### FIRE PREVENTION WEEK

The week from October second until October eleventh, has been designated as Fire Prevention Week by a proclamation, issued by Governor Mechem, of New Mexico. Special programs are being planned in the various schools of the state and special mention and addresses upon this great problem of Fire Prevention are being made in the public etings in all towns and cities of the state.

Fire drills in the various schools have demanded a great deal of interest. The lower grades in the Central school went through a very satisfactory fire drill this week. The entire number of pupils at this building numbering several hundred were marched from the building in fifty-two seconds after the signal had been given. The Grammar school building was cleared in a very short time in a similar drill.

This question of Fire Prevention should receive the careful attention of every man, woman and child in the state. Millions of dollars work of property and hundreds of lives are destroyed each year by this means.

T. V. Cox this week took over the Sanitary Barber Shop and will Mrs. George R. Benz was hostess continue its operation. Sion Edat a delightful six o'clock dinner gerton has been in charge of this shop for the past several months. Sion has not decided what he will do at this writing.

# LIGHT WINES AND BEER

STEPHEN B. DAVIS, JR. Republican Gandidate for United States Senator

The 18th amendment to the Constitution of the United States provides:

',The manufacture, sale or transportation of intoxicating liquor is hereby prohibited."

In the face of this prohibition it is futile to talk of legislative permission to traffic in light wines, beer or any other liquor which is, in fact, intoxicating.

Constitutional restrictions cannot be defeated by legislative declarations, nor nullified by subterfuge.

Stephen B. Davis, Jr.

why did you vote to relieve 20,-000 big taxpayers, mostly profiteers, of excess profits tax and individual income surtaxes, amounting to an average of \$30,000 a year and increase the tax an average of \$600 a year on 20,000 small producing corporations?

Why did you vote to relieve corporations doing business abroad from the payment of \$300,000,000 a year in taxes, which provision was defeated by Democratic and progressive Republican votes?

Why did you vote to relieve the wealthiest people in the country of over \$500,000,000 a year in taxes and do nothing to relieve the small individual taxpayer?

Why did you vote against the Democratic amendment to reduce the rate from 4 to 2 per cent on individual taxpayers whose income is less than

Why did you vote against the Democratic amendment to lower the surtaxes on incomes up to \$15,000? Why did you vote to reduce still further by 50 per cent the tax on the incomes of the big taxpayers, which attempt was defeated by Democrats and progressive Republicants?

natural industries? Why did you vote for a profiteer's tariff bill which gives an estimated \$6,000,000,000 protection and only an estimated quarter of a billion revenue to the government under the most favorable foreign trade

Why did you vote for the Fordney-McCumber Profiteers' Tariff bill estimated to cost the American people at least \$4,000,000,000, an amount now equal to the total revenue required to run the govern-

women of America pay \$1,000,000,-000 more a year for their clothing than they are paying now?

Why did you vote to cut down the appropriations for good roads in all the state from \$100,000,000 to \$75,000,000 with the country filled with idle men and against the needs with idle men and against the needs of the farmers?

Where do you stand on the Administration's Ship Subsidy bill whereby it is proposed to sell \$3,000 000,000 worth of ships, the best in the world, mostly oil-burners, for \$200,000,000 and pay the purchasers a bonus of \$750,000,000 in such a way that they can pay for the ships out of the bonus and have ov-

er a half billion dollars left? After the Senate had passed an amendment supported by Democrats to increase the appropriation for the use of Farmer Loan Banks, \$100,-000,000, why did the Banking and Currency Committee of the House, controlled by Republicans, cut down the amount to \$25,000,000 and keep it there when the farmers needed the money? Why did you vote against the amendment offered by a Democratic member of the House (Mr. Wingo of Arkansas) to fix the amount at \$50,000,000?

Why do you claim credit for the Budget, Farm Loan, Good Roads, Maternity, Agricultural Loan, Grain Futures, Veterans' Bureau, Packers' Control, Cable Control Acts and other remedial legislation, when you know that all of them were supported by Democrats and most of them passed without a roll call?

What legislation other than nonpartisan legislation supported by emocrats, did you vote for that has not worked injustice to the taxpay ers and injury to the country? What excuse can you give for
