## A WORLD'S RECORD.

Gail Hamilton, Manager of the Mountain States Telephone Co., at Artesia, who is a radio fan recently heard some interesting facts connected with radio activity. A few nights previous station WJAZ of the Westinghouse Electric Co., at Chicago, Ill., announced that a Mr. Hale who is now stationed at South New Zealand Islands heard the program given by this station January 1st. Incidentally the New Zealand Island is a distance of approximately 9000 miles from Chicago. This so far as known is the world's record for broadcasting. Gail also listens in each night to a program given by station 9XN at Chicago, given for the benefit of Captain McMillian, who is said to be on his way to the north pole. Captain is now within 9 degrees of the pole. The program given for him contains miscellaneous news, music and other features. Captain McMillian answers in telegraph, which of course is not distinguishable here.

## AUTO ACCIDENT.

This week a Ford coupe was overturned near the Hope road on Lake Arthur Highway. Fortunately none of the occupants were injured, but the fall of the car smashed every piece of glass in it. The names of the parties in the car could not be secured.

## DIED.

Mr. P. E. Hilderbrand, who had been a patient at the Carlsbad hospital several months, passed away there last Sunday morning. The end came so sudden his wife and children were unable to reach his bedside before his demise. Mr. Hilderbrand came here for his health some three years ago. He was somewhat improved for a time, but for the past year or more his health had steadily declined.

Peter Emerson Helderbrand was born in Bloomfield, Mo., the 5th of September, 1874 and spent most of his life in that state. Some years ago moved to Mississippi, coming from there to Artesia in 1920. He is survived by a wife and two little daughters.

Funeral services were held at the Nazarene church Monday afternoon at three o'clock, the pastor, Rev. Roberts, conducting the service. Six members of the Woodmen Lodge, of which organization he was a member acted as pall bearers. Interment was in Woodbine cemetery.

## THE COMMERCIAL CLUB

### Extends Invitation to Dallas Business Men

### Dallas Commercial Organization Will Visit West Texas and May Extend Trip to the Valley

On call of the Secretary, Dr. J. J. Clarke, a meeting of the Commercial Club was held Monday night at the hall in the Ferriman building. The matter of extending an invitation to the Dallas Chamber of Commerce on their forthcoming trade excursion to West Texas was presented by the Secretary, and after discussion was acted upon affirmatively. The invitation is extended to show them the Valley and the mountain play ground on the west. It is the idea to let them see the farming possibilities, the oil fields and many advantages we possess, and also discover what a splendid summer outing ground we have in the Sacramento Mountains, only a few hours away visit the McMillan reservoir, the newly explored caves west of Carlsbad, and other point of interest.

The Secretary called attention to a special article to be published in the Manufacturer's Record, Baltimore, descriptive of the Valley. He also stated that the official publication of the West Texas Chamber of Commerce, "West Texas Today," will be a Pecos Valley number, containing matter descriptive of Artesia, the Valley and the Mountain country.

Mr. E. B. Bullock advocated a tree planting campaign in Artesia, and the idea was favorably received. In discussing the matter both street and yard planting was favored, and it was thought evergreens would best tend to make the town attractive. It was also suggested that Artesia people observe Arbor Day.

The Co-Operative Company, affiliated with the Intermediate Credit Bank, for furnishing relief funds to farmers and stockmen, sent in a communication. A meeting to confer with the state officials will be held in the near future. Additional publicity will be given when plans are perfected. This is an organization for making loans in the state to farmers and stockmen needing funds.

Miss Cora Rogers returned Wednesday after a two months absence in Missouri, where she was visiting relatives.

### Will Deliver Charter to the Artesia Rotary Club--Roswell Will Be Here Too

G. Allie Martin, District Governor of the Rotary International of the 8th District which comprises New Mexico, Arizona and part of West Texas, will be here on March 18th to deliver the charter to the Artesia Rotary Club. Mr. Martin, who is connected with the El Paso Herald at El Paso is very anxious to visit the Pecos valley & is understood.

While here he will be carried to the numerous places of interest, which includes the oil field, the farming districts and other places of interest. Since Mr. Martin is connected with the El Paso Herald and is a journalist of note it is expected that his visit here will occasion much favorable publicity for the valley.

Mr. Martin with his Rotary Ann will dine with the Rotarians Tuesday noon also will be present at the banquet that evening. A special orchestra, the Bartlett orchestra we believe, has been secured and will furnish music for the occasion. A special program has also been prepared for the banquet in the evening.

## FRESH PAINT.

Aside from the improvement mentioned elsewhere several business establishments have been undergoing a painting up and brightening up.

The Sanitary Barber Shop, now occupied by Cantrell and Edgerton has undergone a thorough remodeling. Although the space in the front of the shop has been made less, it's appearance has been made much more attractive. The large mirrors have been placed in the south end of the building and the bath department of this establishment has been placed to itself in rear end of the building. The walls of the building have been repaired and woodwork repainted. The effect of the interior decorations have made this shop very pleasing to the eye.

The Smoke House has recently been enlarged and remodeled as was mentioned last week. Dr. Stroup also seems to have caught the fever has recently busied himself with the repainting of his office.

The City Bakery, which was recently moved into the Clarkson building two doors east of the old stand, has a very attractive front. Many added features not seen in the former stand now greet the eye of the customer and present an atmosphere of cleanliness. Not only has additional fixtures been brought for the display part of the bakery, but improved baking utensils have been also purchased.

The City Market not to be behind times in the paint up clean up movement have beautified the interior of their building, which adds much to the appearance of the interior.

Uncle Charley Mann also has fallen in line on the new movement and has rearranged some of the shelving material and has clerk Joe using the paint brush.

## MRS. TEAL'S QUESTION ANSWERED.

Mrs. Teal of Orient Texas has requested us to answer through the columns of the Advocate whether or not the Ex-Confederate soldiers and their widows are granted pension by the State of New Mexico. There is no law in New Mexico providing for a pension for the Confederate soldiers or their wives so far as we are able to learn. While it is true that most of the Southern states do provide a pension there is no such law in this state.

Dr. Crutcher, secretary of the Baptist \$75,000,000 Campaign, lectured at the Baptist Church here last Tuesday evening. Dr. Stump, a returned missionary, was with Dr. Crutcher.

A crowd of the small girls have organized a Mah Jong Club, which meets every Saturday evening. Last Saturday night they were entertained by Edna Bullock. Beth Rogers played instead of Elsie Bell Beckett, who was visiting in Hope.

## CELEBRATE 13th WEDDING ANNIVERSARY.

Mr. and Mrs. Herman Jones celebrated their 13th wedding anniversary Wednesday evening at home when a number of guests were invited in. Ordinarily to those who are superstitious the number 13 is looked upon as ill fated, but such was not the case upon this occasion.

After the guests had assembled a number of games were played. These included the game of "teakettle", rook, flinch and dominoes. After the games of rook and dominoes delicious refreshments were served to the following guests: John Dunn and wife, W. C. ## BIG LEGION BANQUET

### Eats Served to Guests in Mess Kits, Army Style

### Banquet Was a Decided Success from Every Standpoint--Important Questions Discussed

One of the most "peppy" banquets of the season was given Wednesday evening in the Chamber of Commerce, Rotary and Legion Headquarters building when the Clarence Kepple Post American Legion entertained the ladies of the Legion Auxiliary. The supper consisted of two courses and was prepared by Mr. Jim Montgomery and was served by Wade Cunningham and Homer Dunagan, who acted as kitchen police. The ladies were shown how to line up and receive their rations in army style. After the inner man had been replenished, a fine of twenty-five cents was collected from Fred Cole, author of the King Cole song, for inadvertently criticising the table menu and complaining of the radishes served. Other fines were assessed for various contempts. Partners for the festivity was secured by drawing strings.

A game of questions and answers, speech making and various other forms of amusement created much amusement and merriment. Jesse (Hambone) Truett acted as master of ceremonies over the business and social part of the program.

Some very important questions were discussed over the table after the banquet had been served and good ideas were derived from the meeting. It was decided to hold a business meeting at this place next Wednesday night March 19th and all ex-service men are urged to be present and bring their wives or friends.

Those present were: Bill Linell and wife, Ralph Rogers and wife, Ab Richards and wife, Jesse Truett and wife, Homer Dunagan and wife, J. P. Bates and wife, Homer Glover and wife, Walter Ferriman and wife, Fred Cole and Miss Virginia Atteburry, George Williamson and wife, Oscar Samelson and Miss Loreta Linell, Dr. Stroup and wife, Lewis Story and wife, Mrs. Frank Linell, C. #### MEN IN FRENZY ATTACK BARBERS WITH SLEDGE HAMMERS AND FISTS.

Ruthless destruction, vindictive savagery, marked the scenes picturing the attack on the chateau in "The Man From Brodney's" which will be shown at the Majestic theatre next Wednesday and Thursday.

Under the direction of that master of realism, David Smith, one of the most desperate fights ever pictured, was carried on for days until the cast and production crew were ready to drop from exhaustion.

Goaded by the sharp incisive commands of the director urged on by flaying tongues of his staff of assistants, the action of the hundreds of actors portraying the scene was lashed to a fury unparalleled.

List your property with W. E. Ragsdale.

#### SCHOOL AND TOWN NOTES OF HOPE.

W. P. Riley and son, Bill Riley have gone to El Paso to spend several days. Several of the Hope farmers met at Artesia Tuesday at the meeting of the Fruit Growers Association.

The senior and juniors are practicing their plays nearly every night. The name of the senior play is "All a Mistake", and the junior "Patty Makes Things Hum."

The Hope grade and High school boys are planning on entering into a tract of different games, base ball, high jumping throwing a discus, etc.

Bobbed hair is raging again among the Hope school girls. Guess what the boys say? They voice the sentiments of the old men (not old women). In order to give the eyes a rest that have been looking at tossing manes for so long they are going to care for their locks, let them grow out and decorate them in the old fashioned way with red ribbon bows.

#### APACHE SOCIETY.

From the Hope School, N. M. The Apache Society met February the second and elected new officers. Mrs. George Fanning was elected sponsor of our society and Aubrey Keller our president, Hazel Bell Johnson secretary and treasurer. John Paul Brownie yell leader, Iva Ruth Glascock, musician and Katharine Johnson our song leader. We also selected some class colors which are red and green, these correspond with the name of our society. After this, Mr. Hart made a talk to the society, and we adjourned until two weeks later.

Pearl Anderson and Aubrey Keller are preparing a debate which will be given something in the future.

On February 5, 1924 the Comanche Society met to elect officers for the second semester of this year. The officers elected were:

- Clara Middleton, Pres.
- Bertha Scroggin, Vice-Pres.
- Lloyd Shryock, Sec.
- Susie Bobo, Treas.
- Mr. Cowden, Sponsor.

After the officers had been selected for the second semester, the officers who had served during the first semester calmly took their seats. The new officers took their places and began their work for the second semester.

Under the management of the new officers the following were elected. Oleta French, Musician. Thelbert French, Song Leader. Flody Gossit, Yell Leader. Clara Johnson, Thelbert French, and Albert Morris, Program Committee.

After all officers had been given their respective places, the society adjourned until next regular meeting. Clara Middleton, Pres. Lloyd Shryock, Sec.

#### "THREE LIVE GHOSTS."

The Art Department of Paramount's London Studio tried out a novel idea for one of the sets in "Three Live Ghosts," which will be shown at the Majestic Theatre next Monday and Tuesday.

For the Gubbin's home a typical Whitechapel background was requisitioned. A house-to-house search in one of the lowest districts of the city was made and at last an old woman was induced to part with her household goods for a few days in return for the usual "consideration."

Thus when the new George Fitzmaurice picture is shown here the public will get a chance of seeing in what kind of surroundings "the other half" of London really lives, for not only is every stick of furniture part and parcel of a genuine Whitechapel parlor but the arrangement of every bit is carefully copied from the original residence from which it was taken. Anna Q. Nilson and Norman Kerry have the leading roles.

THE VALUE of well-printed neat-appearing stationery as a means of getting and holding desirable business has been amply demonstrated. Consult us before going elsewhere

## EDITORIALLY SPEAKING.

McAdoo got his tail feathers sprinkled with oil too, as one editor expresses it, but he claims it was Mexican oil. He has been endorsed by several prominent Democrats as Presidential candidate on the Democratic tickets whether his mix up in oil scandal will affect his candidacy remains to be seen.

While most of the business firms in Artesia are on a cash basis, the need for a retail credit association is apparent. We do not know whether it would be practical to organize the credit association, but something on that order is needed. Many can not for various reasons run on a strictly cash basis. To know absolutely who is good and who is bad would help us all. If everybody paid their bills promptly, the merchant could afford to mark his goods at a lower price, because the bad debt would then be marked off.

We heard a visitor remark the other day that he liked Artesia because of the friendly spirit which prevailed here. That is it, it is friendly in comparison with the place in which he lived. And that remains us that a friendly spirit go a long way toward building up a good town.

We read in a Carlsbad paper where a new town would be started in the Carlsbad oil field. Where is that Carlsbad oil field anyway?

## BOOST A LITTLE.

"Tell me not in mournful numbers that the country's on the bum; rouse up from your peaceful slumbers and get out and make things hum. If we go to work in earnest, we can make things hit on high; 'dust thou art to bust returnest' is a song of by-and-by. All the past is bone forever—you can't call one moment back—and the future may come never, this is true, so help me Mack. Now's the time to do your boosting, do not wait tomorrow's dawn in the grave you may be roasting, all your boosting chances gone. Lay aside your little hammer, grab a horn and boot a few; squelch the kicker's dad-blamed yammer with a joyful blast or two. This old land is sure a pippin and we ought to boost it big; when we hear some growler yipping we should smite him on the wig. Mighty oaks that grow and flourish came from acorns plain and small; with your boosting you may nourish something that may prove a blessing to the toiling sons of men—that's the point that I am stressing—boost and boost again. People love the smiling booster and for him they loudly cheer; but they hate the knocking rooster, long to pelt him in the ear. Boost your country and your business; boost us in your town; they will dub you wise and witty, and you'll gain a wide renown."—Contributed.

Mr. and Mrs. Dayton Reecer entertained with a four course six o'clock dinner last Friday, complimentary to Mr. and Mrs. W. H. Garrett.

## ACALA COTTON TAKES FIRST PLACE IN THREE YEAR TRIAL.

Acala cotton has outyielded all other varieties in three year trial at the New Mexico Agricultural Experiment Station. Acala, first grown by the Station in 1921, outyielded Durango that year by more than 300 pounds of seed cotton an acre. Durango took second place.

In 1922 Acala again outyielded Durango by 140 pounds. Triumph and Durango were second and third respectively, but the difference between them was only 30 pounds an acre. This last year Acala was again in the lead with a yield of 1139 pounds of lint cotton an acre. This was 107 pounds more than Triumph, which came second, and 150 pounds more than Durango, which was third.

Durango had the longest staple of the three varieties, measuring 1-5-16 inches. Acala measured 1 1/4 inches, and Triumph 1-1/4 inches. Since the 1 1/4 inch cotton often commands a premium over the 1 1/4 inch, it is doubtful whether the Triumph would be as profitable as the Durango.

The lint percentage of these three varieties in 1923 showed Triumph with a yield of 40.9 per cent of lint, Acala with 38.0 per cent and Durango 36.3 per cent.

These results show that the Mesilla Valley farmers were wise in selecting Acala as the only variety to be grown in 1924. If several varieties were grown in the same community, they are certain to cross. Crossing leads to degeneration, and in a short time the entire crop may be poorer than a lower yielding variety which has been kept pure.

Acala and Durango are the most popular varieties in New Mexico. If their good qualities are to endure, every precaution must be taken to keep them pure. Concentrated action in growing one variety within the community means added profits, and is worthy of the assistance of every farmer who is interested in the progress of farming within his community.

## PILLS

There was once a certain darkey, noted locally for his oratorical abilities, who was asked to talk at a meeting of his fellow citizens and given as a subject: "Pills". He accepted the challenge and his opening paragraph was as follows:

"There are all kinds of pills. There are big pills and little pills good pills and bad pills that are pretty and pills that are punk; pills that are good for the headache and pills that are good for the stomach ache, but there is only one pill that is good for the soul—that am der goss-pill".

Many and various are the kinds of pills offered for the salvation of the farmer today; some are good and many are bad; some are pretty in theory but do not stand up to the acid test. The best "pill" we know for the soul of the farmer is the "gospel of crop diversification" and hard work.

Forty years ago Wisconsin farmers began to talk about diversification of farming. Soil depletion had reduced the yield of corn to 25 bushels to the acre, and other grain yields accordingly. Wisconsin turned her attention to diversified endeavor along the lines of dairying and crop rotation. After forty years of such farming they have produced a peculiar kind of prosperity—the cows do more work than the farmers.

Dairying has given to that state an unending era of good times. The corn fields are now able to yield 50 bushels to the acre and the dairy cow makes a pay-day out of every day. The state has seen unusual progress in good road building, church, school and community development, and the farming districts and conspicuous for modern lighting plants, furnaces and all the comfort-making equipment that goes with success.

Wisconsin today is our leading dairy state. Intelligent breeding and feeding of cattle has gone hand in hand with dairy production and diversified cropping. A keeper intelligence about profitable handling of the variegated production of a farm like this has arrived. The farmers are out of the rut that grain or cotton farming inevitably produce. Likewise they are out of debt. They did this in a hard climate where winters are long and severe—where the care of live stock entails a task unknown here, and calls for an expenses greatly in excess of what is required in the milder climate of the Panhandle of Texas.

It's glorious to be the greatest cotton producing state in the Union. It's fine to raise millions of dollars worth of wheat; but have these things paid in terms of good homes, good roads, school, church and community development and per-capita wealth? Would it not be better to take a leaf from the successful chapter of Wisconsin's experience?

## CITY STREETS AND COUNTRY ROADS.

According to figures recently published, if the paved streets of 290 American cities were merged into a single highway 18 feet wide it would extend in a continuous pavement for 56,974 miles. The population of the 290 cities, as of January 1, 1923, in which this pavement was laid, comprises 65.8 per cent of the 53,898,385 urban population of the United States.

Of the 601,653,547 square yards of pavement, 469,463,141 square yards, or 78 per cent was of types migher than water bound macadam. Of the various pavements, asphaltic types comprise 53.9 per cent, brick 21.9 per cent, stone block 11.6 per cent, wood block 3.3 per cent, Portland cement concrete 5.5 per cent, tar macadam 2.9 per cent miscellaneous 1.3 per cent.

The point of interest to taxpayers in these figures is that city streets get much heavier use than country roads. In spending tax funds for hard surfacing state highways, it is essential that public officials be guided in their choice by time-tested methods of paving which have withstood the wear and tear and vibration of vehicles under actual traffic conditions.

Why should state or county funds used for road building purposes be wasted on experiments when the experience of cities can be drawn on to ascertain the most enduring as well as economical pavement?

## A BUSINESS PREPARATION PLAN

Finding by the expert commission to investigate the financial condition of Germany is that Germany can easily pay the 132,000,000 gold marks assessed against it in 1921 for reparations. The expert commission proposes to put Germany in condition to realize these financial possibilities by making a loan secured by mortgage on the railroads and by issue gold-secured currency. This plan is plain business and is practicable if each nation concerned will waive all political objections. France must draw from the Ruhr and suppress fear of German economic recovery, and Germany must abandon the pretense that working to pay a debt is slavery. If that were true of Germany it would be equally true of the United States and of every nation that is in debt.

The plan depends for success on the will to pay of Germany and on the

### SUNDAY SCHOOL CLASSES ENTERTAINED.

Miss Gladys Cowan entertained with a taffy party last Friday evening, her guests being the members of her Sunday school class taught by Dr. Stroup and the young gentlemen of Rev. Walker's class of the Methodist Sunday school. There were a number of merry games, as well as taffy pulling, to make the evening a very enjoyable one. Among the most interesting games were guessing the contents of paper packages and also whom you shook hands with when blindfolded. This latter feat is not so easy as one of the boys, who was mistaken for a girl, can testify.

### SUNDAY SCHOOL CLASS PARTY.

Paul Stroup was host last Saturday evening to two Methodist Sunday school classes, which usually join together in social affairs--his own class taught by E. B. Bullock and Mrs. Feemster's class of girls. They are a lively crowd of young people and join heartily in the games, which made the entertainment of the evening. Mesdames Feemster and Bullock assisted Mrs. Stroup with refreshments.

### CHAT AND SEW PARTY.

Mrs. Frank Seale was hostess to the Chat and Sew Club last Friday afternoon at a "Saint Patrick" party. The colors, white and green, were very attractively combined in the cake and ice cream of the refreshments and sweet peas were used as favors. Those who enjoyed the delightful hospitality of Mrs. Seale were the Mesdames Landis Feather, Ferson, Will Linell, Louis Storey, Walter Ferriman, Austin, Bob Hawkins, Albert Richards and Una Hutchins.

### FIRST CHRISTIAN CHURCH.

We managed to hold every inch gained as we met in our Bible School assembly last Lord's day. Our attendance tallied exactly the same as a week ago. Several were reported on the sick list, and thus the 100 mark was not attained, and if the absent ones can be with us next Sunday we will expect to pass the even number; and our sails will be adjusted accordingly. At our last meeting four classes tied for first place, each one of these had 14 in attendance, and it still remains a question who will capture the banner upon its arrival. If you would like to see a certain class win this place, then please come and be a booster. Remember, we are studying the greatest book in moral and spiritual welfare in the world, and it also contains the greatest code of ethics known; but it is also the greatest treasury of all literature. This book is called God's Word or Our Bible. Come and study with us. We were also pleased to meet the goodly number who greeted us at both morning and evening services. Our services for the coming week beginning March 16th as follows: Sunday School at 9:45 a. m. Preaching services at 11 a. m. Christian Endeavor at 2:30 p. m. Evening preaching services at 7:30. Mexican Mission Monday Evening at 7:30 p. m. Prayer meeting Wednesday evening at 7:30 p. m. Everybody welcome. PETER JENSEN, Pastor.

### EARLY SPRINGTIME DESSERTS

To stimulate the appetite and furnish mineral matter and acids which the system craves and needs at this season, fresh fruits and vegetables are invaluable.

### Banana Dessert.—Heat a pint of milk in a

double boiler until scalding hot. Add two tablespoonfuls of cornstarch which has been mixed with one-fourth of a teaspoonful of salt, and one-third of a cupful of sugar, then add one-fourth of a cupful of cream. Cook thirty minutes, stirring occasionally. Add the well-beaten yolks of two eggs, return to the boiler and stir, cooking until smooth and thick, using care not to over cook and curdle the eggs. Add a teaspoonful of orange extract and put in a cool place.

Cut sponge cake into slices and arrange in a glass dish in layers with sliced bananas, having a bottom layer of cake and the top of bananas. Pour over the chilled custard, cover with a meringue, using the egg whites and two tablespoonfuls of powdered sugar. Flavor with lemon extract and heap spoonfuls on top of the custard.

Cherry Sherbet.—Take one cupful of stoned cherries, two and one-half cupfuls of water, one-half cupful of sugar and one tablespoonful of softened gelatin. Heat the cherries, water and sugar, add the gelatin, cool and add the juice of an orange. Freeze to a mush and pack in salt and ice. Serve in sherbet glasses.

Pineapple Rice.—Cook one-half cupful of rice in two quarts of boiling salted water until tender, but unbroken. Drain, blanch with cold water. Cut two cupfuls of sliced pineapple into small pieces. Beat one cupful of heavy cream until stiff. Fold the cream and pineapple into the rice. Serve in sherbet cups with bits of cherries for a garnish or fresh, sugared strawberries.

Plain boiled rice to which a little pineapple juice and gelatin has been added and the rice molded, makes a delightful dessert with a crushed strawberry sauce.

### CRITICISM AND COMMENT.

By Ruth L. Skeen.

#### TURNING ON THE LIGHT.

I have just come from a conference with McAdoo in which I have advised him to run as all New Mexico would at the slightest word from me stand behind him. I will be held here until the final moment of the Tea pot dome investigation. When I get through telling what I know there won't be a cabinet officer left and Coolidge, the Chaste white dove of the Republican party will look like a crow. There is to be a convention of ex-presidents's wives here this week. I have been asked to address them on "How I reformed women's dress in Albuquerque," "When Bursum found out I was in town he went to bed and pulled the cover over his head and refused to get up."

Every day I get dozens of letters from Albuquerque begging me to hurry home. They can't put out the cat nor bring in the milk bottle without me. Watch this column for more disclosures.

#### SIMON PURE AMERICAN PRODUCTS.

Base ball, ice cream, chewing gum Ring Larder, boot legging, W. J. Bryan, prohibition agents, pop corn cafeterias, Long Beach, California chautauquas, Jiggs and Maggie, nor malacy, the Atlantic Monthly, Henry Ford, breakfast food, Will Rodgers correspondence schools, and Yes, we have no bananas.

#### CORRINNE GRIFFITH.

is one of the few screen stars who possesses real distinction. Like Marie Doro, she has a whimsical beauty that is most appealing. In "Diorce Coupons" she is at her best in a picture worthy of her beauty. This is a picture that the most critical taste will enjoy--a picture that is different--well cast--and excellently directed.

Corrine has just married Walter Morosco con of the well-known theatrical producer, Olier Morosco.

Divorce Coupons is a picture unhesitatingly recommended as far above the average. Friday and Saturday at the Majestic.

Well, we have a new disease--Mah Jong dermatitis, an inflation of the skin due to some property in the lacquer on the boxes. No doubt it will soon be as popular as the flu.

Spearing of Mah Jong, it has become so in Artesia that unless you play Bridge, you are quite out of the picture. So some very valiant ladies have organized a Mah Jong club with modest start of one table which will be added to gradually unless the fair players should be stricken with dermatitis.

#### THE SPRING HAT.

Mary:--  
O, Jane, my dear, as cat to cat  
What do you think of my new spring hat?

Jane:--  
It's very stylish, becoming, too  
And love you, dear, in that shade of blue.

Jane to Maude:--  
O, Maude, my dear, as cat to cat  
Have you seen poor Mary's new spring hat?

It makes her look so old and pale  
It looks like it came from a rummage sale.

#### VOTERS ATTENTION.

We most respectfully submit the following list of dis-qualified candidates for the dis-approval of all intelligent otes, especially women:

Men who pick their teeth at the table.

Men who never shave the back of their neck.

Men who say "I have went" and "I seen".

Men who go about with straw in their hair and boast that their wives do the milking.

Men who cannot spell.

Men who cannot read.

Men who cannot write.

All men who want woman's vote but think women havn't sense enough to hold office.

Sehah'.

At last there is to be an exclusive literary club in Artesia which is in the progress of organization by eight ladies. At first it was decided that a residence of fifteen years proved eligibility but since this rule would cut out one of the most charming and cultivated ladies in town, with out whose presence any social affair is a failure, the plan was abandoned. It remains only to choose name for the new club.

Detroit, Mich., Feb. 29:--More than half a million freight cars, one-fifth the freight car ownership in the country, are used annually by the Ford Motor Company's main plants and various branches, according to figures just given out here.

The average freight charges paid through the Detroit offices direct to railroads, that paid by branches on minor shipments, and freight charges on direct shipments made from manufacturing institutions to branches approximates \$78,200,000 annually. Adding to this about \$75,000,000 paid by dealers on shipments of autos received by them, brings a conservative figure of \$150,000,000 paid every year in freight charges through the instrumentality of the Ford Motor Company.

An average of 860 car loads of freight are handled every day in and out of the Highland Park and River plants alone, and it is estimated that on the Ford Motor Company's account 9,000,000 pounds of freight in car loads are handled every day in the Detroit district.

Shipping space economies, effected through the company's unique methods, are seen in the fact that while arts shipments to the assembly ranch plants are figured at 10 units per freight car, in railroad shipments of completed cars from the branches to the dealers, only six assembled Ford cars and trucks can be loaded into a standard 36-foot box car.

The larger part of the Ford freight is shipped with the Detroit, Toledo & Ironton, the Ford railroad, as either the initial or participating carrier and special attention is paid to the classifying of all freight, so that not only the company but the dealer as well receives the benefit of expert services in freight classification and rate adjustments.

**Lustrous Floors Add Beauty to Your Home**

SMOOTH, lustrous, gleaming floors add beauty and refinement to any home. They bring out the beauty and richness of rugs and furniture. They suggest cleanliness—good housekeeping.

And they are clean, too. If they are varnished with Neptunite Floor Varnish their surfaces will be unusually hard and smooth. You will be surprised at the ease with which they can be kept free from dirt. Long wearing, too. They will retain their original beauty for years. And—best of all—neither hot nor cold water, not even steam, can ever turn them white.

We have some very interesting things to tell you about other Lowe Brothers products and about our service to you. Our long experience enables us to give you good advice about their use. Come in and see us.

An interclass basketball tournament was held this week. Friday afternoon the Junior boys defeated the fast Freshman five by a two-point margin, and the freshman girls won from the Sophomores by a 14-2 score. Monday, the Senior boys were defeated by the strong Sophomore quintet, and the Junior girls won their games from the Seniors.

Thus, in the finals Wednesday afternoon, the Junior boys play the sophomores and the Junior girls contest the freshmen. The winner of the boy's game plays Junior High, Friday evening.

The Benefit Performance at the Majestic netted about \$25 toward the Annual.

**CITIZENS' MILITARY TRAINING CAMP.**

Fort Sam Houston, Texas (Special):—The Commanding General announced that Colonel Ralph M. Parker, D. O. L., Cavalry, will be the Executive Officer of the Citizens' Military Training Camp to be held at Fort Huachuca, Arizona, August 1st to 31st.

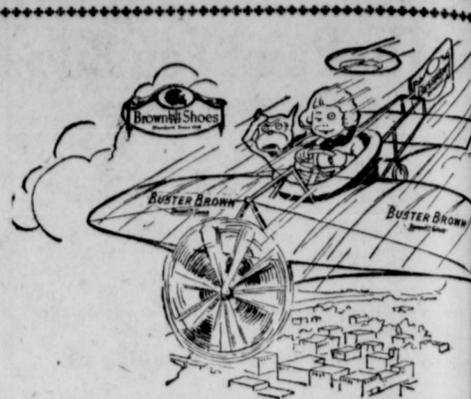

This camp will train 300 students in Infantry and Cavalry and applications will be received from young men between the ages of 17 and 24. These applications should be sent to the C. N. T. C. Officer, Fort Sam Houston, Texas, who will furnish all desired information.

Fort Huachuca is considered a very desirable location for the Citizens' Military Training Camp, being in the picturesque mountains of Arizona over a mile above sea level.

The government will pay all transportation and other necessary expenses of students.

Athletic and sports will feature the camp to be held at Fort Huachuca. The Commanding General stated that he attributed the lively interest being shown in the Fort Huachuca camp to the effective organization work of Captain M. Daugherty of Mead, Arizona, Civilian Aide to the Secretary of War.

J. R. Spence accompanied by Roy Vermillion, W. C. Martin and son Soldmon made a trip to Carlsbad Tuesday where he underwent an X-ray examination. Mr. Spence recently had an attack of pneumonia and it was feared that other complications had set in, however, the examination did not reveal anything serious.
