NOTICE FOR PUBLICATION. 035684

Department of the Interior, U. S. Land Office at Roswell, N. M., October 18th, 1921. NOTICE is hereby given that

Minnie B. Drake, of Artesia, N. M., who, on April 10th, 1917, made Homestead entry No. 035684 for E½, Section 10, Township 18-S, Range 25-E., N. M. P. Meridian, has filed notice of intention to make final 3-year proof, to establish claim to the land above described, before S. W. Gilbert, U. S. Commissioner, at Artesia, N. M., on the 22nd day of November, 1921.

Claimant names as witnesses: Brice Stephenson, Arthur H. Horner, Ella Bauslin, Mary Bauslin, all of Artesia, N. M. EMMETT PATTON,

FROM THE HEALTH OFFICER.

The epidemic of scarlet fever that has been prevailing here for some time is extending over a period of time that should not be and would not be if more parents of the com-munity would take an interest in protecting their children from an apparently very mild disease. the information of the public some quotations from an article from the State Health Department are given here:

Because of the multiplicity of its possible complications and after effects, as well as the frequent severity of the disease itself, scarlet fever has always been one of the most dreaded diseases of childhood. Aside from a mortality ranging from four to thirty per cent, it very often leaves in its wake lifelong disablement of greater or less severity.

Many experiments have demonstrated the infection virus in the secretions of the nose and throat, in the tonsils and in the secretions from various sores. Often it is quite difficult to trace the origin of an outbreak, but it is probable that THE MANY MILD CASES, SOME PRESENTING PRACTICALLY NO SYMPTOMS CONTRIBUTE MOST LARGELY TO THE SPREAD OF THE DISEASE. WHERE THESE MILD CASES HAVE BEEN ISOLAT-ED THE EPIDEMIC HAS SUBSID ED WITH SURPRISING ABRUPT-

As a general rule and CERTAINLY F SCARLET FEVER IS PREVA-LENT IN A COMMUNITY, any case presenting a sore throat. however nild, with fever, however slight, should be at least suspected of being SCARLET FEVER and a provisional isolation should be maintained till diagnosis is cleared up. It is better to err on the side of safety to the public. Many epidemics have Services guaranteed to please been caused by neglect of this important principle.

The school children here have been told the important points in this several times, with request to stay at home if feeling ever so little bad and still they come to school with sore throats and even with well developed rashes.

The extremely mild weather has been favorable to the development of light cases, but even these are not immune from the most serious after affects for six weeks to two months The school board, the teachers and your health officer join in an urgent appeal to you to help control this Dr. Lura L. Moore disease by seeing that your children

#### IS AN OIL WELL A GAS WELL OR AN OIL WELL?

Austin, Texas., Oct. 28 .- A hearing was held before the Texas railroad commission on the question as to when is a well a gas or an oil well, a decision o which is destined to have an important bearing on the developnient of oils in the future. The pro position came up over a well owned by the Humble Oil and Refining company, two and a half miles south of

Breckenridge, in Stephens county. The well is producing about 300 barrels of oil daily while it is claimed it is wasting over 15,000,000 cu bic feet of gas every twenty four hours. On the grounds that it is a gas well and that the gas is being wasted in violation of the oil and gas conservation law, J W. Haswell, as chief of the oil and gas division of the railroad commission, ordered the well plugged. The Humble company refused to plug the well on the ground that it is an oil well, and appealed to the railroad commission The commission took the matter un der advisement.

Oil operators claim that the deci-sion of the commission will have an important bearing in the future and may also result in the Humble company going into court in the event the commission should sustain judge Hassell and hold that the well a gas well and must be plugged.
