Sunday school, 10:00 a. m. Preaching, 11:00 a. m. Children's meeting, 6:30 p. m. Young Peoples meeting, 6:45 p. m. Preaching, 7:45 p. m. Mid week meeting Friday night this week and Wednesday night only after this week, 7:45 p. m. NORMAN R. NICHOLS, Pastor.

INTER-STATE WATER SUIT WILL BE STARTED

The inter-state suit contemplated over the Vega Sylvestre matter to protect New Mexico's rights in the Rio Grande will be started as soon as the complaint can be completed as the result of Secretary of the Interior Work's action in lifting the Rio Grande embargo...

stream, in his judgment, there is only one course open to New Mexico to save its rights, and that is to go into court.

Attorneys have already been appointed to file the suit. Summers, Burkhart, of Albuquerque, former United States district attorney and James A. Hall of Clovis. To give all his time to this the former has withdrawn from the gubernatorial election contest case.

CATTLE IS PRINCIPAL COMMODITY EXPORTED IN NEW MEX. IN 1924

Total Foreign Shipments in 1924 Amount to Nearly \$800,000—State Leads Utah and Nevada in Struggle for Foreign Markets.

New Mexico reached figures of \$792,960 for its merchandise shipments abroad in 1924, according to statistics just released by the Department of Commerce. It led the District of Columbia and the states of Utah and Nevada. The total exports of the United States for the year 1924 amounted to \$4,498,151, 936.

Cattle was the principal commodity exported during the year under review, amounting to \$254,484. Raw cotton shipments followed with valuations of \$28,663, while the balance of the export trade was split up into minor items which were not classified.

Exports amounting to over \$100,000,000 for the year were attained by eleven states of the fifty-two states and regions included in the tabulation. They were Texas, with figures of \$737,218,927; New York, \$731,593,502; Pennsylvania, \$293,299,153; Illinois, \$239,314,270; California, \$234,684,210; New Jersey, \$223,921,264; Louisiana, \$222,847,224; Michigan, \$177,876,654; Virginia, \$150,198,225; Ohio, \$133,559,362; and Massachusetts, with merchandise valuations of \$114,418,430. Minnesota, with shipments valued at \$99,880,490, was just outside of the first eleven states, while Nevada, with exports amounting to but \$233,413, brought up the rear of the entire list.

This is the first time in the history of government trade statistics, according to Dr. Julius Klein, director of the Bureau of Foreign and Domestic Commerce, under whose charge the figures were compiled, that an attempt has been made to show the relative yearly standing of the different states and regions of the Union in the never ending struggle for foreign trade. Formerly official trade figures gave only the port from which shipments were cleared. Inland producers, desirous of finding out what agricultural and manufactured goods came from their regions wanted the Commerce Department to adopt some other system. The outcome was the new compilation which is based primarily on through-bills-of-lading, and therefore, in the case of some states reflects but a part of their total foreign trade and for others includes goods produced elsewhere. The element of seasonal fluctuations, says Director Klein, should also be considered.

NEW SLANG

The young salesman placed his sample case on the porch and began genially:

"How do you do? I should like to introduce to you our new corn razor."

"You needn't waste your time," replied the farmer sharply, "an' what's more, young fellow, that smart city slang won't get you very far in these parts. The next farm you stop at you'd better call a scythe a scythe."

—Forbes Magazine.

Legal Blanks—Advocate

Anyway, the cross-word puzzle sets some people to thinking.

The test of a speeder seems to be what kind of excuse he has.

Perhaps an accountant need not be an accountant if he is a good fellow.

Nobody cares how rapidly Secretary Mellon's prosperity prediction comes true.

It's fair enough. The Reds have too much cheek, and the cheeks have too much red.

We hear very little of King Tut these days. Ah, how quickly are we forgotten!

A pessimist is a man who has been listening to a mechanic explain what his car needs.

An income tax thought will intrude at the very time a man thinks he's leading a contented life.

What ever becomes of the bird who spends the first 10 years of his maturity being handsome?

According to automobile price announcement, the number of pedestrians is to be further reduced.

Doctors claim that walking is good for the health. In spots, a hop, skip and jump are even better.

One cold-weather offense consists in unnecessarily permitting chimneys to emit dense black smoke.

The missing link that concerns most of mankind is the one that goes to the laundry in a shirt by mistake.

The idea some husbands have of a fifty-fifty deal is letting the wife listen in with one of the head sets.

The objection to most highbrow literature is its pompous way of saying something everybody knows.

Another method of combating winter weather is to invest in a two-pants suit and put it all on at once.

The thief who stole a meerschmied pipe may have been trying to keep down the evil of too much smoke.

The Department of Agriculture has discovered a new gooseberry, which is all right, but for what was it looking?

A lot of people will be unhappy in heaven when they find out they can't institute any reforms or pass any laws.

That's funny: According to an Indianapolis paper the winner of a recent state egg-laying contest was a man.

Anyway, there is some consolation in knowing that it is almost impossible to transmit a cross-word puzzle by radio.

The feat of sending photos by radio may be a triumph for science but to date it looks very much like a defeat for art.

An operation was performed on a Los Angeles man for snoring. His wife is reported to have passed a restful night.

The statement that corncocks have food value should at least prove an incentive to those who are learning to eat spinach.

LAKEMOOD ITEMS (Mrs. M. C. Lee, Reporter)

Dick Nelson and daughter, of Dexter, are here visiting friends and relatives.

Mrs. Geo. McGonagill came in from their ranch on Seven Rivers Monday and spent the afternoon in town.

Mrs. D. E. Webb and children, returned Sunday from Portales where they have been visiting the past month.

Lee De Autremont graduated at Carlsbad this year and is at home now assisting his mother in the Home Bakery.

D. M. Lee and wife and Mrs. J. D. Millman and daughter, Edna, came up from Loving Saturday night, and spent Sunday in Lakewood.

Mrs. Martin and children, of Elk City, Oklahoma, are here visiting her mother, Mrs. Burns, of Artesia, and sister-in-law, Mrs. Willard Shafer, of Lakewood.

Mrs. Willard Shafer motored to Artesia Wednesday, taking Mrs. North, Mrs. Ralph Shafer's mother,

to meet the train as she is expecting a daughter in from New York. The daughter will spend the summer here.

Miss Bernice Lee and Miss Emogene Kaiser refusing to accept a position as teachers another year, the school board met Tuesday and hired the Misses Jenkins and Vowell, both of Springer, New Mexico, for the ensuing year.

Mr. and Mrs. Gus Harting left last Tuesday for northeast Oklahoma, to spend the summer. Mr. Harting was here for his health and was very poorly when he left here. Their physician thought he might be benefited by the change.

FOREMAN WAS JEALOUS

"I say, Bob," asked an acquaintance, "Why did the foreman sack you yesterday?"

"Well," was the reply, "a foreman is one who stands around and watches his gang work."

"I know; but what's that got to do with it?"

"Why, he got jealous of me! People thought I was the foreman.—Edinburgh Scotsman."

Infertile Eggs Are Killed by Too Much Fat

Animal protein in the form of meat scrap, tankage, fish scrap, dried buttermilk, or semi-solid buttermilk is very essential to heavy egg production.

Guineas will remain closer to the farm buildings if only one male bird is kept for every three or four females.

Certain diseases of turkeys are obtained from chickens and vice versa. The best way to hatch them is under the turkey hens.

Be sure the hen is thoroughly de-loused before setting, and also the first and second week after setting. Do not put any lice powder on her just before the chicks hatch, however.

Sickness must be expected in flocks where the houses are kept in an un-sanitary condition. More than one man has been driven out of the poultry business by tolerating filth.

Early hatched chicks will make more rapid growth than late hatched ones. If one wishes to sell breeding stock this is a decided advantage.

Do not allow the turkeys in the same house with the chickens, and, if possible, do not allow them to range with the chickens.

In the next war the army won't have to resort to all sorts of psycho-logical intelligence tests. It will merely need a good supply of cross-word puzzles.

LUSK ARRESTED AND IS CARRIED TO SANTA FE

SANTA FE.—Three complaints, charging Aud E. Lusk, former assistant land commissioner, with forgery, embezzlement and uttering a false public record, were sworn to in court of Justice of the Peace M. B. Salazar by State Land Commissioner E. B. Swope and approved by Assistant District Attorney J. J. Kenney of Santa Fe county. A warrant was issued for Lusk's arrest and instructions were issued to Sheriff Shattuck of Eddy county to take him into custody. Mr. Lusk, it was said, is in Carlsbad.

The charges grow out of an alleged transaction by Lusk, as assistant land commissioner, in which the name of the state was removed and the name of Sam J. Lusk, brother of the assistant commissioner was inserted in a relinquishment filed by J. A. Beckham of Jal, N. M.; and certain funds alleged to belong to Beckham were said to have been appropriated by Aud E. Lusk.

Aud E. Lusk of Carlsbad, assistant state land commissioner, who came to Santa Fe promptly accompanied by J. D. Atwood, of his counsel, to appear at a preliminary hearing before Justice of the Peace Manuel Salazar, and face charges preferred by Land Commissioner E. B. Swope, found upon his arrival that no one was ready to prosecute the case, and he will have to make another trip up from Carlsbad Thursday, to which date the hearing has been postponed.

Lusk arranged to come to Santa Fe at once voluntarily when shown a telegram by the Eddy county sheriff requiring his presence as defendant at the hearing scheduled for tomorrow.

Jack Kenney, assistant district attorney, who was obliged to be in attendance on district court at Tierra Amarilla, had agreed to the Tuesday hearing, expecting that J. S. Vaught as special counsel representing Mr. Swope, would appear for the state. Mr. Lusk however found upon his arrival here that Vaught had left for Silver City, and could not be here tomorrow.

Judge C. J. Roberts and Mr. Atwood represent Lusk.

"Lusk is ready and has been ready to appear at any time" said Atwood today.

"He came here of his own volition, and we knew nothing about any postponement until his arrival."

Lusk was released on his own recognizance, to appear Thursday at 2 p. m., at which time it is expected the prosecution will have a representative present.—Santa Fe New Mexican, May 25th.

Poultry Notes

Ducks are usually mated in flocks of about thirty females with five or six males.

Animal protein in the form of meat scrap, tankage, fish scrap, dried buttermilk, or semi-solid buttermilk is very essential to heavy egg production.

Guineas will remain closer to the farm buildings if only one male bird is kept for every three or four females.

Certain diseases of turkeys are obtained from chickens and vice versa. The best way to hatch them is under the turkey hens.

Be sure the hen is thoroughly de-loused before setting, and also the first and second week after setting. Do not put any lice powder on her just before the chicks hatch, however.

Sickness must be expected in flocks where the houses are kept in an un-sanitary condition. More than one man has been driven out of the poultry business by tolerating filth.

Early hatched chicks will make more rapid growth than late hatched ones. If one wishes to sell breeding stock this is a decided advantage.

Do not allow the turkeys in the same house with the chickens, and, if possible, do not allow them to range with the chickens.

In the next war the army won't have to resort to all sorts of psycho-logical intelligence tests. It will merely need a good supply of cross-word puzzles.

For Sale by The Star Grocery

SALE STILL ON

20 Per Cent Off On Dresses, Clothing, Trunks and Bags

10 Per Cent off on Groceries

The Vogue is going to continue with a SALE till the night of June the 6th. We are very much pleased with the business that we have done right off the start and we expect to still do better in the future.

Our aim will be to please the Public and you will find as time goes on, that when we put on a sale, it will mean something, as we intend to give the people their money's worth all the time and if we advertise anything on sale, it will be good merchandise at sale prices.

Since last Saturday, we have received a lot of new merchandise, especially a lot of Dresses consisting possibly of 175 new, up-to-date in every way and they are really very reasonable.

To those who came during the week and could not get waited on, we would ask you to come again and you will find a bigger assortment. Everything is marked in plain figures and we are going to continue to mark all our merchandise where everybody can read the prices.

SPECIALS

For Saturday we will have a special in the Ready-to-Wear Department of Ladies' Pocket Books and Mary Garden Perfume. These two items will be sold at half price, in other words, we expect to take a loss on them.

For Next Saturday Only

Wilson's Certified Bacon	44c Per Pound
Brisket Bacon	29c Per Pound
Dry Salt Bacon	24c Per Pound
22 Bars of P. & G. Soap for	\$1.00

We regret very much that we were not able to wait on the people as they should have been waited upon last Saturday, but we have more clerks this week and they are getting better acquainted with the merchandise and we feel sure that you will get waited on in a better way than you were last week.

We stand behind the merchandise even if it is sold on sale. If you are dissatisfied with anything you purchase, bring it in and get your money back.

THE STORES WILL BE OPEN TILL 7:30 P. M. ON WEEK DAYS AND 10:00 P. M. ON SATURDAY DURING THE SALE

PROPERLY LABEL STORED CANNED GOODS

But Few of These Jars Were Properly Labeled and the Housekeeper Will Find It Troublesome to Locate Those She Wants.

(Prepared by the United States Department of Agriculture.)
Although at the time of canning one thinks every jar of jelly, jam, or canned goods will be remembered and identified easily, when winter comes one is often doubtful, until a jar is opened, whether it holds blackberries or black raspberries, plum or currant jelly. It is also useful to know the date on which the food was preserved or canned, and if more than one method has been used to have that information on record. Peaches, for example, may be canned in heavy sirup for some purposes and in a light sirup for others. Second extraction jelly is usually less clear than the first extraction, and one would be more likely to use it up "on the family" than to serve it for a "company" jelly or give it to others. If pectin has been used in the making of some of the jellies the fact should be recorded for future reference.

Mark Cans and Jars.
Another point is to mark all cans and jars so that every jar in each lot can be identified in case spoilage develops in any of the jars. Jars should be kept under observation at room temperature for a week, and any showing signs of spoilage discarded. Others of the same lot should be watched until it is certain that they are keeping. The method of canning and length of time of processing are

useful facts to have on record, when one is canning the same fruit again or giving directions to some one else. The bureau of home economics of the United States Department of Agriculture suggests labeling all jars and cans with a neatly printed or written label, giving such information as the above and any further statements deemed necessary.

Labels may either be purchased or made at home by cutting plain paper in pieces about 1 by 2 inches; they should be pasted on the jars at a uniform distance from the bottom.

Handle With Care.
Fruit, vegetables, and other canned goods should not only be carefully put up and labeled, but they should also be carefully stored. This means that a clean, cool, dark place should be provided. A cupboard with strong, rather shallow shelves and close-fitting doors will protect the products from dust, dirt and light. If the shelves are wide enough to hold only a row, or at the most two rows of cans, it will be easy to find any particular can. For the first week each lot should be stored by itself in order to facilitate watching for signs of spoilage.

With a closed storage cupboard it will not be necessary to wrap glass jars of strawberries, peas, and other fruits and vegetables that fade when exposed to the light.

LOCAL

Mrs. Una Hutcheon has been on the sick list this week.

Mr. and Mrs. Frank Ohnemus and children visited relatives at Otis last Sunday.

R. U. Boyd, with the Peoples Mercantile Co., of Carlsbad, was a business visitor in Artesia Tuesday.

Mr. and Mrs. Ed Griffith arrived this week from Los Angeles and will occupy the J. W. Graham home during the summer.

L. P. Caldwell and wife arrived this week from their former home at El Dorado, Arkansas, and will occupy the residence recently purchased from Frank Wilson on West Main street.

A. J. Norton and wife of Quanah Texas, Corbett Howard and wife, of Quanah and Wilson Avery, of Bartstow, Texas, arrived this week for a short visit with R. H. Norton and family, living east of town.

Mrs. G. F. Rowe and little son, Robin, after an extended visit to her parents, Mr. and Mrs. Ira Reser, left Sunday to join Mr. Rowe at Palm Beach, Florida, where they will make their future home.

Dr. Williams of Santa Fe, member of the State Board of Health, was in town Tuesday with the new county health nurse, Miss Ruth Clement. Their object was to secure a local committee to co-operate with Miss Clement in securing satisfactory health conditions in the community.

LOCAL

J. R. Hoffman was a Carlsbad visitor yesterday.

Miss Harriet Rose was in town from Loving Tuesday.

Mr. and Mrs. Ossie Coalson were Roswell visitors Sunday.

Dr. Puckett and D. E. Brownlie were in town from Hope yesterday.

Dr. Stroup was called to Carlsbad yesterday as a witness in the Owens-Carpenter case.

Mrs. Lucile Hare, of Amarillo, is here this week visiting her parents, Mr. and Mrs. S. S. Ward.

The Woman's Club party, which was planned for next Wednesday afternoon, has been indefinitely postponed.

W. L. Loving and daughter, Larene, returned this week to Arkansas, after a short visit to Mr. Loving's son, Pete Loving, and family.

Mr. Mansell and son came in from Lubbock, Texas last week. The family will arrive from California as soon as they can get possession of their home.

Miss Lucile Morris returned to Hope Tuesday after a few days stay here. Miss Morris will take the summer Normal course at the State University at Albuquerque.

Earl Beck and family came last week to visit Mrs. Beck's parents, Mr. and Mrs. J. M. Jackson. Mr. Beck returned to Vaughn after a few days visit leaving his family here.

W. E. Warren and son, Robert, W. E. Groom and Mr. Frazier, all of Alamogordo, have been here this week on a prospecting trip. They are friends of Edgar Williamson and W. E. Ragsdale.

E. P. Sale sold out his restaurant in the field a short time ago and left yesterday with his family for a few weeks visit with relatives at Dallas, and other points in Texas. He has not yet decided where he will locate.

Miss Esther Morgan spent the week end at home and returned to Roswell to teach in the summer school for high school students, which will be in session two months. She will be instructor of English and history.

L. M., the baby son, of Mr. and Mrs. L. M. Austin, was operated upon by Dr. Stroup for abscess of the lungs, at the St. Francis hospital in Roswell last Sunday. The child was brought home the first of the week and is progressing satisfactorily.

S. D. Gates has sold his house on west Main street to the Pennsylvania Car Co., who will use it as a residence for their manager, Mr. Lee, and family, who have not arrived here. Mr. Gates will move to an apartment, which he is fixing up in one of the two Clayton houses on Quay street, which he recently bought and is making into apartment houses.

Mrs. Turner Smith brought her small son down from Clovis last week and left him with his grandmother, Mrs. Sallie Smith, and aunt, Mrs. Otis Brown, while she accompanied her husband on a trip east. They will visit Washington, D. C., Niagara Falls and various other points, besides visiting Newman Smith, of the Geodetic Survey, who was recently transferred from Washington to Rochester, N. Y.

Announcement

We desire to announce that we have just opened our EASTMAIN addition to the City of Artesia and invite the public to drive out and see this beautiful tract that will soon be covered with beautiful residences.

Remember, this is a restricted district and we expect to make it the best residential section of the city.

We have artisan water, electric lights, street lighting, and PERFECT lighting, and PERFECT TITLES.

We have already sold a number of choice locations, and the erection of at least two beautiful bungalows will be begun this week.

We will sell you a choice location and build for you according to your own plans at the lowest possible cost, or you can build your own home.

We can sell you a location on very easy terms with a small payment and small monthly payments.

Why wait until all the choice locations are taken and pay more? Buy NOW and get the advantage of the increase in price yourself.

Let us show you this tract. Call at our tract office or our uptown office, or telephone No. 45—we have cars and will be glad to show you. Do not wait, but act NOW.

GEORGE ULRICK WILL START SUIT SOON TO RETAIN HIS OFFICE

That George Ulrick is going to continue the fight to hold his office on the state tax commission, from which he has been removed or declared to be removed by Gov. A. T. Hannett, was shown last week when C. J. Roberts, his attorney, submitted a quo warranto complaint to Attorney General J. W. Armstrong asking him to file it or refuse to file it. In case the attorney general refuses the law gives Ulrick the right to file the complaint as a private citizen.

Armstrong took the matter under consideration. His decision is expected in a few days.

The governor's authority to remove Ulrick is questioned in the complaint on the ground that Ulrick was not appointed by the governor alone but appointed by the governor (M. C. Mecham) and confirmed by the state senate.

In case this point is decided against Ulrick when the case comes to trial, the removal is attacked on the ground that no specific charges were filed against Ulrick, that no competent evidence was introduced at the hearing before the governor to show that he was incompetent or neglected his duty, that no evidence was introduced to show that he had ever drawn any per diem or expenses in support of the governor's charge that he took part in unnecessary sessions of the commission merely for the purpose of drawing per diem and expenses.—Santa Fe New Mexican.

THE MONTH OF APRIL CONTINUES VERY DRY

The warmth and dryness of March continued into April, the month averaging 4.2 degrees above the normal in temperature, and 0.95 inch below the normal in precipitation. With the single exception of 1902 (55.9 degrees), it was the warmest April of record in 34 years, and completes the third month with abnormally high temperature.

The precipitation, however, has been lighter three times: 1893 (0.06 inch), 1895 (0.12 inch), and 1902 (0.06 inch). All parts of the state shared in the deficiency in precipitation, although it was greatest in northeast counties. No very definite shower periods occurred. There were a few scattered showers in northeast counties and along the northern border during the first half of the month, but, as a rule, the 21st-22nd were the first days with scattered showers, and those on the 29-30th were most general. A few higher stations reported snow, but it was very light averaging 0.2 inch for the state. Accumulated snow largely disappeared, and the outlook for stream flow was practically dependent upon seasonal rains.

The month began fairly cool, but temperatures gradually increased until summer weather prevailed during the second decade. A sharp change to colder occurred on the 22nd-23rd, and again on the 29th-30th, the 24th to 28th being warm. The 14th, 15th, and 16th were about equally warm, and the 2nd, 3rd, 4th, 7th, 8th, and 9th were about equally cool. Rather severe frosts touched much of the state on these dates and also the 22nd, and in northern counties on the 29th-30th.

Farming progressed on irrigated lands, but little or nothing was done elsewhere. Ranges became poor and barren, but stock, favored by the mild weather, held up well, losses being mostly confined to the southwest and the southern lowlands.

The monthly mean for the state based upon the records of 101 stations having a mean altitude of about 5,000 feet, was 55.0 degrees, or 4.2 degrees above the normal, as determined from 76 stations having records for ten years or more. The highest monthly mean was 67.4 degrees at Carlsbad, and the highest recorded temperature, 100 degrees at the same station on the 16th. The lowest monthly mean was 33.3 degrees at Lee's Ranch and the lowest recorded temperature, 3 degrees below zero at Vermejo Park on the 2nd. The greatest local daily range was 62 degrees at Vermejo Park on the 2nd and at Haynes on the 24th.

The average precipitation for the state, based upon the records of 172 stations, was 0.14 inch, or 0.95 inch below the normal, as determined from 126 stations having records for ten years or more. The greatest monthly amount was 0.99 inch near Pearl, and there was no precipitation at more than 30 stations, while as many more had but a mere trace. The greatest amount in any 24 consecutive hours was 0.74 inch at Porter on the 14th. The snowfall averaged 0.2 inch, and 0.01 inch or more precipitation occurred on an average of but 1 day, while 21 were clear, 6 partly cloudy, and 3 cloudy. The prevailing direction of the wind was from the southwest.

LOWER COTTONWOOD ITEMS

(Reporter Miss Margaret Bixler)

The Thomasons were dinner guests at the Wells home, Sunday noon.

Mr. and Mrs. Bradley motored to Lake Arthur Sunday afternoon.

A number of our young people were in Artesia Saturday night.

Messrs Herbert and Hugh Nichols were the guests of Mr. Ernest Bixler Sunday.

Mr. W. A. Eaker and son, Elgin, were business callers in Artesia, Saturday.

Mr. and Mrs. Bixler were business visitors in Roswell, Wednesday of last week.

Miss Cynthia Ramey, of Artesia was visiting on Cottonwood, Sunday afternoon.

Miss Evelyn Eaker was the dinner guest of Miss Margaret Bixler, Sunday noon.

Mr. and Mrs. Oscar Montgomery were callers at Lake Arthur, Sunday afternoon.

The Wallaces and Daughertys were callers at the Briscoe home Sunday afternoon.

The J. L. Bartletts and the Clyde Eakers were dinner guests at the Archie Hill home Sunday.

Mrs. McClary and daughter, Miss Faye, were callers at the A. D. Hill home, Sunday afternoon.

Miss Barbara Denton and Gene Denton attended the theatre and dance at Artesia Saturday night.

Mrs. Addie Belien, who has been employed in Artesia, was visiting here people here, Sunday. Mrs. Belien is leaving for Texas soon.

Misses Emma Briscoe and Margaret Bixler and Messrs. Elgin Eaker and Mel Bartlett were the guests of Miss Leonora Bradley Sunday evening.

Mel Bartlett, who has been visiting his parents here, is returning Thursday to Kansas City, where he is employed. We are all very sorry that Mr. Bartlett does not decide to make his home here.

Rev. Thomas delivered a sermon at Upper Cottonwood school building Sunday morning. Sunday afternoon he conducted a song service there. A large number of people were present on both occasions.

We have a complete line of samples of social stationery—Artesia Advocate.

PILLEY FAMILY SUSTAINS SERIOUS INJURIES IN AUTO SMASH-UP

An unusual automobile accident last Saturday evening came near resulting in the death of several members of the Ed Pilley family, when the car in which they were riding turned over twice, totally wrecking the machine, and seriously injuring all members of the family who were riding in it.

Mr. and Mrs. Pilley and children Mary Ellen, Frances and Sally, together with two friends were out for a pleasure ride. On the street east of the gin a horse crossed the road in front of the machine, and not seeing the animal in time, Mr. Pilley, who was driving was unable to go around him and struck the animal with great force.

The Ford car was a total wreck, the front wheel being totally demolished, top, windshield and other parts also being completely wrecked.

Mr. Pilley sustained one broken arm; Mrs. Pilley had both arms broken; Mary Ellen and Frances were both badly hurt, the latter said to be more seriously injured than any other, having sustained internal injuries the extent of which have not yet been determined.

Dr. Brown rushed to the family home in the north part of town to administer first aid. Doctor Bradley of Roswell was called to assist Dr. Brown and the two worked with the patients throughout the night.—Hagerman Messenger.

DO YOU KNOW?

THAT 21,000,000 letters went to the Dead Letter Office last year?

THAT 803,000 parcels did likewise?

THAT 100,000 letters go into the mail yearly in perfectly blank envelopes?

THAT \$55,000 in cash is removed annually from misdirected envelopes?

THAT \$12,000 in postage stamps is found in similar fashion?

THAT \$3,000,000 in checks, drafts and money orders never reach intended owners?

THAT Uncle Sam collects \$92,000 a year in postage for the return of mail sent to the dead letter office?

THAT it costs Uncle Sam \$1,740,000 yearly to look up addresses on misdirected mail?

THAT 200,000,000 letters are given this service, and—

THAT it costs in one city alone \$500.00 daily?

AND DO YOU KNOW?

THAT this vast sum could be saved and the dead letter office abolished if each piece of mail carried a return address, and if each parcel were wrapped in stout paper and tied with strong cord?

MORAL: Every man knows his own address if not that of his correspondent.

PUT IT IN THE UPPER LEFT HAND CORNER!

Not Fair

Fred—I see Bertie is barred out of the cross-word tournament.
 Ed—Why?
 Fred—Well, you see, he works where they print dictionaries.—Allston Recorder.

Unpretentious

The young married couple entered the furniture store.
 The Young Hubby (bashfully)—We want to look at a bedroom suite for our new home.
 The Clerk—Yes, sir. Do you want twin beds?
 The Young Wife (blushing)—Oh, heavens, no! Just a small cradle.

Curtail Slanderer

The scandal-loving slanderer
 Just misses being jailed.
 His every slur denotes the cur-
 tailer's speech should be curtailed.

WHICH?

**\$50 for Painting or \$500 for Repairing
 A 1000 Per Cent Investment**

There are life insurance policies and fire insurance policies, but an INLAND PEERLESS PAINT POLICY against the weather is just as important. Government figures show that each year ONE house in every FOUR is destroyed by the ravages of weather.

Look at Painting as an investment, not as an expense.

Look around you at the houses going to rack and ruin. What is doing it? Weather, of course. There is only one defense against this and that is PAINT.

But paint, like weather, is of many kinds. Buy paint that has proved its staying power over a period of 32 years—INLAND PEERLESS BODY.
