

ARTESIA ADVOCATE

ARTESIA, NEW MEXICO, FRIDAY, MAY 30, 1924

CAN YOU BEAT IT?

Oil, Cotton, Alfalfa and Fruit—Nature's Great Sanitorium—That's Artesia.

NUMBER TWENTY-ONE

SPECIAL CHAMBER OF COMMERCE MEETING

A special meeting of the Artesia Chamber of Commerce will be held in the Chamber of Commerce rooms on Monday evening, June 2nd, 1924, at 7:30 o'clock. The purpose of this meeting is to elect officers for the coming year. All members are requested to be present at this meeting.

DEMOCRATS ENDORSE MCADOO IN STATE MEET AT LAS CRUCES

Support is Pledged McAdoo After Spirited Session—Two Eddy County Men Elected as Alternates to National Convention.

Las Cruces, N. M.,—New Mexico's delegation will go to the national Democratic convention in New York next month not only instructed to vote for William G. McAdoo, but pledged to keep on voting for him until McAdoo himself releases the delegates.

The vote over "hog-tieing" the delegation was the only lively tilt that featured the state Democratic convention at Las Cruces. The measure was adopted after a scrap which occupied most of the afternoon session Saturday.

F. A. McClernon, city clerk of Las Cruces, created considerable merriment when he jumped up to ask: "In the event Mr. McAdoo dies, will his administrator have the right to release this McAdoo delegation?"

W. J. Barker of Santa Fe launched the fight when he introduced his resolution asking that the delegation be instructed to cast the New Mexico vote for McAdoo as a unit and continue until the presidential candidate's nomination was accomplished or McAdoo himself released the members from the pledge.

H. L. Bickley agreed the delegation should go instructed for McAdoo, but thought that it should not be held beyond the point where the majority of the delegation considered Mr. McAdoo's nomination could not be reasonably expected. He offered this as a substitute for the original motion.

Mr. Barker made a motion that Mr. Bickley's motion be tabled and the fight was on. Carl Magee of Albuquerque suggested that Arthur Seligman, national committeeman and New Mexico representative for McAdoo, ought to be heard. If a primary vote could be taken, Mr. Seligman said, the result would show that the New Mexico Democrats were overwhelmingly in favor of McAdoo.

"I can see nothing unfair," said Mr. Seligman, "in instructing the delegates for him and saying that they should not be released until freed by Mr. McAdoo."

Judge H. A. Kiker, Raton, who was selected as permanent chairman of the convention without opposition, asked J. S. Yarrish of Albuquerque to take the chair while he spoke against sending an instructed delegation.

Mr. Seligman stated New Mexico was entitled to 12 delegates with a half vote each and an agreement was reached to have one named from each of the nine judicial districts, three selected at large and 10 alternates selected at large.

The nine selected from the judicial district were: William J. Barker, Santa Fe, who won the fight a "hog-tied" delegation; Dennis Chavez, Albuquerque; John A. Haley, Carrizozo; J. E. Fleming, Santa Rosa; W. H. McCullough, Roswell; Miss Isabel Evkels, Silver City, superintendent of public instruction; L. N. Taylor, Magdalena Samuel Magill, Raton, Francis E. Nixon, Fort Sumner.

MR. WRIGLEY'S COUNTRYMEN

(From London Opinion.)

"I believe I've got America. I hear a persistent chewing sound."

C. OF C. MAKE MEMORIAL PLANS FOR COMING YEAR PROGRAM TO BE HELD HERE

Committee Appointed To Make Arrangements for Annual Alfalfa Festival—Will Light Camp Ground; County Agent Wanted.

A special call meeting of the Artesia Chamber of Commerce was held Monday night in the chamber of commerce room. Several important community events were discussed and planned, which will be of interest to the people in general.

Many additions will be made to the public camp grounds to take care of a large number of tourists, expected shortly. The camp ground which was established last year almost at the close of the tourist season, was not completed in every detail as the committee originally planned. This year the building program will be taken up and completed as rapidly as possible. The first improvement to be made is that the entire area will be lighted.

The matter of holding the Alfalfa Festival was discussed and we are informed that the annual festival will be held, the dates and tentative plans for the forthcoming event have not been announced, however, a committee has been appointed to start with the arrangements as soon as possible. Part of last year's committee were again reappointed. This year's committee will be T. E. Hinshaw, C. Bert Smith and J. L. Truett.

The Chamber of Commerce also went on record as endorsing the action of appointing a county agricultural agent.

It was also announced by secretary J. J. Clarke that the annual election of officers would be held at a special meeting Monday evening at 7:30.

New Concrete Road Now Open for Traffic—Highway South Is Almost Finished

The Artesia-Lakewood highway, which will form an important link in the Ozark trails leading south is now practically completed, with the exception of one bridge and the final surfacing operations. Only one detour is now necessary in the 16 miles of roadway reaching to Lakewood.

The concrete roadway running through Artesia was opened for traffic a short time ago. Three or four feet of gravel will be added to each side of the pavement as soon as necessary arrangements can be made by the city, it is understood. The width of the concrete is 18 feet and with the graveled sides finished will accommodate very easily the passage of two vehicles, without danger of collision.

COTERIE CLUB

The regular meeting of the club was held at the home of Mrs. S. W. Gilbert on Tuesday afternoon. Mrs. Morgan was chairman for the day and gave a Hawthorne program, which with current topics and the delicious refreshments, served by the hostess, made up a very pleasant, as well as profitable afternoon.

SPECIAL NOTICE

A mass meeting for men only will be held at the Baptist church, beginning at 3:30 p. m. Sunday afternoon. Rev. J. J. Cook, of Roswell will address the meeting. All men are urged to be present.

STORES TO CLOSE DECORATION DAY

May the 30th having been designated by the governor of New Mexico as Decoration Day, and in accordance with the proclamation of the mayor of Artesia, all business houses will close from 10:00 a. m. to 2:00 p. m. Friday, May 30th.

Services will be held at the Methodist church after which the graves of veterans will be decorated.

We trust that every one who can possibly do so will do their part to make the day one of real patriotism.

(Signed) COMMITTEE.

DRILLING ACTIVITIES PAST WEEK IN FIELD CONTINUES STEADY

Illinois Wells Continue to Focus Attention—Preparations Are Being Made To Shoot Well No. 3—One New Well Started.

No exciting events have been recorded in the developments of the oil field the past week, although one or two wells are being watched with interest. The shooting of the Illinois well No. 3, which will be within a short time will probably create a great deal of sectional attention. No other activities are likely to create immediate interest unless Illinois No. 2 drills into the oil sand.

Steady progress by all of the drilling well summarizes this week's activities.

Illinois No. 2 is now drilling below 2000 feet. This bit is now in white lime formation while oil sand breaks in between. The drillers expect to go into sand at any time.

Illinois No. 3, in sec. 32-18-28 is held up temporarily waiting on storage facilities. A slump hole will be drilled to a depth of 20 feet below the present depth, 1993 feet, in order to take casting of the cave expected when the shooting operations are complete. All of the tubing has been pulled as a final preparation and everything will be in readiness when the materials and storage tanks arrive.

Vandagriff and Smith spudded in Wednesday on their location in the SE $\frac{1}{4}$ sec. 8-28-27.

Adamson et al have rig on road for their location in sec. 5-17-28.

Picher Oil and Gas Co., in sec. 12-18-27 are drilling at 1200 feet after encountering a fine showing of oil and gas last week.

Tigner-Windsor temporarily closed down at 1380 feet in order that the officials and drillers might attend the funeral of Basil Tigner held in Roswell Thursday.

Brainard No. 1, Van Welch et al in sec. 29-17-27 closed down waiting on cable.

Ben Pickenpough No. 1, Oscar Howard et al, sec. 3-19-26 drilling at 1100 feet. A showing of oil and gas was found at about the same depth as that found in the original Hawkins No. 1.

Mr. Howard left last Monday for his home in Los Angeles, California, after spending several days looking over the field operations. Mr. Lane, Howard's Tulsa, Oklahoma secretary, who arrived her last week will remain here for some time.

A new rig was unloaded here the early part of the week and is being moved out, but the location has not been announced.

Judge Gives Man Twenty Minutes to Get Out of Town Man Gives 10 Minutes Back

A man who gave his name as Canard, came into Artesia the latter part of last week and is reported to have posed as a lease man for some of the larger oil companies. When he began to solicit funds, small change in various amounts his action created suspicions and his moves were watched. He was later brought before the Justice court where he faced a charge of vagrancy.

A fine of \$10.00 and costs appeared to be nothing out of the ordinary, but an unusual sentence was placed with the fine and that was to get out of town in 20 minutes. This party evidently thought the sentence was very liberal as he gave ten minutes back. He was picked up later at Carlsbad, where he went under a new name.

CHERRY TIME

A fairly abundant crop of cherries are reported in most places. Some sections will probably produce more than others, but the yield for this year under the weather conditions has been far above the average. The Hope section reports the fruit plentiful. The price ranges around 8 cents per pound and up.

Final Closing Exercises of Schools Held On Thursday

Twenty-eight High School Diplomas Are Delivered to Graduates by Dr. Skeen. Bert Smith Delivers Address at Grammar School.

The twentieth annual Commencement of the Artesia high school was held in the high school auditorium last Thursday evening. A large crowd of friends was present to witness the closing scene in the school life of the class of 1924. The auditorium stage was tastefully decorated for the occasion in the class colors, rose and white, also potted plants and cut flowers with the dainty dresses of the girls made a very charming picture. Beautiful music was rendered by a trio of ladies consisting of Mesdames Gates, Wheatley and Corbin, also by a double quartette composed of Mesdames Yates Wheatley, Lanning and Corbin, and Messrs. Bigler, Russell, Welton and Webster.

Katie Cowan, who took second honors, was salutatorian, and greeted the audience on behalf of the class, in a well-delivered and interesting speech entitled "Ideals of Life."

Pauline Bullock, who had highest honors for the four years of high school, was valedictorian. In her address she unfolded in an entertaining way the future prospects and opportunities for the young person of today.

Dr. Crile, chaplain of the New Mexico Military Institute at Roswell, in his address to the class, stressed the amazing changes that have taken place in the past fifty years and the wonderful opportunities now open to young people. Dr. Crile urged the members of the class to get into the midst of things and do something. He said that only those that do something really count. Those who follow the band wagon and join in the shouting help a little, but if they don't do that much they might as well not be in the procession at all.

Dr. Skeen, president of the Board, in a few brief remarks delivered the diplomas to twenty-eight members of the graduating class who are:

Doris Glenn, Laura McCorkle, Helen Mann, Winnie Riggs, Pauline Bullock, Baxter Pollard, Arabelle Rogers, Anna Bruce, Katie Cowan, Marvin McCree, Gladys Foster, Bethelene Stagner, Anna Frances Jackson, Jack Terry, Grace Cobble, Luther Caraway, Alice Dunn, Adele Ohnmues, James Norris, Alice Norris, Garland Rideout, Oliver Crosier, Thelma Huffman, Iris Iler, Ella Brown, Burton Cecil, Bert Shipp and Lucette Henderson.

An interesting part of the commencement exercises is always the announcement of honors in scholarship and attendance. This year Miss Givens announced that Carl Henderson had been voted by the high school faculty, the best all-around student. The record of scholarship and attendance follows:

Highest average in grade. First grade—Wayne Brown, Glenda McLean. Second grade—Warren Cowan, John Gates. Third grade—Jean Wheatley, Vesta White. Fourth grade—Martha Frances Eckles, Ruth Wilde, Carrie Cowan. Fifth grade—Fernie McCaw, John Eckles Williamson. Sixth grade—Ruth Bigler. Seventh grade—Perry Hill. Eighth grade—Jennie Beth Bishop. Perfect in attendance.

First grade—Ormond Loving. Second grade—Charles Brown Leonard Kalker. Third grade—J. W. Brown. Fourth grade—Lilla Jackson, Wilma Robinson. Fifth grade—Everett DeGeer, Ila Walker. Sixth grade—Mary Jackson, Carol Graham. Eighth grade—John Clarke.

High school—Ella Brown, Edna Dungan, Edna Page, Marvin McCree, Farrell McLean.

Twenty-eight students were graduated at the Commencement exercises, which were held at the grammar school auditorium last Thursday afternoon, and an interested audience of parents and friends were present on this important occasion in the lives of the class.

The address to the class and presentation of diplomas were by Mr. C. Bert Smith, who despite his inability to understand why he should be chosen for such an office, gave an excellent address in his own characteristic style. Mr. Smith addressed his remarks as much to the parents and elders as to the students and stressed their responsibility in the formation of youthful character.

The music for the occasion was furnished entirely by pupils and was very good. It consisted of two choruses by the seventh and eighth grade girls, a violin solo by Wilmer Ragsdale, (Mrs. Ragsdale accompanying) (Continued on last page)

Since Tennessee has voted to instruct its delegates for McAdoo in the coming Democratic convention, he has predicted that he has enough votes for nomination. Some of the shrewd politicians say not. After all that is a condition, which remains to be seen.

"CHARGE IT" TO THE TAXPAYER

Cost of "Senate Inquiries" for the present fiscal year will have drained some \$325,000 in tax funds out of the United States treasury.

The congressional investigations are becoming a costly business.

Many citizens are asking the simple question, "Why are these enormous expenditures necessary in addition to maintaining governmental departments whose duty it is to attend to the very matters involved in these special investigations?"

Has the investigating mania become a part of campaign propaganda carried on at public expense?

OIL FOR THE POLITICIANS

The American petroleum industry, in its 60-odd years of existence, has sold its raw material for \$4,900,000, 000 less than it cost the producing branch to drill the wells and lift the oil. Within a similar term of years, as computed on the basis of federal statistics, the citizen land owners in states where oil is produced, have received net royalty payments of \$4,100, 000,000.

And still the oil industry is investigated and re-investigated by politicians seeking to prove to the people that this great pioneering industry is trying to bleed them white.

CANCER MAY BE CONTAGEOUS

Mr. Charles Mayo, of the famous Mayo brothers, recently predicted in a Minnesota address that cancer may soon be classed as contagious and that the disease germ may be discovered and if this be true an effective treatment may be found.

Cancer has been classed as a disease of civilization. At least this is the opinion formed by a great Chicago surgeon, returning from Africa a few years ago. Certainly it was not known in the present prevalent form a few years ago even in our own country.

Cancer seems to be a disease of middle life striking its victims after middle age, with women preferred. It also attacks city dwellers rather than country folks, it visits lowing unhealthy places with bad water supply. We should judge from this that the disease should have a hard battle in New Mexico.

WANT BEST PAVEMENTS

Property owners are compelled to repave streets in many cities that were coated with gingerbread compositions laid by fly-by-night contractors a few years ago under pressure of the cry against the "paving trust."

The Wallace, Idaho, Miner, says: "We know the merits of asphaltic concrete by actual experience, proved after a test far more severe than it will receive on the actual highway, and we know that it is made good. Experience after all is the best guide, and particularly in this case when to adopt concrete would be needlessly experimenting with the taxpayer's money. The streets of Wallace, paved with bitulitic, after having been subjected to heavy traffic for ten years or more, have cost nothing for maintenance and are today practically in as good condition as they ever were. The narrow streets at the 'Y' at the junction of the Mullen and Burke roads, are subjected to the heaviest traffic in the county, and yet the surface is in perfect condition and without the slightest indication of ruts."

WHERE WILL THE ARTESIA CAMP SITE BE?

Some controversy has been occasioned over the report of the Artesia camp site committee appearing in last week's Advocate. As a matter of fact most of the Artesia people are interested in a summer camp site in the mountains, but they are like the writer, not well enough acquainted with the possibilities of each location to know what they want and what they do not want. And even when a site is selected it might not suit everybody. So the main thing for those who expect to have an outing this summer is to begin at once and ascertain where they want to go. Some may know of a better place, which is not generally known to the public, if so we would like to hear about it.

The camp site committee was like most other folks, they did not know of all the desirable locations and in visiting the various places selected, they were compelled to be guided by meager information obtained here and there. Of the places visited there was a strong recommendation that any place as the official, although they thought that one certain location appeared to them, but they also stated that many desirable features were given as general information in order that the public might make their own selections.

Dam in India

The irrigation dam near ... containing 21,500,000 ... has the largest ... in the world.

BE CONSISTENT

In commenting on the dangers of public ownership schemes, Henry Swift lives of Chicago goes to the root of the question when he says:

"A Chicago suburban village referred to as 'Millionaire Colony' maintains a municipal electric light plant when not one voter in a hundred in this village would for a moment favor the socialization of this particular business.

"In a prosperous Middle Western city, one of the leading advocates of municipally owned traction lines is a prosperous insurance agent, but he bitterly opposes socialists in their effort to force the state into insurance business.

"A lumberman in the far west is fearful that his state will go into business of manufacturing fruit boxes for farmers at cost, yet he advocates compulsory state workmen's compensation insurance to the exclusion of private enterprise and competition.

"A meat packer advocates government ownership of the railroads but fights it for his own business. Numerous instances of similar inconsistencies could be given.

"It is remarkable that in industries most threatened by government ownership, many of the leaders do not seem to care what becomes of the other fellow in the same boat, provided they themselves keep a few feet ahead of the socialist sheriff with his writ of ejectment.

"The real issue in America today is not whether certain industries shall be socialized, but whether the institution of private property shall be maintained.

"It is too much to expect people to take seriously protestations of one industry against government when they find the leaders of that industry advocating government ownership of somebody else's business."

When you adopt socialistic schemes you might just as well tear up our Constitution for you wipe out the rights of the individual which it was drawn to protect.

CARLSBAD GETS PAR FOR SCHOOL BUILDING BONDS

The Carlsbad School board met the latter part of last week to consider bids for the sale of the \$90,000 high school bond issue, and of the eleven bonding houses submitting bids, that of the Commerce Trust company of Kansas City, was the best, that company offering par for bonds bearing 5 1/2 per cent interest.

Representatives of the bonding houses were on hand and a spirited contest for the bonds was made before the board.

The bids for the construction of the new building were not quite so numerous, but three contracting firms having representatives present at the meeting of the board, two from El Paso, and one from Amarillo. Home contractors did not submit bids. Upon opening the bids that of Ramey Bros., of El Paso, was found to be considerably less than the other two, and the contract will be awarded that firm upon completion of the necessary papers. The contract calls for completion of the building in five and one-half months.—Carlsbad Argus.

HOW TO JUDGE A DAIRY COW BY APPEARANCE

The best basis for judging a dairy cow, is her actual milk production. Her ancestry will also give an indication of what may be expected. Such records, however, are not always available. Even if they are, few people care to purchase a dairy cow without giving careful attention to her type or appearance.

The dairy department of the New Mexico College of Agriculture gives these six points as a basis of judging type and appearance.

First. Dairy temperament is indicated by a lean, angular body, free from fleshiness when milking, a tendency to triple wedge shape, the whole body clean cut and refined, a bright, prominent eye, a prominent spinal column, back straight and rump level.

Second. A strong constitution is indicated by a large, open nostril, and a wide and deep heart girth.

Third. Great capacity for feed is indicated by a large muzzle, and a wide and deep body.

Fourth. Good blood circulation is indicated by large, elastic milk veins leading forward from the udder and entering the body through large milk wells.

Fifth. Large mammary development is indicated by large udder that is soft and pliable when the milk is out. The udder should be level on bottom, and the fore quarters well developed. It is desirable that the teats be of convenient and uniform size and squarely placed.

Sixth. Breed indicates that she contains a large percent of the blood of some one dairy breed.

Plenty of Oyster Shell Helpful to Egg Layers

Several flock owners have, at various times, asked my opinion as to the cause of soft-shelled eggs, says a writer in the Successful Farming. Hens may occasionally lay a soft-shelled egg even when supplied with plenty of oyster shells. Sometimes this is caused by an overfat condition or a poorly balanced ration.

If any of your hens lay an occasional soft-shelled egg, make sure that they are getting plenty of green food and that they are made to exercise in the straw litter. If this is done, and the balanced ration and oyster shell do not put a stop to the soft-shelled eggs, you may be sure that the trouble is due to some abnormal condition that prevents the fowls from manufacturing the lime as fast as it is needed. When this is the case the only cure seems to be to cull out any hens that are known to lay soft-shelled eggs frequently.

Such eggs are not only a frequent loss, but the breaking and eating of them by the other fowls encourage the habit of egg-eating.

PHONE THAT ICE CREAM ORDER TO 197—THE SMOKEHOUSE.

GLIMPSES OF THE PAST

From the files of the Advocate May 27th, 1905.

W. E. Baskin made a business trip to Roswell Monday.

Dr. Chas. Thomas of Roswell, was prospecting in town this week.

The new hotel at Dayton is completed and doing a fine business.

J. H. Reeves of Hagerman, is having a meat market built in Dayton.

In a matched game of base ball, Lakewood defeated Dayton 14 to 12.

Harry Hamilton acted as umpire in the Roswell-El Paso ball game Tuesday at Roswell.

Mr. D. H. Rathbone was down from Dexter Tuesday and unfortunately lost a splendid gold watch.

A. L. Lewis is having a very pretty brick residence erected on Richardson Ave. It is nearing completion.

Miss Lillian McCain, bookkeeper for the Artesia Townsite Co., returned Saturday after a pleasant visit in Roswell.

Messrs. Coffman, Roby and Clarke returned from a pleasant and successful prospecting trip in the mountains Tuesday.

J. D. Christopher is having a residence erected on Missouri Ave., which he will occupy with his family as soon as possible.

Quite a lot of land prospectors are looking over the Artesia county in this vicinity. The county is very beautiful now.

Mr. Lum Richards, of Hope brought 160 pounds of cherries to town Tuesday, which were quickly bought up at 8 1/2 cents per pound.

A new artesian well has come in in Chavez county, near Orchard park. It is 993 feet deep and has a nine inch flow over a six inch casing.

Jaffa and Prager, of Roswell, are setting out 75,000 of the new variety of seedless apples on the Medlar farm east of the city. This farm will be the distributors for the new fruit in the entire valley.

MARION DAVIES IN SPLENDID PICTURE

Said to be one of the most delightful pictures in which Marion Davies, beautiful Cosmopolitan star in Paramount pictures, has ever appeared is "Adam and Eve," which comes to the Ardmore theatre next Monday and Tuesday for two days. Its scenes range from the fashionable home of a capitalist, to a farm where much of the action finally develops.

"Adam and Eve," adapted for the screen from the famous stage comedy by Guy Bolton and George Middleton, was directed by Robert G. Vignola, creator of "When Knighthood Was in Flower," also starring Miss Davies. In support of Miss Davies is an excellent cast, including such well-known players as T. Roy Barnes, Tom Lewis, William Norris, Percy Ames, Leon Gordon, Luella Gear, William Davidson and Edward Douglas.

One of the most striking and beautiful scenes ever filmed is the Venetian carnival scene in "Adam and Eve." This scene brings into play all the atmosphere of Venice, including a festival barge, a fleet of six gondolas and a venetian canal. The carnival scene was taken at the beautiful Laddin's Rock Farm, near Stamford, Conn., where the opening scenes of "When Knighthood Was in Flower" were filmed. Its construction cost more than \$40,000. During the shooting of this scene, Miss Davies and her supporting players worked four days, from sunset to sunrise, this particular action of the picture calling for nothing but night scenes.

NEW WATER FOUNTAIN

A new drinking fountain has been installed at the corner of Roselawn avenue near the First National Bank building. It has been set near the row of shade trees on this corner and will be very convenient for the thirsty passers by.

A thing of this kind has long been advocated by the good ladies of the town and the city dads did a commendable deed in having a fountain placed for the convenience of the public.

Did You Know?

By

E. R. WAITE, Secretary of Shawnee, Okla., Board of Commerce.

THAT in every city there are people who are content with the way things are going, people who want to do things the way our grandfathers did. Others, who are content to live unto themselves, disregarding their neighbors and the home city.

THAT cities should face the cold facts, as to what they are and their strength.

THAT underestimating the strength of the PULLBACKS often causes disaster to those worthy projects for the development of the home city.

THAT there is nothing to gain for a city to blind itself to those obstacles. They will even organize themselves against the best interests of the home city.

THAT it does not mean that the PULLBACKS hold an IMPREGNABLE position, but it does mean that they are a menace to development that must receive much consideration. CITY BUILDERS MUST NEVER LET UP FOR A MINUTE IN THEIR CITY-BUILDING EFFORTS.

LAKWOOD ITEMS

Miss Mabel Robinson and mother were in Lakewood Sunday.

Mrs. De Autremont went to Artesia Friday to have some dental work done.

Mrs. Rosa Murrah and children were up from Carlsbad Sunday visiting friends in Lakewood.

H. D. Cass moved into the Stroud house, which has been recently vacated by two families from Arizona.

Ralph Shafer took his wife to Carlsbad Saturday, where she will be under the doctors care. She has been ailing for some time.

Florence Cass and sister, Mrs. Romah Thompson left on the train Sunday. Florence goes to El Paso and Mrs. Thompson to her home in Taylor, Texas.

Mr. and Mrs. Wm. Kehl returned from Phoenix, Arizona Thursday, where they have been the past six months. Mr. Kehl is an ex-convict man who was gassed in action. He left Monday for Albuquerque to take an examination.

Keeping Broody Hens on Feed Is Now Advocated

Thousands of dollars are lost each year because broody hens are allowed to remain on the nests instead of being made to produce. Some poultry owners resort to starving or ducking their broody hens or withholding water from them, but such treatment is inhumane to the hens and often throws them into an early molt. Better results will be gained if the "broodies" are given plenty to drink, and if a mesh is kept before them all of the time. Besides, they should have a light feeding of scratch feed twice a day.

A broody coop which will help in breaking the birds of their desire to nest is also recommended. It should be built of wire or slats, with the bottom of the same material as the sides and top, and should be placed in the hen house, preferably on the roosts. About twice a week the broody coop can be opened and all the birds allowed to escape. Any that still seek the nest should be put back in the broody coop.

See Light Far at Sea

Rio de Janeiro is famed through South America for the abundance of brilliant illumination it has at night, and sailors report the glow from the lights may be seen as far as 100 miles out at sea.

A LONG the journey here and there
You often find a flow'r,
Just anytime or anywhere,
No special place or hour.
They aren't planted in a row;
You never guess, you never know;
Around a bend a fellow goes,
And right ahead he sees a rose.

You never know: Within a ditch
A lily may unfold,
Or cowslips make a meadow rich
With all their yellow gold.
The road is rough, but oftentimes
Around a rock an ivy climbs,
And many a weary eye has met
Beside a stone, a violet.

God sows His blessings like His seeds,
No special hour or place;
The moment of our saddest needs
We often see His face.
In hours of joy and hours of care,
Just any time and anywhere,
His fairest flow'rs He seems to sow
Along life's road—you never know.

BLACKSMITH SHOP SOLD
The blacksmith shop belonging to
Glover and son, situated across the
street from the post office, was sold
last Saturday to S. H. Widney, who
formerly operated a garage on Main
street. Mr. Widney will maintain the
blacksmith shop in connection with
his garage and will make some
changes and repairs in the building.
He has added a new gasoline pump to
the present equipment.

AT THE CHURCHES

Church notices must be in the Advocate office not later than 2:00 o'clock P. M. Tuesday of each week to get them in this column. Co-operation on the part of the ministers and other patrons of the paper will be appreciated.

FIRST CHRISTIAN CHURCH
We realize that the hot days of
summer are before us, and that some
of our people are planning a vacation
in the higher altitude among the
mountains. It is not possible for all
to get away, so those of us who re-
main will have to fight the summer
slump. But let us remain loyal and
hold the fort. For we will be reward-
ed in the hereafter for faithfulness in
service.
We had a splendid Bible school last
Lord's day, but we still feel that
there were many absent who should
have been in their places. So come
let us boost the attendance. The
Christian Endeavor work has shown
a very marked interest during the
last week or two, and this is surely
encouraging to say the least. New
song books have been ordered for the
church, and we are hoping they will
arrive before next Lord's day. We
are planning to observe Children's
Day June 1st, immediately after the
Bible school hour, when a program
will be given, instead of a sermon
during the preaching hour.
Services as follows beginning June
1st:
Sunday school at 9:45 a. m.
Children's Day program 11:00 a. m.
Christian endeavor 6:30 p. m.
Evening preaching 8:00 p. m.
Prayer meeting Wednesday at 7:30
p. m.
Everybody welcome.
PETER JENSEN,
Pastor.

BAPTIST CHURCH
The revival at the Baptist church,
which began Sunday is growing in in-
terest and the crowds are growing
larger at each service. Every one
seems to be delighted with Brother
Cook and the wonderful sermons he
delivers.
He is one of the most original, as
well as one of the most spiritual me,
I have ever known. Our day services
are expecting great results.
The subject Monday morning was
"Take Ye Away the Stones" taken
from the story of the raising of Laz-
arus. Rev. Cook showing the stone
over Lazarus' tomb was placed there
by human hands, using this to illu-
strate the fact that we are responsible
for the sins in our own individual
lives, and that we must remove them,
by repentance toward God and faith
in Christ.
Subject for Monday evening "All
We, Like Sheep, have Gone Astray,"
Every one turned to his own way,"
taken from Isaiah's wonderful picture
of Christ and showing that each of us
have our individual ways of sinning
against God and each one responsible
to God for his own sins, and then
Christ as God's sacrifice for man's
sins, on whom God laid the iniquities
of us all.
We cordially invite every one to
come and hear this wonderful man of
God. Services each day from ten till
eleven o'clock. Evening services at
7:30 o'clock.
Sunday school, 9:45 a. m.
Preaching service, 11 a. m.
B. Y. P. U. 6:30 p. m.
Preaching service 7:30 p. m.
L. R. SIMMONS,
Pastor.

METHODIST CHURCH
Sunday school at 9:45 a. m. Geo.
Frisch superintendent. Last Sunday
we observed Sunday School Day. A
fine program was rendered. Had un-
usually large attendance and an offer-
ing of \$35.00.
Preaching service at 11:00a. m.
This is the most important morning
service of the month as it is the time
we observe the Holy Sacrament. The
pastor will have a special message
next Sunday. Do not fail to attend
this service.
Epworth leagues each meet at 7:00
p. m. Glad to have some of our
Leaguers who have been away to
school return and be with us in our
meetings.
There will be no evening services
during the progress of the revival at
the Baptist church except the league
services.
Every one is extended a most cor-
dial invitation to attend our services.
Strangers and visitors in the town
have a special invitation to meet with
us.
JAMES H. WALKER,
Pastor.

PRESBYTERIAN CHURCH
Sunday school at 9:45 a. m. V. L.
Gates superintendent.
Preaching at 11:00 a. m. and 8:00
p. m. by the Rev. Charles C. Sterrett,
of Marysville, Tennessee. Mr. Ster-
rett expects to spend the month of
June in Artesia and will be the regu-
lar supply while in town.

SUNDAY SCHOOL
DAY OBSERVED
Sunday School Day was observed
at the Methodist church during Sun-
day school hour last Sabbath morn-
ing. "The Road to the King," a ser-
vice especially for this occasion was
given and was participated in by
every department of the Sunday
school from the Cradle Roll up. The
church was attractively decorated
with roses and potted plants.

COLORED JUBILEE SINGERS
The Jubilee Singers from the col-
ored Methodist church at Roswell held
a service in the Artesia Methodist
church last Sunday afternoon at three
o'clock. Rev. Weaver, pastor of the
Roswell church, accompanied his
choir and gave a short sermon. The
remainder of the service was devoted
to song and this was a real treat to
the audience, especially to those who
were accustomed to hearing the Jubi-
lee singing back in their old homes in
the Southland.

ARTESIA STUDENTS AT STATE UNIVERSITY
Our students at the State Univer-
sity have been surely putting Artesia
on the map this year. The pages of
the last copy of the New Mexico
Lobo, the official publication of the
University students, fairly bristle
with Artesia names. Artesia is even
pictured in the paper, the handsome
lineaments of Willis Morgan, business
manager of the Lobo, gracing the
front page. C. O. Brown, Jr., finds
his way into the issue as an unusu-
ally efficient baseball umpire. Miss
Mary Doss wins high encomiums for
her ability in dramatic art. The
Misses Esther Morgan, Mildred Doss
and Helen Sage appear as members
of the program committee of El Cir-
culo Espanol, the club for students of
Spanish and Miss Ruth Morgan, as
president of the Y. W. C. A. and as a
member of the Mortarboard Society,
the woman's honorary organization.

List your property with the Red Ball
Real Estate Agency. We handle farm
lands, city property, oil leases and
royalties.

DATES FOR TEACHERS' EXAMINATIONS
The dates for the holding of teach-
ers' examinations for certificates are
as follows: June 26, 27, and 28 and
July 17, 18, and 19. Teachers who
are making application for certifi-
cation credentials and who have met
all the requirements will please send
in their credits with the required fee
to the state superintendent of public
instruction as soon as possible. Ap-
plicants for kindergarten certificates
must obtain credit or passing grade
in New Mexico history and civics.
Mrs. A. A. Kaiser,
County Supt. of Schools.

BOY SCOUTS NOTICE
There will be a meeting of the Boy
Scouts Saturday morning at 10:00
o'clock at the Commercial Club rooms
in rear of Ferriman's store. All boys
wishing to join the Scouts be there.
Bring 50 cents for one year's dues.
Let the H. & H. Exchange look
after your city property.

Most Fat Steers From Corn Belt

One of the Most Practical Ways of Disposing of Corn Crop.

(Prepared by the United States Department of Agriculture.)

Farmers in the corn belt are gradually modifying their cattle-feeding, cattle-fattening and beef-making operations because of the changing conditions of high-priced land, intensive farming and market demands. Where once the whole operation of breeding the cows and raising the calves, growing them on pasture and roughage to the feeder age and then fattening them for the market, was carried on at the corn belt farm, it has been gradually becoming more and more impractical to keep herds of cows to raise calves and to thus grow their own supply of feeders. Not more than a score of years ago there was an abundance of pasture and land was comparatively cheap. Today practically all land capable of being tilled is used for crop production. The raising of cattle primarily for fattening as beef has been giving way to the production of pure breeds for breeding stock.

Disposes of Corn Crop.

The fattening of steers, however, affords one of the most practical ways of disposing of the corn crop and of the many roughages produced on the average corn belt farm, and most of the fat cattle are still supplied by the corn belt. Instead of growing the feeders on the farm where they are to be fattened, however, there is an increasing tendency on the part of cattle feeders to purchase their feeder supply direct from the range which is more adapted to raising and growing calves to the feeder age than to fattening them. The range cattlemen are realizing the situation and are attempting to produce a high grade of feeder cattle. The corn belt cattle feeders, with an abundance of fattening feeds and limited pasture areas, see where they can better afford to purchase feeders from the range area than to raise them on land which is suitable for crop production.

Organizations of breeders are being formed in many sections of the country for the purpose of assembling several droves of feeder cattle and selling them at auction. Sales of this kind are usually extensively advertised in order to get a large number of buyers to attend. Buying direct eliminates marketing expenses at the live stock markets and insures against "stale" cattle, that is, cattle held at the markets for several days. Buying at the large live stock markets is preferred by many feeders, because there may be a saving of time, and there is the possibility of buying on a "glutted" market, which usually results in much lower prices. When the receipts are normal, however, there is usually considerable competition, resulting in a price considerably higher than the range price.

Buying and selling ability plays as important a part as skillful feeding in the successful handling of feeder cattle. Successful feeders study market conditions. In some seasons certain weights and classes of cattle may be purchased more economically than others. The cattle feeder should study the demands of the market for certain seasons and feed the kind of cattle that will be in demand when they are ready for market.

Objects in Fattening.

The primary objects in fattening steers are to utilize roughages for which there is little demand, to keep the soil in a high state of productivity by feeding the crops on the farm and returning the manure to the land, and to increase the income from farm operations. The fattening of cattle throughout the corn belt area is of two types—dry-lot fattening and fattening on grass. Most cattle fattened in the corn belt are dry-lot fed and are marketed before July 1. Very few cattle fed heavily on grain during the winter and spring months are ever put on grass the following summer. In some sections of Missouri feeders purchased in the fall are "roughed" through the winter largely on cornstalk fields, straws, hays, stover and silage. In the spring the cattle are turned on grass and fed a half-grain ration. Cattle handled in this way usually are marketed before September 1.

There are various rations used in dry-lot feeding, but two combinations of feeds stand out rather prominently. In those areas where legume hay, such as clover and alfalfa, is produced abundantly, the standard ration is corn and hay. In other areas, where legumes are less thrifty, silage and protein meal, such as cottonseed or linseed, are fed in combination with corn and a mixed hay.

Available Rough Land.

High-priced land suitable for grain production in the corn belt area can hardly be profitably kept for pasture for the production of beef for the market. However, there are many farms having rough land that can be utilized best as a permanent pasture. Gains made by cattle on pasture are usually the most economical. When cattle are "roughed" through the winter, largely on cheap roughages, they can be marketed early the following fall at a cost materially lower than would result from dry-lot feeding. Cattle to be finished in the summer on grass, with possibly the addition of a little corn or other supplement in the fall, should not be fed heavily during the winter, but they should receive enough to maintain their weight. If

they can be kept in a healthy, thrifty condition during the winter months they will do better on grass the following summer than if heavily grain fed during the winter.

Where pasture is available there are three practical methods of fattening cattle on grass, namely, grass alone, grass and additional feed throughout the entire feeding period, and grass with additional feed the last few months of the feeding period. The grass season is usually from May to November, inclusive, which is approximately 210 days. Two acres of good pasture are usually allowed per animal. After September the average pasture begins to decrease in value very rapidly, and cattle should be marketed at this time or given additional feed. Prevailing prices of corn and concentrates, the type of pasture, and the quality of cattle should largely determine the supplement to pasture, which, might be corn alone, corn with protein supplement, or the protein supplement by itself. Where grass alone is depended upon, from four to five months of grazing will usually give best results, because pastures are at their best from June to October.

© 1924, Western Newspaper Union.

I pray you with all earnestness to prove, and know within your hearts, that all things lovely and righteous are possible for those who believe in their possibility, and who determine that, for their part, they will make every day's work contribute to them.—John Ruskin.

EVERYDAY GOOD THINGS

Fresh and canned fruits are invaluable as aids in keeping the system in good condition.

Philippine Salad.—Take one-half cupful of diced celery, two p i m e n t o e s chopped fine, one cupful of walnuts, one-half of a green pepper chopped. Mix the ingredients well, add mayonnaise and serve on shredded lettuce nests. This amount will serve six.

Cream Pie.—Take two cupfuls of top milk, two eggs, separating the yolks and whites, beating well. Mix the yolks with three-fourths of a cupful of brown sugar and one-half cupful of flour. When well-blended add the milk, scalded, a teaspoonful of vanilla and a tablespoonful of butter after the mixture is cooked and smooth. Cool and fill a baked crust. Cover with a meringue made from the two egg whites and two tablespoonfuls of sugar. Bake until the meringue is brown.

Apple Crisp.—Butter a fireproof dish and fill with sliced apples, using eight; add one teaspoonful of cinnamon and one-half cupful of water. Work together one cupful of sugar and three-fourths of a cupful of flour and seven tablespoonfuls of fat until crumbly. Spread over the apple mixture and bake uncovered. Serve with whipped cream or maple syrup.

Waldorf Ham.—Make a rich, highly seasoned white sauce, using cream, one cupful, butter and flour each two tablespoonfuls; when cooked smooth

Silver Plating Easy
Silver plating that, according to its inventor, can easily be applied at home to worn-off silverware, is now on the market.

Likes Antique Furniture
Queen Mary delights in antique furniture and is said to be quite an expert when it comes to judging an antique.

Plans Weather Service
The Republic of Colombia is organizing a national weather service with headquarters at the observatory of Bogota.

Celery Culture a Success
Celery culture in Nevada is a success, according to growers, who say that they can raise three cars to the acre.

Men's Elastic Bands
Shipping returns from Hongkong last year showed that \$50,000 worth of men's elastic bands were delivered in the colony.

Fascinated
When a dog howls at music you can't tell whether it is because he likes it or not, but he doesn't go away.

Never Went to College
Joseph R. Harker, president of Illinois Women's college, never went to college until he was a member of the college faculty.

Fortune in Waste Paper
If the waste paper now burned were collected and reworked, 300,000 acres of forest land could be saved and the paper would be worth \$50,000,000 a year to the paper mills.

Liquor Prescriptions
More than 11,000,000 liquor prescriptions were filled by druggists in the United States, Porto Rico and Ha, wall last year.

To Last Bill on Years
Scientists say there need be no fear of the sun "dying" too quickly and of the earth getting cold. The sun's heat will last, they say, for another billion years or so.

Serum from Horses
Anti-pneumonia serum is obtained from the blood of horses.

Largest American River
The largest river under the American flag is the Yukon in Alaska. It is navigable for more than 2,000 miles.

A CORRECTION

In the notice of the Juvenile Band Banquet credit should have been given to the ladies of the various churches, who practically financed it. The idea of the banquet originated with some of the feminine citizens and that of the Loving cup with the Rotary Club. But it was intended to be a community affair and others were glad to join with the church ladies and the Rotary Club in financing such a commendable enterprise.

FOUR MEXICANS ARRESTED

Four Mexicans were arrested by Deputy sheriff M. Stevenson Saturday evening upon receipt of a message from Sheriff Shattuck, of Carlsbad. The Mexicans were supposed to be in possession of a quantity of liquor. When stopped on the highway south of Artesia only one quart of tequila was found in the car. The Mexicans were later taken to Carlsbad and placed in custody.

We Make It Easy For All Motorists to Equip With Full-Size Balloons

Firestone

Simplified application of
BALLOON
GUM-DIPPED CORDS
at minimum cost

Local motorists are benefiting from the simplified method of applying full-size Balloon Tires, made possible by Firestone. It is an easy and inexpensive job for us to handle your change-over. We have special Firestone units, consisting of tires, tubes, rims and wheel spokes, all built by Firestone according to the highest quality standards. We also have special shop equipment which Firestone has developed for us, giving us an exclusive advantage in turning out an accurate wheel job which exactly fits your present hubs. The cost is little or no more than a set of rims and we can equip your car almost as quickly as a tire change can be made.

Get All the Benefits of the Real Balloon
Insist on the full-size Gum-Dipped Balloon, and get all the benefits in riding comfort, safety and economy. Over 20 car manufacturers and over 40,000 car owners have already equipped with them.

We guarantee you a carefully engineered and perfectly balanced job, at minimum cost. And if you are not completely satisfied when you get them on, we will re-apply your old tire equipment at no cost to you.

AMERICA SHOULD PRODUCE ITS OWN RUBBER J.B. Firestone

Equip Now for Summer Driving
We Are Stocked and Organized to Handle Any Car
Here is your opportunity to improve your present car—better appearance, superlative comfort and safety and a new standard of low-cost operation. You will save money on the reduced car depreciation, lower maintenance and fuel expense and long tire mileage. Full-size Gum-Dipped Balloons as we apply them are an economy.

See us. Get a demonstration. Within a few hours you have them on your car. Come in and get our reasonable prices—less an allowance for your old tires. Put your car on Balloons NOW for the summer motoring season.

A CORRECTION

In the notice of the Juvenile Band Banquet credit should have been given to the ladies of the various churches, who practically financed it. The idea of the banquet originated with some of the feminine citizens and that of the Loving cup with the Rotary Club. But it was intended to be a community affair and others were glad to join with the church ladies and the Rotary Club in financing such a commendable enterprise.

FOUR MEXICANS ARRESTED

Four Mexicans were arrested by Deputy Sheriff M. Stevenson Saturday evening upon receipt of a message from Sheriff Shattuck, of Carlsbad. The Mexicans were supposed to be in possession of a quantity of liquor. When stopped on the highway south of Artesia only one quart of tequila was found in the car. The Mexicans were later taken to Carlsbad and placed in custody.

Let the H. & H. Exchange look after your city property.

Most Fat Steers From Corn Belt

One of the Most Practical Ways of Disposing of Corn Crop.

(Prepared by the United States Department of Agriculture.)

Farmers in the corn belt are gradually modifying their cattle-feeding, cattle-fattening and beef-making operations because of the changing conditions of high-priced land, intensive farming and market demands. Where once the whole operation of breeding the cows and raising the calves, growing them on pasture and roughage to the feeder age and then fattening them for the market, was carried on at the corn belt farm, it has been gradually becoming more and more impractical to keep herds of cows to raise calves and to thus grow their own supply of feeders. Not more than a score of years ago there was an abundance of pasture and land was comparatively cheap. Today practically all land capable of being tilled is used for crop production. The raising of cattle primarily for fattening as beef has been giving way to the production of pure bred for breeding stock.

Disposes of Corn Crop.

The fattening of steers, however, affords one of the most practical ways of disposing of the corn crop and of the many roughages produced on the average corn belt farm, and most of the fat cattle are still supplied by the corn belt. Instead of growing the feeders on the farm where they are to be fattened, however, there is an increasing tendency on the part of cattle feeders to purchase their feeder supply direct from the range which is more adapted to raising and growing calves to the feeder age than to fattening them. The range cattlemen are realizing the situation and are attempting to produce a high grade of feeder cattle. The corn belt cattle feeders, with an abundance of fattening feeds and limited pasture areas, see where they can better afford to purchase feeders from the range area than to raise them on land which is suitable for crop production.

Organizations of breeders are being formed in many sections of the country for the purpose of assembling several droves of feeder cattle and selling them at auction. Sales of this kind are usually extensively advertised in order to get a large number of buyers to attend. Buying direct eliminates marketing expenses at the live stock markets and insures against "stale" cattle, that is, cattle held at the markets for several days. Buying at the large live stock markets is preferred by many feeders, because there may be a saving of time, and there is the possibility of buying on a "glutted" market, which usually results in much lower prices. When the receipts are normal, however, there is usually considerable competition, resulting in a price considerably higher than the range price.

Buying and selling ability plays as important a part as skillful feeding in the successful handling of feeder cattle. Successful feeders study market conditions. In some seasons certain weights and classes of cattle may be purchased more economically than others. The cattle feeder should study the demands of the market for certain seasons and feed the kind of cattle that will be in demand when they are ready for market.

Objects in Fattening.

The primary objects in fattening steers are to utilize roughages for which there is little demand, to keep the soil in a high state of productivity by feeding the crops on the farm and returning the manure to the land, and to increase the income from farm operations. The fattening of cattle throughout the corn belt area is of two types—dry-lot fattening and fattening on grass. Most cattle fattened in the corn belt are dry-lot fed and are marketed before July 1. Very few cattle fed heavily on grain during the winter and spring months are ever put on grass the following summer. In some sections of Missouri feeders purchased in the fall are "roughed" through the winter largely on cornstalk fields, straws, hays, stover and silage. In the spring the cattle are turned on grass and fed a half-grain ration. Cattle handled in this way usually are marketed before September 1.

There are various rations used in dry-lot feeding, but two combinations of feeds stand out rather prominently. In those areas where legume hay, such as clover and alfalfa, is produced abundantly, the standard ration is corn and hay. In other areas, where legumes are less thrifty, silage and protein meal, such as cottonseed or linseed, are fed in combination with corn and a mixed hay.

Available Rough Land.

High-priced land suitable for grain production in the corn belt area can hardly be profitably kept for pasture for the production of beef for the market. However, there are many farms having rough land that can be utilized best as a permanent pasture. Gains made by cattle on pasture are usually the most economical. When cattle are "roughed" through the winter, largely on cheap roughages, they can be marketed early the following fall at a cost materially lower than would result from dry-lot feeding. Cattle to be finished in the summer on grass, with possibly the addition of a little corn or other supplement in the fall, should not be fed heavily during the winter, but they should receive enough to maintain their weight. If

they can be kept in a healthy, thrifty condition during the winter months they will do better on grass the following summer than if heavily grain fed during the winter.

Where pasture is available there are three practical methods of fattening cattle on grass, namely, grass alone, grass and additional feed throughout the entire feeding period, and grass with additional feed the last few months of the feeding period. The grass season is usually from May to November, inclusive, which is approximately 210 days. Two acres of good pasture are usually allowed per animal. After September the average pasture begins to decrease in value very rapidly, and cattle should be marketed at this time or given additional feed. Prevailing prices of corn and concentrates, the type of pasture, and the quality of cattle should largely determine the supplement to pasture, which, might be corn alone, corn with protein supplement, or the protein supplement by itself. Where grass alone is depended upon, from four to five months of grazing will usually give best results, because pastures are at their best from June to October.

I pray you with all earnestness to prove, and know within your hearts, that all things lovely and righteous are possible for those who believe in their possibility, and who determine that, for their part, they will make every day's work contribute to them.—John Ruskin.

EVERYDAY GOOD THINGS

Fresh and canned fruits are invaluable as aids in keeping the system in good condition.

Philippine Salad.—Take one-half cupful of diced celery, two pimento's chopped fine, one cupful of walnuts, one-half of a green pepper chopped. Mix the ingredients well, add mayonnaise and serve on shredded lettuce nests. This amount will serve six.

Cream Pie.—Take two cupfuls of top milk, two eggs, separating the yolks and whites, beating well. Mix the yolks with three-fourths of a cupful of brown sugar and one-half cupful of flour. When well-blended add the milk, scalded, a teaspoonful of vanilla and a tablespoonful of butter after the mixture is cooked and smooth. Cool and fill a baked crust. Cover with a meringue made from the two egg whites and two tablespoonfuls of sugar. Bake until the meringue is brown.

Apple Crisp.—Butter a fireproof dish and fill with sliced apples, using eight; add one teaspoonful of cinnamon and one-half cupful of water. Work together one cupful of sugar and three-fourths of a cupful of flour and seven tablespoonfuls of fat until crumbly. Spread over the apple mixture and bake uncovered. Serve with whipped cream or maple syrup.

Waldorf Ham.—Make a rich, highly seasoned white sauce, using cream, one cupful, butter and flour each two tablespoonfuls; when cooked smooth

Silver Plating Easy Silver plating that, according to its inventor, can easily be applied at home to worn-off silverware, is now on the market.

Likes Antique Furniture Queen Mary delights in antique furniture and is said to be quite an expert when it comes to judging an antique.

Plans Weather Service The Republic of Colombia is organizing a national weather service with headquarters at the observatory of Bogota.

Celery Culture a Success Celery culture in Nevada is a success, according to growers, who say that they can raise three cars to the acre.

Men's Elastic Bands Shipping returns from Hongkong last year showed that \$50,000 worth of men's elastic bands were delivered in the colony.

Fascinated When a dog howls at music you can't tell whether it is because it likes it or not, but he doesn't go away.

Never Went to College Joseph R. Harker, president of Illinois Women's college, never went to college until he was a member of the college faculty.

Fortune in Waste Paper If the waste paper now burned were collected and reworked, 300,000 acres of forest land could be saved and the paper would be worth \$50,000,000 a year to the paper mills.

Liquor Prescriptions More than 11,000,000 liquor prescriptions were filled by druggists in the United States, Porto Rico and Ha, wai last year.

To Last Bill on Years Scientists say there need be no fear of the sun "dying" too quickly and of the earth getting cold. The sun's heat will last, they say, for another billion years or so.

Serum from Horses Anti-pneumonia serum is obtained from the blood of horses.

Largest American River. The largest river under the American flag is the Yukon in Alaska. It is navigable for more than 2,000 miles.

INSURANCE OF ALL KINDS

We Make It Easy For All Motorists to Equip With Full-Size Balloons

Firestone

Simplified application of

BALLOON GUM-DIPPED CORDS

at minimum cost

Local motorists are benefiting from the simplified method of applying full-size Balloon Tires, made possible by Firestone. It is an easy and inexpensive job for us to handle your change-over. We have special Firestone units, consisting of tires, tubes, rims and wheel spokes, all built by Firestone according to the highest quality standards. We also have special shop equipment which Firestone has developed for us, giving us an exclusive advantage in turning out an accurate wheel job which exactly fits your present hubs. The cost is little or no more than a set of rims and we can equip your car almost as quickly as a tire change can be made.

Get All the Benefits of the Real Balloon
Insist on the full-size Gum-Dipped Balloon, and get all the benefits in riding comfort, safety and economy. Over 20 car manufacturers and over 40,000 car owners have already equipped with them.

We guarantee you a carefully engineered and perfectly balanced job, at minimum cost. And if you are not completely satisfied when you get them on, we will re-apply your old tire equipment at no cost to you.

Equip Now for Summer Driving
We Are Stocked and Organized to Handle Any Car
Here is your opportunity to improve your present car—better appearance, superlative comfort and safety and a new standard of low-cost operation. You will save money on the reduced car depreciation, lower maintenance and fuel expense and long tire mileage. Full-size Gum-Dipped Balloons as we apply them are an economy.
See us. Get a demonstration. Within a few hours you have them on your car. Come in and get our reasonable prices—less an allowance for your old tires. Put your car on Balloons NOW for the summer motoring season.

STOLEN TIRE RECOVERED NEW HOTEL OWNER HERE NOW

Sid Austin, who lost a tire Thursday night reported the same to the officials, who arrested and brought Tea Halsey into Justice court Monday morning. It was stated that Halsey admitted the theft and was later fined \$10.00 and cost.

Chas. Ballard of Roswell, new owner of the Hardwick hotel arrived in Artesia this week and is making preparations to take that institution over June 1st, the time set for the possession of the new management.

Legal Blanks—Advocate

BETTER BEEF BY ELECTRIC PUMPS

Make Fresh Water Possible, and Iowa Man Finds Cattle's Weight Gains Accordingly.

It has been established conclusively, in the practice of successful farming, that fresh water, as distinguished from standing water, means better live-stock. And it has now been established, in addition, that an electrically operated pumping system on the farm is so efficient in providing a supply of fresh, running water, that it is comparable with that finest of all water supplies—a natural spring. The experience of an Iowa farmer

Electrically Operated Water Supply System for Farm Use.

In this matter has just come to notice. This farmer, who is also a local banker, was raising beef cattle.

He made tests on the relation of water to the weight of his stock and noted that his cattle drank more water when it was pumped fresh from the ground for them, than when they drank water that had stood long in the tank.

Following a study of the matter, he and a neighboring farmer put in an electric power line for their farms, expending together about \$1,100. After a year's operation, from that particular station, 57 carloads of cattle were shipped. Seven of these carloads were from three farms—a farm with a spring and the two farms equipped with electricity.

Difference Due to Water

The cattle in those seven carloads were the only cark out of the entire 57 carloads that brought top prices on the market. Moreover, the average weight of the cattle in those seven cars was 58 pounds per head greater than the average weight of the cattle in the other cars. The banker-farmer attributed this entirely to his facilities for giving the cattle an adequate supply of fresh water at ground temperature, and he estimated that in this year alone he made approximately \$400 on his investment.

FARMS AND CITIES A MODERN CONTRAST

Inequalities Noted by One Who Has Electric Light and Heat Within Finger Reach.

In the thinly settled regions are, many folks who yearn for the time when electricity will reach them. This is made plain by a letter which appeared in the Michigan Patron, official organ of the Michigan State Grange, a short time ago. This correspondent said:

"Reading about the Grange investigation of water power for farm use has set me thinking about the inequalities of our present opportunities

Electrically Operated Water Supply System for Farm Use.

For instance, for three weeks I've been commanded to lie in bed and keep absolutely warm. Even though it has been 12 degrees below zero part of that time, at any moment I might do two things—with one hand I could reach up and by a twirl of my fingers flood my room with brilliant light, while with the other hand I could turn a current of heat into an electric pad at my side. Thus some where, perhaps out in a distant river, water was working to send me light and heat.

"But I happen to know that not many miles away there are farm men and women dairying by lantern light and gasoline power. And I think, too, of another farm woman who lives so close to a city she sees its twinkling lights every night. One night at Grange the lecturer asked this woman to tell what she'd do if she had \$50 to make her work easier, and she stood up and named more improvements than \$1,000 would install—all electrical. Among other things she said: 'Every member of my family needs a lamp to study or work by every night, and every morning I must wash and all those lamps. What a help it would be to me to be spared this daily task!'"

PUTTING HOSPITALITY INTO THE LIVING ROOM

Electricity Allows Attractive Lighting and Reading Nooks, Say General Electric Specialists.

There is no special reason why the "best room" of a farmhouse should not be an attractive living room, which the farmer and his family can enjoy every evening instead of a formal parlor, never used except when the parson comes to make his semi-annual call. A living room is meant to live in, to spend leisure time in, and on the farm, as well as in the city, most of the leisure time comes in the evening—especially the long winter evenings.

With electric lights a farmhouse living room can be made as pleasant, as

for such fixtures are pleasingly decorated and can be made to harmonize with the room decorations.

Indirect and Local Lights

The principle in such an arrangement, as pointed out by lighting authorities of the General Electric Company, is one of reflected light. The light itself shines directly on the ceiling and is reflected downward upon the room without the slightest glare nor any shadows. A white ceiling or one of light tint is the best for such a plan as this.

But a fine, clear, mellow light from

Left—A cozy corner with electric lights. Below—One way of lighting the living room.

happy, as any room in the house. This isn't so easy, however, with the center gas fixture or with a center fixture that combines gas and electricity. Nor can it be done successfully if the wiring is not sufficient to allow a bit of variety in the lights.

Bright Lights, Artistic Fixtures

The illustrations show specimens of living room lights which are good, bright lights and at the same time cheerfully attractive and artistic to see. Glass-shaded pendant lamps in the center of the room are economical and fairly decorative. The lamps should be frosted—that is, frosted bulbs should be used to decrease the glare.

There are other styles of fixtures that are even better looking. And some folks like semi-indirect fixtures, which give a wonderfully mellow, soft glow, no glare at all, while the light floods over the whole central part of the room. An electric lamp of high wattage—100 to 150 or even 200 watts—is necessary with a fixture of this sort, and that, of course, means more consumption of electricity and consequently a greater expense, but the delightful illumination which results is considered worth the cost. The shades

of the center of the room is not the only illumination possible or desirable in a living room. That serves excellently when there is company. It's a fine light under which to entertain the parson.

If the wiring of the house has been well planned, however, there will be one or two service outlets, or wall plugs, in the living room. And then a handsome, cozy electric reading lamp can be placed on a table in a corner or beside a comfortable chair, making a snug spot for dad to read the paper or the livestock weekly, or a pleasant nook for ma to darn stockings—and listen to the radio!

HEART DISEASE PREVENTION

1. Heart disease is nearly always the result of rheumatic attack in childhood, either acute or chronic.

2. Rheumatism is an infectious disease caused by bacteria and is most prevalent in spring and fall months.

3. "Growing pains" and frequent "sore throats" are usually symptoms of a rheumatic attack.

4. Chorea or St. Vitus' dance is rheumatism of the nerve centers and is almost invariably accompanied by heart involvement.

5. Permanently enlarged tonsils and adenoids are the gateways through which rheumatic virus gains entrance.

6. The heart is most frequently damaged during childhood and permanently disables the child in after-life.

7. A nervous child may readily be the victim of a previous attack of rheumatism or heart disease.

8. A child suffering with a damaged heart required special school work with graded rest periods.

9. If properly cared for in the early stages the individual with heart disease may look forward to the normal span of life as a useful member of the community.

10. Cardiac cases are not normal individuals and chronic invalidism may wait upon ignorant treatment of the disease in its initial stages.

11. Medical examination should be advised for all rheumatic or nervous children.

12. Do not neglect childish complaints of tiredness, aching limbs or disinclination to work or play. It is safer to be sure. Call a physician.

Finally, as it is an accepted axiom that the public health official can not combat a disease unless he knows of its prevalence and as the mortality from heart disease indicates only the end results of infective processes beginning in early life, a proper control of heart disease will be possible only if such cases as rheumatism in all its forms, tonsillitis, and chorea be made reportable to the local health authorities.—American Journal of Public Health—Eddy County Health Department, Carlsbad, New Mexico.

Mr. and Mrs. Stephens and daughters the Misses Nora and Nolie, spent Monday in Carlsbad.

Julian Shattuck was here from Carlsbad the last of week visiting his sister, Mrs. Ellis Hall.

Harry Jernigan left Saturday for Clovis, where he will be employed in a garage during the summer.

Miss Leah McClay is expected home soon from Redondo Beach, California, where she taught the past winter.

F. G. Hartell returned Sunday from Las Cruces, where he had been attending the Democratic State Convention.

G. A. Martin arrived from Blue Hill, Nebraska, last Thursday for an extended visit with his son, Carl Martin, and family.

Mrs. George Frisch and daughters, the Misses Mildred, Vesta and Margaret, were in Carlsbad Monday visiting Mrs. A. A. Kaiser.

Rex Wheatley moved his family Monday to their new home, the Shattuck house on west Main street, which he recently purchased.

Mrs. Fred Spencer and two daughters, who have been living here during the school year, have returned to their ranch at Jal for the summer.

W. H. Strunk, of St Joseph, Mo., a former resident of Artesia came in the latter part of last week and will remain here for an indefinite stay.

W. C. Smith of Texhoma, Oklahoma has been a business caller here for the past few days. Mr. Smith now owns an interest in the Smith Vandagriff well.

Miss Linna McCaw arrived home Monday to spend the summer. She has been re-elected to the position in the Columbus schools, which she has filled for the past six years.

Mrs. "Col." Williams and her son-in-law and daughter, Mr. and Mrs. Charley Martin, left last Friday for Mayo Brothers at Rochester, Minn., the two former for treatment.

Henry Devine and family left this week for Oklahoma. After an extended visit there they will go on to Kansas, but they expect to return eventually to their old home in Missouri.

Mrs. J. B. Cecil and sons, Burton and Dyke, left the first of the week to spend the summer in Ohio. Mrs. Cecil's mother, who was seriously ill in the winter, is much better, but still far from well.

Clayton Stroup will receive his B. S. degree from the University of Oklahoma at the commencement exercises, which will be held next Tuesday morning and will arrive home the latter part of the week.

Tom Edward Bullock and Elwood Kaiser are expected home Saturday from Oklahoma University at Norman. They are coming as far as Clovis with Clarence Stoldt and Charley Nickey, who are going by auto to California for the summer.

Mrs. Sallie Smith and Mrs. Otis Brown leave tonight to attend the commencement exercises at the University of Oklahoma at Norman. Their son and brother, Newman Smith is a member of the graduating class taking his degree in the civil engineering department.

Mrs. Howell Gage went to Artesia Friday of last week following the completion of the school year. She joined her husband there and they will make Artesia their home. Hagerman friends are pleased to know that they will reside at Artesia, because they will have an opportunity to make frequent visits with friends and relatives here.—Hagerman Messenger.

Miss Nellie Gray and brother, Buford, arrived last Thursday from Farber, Mo., to join their parents, Mr. and Mrs. Will Gray, who moved here some months ago. The boy, who was a member of the graduating class, remained at Farber to finish the term. She has been elected third grade teacher in the Artesia schools, and will attend summer school at Las Vegas.

Miss Esther Morgan leaves tomorrow for Albuquerque to attend the graduating exercises at the State University, in which she will participate as a member of the graduating class, having finished her course the first semester. Miss Ruth Morgan, who is in school there, will also receive her degree at this commencement. Miss Mary Sands will accompany Miss Esther to Albuquerque and attend commencement before returning to her home at Las Vegas.

Artesia will be well represented at the Normal University at Las Vegas this summer. Among those already gone or going this week are Mrs. Floy Hartzfield, the Misses Ethel Bullock, Opal Martin, Nellie Gray, Helen Yeager, and the Misses Katherine Johnson and Pennie Prude of Hope. Misses Anna Frances Jackson and Bertha Richards left this morning with Marvin Jackson. They will stop over night at Vaughn to visit with Mrs. Luvena Jackson Beck and family.

List your property with the Red Ball Real Estate Agency. We handle farm lands, city property, oil leases and royalties.

LEGAL ADVERTISEMENTS

NOTICE OF FORECLOSURE SALE
In the District Court of Eddy County,
New Mexico.

J. V. ALEXANDER,
Plaintiff,
vs.
M. E. TURNER and A. A. TURNER,
Defendants.
No. 3843.
NOTICE is hereby given that pursuant to a decree of foreclosure made in the above entitled and numbered cause on the Civil Docket of the District Court of Eddy County, New Mexico, on the 12th day of March, 1924, wherein J. V. Alexander is plaintiff and M. E. Turner and A. A. Turner are defendants, to which judgment reference is hereby made for the particulars thereof, L. E. Linell, heretofore appointed Special Master in the above entitled cause by said District Court, and having been ordered to sell the hereinafter described real estate, shall expose for sale and sell at public auction to the highest bidder for cash, at the Front Door of the First National Bank of Artesia in the Town of Artesia, Eddy County, New Mexico, on Thursday, June 12th, 1924, at the hour of 2 o'clock of that day, all the right, title, interest, claim and estate of the Defendants, M. E. Turner and A. A. Turner, and each of them, of, in and to the following described real estate situated in Eddy County, New Mexico, and more particularly described as the NW 1/4 of Section 24, Township 17 South, and Range 21 East, and also a six hour water right No. 128 in the Hope Community Ditch, which sale will be subject to prior mortgage of \$2900.00 to the Federal Land Bank of Wichita, Wichita, Kansas.

Said sale to be made for the purpose of satisfying a judgment in said cause against the Defendants, M. E. Turner and A. A. Turner in the sum of \$3,491.15 with interest at the rate of 8% per annum from the 12th day of March, 1924, until paid, and for the further sum of \$347.28 as Attorney's fees, with interest thereon at the rate of 6% per annum from the 12th day of March, 1924, until paid and cost of suit.

Said judgment being against said defendants for the foreclosure of Plaintiff's mortgage against the above described real estate.

Total amount of principal and interest on date of sale...\$3560.97
Attorney's fees on date of sale... 352.46
Clerk's cost... 7.50
Sheriff's fee... 2.50
Special Master's fee... 10.00

Total amount due on date of sale not including the cost of publication of this notice \$3933.43
Notice is further given that if said real estate does not bring the amount due the plaintiff under his judgment against said defendants, I will immediately after said sale, at the same place offer for sale and sell to the highest bidder for cash, a certain promissory note, held by Plaintiff as collateral, dated March 20th, 1923, and executed by the defendants, M. E. Turner and Agnes A. Turner to J. V. Alexander and S. Roach for the sum of \$1,000.00 due in 90 days after date, with 10% interest from maturity until paid and endorsed by the other payee, S. Roach, and that said note will be sold as the property of the Plaintiff, J. V. Alexander.

Said note being secured by a mortgage on certain real estate and water right, situated in Eddy County, New Mexico, and more particularly described as follows, to-wit:
Beginning at a point on subdivision line between the southeast quarter and the southwest quarter of section 30, Twp. 17 S. and R. 23 East, N. M. P. M., 799 feet north of the quarter section corner on the south side of said section 30; thence north on said subdivision line 490 feet, or to the northeast corner of the southeast quarter of the southwest quarter of said section 30; thence west 846 feet on the subdivision line between the north half and the south half of the southwest quarter of said section; thence south 490 feet; thence east 846 feet to the point of beginning, containing 9 acres of land more or less, also one hour water right from the Hope Community Ditch, and after the sale of said note, I will offer for sale and sell to the highest bidder for cash, at the same time and place the last mentioned mortgaged real estate to satisfy the purchase price bid for said note.

Given under my hand as such Special Master, on this the 12th day of May, 1924.
L. F. LINELL,
Special Master.
5-16-6-6

NOTICE TO ALL WATER USERS ON THE PECOS RIVER AND ITS TRIBUTARIES ABOVE THE CARLSBAD PROJECT.
The suit entitled United States of America vs Hope Community Ditch et al., Defendants No. 712 Equity filed in the United States District Court for the District of New Mexico is being prosecuted by the United States for the purpose of adjudicating and determining the water rights of all the water users on the Pecos River stream system lying above the Carlsbad Project. This suit was necessary because of the many disputes concerning such water rights and the necessity of determining judicially and finally all of such water rights in order that development of lands may be taken up in proportion to existing rights. It is the intention of the United States to join all water users from the Pecos river and its tributaries above the Carlsbad Project as defendants and if they have not been so joined in this suit upon information of that fact they will be joined as parties defendant by order of the court.

The United States will take the testimony as soon as possible it being the desire of the court and the attorneys for the United States to hold court at convenient centers along the river which will be announced later.
The following notice is being sent to all defendants whose addresses are known and to all attorneys of record: (COPY)
IN THE UNITED STATES DISTRICT COURT, DISTRICT OF NEW MEXICO.
UNITED STATES OF AMERICA,
Plaintiff,
vs.
HOPE COMMUNITY DITCH et als.,
Defendants.
No. 712 Equity.
NOTICE
To the Defendants in the above entitled action and their respective counsel:
You and each of you will please take notice that the hydrographic survey of the Pecos River System has been completed by the State Engineer of New Mexico as ordered by the Court, and is on file in the office of the Clerk of said Court at Santa Fe, New Mexico; that copies of said hydrographic survey are also on file in the offices of the Project Manager of the Bureau of Reclamation at Carlsbad, New Mexico, and of the District Counsel of the Bureau of Reclamation at the Toltec Club Building, El Paso, Texas, any one of which may be examined by the defendants or their counsel:
That the defendants are granted until June 28, 1924, within which to file answers or amended answers to the plaintiff's complaint regardless of whether the time of filing same has heretofore elapsed or not. Upon failure to so answer the court will proceed in the manner provided by law to hear said case upon the evidence presented by the plaintiff.
That a copy of this notice is being mailed to each of the defendants named in said complaint whose addresses are known and to all attorneys of record.
By order of the Court dated April 2, 1924.
WM. ROSE,
Clerk, U. S. District Court, District of 5-23-6-27 New Mexico.

STATE BRIEFS

Albuquerque—Paving of north Oak street and Coal avenue viaduct to start at once.
Farmington—Midwest No. 8 well comes in at 684 feet, with production of 500 barrels.
Grants—Development of oil possibilities extending south from Aabrosia lake district under way; many rigs being set up.

Alamogordo—Cattle in large shipments being sent from this district to pastures; 1,571 head in one lot shipped to Kansas City and 675 to Panhandle.
El Paso and Southwest railroad conductors, brakemen and yardmen give increase in pay ranging from 30 to 35 cents per day; engineers and firemen to be given wage boost.

Albuquerque—Shop equipment costing \$3,500 installed in high school.
Taxes in Hidalgo county are lowest in the state, 9.77 mills.
Maxwell—Seeding of beet crop in progress; approximately 3,500 acres are to be seeded, assuring 35,000 ton of sugar beets.

Fort Sumner—Spaulding dome well making better progress than at any time since the beginning of the year; difficulties with water overcome.
Albuquerque—\$60,000 dormitory and dining hall at Manual school completed.

Alamogordo—Pinon-Avis mohair pool sold, 52,000 pounds of wool to one buyer and 15,000 to another.
Deming—Farmers in Luna county raising 613 acres of cotton this year, as compared with 60 last year; 1924 only third year for cotton raising in Mimbres valley.

Raton—Work in progress removing hill at south Sixth street and Apache avenue and opening Apache avenue into new Smidgolow addition.
Canadian and Dry Cimarron rivers of New Mexico included in omnibus flood control bill recently passed by House.

Albuquerque—Campaign started to raise \$5,500 for municipal natatorium.
Taos—Arrangements made for road maintenance work on Moreno valley highway and road in canyon to Taos Junction highway.

Faywood—1,000 head of cattle sold by Warm Springs Cattle Co. to Michigan ranchers.
Plans being made and equipment gathered for forest fire protection during dry season.

Dress of Jap Women
The dress of Japanese women is regulated by their age and condition. One can tell at a glance, if one knows the rules, whether any woman is married or single, and how old she is.

Where Women Rule Men
Among the peasantry of Spanish Galicia, the women work hard all their lives, and are usually much stronger and better developed than their husbands, over whom they rule.

On the Quiet
Dear Old Lady—"In my day children were seen and not heard." In fact Flapper—"Well, I guess you got in a lot of dirty work on the quiet!"—Yale Record.

Drop Union Membership
Since the great railway strike in Great Britain the membership of the National Union of Railwaymen has dropped from 457,836 to 386,115.

Many Wild Horses in Iceland
There are many wild horses on the island of Iceland. Formerly they were shipped to England for use in the mines, but that market is closing since mining machinery was adopted.

The said sale will be held pursuant to the provisions of the final decree entered in the above entitled cause on the 11th day of March, 1924, the said suit being a cause to foreclose a certain mortgage on the above described real estate given by the defendants, Lorena Crouch and Hart Crouch, deceased, to secure the payment of a certain promissory note therein mentioned, and the said decree providing for the recovery by means of said sale the following amounts:
\$885.71 and interest from date of decree at 10 per cent per annum, \$88.57, attorney's fee and interest from date of decree at the rate of 6 per cent per annum, and \$12.00 cost of suit, and cost of sale, and \$10.00 Special Master's fee.
The foregoing amounts with interest and cost to date of sale will amount to the sum of \$1022.96, that being the sum for which the said real estate will be sold on said date.
The undersigned has been designated by said decree to make such sale and the said decree provides that the plaintiff may be a bidder at said sale and shall be entitled to credit against his bid the amount due him as set out herein.
WITNESS my hand this 20th day of May, 1924.
C. E. MANN,
Special Master.

HORSE EATS OUT OF CHEST VALUED AT \$7,000

To the racehorse seen in the studio party of "My American Wife," the new Paramount picture starring Gloria Swanson, which will be shown at the Airdome theatre next Wednesday and Thursday, went a rare distinction.

In these scenes the horse partakes of his food and drink from a costly old antique, hand-carved chest valued at \$7,000.

The chest belongs to a private collection recently brought over to this country by a wealthy collector and is said to date from the days of Christopher Columbus, at which time it was used as a linen chest in an old Granada castle. A tray divided into three compartments fitted into the top of the chest. In one of the compartments was water, in another oats and in a third hay.

The introduction of the winning race horse into the unique features of of the Argentine sportsman falls to American girl who racing event at Buenos Aires. Arriving in her before this delirious in the midst of the

Prepare for Oats With Disk on Corn Stubble

That it is profitable to plow or disk corn stubble ground for oats is proven by tests made at the Ohio experiment station.

The average yield of the disked land for the 15 years of the experiment was 52.83 bushels per acre and that of the plowed land 52.92 bushels, or almost the same; while the stubble land which was disk-drilled as early as the land could be worked, but without any previous preparation of seed-bed gave only 47.43 bushels per acre.

In two very exceptional seasons the no-preparation seed beds gave the largest yield, although in especially unfavorable seasons the yields of the unprepared land were less than half that on either the plowed or the disked land.

The plowed land was much freer from white-top weeds in seasons when that winter annual was particularly bad. Unless the land is in good condition for drilling and free from weeds plowing or thorough diskings is the safest practice.

G. A. MARTIN TALKS TO GOOD ROADS BOOSTERS

Says the Automobile Has Been Great Aid in Promoting Understanding. Advocates National Control of Highways, Maintained by National Tax.

Albuquerque, N. M., May 28.—G. A. Martin, managing editor of The El Paso Herald, Rotary governor for this district, representing the American Automobile association at the convention of the U. S. Good Roads association, spoke today upon the progress made in good roads work in the west and declared that politics has been kept out of road building more than any other public matter of such great importance.

"Progress in road building in the west has been phenomenal," declared the speaker. "and New Mexico and Arizona have not been out of step in this great march. The road construction of the west will compare to that in any section of the country; in fact, it is generally recognized that there is more paving of an enduring character in the west, population and taxable wealth considered, than in any other section of the country."

Keep Politics Out. "Politics has been kept out of road building very largely, due, greatly, I believe, to the high character of the engineers who have planned and executed this work. Once in a while we have a Democrat criticize a piece of Republican construction and vice versa, but it is notable that there have been no great graft exposures in good road building, yet billions have been spent. Let us hope the day will never come, when our highway program will be dragged into the mire of politics as most of our American institutions have been. When politics enters, honesty creeps out and slinks away."

Roads are as necessary as a citizenship to make a community. Upon friendship is based all accomplishment and upon contact is based all friendship. Roads have made it possible for communities widely separated to become neighbors; they have enabled the people to become better acquainted, they forget their animosities. Then they pull together for a common good and they build.

Reaching An Understanding. "A great writer has said that he never wanted to get acquainted with the men he hated, because you couldn't know a man and hate him. Communities have gone along for centuries hating each other because they were not in contact with each other—jealous because they were strangers to each other. Good roads have brought them together and made them know each other. Knowing each other, they have found a common ground for good and have been able to accomplish results."

Now, Not Maybe. "The automobile gets us there now, not maybe, and when we get there, we meet our friends smiling. Fifty miles is but a short before-breakfast ride and people are neighbors a thousand miles away. The good roads have cut distances like a new mayor cuts pie and in reducing distances, they have reduced the friction that communities formerly experienced."

"The railroad is a good thing, but an automobile is better, for everyone can't own a railroad and anyone can borrow enough money to own an automobile."

"The automobile has made our highways and our highways have made us a friendlier and a more capable and more competent nation, for three friends are worth a dozen strangers when an object is to be accomplished. The man we formerly knew as Mr. Jones is now John and we all know that when we get acquainted well enough with people to call them by their first names, we get to the point of accomplishment—sometimes to the point where we can even borrow money without collateral."

Government Supervision. "The only fault with our road building is that it is being done by states instead of by the nation. We need a coordinated national system of highways so that when a highway is started somewhere it will finish somewhere and the likes or dislikes of some petty politician in some other state or the nonprogressiveness of some county somewhere will not block it. State supervision of intrastate highway work is necessary, but the nation should take over all national projects and not only build them but maintain them."

"A national tax paid by all the people, should build and maintain our roads, for the roads are making a greater and better nation and all the people are profiting."

"A gasoline tax to raise maintenance money is fair if not too high, for the man who uses the roads most should help to maintain them, but the roads are built for the good of all the people and the man who drives a car shouldn't have to foot the entire bill. He shouldn't be made the goat."

CORPORATION HEAD HAS FARMER'S VIEW

Owen D. Young, Raised as Farmer's Boy, Realizes Need of Electricity's Help.

Putting himself in the farmer's place, when it comes to the question of electricity in agriculture, is an easy matter for Owen D. Young, chairman of the board of directors of the General Electric Company. Mr. Young was raised on a farm in northern New York and for a considerable period in his younger days he took part in the extremely hard work that has to be done on any farm during the busy season.

And now Mr. Young finds himself one of the men at the head of a great corporation which manufactures every sort of electrical apparatus and equipment. And this is the day when the electrification of farms has become one of the economic questions of the hour.

Mr. Young is heart and soul for farm electrification. He looks forward with enthusiasm to the time when electricity can give the 32,000,000 American farm folks the full opportunity of sharing with town dwellers the benefits of central station electric service.

He wants to complete the emancipation of the farmers, begun by the automobile, by substituting Mazda lamps for the antiquated kerosene lamps; by giving the farmer's wife electric washing machines and vacuum cleaners, by installing electric pumps that will supply running water in the farmhouse and the barn; and by economically-operated motors that will do many of the big and little chores which now drive farm boys to the city because of the monotonous drudgery.

Mr. Young has just brought about such a transformation on his own farm up in Herkimer County, New York near the peak of the watershed that divides the Mohawk Valley from the headwaters of the Susquehanna. He persuaded the Adirondack Power and Light Corporation to extend its lines to his birthplace and home town, so that the home folks and the neighbors could benefit by this enthralling modern giant—electricity. In the Young homestead, the kerosene lamps that took the place of tallow candles early in the last century, themselves gave way this last winter to Mazda lamps.

Anything More Coming? According to students of ethnology, ten great fundamental factors have influenced the evolution of civilized man. They are: Fire, the bow and arrow, pottery, domestic animals, iron smelting, writing, gunpowder, printing, steam and electricity.

Seek Harmless Rat Poison. On account of the alarming increase in the use of rat poison for committing suicide, Japanese police and health authorities are seeking a poison which will kill the rodent pests and yet be harmless to human beings.

Puts Blame on Cow. In London, when a milkman is arrested for selling milk of too poor a grade he has the right to have the cow which gave the milk brought into court, milked before the judge, and to prove that the poor milk was the cow's fault.

Chains Car to Post. Having no intention of losing his car in broad daylight, a driver of a Duffer in Farmington, Me., hitched it to a granite post, using an ox chain and padlock.

LEGAL ADVERTISEMENTS

NOTICE OF FORECLOSURE SALE
In the District Court of Eddy County, New Mexico.

J. V. ALEXANDER, Plaintiff, vs. M. E. TURNER and A. A. TURNER, Defendants.
NOTICE is hereby given that pursuant to a decree of foreclosure made in the above entitled and numbered cause on the Civil Docket of the District Court of Eddy County, New Mexico, on the 12th day of March, 1924, wherein J. V. Alexander is plaintiff and M. E. Turner and A. A. Turner are defendants, to which judgment reference is hereby made for the particulars thereof, I, L. F. Linell, heretofore appointed Special Master in the above entitled cause by said District Court, and having been ordered to sell the hereinafter described real estate, shall expose for sale and sell at public auction to the highest bidder for cash, at the Front Door of the First National Bank of Artesia in the Town of Artesia, Eddy County, New Mexico, on Thursday, June 12th, 1924, at the hour of 2 o'clock of that day, all the right, title, interest, claim and estate of the Defendants, M. E. Turner and A. A. Turner, and each of them, of, in and to the following described real estate situated in Eddy County, New Mexico, and more particularly described as the NW 1/4 of Section 24, Township 17 South and Range 21 East, and also a six hour water right No. 128 in the Hope Community Ditch, which sale will be subject to prior mortgage of \$2900.00 to the Federal Land Bank of Wichita, Wichita, Kansas.

Said sale to be made for the purpose of satisfying a judgment in said cause against the Defendants, M. E. Turner and A. A. Turner in the sum of \$9,491.15 with interest at the rate of 8% per annum from the 12th day of March, 1924, until paid, and for the further sum of \$347.28 as Attorney's fees, with interest thereon at the rate of 6% per annum from the 12th day of March, 1924, until paid and cost of suit.
Said judgment being against said defendants for the foreclosure of the Plaintiff's mortgage against the above described real estate.
Total amount of principal and interest on date of sale \$3560.97
Attorney's fees on date of sale 352.46
Clerk's cost 7.50
Sheriff's fee 2.50
Special Master's fee 10.00

Total amount due on date of sale not including the cost of publication of this notice \$3933.43
Notice is further given that if said real estate does not bring the amount due the plaintiff under his judgment against said defendants, I will immediately after said sale, at the same place offer for sale and sell to the highest bidder for cash, a certain promissory note, held by Plaintiff as collateral, dated March 20th, 1923, and executed by the defendants, M. E. Turner and Agnes A. Turner to J. V. Alexander and S. Roach for the sum of \$1,000.00 due in 90 days after date, with 10% interest from maturity until paid and endorsed by the other payee, S. Roach, and that said note will be sold as the property of the Plaintiff, J. V. Alexander.
Said note being secured by a mortgage on certain real estate and water right, situated in Eddy County, New Mexico, and more particularly described as follows, to-wit:
Beginning at a point on subdivision line between the southeast quarter and the southwest quarter of section 30, Twp. 17 S. and R. 23 East, N. M. P. M., 799 feet, nor in of the quarter section corner on the south side of said section 30; thence north on said subdivision line 490 feet, or to the northeast corner of the southeast quarter of the southwest quarter of said section 30; thence west 846 feet on the subdivision line between the north half and the south half of the southwest quarter of said section; thence south 490 feet; thence east 846 feet to the point of beginning, containing 9 acres of land more or less, also one hour water right from the Hope Community Ditch, and after the sale of said note, I will offer for sale and sell to the highest bidder for cash, at the same time and place the last mentioned mortgaged real estate to satisfy the purchase price bid for said note.
Given under my hand as such Special Master, on this the 12th day of May, 1924.
L. F. LINELL,
Special Master.

NOTICE TO ALL WATER USERS ON THE PECOS RIVER AND ITS TRIBUTARIES ABOVE THE CARLSBAD PROJECT.
The suit entitled United States of America vs Hope Community Ditch et al., Defendants No. 712 Equity filed in the United States District Court for the District of New Mexico is being prosecuted by the United States for the purpose of adjudicating and determining the water rights of all the water users on the Pecos River stream system lying above the Carlsbad Project. This suit was necessary because of the many disputes concerning such water rights and the necessity of determining judicially and finally all of such water rights in order that development of lands may be taken up in proportion to existing rights. It is the intention of the United States to join all water users from the Pecos river and its tributaries above the Carlsbad Project as defendants and if they have not been so joined in this suit upon information of that fact they will be joined as parties defendant by order of the court.
The United States will take the testimony as soon as possible it being the desire of the court and the attorneys for the United States to hold court at convenient centers along the river which will be announced later.
The following notice is being sent to all defendants whose addresses are known and to all attorneys of record:
(COPY)
IN THE UNITED STATES DISTRICT COURT, DISTRICT OF NEW MEXICO,
UNITED STATES OF AMERICA, Plaintiff, vs. HOPE COMMUNITY DITCH et al., Defendants.
No. 712 Equity.

NOTICE
To the Defendants in the above entitled action and their respective counsel:
You and each of you will please take notice that the hydrographic survey of the Pecos River System has been completed by the State Engineer of New Mexico as ordered by the Court, and is on file in the office of the Clerk of said Court at Santa Fe, New Mexico; that copies of said hydrographic survey are also on file in the offices of the Project Manager of the Bureau of Reclamation at Carlsbad, New Mexico, and of the District Counsel of the Bureau of Reclamation at the Toltec Club Building, El Paso, Texas, any one of which may be examined by the defendants or their counsel:
That the defendants are granted until June 28, 1924, within which to file answers or amended answers to the plaintiff's complaint, regardless of whether the time of filing same has heretofore elapsed or not. Upon failure to so answer the court will proceed in the manner provided by law to hear said case upon the evidence presented by the plaintiff.
That a copy of this notice is being mailed to each of the defendants named in said complaint whose addresses are known and to all attorneys of record.
By order of the Court dated April 2, 1924.
WM. ROSE,
Clerk, U. S. District Court, District of New Mexico.
5-23-6-27

STATE BRIEFS

Albuquerque—Paving of north Oak street and Coal avenue viaduct to start at once.
Farmington—Midwest No. 8 well comes in at 684 feet, with production of 500 barrels.
Grants—Development of oil possibilities extending south from Ambrosia lake district under way; many rigs being set up.
Alamogordo—Cattle in large shipments being sent from this district to pastures; 1,571 head in one lot shipped to Kansas City and 675 to Panhandle.
El Paso and Southwestern railroad conductors, brakemen and yardmen given increase in pay ranging from 30 to 36 cents per day; engineers and firemen to be given wage boost.
Albuquerque—Shop equipment costing \$3,500 installed in high school.
Taxes in Hidalgo county are lowest in the state, 9.77 mills.
Maxwell—Seeding of beet crop in progress; approximately 3,500 acres are to be seeded, assuring 35,000 ton of sugar beets.
Fort Sumner—Spaulding dome well making better progress than at any time since the beginning of the year; difficulties with water overcome.
Albuquerque—\$60,000 dormitory and dining hall at Manual school completed.
Alamogordo—Pinon-Avis mohair pool sold, 52,000 pounds of wool to one buyer and 15,000 to another.
Deming—Farmers in Luna county raising 613 acres of cotton this year, as compared with 60 last year; 1924 only third year for cotton raising in Mimbres valley.
Raton—Work in progress removing hill at south Sixth street and Apache avenue and opening Apache avenue into new Smidgolow addition.
Canadian and Dry Cimarron rivers of New Mexico included in omnibus flood control bill recently passed by House.
Albuquerque—Campaign started to raise \$5,500 for municipal natatorium.
Taos—Arrangements made for road maintenance work on Moreno valley highway and road in canyon to Taos Junction highway.
Faywood—1,000 head of cattle sold by Warm Springs Cattle Co. to Michigan ranchers.
Plans being made and equipment gathered for forest fire protection during dry season.

Dress of Jap Women
The dress of Japanese women is regulated by their age and condition. One can tell at a glance, if one knows the rules, whether any woman is married or single, and how old she is.
Where Women Rule Men
Among the peasantry of Spanish Galicia, the women work hard all their lives, and are usually much stronger and better developed than their husbands, over whom they rule.
On the Quiet
Dear Old Lady—"In my day children were seen and not heard." In faint flapper—"Well, I guess you got in a lot of dirty work on the quiet!"—Yale Record.
Drop Union Membership
Since the great railway strike in Great Britain the membership of the National Union of Railwaymen has dropped from 457,836 to 386,115.
Many Wild Horses in Iceland
There are many wild horses on the island of Iceland. Formerly they were shipped to England for use in the mines, but that market is closing since mining machinery was adopted.

HORSE EATS OUT OF CHEST VALUED AT \$7,000

To the racehorse seen in the studio party of "My American Wife," the new Paramount picture starring Gloria Swanson, which will be shown at the Airdome theatre next Wednesday and Thursday, went a rare distinction.
In these scenes the horse partakes of his food and drink from a costly old antique, hand-carved chest valued at \$7,000.
The chest belongs to a private collection recently brought over to this country by a wealthy collector and is said to date from the days of Christopher Columbus, at which time it was used as a linen chest in an old Granada castle. A tray divided into three compartments fitted into the top of the chest. In one of the compartments was water, in another oats and in a third hay.

Prepare for Oats With Disk on Corn Stubble

That it is profitable to plow or disk corn stubble ground for oats is proven by tests made at the Ohio experiment station. The average yield of the disked land for the 15 years of the experiment was 52.83 bushels per acre and that of the plowed land 52.92 bushels, or almost the same; while the stubble land which was disk-drilled as early as the land could be worked, but without any previous preparation of seed-bed gave only 47.43 bushels per acre. In two very exceptional seasons the no-preparation seed beds gave the largest yield, although in especially unfavorable seasons the yields of the unprepared land were less than half that on either the plowed or the disked land. The plowed land was much freer from white-top weeds in seasons when that winter annual was particularly bad. Unless the land is in good condition for drilling and free from weeds plowing or thorough disking is the safest practice.

THIS WEEK

WACO, May 27.—According to the political leaders, men who are members of the Klan held undisputed control over the Democratic state convention. Not a single motion on any major issue was made from the floor of the convention. The principal motions were put from the platform by Senator William A. Hanger of Fort Worth, a Klan official who occupied a seat at a small table to the left of the speaker's stand. It was agreed by all observers that he was the generalissimo, and under his floor generalship the program was put through with almost merciless efficiency. The chairman, Marshall Hicks of San Antonio, did not take the trouble on many motions to ask for the negative vote, declaring several issues carried without registering the voice of opposition.

PARIS, May 27.—According to private code radio dispatch from Darjeeling received today by Lee Smithers, archologist, Mount Everest has been successfully climbed by members of the Bruce party of explorers, the peak having been reached on May 16. The dispatch which was sent Saturday by a member of the party reads: "Nepal crowd hear Everest peak reached May 16. Bruce can not confirm." Mr. Smithers made it clear that the message should not be taken as definite, owing to the fact that it may be only a native rumor, but he believes it is true, owing to the fact that if the expedition has not succeeded in reaching the top by this time it is almost certain to fail as the rainy season is due in a few days.

FORT WORTH, TEXAS, May 27.—John W. Estes, 55 years old, attorney of Fort Worth and Los Angeles, was shot to death at 8:45 o'clock tonight in the Westbrook hotel lobby by John T. Honea, 60, former sheriff of Tarrant county. The shooting was the climax to a few low voiced words exchanged between the two men as they met. Witnesses said Honea's right hand was inside his coat front as he talked with Estes, and while none of the conversation was overheard, Honea suddenly withdrew his hand, clutching a gun and fired three times. One bullet entered Estes' body just below the heart. Another entered his brain above the left temple. The third went wild, but did no damage.

DALLAS, May 27.—Margaret Reiner, aged 11 years, and Miss Annie Mae Reed, 32, of Dallas, were killed and two other persons seriously injured tonight when a Houston & Texas Central railroad train crashed into the automobile in which they were riding at a grade crossing in the southern outskirts of town. The injured are: J. E. Reiner, 33 years old, and Mrs. Gertrude Reiner, 32 years old, parents of the dead child, sustained fractured skulls. Doctors at the sanitarium where the injured were taken declared that the condition of both was serious and might prove fatal. The train which struck the car was a passenger train and was southbound from Dallas. The accident occurred at a dangerous crossing which has been the scene of several serious accidents.

WASHINGTON, May 27.—The Norris bill for government operation of Muscle Shoals was reported today by the senate agriculture committee by a vote of 11 to 4. A motion to report the Ford bill was defeated 11 to 5. Advocates of the Ford bill blocked a vote on an amendment offered by Senator Capper, which would bring the bid under the federal water power act and limit the lease to 50 years. Senator Capper said that both he and Senator Kendrick favored the Ford bid with these amendments, but would not support it in its present form.

LAKE CHARLES, LA., May 27.—After wounding three police and sheriff's officials in a pitched battle here lasting all day, Carl Christensen tonight still was barricaded in his home, a score or more of guards surrounding the house. Assisted by his wife, Christensen, although seriously wounded in both hips, during the fight, kept the officers at a distance with fusillade of pistol and revolver shots. Earlier in the day Christensen had seriously stabbed A. Duhon, a city employe when he attempted to dig a ditch through his property, and then fled to his house.

CAMBRIDGE, MASS., May 27.—Four men held up Herbert Hume, a messenger for the Guaranty Trust company, today and robbed him of \$15,000.

Ford Coupe of J. E. Robertson Stolen From in Front of His Residence Wednesday

A Ford coupe belonging to J. E. Robertson was stolen in front of his residence Thursday evening at about 10:30. Mr. Robertson who had returned from the bank where he was called on business, had driven the car in front of his house and parked it for the night, removing the key. One of the neighbors it is said, saw someone around the car, but did not pay any particular attention to who it was. It is now presumed that the party seen was making the necessary connections on the switch in order to drive the car without the key. It is now believed that the theft was the work of an amateur and that the car will be recovered.

Consoling Thought.
We all make mistakes, but thank goodness the other fellow's always looks worse to us than our own.

Test New Explosive
Hexamethylenetriperoxidamine has been tested by the bureau of mines to determine its detonating value. It is an explosive that may be useful in armor-piercing shells.

LOCAL

Mr. and Mrs. Roy Vermillion, of Lake Arthur were shopping in town Tuesday.

Mrs. Sid Cox left last week for an extended visit with relatives at Terre Haute, Ind.

L. C. Freily was here yesterday from Artesia on a business visit.—Roswell News.

Mesdames Lynch and Prunty, of Roswell, were guests of the McCaw family on Wednesday.

Alf Coll and family left Monday morning to spend the summer at their cottage on the Ruidoso.

W. S. Moore of Carlsbad, secretary of the Eddy County Abstract company, was a visitor in Artesia Monday.

Miss Velma Smith and Miss Emily Skeen spent yesterday in Roswell visiting friends.—Roswell News.

Mrs. R. V. Young and children leave to-night for a two months' visit at Amarillo, Texas, and Wichita, Kansas.

Miss Fannie Keller came over from Hope last week for an extended visit with her uncle and aunt, Mr. and Mrs. Ike Keller.

John Dunn, of the Dunn garage is making two trips to Las Vegas this week to take the teachers to the summer school.

J. R. Hoffman and Jess Truett returned Saturday from Oklahoma, where they had been for a couple of weeks on business.

Miss Frances Prince, of Clovis, and Miss Virginia Howlett, of Roswell, have been visiting at the home of Mrs. L. W. Feemster this week.

Miss Lucy Thomas left Monday night to attend the Normal University at Las Vegas, stopping en route at Lake Arthur and Hagerman.

Mrs. E. E. Calloway arrived Saturday from Texas, where she had been visiting the past two months, and spent several days here with her sister, Mrs. U. M. McCaw, and family, en route home to Roswell.

Will Purdy, wife and son, William, were down from Roswell, Monday. Mr. Purdy is an old timer in the Pecos Valley having run a furniture store in Carlsbad before moving to Roswell, where he now conducts a like business.

Miss Beatrice Cooper of Carlsbad, spent Monday and Tuesday with her sister, Eupha, and mother, Mrs. W. H. Cooper, who has been here for the past week at the bedside of her daughter, who has been seriously ill with the measles.

Jim Cozby and W. L. Patterson, a former employee of the Advocate left Monday for Hot Springs, N. M. Mr. Cozby goes to Hot Springs for treatment while Mr. Patterson will proceed to El Paso where he will probably locate.

Ferd Berry, of Oklahoma, was here the first of the week visiting his brother, Jim Berry, and family. Mr. Berry, who some years ago was employed in the bank at Dayton, is now a travelling auditor for the Big Jo Lumber Co.

A. B. Hill, of Talequah, Okla., is visiting his son, A. D. Hill, of the Cottonwood community. Mr. Hill will probably spend some time in the home of his son, Henry Hill, of Alma, Arkansas, uncle of A. D., is also visiting in the Hill home.

Mr. and Mrs. George Frisch and daughters, the Misses Mildred, Vesta and Margaret, expect to leave by auto tomorrow morning for Las Vegas, where the two older girls will enter the Normal University summer school. The others will return Sunday.

Formal Opening of Majestic Airdome Is Held Monday Night With a Large Crowd

Formal opening of the Majestic Airdome occurred Monday evening when the first entertainment of the summer's season was given at that place. The Rotary Juvenile band, under direction of C. W. Bartlett, played a few opening numbers, which was later followed by picture program. The establishment, lighted up for the first time, presented a very inviting and attractive appearance. In addition to the row of street lights running across Main, the front of the building was spanned with a beautiful canopy of white lights. The opening crowd practically filled all available seats, although the seating capacity of the Airdome is much greater than the Majestic building across the way.

Money for Art
New York city appropriates about \$200,000 annually to the Metropolitan Museum of Art.

Just to Be Different
Do people always disagree because they are really of opposite views or because they're contrary?

First Copyrighted Book
The first book entered for copyright under the laws of the United States was "The Philadelphia Spelling Book."

Origin of Uncle Sam
The nickname Uncle Sam was first used in Troy, N. Y., in 1812.

HOPE ITEMS

C. R. Coffin drove to Artesia during the week.

Regan Brewer has been on the sick list, but is improving.

Elizabeth Johnson left for Las Vegas to attend summer school.

E. T. Whitaker and wife drove to Artesia then to Roswell this week.

Mrs. W. S. Medcalf is doing nicely at the hospital and expects to be home soon.

J. C. Prude, wife and daughter, Annabell and Lit Prude drove to Roswell Tuesday.

Shearing is about to begin. Freighters are preparing to haul the clip to the railroad.

Professor Hart will visit his father over in Texas, then go to Las Vegas for summer school.

There is considerable small grain about ready to harvest. Alfalfa is being cut and marketed.

L. L. Prude and Edgar Watts came in from the ranches and report conditions fine on the ranges.

J. W. Reed, wife and daughter, Mrs. Wallace, from Deming, who is visiting her parents, drove to Roswell Tuesday.

It is cherry time at Hope. Nearly

everybody has cherries. A visit through the orchards within the last few days, shows a bumper crop of fruit of all kinds.

Crops are somewhat retarded as to growth owing to the weather being cold and windy. But the season is the best for several years, and farmers believe the general crops will be good.

Ernest Johnson came over from Hagerman Sunday with the boys. They report everything moving along nicely over there. Wallace Johnson returned with them Sunday afternoon. He expects to move the family in a short time, as they have a crop over there to care for.

NOTICE

Notice is hereby given that the undersigned, was on the 28th day of May, 1924, appointed administrator of the estate of Fred A. Linell, deceased, by Hon. James M. Dillard, probate judge of Eddy County, New Mexico.

Therefore, all persons having claims against said estate are hereby notified to file the same with the County Clerk of Eddy County, within one year from date of such appointment as provided by law, or the same will be barred.

Artesia business men, told some of the possibilities now existing in the city and concluded his talk by stating what he had been able to accomplish since his arrival here 13 years ago.

Democrats Endorse McAdoo

(Continued from page 1)
tee also recommended that the temporary officers be made permanent officers. These were Mrs. Soledad C. Chacon, Santa Fe, vice chairman; Mrs. C. C. Mecham, Albuquerque, secretary; Byron Beall, Roswell, secretary of the state central committee, assistant secretary; S. Ortiz, Deming sergeant at arms.

A fuss over the newly elected members of the state central committee, J. C. Gilbert and Willis Ford, mayor of Roswell, arose but was not fought out on the floor. In the morning Mr. Hunker ruled that they should be seated, but an appeal was taken from his decision. At the afternoon session of the committee it was decided that the old members, Ed Puryear and J. G. Osborne, of Roswell, should be held on until the next nominating convention in September.

The American Legion post at Vaughn requested the convention send a delegation to the national convention pledging to support Alvin Owsley, former commander of the American Legion, for vice president.
