growers was held in Artesia at vaccinated and when buying by Mrs J. B. Atkeson, the Majestic Theatre on Tues- hogs dip them before putting day and a lively interest was them in your herd. manifested in the meeting. It was evident that the farmers here do not contemplate giving up the raising of hogs because of the fact that cholera has appeared in the valley this year and in some places has almost exterminated the herds, where no preventatives had been us-

The address of Dr. A. J. Pasne was most instructive and showed that he is an authority on the subject. He said that hog cholera is a specific, infectious disease that is peculiar to the hog alone and very similar to typhoid in the human. He said that the disease is all over the United States and that this state is more free from it because there are fewer hogs raised and our perpetual sunshine, he said, also acts as a natural disinfectant.

Discussing the symptoms of an ordinary case of acute hog cholera, he stated that any illness was a symptom and should always be watched, If the animal has an arched back, or is tucked up in the fanks, its temperature should be taken after the second iday. If the pig shows a weakness in the hind-quarters one may reasonably assume that the trouble is cholera as this is one of the characteristic symptoms of the disease. After this the hog will keep getting weaker until it cannot stand. The normal temperature of a hog is from 101 to 102. In cholera the temperature may go up to 104 to 110. There will also be an inflammation of the mucous membrane and of the eye. This may continue until the eyelids are stuck together. All these symptoms are followed by a gradual loss of appetite. A cough may or may not be a sign of the cholera.

The hog squeal is different the hogs use one per cent

in cholera than in health. In solution." cholera the hog does not seem to care whether he squeals or not. This is another sure sign of the disease.

BATTLE AT LILLE

AUSTRIAN TROOPS TURN IN TI-GER-LIKE ATTACK AFTER DE-FEATS AND PURSUE MUS-COVITE INVADERS.

Western Newspaper Union News Service

London, Oct. 13 .- The Kaiser is hurling great masses of cavalry against the line of the allies in the neighborhood of Lille near the Belgian border and a critical battle is in progress at that point. It is the evident intention of the Germans to break through the allies' line and prevent a who escaped from Antwerp.

The flanking movement of the allies continues and desperate efforts are being made to circle the German left and join the defeated army at Ostend Should the Germans succeed in their attack on Lille it will compel the troops in the extreme west to discontinue this movement and go to the support of the defenders there. Meanwhile the German army which captured Antwerp is being hurried across Belgium to the support of the Kaiser's lines along the frontier. The number available because of the reduction of the Belgian metropolis is estimated at between 300,000 and 500,000 men.

It is asserted that the Germans have entered Ghent.

The finger of the censor having twisted the tourniquet on all direct sources of news from Belgium, just now perhaps the most potentially important scene of the fighting in the great war, the British people were forced to content themselves with the official communication from Paris, and even a close analysis of this showed no marked change in the situation favoring either side.

The British and Belgian troops who retired from Antwerp before the German occupation, with the exception of those who are now interned on Dutch soil as a result of having crossed the border, have been swallowed as completely as if they had been buried under the ruined forts. For military reasons their position and the area of hosment by the Japanese legation, three tilities in Belgium must remain obscure until the turn of events bring them sharply to the fore again, as was the case when after the fall of Ant werp the British public learned for the ish navy under command of Lieuten first time that British forces had as-

Optimistic, as always, the British press, besides contending that Antwerp is of no importance to Germany as a naval base, finds solace in the argument that the release of the allied Around Roye, where the German cap- Russian force is besieging Przemysl, a similar dash and sank the German troops there more than counterbaiances the troops which Germany will send from that point into France.

Colonel Frederick M. Maude, a retired army officer and author of sev-The present front is within about The Russians have driven the Ger given out by the German general staff eral standard military books, writing in the Evening Standard, says:

"This morning finds the Belgians, with five-sixths of the British contingent, perfectly ready to renew the fight, with their supplies and reinforcements from over sea amply safeguarded. After deducting the necessary garrison for Antwerp, losses, etc., it is exceedingly improbable that the Germans have more than 60,000 men to follow them, which gives us a clear gain of 40,000 to our left wing, without counting the reinforcements which we shall pick up on the way."

The official communication from Paris indicated that this left wing is stretching daily and nightly further west and north, and will soon reach the coast if the opposing sides continue throwing out cavalry in an endeavor to outflank or break through.

The allies make no claim to victory in the afternoon statement, which opens with the remark that these cavalry operations continue as far north and west as Hazebrouck, a point hardly more than a good day's walk from Calais. When the allies claimed yesterday that they had driven the Germans from Aire, London learned for the first time that the Germans had made substantial progress west from and including 1914 was \$4,633,511,926. Armentieres, which they reached last week. Presumably the allies still hold the ground they claim to have regained, but the Germans are throwing more men westward and are putting up a hard fight. The communication does not make plain which side holds the town nearest the coast.

Nowhere along the battle line do the allies say they have made any proggress, except in the center, on the right bank of the Aisne, below Soissons. At two other points, notably between Arras and the Oise and on the right in Vosges, it is stated the German attacks have been repulsed.

HOPEFUL REPORTS FOR PEACE RECEIVED AT WASHINGTON FROM CONVENTION.

Western Newspaper Union News Service

Naco, Ariz,-The Ninth and Tenth United States cavalry, under Col. C. A. P. Hatfield, were lined up along the international boundary Monday to prevent Villa and Carranza factions from again bringing their warfare onto American soil.

This follows the second appeal to President Wilson for protection of the town against stray bullets and shells, conjunction of the French and English which, for ten days, have fallen here with the Belgians and British marines instead of in the Mexican camps, Sheriff Harry Wheeler asked Governor Hunt to request withdrawal of the federal troops. He offered to gather 500 cowboys who would "protect the town without discussing technicalities."

> Douglas, Ariz,-A second attack on Agua Prieta, Sonora, and its Carranza garrison, was made by Yaqui Indians, who were repulsed and two columns of Maytorena forces from Naco. The entrenched garrison successfully resisted the assaults.

The Nacozari railroad has been cut by the defenders to prevent the rapid collection of scattered scouting parties of the Villa forces.

Governor Maytorena's object in besieging Agua Prieta, requiring him to weaken his Naco attacking force to do so, is said to be his necessity for a base of supplies nearer Naco than Nogales, his present source.

During the attack bullets from both sides fell here, and the inhabitants fled to the center of town for safety. Mexico City.-The government took provisional possession of the Mexico Tramways Company lines.

Washington. - Hopeful reports reached Washington of the progress of the first day's work of the military convention at Aguas Calientes to determine the personnel of the future government of Mexico. Not only are Generals Carranza and Villa represented, but General Zapata has sent three delegates, whose credentials have been

FEDERAL JUDGE LANDIS SUED. Damages of \$25,000 Asked as Result

of Contempt Decision. Chicago.-Suit for \$25,000 damages filed against United States Judge is the result of thirty days spent in jail by Frank Blacklidge on a contempt charge preferred by the federal through toward the retina. Protective judge.

If the suit is pressed to trial it will be the first time in local history, it is said, that a United States judge was sued for damages as a result of

one of his decisions. Blacklidge became involved in a bankruptcy suit and Judge Landis accused him of perjury. Blacklidge bases his claim for damages on alleged impairment of his health due to his stay in jail, loss of his position and \$2,400 which, it is alleged, was involved in the bankruptcy proceedings.

ADVICE NOT NEEDED

Nation Will Not Indorse Roosevelt Theories.

As Military Instructor to the United States He is Not a Success-Wise Arbitration Treatles Now in Favor.

Having failed in everything else since he returned from South America. Mr. Roosevelt now has appointed himself military instructor to the United States, and is teaching the American people the viciousness of peace treaties and the need of military preparedness. He is displaying in his new role the same wisdom that he showed in attacking the foreign policy of President Wilson.

No one imagines that the United States can afford to disarm. Every thoughtful American is agreed that this country must maintain a strong navy, and must devise some military system that will provide our army with a trained reserve in case of war. But while paying this tribute to the imperfect civilization of the world, every thoughtful citizen is likewise agreed that this country should do everything possible to keep war away from our shores; whereas Mr. Roosevelt stands for policies that are sure provokers of strife.

Mr. Roosevelt championed the treaty-breaking ship subsidy clause of the Panama canal act which, if not repealed, would have cost this country the good will of England.

Mr. Roosevelt made all Spanish America hate and fear the United States by his lawless action in 'taking Panama."

Mr. Roosevelt's comments on the Mexican situation indicate that had he been president he would have invaded that country long ago, with the probable result of bringing on a war with Japan.

This country needs no advice from a man with such a record.

Let us improve our fleet and army. by all means; but let us maintain the wise policy of the present administration, and do all in our power to make military action unnecessary. Let us make arbitration treaties wherever we can. Let us deal justly by all nations, whether they are able to demand justice or not. Let us make patience and fairness the foundation stones of our foreign policy, and let there be no counterpart in our land of the blatant fingoism that is turning the fairest fields of Europe into vast graveyards.

Kansas Democrats See Victory.

"Democrats of Kansas are becom- used. ing more confident every day that they will carry the election in November," remarked Frederick A. Halpen of than this, how much "protection" Post. "Colonel Roosevelt's visit has to be grown at home? cheered them mightily, and the politito make it impossible for the regular Republicans to win. Roosevelt is still a power with the people, even if the professional politicians have relegated and you will have some idea of the him to the discard, and he will make the latter understand very soon that he must be reckoned with. He aroused the same old enthusiasm in the dis tricts he visited in Kansas, and while I do not believe that either Victor Murdock, the progressive candidate for United States senator, or Henry Allen, the gubernatorial nominee of that party, can be elected, I am convinced that they will get a great many more votes than the Republicans believe they will get.

This will give the Democrats a

big advantage. No reasonable person would contend that the Democrats of Kansas would have a chance to win if the opposition were united, but it is divided, and that is the answer."

Market for Australian Wool. American cotton grower.

sold abroad 1,593,468 bales of wool. duties they are unable to perform for All but about ten per cent of this out- themselves. It is a poor time for put was taken by countries now at Americans to sneer at their national war, and 425,275 bales-more than a government. quarter of the total clip-was bought by Germany, a country whose closed factories and blockaded ports have ceased to exist, so far as the outer world is concerned.

The cotton planters of Texas and the sheepmen of New South Wales therefrom as to cause them to neglect have a common grievance against war- what the present Democratic congress making autocrats.-Chicago Journal.

Administration's Power.

ministration program is enacted, first by the house and then by the senate, is wonderful. We have never had the definite lodgment of responsibility. the people.

Income Tax Just Legislation. It is quite true that European complications have rendered it impossible for the people to appraise fairly the eral reserve bank system, but it has value of the tariff bill, but the income the indorsement of all leading finantax alone, which is a part of the rev- ciers and bankers and none doubts enue bill, has gone far toward removing the inequalities of federal tax- anticipations of President Wilson. ation, and when the war shall have ended and commercial relations with Europe shall have been resumed the cratic administration and congress to people will unquestionably see that the country's approval. The importhe Underwood law is a step forward tance of it is in nowise impaired bein the direction of justice, evan if it cause it has not been possible to put be found to contain errors.

TALK OF "MINORITY PARTY"

Real Truth of the Situation That Confronts the Opponents of the Democracy.

If stand-pat or progressive Republicans can find, as they pretend to do, any comfort in the fact that in Maine this year, as was the case in the country-at-large two years ago, the Democrats are "in a minority," no one

should begrudge it to them. Minority parties have a habit of doing important things in this world, and it is not necessary, we suppose, to cite instances. The point in relation to the American political situation which was of commanding importance in 1912, which is revealed again this year in Maine and which promises to exercise a powerful influence upon our public affairs for some time to come, is that there are more Deniocrats than Republicans and more Democrats than Progressives, and that combination against the Democrats is not possible.

If those who rule the destinies of Republicanism and Progressivism are sure that the Democrats are a minority party, why do they hot combine? Is there an Aldrich or a Penrose who thinks that he could gain the Progressive vote as against a Wilson Democrat? Is there a Roosevelt or a Beveridge who imagines that he could poll the vengeful regular Republican vote against a decent Democrat of any type?

There are two Republican parties hating each other more fiercely than they hate Democrats. We shall never know just what the Democratic majority in the United States amounts to until we have a nominal fusion of all Republicans against the Democrats.

NO TRIBUTE TO THE TRUST

Sugar Barons Will Vainly Appeal for What They Consider Sufficient "Protection."

The sugar barons are taking advantage of present conditions, not only to reap momentary harvest, but to press their campaign for a sugar tariff which will so stimulate domestic production that all the sugar used in the United States will be "produced at

In 1912, the last calendar year for which complete figures are available. the United States used 3,504,182 tons of sugar. Of this huge quantity, 257,-194 tons was Louisiana cane sugar, 516,851 tons was domestic beet sugar, 526,281 was cane sugar from Hawaii, and 7,000 tons was maple sugar-a total sugar production in the United States and its Hawaiian territory of 1,307,326 tons, or just a little more them wore Red Cross arm bands, and than one-third of what the country

If even Aldrich schedules could not boost domestic production further Wichita, according to the Washington would it take to cause all our sugar

Probably a duty which would keep Try to imagine the American housewife voting to pay such prices for sugar for the rest of his natural life. ing trust.

Secretary Bryan's Diplomacy.

Under Secretary Bryan the State department is not taken seriously by the American people. If it is a joke for them, could it be anything better for foreign governments and peoples? -New York Press. The tens of thousands of American

refugees who have been brought home from Europe, after having been cared for and watched over and provided with funds, do not think that the State department under Secretary Bryan is a joke. Most of them are grateful for the prompt and energetic efforts of the State department to afford them relief in time of great emergency. The European nations at war, Little has been heard about it in which have committed to the care of the United States, but the Australian the State department under Secretary wool grower is probably in at least Bryan their interests in the enemies' as hard a case for a market as the country, do not treat our Washington diplomacy as a joke. They have all In the season of 1913-14, Australia intrusted to the State department the

Record of Achievement.

It is to be hoped that the people of the United States may not become so absorbed in events across the ocean or in domestic problems resulting has achieved.

No one need contend that it has not made mistakes. It has, but after all The regularity with which the ad- mistakes are admitted the record stands out clearly enough to show that in the matter of achievement it has been the most remarkable congress a regime in power in which the min- that has assembled in half a century, ority in congress seemed to have so and that the dominant party is enlittle influence in shaping its actions. titled, by reason of its record, to a This, however, has the advantage of generous indorsement at the hands of

> Entitled to Country's Approval. The country has not yet been enabled to enjoy the benefits of the fedthat it will meet in all respects the This achievement of itself would have been sufficient to entitle the Demothe system into operation sooner.

BATTLE OF SOISSONS AS SEEN BY WRITER ON FIRING LINE

By JOHN ASHTON. Special Correspondent of the Chicago Tribune.

Paris to rest up a day or two and get a few necessaries after a week at the front of the left wing of the allied armies who are facing General von Kluck's army.

Farther to the east in a line extending from Reims to near Verdun the French are holding their ground against a flerce onslaught of the Germans under the prince of Wurtem-

I will recount what I have wit-

nessed during the last few days: Leaving Meaux, we made our way through Varennes and Lizy, the scene of fierce fighting during the battle of the Marne, some details of which I gave in my first letter. All the dead have now been interred and the wounded removed from the several deserted villages through which we

Find Wrecked German Plane.

l efore arriving at Leerte Milon we came across a German aeroplane which had been brought down by the British. The English flying squad have been doing grand work in the sir not only as scouts but in attacking hostile air craft. It is reported that no less than seventeen German aviators have fallen victims to the English flying men.

On approaching Villers-Cotterets, in the middle of the forest of that name, we came across several military automobiles, Iying by the side of the route, which the Germans had abandoned in their hurried flight to the north. Two of these were marked "Feld Post" (field or military post). A little farther on we encountered six large German motor trucks which had evidently been destroyed by the Germans; everything was burnt up except the iron work. These wagons had been left in the road to delay pursuit, but the French had overturned them into the ditch on each side of the road.

Meet German Prisoners.

It was dark when we arrived at Villers-Cotterets. Before we had time to get out of our auto I heard a cry: "Voile les Allemands!" (here come the Germans!) and, indeed, a moving gray mass soon came into sight, surrounded by a cavalry escort. There were about 100 of them, prisoners, marching in the cold rain. Many of I noticed a few officers among the bunch. Their expressionn was sour and sullen, but considering their privations, they looked fit enough phys-

These were men that had got lost in the forest and failed to catch up with their columns. Many prisoners cal wiseacres are figuring now that the prices at or above this present war are taken in a similar way on both sides. Sometimes they gling in half starved to death.

Pass Night In a Chateau.

We passed the night in an old chateau. The town was full of troops, problem now confronting the sweeten- and the hotels packed with officers, so we were very lucky to get under cover at all. A few days previously the Germans had occupied the town, the staff having made their headquarters at this same chateau. The chamber maid left in charge of the house (the owner and his wife having fled) told us that the Germans had taken away some valuable Gobelin tapestries; the smaller tapestries had been left. They had also taken away some silver plate, but had left behind many pieces of considerable value.

We slent on the floor in the library, in a separate building, one of the finest private libraries I have ever seen, containing several thousand volumes. A very elegant secretaire in the library had been forced up, the contents ransacked, and the top wrenched off and thrown on the floor. I had nothing to cover me with, and as it was cold I slept very little. We could hear the guns booming

the greater part of the night. Approach the Firing Line.

Starting out early in the direction of Soissons, we came upon the Thirteenth regiment of French artillery. at but five miles from the latter town. We could hardly believe we were so close to the firing line, but there they were, twelve guns (known as the Seventy-five), pounding away across the valley to where the Germans were in-

We stopped our auto at a respectable distance and approached the batteries on foot. The ammunition wagons and extra horses and men were all drawn up silent and motionless behind a hedge a short distance from the guns. There was no danger then, as the Germans were replying only to other French batteries lower down the

Very soon the men not busy at the guns began to surround us, begging tobacco and cigarettes. It is an awful thing for these poor soldiers to be deprived of the comforting weed. I saw a great deal of this later, on the field and at hospitals.

We had intended to go directly into Soissons by the main road, but the French officers dissuaded us, saving that the Germans would certainly shell our autos. So we went by another route, to go by Vauxbuin, a village lying in the bottom of the valley, two and one-half miles from

Under German Shell Fire. We stopped at an ancient, picturesque chateau, turned into a hospital. to inquire about the wounded. Hard-

ly had we arrived in front of the gates when German shells began screeching over our heads. We Paris.-I have just returned to scarcely knew where to go for safety. A fearful crash on our right just behind the hospital showed that the German range was getting nearer. Some of our party naturally became alarmed. Then we all crouched down behind our autos as another shell whistled close to us and dropped in a garden. Two of the spent pieces actually fell at our feet and a few second afterwards another spent piece of shell, still hot, struck one of our party on the leg.

It was evident that we were in great danger. Some one said, "stand by the cars."

It was a good job we did not take this advice; but we might have done it if at that moment a woman at the door of the village wine shop across the street had not shouted: "Come inside, for God's sake!"

Flee Into a Cellar. We did not need twice asking. Hardly had we got across the threshold when a tremendous noise like a million rawhide whips cracking at the same moment, followed by the noise of falling masonry, showed that we were in for a regular bombardment. Everybody rushed for the cellar.

As soon as the dust and smoke had cleared away someone crept up the steps to look out and returned saying one of the turrets on each side of the entrance gates to the castle had been completely demolished by the last shell. And still they came, and there we huddled looking into each other's eyes, as well as the dim light would admit, in that little wine cellar with its solid vaulted roof that we prayed might not give way should the house be struck. I shall never forget the time spent in that cellar. There were twenty-three of us, including about seven women of the village and a little boy. We were there from 10:30 a. m. until a little after noon, with shells dropping all around us. One dropped five yards from the door, the shock breaking every pane of glass in the house and making an enormous hole in the road. Another shell struck the ground about twelve feet in front of our cars, just grazing and mashing a portion of the village cross.

Everything has an end, and we could hear the shells bursting farther and farther away. Still it was deemed prudent to lie low for a bit.

Eat as Shells Scream After a time one of the villagers went out at a rear door and brought back a big dish of fried chipped potatoes and bread, so that with the wine in the cellar we made a hearty lunch under the circumstances. We were very hungry, as we had eaten nothing since the previous evening.

When it was safe to get out we found that the shell that dropped near the cars had burst two tires on the car I rode in, had smashed all three of the wind shields, and filled the car bodies and covers full of holes. The cars looked as if they had been peppered with machine guns. Luckily the engines were not damaged in the least.

The Germans, being deeply intrenched in old chalk quarries, a sort of natural fortress in the hillsides overlooking Soissons, continued to reply to the numerous French guns with impunity and occasionally to bombard Soissons and Vauxbuin. Up to the time of my leaving this same thing had been going on for over a week

Soissons is in a pitiable state. The Germans have not spared its old cathedral with its two Gothic spires. From the rear of the hospital at

Vauxbuin we had a fine view of this grand old landmark. One of the steeples is broken off about half way. and the other has a big hole in the side, plainly seen three miles off. I passed about four days here.

The artillery firing was terrific from morning to night. The battle ranges over an enormously extended front. I saw some shockingly wounded men while at Vauxbuin. The night before I left five men were brought in with fearful injuries in different parts of the body. A German shell had dropped among eight artillerymen serving one of the French guns. The other three men were killed on the spot. This is just an incident among hundreds that are happening every day.

At one village I passed through, where the Germans had left 160 wounded, most of whom were brought in under cover two days after the battle by the French, the doctors asked me, implored me, to try and get some milk for the wounded. Nearly all the cattle have been driven out of the country to safer places or have been requisitioned either by the German or the French forces. Many lives are lost on both sides through exposure and lack of attention after being wounded. Cases of gangrene and tetanus are not infrequent. The doctors and nurses are doing heroic work, but it often happens that they are very much overcrowded before they have a chance to remove those wounded who are able to be sent to other hospitals. At Vauxbuin the hospital was crowded. There were 400 people there, and the house had only accommodations for 100.

Huge Jewish Army.

Petrograd.-A quarter of a million Jews are with the Russian forces. This is the largest Jewish army ever gathered since the fall of Jerusalem.

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vege table Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I.—" For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."-Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN. - "I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine; Lydia E. Pinkham's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."-Mrs. Jen-NIE AKERMAN, C/O Rev. K. AKERMAN, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass.

South Quincy, Mass .- "The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had G finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. Murdoch, 25 Gordon St., South Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Use A-1 Surface Irrigation Pipe Think of the Immense Loss by Seepage and Evaporation

Water cost money and wasted water is wasted money. The loss by seepage alone in dirt ditches amounts to from 1 to 60 per cent of the total water pumped per mile. In some soils over half of the water is lost before it reaches the place where it is needed. By using this pipe all the water delivod is used, there is practically no waste. Worth consider-

WHY does our A-1 Surface Irrigation Pipe stand the hard usage to which it is subjected better than any other pipe, riveted or otherwise?

riveted or otherwise?

BECAUSE it is made with a lockseam set down under 3500 pounds pressure, which requires no soldering to make it water-tight. (Soldering will break loose by jarring and hard knocks.)

A-1 Pipe was awarded first prize at Freeno and Santa Clara County Fairs in 1912.

Send for new catalog with prices and valuable information.

In The District Court of Eddy Gounty, State Of New Mexico.

The First National Bank of Artesia, Plaintiff.

J. L. Hughey, Defendant. No. 2005.

Notice for Sheriff's Sale.

WHEREAS in the above entitled cause, a judgment was duly rendered by the Hon. Granville A. Richardson, one of the Judges of the fifth Judicial District Court, sitting within and for the County of Eddy and State of New Mexico, upon the 26th day September, A. D. 1914; Said Judgment being in favor of The First National Bank of Artesia, plaintiff and against J. L. Hughey, defendant, for the sum of Hughey, defendant, for the sum of \$3,301,16, with interest thereon at the annum from and after the date of said judgment, and for the further sum of all costs incurred in said suit and the execution of the final judgment thereon, and for the foreclosure of plaintiff's attachment lien in this suit upor all the right, title and interest of the above named defendant in and to the following described personal property, to-wit: That certain stock of goods fixtures and merchandise, located in the Town of Artesia, Eddy County, New Mexico and generally known as "The Cash Merchile Company"; same being the stock of goods and merchandise heretofore attached in this cause.

heretofore attached in this cause.

NOW THERFORE Notice is hereby given that on the 27th day of October, 1914, at Ten o'clock, A. M. on said date, at and in the building in which the said stock of goods, merchandise and fixtures are located, to-wit in the building known as "The Charvoz building," on the South side of Main Street in the town of Artesia, County and State aforesaid, I will sell at public auction, to the highest bidder for cash, all the right, title and interest of the above named defendant in and to said personal property above described to personal property above described to satisfy said judgment and costs. Signed and dated at Carlsbad, New Mexico, this 29th day of September,

M. C. Stewart, Sheriff. By R. B. Armstrong, Deputy.

A Few Pertinent Questions.

What will it profit the the people to return the Republican party to power? What constructive program has it to announce? How much of a great work of this administration will it undo?

Would it repeal the Federal Reserve Act and reestablish its antiquated banking and currency system? Would it repeal the Income Tax Law?

Would it take a backward step as to the parcel post? Would it attempt a new revision of the tariff and subject the business and industry of the country to another

period of unrest? Would it restore Schedule K of the Payne-Aldrich Tariff

Law? Would it again tax the people 100 per cent on their woolen clothing?

Would it again tax the people \$120,000,000 a year on sugar?

Would it put down the conduits connecting the special interests with the seat of government that Woodrow Wilson has taken up?

Would it welcome back to Washington the hoard of lobbyists for special privileges that he has driven out?

"So we learned," responded the capwas an American-because he was tain suavely. "It was part of my brave-that I put my faith in Phil. errand today to ask if you would not

"Muchas gracias, capitan," an-

"My friend was in jail," put in Bud; white wale of a whip.

"That is very creditable to you," Manuel del Rey, stands in the way, laughed Del Rey; "but even then you the overseer's lash-and Amigo was But I don't care—I don't care what full of turbulent fellows who have to about to go, Bud made bold to ask him

understand my errand-why make it rest.

"No, senor," returned Bud grimly, people?" "I know nothing of your errand. But

regarded the captain fixedly.

'Ah, very well," said Del Rev. jerkpress the matter. But I understand from one of my men, senor, that you are harboring a dangerous criminal here—the same man, perhaps, whom I saw running up the canyon?"

He smiled meaningly at this, but Bud was swift to defend his Yaqui.

"No, senor," he replied, "I have no such criminal. I have a Mexican working for me who is one of the best know about him."

"A Mexican?" repeated Del Rey,

set spurs to his champing horse.

Then, one day, as Hooker and the spontaneous as a sigh or a frown, but they were working the wild Yaquis her anyway. war to the knife. He bared his strong teeth in reply and hissed out a blighting curse, and then Aragon was gone.

That evening, as the darkness came on and the canyon became hushed and "Amigo," he said to the Yaqui, "are still Bud built a big fire and stood be-

stand?"

"All right," Bud came back; "but of that hated uniform Amigo was off against the flames. And soon, as quiet don't you call me in on it. You've like a buck. Bud went out sullenly as a fox, the Yaqui appeared from the

'Did he come for me?" he asked, advancing warily into the firelight, "that capitan?"

"Yes." answered Bud, "and for me, too. But you must have known him A smile of satisfaction passed over

the swarthy face of the Indian at this, and then the lines became grim again. His eyes glowed with the light of some great purpose, and for the first time since he had been with Bud he drew aside the veil from his past.

'Yes," he said, nodding significantly, 'the rural is afraid. He knows I have come to kill him.

He squatted by the fire and poured out a cup of coffee, still brooding over his thoughts-then, with a swift gesfrom your belt," replied Del Rey with ture, he laid open his shirt and pointed to a scar along the ribs.

> 'He shot me there," he said. 'And so you have come to kill him?' "Yes." answered Amigo; "but not now. Tomorrow I go to my people-I must take them my money first."

"Have you got a wife?" asked Hook er, forgetting for once his accustomed

"No," grumbled Amiga, shaking his "Oh, you take your money to your

No. No father-no mother-nadie!" He threw up his open hands to signify that all were gone, and Hooker said no more. For three months and more he had worked alongside this giant, silent Yaqui and only once had "I he sensed his past. That was when Amigo had torn his shirt in lifting. you come back." "Sure!" answered the Indian, hanging it on his hip; "adios!"

nothing but his great tracks in the dust.

CHAPTER XIX.

It was June and the windstorms

A great calm and heat settled over the harassed land, and above the far blue wall of the Sierras the first thuntill they obscured the sky. Then, with Amigo answered with his honest smile silence, and a crash of flickering light, deceit. the storm burst in tropic fury and was gone as quickly as it had come.

So, while the rich landowners of the hot country sat idle and watched it anced the Indian's murderous bowiegrow, another storm gathered behind knife in his hands he regarded it with the distant Sierras; and, as empty a grin. It was a heavy weapon, broad rumors lulled them to a false security, across the back, keen on one edge, suddenly from the north came the and drawn to a point that was both news of dashing raids, of railroads sharp and strong. The haft was cut, troops routed, and the whole border occupied by swarming rebels.

In a day the southern country was isolated and cut off from escape and. while the hordes of Chihuahua insurrectos laid siege to Agua Negra, the belated Spanish haciendados came scuttling once more to Fortuna. There, at least, was an American town where KNEW USE OF THE CEREALS the courage of the Anglo-Saxon would protect their women in extremity, And. if worst came to worst, it was better to pay ransom to red-flag generals than to fall victims to bandits and loot-

A bulletin issued by the census bureau gives the financial statistics of cities with a population of 30,000 and over. The 24 cities having a population of between 45,000 and 60,000 includes Topeka and Wichita, Kan.-the only two in this group located in temperance states. The average tax rate in the 22 wet cities is \$19,28 per thousand of assessed valuation. The tax rate of Wichita (59,222 population) is Yaqui disappeared in the darkness. In shifts; the loneliness of the hills op- \$15.50; that of Topeka (45,478 population) is given as \$13.10. The current rate of the latter, however, including city, county and state, is but \$10.50. Only eight of the cities in license states have a less rate than Wichita; none has a smaller rate than the current rate of Topeka. Although Topeka stands at the bottom of the list on population, only two cities show a larger assessed valution.

DANGER OF MODERATE DRINKING.

Twenty years ago medical science discovered that the white blood cor-"Ola, Amigo!" he hailed, stepping puscles are the guardians of the body, out from the adobe house where he defending it against disease germs. It der caps of the rainy season rose up had moved to avoid the rains; and has been proved that even alcohol through its narcotic effect paralyzes a rush of conflicting winds, a leaden which carried no hint of savagery or these defenders and makes them powerless to destroy the invading foes-Try as he would. Bud could not this even after very minute doses of alcohol. Moderate drinkers are, it is well known, prone to diseases of the liver. This is because alcohol interferes with its functional duties. Physiological science tells us that the liver destroys much of the poisonous waste matter generated in the body. When alcohol is taken into the system the liver, it seems, goes to work to eliminate that first. The power of the liver being limited, some of the other work is left undone, waste matter returns into the blood and disease is the result.

AN INDUSTRIAL BENEFIT

The Reyman Brewery represented one of the big industries of Wheeling, W. Va., before the state went dry. The wets pointed to it as one of the great concerns which temperance would destroy, thereby throwing men out of employment. Instead of destruction, however, came transformation. The Reyman Brewery has been changed into the Reyman Packing company. Additions to the plant costing at least one hundred and fifty thousand dollars are being built and it will employ 400 men. The brewery employed 40.

EDUCATION AND BALOON MONEY.

An American saloon worker was trying to persuade an Irishman to vote for the saloon by using the threadbare argument that if you close up the saloons and cut off the revenue, it will be necessary to close the public schools. "And then what will your boy do for an education?" "Well, be gorrah," said the Hibernian, "I'd rather have my boy learn his A, B, C in heaven than to be able to read Latin in hell."-Vanguard.

WHAT LIQUOR DID.

During a temperance campaign in a certain state the proprietors of the breweries published in a local paper the following notice: "Alexander the Great drank beer and conquered the world before he was thirty-two. Per haps he might have done it sooner if he had not drunk beer, but you'd bet ter take no chances." Shortly after ward the same paper published the following as a rejoinder: "Alexander the Great died in a drunken debauch at the age of thirty-three. You'd bet ter take no chances."

The State Board of Equalization has given out its report concerning the Grant county ranchman, in July last, valuation of the state subject to taxation. The, total is \$89,203,939, as com pared with \$91,745,709 last year.

Matilda Wilson has brought suit against the city of Albuquerque for \$2,000 damages she claims to have of the court, was not in the court sustained by falling into an excavation not protected by a light.

FORESTS BRING \$9,890

SUM GOES DIRECT TO COMMON SCHOOL FUND.

Amount Derived From Timber Sales in School Lands in National Forests in New Mexico.

Western Newspaper Union News Service. Santa Fe.-Uncle Sam enriched the state treasury with \$43,634.93, this sum being received in the shape of a treasury warrant, as New Mexico's share of the national forest income. The sum of \$9,890.94 went direct into the common school fund, being derived from timber sales on school land sections within the national forests in New Mexico. The remaining \$33,743.89 was distributed among the various counties in proportion to the area of national forests within their boundaries. One-half of this will go into the county school fund and one-half into the road fund, except in the cases of Socorro and Grant counties, whose good roads proportion goes into the

state road fund as per agreement.

The sums derived from each nation-

al forest are as follows: Gila, \$7,

121.50; Datil, \$5,936.84; Carson, \$5,-\$626.90; Pecos, \$4,514.97; Zuni, \$3,-919.22; Alamo, \$1,919.00; Jemez, \$1,-899.20; Lincoln, \$1,326.45; Manzano, \$1,110.79; Chiricahua, \$368.62. The forest income is increasing right along. Bernalillo county receives \$22.71 from the above sum, but Socorro Judge G. U. McCrary has received leads with \$7,989.11. Rio Arriba being second with \$5,462.42 and Grant third with \$4,473.93. Eddy gets only \$44.71 and then comes Colfax with \$48.41, Chaves \$142.20, Mora \$555.34, Torrance \$687.99, Sandoval \$760.21, Santa Roswell has formed a sportsmen's sessociation to enforce the federal and state game to enforce the federal and state game to t

YOUR BLOOD

is the canal of life but it becomes a sewer if clogged up. All life consists of building up and tearing down and just in the same manner that the blood carries to the various parts of the body the food that the cells need for up, so it is compelled to carry away the waste material that's torn down. These waste materials are poisonous and destroy us unless the liver and kidneys are stimulated into refreshed and vigorous life.

DR. PIERCE'S Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition—on the purifying filters which clean the blood. Thus fresh vitalized blood feeds the nerves, heart—and brain. This well known alterative relieves catarrh of the stomach and headaches accompanying same, and has been successful for more than a generation as a tonic and body-builder. It builds up the rundown system. You need it—if you are always "catching cold"—or have estarrh of the nose and throat. The active medicinal principles of American-Native-roots are extracted without alcohol and you can obtain this tonic in liquid or tablet form at any drug store or send 50 cents in 1-cent stamps for trial box of tablets.

For Trade

I have just returned from Oklahoma, Kansas and Arkansas, and I have for trade some of the best propositions in the way of good farms and income property that I have ever offered in five years business in Artesia. I have personally investigated the following propositions and am in a position to tell you just what they are, so if you want to trade your Pecos Valley farm and will pay a commission to do so just come in and I will talk business with you on the following:

160 acres all fenced hogtight, 50 acres large full bearing peach trees, 32 acres of apples, 12 acres of this orchard is large full bearing, as good as the C. A. P. Ranch, 20 acres young orchard just coming in bearing, 3 sets of buildings; one 3 room house, with fine well of soft water right at door, large barn, holds 12 head of stock, with harness room, wagon sheds, oat bins, corn cribs, all built in; fine apple cave with work shop above and buggy sheds attached. 1 hay barn 50 x 80 feet, weatherboarded on three sides with harness room and has shingle roof, mangers for 14 head of stock, everylasting water in large correll with lane fenced to Pasture, all level; there is also 2 peach packing sheds, 5 acres of plums, pears and cherries, garden fenced with woven wire; in fact this is one of the best improved farms in Washington county, Arkansas. This farm lies just 2 miles from Springdale, Arkansas, is one of the best all-round fruit and general farming country in the state, price \$24,000 and is worth the money loan \$6,400 can run as long as you want it.

160 acres close to Oklahoma City, 80 acres in cultivation, fair improvements, all of this farm can be cultivated, price \$50. per acre, loan \$600 on long time.

1 two story brick building, 25 x 90 feet, located in one of the best towns in Oklahoma and only 18 miles from Oklahoma City, this town has not a vacant business house in it and the building is well rented, price \$12,000, loan \$2,250.

Can trade the above for good well watered farms in the Valley, I have several other propositions to offer, come in if you mean business and let me figure with you, I have photographs of all houses in my office.

Palne was most instructive toms appear separate the aniand showed that he is an au- mal from the others. thority on the subject. He said that hog cholera is a specific, infectious disease that is peculiar to the hog alone and very similar to typhoid in the human. He said that the disease is all over the United States and that this state is more free from it because there are fewer hogs raised and our perpetual sunshine, he said, also acts as a natural disinfectant.

an ordinary case of acute hog hogs. cholera, he stated that any illness was a symptom and should always be watched. If the animal has an arched back, or is tucked up in the flanks, its temperature should be taken after the second day. If the pig shows a weakness in the hind-quarters one may reasonably assume that the trouble is cholera as this is one of the characteristic symptoms of the disease. After this the hog will keep getting weaker until it cannot stand. The normal temperature of a hog is from 101 to 102. In cholera the temperature may go up to 104 to 110. There will also be an tilammation of the mucous membrane and of the eye. This may continue until the evelids are stuck together. All these symptoms are followed by a gradual loss of appetite.

The hog squeal is different the hogs use one per cent

in cholera than in health. In solution." cholera the hog does not seem to care whether he squeals or not. This is another sure sign of the disease.

BIG BATTLE AT LILLE

AUSTRIAN TROOPS TURN IN TI-GER-LIKE ATTACK AFTER DE-FEATS AND PURSUE MUS-COVITE INVADERS.

Western Newspaper Union News Service.

London, Oct. 13.-The Kaiser is hurling great masses of cavalry against the line of the allies in the neighborhood of Lille near the Belgian border and a critical battle is in progress at that point. It is the evident intention of the Germans to break through the allies' line and prevent a conjunction of the French and English with the Belgians and British marines who escaped from Antwerp.

The flanking movement of the allies continues and desperate efforts are being made to circle the German left and join the defeated army at Ostend Should the Germans succeed in their attack on Lille it will compel the troops in the extreme west to discontinue this movement and go to the support of the defenders there. Meanwhile the German army which cap tured Antwerp is being hurried across Belgium to the support of the Kaiser's sisted the assaults. lines along the frontier. The number the Belgian metropolis is estimated at between 300,000 and 500,000 men.

It is asserted that the Germans have entered Ghent.

now perhaps the most potentially important scene of the fighting in the great war, the British people were forced to content themselves with the fled to the center of town for safety. official communication from Paris, and even a close analysis of this showed no marked change in the situation fa-

voring either side. The British and Belgian troops who retired from Antwerp before the German occupation, with the exception of their bombardment of the Kiao Chow those who are now interned on Dutch fortifications and are reported here to soil as a result of having crossed the be in possession of the outer chain border, have been swallowed as completely as if they had been buried unfleet continues to co-operate with the der the ruined forts. For military reasons their position and the area of hosment by the Japanese legation, three tilities in Belgium must remain obscure until the turn of events bring them sharply to the fore again, as was the case when after the fall of Ant-London.-Submarine E-9 of the Brit- werp the British public learned for the ish navy under command of Lieuten- first time that British forces had as-

> ances the troops which Germany will send from that point into France.

> Colonel Frederick M. Maude, a retired army officer and author of several standard military books, writing in the Evening Standard, says:

> "This morning finds the Belgians, with five-sixths of the British contingent, perfectly ready to renew the fight, with their supplies and reinforcements from over sea amply safeguarded. After deducting the necessary garrison for Antwerp, losses, etc. it is exceedingly improbable that the Germans have more than 60,000 men to follow them, which gives us a clear gain of 40,000 to our left wing, without counting the reinforcements which we shall pick up on the way."

> The official communication from Paris indicated that this left wing is stretching daily and nightly further west and north, and will soon reach the coast if the opposing sides continue throwing out cavalry in an endeavor to outflank or break through.

The allies make no claim to victory in the afternoon statement, which opens with the remark that these cavalry operations continue as far north and west as Hazebrouck, a point hardly more than a good day's walk from Calais. When the allies claimed yesterday that they had driven the Germans from Aire, London learned for the first time that the Germans had made substantial progress west from Armentieres, which they reached last the ground they claim to have remore men westward and are putting up a hard fight. The communication does not make plain which side bolds the town nearest the coast.

Nowhere along the battle line do the allies say they have made any proggress, except in the center, on the right bank of the Aisne, below Soissons. At two other points, notably between Arras and the Oise and on the right in Vosges, it is stated the German attacks have been repulsed.

Slavs Routed at Przemysl.

PAY \$172,417,546 FOR PENSIONS.

Summit in Expenditures Has Been Reached, Says Commissioner.

Washington.-Uncle Sam paid out a total of \$172,417,546 in pensions in the fiscal year ended June 30 last, according to Commissioner of Pensions Saltzgaber in his annual report. That compares with \$174,171,060 in 1913, which was the largest amount ever paid. The commissioner points out, however, that the summit in expenditures has been reached and a decrease in the amount may be expected to continue. The grand total of expenditures for pensions from 1866 up to and including 1914 was \$4,633,511,926. The total number of pensioners of week. Presumably the allies still hold all classes on the rolls are 758,529, against 820,272 in 1913. The number gained, but the Germans are throwing of Civil War pensioners was 728,129, compared with 762,439 in 1913. The largest number ever on the rolls was in 1902, when there were 999,466.

Dangers to the Eye.

Mr. Louis Bell, the electrical illuminating expert, and Dr. F. H. Verhoeff, an eye specialist, have published in Science their opinion that the alleged dangers to the eye from ultraviolet radiation of sunlight and various artificial lights amount to nothing at all. They admit that there have been many "sensational attacks" upon modern illuminants as dangerous by reason of injurious effects of ultraviolet or actinic rays, but these have "entirely neglected any quantitative relation between the radiation and its supposed pathological effects." Very Kenesaw M. Landis, it became known, little of these rays can penetrate the cornea, and the crystalline lens cuts off completely those that straggle through toward the retina. Protective glasses are useful only, they conclude, in cutting off dazzling lights and undue heat.

ADVICE NOT NEEDED TALK OF "MINORITY PARTY"

Nation Will Not Indorse Roosevelt Theories.

As Military Instructor to the United States He is Not a Success-Wise Arbitration Treaties Now in Favor.

Having failed in everything else since he returned from South America. Mr. Roosevelt now has appointed himself military instructor to the United States, and is teaching the American people the viciousness of peace treaties and the need of military preparedness. He is displaying in his new role the same wisdom that he showed in attacking the foreign policy of President Wilson.

No one imagines that the United States can afford to disarm. Every thoughtful American is agreed that this country must maintain a strong navy, and must devise some military system that will provide our army with a trained reserve in case of war. But while paying this tribute to the imperfect civilization of the world, every thoughtful citizen is likewise agreed that this country should do everything possible to keep war away from our shores; whereas Mr. Roosevelt stands for policies that are sure provokers of strife.

Mr. Roosevelt championed the treaty-breaking ship subsidy clause of the Panama canal act which, if not repealed, would have cost this country the good will of England.

Mr. Roosevelt made all Spanish America hate and fear the United States by his lawless action in "taking Panama."

Mr. Roosevelt's comments on the Mexican situation indicate that had he been president he would have invaded that country long ago, with the probable result of bringing on a war with Japan.

This country needs no advice from a man with such a record.

Let us improve our fleet and army. by all means; but let us maintain the wise policy of the present administra- duction that all the sugar used in the tion, and do all in our power to make United States will be "produced at military action unnecessary. Let us make arbitration treaties wherever we whether they are able to demand justice or not. Let us make patience and fairness the foundation stones of our foreign policy, and let there be no counterpart in our land of the blatant jingoism that is turning the graveyards.

Kansas Democrats See Victory.

"Democrats of Kansas are becom- used. ing more confident every day that they will carry the election in November." remarked Frederick A. Halpen of than this, how much "protection" ically. Wichita, according to the Washington would it take to cause all our sugar Post. fronts the Opponents of the Democracy.

If stand-pat or progressive Republicans can find, as they pretend to do, any comfort in the fact that in Maine this year, as was the case in the country-at-large two years ago, the Democrats are "in a minority," no one

should begrudge it to them. Minority parties have a habit of doing important things in this world, and it is not necessary, we suppose, to cite instances. The point in relation to the American political situation which was of commanding importance in 1912, which is revealed again this year in Maine and which promises to exercise a powerful influence upon our public affairs for some time to come, is that there are more Democrats than Republicans and more Democrats than Progressives, and that combination against the Democrats is not possible.

If those who rule the destinies of Republicanism and Progressivism are gave in my first letter. All the dead it if at that moment a woman at the sure that the Democrats are a minority party, why do they not combine? Is there an Aldrich or a Penrose who thinks that he could gain passed. the Progressive vote as against a Wilson Democrat? Is there a Roosevelt or a Beveridge who imagines that he could poll the vengeful regular Republican vote against a decent Democrat of any type?

There are two Republican parties hating each other more fiercely than they hate Democrats. We shall never know just what the Democratic majority in the United States amounts to until we have a nominal fusion of all Republicans against the Democrats.

BATTLE OF SOISSONS AS SEEN

By JOHN ASHTON. Tribune.

Paris.-I have just returned to Paris to rest up a day or two and get a few necessaries after a week at the

Kluck's army. Farther to the east in a line extending from Reims to near Verdun the French are holding their ground against a flerce onslaught of the Germans under the prince of Wurtem-

I will recount what I have witnessed during the last few days: Leaving Meaux, we made our way through Varennes and Lizy, the scene of flerce fighting during the battle of the Marne, some details of which I have now been interred and the deserted villages through which we

Find Wrecked German Plane.

I efore arriving at Leerte Milon we came across a German aeroplane which had been brought down by the British. The English flying squad have been doing grand work in the eir not only as scouts but in attacking hostile air craft. It is reported that no less than seventeen German aviators have fallen victims to the English flying men.

On approaching Villers-Cotterets, in the raiddle of the forest of that name, we came across several military automobiles, lying by the side of the route, which the Germans had abandoned in their hurried flight to the north. Two of these were marked "Feld Post" (field or military post). A little farther on we encountered six large German motor trucks which had evidently been destroyed by the Germans; everything was burnt up except the iron work. These wagons bad been left in the road to delay pursuit, but the French had overturned them into the ditch on each side of the road.

Meet German Prisoners. It was dark when we arrived at Villers-Cotterets. Before we had time to get out of our auto I heard a cry "Voile les Allemands!" (here come the Germans!) and, indeed, a moving gray mass soon came into sight, surrounded by a cavalry escort. There them wore Red Cross arm bands, and bunch. Their expressionn was sour and sullen, but considering their pri-

These were men that had got lost in the forest and failed to catch up gling in half starved to death.

Pass Night In a Chateau. We passed the night in an old chatso we were very lucky to get under cover at all. A few days previously the Germans had occupied the town, the staff having made their headquarpartment is not taken seriously by ters at this same chateau. The chamber maid left in charge of the house (the owner and his wife having fled) told us that the Germans had taken away some valuable Gobelin tapestries; the smaller tapestries had been left. They had also taken away some silver plate, but had left behind many

> We slept on the floor in the library, in a separate building, one of the finest private libraries I have ever seen, containing several thousand volumes. A very elegant secretaire in the library had been forced up, the contents ransacked, and the top wrenched off and thrown on the floor. I had nothing to cover me with, and as it was cold I slept very little. We could hear the guns booming

Approach the Firing Line.

Starting out early in the direction of Soissons, we came upon the Thirteenth regiment of French artillery, at but five miles from the latter town. We could hardly believe we were so close to the firing line, but there they were, twelve guns (known as the Sev-

enty-five), pounding away across the

valley to where the Germans were in-

We stopped our auto at a respectable distance and approached the batteries on foot. The ammunition wagons and extra horses and men were all drawn up silent and motionless behind a hedge a short distance from the guns. There was no danger then, as the Germans were replying only to other French batteries lower down the

Very soon the men not busy at the guns began to surround us, begging lives are lost on both sides through tobacco and cigarettes. It is an awful thing for these poor soldiers to be deprived of the comforting weed. I saw a great deal of this later, on the field and at hospitals.

We had intended to go directly into Solssons by the main road, but the French officers dissuaded us, saying that the Germans would certainly shell our autos. So we went by another route, to go by Vauxbuin, a village lying in the bottom of the valley, two and one-half miles from

Under German Shell Fire. We stopped at an ancient, picturesque chateau, turned into a hospital. This is the largest Jewish army even to inquire about the wounded. Hard- gathered since the fall of Jerusalem.

Special Correspondent of the Chicago gates when German shells began front of the left wing of the allied man range was getting nearer. Some armies who are facing General von of our party naturally became ond afterwards another spent piece of shell, still hot, struck one of our party on the leg.

It was evident that we were in great danger. Some one said, "stars! by the cars.'

It was a good job we did not take this advice; but we might have done door of the village wine shop across wounded removed from the several the street had not shouted: "Come inside, for God's sake!"

Flee into a Cellar.

We did not need twice asking. Hardly had we got across the threshold when a tremendous noise like a million rawhide whips cracking at the same moment, followed by the noise of falling masonry, showed that we were in for a regular bombardment. Everybody rushed for the cellar.

As soon as the dust and smoke had cleared away someone crept up the steps to look out and returned saying one of the turrets on each side of the entrance gates to the castle had been completely demolished by the last shell. And still they came, and there we huddled looking into each other's eyes, as well as the dim light would admit, in that little wine cellar with its solid vaulted roof that we prayed might not give way should the house be struck. I shall never forget the time spent in that cellar. There were twenty-three of us, including about seven women of the village and a little boy. We were there from 10:30 a. m. until a little after noon, with shells dropping all around us. One dropped five yards from the door, the shock breaking every pane of glass in the house and making an enormous hole in the road. Another shell struck the ground about twelve feet in front of our cars, just grazing and mashing a portion of the village cross

Everything has an end, and we could hear the shells bursting farther and farther away. Still it was deemed prudent to lie low for a bit.

Eat as Shells Scream.

After a time one of the villagers went out at a rear door and brought back a big dish of fried chipped potatoes and bread, so that with the wine in the cellar we made a hearty lunch under the circumstances. We were very hungry, as we had eaten nothing since the previous evening.

When it was safe to get cut we found that the shell that dropped near car I rode in, had smashed all three of the wind shields, and filled the car bodies and covers full of holes. The cars looked as if they had been pep pered with machine guns. Luckily the engines were not damaged in the

The Germans, being deeply intrenched in old chalk quarries, a sort f natural fortress in the hillsides verlooking Soissons, continued to eply to the numerous French guns with impunity and occasionally to bombard Soissons and Vauxbuin. Up kisses. to the time of my leaving this same thing had been going on for over a week.

Soissons is in a pitiable state. The Germans have not spared its old cathedral with its two Gothic spires. From the rear of the hospital at Vauxbuin we had a fine view of this grand old landmark. One of the steeples is broken off about half way. and the other has a big hole in the side, plainly seen three miles off.

passed about four days here. The artillery firing was terrific from morning to night. The battle ranges over an enormously extended front. I saw some shockingly wounded men while at Vauxbuin. The night before I left five men were brought in with fearful injuries in different parts of the body. A German shell had dropped among eight artillerymen serving one of the French guns. The

other three men were killed on the

spot. This is just an incident among

hundreds that are happening every day. At one village I passed through, where the Germans had left 160 wounded, most of whom were brought in under cover two days after the battle by the French, the doctors asked me implored me, to try and get some milk for the wounded. Nearly all the cattle have been driven out of the country to safer places or have been requisitioned either by the German or the French forces, Many exposure and lack of attention after being wounded. Cases of gangrene and tetanus are not infrequent. The doctors and nurses are doing heroic work, but it often happens that they are very much overcrowded before they have a chance to remove those wounded who are able to be sent to other hospitals. At Vauxbuin the hospital was crowded. There were 400 people there, and the house had only

SOISSONS AS SEEN BY WRITER ON FIRING LINE Is not of the Chicago The control of the Chicago The contro

tinues to suffer without giving Lydia E. Pinkham's Vege table Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for womenand every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.

PROVIDENCE, R. I .- " For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. RICHMOND, 199 Waldo Street, Providence, R. I.

A Minister's Wife Writes:

CLOQUET, MINN. - "I have suffered very much with irregularities, pain and inflammation, but your wonderful medicine, Lydia E. Pinkbam's Vegetable Compound, has made me well and I can recommend the same to all that are troubled with these complaints."—Mrs. Jennie Akerman, c/o Rev. K. Akerman, Cloquet, Minnesota.

From Mrs. J. D. Murdoch, Quincy, Mass. South Quincy, Mass .- "The doctor said that I had organic trouble

and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. Murdoch, 25 Gordon St., South Quiney, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. Your letter will be opened, read and answered by a woman and held in strict confidence.

Use A-1 Surface Irrigation Pipe AND SAVE YOUR WATER Think of the Immense Loss by Seepage and Evaporation

Water cost money and wasted water is wasted money. The loss by seepage alone in dirt ditches amounts to from 1 to 60 per cent of the total water pumped per mile. In some soils over half of the water is lost before it reaches the place where it is needed. By using this pipe all the water delivod is used, there is practically no waste. Worth considering isn't it.

ing, isn't it.

WHY does our A-1 Surface Irrigation Pipe stand the hard usage to which it is subjected better than any other pipe, riveted or otherwise?

BECAUSE it is made with a lockseam set down under 3500 pounds pressure, which requires no soldering to make it water-tight. (Soldering will break loose by jarring and hard knocks.)

A-1 Pipe was awarded first prize at Fresno and Santa Clara County Fairs in 1912. Send for new catalog with prices and valuable infor-Manufacturer's address---Ames-Irvine Co., 8th & Irvine Streets, San Francisco, California.

Signed and dated at Carlsbad, New

Mexico, this 29th day of September,

M. C. Stewart, Sheriff. By R. B. Armstrong, Deputy.

A Few Pertinent Questions.

What will it profit the the people to return the Republican party to power? What constructive program has it to announce? How much of a great work of this administration will it undo?

Would it repeal the Federal Reserve Act and reestablish its antiquated banking and currency system? Would it repeal the Income Tax Law?

Would it take a backward step as to the parcel post?

Would it attempt a new revision of the tariff and subject the business and industry of the country to another period of unrest?

Would it restore Schedule K of the Payne-Aldrich Tariff

Would it again tax the people 100 per cent on their woolen clothing?

Would it again tax the people \$120,000,000 a year on sugar?

Would it put down the conduits connecting the special

interests with the seat of government that Woodrow Wilson has taken up? Would it welcome back to Washington the hoard of

lobbyists for special privileges that he has driven out?

The Land of Broken Promises

A Stirring Story of the Mexican Revolution

By DANE COOLIDGE "The Fighting Fool"
"Hidden Watere"
"The Texican," Etc. Illustrations by Don J. Lavin

(Copyright, 1914, by Frank A. Munsey)

SYNOPSIS.

Bud Hooker and Phil De Lancey are forced, owing to a revolution in Mexico, o give up their mining claim and return o the United States. In the border town of Gadsden Bud meets Henry Kruger, a of Gadsden Bud meets Henry Kruger, a wealthy miner, who makes him a proposition to return to Mexico to acquire title to a very rich mine which Kruger had blown up when he found he had been cheated out of the title by one Aragon. The Mexican subsequently had spent a large sum of money in an unsuccessful attempt to relocate the vein and then allowed the land to revert for taxes. Hooker and De Lancey arrive at Fortuna, near his claim. Hooker discovers that matrimonial entanglements prevent Mendez from acquiring a valid title. Phil, who has been paying attention to Gracia Aragon, decides to turn Mexican and acquire the title. Aragon falls in his attempt to drive them off the claim. Rebels are reported in the vicinity. A rich vein of sold is struck and work on the mine is stopped until the title can be perfected. Phil is arrested by Manuel del Rey captain of the rurales and sultor of Gracia's. He is released on promise to stay away from Gracia. Phil is forced to enlist in the rurales. He asks Bud to take care of Gracia. The rebels are defeated in a fierce battle near Fortuna.

Menth of weary waiting followed them and never know.

CHAPTER XVIII.

A month of weary waiting followed that day of days in Fortuna, and still there was no word from Phil. Bernardo Bravo and his rebel raiders passed through the mountains to the east, and news came of heavy fighting in Chihas been paying attention to Gracia Aragon falls in his attempt to drive them off the claim. Rebels are reported in the vicinity. A rich vein of sold is struck and work on the mine is stopped until the title can be perfected. Phil is arrested by Manuel del Rey captain of the rurales and sultor of Gracia's. He is released on promise to stay away from Gracia. Phil is forced to enlist in the order through them onto the was Amigo who smiled.

CHAPTER XVIII.

A month of weary waiting followed the captain, glancting uneasily at the hillside. "I did not think—but many thanks, senor, and other time will do as well."

He reined his horse away as he spoke and, with a jerk of the head to Aragon, rode rapidly down the canyon. Aragon lingered to retrieve his fallen gun-belt and then, seeming to think better of his desire to speak, he munition. It was for that, in fact, that bent from the will do as well."

To kill Mexicana due the was Amigo who smiled.

"To kill Mexicana the was Amigo who smiled.

A bulletin issued by the census bureau gives the financial statistics of then there were the Yaquis, still faithcities with a population of 30,000 and over. The 24 cities having a populathe town, if they made up their minds tion of between 45,000 and 60,000 in-"Here," he said, "I will lend you my to fight. So reasoned Hooker, mulling cludes Topeka and Wichita, Kan.—the only two in this group located in temperance states. The average tax rate in the 22 wet cities is \$19,28 per thousand of assessed valuation. The tax rate of Wichita (59,222 population) is \$15.50; that of Topeka (45,478 population) is given as \$13.10. The current rate of the latter, however, including city, county and state, is but \$10.50. Only eight of the cities in license states have a less rate than Wichita; none has a smaller rate than the current rate of Topeka. Although Topeka stands at the bottom of the list on population, only two cities show a larger assessed valution.

DANGER OF MODERATE DRINKING. Twenty years ago medical science discovered that the white blood corpuscles are the guardians of the body, defending it against disease germs. It der caps of the rainy season rose up had moved to avoid the rains; and has been proved that even alcohol till they obscured the sky. Then, with Amigo answered with his honest smile through its narcotic effect paralyzes a rush of conflicting winds, a leaden which carried no hint of savagery or these defenders and makes them powerless to destroy the invading foesthis even after very minute doses of alcohol. Moderate drinkers are, it is well known, prone to diseases of the liver. This is because alcohol interferes with its functional duties. Physiological science tells us that the liver destroys much of the poisonous waste matter generated in the body. When alcohol is taken into the system the liver, it seems, goes to work to eliminate that first. The power of the liver being limited, some of the other work is left undone, waste matter returns into the blood and disease is the result.

AN INDUSTRIAL BENEFIT

The Reyman Brewery represented one of the big industries of Wheeling, W. Va., before the state went dry. The wets pointed to it as one of the great concerns which temperance would destroy, thereby throwing men out of employment. Instead of destruction, however, came transformation. The Reyman Brewery has been changed into the Reyman Packing company. Additions to the plant cost ing at least one hundred and fifty thousand dollars are being built and it will employ 400 men. The brewery employed 40.

EDUCATION AND SALOON MONEY. An American saloon worker was trying to persuade an Irishman to vote for the saloon by using the threadbare argument that if you close up the saloons and cut off the revenue, it will be necessary to close the public schools. "And then what will your boy do for an education?" "Well, be gorrah," said the Hibernian, "I'd rather have my boy learn his A, B, C in

heaven than to be able to read Latin

in hell."-Vanguard. WHAT LIQUOR DID.

During a temperance campaign in a certain state the proprietors of the breweries published in a local paper the following notice: "Alexander the Great drank beer and conquered the world before he was thirty-two. Per haps he might have done it sooner it he had not drunk beer, but you'd bet ter take no chances." Shortly afterward the same paper published the following as a rejoinder: "Alexander the Great died in a drunken debauch at the age of thirty-three. You'd bet ter take no chances."

FORESTS BRING \$9,890

SUM GOES DIRECT TO COMMON SCHOOL FUND.

Amount Derived From Timber Sales in School Lands in National Forests in New Mexico.

Western Newspaper Union News Service.

Santa Fe .- Uncle Sam enriched the state treasury with \$43,634.93, this sum being received in the shape of a treasury warrant, as New Mexico's share of the national forest income. The sum of \$9,890.94 went direct into the common school fund, being derived from timber sales on school land sections within the national forests in New Mexico. The remaining \$33,743.89 was distributed among the various counties in proportion to the area of national forests within their boundaries. One-half of this will go into the county school fund and one-half into the road fund, except in the cases of Socorro and Grant counties, whose good roads proportion goes into the state road fund as per agreement.

The sums derived from each national forest are as follows: Gila, \$7,-121.50; Datil, \$5,936.84; Carson, \$5,-\$626.90; Pecos, \$4,514.97; Zuni, \$3,-919.22; Alamo, \$1,919.00; Jemez, \$1,-899.20; Lincoln, \$1,326.45; Manzano, \$1,110.79: Chiricahua, \$368.62. The forest income is increasing right along.

Bernalillo county receives \$22.71 from the above sum, but Socorro leads with \$7,989.11, Rio Arriba being second with \$5,462.42 and Grant third with \$4,473.93. Eddy gets only \$44.71 and then comes Colfax with \$48.41, Chaves \$142.20. Mora \$555.34. Torrance \$687.99, Sandoval \$760.21, Santa Fe \$863.39, Lincoln \$1,128.54, Valencia \$1,212.56, Sierra \$1,263.50, Otero \$1,-732.69, Taos \$2,204.08, San Miguel \$2,-237,40, McKinley \$2,614.90.

More will be given next week. The Carnival Company simply filled the main street of the town with tents and shows of many kinds. The Allman Bros. have a good show and the crowds have been universally pleased with the entertainments given by this company. They show again tomorrow and then go to Roswell where they will show during the fair.

Card of Thanks.

Mr. and Mrs. A. H. Cofer wish to express their sincere vicinity for the kindness and family.

For Trade

I have just returned from Oklahoma, Kansas and Arkansas, and I have for trade some of the best propositions in the way of good farms and income property that I have ever offered in five years business in Artesia, I have personally investigated the following propositions and am in a position to tell you just what they are, so if you want to trade your Pecos Valley farm and will pay a commission to do so just come in and I will talk business with you on the following:

160 acres all fenced hogtight, 50 acres large full bearing peach trees, 32 acres of apples, 12 acres of this orchard is large full bearing, as good as the C. A. P. Ranch, 20 acres young orchard just coming in bearing, 3 sets of buildings; one 3 room house, with fine well of soft water right at door, large barn, holds 12 head of stock, with harness room, wagon sheds, oat bins, corn cribs, all built in; fine apple cave with work shop above and buggy sheds attached. I hay barn 50 x 80 feet, weatherboarded on three sides with harness room and has shingle roof, mangers for 14 head of stock, everylasting water in large correll with lane fenced to Pasture, all level; there is also 2 peach packing sheds, 5 acres of plums, pears and cherries, garden fenced with woven wire; in fact this is one of the best improved farms in Washington county, Arkansas. This farm lies just 2 miles from Springdale, Arkansas, is one of the best all-round fruit and general farming country in the state, price \$24,000 and is worth the money loan \$6,400 can run as long as you want it.

160 acres close to Oklahoma City, 80 acres in cultivation, fair improvements, all of this farm can be cultivated, price \$50. per acre, loan \$600 on long time.

1 two story brick building, 25 x 90 feet, located in one of the best towns in Oklahoma and only 18 miles from Oklahoma City, this town has not a vacant business house in it and the building is well rented, price \$12,000, loan \$2,250.

Can trade the above for good well watered farms in the Valley, I have several other propositions to offer, come in if you mean business and let me figure with you, I have photographs of all houses in my office.

W. C. Haney Co.
