1986 Miles For Muleshoe Walk-A-Thon, sponsored by the Jennyslippers were presented Saturday morning. Thirty-one of the 36 who participated in the walk-a-thon won one or more prizes.

Trophies were presented to those participants who turned in the most money in each of the three categories. Those receiving trophies were: Chad McCormick, child division, \$300; Erminia Martinez, adult division, \$125; and organization/business, Brownie Troop No. 326, \$335.50.

Many different prizes were available to participants and depending on the amount of money turned in, they could win the prize, or prizes, of their choice. Participants who won more than one prize included: Chad McCormick (\$300) who won a 10-speed bike and a basketball and Brownie Troop No. 326 (\$335.50) who won two Kodak Disc 3100 cameras and a basketball. Members of the Brownie troop who participated are: Kesha Torbit, Jennifer Taylor Welch, Teri Martin, Sarah Villarreal, Rachel Givens, Rhonda Crawford and Stephanie Perez. Also participating were their leaders, Vicki Villarreal and Lily Ham.

Other prize winners were as follows: Tracy Orozco (\$279) Jam Box; Shane Kirk (\$259.90) BMX Bike; Nelda Merriott (\$165) Clock Radio Phone; Heath Eagle (\$125) Disc Camera; Erminia Martinez (\$125) Wagon; Kermit Price (\$103.75) AM/FM Radio with head phone; and Jackie Thomas (\$101) Wagon.

Also Ascension Garcia (\$100) Wagon; Stephanie Kirk (\$100) Wagon; Monica Hurtado (\$89.47) AM/FM Radio with headphones; Kyle Embry (\$87) AM/FM Radio with headphones; Raquel Balez (\$75)

A lingering cold front and moist, unstable air clashed and produced thunderstorms, heavy rains, hail, high winds and at least one small tornado over the Muleshoe area late Saturday afternoon.

The thunderstorms developed rapidly in portions of east and northeast New Mexico and West Texas and moved swiftly east and southeastward as the evening wore on. The unstable conditions prompted the National Weather Service to place the entire South Plains region under a severe thunderstorm watch until 11 p.m. Saturday. A cloud cover continued to linger over the area both Sunday and Monday bringing more welcomed rain.

Saturday afternoon, a small tornado dipped down on the Willis James farm, one mile west and one half mile north of the intersection of FM1760 and 1731, skipped over houses and demolished a corn dryer/elevator turning it over onto, and causing considerable damage to a combine and milo header. The James' were reported to be out of town at the time.

James Wedel, a farmer in the vicinity, stated that he was on his way home at approximately 5:45 p.m. when he spotted the twister, which was traveling from Northwest to Southeast and did not see it until after it had hit the James farm. Pea sized to marble sized hail and high winds accompanied the storm.

Wedel stated that he lost from 100 to 150 acres of cotton during the storm. Heavy hail damage was reported in a four mile wide strip which begin a little over a mile west of FM1731 and continued eastward.

C.E. Grant, who farms south of Beck Gin reported about two inches of rain along with hail. He stated that he lost some cotton, but thinks his corn, which was split up pretty bad will make it.

"The moisture (3.15 in.) outweighs the damage" said Bob Byrd, a farmer in the vicinity of the storm. His corn was stripped up some but he

thinks his cotton will be alright.

High winds, which accompanied the storm, tore up a small shed on the Don Seals farm one and a half east of FM1731. They also reported some hail and three inches of rain.

Muleshoe Wildlife Refuge reported .58 inches of rain during the three day period.

Mrs. J.R. Carter, five miles north of Needmore, reported that they received two and one tenth inch of rain at their farm.

At Bula, Bennie Claunch reported that they received one and four tenths inch of rain and more is badly needed.

Wade Cargile, who farms one mile east of Clays Corner in the Lazbuddie area reported that he received one and a half inches at his home place with varying amounts around the area.

Muleshoe received one and three fourths inch of rain during the same three day period.

Fun, Activity

Filled Day

Planned July 4th

Plans are now in full swing for a fun and activity filled day on July 4. Even though the Fourth of July is still over a month away, the Muleshoe Chamber of Commerce and Agriculture is planning a huge celebration. Along with the traditional activities, several new twists have been added.

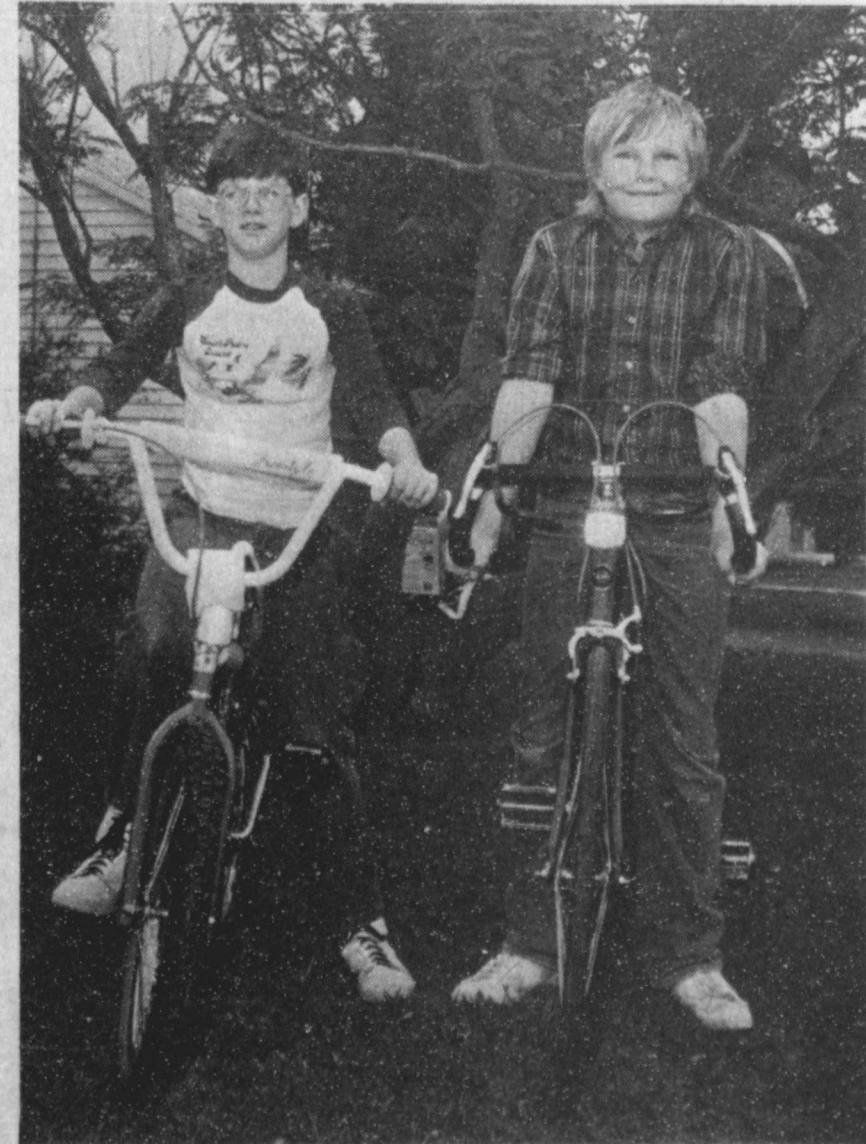

Ten of the classes of Muleshoe High School are planning their reunion for the Fourth of July weekend. Several have expressed a desire to enter a vehicle from the year of their graduation, with people dressed accordingly, in the parade.

Entertainers have been invited to perform at the Civic Center during the day and again that night at the park before the fireworks display. Toni Eagle, manager of the Muleshoe Chamber of Commerce and Agriculture, stated that all area clubs, groups and craftsmen are

Nursing Home News by Jo Stancell

Callie Dyke brought ice cream to be served to the residents last week.

Alpha Laney's son from Duncannonville, Mr. and Mrs. Tommy Laney, were here visiting with her last week. Her grandson who graduated from Tech last week, also visited her.

Christie Ethridge visited her grandmother, Lois Ethridge, Friday afternoon. They enjoyed playing a game of Skip-Bo.

Mrs. Gordon Wilson visited Dora Chaney Wednesday morning. Mrs. Chaney was hospitalized in W.P.M.C. over the weekend. We are pleased that she is able to be back in the nursing home. Mrs. Chaney's granddaughter, Sharon, visited her Tuesday.

Josie Flowers visited Margaret Beard Tuesday afternoon.

Ladies from the Assembly of God Church hosted our Devotional Friday afternoon. Mr. and Mrs. Bobby Burris played and sang some special music. Mr. Burris brought the Devotional. Refreshments of iced brownies, ice tea were served.

Louise Legg from Me Ma's Ceramic Shop in Sudan came Wednesday morning to help the residents paint ceramics. Residents participating were Lois Ethridge, Emma Schuster, Edith Goucher, Edith Bruns, Alpha Laney and Clara Weaver.

Velma Gwyn entertained residents and visitors Tuesday afternoon with her auto harp. Accompanied on the piano by Clara Lou Jones, Julie and Kendra Johnson sang and did Skip-To-My-Lou.

The Muleshoe Home Ec. class visited Monday afternoon and helped the residents play Bingo along with Ruth Clements and Laverne James of the auxiliary.

Lewis Shafer went out Wednesday to "chop cotton", so he said. We are thinking he went out to his home and farm for a visit.

Josephine Wenner was visited this week by her daughter, Doris Ashford, Nelda Merriott, Ida, Mr. and Mrs. Delter Wenner.

The South West wing of the nursing home is being painted this week. The residents and their families have been a real help, moving out and back into the residents rooms. We really appreciate this.

We were so pleased to see Mrs. Ragsdale down in the Day Room Wednesday for the Sing-a-Long at late playing dominoes.

The New Covenant Church came Sunday to sing Gospel Music to the residents.

Congratulations to Lucy Faye Smith, wife of Eric Smith, for her special recognition at the Founder's Day Luncheon.

Black scientists attribute career choice to role models, parents

COLLEGE STATION — For the relatively few blacks who have pursued successful careers in science, the greatest factors that motivated them were an early exposure to science, black role models, their parents and a healthy dose of persistence, says a Texas A&M education researcher who has been studying why so few blacks follow science careers.

Dr. Julia Clark, an associate professor of curriculum and instruction, examined the career paths and academic backgrounds of 75 black professionals in science-related fields to see what had influenced their choice of career.

She culled their names from faculty at black colleges and universities and the membership of the American Association for the Advancement of Science. They had graduated from college as early as 1933 and as recently as 1982.

Clark noted figures from the National Science Foundation that indicated blacks represented about 2.5 percent of the science and engineering work force in 1982, and that enrollment of blacks in math and science teacher education programs also is extremely low.

Until recently, however, she said most studies about the low participation rate in science by blacks have concentrated on why black students do not choose science — rather than on the factors influencing the few who did choose the profession.

WATER, WATER, AND MORE WATER---Monday afternoon this was the way some of the streets in Muleshoe looked after the rain ended.

Country Club Report

by Marlene St. Clair

The Women's Country Club Association met Wednesday, May 21st, for their regular meeting and luncheon, and for the annual Naomi-Marie Memorial Tournament. Lisa McElroy presided over the meeting. She welcomed new members, Jana St. Clair and Caroleen Hamilton, and guests, Janis Nichols, Darlene Henry and Chesna Sullivan. There were 25 present.

All business was discussed and committees made their reports. At Clovis Hi-Plains meeting last month, Janetta Precure and Argilee Millen won low putts of each flight, and Analita Haley won low net of her flight.

Mary Francis Holt, playday chairman, gave the awards: On the 16th low net was given to Analita Haley and Neats Foster. On the 23rd Helen Templeton won the "blind hole". On the 30th closest to the pin on No. 9 was won by Janetta Precure and Melzine Elliott. Then on 5-14th Mary Crane won the "blind hole" award. Mary gave special awards to Dorothy St. Clair who made a hole in one on Nov. 9 for two consecutive days, and to Janetta Precure for making an eagle on No. 2, and to Neats Foster for an eagle of No. 1.

Our birthday ladies for May are Lisa McElroy and Melzine Elliott.

The ladies who played in the tournament, which was an individual handi-cap play, were Mary Holt, Melzine Elliott, Evelyn Riley, Helen Templeton, Cookie Bamert, Jeanetta Precure, Dorothy St. Clair, Marlene St. Clair, Jana St. Clair, Elmor Yerby, Jo Rempe, Analita Haley, Argilee Millen, Neats Foster, Lynn Campbell and Caroleen Hamilton.

After the game, refreshments were served in the dining room, which was beautifully decorated by our staff.

It was Analita Haley who won the tournament. She was presented with a beautiful brass tray which was donated by the families of T.R. White, Irvin St. Clair and Bill St. Clair. Special guests at the party were Vivian and T.R. White.

Both speakers as well as Williams emphasized the importance of all Senior Citizens voting in this election which will be held in Williams' office on May 30.

President, K.K. Krebbs, presided over the business meeting.

FINAL PROPERTY TO SELL
Bailey County's three pronged road program, each of which should have a vital effect on the county's economy, is making progress, county Judge Glenn Williams said Tuesday.

The roads, widening of "Killer" 84, the building of a please-don't-rain route to Portales, N.M., and the changing of a county road have made much progress, the judge said. In fact the tedious job of widening U.S. 84 from Muleshoe to the Farmer county line, has reached the stage where only one house remains to be sold off before all the land work is cleared," the Judge explained.

Muleshoe Girl Scouts Hold Court of Awards

On Tuesday night, The Girl Scouts Court of Awards program was held in the Bailey County Civic Center Banquet Room. Seventy-eight people attended the event to see the girls receive the awards which they have earned in the past months. The program began with a welcome by Nelda Merriott, Chairman of the Girl Scout Committee, followed by the Invocation by R.A. Bradley.

The Pledge of Allegiance was led by five Scouts from Friona. All troops stood and gave the Girl Scout Promise and the Girl Scout Law. Mrs. Merriott introduced the Troop Leaders and assistants who introduced their troops. Each troop leader told something of the activities of their troop.

Troop leaders are: Junior Girl Scout Troop leader, Troop 169, Betty Ashford and her assistant, Linda Tucker, Brownie Troop No. 326, leader, Vickie Villarreal, Assistants, Lily Ham and Andrea DeLeon, and Brownie Troop No. 326, leader Sharon Williams and Assistant Tawna Stewart.

Attending from Mrs. Ashford's troop were: Amanda Ashford, Margaret Crawford, Geneva Eggers, Lucy Perez, Geneva Perez and Melinda Tucker. Unable to attend were Robin Hosland and Carmen Franco.

Those attending from Mrs. Williams' troop were: Julie Williams, Michelle Williams, Heather Bunch, Kimberlee Vaughn, Sharon Johnson, Sarah Watson, Jackie Chapman, Daeta Stewart, Summer Gibbons, Yolanda De Hoyos, Natasha Konek and Amanda Sesles. Unable to attend was Samantha Loufin.

Mrs. Villarreal's troop were all in attendance: Teri Martin, Jennifer Taylor, Rhonda Crawford, Stephanie Perez, Terrie Gutierrez, Sarah Villarreal, Keisha Torbit, and Rachael Owens.

Special Guests, Linda Barker, President of the Friona Girl Scout Program, talked about the Scouting program and introduced Kay Huckabee, Director of the Friona Girl Scout Day Camp, and five girls in the Scouting Program. Kristen Barker and Montessa Elan, who are Cadettes and Krista Holland, Susan Huckabee and Beth Noey, who are Junior Girl Scouts. Mrs. Huckabee and the girls told about the day camp that is coming up on July 14, 15 and 16. It is called the Escarbada, Spohn Ranch Day Camp and promises to be a fun and learning experience for the girls.

Martha Couch, Field Service Director, from Plainview, brought an inspirational talk about her years in the Girl Scouting Program and the joy of being in it. She commended highly the workers and leaders in the program here in Muleshoe and spoke of the good

attendance at the first Court of Awards. She was delighted with the participation of the mothers and fathers and the support shown by the community. She foresees a great future for the Girl Scouting Program here such as was had many years ago when day camps were held here.

The Brownie troops sang the Brownie song then Mrs. Villarreal's troop gave a lively rendition of a "Sesqui-centennial" Brownie song which everyone enjoyed.

Mrs. Couch conducted the Court of Awards by speaking to the girls, telling them of what it meant to be a Girl Scout and also what the letters **B A D G E** stood for. She called each troop in turn and the troop leaders presented the badges and pins to their troop members.

Mrs. Ashford's Junior Girl Scout Troop No. 169 received three badges which were: Water Fun, Swimming, and Local Lore. They received pins which were World Association Pin, the Traditional Girl Scout pin and a Membership Star.

Mrs. Williams' Brownie Troop No. 326 received the Running and Funmaker Badges as well as the Brownie Membership star and the Traditional Brownie Pin. The troop were awarded their sashes and troop emblems.

Mrs. Villarreal's Brownie Troop No. 326 received the following badges, Happy Hiker, Be a Friendmaker, Helper, Brownie B, Troop emblems and their troop crest which is a Violet. They also received the listed pins, Traditional Brownie Pin, Traditional Girl Scout Pin and Brownie Membership Star. Five girls received the Contemporary Girl Scout Pin. They are Teri Martin, Jennifer Taylor, Rhonda Crawford, Stephanie Perez and Terrie Gutierrez. These five girls will advance to Junior Girl Scouts in September.

Mrs. Villarreal plans to advance with the girls and form a Junior Girl troop. Her assistant, Lily Ham, will stay with the Brownie troop and be their leader. New girls will be added to each troop, as well as assistants.

Closing remarks were made by Nelda Merriott and R.A. Bradley. Mrs. Merriott spoke of the need for funds to complete the repair of the Girl Scout Hut, and enlisted the aid of the mothers for a future bake sale. Bradley encouraged the fathers to participate in the completion of the repair on future work dates to be set.

Future plans include an "Appreciation Night" for all who have helped to get the Girl Scouting Program back on track in Muleshoe. This is planned for early September, in conjunction with a sign-up night for Girl Scouts. Special thanks was extended to R.A. Bradley and

the Kiwanis for their help in the repair and to Ruben Leal for his many days of donated labor in moving the bathroom.

Mrs. Villarreal presented an insignia pin and a pin which depicted the Girl Scout insignia and the American flag to Nelda Merriott. Mrs. Merriott also received a "Green Angel Special Service Award" signed by the Caprock Council President, Shirley Igo. Troop Leaders, Assistants, and R.A. Bradley received appreciation certificates which stated, "It's people

like (name) who make this such a wonderful world for Girl Scouts to Live In."

The program concluded with refreshments of cake, cookies and punch furnished by the troop. The cake was white with a green Girl Scout Insignia.

Cost Of Convenience Cooking

When you buy frozen dinners and entrees, you're paying for the time you gain by using these convenience foods.

A recent U.S. Department of Agriculture study showed that the frozen dinner at home, says Dr. Alice Hunt, a Texas A&M University Agricultural Extension Service nutritionist.

But from the standpoint of preparation time, the frozen dinners are hard to beat, Hunt adds. The USDA study examined "active" preparation time, or the amount of time for all steps that required the full or partial attention of the cook.

Preparation time for the frozen items in the study ranged from one to three minutes, while it ranged from 23 minutes to one hour and nine minutes for the homemade equivalents.

If you paid yourself a clerical wage of \$7.00 an hour, or an "average" wage of \$7.87 an hour for cooking, Hunt says the home-prepared dinners and entrees would still cost only about two-thirds as much as their frozen counterparts.

TROPHY WINNERS—Jemyslippers presented trophies to the following for bringing in the most money during the Miles For Muleshoe Walk-A-Thon, Saturday during the awards presentation: Child division, Chad McCormick; Adult division, Erminia Martinez; and Organization/Business, Brownie Troop No. 326.

Picante Sauce A 'Hot Item'

Over the years Texans as well as folks in other states have developed a taste for "hot" sauce in varying degrees, and that taste seems to be growing by leaps and bounds as picante sauces of all types are hitting the market.

"Picante" comes from the Mexican word "picoso" which means "hot to the tongue and mouth." The unique taste or flavor of picante sauce comes from its ingredients: tomatoes; peppers, including jalapenos, serrano and Anaheim-type green chilies; onions; vinegar; garlic; black and red pepper; comino; and oregano.

The first commercial picante sauce was produced by David Pace in San Antonio in 1947, and picante sauces have been a "hot" item ever since, says Dr. Al Wagner, a food technologist with the Texas Agricultural Extension Service, the Texas A&M University System.

"There were probably only about five companies in the picante sauce business 20 to 25 years ago," Wagner notes. "Now you can find some 20 to 25 different brands of picante sauce on the market. Nineteen companies in Texas alone are producing their version of picante, with annual sales estimated at \$200 million in 1985."

More and more people seem to be getting into the picante sauce business, Wagner says, and he often gets inquiries from firms and individuals interested in developing their own brand of this sauce.

"I get calls and samples several times a week," Wagner says. "People ask me to check the taste and acidity level of the samples, acidity being a key factor in the product's safety."

While the market for picante sauce is maturing in Texas, inroads are just being made in midwestern, northern and eastern states, notes Wagner. Thus there seem to be good opportunities for expansion of the picante sauce market into other

parts of the nation.

Through Wagner's office, the Extension Service is continuing to provide educational assistance and information of proper processing of picante sauces, maintenance of quality and safety as well as consumer awareness, acceptance and use.

The Texas Agricultural Experiment Station is working on developing improved pepper varieties which should be a boon to the picante sauce industry.

Each election year politicians try to convince us that they alone can save us from worse fates than those which have overtaken us since the last election.

Texas 4-H Scholarships Approaching \$700,000

Outstanding 4-H members from across the state will reap a bountiful harvest of scholarships at the 1986 Texas 4-H Roundup at Texas A&M University June 9-11.

More than 100 youth will receive scholarships totaling almost \$700,000.

"Our Texas 4-H scholarship program is second to none and continues to grow each year due to the tremendous support from the private sector," says Preston Sides, 4-H specialist with the Texas Agricultural Extension Service and executive

will not increase since the FCC in turn will reduce by an equivalent amount charges to long-distance carriers for use of local facilities and equipment. It is the intent of the FCC that this decrease in long-distance carriers' expense will be passed through to consumers in the form of reduced interstate long-distance rates. AT&T has already announced plans to reduce its interstate rates.

General Telephone officials said the subscriber line charges are designed to shift from long-distance users to local customers, a larger portion of the actual costs of providing the line from their residence or business to the telephone switching equipment. It was pointed out that long-distance rates have been artificially high to pay a portion of these costs, thus keeping local rates local rates artificially low.

Depending on the amount of interstate long-distance calling, the proposed reduced interstate rates could offset the two dollar fee for many customers, especially high volume users.

The two dollar subscriber line charge applies to all residential and single line business customers of all exchange telephone companies providing local exchange service.

Community Action

Boosting Program

To Help Children

South Plains Community Action, Inc. asks the following question? "Do you need day care for your children, but can't afford it?"

Working parents who meet income eligibility can be subsidized up to 90 percent of the cost of their children's day care, said a spokesman for the Community Action.

They say that the first priority is for Protective Children, AFDC and Food Stamp recipients in the program which is strictly planned for low-income families.

Eligibility for the program is based in family size and income, and parents must also be employed, attending school or in a Job Training program to qualify for the service. Children of those determined to be eligible will be placed in a licensed day care center or group day care home.

Also, said the spokesman, most of the subsidies go to single parent families, and added that the program has been in existence for three years.

For more information, call South Plains Community Action Day Care Broker System at 806/894-3649 and ask for Janie Cisneros or Estella Castellano. Or you may contact your local Community Action Center.

"All of these scholarships have a tremendous impact on the Texas 4-H program and provide educational opportunities for many deserving youth," says Sides.

HOW TO REPRESENT YOURSELF IN SMALL CLAIMS COURT

Every business that has accounts receivable should know how to use the small claims courts to collect delinquent accounts up to \$1,000.00. The small claims court provides a simple and inexpensive procedure to pursue collection of unpaid accounts that might otherwise be written off. Even though the small claims courts have been around for several years, many businesses don't use them because they aren't familiar with the procedure and how to use the court.

Now there is a practical guide to the small claims court for non-lawyer. *How To Represent Yourself in Small Claims Court* provides the information to enable everyone to feel secure in filing claims in small claims court. It explains how to file your claim and the entire procedure through obtaining and filing an abstract of judgment. Everyone should have a copy of this guide for reference.

This unique booklet sells for \$25.00, plus tax, and is available at the Muleshoe Chamber of Commerce office.

Seniors Of '86

Goodbye? No-

A New Beginning

Seniors of '86
Goodbye?
No-
A new beginning.

Graduates of '86 take with you
The aches and pains of yester
year.
Take with you
The tears of sadness and of joy.
Build upon them for tomorrow.
Be all that you can be.

You are our future.
We send you forth with
Shortcomings and strengths.
Your thoughts and your feelings
Have their roots here.
They grown deep-embedded in
our town

And in our school.
You will never be free of them.
Go forth now and grow;
Share your life with the world
and
Be all that you can be.

Farwell From

Mike Holt Senior Class President

On Friday, May 30, 1986, a major event will take place in our lives. We are ending one phase of our lives, but yet at the same time, we are starting a new one. We will be graduating and going our separate ways. We have so many things to look forward to and so many memories to hang onto. It seems as if it was just yesterday when we were taking our afternoon naps in kindergarten or chasing each other all over the playground. It seemed as if this time of our lives would never take place.

After Friday night many decisions, challenges, as well as opportunities lie before us. If we accept every situation and have faith, we will be successful. In closing, I would like to thank all the seniors of '86 for the privilege of being your class president for the past four years. I have enjoyed every minute of it and I hope all of you get the best in life.

Prophecy Of 1986 Senior Class

The human race was destined to live in space by the year 2001. *but* the Senior Class of 1986 was the first to achieve such a distinguished status. Upon their graduation date, May 30, 1986, several were already noted as Space Cadets and Air Heads. Fifteen years have passed and the Class of '86 research team has compiled a "white paper" on the famous, the infamous, the rich, and the poor of the 1986 Muleshoe graduates. Sit back, listen, and become spaced out when you learn about the state of your friends.

Mary Faulkner is a famous rock star and is on Saturday Night Live every week.

Joe Acevedo is giving safety courses on how to use a grinder and how to save a tooth.

Noe Mora and Becky Acosta are happy parents of six children-all of them being girls.

Joe Ambriz is still coming up with excuses for not writing his research paper.

Penny Bastardo, in diamonds and furs, has just returned from an out-of-town trip. Was this to see your boyfriend Penny???

Neomi Acosta has been married and divorced eight times.

Courtney Brown's car will still have under 500 miles on it; and Tracy's odometer will have rolled over ten times.

Donney Burris has his Ph.D. in Education and he is teaching

English at the University of Texas.

Brandon Cox is still trying to impress everyone with his clothes; only his Chick-n-Dock employees are impressed.

Scott Calvert is still laughing at Shawn "boiling" Bussey, for having a hard time controlling himself around girls.

Becky Casterena is a kangaroo doctor in Australia.

Andy Copley is the first white member of the Harlam Globetrotters.

Lee Copley is the mechanic at the downtown auto store in Lariat.

Leon Daniel is an old maid and all her married classmates come to her for advice.

Andrea DeLeon is married and has a pair of twins and her own photography studio called "Andrea's Space-Age Photography."

Gerald Dinbow is a gas engine expert with Sears.

Twila Downing is still wondering if her hair looks alright.

Caryn Durben is still trying to give Bobbi M. "the hint."

Jarrod Embry is a total, absolute, undeniable, unchangeable, BUM!!

Phil Espinoza has taken Don Johnson's place on Miami Vice.

Isidoro Trevino is the first one of his nationality to become President of the U.S. He has just called a strike against the

mad-dog of Libya.

David Navejar has a masters degree in Custodial Arts.

We are still waiting on David Vela to show up at the class reunion.

Lupe Rejino is still trying to get out of the Dairy Queen bathroom.

Loy Triana still likes himself better than anyone he has met, and he is president of his own fan club.

Tracy Stovall never misses a day of work because she works someplace that's always closed.

Steven Ethridge is "Top" man in the navy's trombone section.

Ben Allison is an attache and he serves as a negotiator between the U.S. and Libya.

Melissa Gabbert joins several other "bums" from the class of '86, who never seemed to be able to get to class, either.

Norma Franco owns the Wrigley's chewing gum factory.

Sylvia Flores is still her man's second choice.

David Shields is in prison, after having gone AWOL from the United States Marine Corps. (He couldn't get fired, so he just left.)

Kathy Mudford Ambriz is often seen shopping at K-Mart for her ten kids.

Rod Muyschondt is working on his third million. He recently left MHS one million so they can put in windows.

Karen Wooten owns a business in Needmore, and it is called "Karen's Boutique, Gas, Bar, and Grill."

Jeff Vinson is seen at Camille Buchanan's house every night. But she still has not decided if she wants to say yes to marriage.

Sherri could not find anyone to will her big mouth to in '86, so she is now using it in her career as anchor woman on Entertainment Tonight.

Stacy Smith is still trying to learn how to perfect her jump for the high school reunion pep-rally.

Jimmy Sides is still trying to find a place to stay. Good Luck Jimmy!!

Sean Shipman is a great Shakespercan actor. The English IV classes of his mater travel to Odessa to see him in *The Tempest*. Scan-This time it was a good production.

Priscilla Sandoval is on a world tour and could not be contracted about the class reunion.

If you look real closely in the Klondike, you can see Nina Sandoval and her Eskimo husband building igloos for their children.

Maria Sanchez is also on a world tour and could not be located for this reunion.

Julie Sanders is still mothering the class of '86.

Band Beats It's Drum

The Mighty "M" rounded out the year exceptionally well. They held a Spring Concert Tuesday night May 20. The sixth grade bands played first and showed considerable improvement on their musicality. The Jr. High was next, but before them was the latest addition to the music program, a Jr. High Jazz Band. They performed with considerable talent and were received well by the audience.

The High School Jazz Band and Concert Band were next to play. The concert band played "The Golden Age of Rock and Roll" as a tribute to some older members of our audience. They also played "Trombone Rag" and "Frolic for Trombone" in honor of the trombone section, which is mostly seniors.

The band is also planning an end-of-the-year party sometime after school lets out.

The year also closed on the election of next years officers. They are: president, Leah Bell; vice-president, Francisco Ybarra; secretary, Susie Leal; historian, Richard Muyschondt; chaplain, Elizabeth Posados; senior representative, Freddy Paez; junior representative, Ramon Garcia; sophomore representative, Christie Mata; freshman representative, Ronnie Gail Barrett.

They also had flag and drum major tryouts. The results were: Drum Major, Lisa Hamilton; Asst. Drum Major, Sue Haire; Flag Captain, Elizabeth Posados.

The other members of the flag corp are: Emilie Martinez, Rachel Pineda, Elizabeth Berry, Roxanne Richards, Tricia Underwood, Christy Pena, Cheri Livingston, Shonda Strahan, Brenda Mudford, Holly Huckaby, and Connie Perez.

We would like to congratulate all of the students for their accomplishments, and we look forward to hearing great things from them next year!!!

Tribute From a 1985 Graduate To Senior Teachers

I would like to send a salute to five special ladies in Muleshoe High School. Mrs. Esther Marie Dillman, Mrs. Lucy Fay Smith, Mrs. Johanna Wrinkle, Mrs. Marilyn Miller, and Mrs. Jean Allison all deserve "Medals of Honor" for all their hard work and dedication to their many students. Each year they give an endless amount of love, respect, honor, and support to every student they teach. I, for one, cannot thank them enough for what all they have given to me. Without their courage and devotion, I would not have made it through my first year at Eastern New Mexico University. So here's to you! This year will probably be the last one for one of these special ladies, and I just wanted to let them know that I love them all.

Project Graduation Set

The 1986 graduating seniors will attend ENMU after graduation ceremonies Friday night. A busy night is planned for the group, including a dance contest. Door prizes will also be awarded. The senior class would like to take this time to thank the following businesses for donating gifts for the contest and door prizes for Project Graduation: Anthony's, Lookin' Good, Poyners, Wilson Appliance, Western Drug, Something Special, Perrys, and Lindsay's Jewelery.

The senior class would also like to thank Mrs. Mike Perez for making the corsages which will be worn by the ushers at graduation. Mrs. Perez is also making the center piece for the reception which is to be held after graduation.

Senior Prophecies

Jose Sanchez is working as a gaucho to feed his 15 kids, while his wife lies around the house getting fatter by the minute.

Zaena Robertson was overheard telling her children to not ever skip school. She adheres to the "Do as I say, not as I did" philosophy.

Amanda Rejino is a flamingo dancer at the Pink Pogota.

Picasso beware!! Spencer Reamy is a pioneer in painting techniques, thus making it possible to live comfortably by scraping paint over a canvas and selling it for a fortune.

Micheal Precure is still trying to figure out Coach Scott's reasoning in starting a certain sophomore on the 1985-86 basketball team.

Jay Stovall is still looking everywhere for a party.

Manuela Valdez is a speech therapist for cowgirls.

Jim Ward is sitting behind a big desk in Colorado co-owner of Colby-Co., riding around in a limo from Colorado to California.

Ricky Rasco is pro football trainer in the fall and delivers milk to the planet Mars in the summer.

Sylvia is still telling us about her trip to Georgia, thinking everyone has eyes only for her. She and Noemi are still chasing the same boys.

Sammy, Gig, and Wes still meet at 7:45 every morning.

Michele Perez is the first woman priest. Later this year she hopes to be elected first Pope.

Adrian Perez, "the streaker" surprised the audience when he appeared at the half time activities of the recent Dallas Cowboys-Washington Redskins game.

This year Mary Helen Orozco is finally found. She was carried off by a tribe of cannibals while sailing in Africa. She was found with seven rings on her neck and a bone in her nose.

Deborah Nieman still misses only one day of work a month. She is currently Vice President of First Bank.

Joe Bob Newman is still stopping to sleep at his favorite Muleshoe traffic light.

Ramona Murillo was seen at a recent party autographing her new best seller "1001 Ways to Skip Your Job".

Heather Merritt has a suc-

cessful business of fasion design and marketing.

Kenneth Maxwell is a computer programmer for the U.S. Marines.

Paul Martinez owns a chain of "La Mulita's."

Fabian Martinez is earning his living writing poems.

We still hear Diana Martinez asking the trivial question, "Is that due today?"

Susan Lunsford has her own line of cosmetics called, "Susan Kay". All the employees drive gray 6-door limousines.

Connie Lott is still blistered from the tanning booth.

Rubeun Lopez is on a lecture tour in Europe promoting his new book, *How to Build Self-Confidence*.

Rosie Lopez is teaching health at Princeton.

Micheal has just won Mr. Universe Body Building contest for the first time.

Ronnie Logsdon is a famous track coach at the University of Texas.

Micheal Precure is still trying to decide why he received the O.T.L. award in '86.

Casey Wilson is bouncing around in Australia with the kangaroos.

Marvin Ward is living in Dallas in his mansion with his wife and 13 kids. He owns his own advertising agency.

Adena Lindt is married to Chris Johnson and has six kids. She is coaching little dribblers because she did not go to Sterling.

Sergio Leal has reached the ultimate milestone in tortilla making. He has produced 100 billion tortillas and is still going strong.

Leslie Langfitt and Darin have been married and divorced... and married and divorced. Neither of them seem to want the children.

Kristy Landers is still out-scoring Mike Harris in Trigonometry.

Wade King holds the record for the student attending University of Texas for the longest length of time-15 years!! All his classmates have just received a graduation invitation from him.

Bret King is still ignoring Julie Sanders!

Leah Irvin did not get to be the designer she hoped to be because she forgot to go to school and take the test for her certification. So she is a

waitress at the local coffee shop.

Zanna Huckaby STILL has to be in by 10:30!

Brian Houston is a millionaire because of writing a book: *How to Obtain Perfection in Speaking!*

Mike Holt is still trying to find out why no one could catch his passes in the '86 Portales football game.

Jessie Holmes is flying a F1-11 for the United States Navy. The Russians think of Jessie as a great threat to their country. Jessie never married so she is totally devoted to helping others.

Carolyn Hodges is a model for CHIC jeans.

Caice Hendrix arrived from a European tour. She is extremely rich. Her first stop is always at Adena's to see the six little Johnsons.

Senator Mike Harris is brown-nosing the President so that he can become a member of the Arms Committee.

Jayna Harris is now a co-owner of Muleshoe Motor. She hires only graduates of MHS to work for her.

Steve Griswold still comes home from Clovis at 4:30 a.m. Remember that Steve??

Laurey Grant still must call her mother before she leaves town to go home.

Gino Guana is still trying to make Lazbuddie the state capit-ol.

Yolanda Garcia is still following Sylvia's every move.

Juanita Garcia is patiently waiting for Michael Del Toro to set their wedding date.

Bea Garcia is still waiting for a proposal from Charlie. You might as well give up Bea.

Rudy Pena has taken Kareem Abdul-Jabbar's place as the world's tallest basketball player.

Jaime Torres is repainting the Sistine Chapel. He didn't like Michealangelo's work.

Rosemary Silva is a world famous marriage counselor in Europe.

Ramon Solis is still trying to get Lisa Hamilton to go out with him.

Russell Young is living on a beach in California wondering what Amy Bean is doing.

Do You
Do something every day to make other people happy, even if it's only to let them alone.

Rosa B. Allison Funeral Services Scheduled Today

Funeral services for Rosa B. Allison, 90, will be held at 11 a.m. today, Thursday, May 29 in the Calvary Baptist Church with the Rev. Bill Felts of Parie, officiating, assisted by the Rev. Darrel Martin, pastor.

Interment will be in Muleshoe Cemetery under the direction of Ellis Funeral Home of Muleshoe. Mrs. Allison died at 5:50 p.m. Sunday in South Plains Hospital at Amherst.

Born July 21, 1895, in Van, Tx., Mrs. Allison had been a resident of Bailey County since 1951 moving here from Pottsboro. She was a housewife and a member of the Muleshoe Calvary Baptist Church. Her husband, John Ottis Allison, died in 1978.

Survivors include three sons, Alvin Allison of Muleshoe, Bernie Allison of Grand Junction, Colo. and Dick Allison of Madera, Calif.; a daughter, Mrs. Ruth Woodall of Littlefield; two sisters, Mrs. Lavada

Bullock of Irving, and Mrs. Dola Fufts of Irving; two brothers, Lewis Davis of Irving and Pete R. Davis of Lubbock; 11 grandchildren; 14 great grandchildren; and two great great grandchildren.

Walter West Services Held In Morton

Funeral services for Walter F. West, 74, of Hereford were held at 2 p.m. Sunday, May 25 in the Ellis Funeral Home Chapel at Morton with the Rev. Steve Thomas, pastor of the First Baptist Church of Morton, officiating.

Burial was in Morton Memorial Cemetery under the direction of Ellis Funeral Home of Morton. Justice of the Peace O.K. Neal pronounced him dead Friday in Hereford.

He was born on Dec. 9, 1911, in Loraine, Tx, and had been a resident of Hereford one year moving there from Morton. He was a general laborer and a veteran of World War II, serving in the U.S. Army.

Survivors include a sister, Sallie Parrack of Hereford; a brother, Travis "Buddie" West of Robert Lee, Tx.; and a number of nieces and nephews.

Note to graduates: Life is too short for a complete education.

Letter To The Editor

To the editor:

This letter is a request for your help. When Bill Bradley, former band director at Big Spring High School past away two years ago, many of you contributed to a memorial scholarship fund set up in his name at Texas Tech (University).

As of today there is \$1,700 in that fund. We still need \$3,300 for the scholarship to be permanently endowed. If the amount is not met in the next month, the money will be put into a general scholarship fund with no special designation to honor Bill.

For more information, contact Dr. Harold Luce at the Tech Music Dept.

Silver Haired Legislature Candidate Visits Muleshoe

W.A. "Dub" Leigon of Brownfield was visiting with senior citizens in Muleshoe this week on behalf of his candidacy for the Silver Haired Legislature. Since this is the first election for the Silver Haired Legislature, there are many questions as to what it is and what it hopes to achieve. On April 3, 1986, the 69th Legislature passed Senate Concurrent Resolution No. 37, which supported the creation of a biennial Silver Haired Legislature in Texas. The bill was passed into law on April 11, 1986, making Texas one of many states to adopt such a program. The Texas Silver Haired Legislature is an elected representative non-partisan body of senior citizens elected by senior citizens. The first Texas Silver Haired Legislature will meet in Austin in 1986 for the purpose of considering and voting on proposed legislation that concerns the needs of older Texans. The objective being to serve the

needs of both present and future older Texans.

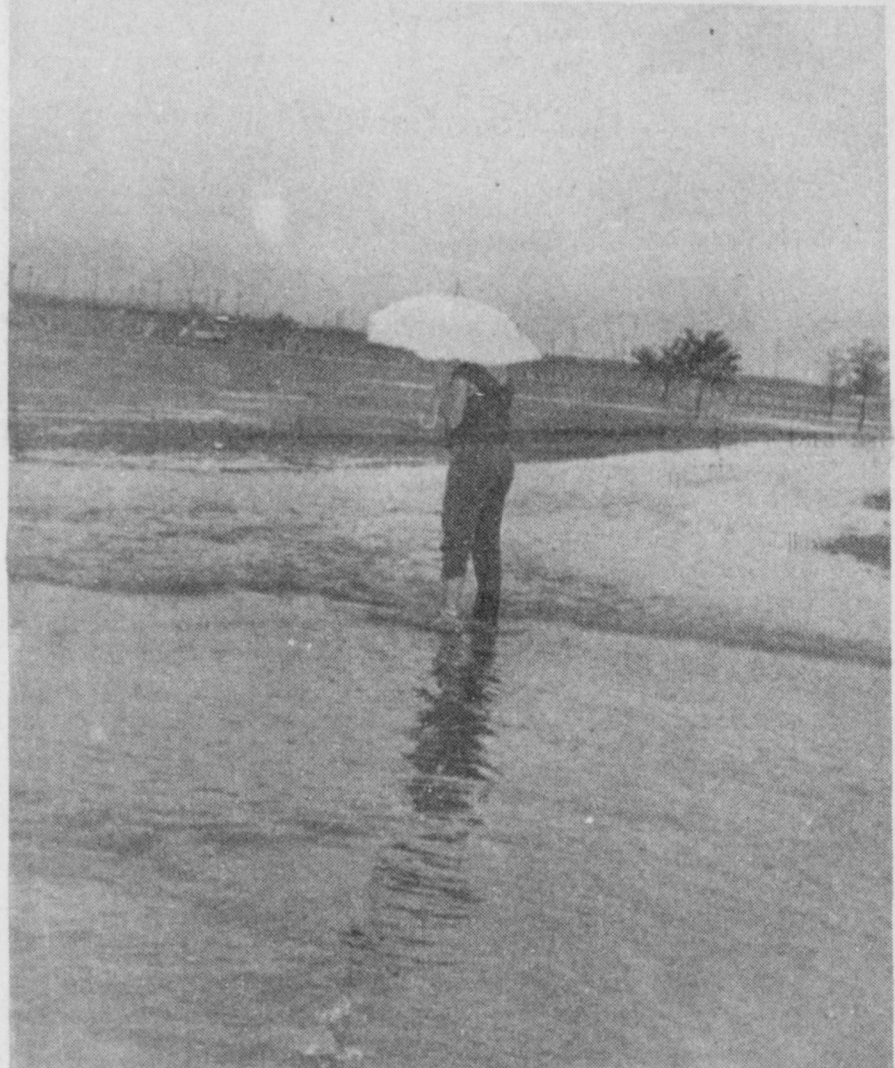

The Silver Haired Legislature will develop a forum for older Texans for discussion of senior citizens issues and establishing legislative priorities for the Texas Legislature to consider. The Silver Haired Legislatures will serve in no official state or federal capacity. They will pay their own expenses to be elected and for all meetings. Taxpayers bear no cost for the election or conduct of business.

Leigon is a candidate for the seven county area consisting of Terry, Lynn, Yoakum, Hockley, Lamb, Bailey and Cochran Counties. Any person who declares he/she will be sixty (60) or older on January 1, 1986, and is a registered voter of the state of Texas shall be eligible to vote in county of residency. Election Day is May 30, 1986. Hours of voting are 10:00 a.m. to 2:00 p.m. at Judge Williams office in the courthouse.

Senior citizens are concerned with the many problems confronting them. Long term medical illnesses, taxation, forced retirement, insurance costs and funding of aging programs are just a few of the issues. Persons 65 years of age or older make up 12 percent of the population. As the number of elderly continue to increase, new problems will continue to arise. The Silver Haired Legislature provides a vehicle through which the problems may be channeled and solutions sought.

Against the Sea

Have you ever wandered idly along a sandy ocean beach or the rocky shore of a lake and come upon the battered hull of an old boat? Perhaps the bottom has been smashed in or the sides leak so badly that probably the repairs would cost far more than the old boat is worth. So it is left to rot, abandoned to the merciless pounding of the wind whipped surf and the constant destruction of the surging water. Let us consider for a moment how many people of our acquaintance have, through their own choice, made their lives very much like this old boat. They have let the destructive waters of malice and greed eat away at their hearts and minds until their lives have become as worthless as this rotting hull. And yet, God in His Infinite Mercy will not let man be abandoned. There is no measure of His forgiveness if we but acknowledge that He is our Father and we are His children. There is no life that He considers worthless or beyond repair. Begin now to attend the church of your choice regularly... for through the church you will know of everlasting life.

Matters Of Health From West Plains Medical Center

TAKING YOUR BLOOD PRESSURE AT HOME

I know some people buy machines to take their own blood pressure at home. Should I be doing that too?

Not necessarily, but if one day your doctor recommends it, don't panic. It's just a means of helping both of you keep track of your blood pressure over time so that you can get necessary treatment. It's not hard to do, but it is most important that you learn to take your blood pressure correctly, because inaccurate readings are useless to you and your doctor.

First of all, here's what happens when a blood pressure reading is taken at the doctor's office: The cuff of the device is wrapped around your arm while you are sitting down and resting your arm on a table, and it becomes tight at the doctor or nurse pumps a bulb on one end. The blood flow through the artery in your arm is eventually completely cut off. However, the blood is still rushing up against the closed-off area. It's trying to get through, and makes a tapping sound that can be heard through a stethoscope placed on the artery.

When this tapping first be-

gins, the top number, or systolic reading, is taken. This number reveals the pressure as the heart is contracting and getting blood to the organs. As air is gradually released from the bulb, the blood vessel begins to slowly open and the blood moves through. But at first it hits against the sides of the blood vessel, still constricted, and continues making a tapping sound. As the air is released and the vessel is opened completely, the sounds disappear. At that point the bottom or diastolic number is read--the heart is resting, and the blood is returning to the heart to get re-oxygenated before it is pumped out again.

If your doctor asks you to take your own blood pressure at home, you may have to do it several times a day at first, mainly to get used to the procedure, and then reduce that to twice a week or so--timing that varies from patient to patient. Before proceeding to monitor your blood pressure, have the doctor or nurse carefully check out the equipment you buy, and make sure they thoroughly teach you how to take your own readings. Practice with the nurse watch-

ing you after you've been taught, because there are lots of mistakes people make that can result in inaccurate readings. If you learn it correctly the first time, you'll save yourself plenty of worry over too-high or too-low readings.

You can buy a reliable blood pressure device at a good drugstore for \$20 to \$30. There's no need to pay more, but inexpensive equipment might not give you good results. A good blood pressure cuff should last for years. Your purchase should contain the cuff, the meter (aneroid monometer), a stethoscope (either built in or unattached), and a diary for recording readings. Speak with your doctor for more specific details concerning the equipment.

It is not necessary for all hypertensive patients to monitor their own blood pressure. This is an individual preference dependent on the physician's opinion of the situation. If you want to or are advised to take your blood pressure at home, however, or to help family members monitor theirs, it can give you the good feeling that comes from being responsible for part of your own healthcare.

SLEEP APNEA: HELP FOR A FRIGHTENING PROBLEM

I have been awakened at night by my husband choking, and although he insists he's sleeping well, I'm worried and losing sleep. Should my husband see a doctor?

Yes, your husband should consult the family doctor about his problem sleeping at night.

Although your husband denies any trouble sleeping, his choking could be a sign of a syndrome called sleep apnea.

Apnea refers to a temporary halt in breathing, usually for periods of up to 30 seconds or longer, and that means there is a lack of oxygen to the muscle and organs, including the brain. The syndrome is most often seen in middle-aged men who are extremely overweight. The person with sleep apnea may, as in your case, wake his or her bed partner or even someone in a nearby room with loud snoring and restlessness followed by the apneic (stopped breathing) periods when all is quiet. The cessation of breathing can be very frequent with interruptions of snoring or choking sounds, and this will sometimes awaken the person affected by the apnea.

In certain cases, sleep apnea becomes so severe and disrupts normal sleeping patterns to the point where daytime sleepiness presents real problems, including falling asleep at work and in social situations. Sleep deprivation can turn everyday working conditions into dangerous circumstances, especially if work includes driving vehicles. It is therefore of great importance that your husband seek medical help.

The most common cause of sleep apnea is blockage of the upper airway or throat area. The walls of the airway and the back of the mouth may draw together or collapse while taking a breath. When this happens, breathing may become shallow or irregular, any may temporarily stop altogether.

The doctor can probably determine whether your husband is suffering from sleep apnea by close questioning during the history and physical exam. Further tests should reveal whether the apnea is a result of airway blockage or "central" apnea; that is, a sleep-induced breathing disorder not caused by an obstruction in the airway. The doctor also will determine the severity of the problem by examining the heart. Sleep studies in hospitals sleep laboratories will best illuminate any heart complications related to the periods of apnea.

If you are at risk for sleep apnea episodes, there are some simple steps you can take to decrease the chances of this frightening syndrome occurring or for controlling the problem. Major weight reduction is key in people who are obese, and therefore at risk. Your doctor may suggest some type of device if the problem is determined to be a blocked airway. These include nasal tubes or tight-fitting masks over the nose.

In other cases, it may be necessary to use medication to control obstructive sleep apnea. These medications are usually used in combination with weight reduction. Your doctor may suggest the use of oxygen during the night. But this method of treating sleep apnea has not proved to be an effective therapy.

CELLULITE: HOW SERIOUS A PROBLEM?

Does "cellulite" really exist? Can the dimpled, fatty

skin they call cellulite be massaged or dieted away?

Cellulite (pronounced cell-u-leet) is not a medical term but rather is a word coined by a French author in describing fatty deposits or lumpiness on the upper legs and arms that women appear to get as they age. No one knows if cellulite really is a medical condition, whether it really is a result of the aging process, or whether anything can be done to prevent or eliminate it.

Unfortunately, little if any scientific research has been done on the subject, and many of the so-called treatments advertised in women's magazines and sold in high-priced department stores are simply a waste of money.

Liposuctioning, or fat suctioning, which is now used to help remove fatty deposits in obese people, is sometimes recommended for, or requested by, women with cellulite. But it does little good, apparently because the fat in cellulite is so diffuse.

Massage, popular with the French and a part of many of those expensive department store kits, is also useless. So are dietary changes. In fact, if you thought cellulite was directly related to fat, you'll be surprised to know that there is no proof of that theory, since thin women also get cellulite.

So is there any hope at all for women with cellulite? Perhaps the best answer is, not yet. Good muscle tone can't hurt, since it makes you look better in general (as does a good diet).
