Establish Packing Sheds Here

On last Tuesday the Manager, Mr. Geo. Schrader of the Valley Fruit and Storage Co., visited Artesia and looked over the apple orchards in this vicinity with the growers. He finds about forty cars of good market apples around Artesia, and has decided to establish sheds here with Mr. Lowry, an experienced and expert packer in charge to receive the fruit as it is brought in. He has already contrrcted for the hauling of a large part of the apples around Artesia and expects to handle the greater portion of the crop.

Mr. Schrader has been in active business at Roswell for several years and the Valley Fruit and Storage Co., is composed of reliable business men of that city and they offer to handle the fruit on the best possible terms for the benefit of the orchardists. They invite the correspondence of all perthe market, and they will be growers.

London, Aug. 31.-After a week of terrific fighting, the Austrian army of 1,000,000 men has suffered a hopeless defeat at Zamose, fifty miles southeast of Lublin, in Russian Poland. For days the battle was in doubt. Austria brought regiment after regiment to hurl against the Russian advance; she sacrificed a large part of her cavalry in the attempt to turn the czar's progress away from Lemberg and Tarnow in Galicia. But the steady, relentless march of the Russian soldiers finally exhausted the Austrian troops and they are now in full flight.

A WONDERFUL CLUB.

Yes, I have heard that the saloon is the poor man's club. It is a club with peculiar advantages. It saves the poor man from paying taxes by keeping him everlastingly broke. It shields him from the responsibility of owning his home. It gives him that peace of mind known to the fellow who don't know where he is going to live next Monday. It enables 50 per cent of the poor men who are killed in factories to be killed. It is a wonderful club. It prepares the poor man's body for typhoid and pneumonia so completely that he is sure to die and thus he is kept from gambling on his chances. It is a merciful club, for it takes a man to the card table where he can be robbed without being knocked down. It cashes a poor man's check on Saturday night, and this is not all, for it relieves the poor man's thirst, and if he has no thirst this great-hearted club gives him one. It gives him free lunch, and after that he will have thirst enough for everybody in town.

All the advantages of this club are not for the man. They go to the poor man's family too. There is little Johnnie who wanted to go through school and become an engineer. There is the little girl who wanted to become a music teacher. But the club knocks all that nonsense out of their heads. It sends Johnnie to the coal breakers and poor little Mary out into the world where men prey on their kind, and she falls by the wayside. Oh, it is a great club .- Ex-Congressman Fred Landis of Indiana.

INTERFERING WITH LIBERTY.

"I do hereby order all places within said district where intoxicating liquors are sold or kept for sale, to be closed; and I do further hereby order all persons to be excluded from such places, and I do hereby prohibit the purchase or receiving, or the selling, giving away or otherwise disposing of, or permitting of others to obtain possession of any intoxicating liquors of any kind or in any quantity, in the district so above described."

Thus did Governor Ammons of Colorado, in a proclamation issued June 5, curtail the personal liberty of the people living and doing business in the northern Colorado strike districtsome 520 square miles. The ruling applies not only to every coal camp, but also to the railroad lines running through the district. Not only is the liberty to sell taken away, but also the liberty to give away or to obtain possession of in any way any alcoholic

liquor of any kind in any quantity. This proclamation was issued at the in a decision handed down by Judge request of Major Symmonds, in com-T. McClure in the District Court, This | mand of the federal troops occupying the district, and is to be in effect for

LIQUID POISON.

Beer, sometimes referred to as "liquid bread," is rather, according to the verdict of physicians and scientists liquid poison. Dr. Hugo Hoppe, the famous nerve specialist of Konigsberg. Germany, says: "Because the symptoms of chronic alcoholism appear more slowly and are less readily observable in the heavy beer drinker than in the whisky drinker, the former is more frequently met than the latter. But thousands and tens of thousands of men who take their daily pint are rendered stupid, silly and dissolute by beer. Beer alcoholism in general lowers the resistance of the body to all diseases by injuring most of the organs, and herein lies the chief danger in the general widespread use of beer. The death from liver diseases among brewers in England is more than double that in all other occupations.'

SELLING, NOT DRINKING.

In Washington, D. C., while the National Liquor Dealers' Association was holding its meeting, a reporter said to a bartender of that city, "I suppose you are not complaining of business with the Liquor Dealers' convention in town." "Say, Bo," responded the bartender with a stare of amazement, "I guess you don't know what convention this is. Them fellows don't drink it, they sells it."

CONSUMES MOST LIQUOR.

Wisconsin, largely a foreign-born state, has the largest consumption of liquor of any state in the Union, namely, 64.51 gallons per capita. Next to it is New York with 45.31 gallons per capita, then New Jersey, with 39.87 and Illinois with 39.13. The 15 local option states have only an average of 4.37 gallons per capita and the prohibition states only 1.35 gallons per cap-

MODERN TOWNS.

It is an uncommon thing in Kansas to find a town of 1,000 inhabitants without electric lights and waterworks and its business streets unpaved. The money that years ago went the human canal route now goes into happy homes, public schools and civic improvements.-Gov. Hodges.

A PROPERTY RIGHT.

A man's sobriety is a property right. The saloon is responsible if it destroys that right. Even though the man himself is to blame, as he certainly is, the saloon is responsible.-The Advance (Cong'l), Chicago.

There exists now a new, compelling reason for buying Goodyear tires. It results from War conditions.

These leading tires built of extra-fine rubber, in the same way as always are selling today at June prices.

You will find today a very wide difference between most tire prices and Goodyears.

Due to Quick Action

Early in August-when war began-the world's rubber markets seemed closed to us. Rubber prices doubled almost over night.

Men could see no way to pay for rubber abroad, and no way to bring it in. We, like others-in that panic-were forced to higher prices. But we have since gone back to prices we charged before the war, and this is how we did it:

We had men in London and Singapore when the war broke out. The larger part of the world's rubber supply comes through there. We cabled them to buy up the pick of the rubber. They bought-before the advance-1,500,-000 pounds of the finest rubber there.

Nearly all this is now on the way to us. And it means practically all of the extra-grade rubber obtainable abroad.

Today we have our own men in Colombo, Singapore and Para. Those are the world's chief sources of rubber. So we are pretty well assured of a constant supply, and our pick of the best that's produced.

We were first on the ground. We were quickest in action. As a result, we shall soon have in

storage an almost record supply of this extra grade of rubber.

And we paid about June prices.

Now Inferior Grades Cost Double

About the only crude rubber available now for many makers is inferior. In ordinary times, the best tire makers refuse it. Much of it had been rejected. But that "off rubber" now sells for much more than we paid for the best.

The results are these:

Tire prices in general are far in advance of Goodyears. And many tire makers, short of supplies, will be forced to use second-grade

Be Careful Now

In Goodyears we pledge you the same grade tire as always. And that grade won for Goodyears the top place in Tiredom-the largest sale

And, for the time being, our prices are the same as before the war. We shall try to keep

We accept no excessive orders, but dealers will be kept supplied. And we charge them, until further notice, only ante-bellum prices.

That means that Goodyears-the best tires built—are selling way below other tires.

Submarine in War.

Many of the early submarines are small and probably of little efficiency, and France has numerous types about which little is known by the outside world. The German submarines are said to be built along the Holland lines, while the Russian submarines are said to follow one or more of the French types.

The submarine, from a romantic viewpoint, should be a great factor in deciding a naval engagement, but the fact remains that up to the present time it has done nothing to prove its value. It was believed that the moral It is much the same with the wire- effect of the submarine would be althis belief has not been justified up to the present moment.

There were notions that there would be terrific fights under the seas by submarine meeting submarine and destroying each other. But it has been found that when submerged the submarine is as blind as the traditional bat. Its crew cannot see any object under water, and is compelled to resort to the use of the periscope, which emerges unostentatiously above the water, in order to see its own course.

It is known that the periscope is the eye of the submarine, and naturally attention has been paid to the best way of destroying this vital part of

The designers of the submarine did not count upon it being seen. It was believed that it would go upon its way, dealing death without observation, although its periscope does make a slight wake on the water, and when submerged there are telltale bubbles. But it has been discovered that from the course of a submerged submarine balloon and the aeroplane now can ferret out the sneaking submarine, and they both are supposed to be armed to

Use A-1 Surface Irrigation Pipe AND SAVE YOUR WATER

Think of the Immense Loss by Seepage and Evaporation

Water cost money and wasted water is wasted money. The loss by seepage alone in dirt ditches amounts to from 1 to 60 per cent of the total water pumped per mile. In some soils over half of the water is lost before it reaches the place where it is needed. By using this pipe all the water delivod is used, there is practically no waste. Worth consider-

WHY does our A-1 Surface Irrigation Pipe stand the hard usage to which it is subjected better than any other pipe, riveted or otherwise? BECAUSE it is made with a lockseam set down under 3500 pounds pressure, which requires no soldering to make

it water-tight. (Soldering will break loose by jarring and hard knocks.) A-1 Pipe was awarded first prize at Fresno and Santa Clara County Fairs in 1912.

The Santa Fe Convention.

From the Albuquerque Journa (Republican.)

Probably never before has there been held a state convention of a party numerically dominant at the close of which it was admitted by ever person of judgement that the head of the ticket nominated was doomed Thomas Benton Catron is to defeat by a big myjority.

SYNOPSIS.

Bud Hooker and Phil De Lancey are Bud Hooker and Phil De Lancey are forced, owing to a revolution in Mexico, to give up their mining claim and return to the United States. In the border town of Gadsden Bud meets Henry Kruger, a wealthy miner, who makes him a proposition to return to Mexico to acquire title to a very rich mine which Kruger had blown up when he found he had been cheated out of the title by one Aragon. The Mexican subsequently spent a large sum in an unsuccessful attempt to relocate the vein and then allowed the land cate the vein and then allowed the land to revert for taxes. Hooker and De Lanbey arrive at Fortuna near where the mine, known as the Eagle Tail, is located. They engage the services of Cruz Mendez, who has been friendly to Kruger, to acquire the title for them and get a permit to do preliminary work. Aragon protests and accuses them of jumping his

CHAPTER VII-Continued.

For a minute Don Cipriano stood looking at him, his black eyes heavy with rage; then his anger seemed to fall away from him and he wiped the sweat from his brow.

"Very well," he said at last, "I perceive that you are a gentleman and have acted in good faith-it is only that that fellow Mendez has deceived you. Let it pass, then-I will not quarrel with you, my friend-it is the fortune of war. But stop at my store when you go by and come and see me. It is indeed lonely here at times, and perhaps I can pass a pleasant hour with you. My name, senor, is Don Cipriano Aragon y Tres Palacios-and yours?"

He held out his hand with a little gesture.

"Philip De Lancey," replied Phil. clasping the proffered hand; and with many expressions of good-will and esteem, with a touching of hats and a wiggling of fingers from the distance, they parted, in spite of Bud, the best of friends.

CHAPTER VIII.

There are some people in this world with whom it seems impossible to quarrel, notably the parents of attractive daughters.

Perhaps, if Gracia Aragon had not been watching him from the window Philip De Lancey would not have been quite so cordial with her father-at least, that was what Hooker thought, and he was so badly peeved at the way things had gone that he said it,

Then, of course, they quarreled, and, one thing leading to another. Phil told Bud he had a very low way of speak-Bud replied that, whatever his deficiencies of speech might be, he was not fool enough to be drawn in by a skirt, and Phil rebuked him again. Then, with a scornful grunt, Bud Hooker rode on in silence and they said no more about it.

It was a gay life that they led at night for the Fortuna hotel was filled with men of their kind, since all the staid married men had either moved across the line with their families or were under orders to come straight home.

"Why, what's the matter?" said De Lancey, when they were on their way; 'don't you like the hotel?'

"Hotel's fine," conceded Bud, "but I reckon I'd better camp out at the mine. Want to keep my eye on that Mexican of ours.

"Aw, he's all right!" protested Phil. "Sure," said Bud; "I ain't afraid he'll steal something-but he might take a notion to quit the country."

"Why, what for?" challenged De Lancey. "He's got his wife and family here.'

"That's nothing-to a Mexican!" countered Bud, "But I ain't figuring on me nothing-what I want to do is to keep him from going. Because if we lose that Mex now, we lose our mine.' "And-

GREAT INFLUENCE OF BEAUTY | myriads of infinitely petty, wasteful

Though Too Often Ignored, It is as Deep and Useful a Part of Life as Utility.

Beauty is as deep and as useful a part of our general life as is what we term utility. It has just such a reason for being; it has a similar force; it has a set place in the scheme of the world. Eyes not fully opened to the beautiful are not wholly alive to the influence of beauty upon our lives and our actions. Alas! sometimes we scoff at the highest expressions of beauty. That is to say, the highest human expression.

Those even greater beauties, which Just think for a moment. Take yourself away from yourself and contemplate yourself and your living, set and sat up suddenly. Here was a new against the background of the univer-

and useless thoughts and actions, desires and dislikes which occupy your day. At the moment you read this, take yourself back two years ago. Of course, you have not the slightest conception of what happened. But let me tell you that on that day, two years ago, were happening two, a dozen or a hundred things which seemed to you to be supreme importance. Do you understand how we fill our lives to the brim with millions of such trifling inconsequences?-Kansas City Star.

Base Ball on the Sabbath Day

Base ball may be alright on week days, but it is all wrong on the Sabbath day. With its ing excitement, noise and confusion it is a gross violation of the South, Range 26 East, N. M. P. M., and the south half of the northeast law of the Sabbath day. A quarter [8½NE¾] of Section Eleven and the west half of the northwest kind, loving Father and Creator has given us six days for our employment and recreaeast, N. M. P.
