The Latest Happenings in Development of the Pecos Valley Oil Field

#### TRINIDAD OIL WELL SPUDDED IN YESTERDAY

Roswell, N. M .- The prospective oil well of the Trinidad Oil Company was "spudded in" yesterday afternoon and drilling will now go on uninterruptedly, unless difficulties now unforeseen transpire. This well is located in the Hagerman pasture about 22 miles east of this city across the Pecos river. The well is being drilled in Section 13, Townis located 6 miles northeast of the L. by F. S. One subject in which there is wide intertest has been treated by the Department in a most liberal manner. This relates to the provision of the Leasing Act requiring a permittee to begin drilling oper ations within six months from the date of the permit. Strict enforcement would mean cancellation if rig is not on the ground within the time allowed and a great majority of permits issued prior to September last would now be in default. #### Contractor Arrested.

Sheriff Batton was in Artesia Tuesday evening and arrested George Beal, the contractor for the Hope road, returning to Carlsbad the same evening with his prisoner.

The warrant was ordered by the sheriff's office in Grant county but the Advocate was unable to get authentic details of the charge.

Freddy Knowles, our local ex pert in fish catching has adopted a new method of gathering in the finny tribe. Sunday while at the falls below the dam at Lakewood Fred got tired of conventionable methods of book and line fishing and waded into the pools along S. E. FERREE the Pecos caught some 75 pounds of fish with his hands. The catch consisted of perch, buffalo and suckers and for a time it looked like it was raining fish, so fast did he throw them out of the water. He was assisted in his labors by Max Coll and Robert Ferriman.

Dr. Clark Liddell of El Paos was in Artesia this week visiting his sister, Mrs. John Ball and his mother, Mrs. Kate Liddell.

#### WOOL MARKET IMPROVING

Reports from wool marketing centers are becoming more and more encouraging from the producer's HARDWICK HOTEL standpoint. More and more of the idle spindles are being put into operation from week to week. While raw wool prices show no advance they are on the other hand not declined to sell at prevailing prices seems to be improving steadily. Wool growers generally are not inclining to sell at prevailing prices which shows a feeling of optimism, based perhaps on the somewhat certain passage of the emergency tariff

Twice before this shooting the young ladies who reside at this house ware annoyed by attempts to break in and one time the house was actually entered and robbed. It was after these attempts that the girls obtained their fire arms.

No blame is put upon the ladies by the authorities and in fact only words of commendation have been heard for the bravery shown especially as other attempts of a like nature have been made during the past year and the result of this may deter others from such procedure.

## To The Public!

On and after May 20th, 1921 we are changing our policy in . business and our terms will be strictly cash.

The whole country is undergoing a financial strain which will necessitate a change in general business policies. It is a time when economy should be the watch word of every American home, and the best way to economize is to pay cash. We trust you will appreciate our position in this matter, and we think you will soon realize it is to your interest to pay cash and thereby save money.

We take this method to thank you one and all for your patronage in the past, and solicit a share of your future continued trade.

You'll enjoy the sport of rolling

TIRST thing you do next —go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-oman, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness-well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor. there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly - you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe - forget it! You can-AND YOU WILL -if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!
