NUMBER 48

## PEEPING TOM PLYS HIS TRADE HERE ON SEVERAL OCCASIONS

A character known as "Peeping Tom," has again made his appearance in Artesia during the past week. Several residents have reported that an unknown person was seen peeping into various dwellings. Along during the early part of the night seems to be the favorite time for "Peeping Tom" to ply his trade. Complaints were made several months ago to the officers that some unknown person had visited the residential section and was seen on several occasions. Apparently he is just a "peeper."

## ARTESIA GRID TEAMS MEET WITH SUCCESS AND DEFEAT LAST WEEK

### Defeat Institute Juniors Here Thursday by 45 to 0 Score—Junior High Ties With Lovington and Is Beaten by Lake Arthur.

For the second time this season the New Mexico Military Institute Juniors were swamped Thursday afternoon by the Artesia High Bulldogs. The Bulldogs were relentless in their slaughter of the Juniors and when the smoke had cleared away, the boys from the Roswell school were found holding the proverbial little end of a 45 to 0 count. Time and again, the Artesia backs plowed their way through their opponent's line, circled ends, and darted off tackle for enormous gains. Touchdowns were as numerous as Ford cars in Detroit. For the home club, Conner was the outstanding star, while Muncy showed good form in returning punts and in general interference running. Jernigan and Jackson also played their usual consistent games. Officials for the contest were Watson, referee (A. C. C.); Linell, umpire; Washam (Baylor) headlinesman.

The Bouncing Bull Pups, Artesia High School second string football squad, trotted over to Lovington last Saturday and engaged the Lovington Rangers in what was the first game of the season for the Bull Pups. Though it was the initial ramble from the sacred kennel for these sturdy growlers, they covered themselves with glory in combat with a foe much larger and more experienced than they. Pups who had never sunk a tooth into anything harder than algebra and spic were seen to tear their way helter skelter through the massed formations of the enemy and race for the goal line.

It was a sight to see Little Jelly side-step, pivot, stiff-arm and roll his way through a broken field like the Great Red Grange himself. Nothing could stop him until he had made a touchdown. Then the coach took him out to give the subs a chance and they nearly lost the game. That is, they allowed it to end in a tie, 13 to 13.

The Bull Pups who engaged in the fight were: Perry, end; Jonas, tackle; Fleming, guard; Horne, center; Terry, guard; Montague, tackle; Wandry, end; Muncy, quarterback; Hoffman, halfback; Pete Jackson, fullback; Jernigan, halfback. Mann substituted for Fleming. Referee, Conner (Artesia); umpire, Jackson, (Artesia), time keeper, Priest (Artesia).

The Junior High school football team motored to Lake Arthur last Friday for a third tilt with the grid iron heroes of that city and when the smoke and dust of battle cleared away the Lake Arthur warriors had 19 points tucked away while the Junior High Midgets had only 6. In the other two conflicts the scores were much closer, the first game going to the local boys 2 to 0 and the second to Lake Arthur by the close margin of 7 to 6.

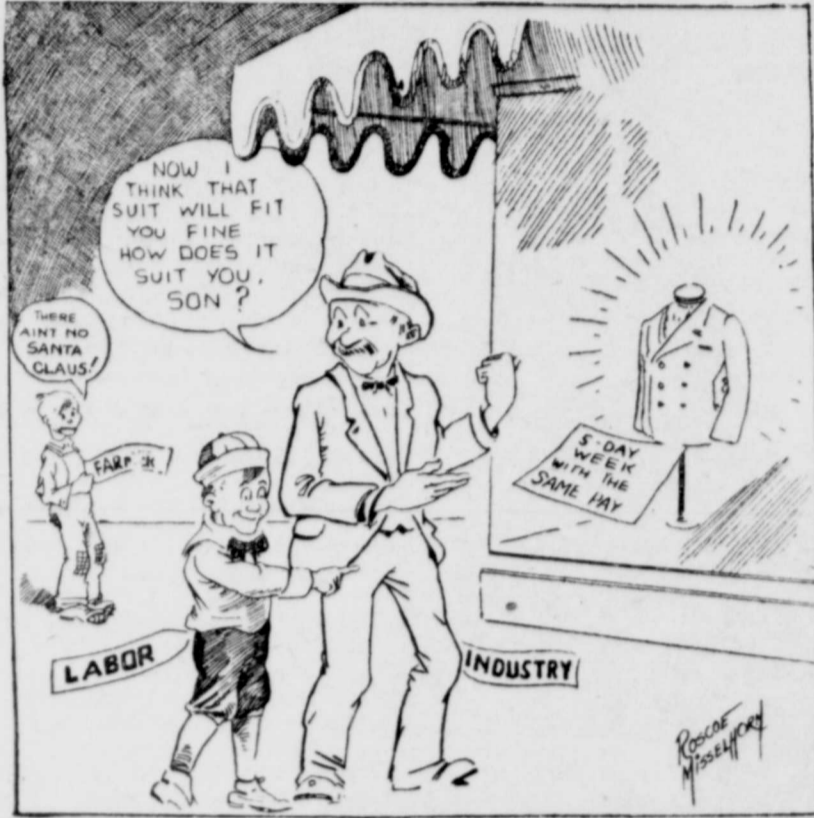

While the Lake Arthur players showed much improvement in the art of the game, the Midgets were decidedly off form from every angle, besides being handicapped in size and loss of some of their best "men." Lake Arthur is to be complimented on their improvement in the sport of football during this their first year at the game.

These two teams meet once more Thursday of this week on the local field for a final game which will likely close the season for them.

## 'To Him That Hath'

## CLOSE GAME EXPECTED WHEN ARTESIA HI MEETS ROSWELL HERE FRIDAY

The Roswell high school football delegation will invade local territory Friday of this week with the avowed intention of administering defeat a second time this season to the Artesia gridiron performers. Earlier in the season they were successful in doing this at Roswell by a decisive score of 27 to 0.

Relatively, the Bulldogs occupy the under dog's position in this game, according to all dope. Roswell has defeated Artesia once; they defeated Portales 13 to 0, while Artesia defeated the same team only 6 to 0. Roswell's team outweighs the local squad by several pounds especially in the line.

But, Roswell is not indefeatable. They lost this season to Clovis 6 to 0 and to El Paso 13 to 0. It is certain that they have a much inferior team to what they won the state championship with last year. Many of their men are new at the game. Without losing sight of the fact that they have valuable and dangerous players in such men as the Corn boys, Brown and Cagle, it remains to be borne in mind that they are not unbeatable.

While it is not to be taken hilariously, it is an encouraging fact that Artesia has strengthened her forces decidedly since the first game with the Coyotes. This has been done both by new material and by a shifting of the line-up. The local Bulldogs have a record of five victories this season and only one defeat, which is calculated to give them heart. And what is not of least importance, the Bulldogs will be in their own "back yard" for this game. Though the dashing Coyotes have a right to come expecting victory, it would be bad polity to place too heavy odds against the restless Bulldogs in this their most vicious game. Old Man Dope has bitten the dust more than once in the history of the supreme sport.

## EDDY COUNTY ASKED TO AID GEOLOGICAL WORK NOW GOING ON

A. G. Fiedler, who is stationed at Roswell with the U. S. Geological survey, conferred with the Eddy county commissioners at Carlsbad in a recent session with reference to funds for carrying on the investigation of the under ground water supply in both Chaves and Eddy counties. In order to complete the survey, the government has offered to pay \$5000.00 of the expenses incidental to the survey, Chaves county has agreed to donate \$3500.00 and Eddy county has been asked for \$1500.00, however the Eddy county commissioners did not act on the proposition at the time of the meeting.

According to estimates, the survey can be completed within eight or ten months. One thing of interest brought out by Geologist Feidler was the fact that Chaves county has approximately twice the number of artesian wells as Eddy county, yet the waste of water from the artesian wells in Chaves county is not as great as in Eddy county.

## SCOUT FIELD MEET HERE

The public is cordially invited to attend the Boy Scout field meet, which will be held here Saturday afternoon at 2:30 o'clock, at the athletic field. This meet is between the scouts of Artesia and other scouts in Eddy county.

## GOV. HANNETT CANCELS ROAD DEBENTURES TO AMOUNT OF \$350,000

Governor A. T. Hannett announced Friday that the state finance board had cancelled proceedings for the sale of \$350,000 in highway debentures, according to press dispatches from Santa Fe. This was done in order to give the incoming administration a free hand it was stated.

The projects on which work has actually begun in anticipation of the sale of the debentures are:

- 73-A—Catron county.
- 143-A—Dona Ana county.
- 152-A—San Miguel county.
- 81-B—Colfax county.
- 107-C—Dona Ana county.
- 124-A—Hidalgo county.
- 143-B—Dona Ana county.
- 166-A—Luna county.
- 157-A—Union county.

On two other federal aid projects, No. 76, for the construction of bridges, and 108-B, bids have been received but the contracts have not been let.

Highway authorities declined to say, pending action on the loan for which they intend to apply, as to whether the finance board's action will cause the stoppage of all or a large part of the program now actually under way. In reply to a question as to whether it would seriously cripple the program if the finance board refuses a loan, they said they could not answer the question without first making a thorough check of the funds available.

## TELEPHONE GAINS

Gail Hamilton, local manager of the Mountain States Telephone Co., reports steady gains in the number of telephone subscribers during the past few months. Five to six new telephones have been installed for the past eight or ten months. Twenty-three phones were the highest number installed in any one month.

## NORTH VALLEY GINS NOW TOTAL 8954 BALES TO YESTERDAY NOON

The north valley gins are nearing the 10,000 bale mark, according to a report submitted yesterday afternoon by Wm. Baskin. This year's ginnings will equal or exceed the production in 1925, which was approximately 17,000 bales, if gathering operations continue until all of the cotton is picked.

The ginnings follow:

Farmers Gin Co., Roswell	927
Roswell Gin Co., Roswell	718
Farmers Gin Co., S. Springs	711
Oasis Gin Co., E. Grand Plains	562
Dexter Gin Co., Dexter	785
Greenfield Gin Co., Greenfield	560
Hagerman Gin Co., Hagerman	478
Hagerman Gin Corp., Hagerman	700
Lake Arthur Gin Co., Lake Ar.	594
Association Gin, Espula	657
Association Gin, Artesia	781
Association Gin, Atoka	800
Total	8,954

## WORK TO START ON NORTH HIGHWAY DECEMBER 1ST

Work will start on the highway from Artesia to the county line about December 1st, according to an announcement made last week by G. H. Stevens, the contractor. Rapid progress is expected to be made on this road as soon as the material is assembled and the construction work started.

Posted signs at The Advocate.

## A. F. PHILLIPS IS SHOT ACCIDENTALLY WITH A 22 CAL. RIFLE FRIDAY

A. F. Phillips, well known local oil operator was accidentally shot with a 22 rifle while out hunting in the hills Friday. The ball passed through the fleshy part of his leg just above the ankle. While the wound was somewhat painful at the time, Mr. Phillips went to camp that night and returned to Artesia the following day, where he received medical treatment.

Mr. Phillips was able to be out shortly after returning. His leg is sore and stiff, but his wound is reported to be healing nicely.

## IMPORTANT POTASH FORMATIONS FOUND IN N. M. TEX. AND UTAH

### Potash Found in West Will Help Break Grip Germany Now Has on Industry—The U. S. Govt. Will Aid in the Search.

WASHINGTON.—Important potash formations have been found in New Mexico, Texas and Utah that will help the United States break the grip Germany now has on the potash industry, it was announced Monday by the interior department.

The geological survey has had field men seeking potash deposits in the southwest for some months. Their reports, according to Monday's announcement, furnish increasing evidence of the similarity of American deposits to those found in Germany.

Four potash minerals have been found in New Mexico and Texas, sylvite, kainite, polyhalite and langbeinite. The first two, with carnalite, which is found in Utah, have furnished the basis of the German industry.

In 1925 the United States imported 937,113 tons of potassium salts, valued at \$17,000,000, from Germany and Alsace. Moreover, the last congress appropriated \$100,000 for potash explorations during the current year under the joint auspices of the department of the interior and commerce. The geological survey is to select the sites, make the analysis and tests, and report the results. The bureau of Mines is to make the necessary contracts with the owners, lessees, and drillers and to have the general direction of the drilling operations.

Core drilling will be done in the New Mexico area and the tests thus made will provide a means for determining the thickness and potash contents of the beds penetrated and will show the problems to be met in mining. As long as twenty-five years ago traces of potash were found adjacent to the alkali and salt lakes in Torrance county but thus far there has been no core drilling.

## NEW OIL COMPANIES

Monday the state corporation commission issued four certificates of incorporation for oil concerns, who will operate in the state. The Spurr-Mack Drilling Co., both incorporated for \$125,000 with principal offices at Roswell. The Consolidated Oil Co., with capitalization of \$160,000 will also maintain offices at Roswell. The Obe Oil Co., with a capitalization of \$125,000 will maintain offices at Lordsburg.

## FIFTEEN CARS OF CATTLE SHIPPED OUT TODAY

Fifteen or more cars of cattle will be shipped from here today by ranchers in the Hope section. The cattle will go to market. Prude Brothers, Jernigan and Ed Watts are the shippers.

## SELLS STEERS

Messrs Martin and Cleve sold 250 steers to Adams and Prichard Monday. Delivery will be made at Lake Arthur about the 25th of this month. The consideration was not learned.

## TO START WORK ON SOUTH HIGHWAY

The Current-Argus of Carlsbad carries the announcement that work is soon to start on the highway south from Carlsbad connecting with the Texas line.

## ROTARY VISITORS

J. F. Harmon, of El Paso and Rev. John P. Sinclair, pastor of the Presbyterian church here, were guests of the Artesia Rotary Club at Tuesday's luncheon.

## The Result of One Race is Still Close--Dow Ahead

### Returns Give Two Places On State Ticket To The Democrats—An Official Count Necessary in Attorney Generals Race.

Robert C. Dow, democrat, has been elected attorney general by the plurality of 124, according to the Santa Fe New Mexican's tabulation, which was completed Friday.

The compilation includes the official vote of all counties except Catron and possibly Hidalgo and at least the complete vote of Hidalgo.

The figures for Hidalgo county are those sent by the county clerk in response to a wire asking for the official vote. However, it is reported that the county commissioners of that county did not meet until Monday to make their official canvass.

The Catron county figures are said to doubtlessly be those which will appear in the official count when it is made.

For all the other twenty-nine counties the figures are official.

The standing of the other candidates for state offices on the same figures follows:

- For governor—Dillon 56,286, Hannett 52,522.
- Dillon's plurality 3764.
- For congress—Sedillo 52,075, Morrow 55,446.
- Morrow's plurality 3,371.
- For lieutenant governor—Sargent 53,360, Delgado 51,843.
- Sargent's plurality 3,517.
- For secretary of state—Bartolino 53,317, Fortune 52,948.
- Fortune's plurality 629.
- For auditor—Otero 54,406, Olivias 52,028.
- Otero's plurality 2378.
- For treasurer—Jaffa 53,264, Graham 53,999.
- Graham's plurality 735.
- For attorney general—Barnes 52,392, Dow 53,516.
- Dow's plurality 124.
- For school superintendent—Randolph 54,944, White 52,231.
- Randolph's plurality 2713.
- For land commissioner—Pankey 54,634, Swope 52,764.
- Pankey's plurality 1870.
- For supreme court—Watson 54,536, Brice 52,840.
- Watson's plurality 1,696.
- For corporation commissioner—Williams 54,908, Roughton 51,804.
- Williams' plurality 3104.
- For corporation commissioner—Fernandez 53,865, Trujillo 51,868.
- Fernandez' plurality 1997.

The total vote for governor shows a decrease under the 1924 figures, being 108,808, whereas it was 112,177 in 1924.

Robert C. Dow, democrat, Monday had a lead of eight votes over R. P. Barnes, republican, for the attorney general's office, with the official results from all counties except Catron, and the official count is waited with (Continued on last page, column 1)

## MANY DEER HUNTERS RETURN WITH BUCKS FROM THE MOUNTAINS

Local hunters met with unusual success in bagging their buck, judging from the reports available thus far. Messrs Roy Muncy, French Gray and Laverne Vandever were the first hunters to reach town with their buck, returning last Thursday. Others who brought back a deer were: B. E. Spencer, who killed a four point buck in the Gila river section, Dude Dunn, Lee Frances and A. L. Mount each succeeded in bagging a six, seven and eight point buck in the vicinity southwest of Weed. Messrs. Jess Truett, Buford Gray, W. C. Gray, Jim Bates, J. A. Clayton, Albert Richards, Glenn Sharp, Dave and Art Sellery were also numbered among the successful hunters.

Messrs E. A. Hannah and L. P. Evans failed to get their deer, but brought home a turkey each. Mr. Evans, who killed his turkey near the Artesia Sacramento camp area, reports that the bird dressed about twenty-two pounds. J. D. Hawkins and Howell Gage secured both a buck and a turkey. Yesterday morning Ben Eckles, Leonard Hampton and John Hampton drove in with three of the biggest bucks seen here this season. Eckles also brought in a large turkey.

TELEPHONE NO. 7

Twenty-one cents per pound for turkeys, fifty cents per pound for butter and fifty cents per dozen for eggs sounds a lot better to us than thirteen and one-half cents for cotton. But someone says a fellow does not want to be tied at home all the time with chickens, hogs, cows and turkeys. However, it sorter looks like the man who has kept the home fires burning is getting paid for it now.

**OUR CLIMATE**

J. W. Williamson gently chides us on our article with reference to the frost last week and more particularly about the passage which stated that practically all of the vegetation had been killed by previous freezes before the frost last week. The more we think about the statement, the more we are inclined to agree with him because our observation extended over a limited area only. So far we have had delightfully mild weather, with a few exceptions. And this is not an exceptional fall either, so far as the weather goes, although frost may have been later than usual. Truly, there is much to be said about our climate.

**CARELESS DRIVING**

A few observations of the present auto traffic, even in the smallest cities leads one to wonder often times how the careless driver escapes with so few accidents. Just the other day a business man, driving his car up Main street, stopped to let passengers out of his car and was just about to turn across the street when a motorist whizzed by him at the rate of about thirty-five miles per hour. Another car was stopped to let the passengers out when a reckless driver passed to the wrong side of him, fortunately for the passengers, they saw the oncoming car in time to dodge. The driver would have no doubt been fined, had he been in a large city.

Last week, a school boy, driving a stripped down Ford, hurried along Main street. He looked neither to right nor left, he was absorbed with his sweetie and his eyes were on the girl, not on the road, as he drove blissfully on the left side of the street.

When an accident does occur and the driver happens to be in the wrong, indignation surges in his breast as he views the results of his carelessness and the more he contemplates the situation the more earnest he declares he was in the right, absolutely right.

Some months ago a wreck occurred on South First street. A driver of one of the cars reluctantly admitted that he was going in excess of thirty-five miles per hour, but as time went on and he was facing a damage suit, he reconsidered the accident and decided that his speed could not have possibly been in excess of fifteen miles per hour.

**DOES THIS INDICTMENT  
CATCH YOU?**

In discussing the subject of the interdependence of industry, Henry Swift Ives, vice president, Casualty Information Clearing House, Chicago, Illinois, heaps some coals of fire on many of us when he says:

"There has been of late much viewing with alarm, and rightly so, such modern political tendencies as government invasion into the field of private enterprise. The blame for these very real threats against our democratic institutions is variously assigned. The socialists and communists are most often accused, because it is their paternalistic theories and despotic economic codes which seem to be at the bottom of all the trouble.

"This undoubtedly is a valid in-

**The Songs I'd Like to Sing**  
by O. Lawrence Hawthorne.

I'd like to write of humble things—  
The common joys and cares of every-day.  
I'd like to tell a tale that brings  
A brighter smile, or drives a tear away.  
I'd like to paint a little scene  
Of good old-fashioned comradeship and fun,  
Where life is wholesome and serene,  
And restful sleep is found when day is done.

I'd like to sing the simple songs,  
That children often stop their play to hear.  
I'd like to talk to artless throngs  
And have them understand my words of cheer.  
I'd like to voice the happiness  
That only humble folks can truly know;  
And search for language to express  
The beauty of contentment's kindly glow.

I'd like to chant love's tender lays;  
And laud the charm of nature everywhere.  
I'd like to sing of childhood days,  
Of home, and of a mother's faithful care.  
I'd like to touch the wistful chords  
Of memory, and somehow play again  
That gentle music which affords  
Unending pleasure to the hearts of men.

**DID YOU EVER STOP  
TO THINK?**

By E. R. Waite

W. F. Prisk, editor of the Long Beach (California) Press Telegram, says:

THAT a newspaper is a public trust. Not merely because the publishers desire it to be so, but because the very nature of the institution so decrees. While there are various kinds of trade publications and class papers devoted to certain specific interests, the force of responsibility compels editors to recognize the public rights.

THAT both the popular and the professional understanding of the newspaper has changed vastly in the past fifty years, the personal organ having disappeared with the passing of such dominant characters as Greeley, Dana and Watterson. In one respect, the newspaper is now a composite product of all those who are engaged in its preparation, but in a broader conception of its functions it is found to emanate from the public itself, a more or less accurate reflection of the thinking and the progress of the world, the nation, the state and the community.

Because of this intimate relationship between newspaper and the people whom it serves, the people have a keen interest in the newspaper and must accept a certain degree of responsibility and credit for its failures and successes. The vast majority of publishers today are striving to raise the level of journalism, and they can wholly succeed only with united popular support.

Posted signs at the Advocate.

dictment, but it would be much easier to sustain if those who drew it would include themselves among the accused. In my opinion the business man who is an ardent capitalist when his own business is concerned, but who is inclined to be just as ardent a socialist when the other fellow's business is concerned, has had more to do with the headway made by the socialization movement in America than have all of the socialists and the ordinary mine-run of pink agitators combined. Indeed, if it were not for the very real aid and comfort given to the expounders of socialist doctrines by this type of business men socialism would still be in the theory stage of its development in this country.

"Without the support of many business men, such cities as Detroit San Francisco, Los Angeles, Seattle, Tacoma, Jacksonville and numerous others would not have gone into the electric light, power or traction business. Without the support of many business men, sixteen states would not have gone into the business of providing workmen's compensation insurance in competition with or to the exclusion of private insurance companies. Without the support of many business men, the obnoxious and costly day labor system of carrying on public works would not be the universal problem that it is today. Without the support of many business men, the agitation for the socialization of coal mines, oil wells, packing plants, lumber yards, cement works and a large number of other similar enterprises would not be of sufficient potency to be worth recording, nor could government printing of return addresses on envelopes in competition with every printer be maintained. Without the support of many business men, local, state and federal authorities would not be extending each year the scope of their regulatory power over industry, and seeking out new enterprises to rule, repress or

**LILTS O'LOVE  
AND LAUGHTER**  
By Judd Mortimer Lewis

**NOT FOR GRAN'PA**

Daddy says I should be a  
Little man, he does;  
Then gran'pa asts him does he  
Mean the kind he was  
When he was young as me?  
Then he gives a smile  
An' don't answer, but just sits  
Still a little while.

He seems to be thinking of  
How he used to be  
When he was a little tad  
'Bout as old as me;  
When he was a little man.  
An' was always good,  
An' when he always kep' still  
Like a feller should.

I told gran'pa once: 'I'll be  
Jest a little man  
Like my dad was an' wants me  
To be if I can.'  
Then my gran'pa looked around  
Us on every side,  
An' said: "Bud, if you do I'll  
Hafto tan your hide."

**PHILOSOPHRIN**

When I'm caught in a cold rain,  
and it starts to blow, too, I turn  
handsprings: I'm so glad I've a  
home to go to.

**KEEP CHICKENS COZY  
AND WELL IN WINTER**

Stop! Have you done your best  
to make the poultry flock comfortable  
this winter. If not, don't be  
disappointed if your hens fail to fill  
the egg basket every day, says E.  
E. Anderson, of the New Mexico A.  
& M. College.

Winter is an especially critical  
time of the year in regard to disease  
and egg production. It is the  
season when eggs are the highest  
and when every poultryman wants  
to get the maximum production.  
Winter is the season when disease  
often runs rampant, and when dis-  
ease hits a flock the egg produc-  
tion goes down, generally in pro-  
portion to the severity of the dis-  
ease and number of birds infected.

Prevention is the best prescrip-  
tion we can offer for the control  
of disease, states Mr. Anderson.  
Keep the houses, yards and utensils  
scrupulously clean.

A good disinfectant in the drink-  
ing water costs but little and will  
often save a good many dollars.  
Potassium permanganate, used at  
the rate of one-third teaspoonful  
to a gallon of water, for disease,  
but materially assists in preventing  
the spread of disease through the  
drinking water.

Colds are the forerunners of more  
serious troubles. Drafts are the  
most common causes of colds. If  
the birds roost where the cold wind  
can blow through the house on them  
it is liable to result in a cold. Plenty  
of fresh air is desirable if health  
is to be maintained, but beware of  
improper ventilation. Dampness  
and crowding are also common  
causes of colds.

Should you be so unfortunate as  
to have your flock infected with  
colds, take immediate steps to re-  
move the cause. Give the flock a  
dose of Epsom salts (1 to 1-1/4 lb.  
to 100 birds or 1/2 teaspoonful to  
each bird in drinking water or  
mash); be sure to keep a disinfectant  
in the drinking water, and if  
possible, isolate the infected birds.

Cut out the picture on all four sides. Then carefully fold dotted line 1 its entire length. Then dotted line 2, and so on. Fold each section underneath accurately. When completed turn over and you'll find a surprising result. Save the pictures.

**GLIMPSES OF THE PAST**

From the files of the Advocate,  
November 20th, 1914.

J. L. Taylor was a business visitor  
at Roswell Tuesday.

Dr. Greenlaw is confined to his  
bed by sickness this week.

Mrs. E. E. McNatt and children,  
of El Paso are the guests of Mrs.  
Helmig.

Harlin Thomas and Bert McCaw  
returned from a hunting trip to the  
mountains.

Messrs. Osburn and Robinson, at-  
torneys, will soon remove to Carls-  
bad, it was announced today.

Arthur Franklin has purchased  
the Majestic theater from Mr. Cham-  
berlain and will move his family  
down from Roswell next week.

**BUSY NIGHT AT LOVING**

Saturday night was a busy one at  
Loving for the rowdy element. Three  
negroes were arrested for shooting  
craps. Two paid fines of \$10 and  
costs before Justice Richards, and  
one has yet to show up in court.  
These fines went into the school  
fund.

Two white men and two Mexicans  
were arrested for being drunk and  
disorderly. The white men got fines  
of \$5.00 and costs.—Current-Argus.

## How to Play BRIDGE

A new series of lessons by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

### ARTICLE No. 5

the requirements for a... bid by dealer? Practi... the authorities agree that... may be bid by dealer if... more sure tricks divided... There isn't much... as to these require... there is considerable differ... as to how these require... applied. As an example... a correspondent has... enlightenment as to the... two tricks divided among... In order to make this... clear, an analysis of... is necessary.

trick values. In order to apply these instructions, note the following hands, in which is indicated, after each suit, the value of that suit in sure tricks:

#### Hand No. 1

Hearts — A, K, 7, 6, 2 (2)  
Clubs — 10, 8, 6 (0)  
Diamonds — J, 8, 7, 6 (0)  
Spades — 8 (0)

#### Hand No. 2

Hearts — A, K, 4, 2 (2)  
Clubs — J, 10, 7, 4 (0)  
Diamonds — A, 7 (1)  
Spades — 7, 6, 4 (0)

#### Hand No. 3

Hearts — K, 10, 8, 3 (3/2)  
Clubs — K, 7, 4 (3/2)  
Diamonds — Q, J, 7, 2 (3/2)  
Spades — J, 9 (0)

#### Hand No. 4

Hearts — K, Q, J, 7 (2)  
Clubs — Q, 7, 6 (3/2)  
Diamonds — K, J, 4, 2 (3/2)  
Spades — A, 4 (1)

When the trick strength is confined to one suit, bid the suit, as one heart in Hand No. 1. Where the sure tricks are divided among three or more suits, as in Hands No. 2 and No. 4, bid one no-trump. Where the sure trick strength is less than two tricks, as in Hand No. 3, pass.

Here is a hand in which the proper lead is a very doubtful question. Think it over and compare results with the analysis that will be given in the next article.

#### Problem No. 5

Hearts — K, 9, 7, 3, 2  
Clubs — 8, 7, 3  
Diamonds — J, 10, 7  
Spades — A, 3

No score, rubber game. Z dealt and bid one heart, A passed, and Y bid two diamonds. If all passed, what should B open?

Here is a problem hand that involves a principle that comes up very frequently. It is tricky but easy if you just think it over carefully.

#### Problem No. 6

Hearts — none  
Clubs — 10  
Diamonds — A, K, 7, 2  
Spades — none

Y B  
A Z  
Z

Hearts — none  
Clubs — none  
Diamonds — Q, J, 8  
Spades — 8, 3

Hearts — none  
Clubs — none  
Diamonds — 10, 4  
Spades — 10, 7, 2

How can Y-Z win every trick against A? Solution in the next article.

### MARRIAGE OF GRAND DAUGHTER TAKES PLACE IN THE CHURCH WHICH HE HELPED BUILD IN 1885

(From the Shawnee Morning News, Nov. 9th)

The account of the marriage of Miss Bourbonnais at Shawnee, Oklahoma will be of interest to many of her friends here.

An event of unusual interest was the marriage yesterday of a former Shawnee girl, Miss Mary Ozetta Bourbonnais to Mr. Harry M. Bylesby of Cushing. The service was performed in the Shawnee Friends church south of the city, one of the old and interesting landmarks of the vicinity.

The bride spent her childhood and youth here attending school at the Shawnee Mission, her family being among the county's earliest pioneers. Anthony Bourbonnais, grandfather of Mrs. Bylesby, was a member of the board of trustees of the original Friends' church which was built of cottonwood logs and hauled the lumber for the present structure which he helped build, from Coffeyville, Kansas in 1885.

Another bit of interesting sentiment in connection with the marriage of Miss Bourbonnais and Mr. Bylesby, was the presence of Mrs. W. F. Jenks of Artesia, New Mexico, maternal aunt of the bride, who acted as her attendant and gave her in marriage. Mrs. Jenks, formerly lived at the Mission and was married in the little Friends' church just thirty-five years to the day previous to the marriage of her niece, who is her namesake.

The ceremony was performed by the Rev. C. L. Widney, pastor of Emmanuel Episcopal church of Shawnee. The bride, who is an attractive and accomplished young woman, was attired in a charming frock of polo tan satin back crepe smartly trimmed with brown velvet, her shoes, hose and small close fitting turban being of a corresponding shade. Her flowers were a corsage of exquisite pink roses.

Preceding the service Mr. and Mrs. Phillip Frazier, Indian mission workers from McCloud, well known in this vicinity, Mrs. Frazier having formerly been Miss Susie Meeks of Shawnee, furnished the wedding march. Mrs. Frazier sang "I Love You Truly," and Mr. Frazier sang "At Dawning." Mrs. Frazier playing the accompaniments and the "Bridal Chorus" from Lohengrin as the bridal party approached the altar, Mr. Edward Owens of Wewoka acted as best man for Mr. Bylesby.

Following the ceremony a bounteous and appetizing breakfast was served at the home of Mr. and Mrs. Abe Weltelt, old time friends of the Bourbonnais family, who have long lived near the Mission. The guests and the bridal party, numbering about twenty, were seated at one long table which had for its center piece the large white wedding cake, which the bride assisted in serving.

Following the breakfast the couple left for Tulsa where they will spend a few days previous to going to Cushing, where Mr. Bylesby is in the engineering department of the Shafer Refining company. Mrs. Bylesby is a professional nurse having received her training in the Lancaster, Pennsylvania general hospital. For the past year she has been superintendent of the Cushing hospital previous to which she was superintendent of the Masonic hospital at El Paso, Texas for three years. Following her graduation at Lancaster Mrs. Bylesby practiced her profession in Shawnee where she has a host of friends.

Among the out of town guests were Mr. and Mrs. Lee Vandagriff, of Artesia, N. M.; Mrs. Maggie Bush, of Oklahoma City; Pat Connor of Cushing; Mr. and Mrs. Edward Owens of Wewoka and the Rev. and Mrs. Frazier of McCloud. The Rev. Charles Wooten, who is the present pastor as well as owner of the Friends church, and Mrs. Wooten were also among the guests.

### MEMORY TEST

A colored preacher was vehemently denouncing the sins of his congregation. "Breddern an' sistern, Ah warns yo' 'gainst de heinous sin of shootin' craps! Ah charges yo' 'gainst de black rascality of liftin' pullets. But, above all else, breddern an' sistern, Ah demolishes yo' 'gainst de crime of melon-stealin'."

A brother in the back seat made an odd sound with his lips, rose and snapped his fingers. Then he sat down again with an abashed look. "Whuffo', mah fren'," said the parson, sternly, "does you r'ar up an' snap yo' fingers when Ah speaks ob melon-stealin'?" "Yo' jes' remin's me, parson," the man in the back seat answered, meekly, "whar Ah lef' mah knife." —The Monitor.

### MORE ABOUT CHILD WELFARE (Child Welfare Bureau)

Although the surface has scarcely been scratched, there are 409 mentally defective persons already classified by the New Mexico Bureau of Child Welfare. These cases are listed from twenty-eight different counties and it is estimated that they represent less than 25 per cent of the total number of mentally defective persons in this state.

"Untrained and unrestrained the mentally defective are a social liability. Weak in will power, lacking in judgment, they become tools for the unscrupulous for whom they commit crimes and misdemeanors for slight rewards. Those mentally defective are unnormal rather than immoral. They are the source of much illegitimacy and spread venereal disease. It is not uncommon for a mentally defective woman to have seven or eight children and no two by the same father. Probably sixty-five per cent of feeble-mindedness is hereditary."

Can New Mexico afford to have such unfortunates at large?

We have a complete line of samples of social stationery—Artesia Advocate.

## Buying Electricity

You and I will speak of our monthly 'electric light bill,' says an editorial writer in Forbes Magazine (New York). And because we are accustomed to think of it as covering only electric light, we are sometimes disposed to regard it as high. But our electric light bill is no longer merely an electric light bill. He goes on:

"In my own home, for example, we have an electric refrigerator, an electric washing machine, and other smaller electric appliances. What we actually pay for, therefore, consists of various very useful and helpful forms of electrically-done-domestic work. In a very real sense, electricity has become a servant in the home. It lightens the duties of wife, maid, cook, laundress. It saves wages. In my judgment, electricity rivals the automobile and the daily newspaper in giving you most for your money. Our wide-awake National Electric Light Association should institute activities to bring home to every housewife and husband the new idea that what most of us now receive is not a monthly electric light bill, but a bill for domestic wages, a bill for work done in parlor, bedroom, kitchen, pantry, laundry, a bill which represents a saving both of work and money."

7:00 p. m., Friday, Epworth League business and social meeting. A hearty welcome to "A Home-like church."

### LOCAL PASTOR MAY BECOME AUTHOR

Conundrum number one—"Whose hat is this?"—proved to be an interesting discussion. With hat in hand Rev. C. C. Higbee, pastor of the Artesia Methodist church, brought forth the Christian philosophy of ownership in a visible and vivid way. Dashes of humor here and there held the attention so that even the children went home rehearsing parts of the message and saying they certainly did not want to miss the "Conundrum next Sunday at 11:00 o'clock."

A representative of a large publishing house has invited Rev. Higbee to submit manuscript of this series of addresses with a view to publishing them in book form. It is thought they will find a ready market and prove both instructive and readable. Any suggestion which the hearers may make to improve the thought or phrasing of these messages is welcomed by the speaker. The element of curiosity drew a large number of people last Sunday. More will find these unique lectures well worth hearing.

### WEEK OF PRAYER SERVICE

The Methodist Missionary Society observed the Week of Prayer with an all-day meeting at the church last Friday. A short program was given in the forenoon and a splendid dinner at midday. In the afternoon there was a missionary program, an exercise by the Junior Missionary Society, of which Mrs. Kinder is superintendent, also a pageant by the

## TEN COUNTIES HEARD FROM ON AMENDMENTS DEFEATED IS BELIEF

SANTA FE.—Reports on the vote on the two constitutional amendments placed before the people last election day are coming in slowly, but as yet have not reached sufficient proportions to permit of even a prediction as to the ultimate outcome.

At the present time, with ten counties heard from the vote stands: Amendment No. 1, for 5,805; against 11,565.

Amendment No. 2, for 4,485; against 9,103.

The counties heard from in full are Bernalillo, Curry, Harding, Hidalgo, Mora, Otero, Roosevelt, Santa Fe, Torrance and Union.

Curry, Hidalgo and Otero passed both amendments. The other counties named defeated both amendments.

### Style Is Important in New House Dresses

Washable house dresses for fall are as varied in design and made with as much regard to style and good looks as any other of our belongings. They include two-piece and bolero styles and nearly all of them show combinations of two materials. Those of a tailored aspect have long sleeves.

Young Peoples Society, Mrs. Allinger leader. The entire program was in charge of Mrs. Dixon. Each of the three organizations gave a good offering for missions.

### FIRST PRESBYTERIAN CHURCH Corner Fourth and Grand Rev. John Sinclair, Pastor. Phone 249

Sunday, November 21st. 9:45 a. m., Sabbath school. 11:00 a. m., morning worship. Sermon subject: "The Venture of a Timid Woman."

6:15 p. m., young peoples society. 7:00 p. m., "Rock of Ages," service. A unique program centering around the well known hymn with story sermon; reading and cornet solo.

Wednesday, 7:45 p. m., devotional service.

In the hymn book is the true key to the doctrine of the communion saints for here the saintly ones of all ages meet in their saintliest moods. "Rock of Ages," written by an Episcopalian, brings comfort to all Christians. During the coming months the Presbyterian church will put on a series of popular hymn services.

See our samples of Engraving—Artesia Advocate.

## FLORIDA LEADS RELIEF RECORDS

Heads Major Disasters of 1926. Red Cross Active in 62 Emergencies in Year.

### ALSO SERVES FOREIGN LANDS

Preparedness to Cope with Great Disturbances Gives Good Results in Action.

Facing one of the largest rehabilitation efforts of its whole history, as a result of the Florida hurricane, the American Red Cross already had behind it a record of service in 62 disasters at home, up to the close of the fiscal year, June 30, 1926.

When the hurricane struck Florida with such devastation and loss of life, the Red Cross National Headquarters was just congratulating itself that a year had passed without a major disaster within the borders of the country. The destruction in Florida has been tentatively estimated by Director of Disaster Relief Henry L. Baker, of the American Red Cross, in terms of relief work ahead of the organization. This takes into account all sufferers who must be cared for.

Careful surveys by experienced authorities place the injured at 4,000, exclusive of the stricken Gulf Coast cities of Moorehaven and Clewiston. Of the 1,200 injured sent to Miami hospitals, 500 were suffering with major fractures. In two other east coast communities the injured numbered nearly 1,000. The homeless were conservatively estimated at 50,000. Such figures sketch only vaguely the human and material problem which the American Red Cross is still doing its utmost to solve.

For comparison the other outstanding recent disaster, the Midwest tornado of March 18, 1925, can be described in more detail. In that catastrophe the final check showed 800 dead, 3,000 injured and 6,347 families of approximately 30,000 men, women and children rendered homeless. The final relief operations of the Red Cross were brought to a close March 18, 1926, exactly a year from the day the tornado struck five states.

So terrible did the death and destruction impress itself on the experienced Red Cross forces rushed into Florida that Chairman John Barton Payne did not hesitate to call for a relief fund from the whole country of \$5,000,000. The Red Cross concentrated every resource in trained personnel on the stricken region.

The New Jersey munitions explosion, in July, while terrible as a spectacle, could not compare with either of these other two disasters in final destructiveness. It gave the Red Cross an opportunity for service in which Red Cross nurses treated 86 injured, and during the height of the emergency fed between 700 and 800 people driven from their homes. More than 400 cases were registered with the Red Cross after the explosions for assistance in regaining their hold on life through rehabilitation work. This latter is a regular part of the Red Cross relief operations in all disasters, and means a task continued long after the country has ceased to think of the occurrence itself.

The year has seen a new measure of disaster relief preparedness inaugurated by the Red Cross, under which a trained reserve of medical and other relief experts is constantly on call for any service. This preparedness justified itself in both the New Jersey explosion, and in the Florida hurricane. In the latter the Red Cross had at call more than 300 experienced disaster workers with a network of prepared Chapters all over the country. This preparedness, constantly demonstrated, is cited as material assurance that the country is better protected today than ever before from the suffering such misfortunes engender.

Bad as were domestic disasters in both the last fiscal year and recent months, some of those abroad in the same time have been comparable, especially a flood in Mexico. Altogether the American Red Cross served in the name of the American people in more than 15 foreign catastrophes.

The Tenth Annual Roll Call for membership to maintain such activities will be held from November 11 to 15, and is an opportunity for all to enroll themselves in the American Red Cross.

## STATE SUES FIRST NAT'L BANK OF CARLSBAD ON TAXES ALLEGED DUE

The state has brought two suits to collect taxes from a bank and has filed them in the United States district clerk's office here.

The title of the cases is State of New Mexico vs. First National Bank of Carlsbad, G. H. Sellmeyer, receiver. The first asking judgment for \$3,256.94 for taxes alleged due for the year 1923 in the county of Eddy. This suit is on removal from the fifth judicial district. J. O. Seth, of Santa Fe represents the receiver. Guy A. Reed represents the state as special collector.

The other suit is brought by the state against the same defendant for \$2,338.76 for taxes alleged due for the year 1921.—New Mexican.

## Educators Give Junior Red Cross High Praise

Growing recognition by leading educators all over the world has been an achievement of the Junior Red Cross in the last fiscal year.

Included in those which have taken especially favorable cognizance of Junior Red Cross efforts are the World Federation of Education Associations at Edinburgh, Scotland, in 1925, the Department of Superintendence of the National Education Association, at Washington, 1926, and the National Education Association in Philadelphia, June, 1926. Various State educational bodies have confirmed this approval, the report adds.

As a phase of their work, the Juniors have developed contacts through exchange of correspondence, with similar Junior organizations in virtually every part of the world, and through the development of this medium many leaders see a better chance for world peace in future.

An especially notable development of Junior organization has occurred in Porto Rico, with an enrollment of 137,000, and the Philippines, with 912,000.

More than 5,000,000 American Juniors are at work in this organization of the American Red Cross. Their example is held out by the American Red Cross during the Tenth Annual Roll Call for membership, as one for all Americans to endorse by joining the parent organization during the period November 11 to 25 this year.

### Good Disposition

To egotism praise can't be denied. The words we'd say are these: "The man who always is self-satisfied cannot be hard to please."

## OLD LETTER

W. Lamar of Artesia, has given us permission to publish a letter, which is now more than twenty years old. The letter is personal but reflects the life of the frontier days in the mat-  
communication. The epistle is probably well preserved and is as legible as the day it was written. Although, the writer spent the greater part of his life on the frontier, the letter is that she possessed more than ordinary education for that time.  
The letter was given Mrs. Lamar by her mother and has been a treasured possession of the family for a number of years. It follows:  
Anderson County, Texas,  
June 8th, 1856

Through the kind blessings of a wise creator that I am permitted to address you with a few lines in these lines I can inform you that I am in as good health as my age could expect, though I am often very feeble, but I know the course of nature with old people. I received your letter of May 9th, which was a great gratification to me from you once more in this world. You wrote me that your life had been many years of trouble. I can truly sympathize with you in your distressing hours and have been a sharer in the grief of this life myself.  
My husband has been dead seven months since which of my sons have died, James Benjamin. But this is the ceremony of all mankind and I try to be reconciled to the will of the Lord. I know that his merciful will is able to uphold and protect us in our journey through this world of sorrow.  
I moved from Tennessee to Illinois and lived there ten years and then moved to Texas. We have been in Texas nearly eighteen years, but two. My son John is in Illinois and my daughter, Nancy, is living in middle Tennessee. My children are all doing well.

Fautenburg, is living in Limestone county, seventy-five miles west of here. Her husband was killed by the Indians in early settling of Texas. She is still a widow and her children are all doing well. James' widow still remains single, so does Benjamin's widow. I am making my home with her. I have a good home where I am supplied with the necessary comforts of life. In short I say that all my children and grandchildren are doing well, so far as my knowledge extends; this you know is a great satisfaction to me.

I am not able to give you any information of our brothers-in-law. I have not heard from them for many years. Samuel Douthit is dead. I heard John and Enoch were living in middle Tennessee.

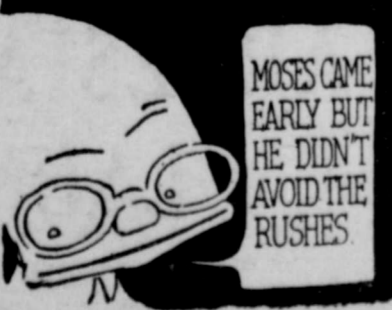

I never heard whether James left South Carolina or not. He was there the last I heard from him. I must close this letter by saying I am about 88 years of age and by course of nature can not stay here much longer, but if we both continue to live I want you to write me as often as you think necessary and I will do the same. And if I never see you again in this world, I bid farewell by saying I wish you success in all your laudable pursuits while in this world and a crown of glory in that which is to come.

SARAH DOUTHIT  
To Elizabeth Douthit.

P. S. John Rosson, one of my son-in-laws, is now lying in the last stage of life with a cancer on his face.

Artesia Oil Field Maps, 25c—Advocate.

Harry Houdini, renowned magician and exposor of spiritualistic fakers who died recently, is seen about to demonstrate one of his stunts.

### Shark's Appetite

A goat's horn, a tin of condensed milk, a metal cigarette case containing ten cigarettes, a pair of women's shoes, a box of matches, some rope, salicloth, and other objects were found in the stomach of a shark caught in Dalmatian waters.

## Stone Eye Glass Service

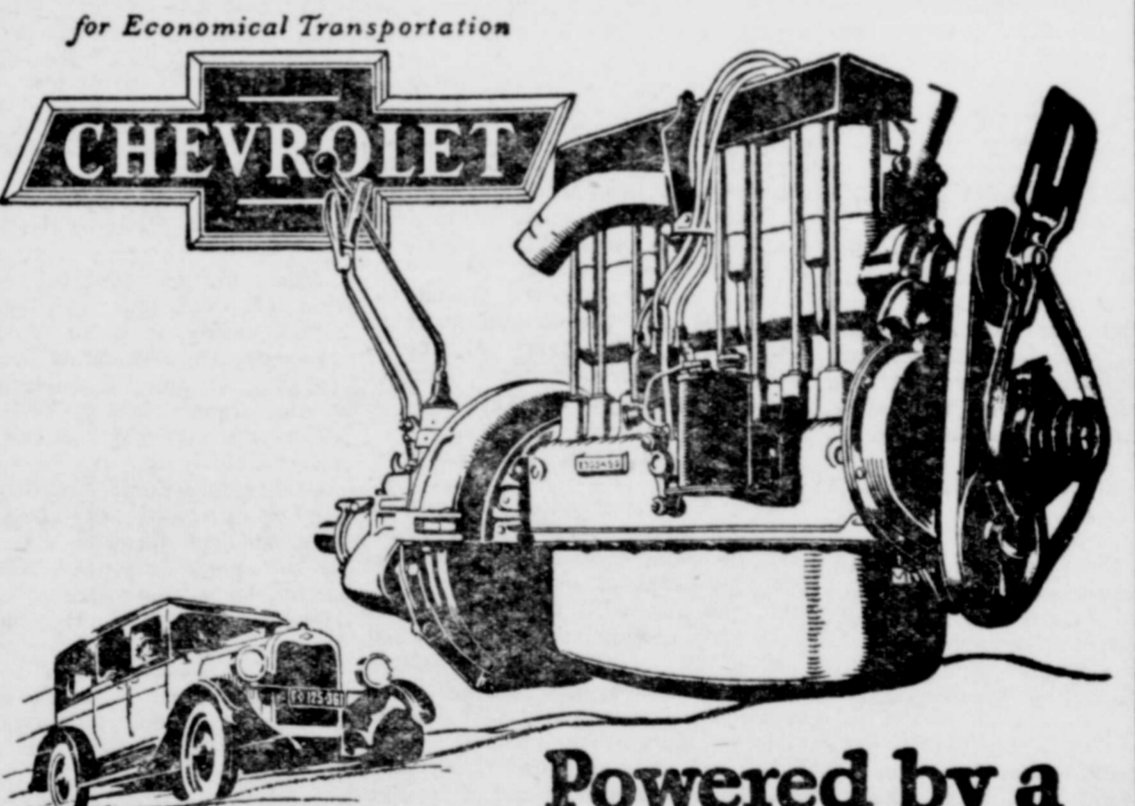

When a child is nervous, petulant, irritable, quarrelsome, always discontented—frequently when sickly, it may be caused by defective vision.

When the youth or maiden is backward in studies, cannot grasp what is explained in the school room, gets dizzy, is listless—it may be the eyes.

When the adult is irritable, experiences "vertigo," "upset stomach," headache, tired eyes, sleepiness during the day—it is probably the eyes.

This is Nature's warning that the eyes should be examined and proper glasses procured. No time should be lost in doing this. Have an optometrist examine them.

Dr. Edward Stone  
Optometrist

## Powered by a World Famous Motor

Embodiment of the most recent developments in design and the highest type of quality construction, the Chevrolet motor has won a worldwide reputation for power and economy of operation. It is the only valve-in-head motor used in a low-priced car—exactly the type of motor which has won every race classic of recent years. With its fully machined combustion chambers and expertly honed cylinder walls, it gives Chevrolet owners all the advantages of the valve-in-head principle, so successfully used on some of the most famous high-priced automobiles. Come in! Get a demonstration! Learn for yourself the power, stamina, and smoothness provided by Chevrolet's famous motor!

## BRIDGE PARTY

Mrs. L. P. Evans was hostess at a bridge party Thursday evening in which she used the national colors in decoration in honor of Armistice Day. Tiny flags were also used as favors with the refreshments, which were served in two courses. Mesdames Otis Brown and Landis Feather assisted Mrs. Evans in entertaining. The guest list included Mesdames Will Linell, Martha Harris, Landis Feather, Hightower, J. T. Reid, John Lanning, Lewis Story, Seale, Walter Ferriman, E. N. Bigler, Walter Martin, Welton, C. V. Lee, McGinn, Hartell, Aubrey Watson, McKae, Deyton Reser, Otis Brown, E. F. Olds, and the latter's house guest, Mrs. Ault, of Lamesa, Texas.

## RUTH PARTY

The monthly meeting of the Ruth party of the Baptist Sunday school was held at the home of the teacher of the class, Mrs. Walter Martin, last Friday. The afternoon was devoted to the regular business, combined with a social session. The hostess served light refreshments. The members present were Mesdames House, Holmes, Dayton Reser, Grimm, Bert Muncy, Hearn and Gibson.

## SUNDAY SCHOOL CLASS MEETING

The flourishing Young Men's class of the Methodist Sunday school, of which Rev. Higbee is teacher, met at the Sunday school room last Monday evening for its regular monthly meeting. A short business session was followed by an hour of pleasant social intercourse, culminating in the serving of refreshments. The class is outlining a program of service of a practical nature for the school.

Calling cards, 100 for \$1.75, panned stock.—The Advocate.

## GRAND WORTHY MATRON HERE

Grand Worthy Matron, Mrs. Ida C. Evans of Albuquerque, assistant Grand Worthy Matron, Mrs. Laura Becker of Belen and Grand Worthy Patron Thos. J. Hall of Roswell, are visiting the Eastern Star lodges in this part of the Valley this week. Last night they visited the lodge at Hope, being accompanied from here by Grand Secretary, Mrs. Jessie Morgan, Mr. and Mrs. E. H. Perry, Mr. and Mrs. Alf Coll and Mesdames J. C. Floore and Virgil Wells. Tonight the lodge here will give a six o'clock dinner in the lodge room in their honor. Chapter meeting with initiation will follow the dinner.

Mrs. Ben Pior and children have been visiting her sister in Roswell this week while Mr. Pior made a trip to El Paso with Frank Seale.

## Social Calendar

TELEPHONE 217  
THURSDAY

To-night the Eastern Star gives a six o'clock dinner in the lodge room in honor of the Grand Worthy Matron and other state officers.

### FRIDAY

Sunshine Class meets with Mrs. Billy Cox, 319 Quay, at 2:30.

The Music Department of the Woman's Club meets with Mrs. Mark Corbin at 3-15 p. m. Choral practice at 4 o'clock.

### TUESDAY

First Bridge Club meets with Mrs. Bigler.

Fortnightly Bridge Club gives six o'clock dinner at home of Mrs. Frank Seale.

### WEDNESDAY

Regular meeting of Woman's Club at Baptist Sunday school room at 2:30 p. m. Program by Literary Department. The Literary Department is planning to celebrate a book week next week by having an exhibit of books for young people and children at the library on the afternoon of Saturday the 27th, with talks upon books. The program of next week will also be devoted to the subject.

## VALLEY ORDERS OF EASTERN STAR ARE HOSTS GRAND MATRON

The Eastern Star Chapters of Lake Arthur and Hagerman were hosts to the Grand Matron, Mrs. Ida C. Evans of Albuquerque on her annual visit, at Roswell Tuesday night.

The Grand Matron was accompanied by the Grand Patron, Thomas J. Hall, the Associate Grand Matron, Mrs. Laura Becker of Belen, Mrs. Maude Hall and Mrs. May Marley of Roswell. The work of the Order was exemplified after which refreshments were served.

Yesterday evening the Grand Officers met with the chapter at Hope. This evening the party will be at Artesia, completing the visitation of all chapters in the valley.

### SIX O'CLOCK DINNER

Mrs. E. T. Jernigan entertained at a three course six o'clock dinner last Thursday evening, in honor of her son, Leonard, who has a responsible position with the Marland Oil Co., with headquarters at Carlsbad. "Jerry" and a number of his friends spent Armistice day at his home here. The dinner party included the Misses Marguerite Hitson, Tura Bates, and Adeline Powell and Messrs. Harry Baldwin, and Bob Sinclair and the host.

## SIX TABLES AT BRIDGE

The Misses Esther and Ruth Morgan were hostesses at a delightful bridge party last Saturday afternoon, entertaining six tables of players. Refreshments were served in one course. Present were the Misses Marjorie Wingfield, Inez Jones, Velma Smith, Nellie Gray, Linna McCaw, Merrill Bradley, Jessie Glenn Bullock, Helen Sage and Viola Pearson and Mesdames Will Linell, Landis Feather, Ealen Gage, John Lanning, Frank Seale, Lloyd Simon, Lewis Story, McGinn, Clark, Mehrens, C. E. Brown, Dick Atteberry and Virgil Wells.

## COTERIE CLUB

The Thanksgiving idea was most successfully featured in the meeting of the Coterie Club on Tuesday afternoon at Alfadale, the home of Mrs. G. M. Winans. Mrs. Stroup gave some of the reasons why the Pilgrims established a Thanksgiving day, Mrs. Gilbert gave the protest of the atheists to President Coolidge against a Thanksgiving proclamation and Mrs. Allinger gave the response of the president to the protests. There was a contest in forming the words, turkey and gobbler, in which Mrs. Simmons and Mrs. Mann both received prizes. The ladies also competed in writing Thanksgiving menus, Mrs. Mann receiving the prize, a box of candy pumpkins and a small spoon in this contest likewise. Turkey favors were used with the refreshments, which were served in two courses. Miss Merrill Bradley, Mrs. Knoedler and Mrs. George Threlkeld assisted in serving. Those enjoying this delightful occasion were Mesdames E. B. Bullock, Simmons, Allinger, S. W. Gilbert, Woods, Morgan, Higbee, Sinclair, Mann, Martha Harris, Hornbaker Threlkeld, Knoedler and Stroup.

See our samples of Engraving—Artesia Advocate.

## WORKERS' COUNCIL MEETS

Plans for the appropriate celebration of Christmas by the Sunday school engrossed much of the Council's business session at the meeting Tuesday evening, it being the wish of the organization to have the services of a reverent and sacred character exclusively. In the absence of the superintendent, Mr. Brown, Rev. Higbee presided at the meeting. The business meeting was prefaced by a splendid supper, which was served by a committee consisting of Mesdames Higbee, Hornbaker and Dixon.

Mr. and Mrs. F. C. Foster expect to leave Saturday to spend Thanksgiving with relatives at Durango, Colorado.

Advocate want ads get results.

## ANOTHER SCOOP—CHAPLIN BABY

After stalking the home of Charles Spencer Chaplin for a period reaching over five months, P. & A. photographers were finally successful in obtaining this absolutely exclusive picture of Chaplin's first born son. The enduring patience of the photographers' constant vigil is rewarded in this excellent photo of Charles Spencer Chaplin, Jr., made on the grounds of the famous comedian's Beverly Hills estate in California.

## LAKEWOOD ITEMS

(Mrs. M. C. Lee, Reporter)

J. D. Millman has purchased a new Ford touring car.

Miss Ora Hellyer purchased a new Chevrolet touring car in Carlsbad Tuesday of last week.

Willard Shafer went to Albuquerque Sunday to take an ex-verse man's physical examination.

Our community is taking a great interest in the Sunday school. There were over sixty out Sunday.

Mrs. M. C. Lee spent Tuesday visiting Mrs. Irvin Martin at the D. S. Martin home near Artesia.

We are glad to report Carl Ross very much improved and it is hoped if nothing else develops he will recover, but he will be unable to re-enter school until after holidays.

Mr. and Mrs. Wm. Smith and family and Ernest Shafer and family of Rocky Arroyo attended Sunday school here Sunday.

Do not forget the play to be given Saturday night at the school house. Those attending will get their money's worth as the play is good and we believe will be well rendered as the participants have put forth every effort to make it a success.

## MUSICAL THANKSGIVING PROGRAM HERE

The Pecos Valley Orchestra will give the following program at the First Methodist Church, Friday, November 26, at 8 p. m.:

Ladies Trio; Mrs. V. L. Gates, soprano, Mrs. Rex Wheatley, second soprano and Mrs. M. A. Corbin, alto.

"Indian Dawn"—J. S. Zamecnik  
"In the Heart of the Hills"—Dorothy Lee  
"Heard in a Studio Building" (Anna Stone)

Reading—Miss Evelyn Arnold  
"Dancing Moonbeams"—Bert Ward  
"Cantilena"—Golterman  
"Scherzo"—Goens

Violoncello Solos—Mrs. Nopl Greene  
Accompanist—Mrs. Ralph E. Bower  
Selection "Tannhauser"—Richard Wagner

All are invited to this free program. There will be no collection.

John and George, small sons of a Baptist minister, after listening to one of their father's sermons, decided that they must baptize their family of cats. The kittens made no objection. One by one they were put in a big tub of water.

But when it came to the mother cat, she rebelled—and fought—and scratched—until at last John remarked:

"Just sprinkle her, George, and let her go to h—l."—The Monitor.

## LOCAL

Born, Tuesday, the 16th to Andrew C. Sterman and wife, a daughter.

Mrs. L. Buel has been on the sick list the past week, but is convalescing.

Mrs. Jeff Hightower went on Sunday to Clovis to spend a week with friends.

Mrs. J. T. Reid spent last Saturday in Lovington with her friend, Mrs. F. M. Andrews.

George Etz, of Roswell spent a few hours here yesterday, looking after business matters.

D. I. Clowe and family enjoyed a visit from his brother, G. A. Clowe, of Lingle, Wyoming, who spent Sunday in Artesia.

Mrs. Ethel Lewis accompanied Miss Margaret Tarbet to the Panhandle oil field, where Miss Tarbet has a position as book-keeper.

Miss Margaret Tarbet left Monday for the Panhandle oil field, where she will keep the books of the Keiser Transportation Co.

Victor and Arrie Buel returned Sunday morning from a hunting trip to the mountains, but none of the deer decided to come with them.

Dr. Puckett, county health doctor, and Miss Edith Clement, county health nurse have been examining the school children in Artesia the past week. They went from here to Hope today.

Mr. and Mrs. C. V. Brainard and son, Fred and wife were here from Artesia. They knew the Garrards seventeen years ago in Artesia, and while here were guest of Hotel Garrard.—Lincoln County News, Carrizozo, N. M.

Mr. and Mrs. W. H. McCullough, Mrs. McCullough, Sr., and Mrs. McCullough's mother, Mrs. Fie, also a friend, whose name we did not learn, were in town from Roswell Saturday. Mrs. McCullough is department president of the American Legion Auxiliary.

Dr. Loucks, proprietor of the Loucks Garage, has recently been made a member of the Automobile Electric Association, which is a national organization. The association is comprised of seventeen manufacturers of electrical devices for cars and the object of the association is to unify the service of the various representatives throughout the county.

A number of students from the Military Institute at Roswell spent the week-end at home. Among them were Guy Reed Brainard, Frank Wingfield, G. T. Sidell and Truman Stovall. With them came a student named Hawkins from Loving en route home, also G. T. Watts on his way to his ranch home near Durango. He was accompanied by James Goodbar of Memphis, Tenn.

essee. They returned a short time here with Brainard before going school.

**HANNETT PARDONS ONE**  
SANTA FE.—Governor Arthur T.  
Hannett Tuesday issued a full and  
complete pardon to Dionacio Aragon,  
at present serving time in the state  
reform school. Aragon was senten-  
ced from Colfax county to 1 1/2 to 2  
years.

## GET BLOODHOUNDS TO LOCATE LOST CHILD

SANTA FE.—State penitentiary bloodhounds were called out Sunday night to find a fugitive most unlike their unusual quarry.

Penitentiary Warden John B. McManus received a telephone call late Sunday from Lamy asking that he send two bloodhounds to the scene at once.

Mr. and Mrs. Charles Poole of Santa Fe, on a hunting trip in wild country twenty miles southeast of Lamy, suddenly missed their two-year-old son Jimmy at 2 p. m., Sunday. At 3 p. m. they had not found him and sent a friend hurrying to Lamy to call McManus.

Guard Johnson and dog trainer Bill Murray were put into a taxi with two bloodhounds and rushed to the camp. At midnight the hounds picked up the scent of the child.

In a few minutes their baying awoke Jimmy, asleep in a thicket a quarter of a mile from the camp where his mother and father were.

## SWEET CLOVER SEED CONTINUES RAPID MOVEMENT

Sweet clover seed movement has been more rapid than last year or the year before. The United States department of agriculture estimates that by November 2, 70 per cent had left growers' hands, compared with 45 per cent a month ago, 40-45 per cent last year, and 50 per cent two years ago.

The movement has been rapid in northern Wyoming, southeastern Kansas, northeastern South Dakota, western Iowa, and Colorado, where from 80-85 per cent of the crop has moved, and slowest in central Illinois. In the heaviest producing districts of the Dakotas and Minnesota, 60-75 per cent has moved, compared with 40-50 per cent on October 5, and 30-45 per cent last year. From October 5 to November 2 the heaviest movements occurred in South Dakota and Minnesota.

Reports on quality confirm earlier ones to the effect that it averages somewhat better than last year. Prices paid growers advanced during October 5 to November 2 about 70 per cent per 100 pounds, compared with \$1.05 during the previous three weeks. On November 2, prices in seventeen states and districts averaged \$9.10 per 100 pounds, basis clean, compared with \$8.40 on October 5 and \$5.85 a year ago. In the main producing sections of Minnesota and the Dakotas the average was \$9.30 compared with \$8.70 on October 5, \$7.25 on September 11, and \$5.25 a year ago.

Carry over of old seed by growers was indicated to be about the same as or slightly smaller than that of a year ago.

Imports of white sweet clover during October amounted to 456,200 pounds. None was received in October, 1925. For the period July 1 to October 31, 757,900 pounds was imported, compared with 134,100 last year. For the same period 24,400 pounds of yellow blossom was imported in 1926 and 71,800 in 1925.

**UNITED THANKSGIVING SERVICE TO BE HELD HERE**

The Council of Churches is arranging for a united Thanksgiving service on Thursday, 25th of November at 7:30 p. m., to be held in the Baptist church. There will be special music and the sermon will be preached by Rev. John P. Sinclair pastor of the local Presbyterian church.

## THE LAST GOOD-BYE

Farewell, farewell is often heard From the lips of those who part,  
Tis a whispered tone, tis a gentle word,  
But it springs not from the heart.

It may serve for the lovers lay,  
To be snug neath a summer sky,  
But give me the lips that say,  
The honest words, Good-bye.

Adieu, Adieu, may greet the ear,  
In the guise of courtly speech,  
But when we leave the kind and dear  
Tis not what the soul would teach.

When'er we grasp the hands of those  
We would have forever nigh,  
The flame of friendship burns and  
glows,  
In the warm frank word, good-bye.

The mother sending forth her child,  
To meet with the cares and strife,  
Breathes through her tears doubt  
and fears,  
For the loved one's future life.

No cold adieu, no farwell, lives  
Within her choking sighs,  
But the deepest sob anguish gives,  
God bless you dear, good-bye,  
H. D. O'HARO,  
Artesia, New Mexico

Born to Mr. and Mrs. Clyde Salmes yesterday evening, the 17th, a daughter.

A number of Masons went to Lake Arthur last night to meet with the lodge there.

grade pupils.  
Grand March—Mrs. Hamilton.

Thos. G. De Coudres, of Long Beach, California, was here last week on business for Philip L. Bixby of Los Angeles, who has interests in the oil field. Mr. De Coudres is a brother-in-law of F. C. Foster, of this place.

## NAVAJO INDIANS GO ON WAR-PATH FOR HUNTING GROUNDS

Incensed because they were ejected from the Datil game reserve, thirty-five Navajo Indians have gone on a warpath in defense of their old hunting grounds near Magdalena.

Dr. B. P. Conner, Roswell, was the first casualty of the outbreak. His left ear was shot off by a red-skin warrior from ambush Friday morning.

The shooting of Dr. Conner followed a round-up by forest officials when thirty-five Indians were found hunting in the game reserve. Two of the Indians were arrested and guns were taken from others.

Dr. Conner was shot from behind after he had stopped to load his gun. In addition to his left ear being shot off, a hole was shot in his head and his shoulders peppered with buckshot.

The shooting occurred near the Datil forest, thirty-five miles west of Magdalena.

After being given first aid at the Mother's home at Magdalena by Mrs. Marie Butterfield, head of the hospital, Dr. Conner was rushed to Roswell to undergo an operation. It is believed he will recover.

According to the story told by Dr. Conner to the Magdalena News and to Mrs. Butterfield, he had been hunting in this vicinity all day. He had started out with a number of other hunters but had become separated from them.

Sitting on a rock he loaded his gun. Being very tired he fell into a doze. He was suddenly awakened by a shot and then lost consciousness.

When he regained his senses he was lying on the ground covered with blood. Behind him, according to Mrs. Butterfield's version, an Indian was furiously digging a hole to bury him in. The Indian apparently thought he had killed him.

The doctor turned and fired several times at the Indian. He believed he struck the Indian once as he threw up his hands, dropped his gun and ran. The doctor fired at the Indian three more times. He then walked to a nearby ranch for aid.

## PEANUTS WERE FOOD FOR SLAVES

Peanuts were introduced into Virginia during the early days of colonization, according to tradition, presumably by the slave traders as food for the slaves. Peanuts were found in ancient mummy graves in Peru by E. G. Squier exploring in 1877, also by W. E. Safford in 1887. This would seem to indicate that the peanut is a native of the new world.

During the early days peanuts were grown largely in gardens and small patches, and a few were roasted and sold on the street in the towns of Virginia and later in New York and other eastern cities. Necessity for some crop that would yield a cash return caused the farmers of Virginia and North Carolina to plant peanuts as a regular farm crop immediately following the Civil War.

The peanut industry of the United States is well distributed over most of the southern states but is carried on intensively in eastern Virginia, North Carolina, and southern Georgia. The crop now occupies about 1,000,000 acres each year, the annual production amounting to approximately 750,000,000 pounds.

The shooting of Dr. Conner followed two other attempted shootings on the brim of the game reserve earlier in the day, reports state.

Coming across a man and a woman several Indians fired at them. The man and woman escaped before they were injured.

According to W. J. Anderson, deputy supervisor of the Datil forest, there has been considerable ill-feeling among the Navajos since the arrest of two of the tribe for hunting in the game reserve.

Though there are still believed to be many Navajos hidden in the game refuge, two were arrested and their guns taken from them by Ranger Garst, Anderson says. Trial of the Indians will be granted Saturday afternoon.

Belief that they have been driven from the hunting grounds which they have held for generations is believed to have incensed the Indians to seek revenge. If they cannot hunt in the game reserve they are trying to prevent any white man from hunting in the vicinity, is the belief in Magdalena.

## THE COMMISSION WILL LIFT 4,000,000 BALES OF COTTON FROM MARKET

NEW YORK.—The New York Evening Post Saturday says that on the ground that "it is time for the south to stop giving its cotton away," President Coolidge's cotton commission has decided to "lift" 4,000,000 bales, this year's estimated surplus, from the market.

This surplus will be stored for eighteen months or such time as may be necessary, and cotton acreage next year will be reduced 25 per cent so that the surplus may then be put on the market at prices fair to the grower.

The storage and reduction plan was decided upon on a flying trip through the south just completed by Eugene Meyer, managing director of the finance corporation for the past eight years.

Appointed less than three weeks ago, Mr. Meyer in a ten day journey through twelve southern states, organized nine public welfare corporations with a massed capital of \$16,000,000 that will be able to secure the use of all or any part of \$160,000,000 from the federal intermediate credit banks.

This sum is considered ample to care for taking the 4,000,000 bales off the market and carrying them until decrease in next year's production guarantees fair prices. The reduction will be brought about by diversification of present cotton

## Plant Trees and Shrubs Now, Advises Authority

Danger of Nursery Stock Set Out In Fall Dying If Properly Cared For.

STRONGLY recommend the planting of trees in the fall, in this part of the country, if the weather is not severe," said Mr. Sonderegger, Beatrice, Nebraska, one of the oldest and best nursery men in the country, in a letter concerning his opinion on the possibility of planting young trees and shrubs in the fall.

fall and treated in the manner described below, they come through bright and uninjured. "This is the process I always suggest: First soak trees, (not plants) in a tub of water or tank about twenty-four hours, soon as received, then select a dry spot where no water will stand during the winter, and where there is no grass to invite mice. "Dig a trench deep enough to admit one layer of roots and sloping enough to permit the trees to lie at an angle of not more than thirty degrees with the ground.

Above—Trenches prepared for "heeling" in. Left—Fill basin with water several times. After soaking away cover with dry dirt as dust mulch around tree.

It is also much better for trees when they are planted in the fall than in the spring. The trees get established and will start growing earlier than a tree that is planted in the spring. The benefit of the early planting and becomes well rooted in the hot weather. This advantage should never be overlooked. The fall nurseries are also less expensive in the spring and assortment complete. The farmer who orders at this time is more likely to get exactly what he wants and the trees are more stabilized than in the case where he to wait until spring to buy his trees. There is a popular impression among farmers that trees dug in the fall are "heeled" in over winter are less, but in even the most severe winters this does not hold good if the work is done properly. There is a danger certain hard and fast which must be observed.

"Having placed one layer of roots in this trench, cover them with the mellow earth extending well up on the bodies and see that this is firmly packed. Then add another layer of roots, overlapping the first, continuing as at first until all are heeled in. As soon as this is done, give the trees a good soaking, so the dirt will settle around the roots and bodies of the trees, and there will be no air pockets, then cover the tops entirely with dirt, so they will be thoroughly protected from the wind. It is always best for all kinds of nursery stock if the ground is wet when it freezes."

When asked concerning the effect of market conditions on the price of nursery stock, Mr. Sonderegger said, "Although prices on nursery goods throughout the country rule somewhat higher this year than last and indications are that there will be an unusual demand for fruit trees next spring, our prices are about the same as they were last spring. We believe in keeping our prices abreast with the prices of farm products, thereby giving the farmer a better chance to buy profitably."

Young trees and shrubs in proportion to above chart dimensions. Some other young trees, standing during their winter, are frequently killed or injured by frost, while if dug in the

## DAYTON ITEMS

(Mrs. W. H. Rambo, Reporter)

Bill Glasspool is preparing to move to Crane, Texas.

The little daughter of Earl Bowman is very ill with pneumonia.

Miss Mary Turnbull spent the week-end with friends in Artesia.

W. H. Rambo and J. C. Turnbull were transacting business in Artesia Monday.

Mrs. M. C. Lee, of Lakewood was a guest at the home of J. D. Terry Tuesday.

Clyde McDaniel and John Livisay returned from their deer hunt without the deer.

Mr. and Mrs. Louie Michelet, of Clovis, report the birth of a daughter, November 7th.

Miss Emmaline Kaiser spent the week-end with her brother at the A. A. Kaiser ranch east of Dayton.

After Epworth League Sunday night, nice refreshments of cake and cocoa were served by Miss Vina Bowman at the church.

A. F. Hill, of San Angelo, was in Dayton this week visiting with relatives and friends. He reports Mrs. Hill and son doing fine.

Mrs. Ula Bobb, of Artesia and Mrs. Bobbie Flatt, of Cleburn, Texas, were guests of their sister, Mrs. Hugh McClure, and family Sunday.

Sunday Paul Terry and family and his mother, Mrs. J. D. Terry motored to Cottonwood where they spent a very pleasant day with Tom Terry and family.

Rev. J. D. Terry left Friday for Loving to assist Rev. E. A. Thomas with the protracted meeting, returning Monday evening and reports a very good meeting.

A very pleasant day was spent Sunday by the Misses Lizzie and Frankie Wailes and Mrs. Rambo, when they were the dinner guests at the Culpepper home.

A fine radio with a loud speaker has been installed at the Dayton drug store by John Shoop. Many people have enjoyed the concerts, sermons and other programs given

from time to time.

Tom Reeves and wife came in from the ranch southwest of Carlsbad Friday evening and were guests of Mrs. Reeves' sisters, Mrs. Clyde McDaniels, Mrs. Ella Livisay and Viola and Lenora Harrison.

Dayton wishes to thank Lakewood for their presence and assistance at the school program and hope our people will show their appreciation by attending Lakewood's entertainment Saturday night, November 20.

The following pupils of the Day-

ton school made a perfect attendance record for October: Durwood McClure, Charles Gushwa, Fay Gushwa, Viora Lewis, Cora Mae Marable, Ray Harrison, Sam Hughes Edna Bowman, Sadie Belle Lewis, Winie McLarry, Ernie Glasspool, Johnnie Gushwa.

**Looking Forward**  
Little Johnny wants to be an angel," said the fond mother. "Isn't that cute?"  
"I see," said the father, who knew more or less, "his thoughts are on chorus girls already."

## PROGRESSIVE RED CROSS CAMPAIGN FOR HEALTH

Public Health Nursing, Nutrition and Home Hygiene Work Cover the Country.

Important contributions to public health were made by the American Red Cross through its Public Health Nursing Service, Nutrition Service, and in instruction in Home Hygiene and Care of the Sick. In every State and Alaska, with the exception of Delaware and Nevada, instruction was given by the Red Cross, also in the Philippines, Hawaii, Porto Rico, and Virgin Islands. A total of 57,370 women and girls learned to make a hygienic home, and care for the sick in their homes.

The United States Public Health Service estimates that adequate rural health nursing service would cost \$22,000,000 annually, but would save a billion dollars in value of human life, earning power, and economic conservation. The American Red Cross, through its Public Health Nurses, of whom there were nearly 800 on duty the past year, is doing its part in meeting this requirement.

The Red Cross, through its nutrition service, taught thousands what to eat for health. In this country, 24 States were served with from one to ten Red Cross Chapter nutrition programs in each State. In 33 States, nutrition instruction was given either through the regular nutrition instructors or through volunteer dietitians. During the school year an average of 15,413 individuals a month, including parents, teachers, pre-school, and school children, were assisted to a better knowledge of food in its relation to health, and how to apply it to their daily lives. In March, 111,219 individuals received this instruction, while during the year 3,538 classes were conducted and 6,450 conferences and home visits were given by nutritionists, thus reaching thousands of individuals.

The Annual Roll Call for Membership from November 11 to 25 is an invitation to all persons to assist in maintenance of such services through another year by enrolling in the American Red Cross.

### Everybody on Wheels

"You no longer travel the road with a tin can?"  
"No," answered Plodding Pete. "I saved up my tin cans from year to year until finally I got enough metal together to make myself a flivver."

**LOCALS**

H. A. Ingalls, of Roswell, was a visitor in Artesia Sunday.

Dr. Stroup made a professional trip to the Maljamar field Sunday.

S. W. Gilbert spent Thursday in Carlsbad, attending to business matters.

Baptist name Rock, says a head line. But we thought it had already been named.

Mrs. A. F. Phillips and Mrs. R. L. Carr left Friday for a short visit at Amarillo, Texas.

Mrs. C. M. Cole returned Monday from Las Cruces, where she attended the Baptist State Convention.

Mrs. Nay Hightower, of Roswell spent last Thursday and Friday here with Mr. Hightower and also several friends.

If bed bugs bother you so you can't sleep, you have a perfect right to cancel your lease, says an Iowa court decision.

A. C. Kimbrough and J. A. Clayton returned from the hills with a fine buck. We don't attempt to say which one killed it.

N. W. Brenhart and J. C. Cravens, geologists from Cisco, Texas, have been in this section the past few days, looking over the oil fields.

O. N. Wherrett, now with the sales force of the Malone Coppedge Motor Co., was calling on prospective Studebaker purchasers here Friday.

Mr. and Mrs. W. B. Waugh, former residents of Artesia, now living at Pampa, paid friends a hurried call here last week, returning home Monday.

R. H. Norton, his daughter, Mrs. Una Hutcheon and little daughter, Helen, returned Monday from Herford, Texas, where they had spent the week-end with relatives.

Geologist Robert I. Plomert, of Los Angeles, California, has recently moved his family to Artesia and will occupy one of the Ragsdale apartments on Main street. Mr. Plomert has been interested in the oil development here for several months and will devote his entire attention to looking after his oil interests.

**Hd. RS 2289 7-17-14 159.44 acres. NOTICE FOR PUBLICATION**

O28324 MFN  
Department of the Interior, U. S. Land Office at Las Cruces, N. M. Nov. 11, 1926.

NOTICE is hereby given that Joseph K. Funk, of Lake Arthur, N. M., who, on May 19, 1923, made Hd. entry containing 159.44 acres, No. 028324, for lots 2, 3, SE 1/4 NW 1/4, NE 1/4 SW 1/4, Section 18, Township 16-S., Range 25-E., N. M. P. Meridian, has filed notice of intention to make three year Proof, to establish claim to the land above described, before S. W. Gilbert, U. S. Commissioner, at Artesia, N. M., on the 21st day of December, 1926.

Claimant names as witnesses: Monroe Howard, James Hollingsworth, William K. Walker, Walter Bradley, all of Lake Arthur, N. M.

K. D. STONES, Register  
11-18-5t

M. W. Evans was a Roswell visitor Friday.

Mr. and Mrs. Ed Bryant, of Carlsbad, were visiting here Saturday.

Mr. and Mrs. Ossie Coalson spent Armistice Day with relatives at Lovington.

Martin Yates and William Dooley were transacting business in Santa Fe last week.

Rev. Cox, of Hope, filled his appointment at the Church of Christ, Sunday. Mrs. Cox accompanied him.

Mr. and Mrs. Fred Cole have returned from their honeymoon trip to Abilene, Dallas and other points in Texas.

Superintendent J. T. Reid, Mrs. Reid and Coach Priest accompanied the Junior Hi football team to Lovington, Saturday.

Miss Fortune is elected secretary of state, again we know there is absolutely nothing in a name—Santa Fe New Mexican.

A slot machine is a gambling device, even though the player receives value in chewing gum, says the state supreme court in a recent decision.

Mrs. L. M. Terrill departed last Thursday for Phoenix, Arizona, intending to spend the winter in that mild climate, for the benefit of her health.

Mrs. Van Welch and daughter, Miss Phoebe, went to Amarillo, Texas last Thursday to visit Mrs. Welch's daughter, Mrs. Sig Iverson and Mr. Iverson.

Rev. L. R. Simmons was on the sick list last week, but was able to fill his pulpit at the Baptist church Sunday morning. Prof. Moorhead preached for him Sunday evening.

Mrs. C. S. Kathan, who has been visiting her niece, Mrs. A. L. Mount and Mr. Mount for the past five weeks, will leave Sunday for Los Angeles, where she will spend the winter.

Mr. and Mrs. J. F. Lukins left last week for Huntington Park, California, where they expect to spend the winter. Mr. Lukins stated that they would probably return to Artesia next spring.

Fred S. Gleason, of Bartlesville, Oklahoma, with the production department of the Phillips Petroleum Co., was in this section the past week, looking after the interests of his company.

Mr. and Mrs. Arba Green moved into Mrs. Laura Welsh's house on West Main street Saturday. Mrs. Welsh expects to leave soon to spend the winter with her daughter, Mrs. Wm. Mead in Ohio.

Lee Vandagriff and wife returned Friday from an extended visit with relatives at Rose and Shawnee, Oklahoma and Fayette, Arkansas. On his journey Mr. Vandagriff passed through much of the cotton country and states that he saw fields resembling a snow bank, which had never been touched. The poor cotton farmer in these sections are hit hard, Mr. Vandagriff stated.

## UNCLE JOE CANNON VETAN CONGRESSMAN PASSES AWAY FRIDAY

DANVILLE, ILL.—America's "Uncle Joe" is dead. Joseph Gurney Cannon, for half a century one of the nation's foremost statesmen, died here shortly after noon Friday. Myocarditis was given as the immediate cause of his death.

Death came quietly, in contrast to the dynamic, vital life of the man America knew and dearly loved. The only semblance to the gaunt, bustling, fighting ex-speaker of the house of representatives was the strong bearded face.

Cannon's body was racked by almost 91 years of strenuous life and weakened by almost a year of continuous illness, but he summoned enough courage to smile just before the end came.

Everybody here was a friend of Joe Cannon, and when news of the death spread over the city, the citizenship moved in the direction of his home.

Some walked, a few rode in limousines, but the majority piloted their ways in creaky automobiles—just plain Americans who liked Uncle Joe. They were told there was nothing to be done. But they gathered in little groups to talk.

Realizing that life's sunset was approaching, the veteran statesman recently completed his own tomb, which he visited regularly to see that the flowers were cared for.

At the bedside when death came were Mrs. Ernest N. Lescure and Miss Helen Cannon both daughters; Dr. Wilkinson, personal physician; a nurse, and Gordon, a negro chauffeur and personal servant.

Cannon's republicanism was born with the republican party, and he died steadfast in his faith. It was said of him that "the old guard might relent—but Cannon, never."

### NEW MEXICO APPLES

New Mexico apple growers estimate that about fifty per cent of their crop, or 574,000 bushels were moved. 506 car loads were moved to November 2, or about 300,000 bushels. This compares with 987 cars to this date last year, and a total carload movement for last season of 1,112. The United States has moved 68,044, compared with 73,525 to November 2 last year, and 127,890 cars for that season. The short movement to date of this year's heavy production is doubtless due to a late crop, light demand and low prices.

## THE NEW CONGRESS

NEW YORK. The political classifications of the state delegation in the new house of representatives is as follows:

State	Rep	Far.-Labor	Dem
Alabama	10		
Arizona	1		
Arkansas	7		
California	10

The democratic gains were: Illinois 2; Kansas 1; Maryland 1; Missouri 3; Nebraska 1; New Jersey 1; New York 3; Oklahoma 1; Pennsylvania 2; West Virginia 1. Total 16.

The republican gains from the democrats were: Kansas 1 and Rhode Island 1, while they gained one from the socialists in New York.

### War Over, But Red Cross Nurses Are Ever On Duty

Has the romantic picture of the Red Cross Nurse faded with the war days? It has been more than 12 years since that first contingent of brave women to go to the war zone sailed from America to make an undying record of service behind every battle front.

For an answer to their whereabouts today, it is only necessary to refer to any large disaster of recent years in which the Red Cross rendered relief. Wherever there was injury and suffering the Red Cross nurse will be found to have been on active duty.

These nurses are enrolled under the American Red Cross as a reserve of the Army, Navy and U. S. Public Health Service, at all times ready to serve in war or peace. This reserve of Red Cross nurses aggregates 43,503 women who have met the highest standard in the nursing profession.

The Roll Call for membership in the Red Cross this year is November 11 to 25, when the American people identify themselves with the broad services of the organization by joining its ranks.

Join the Red Cross November 11 to 25.

## CHEVROLET SPENDING \$1,500,000 TO INSURE PROMPT PARTS SERVICE

The Chevrolet Motor company is spending \$1,500,000 on the installation of a radically new system of replacement parts distribution which executives declare will assure uniformly prompt service for every Chevrolet owner in the United States.

The plan, involving the establishment of six new major supply depots throughout the country, has been worked out by President W. S. Knudsen and J. P. Little, manager of the parts and service division. In a service way it supplements the greater production capacity which will be available after completion of the \$10,000,000 Chevrolet factory expansions program.

The new supply depots, in which will be stored reserve parts stocks, are to be located at the following points: Oakland, California, Janesville, Wisconsin, Cincinnati, Ohio, Buffalo, New York, St. Louis, Missouri, and Tarrytown, New York. All of the depots except those at Tarrytown and Oakland will be new specially-designed buildings of brick and reinforced steel concrete. The existing parts stations at Oakland and Tarrytown will be enlarged and refitted to meet the heavy demands that will be made upon them under the new system. The entire facilities of the central parts warehouse at Flint, which heretofore has been the central shipping point, will be retained. The ground already has been broken for the four new buildings, and all of the major supply depot will be ready for operation by January 31.

The new depots will serve as safety valves, smoothing out the peaks and valleys of demands made by the parts department on production plants and service stations. They will perform a two-fold function; first, expedite the delivery of parts; second, create a reservoir that will permit of uniform production of parts, regardless of seasonal variations in demand.

Under the new plan the major supply depots will, in effect, create huge concentrations of parts stocks connecting the Chevrolet factories and the entire service organization. They will assure car owners far better and more efficient service through the constant maintenance of adequate stocks throughout the country. Parts will be shipped in straight carload lots from the factories to the supply depots.

The establishment of the major supply zones, outlined above, does not constitute the entire parts distribution program of the Chevrolet Motor company. In addition to the concentration points previously mentioned, the company already has in operation eleven other parts warehouses which will continue in operation and be added to as necessity arises. The eleven other parts warehouses are located at Boston, Pittsburgh, Baltimore, Charlotte, Atlanta, Jacksonville, Dallas, Oklahoma City, Minneapolis, Denver and Portland. These warehouses will receive their entire shipments of parts in carload lots from the nearest major supply depot guaranteeing faster service to the dealer and owner.

The new buildings are of uniform, monitor type construction, and will be equipped with the most modern types of power conveyors, gravity ramps and stock bins.

### TWELVE MILLION BUSHELS OF GRAIN

LAS CRUCES.—Over twelve million bushels of the principal grain crops were produced by New Mexico during the past year, according to figures released Friday by R. F. Hare, agricultural statistician here. Of this 4,000,982 bushels were wheat, and 600,000 bushels corn. The number of bushels of apples produced totalled 1,347,000.

### Tweed Is Popular for Tailored Suits

Crowded by simple two-piece tailored dresses and coat frocks the tailored suit occupies less of fashion's horizon than it merits. But any assembly of smart women in street clothes will disclose a certain per cent of them wearing the trim and efficient tailored suit. The limit of simplicity is reached in the model shown here which is suited to tweed, twill or the fancy weaves in woolsens.

## 50 *S.N.* Stamps and a Stamps Book FREE

If you are not savings S and H Saving Stamps now we want to give you this chance and we will start you with a book and 50 stamps

### Saturday, Nov. 20

And in addition we are going to give DOUBLE stamps all day Saturday. This is the last day of our FALL TRADE CAMPAIGN—we have had a splendid sale and many big days, but we are anxious to close up the sale with the biggest day of all. We know that many of our regular STAMP SAVERS will be anxious to grasp this opportunity to fill their books and we want to start many more saving Saturday as you can get many premiums that will come handy for Christmas presents and these articles cost you nothing. So combining all these together we are sure that the announcement of

### DOUBLE STAMP DAY

ALL DAY SATURDAY

will mean that this day will be the biggest day we have ever had since this store started.

#### A Large Assortment of Premiums on Display

We will have a tremendous lot of SPECIAL BARGAIN PRICES FOR SATURDAY, it is the end of the sale and naturally we want to clean up all short lots and remnants so COME TO

## Our Store Saturday

### MALJAMAR 1 ON STATE LAND IS IN LIMELIGHT GAS AT 3115 FEET

(Continued from first page)  
week. The former is now producing at the rate of 95 barrels from 2995 feet while the latter test has 2500 feet of oil in the hole this coming from a depth of 4217 feet.

Meeting the crude oil cut of several weeks ago, local pipe lines have put a price of \$1.65 a barrel on Artesia oil at the wells, this being a decrease of 30 cents a barrel. The new price is effective Nov. 17th.

Wm. Mitchell, president and Sterling Beardsley, secretary and treasurer of the Maljamar corporation, are here inspecting their Lea county holdings.

### THE RESULT OF ONE RACE IS STILL CLOSE DOW IS AHEAD

(Continued from first page)  
interest. The state canvassing board meets next Monday.

In the tabulation published by the New Mexican Saturday, errors were found in the returns for three counties, and, correcting these, the vote stands Barnes 53,613, Dow 53,621.

The figures sent out from Las Vegas as the official results in San Miguel county were found to be inaccurate. A copy of the certificate received Monday, gives Barnes 4,405, Dow 4,154, giving Dow 95 more than had been credited to him.

Another mistake was found in the Santa Fe county report. Barnes' vote in this county was 4,405 instead of 4,905. The New Mexican's figures for this county were taken from the tabulation of the Democratic checkers aiding at the official canvass, who inadvertently dropped 400 off Barnes' count. The certificate sent to the secretary of state's office, however, is correct, giving Barnes 4,405.

The inaccuracy of the San Miguel county returns together with a mistake of fifty in Barnes favor in Sandoval county, in view of the plurality of 124 previously credited to Dow, wipe out the 400 gain for Barnes in this county and leave Dow a margin of eight votes.

The position of the other candidates remains unchanged.

### ALL SHADES, OF COURSE

Customer—Are your curtains of more than one color?

Clerk—Our curtains are all shades, madam, of course.

Clean cotton rags wanted at the Advocate office.

### CARROLL HIGHTOWER IS DEAD

Carroll Hightower, who was shot by a stray bullet, last week, while out hunting near Alto, died in a Fort Stanton Hospital following an operation for the removal of the bullet from his back. Before his death, young Hightower made a statement that he had gotten off his horse while hunting turkeys and was going west when he saw a man raise his gun and fire. While feeling was running high in the mountains last week, the unfortunate shot is ascribed to the work of a careless hunter.

### ANOTHER HUNTING ACCIDENT

Another hunter was shot last week, news dispatches from Albuquerque state. Dr. Bruce Connor, well known dentist of Roswell, was the victim of an intentional shooting at the hands of an Indian. The wound was not serious, however, the shot was at close range and the bullet entered the ear and made a flesh wound in the neck.

### WILL MOVE JEWELRY STOCK

E. T. Jernigan is preparing to move his jewelry stock and repair outfit from the Mann Drug Co. to the Sweet Shop location on the north side of Main street. Mr. Jernigan will likely be ready for business at his new stand at the opening of the Sweet Shop, which will be about the 20th.

May—Poet nothing! He works for the gas company, my child.

### An Artist's Confession

There's just one critic whom I hold in favor. 'Tis myself so free In criticizing critics bold Who have been criticizing me.

### His Start

Lady of the House—How did you come to get into the tramping habit?  
Ragged Rogers—I got started, lady, when I became a golfer.

### Bright Outlook

Georgine—How are your chances for mixed doubles?  
Harold—Fine! My most dangerous opponent is in love with my partner.

## HEAVY GALE TAKES TOLL OF LIVES OVER THE EASTERN SEC.

NEW YORK.—Moderately cold weather in eastern states yesterday followed a heavy rainstorm and a gale of seventy-two miles an hour, which took toll of four lives, injured many and did considerable damage.

The gale affected the section from West Virginia to Massachusetts. Six men were trapped in a coal mine at Hazelton, Pennsylvania, by the overflow of a creek. A score of small fishing craft were sunk off Provincetown, Massachusetts.

Scores of persons were driven from their homes by overflowing rivers in northern West Virginia, and flood waters throughout the section hampered transportation and communication.

Coastal and river shipping was forced to cover and sustained considerable damage.

In Asbury Park, New Jersey, a score of workmen narrowly escaped death when the wall of a theatre under construction was blown in. Buildings at the Sesquicentennial exposition at Philadelphia were badly damaged by wind and water. Camden New Jersey was flooded, water standing six inches deep along the water front.

A babe was killed when blown from a fire escape in Brooklyn. In Weehawken, New Jersey, an errand boy was killed when he came in contact with an electric feed wire blown down by the wind. A boy was dragged into the Lackawanna river at Scranton, Pennsylvania, by a piece of drift wood, and drowned, while at Hartford, Connecticut, a painter was killed by a falling flagpole.

Wire communications were disturbed. Tarrytown, New York was without light or power for eight hours and thousands of dollars of damage was caused by high waters at Binghampston, New York.

Train service was delayed in some sections. A washout on the Delaware and Hudson railroad tracks near Plattsburgh held up trains for several hours while the Ontario and Western and Erie reported delays from washouts near Scranton, Pennsylvania. Steam engines had to be substituted for locomotives in certain instances on the New York, New Haven and Hartford railroad. Landslides tied up the Central railroad of New Jersey at Allentown, Pennsylvania.

Near Towanda, Pennsylvania, a dam holding Lake Mokoma at La Porte, Sullivan county, gave way, flooding the valley. The small town of Forksville was in the path of the flood, and residents were notified to flee.

## LIFE'S LITTLE JESTS

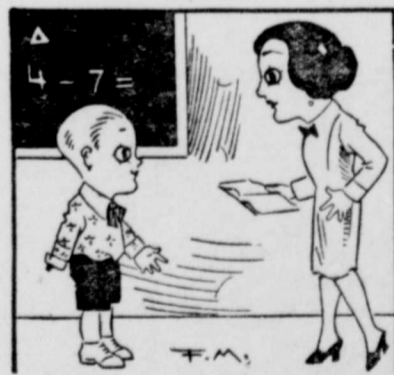

### LIMIT TO GOOD INTENTION

The boss was tired of being constantly importuned by one of the workers for the next week's salary, and finally said:

"Mose, you're the limit. Say, what would you do if you had all the money in the world?"

"Well, sub," replied Mose, studiously, "de fust thing Ah'd do would be to pay all mah debts—as fah as it'd go."

### IN SCHOOL

Teacher—What can you say of the canine teeth?

Young America—Nothing, teacher; I have never been bitten by a dog.

### Strength

Who battles for the right Needs strength and will. He who prevents a fight Is stronger still.

### So Considerate!

Mother—Even if your friends don't like Lillie, I hope you are careful not to say anything in her presence to hurt her feelings.

Elsie—Oh, yes, mother, we're very careful. Whenever she comes near we always move a little way off from her and whisper.

### "Number, Please"

A lucky number—one you can get on the telephone.

## How Does Your Garden Grow?

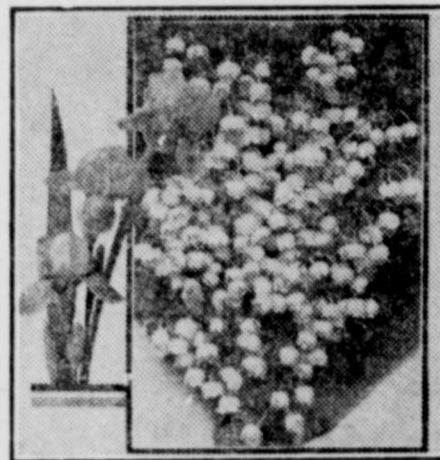

By Mary Quite Contrary.

If you would have "flowers that bloom in the spring, tra la," and all during the summer as well, remember that the planting of bulbs in the fall has much to do with the case.

For, let me tell you of my experience. In my small garden last year I grew a variety of flowers, but in a very haphazard manner.

At times my place was a riot of color and beauty. Especially was this true with my tulips and irises. They bloomed gloriously, but all at once and then lean days followed—sometimes even weeks when I had not a single plant in bloom.

It worried me greatly and I determined to learn why this garden of

Left—Japanese Iris, a variety that brings glory wherever it grows. Right—Lilies of the valley grow luxuriantly in a shaded spot of the garden.

mine was such an "off and on affair," and so one day I wrote Sonderregger's Nursery and told them of my plight.

They explained to me that the fault was not with my flowers, but in the fact that I had failed to plan my garden with pencil and paper or to select bulbs that would bloom during the entire season.

I followed their suggestions and this summer my garden has been far lovelier than even I ever dreamed it could be. I have had a series of delightful flowers from the very first spring days when my two varieties of snowdrops thrust their delicate heads out of the ground until now when my tall yellow and white Funpla lilies nod at me.

Snowdrops and Crocuses. Snowdrops were followed by crocuses—in soft blue and purple shades and a few exquisite yellow ones which I had planted among my hardy white Arabis. In the spring this plant changes from its winter's green and becomes a bunch of lovely white blossoms as a background for the crocus.

Some of the delightful old-fashioned blue Scilla I used to love in my grandmother's garden came next—about the end of March.

I had hyacinths, too, of course, in both the single blue and white variety; also brave, saucy-looking daffodils, tender, delicate lilies of the valley and my beloved white star and Victoria narcissus.

And then came tulip time, and how I reveled in it. For, I had studied garden artists' color charts and planted my tulips in small groups of these harmonious shades.

Iris followed and mingled with the last tulips and of this perfect flower I even grew some of that fascinating Japanese variety. During July, I'm proud to say, I had Regal and gold-banded lilies, the kind I had always imagined an amateur could never grow.

Telling of all these marvelous flowers, it sounds as though I had a great deal more space than was really the case. To be sure, every inch of ground was utilized, but so carefully did we plan it that there was always plenty of green for harmony and never that odious suggestion of overcrowding or expense.

Rules for Planting and Care. Dig the ground deep and work until June, adding a sprinkle of bone meal. Set each bulb on a handful of sand and pack dirt firmly around, without bruising bulb. Leave dirt loosely over top. Plant the first of October, and when ground freezes, mulch with leaves or straw three inches deep. Remove carefully in spring.

Depth of planting should be three times depth of bulb. Thus if bulb is three inches deep, it should have nine inches of soil over it. Three or four times the diameter of the bulb is the proper distance to set apart.

The rule for lilies differs considerably.

Have soil well worked and fertilized with bone meal. Plant in early spring. Cover three and a half times bulb depth and about twelve or fourteen inches apart. Place bulb in handful of sand after sprinkling it with sulphur. The roots should be shaded by low perennials and the flowers will rise above to bloom. Tulips can be planted 5x5 inches. You will get a solid mass of flowers.

This is the first of a series of talks on garden planning by the Better Garden Club of Beatrice, Nebraska. Additional information on flower growing will be sent on request.

### A Veteran Fighter

"I hear your son is working for Smith, the hardware dealer. Do you think he'll get along all right?"  
"He ought to. He came through the World war without a scratch."

## Yes, They are Hand-Painted

Flimsy, fluffy, feathery and as light as a spring zephyr, modeled in the wanted colors, out of the best grade of crepey silks—teddies, gowns, pajamas—nothing more appropriate for a gift.

SEE THEM ON DISPLAY NOW
