PAGE TWENTY-FOUR

ARTESIA, NEW MEXICO, THURSDAY, MAY 26, 1927

NUMBER 23

## Development Continues at Normal Pace in East Area

Person Dexter Blair Running 4515 Feet 5 1/2 Inch Casing; Llano the State Line Looks like a Real Producer.

Normally all drilling wells in the eastern section continue at a normal pace, although no important developments have been recorded during the week, operators will await with interest the developments now under way at the Henderson Dexter Blair well No. 1 in the Maljamar section, SW SW sec. 34-17-33, running 4515 feet of 5 1/2 inch casing in this well will be tested and it is expected that it will be carried further into the coming week.

Time is being made by the Henderson Oil and Gas Co., Leonard well No. 1, in the SE 1/4 sec. 22, now drilling below 3790 feet, reports reaching this office showing that the well had not yet reached this depth could not be determined. The Skelly is also making time on their Lynch No. 1, 22-17-31, drilling below 3790 feet. Frequent breaks are reported from the formation, but aside from that, nothing of importance is reported.

Llano No. 1, Scarborough, across the state line a half mile to the south in block C21, sec. 22, as though New Mexico some of the Winkler county is now being drilled in the bottom of the hole, 3095 feet, many major scouts are of the opinion that the big line was topped at 3085. In a recent test it swabbed 75 barrels in six hours. Prospects are favorable for the well.

Midwest is rigging with a machine at their Terry No. 1, west of the river in the sec. 15-18-26, after drilling Artesian water with a rotary well to a depth of 100 feet, a shallow depth, operators expect that a commercial prospect will be obtained within the next few hundred feet.

Operations are expected to be completed today by the W. A. Stone well, the Hunkel No. 1 in the sec. 25-17-26, after waiting on last page, column 5)

**SCOUT OFFICER HERE**  
Pauline Wherry, national director of the cactus region of the Scout organization, arrived in Artesia today and will meet with the Scout officials this afternoon at the home of Mrs. W. C. Martin. Plans and objects of the organization will be discussed and explained by Wherry.

**BUSINESS HOUSES WILL BE IN OBSERVANCE OF MEMORIAL DAY MON.**  
Business houses will close in observance of Memorial Day. A special program has been arranged for so far as known. A list of stores which will be closed is circulated this week relative to the stores Monday following.

Business houses will close in observance of Memorial Day. A special program has been arranged for so far as known. A list of stores which will be closed is circulated this week relative to the stores Monday following.

## NO BODILY INJURIES ARE SUSTAINED IN CAR ACCIDENT YESTERDAY

An auto collision occurred yesterday afternoon at Eighth and Texas Streets when a Ford coupe driven by Miss Violet Robertson bumped into a Buick sedan driven by Mrs. Col. Williams, as Mrs. Williams was crossing Main street en route home. It is presumed that the occupants of the Ford did not see the approach of the Williams car due to the fact that they were facing the sun. Fortunately no one was injured. The Ford coupe was rather badly used and the Buick was minus a left running board and the left door was also mashed.

## RESCUED BY RADIO IS COMMENCEMENT PLAY GIVEN BY JUNIOR HIGH

Performance of All Star Cast Enjoyed by a Large Audience; Record Number of Eighth Graders Are Given Diplomas.

"Rescued by Radio," the delightful little play given by the Eighth grade at their commencement last Thursday evening, was thoroughly enjoyed by a large audience. It was an "all star" cast, all of the participants acquitting themselves very creditably. The play was full of mystery and thrills, which kept the audience interested as to the final outcome. The humorous part was taken by Marylynne Haley who made a very good irresponsible young sister, and relieved the tension of seriousness running through the story. The teachers of the grade and the class are to be congratulated upon the success of the production. The play was followed by the awarding of diplomas to the class, which numbered fifty-two, a record breaking membership for the 8th grade. The class made a record in another line also—the boys far outnumbered the girls. Also a number of the pupils had received all of their education in the Artesia schools. In the unavoidable absence of C. Bert Smith, who was to have addressed the class, Prof. Reid made a short talk to and about the class. The principal of the Junior High school, Miss Anna McCaw, took occasion in presenting the diplomas, to give some interesting facts about the class, one of which was that the mother of one of the graduates was a schoolmate of her own in the eighth grade. She also voiced the sorrow of herself and the class at the loss of one of their number, Olin Bowman, by drowning, the previous evening.

## SPRING WOOL CLIP IS BEING TRUCKED HERE FOR SHIPMENT

The spring wool clip from the Hope, Artesia and Cottonwood sections is now being loaded out for shipment to eastern markets. Charles G. Sauter, wool buyer of Roswell, has purchased practically all of the clip brought here and is shipping it out direct to the Boston market. Approximately 200 bags of wool have been received here to date, although the total shipment is expected to amount to 1500 bags or more. The shipment this year is of good quality and will be larger than the previous year.

Three shearing crews are working in the Hope section and one or more in the Cottonwood section. Among the sheepmen who are trucking their clip into town are: Jesse Funk of the Cottonwood community, John Plowman, George Teal and Charley Wilburn of the Hope section.

## MORE RED CROSS FUNDS

Local contributions to the Red Cross flood fund are still being received by the Advocate. The total has now passed the \$240.00 mark. This week's report is as follows: Previously reported.....\$230.10 Frank Morrison.....10.00 Total.....\$240.10

## HOPE IMPROVING

Conditions at Hope are reported to be improving, despite the dry weather, which is general over the eastern part of the state. A new garage is going in at Hope, several residents are repairing and repainting their residences and with an adequate supply of water from the Pecos river for irrigation purposes, prospects are reported to be very good for a crop another year.

## "Another Gold Rush"

## ARTESIA OILERS WIN FROM HAGERMAN NINE SUNDAY; SCORE 18-3

The Artesia oilers with improved teamwork and confidence defeated the Hagerman nine Sunday 18 to 3. Archer starting on the mound for Artesia pitched an excellent game for five innings striking out seven Hagerman boys and allowing only two one base hits, field errors let in three runs off Archer but neither was an earned run. Archer was relieved by N. Kyle, who pitched an excellent game for four innings allowing only two one base hits and no runs.

Had the field backed Archer as they did Kyle Artesia would have had one shut out game to their credit.

The Score:

Artesia	A	B	R	H	E
Bullock, s.....	4	4	1	1	1
McClutcheon, 1b.....	6	5	5	0	0
Cotton, lf.....	6	2	3	0	0
Martin, rf.....	6	0	2	0	0
Boren, 2b.....	6	2	3	1	1
Watson, cf.....	4	2	2	0	0
Archer, p.....	3	0	1	0	0
Rhee, c.....	2	0	1	1	0
Harvey, 3b.....	5	2	3	0	0
N. Kyle, p.....	2	0	1	0	0
R. Kyle, c.....	3	1	1	0	0
Total.....	47	18	23	3	3

Summary:

Home runs, Boren and Watson; three base hits, Bullock, Cotton, R. Kyle, Boren; two base hits, McClutcheon, three. Hits off Archer two, Kyle two, Vickers seven and Barnett 16. Struck out by Archer, seven, Kyle none, Vickers two, Barnett seven. Walk on balls, off Archer one, Kyle one, Vickers one. Hit by pitcher, Dozer and Cotton. Winning pitcher Archer. Umpires Bartlett and Buck. Time one hour and fifty-five minutes.

## OILERS TO MEET ROSWELL SUNDAY

The Artesia Oilers will journey to Roswell, Sunday, where they will meet the Roswell baseball nine. The locals are expected to give a good account of themselves and will put forth a mighty effort to bring home the bacon.

## WOODMEN OF THE WORLD

Members of all Woodcraft Camps in the Pecos Valley are making elaborate preparations to attend the District Meet at Roswell, New Mexico, on Friday evening, May 27th, 1927. Ceremonies will begin promptly at 8:00 p. m., at Woodmen Hall No. 123, Roswell.

## ARTESIA BAND IN CONCERT AT CARLSBAD

The Artesia Municipal Band and Orchestra will journey to Carlsbad Monday evening where they will appear in a concert at the Crawford theater. Director Bartlett and members of the band will be accompanied by Mr. and Mrs. O. E. Moore of Dexter, who will assist in the rendition of the program.

## BARON J. V. AURIEMMA IS HERE IN INTEREST OF SALVATION ARMY

Baron J. V. Auriemma, field representative for the Salvation Army in Arizona and New Mexico, arrived in Artesia yesterday and plans to spend several days here in the interest of his organization. Previous to his arrival here Baron Auriemma conducted a successful Salvation Army drive in the south part of the county, at Carlsbad and Loving.

Baron Auriemma or Happy Jim as he is sometimes called, is not a stranger here, having visited Artesia four or five times in the past years in the interest of the Salvation Army, however, it has been about a year and a half since his last visit. His absence from this section he explains, is due to the fact that he spent some four months in the southwest and the Pacific coast on a tour for himself and appeared in concert at some of the leading cities.

The Baron will start his work today and hopes to finish it within a few days. Saturday he will go to Hope, returning to Artesia to take the work again here Monday and Tuesday evening he will appear in a program at the Majestic theater, at which time a free will offering will likely be taken for the Army before closing his work in Artesia. In addition to the free will offering the management of the Majestic will give twenty-five per cent of the gross receipts of the show on that evening to the Army.

The concert given by Baron Auriemma will be entirely new. Three Artesia young ladies will appear on the program, in addition to the other numbers now being arranged. The Misses Elizabeth Gage, Evelyn and Ethelyn Cobble will give three vocal trio numbers.

Practically every one who has been a resident of this section for any length of time, is familiar with the workings of the Salvation Army and the merits of this organization is well known. We are told that the Army has handled several needy cases from Eddy county during the past year and always stands ready to lend assistance to this section whenever the occasion demands.

## TEACHERS LEAVE

Most of the teachers have left for their homes or other points for the summer. Among those who have gone are A. C. LaFollette to his home in Indiana, Miss Detter and Mr. Davis to Kansas, Kenneth Priest to Wisconsin, Miss Jones and Miss Hogue to Carlsbad. Miss Jones is planning to attend summer school at Las Vegas. Miss Easterwood left a few days early for her home at Alpine, Texas, on account of the illness of her father. Miss Harris to Hope and Miss McFadden to Roswell, Mr. and Mrs. Covey to California, Mr. and Mrs. Gittinger to Oklahoma, Miss Merle Malchow left Tuesday with her aunt, Mrs. Bowers and Miss Katherine Bowers for a trip through northern New Mexico and Colorado to their old home in Nebraska. Harold Mehrens will attend the summer school at the Normal University at Las Vegas. His wife and baby will spend the summer there with him. Prof. Reid will be an instructor in the summer school at Montezuma College at Las Vegas. His family will accompany him.

## SANTA FE EXTENDS PARK

The Santa Fe has extended their park to Main street and plans are going forward to beautify the extension with grass and trees.

## CITY COUNCIL PASS A LIQUOR ORDINANCE AT TUESDAY'S MEETING

A new ordinance relative to the sale and manufacture of intoxicating liquors within the town of Artesia was passed by the City Council at a session Tuesday evening and is published in this issue. The new ordinance is intended to strengthen the present state prohibition law and covers some phases of the state law which possibly are not clear.

The ordinance provides for the seizure of any vehicle or equipment used in the manufacture or transportation of intoxicating liquors and also provides a jail sentence or a fine ranging from \$25.00 to \$1000.00, in violation of its provisions.

## HUGH DE AUTREMONT'S NEW TRIAL SET FOR TWENTY-FIFTH OF JUNE

Former Lakewood Lad to Get Another Hearing As Result of Death of Juror In Recent Trial—Witnesses Now Available.

MEDFORD, Ore.—Hugh DeAutremont may face his second trial on charges of murder in connection with the dynamiting of a Southern Pacific mail train in 1923, early next month it appeared yesterday.

Following a conference between attorneys for the defense and Circuit Judge C. M. Thomas, a motion was filed yesterday by the state to advance the date of the trial.

The motion set forth that witnesses were now available and that the state was desirous of giving the youthful defendant a trial at the earliest possible date.

At the request of Chief Defense Attorney Gus Newbury, the court will not set a definite trial date until he has had an opportunity to consult with other defense attorneys.

The date for the second trial of DeAutremont has been set for June 25. The first trial ended several weeks ago when a juror died.

## NEW TELEPHONE LINE TO CARLSBAD NEARLY COMPLETE

A new telephone line is now under construction from Carlsbad to Pecos, Texas. This will give residents of this section a direct connection with the Texas town.

## A GIFT OF BOOKS

Mrs. Wm. McGinn made a handsome gift of twelve volumes on the subject of psychology to the library the past week.

## LAKE ARTHUR BOY IS ACCIDENTALLY SHOT THRU HAND FRIDAY

Sam Derrick, a young man of the Lake Arthur community was accidentally shot through the hand Friday, by a 45 revolver. It is said that Mr. Derrick had gone over to the residence of a neighbor, whose name we did not learn and together with his neighbor was examining the revolver. Both men it appears had their hands near the gun, when it exploded in some manner. The ball passed through the hand of Mr. Derrick's companion first, then through his own hand and grazed his left side, but the wound in the side was not considered serious.

Mr. Derrick received medical attention shortly after the accident and is reported to be getting along nicely.

## MEMORIAL DAY

Memorial Day will be observed by services at the Methodist church next Monday morning at 11 o'clock. The address will be given by Rev. Sinclair, pastor of the Presbyterian church, and there will be special music by a choir composed of singers from the different churches. The exercises will be in charge of the American Legion and the Auxiliary.

## INJURED MAN MOVED TO CARLSBAD HOSPITAL

John Fawkes, who was badly burned in an explosion which occurred south of town last week, has been sent to the Eddy county hospital at Carlsbad for treatment. Ray Crites, who is also suffering from burns received in the explosion has been removed from the Hardwick annex to a private residence in Artesia.

Wedding Invitations and Announcements, engraved or printed—The Advocate.

## The Closing Program for High School Given Friday

Changes in Program Gives Valedictorian Honors to Miss Laverne Schnoor—The Address to Class Given by H. O. Bowden.

Decorated in the class colors of red and white, the stage at the high school auditorium made a very pretty setting last Friday evening for the graduating exercises of the class of 1927, the largest graduating class in the history of the school.

Preliminary to the program Supt. Reid announced a change, made necessary by a ruling of the board some years ago, which had been overlooked, which required the valedictorian to be a member of the Artesia high school during the entire four years course. This gave the honors to Miss LaVerne Schnoor, instead of Miss Delores Higbee, who held the highest grades. This change gave the honors of Salutatorian to Ernest Ohnemus, who ranked third in scholarship. Not having prepared an address Mr. Ohnemus handled the situation ably by making a brief speech of welcome to the audience. Miss Schnoor followed with a fine valedictory address in which among other things she stressed the advancement of women and the increasing importance of her work to the world.

The address to the class was made by Dr. A. O. Bowden, president of the State Teachers' College at Silver City. It was a masterly effort and was both inspirational and constructive in character.

The presentation of diplomas was made by Mr. Eaves, principal of the high school and the awarding of honors for scholarship and attendance throughout all the grades and the prizes for efficiency in the home economics, manual training and commercial departments was made by Supt. Reid. Ernest Ohnemus was chosen by the faculty as the best all-around student in the high school this year. Excellent music was furnished by the Girls' Glee Club, under the direction of the music supervisor, Miss Elizabeth Hogue, and by the orchestra, directed by Mr. Washam, which very pleasingly entertained the audiences at all the entertainments of commencement week.

## POPPY DAY

Saturday is National Poppy Day. The auxiliary will canvas the town and have salespeople on Main street Saturday all day and evening. It is hoped that all will be prepared to buy. Ten cents is the regular price, but larger amounts will be gladly accepted. Remember that the money is used in the rehabilitation program of the organization and in this way you can help, if only a little, some disabled veteran to greater comfort and happiness in life.

## EDDY COUNTY HEALTH DEPARTMENT MAKES REPORT FOR 26 AND 27

The following report is submitted by the Eddy county health department for the year 1926 and a summary of the work accomplished thus far in 1927:

1926: Number live births, 441; stillbirths, 13. Total deaths 193. Causes of death in 1927: Senility, 1; pneumonia 8; cancer 3; post portum hemorrhage, 1; unknown 10; accidental 3; murder 1; tuberculosis 7; epilepsy 1; apoplexy 4; heart 2; acute nephritis 1; intestinal obstruction, 1. The unknown causes of death are cases among the Mexican people who died without having had a physician. Communicable Disease Control: Visits, 26; cases or carriers quarantined, 8. Venereal Disease: Suspects examined, 8, curative treatment, 1; talks made, 8; bulletin distributed, 355; vaccinated against smallpox, 202; sanitary and special inspections, 20. School Work: Children examined, 840; talks and drills, 30; home visits and consultations, 38. Maternity and Infancy: Prenatal and maternity visits, 13; group conferences, 1; infant and preschool visits, 41.

CHARACTERISTICALLY  
AMERICAN

The feat of Captain Charles Lindbergh in spanning the Atlantic in a little more than thirty-three hours is characteristically American. Alone it was a big undertaking and the only factor favoring young Lindbergh was his determination.

The world loves a modest hero; that's what Lindbergh appears to be. He is not only modest and retiring, but he is just a bit shy of the ladies. His attitude is so different from these ran ran boys who wear the bell bottom pants, it is really refreshing.

## THE FREE TEXT BOOK LAW

Whether or not Governor Dillon will convene a special session of the legislature to adopt another text book law remains to be seen, however, he has indicated as much, since the recent law is thought to be unconstitutional. This is one time that we believe the people generally would be satisfied to let the matter rest for two years, even though the Governor has his promise out. A special session at this time under the present conditions would work somewhat of a hardship on the state and the public would be worse off than if no attempt is made to place an adequate text book law on the statute books.

## TO FIGHT THE MOSQUITOES

The Carlsbad City Council and the Eddy county health department have started a fight against the mosquitoes. Every citizen is urged to co-operate by keeping all still water near their places oiled. Those keeping livestock in the city are also urged to keep the corral clean at all times and free from manure. Neglected manure is the favorite place for flies to breed. The health department is anxious to help every town and community in the county in a fight against mosquitoes and flies. Dr. Puckett and representatives from the city council of Carlsbad have been oiling still water along the river and burning the high grass that furnishes shade for the mosquito breeding places.

## VACATION TIME

This is the time we have looked forward to and planned for several months, a real summer vacation, but the ordinary individual has lots of fun planning what he is going to do, but planning is as far as he ever gets, his dreams never materialize. Just the other day we heard an optimist express himself and say that he got more out of life than some of his neighbors because he did go far enough to plan a vacation, which was more than his neighbors had ever done.

Generally our plans turn to naught. The nearer the time comes the further we get away from this vacation idea. The baby swallows a button, or the old cow gets sick, or grandma takes the rheumatism, or a heavy installment on our furniture falls due, or when business is good we are just naturally too busy to leave, or if poor, we are not financially able and so on down the line a thousand and one hindrances pile up, which makes our chances about twenty to one that we will never do what we planned, but just wait we've already had nineteen disappointments and we are looking forward to our twentieth opportunity.

## TAXPAYERS' ASSOCIATION AGAINST FREE TEXT BOOKS

The Taxpayers' Association of New Mexico, through its executive committee, has expressed its opposition to free text books, says a

## FLYER TO GET ALL OF MONEY BACKERS SAY

ST. LOUIS.—"To the victor belong the spoils," is the decision of Harry H. Knight and other sponsors of the New York-to-Paris flight of the "Spirit of St. Louis." They announced Sunday night that Captain Lindbergh will have for his own the \$25,000 check handed him by Raymond Orteig, donor of the prize, and all other money which may accrue to the venture.

Lindbergh's timidity leads the St. Louisians to believe he will waive theatrical contracts. His own \$2,000 was the largest individual contribution to the flight collection, Knight said.

Lindbergh's return to St. Louis will be a gala civic event. Mayor Victor Miller is preparing to call a conference relating to a means of honoring St. Louis' famous son.

## CRUDE STOCKS MADE GREAT GAIN DURING THE MONTH OF APRIL

Pipe line and tank farm gross domestic crude oil stocks east of the Rocky mountains increased 4,111,000 barrels in the month of April, according to returns compiled by the American Petroleum Institute from reports made to it by representative companies. The net change shown by the reporting companies accounts for the increases and decreases in general crude oil stocks, including crude oil in transit, but not producers' stocks.

recent bulletin of the Association.

"As to free text books, even if such a system were otherwise desirable, the present financial ability of the state makes it impossible to consider the project seriously. On account of its cost and difficulties of administration and the probabilities of great waste, we are forced to disapprove any proposal looking toward the institution of a system of free text books. If there are public revenues which are still open to appropriation, such revenues should be used either to decrease the general property tax rate or to meet some more important needs of the state. We believe, however, that adequate provision should be made for supplying text books to all such children without any humiliating attendant circumstances. Such provisions can be made by comparatively little change in our present laws."

In spite of the opposition of the organized taxpayers as thus voiced, the last legislature was induced to pass a free book law providing for a gradual institution of a complete system for the grades below high school. An annual appropriation of \$10,000 was provided for the next two years to furnish text books free for the first two years or grades, it seemed to be assumed all through the session that the idea had been abandoned. Hence in the hurry of the last few days a law was hurriedly prepared which is open to several objections.

The principal consideration to be urged against a system of free text books is that the state cannot afford it. It gives opportunity for great waste, offers many difficulties of administration and violates the principle that government should give service and not things.

A friendly suit was suggested to test the free text book law, but it is now found that a taxpayer cannot bring a suit to enjoin the expenditure of state funds, no matter how illegal the expenditure may be nor how far the law may violate the restrictions of the constitution.

In the so-called "Asplund case" in which it was sought to enjoin Governor Hannett, Warren Graham and Summers Burkhardt from using a legislative appropriation of \$25,000 from the Reservoirs for Irrigation Purposes Income Fund, for initiating and carrying on legal proceedings with Colorado to determine the respective rights of the two states in the waters of the Rio Grande, it was first held the appropriation was "void as not being within the declared purpose of the congressional grant, the source of such fund, and being a breach of the trust declared by Act of Congress approved June 20, 1910 (Enabling Act Section 10 and N. M. Constitution Art. XXI, Sec. 9.)"

After the case had thus been decided upon its merits, the attorney general, Mrs. Wilson, acting for the defendants, asked for and were granted a rehearing and argued for the dismissal of the suit on jurisdictional grounds. In its final decision, the court took the view of the attorney general, the syllabus containing the paragraph: "A taxpayer's interest is not sufficient to invoke the aid of equity, to enjoin state officers from making illegal expenditures of state funds."

From the decision itself, the following is quoted: "Not having found any legal or logical principle to support a taxpayer's suit to enjoin the expenditure of state funds, we are constrained to hold that he has no such right in this state. We hold this view notwithstanding the contrary conclusion of eminent judges and able courts and an apparently increasing tendency to admit the right."

It will be clearly seen that the Supreme Court decision will prevent anyone bringing a suit as a taxpayer to test the so-called "free text book law" of the 1927 legislature.

## PICKED UP ON MAIN

G. U. McCrary says that this hot weather has the same effect on man as it does the south Texas snake, makes them both want to fight and bite.

It would take an awful brave bull frog to make a noise now.

We've just decided to let the weather man have his way.

And speaking of the weather, E. C. Higgins says that we'll likely have rain long about equinox, which all reminds us that Hig may be a good weather prophet, but is a poor consoler.

A. C. Kimbrough says that he has scraps for supper, but not seeing any marks of violence about his person, friends of A. C. have concluded that he must have meant food scraps instead of physical encounters.

Henry Eckles writes from China that despite the barrage laid down by non-participating nations, the Chinese are still threatening to take the city.

Hobe Turner writes from Chicago that the bootleggers have landed and have the situation well in hand.

Scotty MacPherson went over to the hot springs the other day to boil a pot of coffee.

Miss Goldie Boone had the hem of her skirt torn by a giraffe at the circus Tuesday.

Rattlesnake Ike's bootleg emporium was raided by officers Saturday night and twenty quarts were consumed.

The City Market has been besieged with women since that announcement last week that Ed Conner had offered a choice beef kidney for the person who cast a vote for him in the recent school trustee election. It looks like there might have been a thousand Conner votes more or less. And this may bring on a contest and maybe a scandal.

## PANORAMA

Scanty skirts and skinny legs; Painted profiles, checkered "pegs," Painted pumps and purple sox, Stilted strutting, sheared lox. All are seen upon the street. They make the scenery complete. —Clovis News.

## DID YOU EVER STOP TO THINK?

By E. R. Waite

George T. Cameron, publisher of the San Francisco Chronicle, says: THAT did you ever stop to think that when the days come when you shall measure your achievement in this world that the kindly helping hand to others, that the good deeds done will be the reward for your life's work? All that you have of worldly gain you must leave behind that others might enjoy it.

Give this some thought in your daily toil, and as power and wealth accumulate, deal softly with those less fortunate, help those who need help as others would have helped you did you need it.

Give to them some of that which is yours each day, stepping contentedly into old age with life's work well done.

## "INSIDE" INFORMATION

Do you know Farmers' Bulletin 1449-F, Selection of Cotton Fabrics? When planning your summer wardrobe and the children's spring dresses, you will find it a help in choosing durable, satisfactory materials.

Always iron with the thread of the goods, and iron until the garment is dry. Ootherwise it will pucker. To remove the shiny gloss on hems, tucks or seams, moisten a piece of soft cloth in clear water, wring it dry, and wipe it quickly over the shiny surface.

Jelly that didn't "jell" can be used in many ways. As a spread or sauce for pancakes; as a filling for whole stewed or baked apples; in pastry or tart shells, garnished with whipped cream; in jelly roll; in lamb or mutton gravy, if tart; as a foundation for fruit punch.

Jellied prunes are made with gelatin, in the same way as any jellied fresh fruit. Use the water the prunes were cooked in, adding a little lemon juice to tone up the prunes, and allow one envelope or ounce of gelatin to each three and a half cups of liquid. As with other jellied fruits, a trifle less liquid is needed than usual because of the presence of the solid pieces of fruit. A few pecan or walnut meats scattered through this dessert make it extra good.

Do you need distillate? Call 179F3. 12-16-tfc-61

# How to Play BRIDGE

A new series of lessons by Wynne Ferguson  
Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 31

It is usually good practice to pass a trump bid when you have the lead; if you have such a strong hand you have a good chance for game. Then, again, there are cases where the defense is doubtful where the defense is doubtful where the defense is doubtful.

How can Y-Z so play the hand that he wins all of the tricks against any defense? Solution in the next article.

## THREE BANK ROBBERS ARE SENTENCED BY JUDGE CHAS. R. BRICE

PORTALES.—Jack Dyer, Norman Akin, and A. F. Lemon, confessed robbers of the First National Bank of Elida, were sentenced to 25 to 30 years in the state penitentiary by Judge Charles R. Brice, sitting for Judge Carl Hatch here Tuesday night.

The three pleaded guilty and threw themselves on the mercy of the court. They were transported to the penitentiary Friday morning. The Elida bank was robbed of more than \$3,000 by Dyer, Akin, and Lemon on April 22.

## How to Play BRIDGE

call for the erection of about four buildings, and equipment modern and efficient and will cost \$300.00, are being donated by Will Purdy of the Purdy Furniture Company.

Fourteen bunk houses are to be erected, each to be 12 by 14 feet, equipped with beds, lockers, etc., to accommodate eight boys. These buildings will have hinged shutters above the beds, in front and back, so as to permit of plenty of air and sunshine when opened and in inclement weather when closed the boys under a good roof and upon a wood floor with good beds will be well protected. These bunk houses to cost \$100.00 each equipped are also being donated by towns, individuals and firms. To date Carlsbad has subscribed one bunk house and promised another; Hagerman, New Mexico, one and Dexter, New Mexico, one; Judge Hamlin of Texico, New Mexico one; C. C. Cagle and Carl McNally, of Roswell also are each donating a bunk house. This leaves nine bunk houses yet to be subscribed for. Will Vandeward is erecting a cook's quarters, and last but not least Carl M. Einhart who many grateful people have reason to know is an adept at this sort of work has taken over the erection of the swimming pool. The pool will be 20 feet wide by 45 feet long with a water depth of from four to ten feet, with a three foot plank walk around it, diving board, chutes and all necessary equipment.

It is hoped that time will permit of some landscaping around the buildings before camp starts, and the completion of a little lake slightly in front and in the center of the two main buildings, which are to be placed 130 feet apart. A 40 foot flag pole will be erected just in front of this pond.

The road conditions to the area in which the Boy Scout camp is located are fast improving. At the present time one goes by the way of Artesia, Hope, Y. O. Crossing and Elk, thence through Mule Canyon and the beautiful panoramic McDonald Mesa into Weed, New Mexico. The camp is in Potato Canyon eleven miles west of Weed, and one mile and a half across the ridge from Spring Canyon, where the Spring Canyon club organized by George B. Jewett has its cabins on a beautiful 160 acre tract.

The state has just completed two projects on the road leading to the camp, which is a state highway. At the Y. O. Crossing and Laramore Crossings fourteen miles apart the road has been built along the north side of the Penasco river, doing away with the eight crossings heretofore at these places. At the present time Mr. Gregg, state road man, in conjunction with the county commissioners is making a good road to Y. O. Crossing from Roswell which cuts off thirty-five miles of the distance and makes the distance to the camp direct from Roswell approximately 103 miles. It is expected that the state will match the \$3,500.00 appropriated by the county commissioners to build this road, and upon its completion in the fall will resume work along the Penasco connecting up the two projects at Y. O. and Laramore Crossing and carrying on up to the Otero County line so the road will connect with the forest service road through Mayhill and James Canyon to Clouderoft.

One may also reach the camp by way of the Ruidoso, Mescalero and Clouderoft or return that way. The road from Weed, New Mexico, to Clouderoft is also a state highway. This road was built by the forest service and is an excellent mountain road, and can be used without danger in any weather. It traverses the beautiful McCune and Cox Canyon through a rich farming country, where an abundance of potatoes, cauliflower, cabbage and the like are raised, and from Weed into Clouderoft the grade is such as will permit easy running in high gear. The road from Clouderoft to Mescalero has also been much improved during the winter, and surfaced in spots, and a new hillside road built where the old road traversed along the lumber camp at the bottom of the canyon which at times became very muddy. This is a beautiful scenic stretch and opens to view the great lumber camps upon the Indian Reservation. It is worth the trip at the present time alone to see the thousands of logs which cover the hillsides and are piled deep at places in the canyon for a stretch of over a mile—logs that will be cut during the summer months into hundreds of feet of lumber. From Mescalero of course is the beautiful scene highway through the Ruidoso country into Roswell.

There are no hotel accommodations for visitors at this time near the Scout camp other than the hotel at Weed, which can take care of about ten people. However, it is expected that accommodations of this kind will soon be available, as many visitors to this section of the country are expected.

Alvin Bridges of Clovis, president

## How to Play BRIDGE

trump. His partner, B, would bid two spades with the following hand:  
 Hearts—7, 6, 2  
 Clubs—Q, 10, 9, 5  
 Diamonds—K  
 Spades—Q, 8, 7, 6, 5

All would pass and A-B would score game at spades. If A passed, all would pass and A would lose game if he opened his heart suit. With the spade opening, of course, he would save game. These three hands are typical examples of the hands that should be bid over a no-trump on right.

The following problem hands were given in the preceding article as examples of the take-out:

## For Your Decoration Day Trip and All Season—Enjoy the Safety, Comfort and Economy of Firestone GUM-DIPPED TIRES

Note balanced tread with even wear—no excess or wasted rubber. Flexes freely with Gum-Dipped carcass—easier riding—easier steering.

No ply separation or "shoulder breaks"—extraordinary mileage. Has trade-in value, or can be re-treaded to give additional thousands of miles.

"Built for Service"

### Firestone Round Tread Balloon

MANY Firestone Dealers are prepared to take in your old tires, offering you a liberal allowance on a new set of Gum-Dipped Balloons.

Firestone Dealers are given the advantages of attending Tire Educational Meetings held throughout the country, where tire design and construction are discussed. The sections of used tires reproduced here are a part of this program. Study these two sections and you, too, will understand what Firestone means by tires built for service and tires made to sell.

Note unbalanced tread with uneven wear—excess rubber at shoulders wasted, stiffening tire, making it harder riding and harder steering.

Note how hinging action at heavy shoulder causes ply separation and broken carcass.

"Made to Sell"

### Flat Tread Balloon

The Firestone Gum-Dipped Balloon with its scientifically designed tread permits free flexing, easier riding, extra comfort and safety.

The balloon tire with heavy, flat tread design is obviously stiffer and rides harder. The excess rubber, placed for appearance at the edges of the tread, is not only wasted but produces hinging action causing ply separation and "shoulder breaks."

Firestone designed and manufactures Oldfield Tires and Tubes, distributing them direct to Firestone Dealers only, through 148 Factory Warehouses. This efficient and economical distribution assures tire buyers everywhere, clean, fresh stocks of Firestone and Oldfield Tires in all types and sizes, and has helped to make possible today's remarkably low prices—the lowest in tire history. See the Firestone Dealer today.

## IS PROGRESSING ON BOY SCOUT CAMP IN SACRAMENTOS

(Roswell Record)

Executive Huffman accompanied by Frank Crane of Dexter, of the Area Camp committee from the Boy Scout of the Sacramento mountains and reported that the erection of the buildings was progressing nicely.

Huffman being very busy at other details connected with the camp, and if anyone thinks it is a snap, providing an and recreational program daily menu for three squares for thirty days for 100 informants, play hungry, chuck boys—Daddy Pope and Mr. Jewett—let him try it.

Mr. Jewett is assisting in the construction work, a week ago Sunday taking Mr. Tom Everman, local man, and his son Lem. These are being assisted by W. F. Robertson, of Weed, New Mexico, staff, under Mr. Everman's direction, are erecting the building which was delayed four days of making some improvements on the road up Potato Canyon to ease the passage of the trucks from Roswell. It is the plan of Mr. Robertson and his teams for these boys, and these men together with others of the mountain-build a road similar to the Spring Canyon, donating this which would cost the Scout several hundred dollars if paid for.

The cooperation of Mr. Everman, Otero County Commissioner, and Mr. Boone, forest warden, a beautiful site about fifteen cabins, is being widened, and work will be started before camp starts. The camp also helped on this amounting \$200.00.

Large trucks with trailers, a load of 7500 pounds each

# BALANCED MEALS FOR LITTLE TOTS

By CAROLINE B. KING  
Culinary expert and lecturer on household science.

**BREAKFASTS**  
Prune Cup  
Dran Breakfast Food Top Milk  
Coddled Eggs  
Whole Wheat Bread and Butter  
Milk or Cocoa  
Orange Juice  
Oatmeal with Prunes  
Creamed Codfish  
Dran Muffins  
Milk or Cocoa  
Prune Juice  
Milk Toast Scrambled Egg  
Milk or Cocoa

**ONE O'CLOCK DINNERS**  
Broiled Meat Cakes  
Mashed Potatoes  
Buttered Carrots  
Lettuce Sandwiches  
Apple Snow  
Broiled Lamb Chop  
Baked Potato  
Spinach in Cream Sauce  
With Egg Garnish  
Ambrosia  
Broiled Fish  
Boiled Rice with Tomato Sauce  
String Bean Salad  
Baked Apple with Cream

**SUPPERS**  
Chicken Soup  
Toast Squares  
Apple Sauce  
Cup Cake  
Milk  
Poached Egg on Toast  
Prune Betty Cream  
Milk  
Vegetable Platter  
Bread and Butter Fingers  
Stewed or Canned Fruit

### Prune Cup

Cut well cooked prunes in small pieces, removing stones, and mix with bits of shredded orange and pineapple. Add a tablespoonful of the orange and pineapple juice to the prune juice, and pour over the fruit. Serve cold in sherbet cups.

### Broiled Meat Cakes

Select a piece of beef from the top of the round, have it chopped or scraped very fine, season it tastily but not too highly, and make lightly into cakes. Heat the broiler, brush a little butter over it, and arrange the meat cakes on it. Broil quickly, place on a hot platter, dot with butter and serve.

### Apple Snow

Bake a tart apple until tender and fluffy. Scrape out the pulp and sweeten lightly. Whip the white of one egg to a stiff froth, and fold in the apple pulp. Beat for a moment, then pile into a small dish and set away to cool. Serve with a little sweet cream or custard.

### Prune Juice

Soak well washed prunes for an hour, or longer, in twice their quantity of water. Cook till very tender in the same water, adding sugar to taste. When finished, drain well, and to the juice add enough orange juice to flavor slightly. Chill and serve in tiny glasses. Reserve the prunes for making the Prune Betty.

### Spinach in Cream Sauce

Wash the spinach through several waters, then cook in as little water as possible fifteen minutes. Drain, and run through the food chopper. To each cup of spinach make one-half cupful of white sauce, mix together and season nicely. Then place a slice of hard boiled egg at the bottom of a small ramakin, fill with the spinach, and scatter brown buttered crumbs over the top, garnish with a star cut from hard cooked egg white.

### Vegetable Platter

Arrange on a serving plate, spoonfuls of mashed potatoes, cooked and well seasoned peas, buttered carrots, and spinach, taking care to make the colors harmonize attractively. With a little sprig of water cress in the center of the plate, and a triangle of bread and butter at the side, this supper will appeal to any child.

### Prune Betty

Remove the pits from a dozen stewed prunes, and chop the pulp finely. In the bottom of a small baking dish, previously buttered, arrange a thin layer of soft bread crumbs. Dot with tiny bits of butter, sprinkle with sugar and just a suspicion of cinnamon. Cover with a layer of prunes, proceed in this way until the dish is full. Pour half a cup of hot prune juice over all, cover and bake twenty minutes, then remove cover and brown—serve warm or cold with cream.

## PANKEY ENJOINED FROM CANCELING GRAZING LEASE ON RANCHES

Suit to enjoin Land Commissioner Pankey, from cancelling a five year lease on 132,436 acres was filed at Santa Fe Friday by the Merchant Livestock company of Carlsbad.

The cattle company claims that former Land Commissioner Nels Field executed the lease to the company in 1922, that the company signed four promissory notes, each for \$3,973, the three of them after the first one payable on October 1, 1923-24 and '25. But they claim he made a mistake by filling out the 1926 note for \$6,621 at a rate of five cents an acre altho the contract agreement was for a rate of three cents an acre.

When this last note fell due on October 1, 1926 the company claims it paid \$3,973 and that amount was credited by former Commissioner Swope. On April 28, 1927, they assert that Commissioner Pankey served notice that unless the full amount of the note was paid their lease would be cancelled.

Such cancellation, the company claims, would compel it to sell at a loss the large number of cattle grazing on the leased land, and they would be unable to sue the commissioner or the state to recover damages.

### VACATION BIBLE SCHOOL

The proposal of a daily vacation Bible school in Artesia is meeting with excellent reception on the part of both children and adults. Many inquiries are being received concerning various features of the school. The ages to be included in the student-body are five to twelve. The grouping in classes will be: Last year beginners—those who will start to school this fall. First year primary—those who are in the first grade of public school work. Second year primary—those in the second grade. Third year primary—those in third grade. First year junior—those in fourth grade. Second year junior—those in fifth grade. Third year junior—this in fifth grade. The beginners and primaries will meet at the Methodist church and the juniors at the Presbyterian church. Enrollment is restricted to the above ages, but the enrollment is open to the entire community.

A splendid faculty has been enlisted. Mrs. Woods will be in charge of the beginners class which holds its sessions in the cradle roll department of the Methodist church. Rev. C. C. Higbee, Mrs. Price Gittinger, Misses Delores Higbee, Helen Bullock and Lois Gable will be in charge of the primary grades, which meet in the primary department of the Methodist church. Rev. John P. Sinclair, Mesdames J. Montgomery, Chester Russell and I. C. Dixon will be in charge of the junior grades, which meet in the primary department of the Presbyterian church. The pastors of the cooperating churches will be the executives of the respective buildings and lead the worship services. Miss Delores Higbee will be secretary at the Methodist church, Mrs. Price Gittinger will have charge of dramatization, Miss Helen Bullock, director of music, and Miss Lois Gable, director of games. Rev. Sinclair will teach a class in

James Nugent	C. A. Meyers
Continental Sup. Co.	Kim Sigler

### NOTICE!

Please do not send money in an envelope for subscriptions—it is liable to be lost—send a money order or check.

In addition to his executive duties and Rev. Higbee will have general supervision of manual training work at both buildings.

The only expense to the pupils who take training in the school will be for materials which they use and which become their own when the work is completed. The beginners and primary pupils will each want a mounting book, which costs twenty-five cents. The juniors will use a uniform note-book, ten and eighteen cents, depending on the year. Each class will be supplied a set of cut-out pictures, the price of the set will be divided among the pupils of the class. These pictures they paste in their mounting books. Teachers' text books and other permanent supplies will be furnished by the two churches and will be retained for use in subsequent years. The funds for this item will be raised by a free-will offering at a public Commencement program, when the pupils will demonstrate what they have learned and exhibit the craft-work accomplished.

When we think how pitifully inadequate are our present efforts at religious education; consider that in this five weeks our boys and girls will receive more time in Christian training than in four years in the Sunday school; weigh the advantages of consecutive study as contrasted with one lesson once a week, etc. And when we see the wonderful advancement we are making in mental and material lines, contrasted with our retrogression in the line of crime, immorality and divorce, which threaten our civilization, who does not stand ready to grasp the opportunity afforded in this Vacation Bible school and lend every possible co-operation in making it a marked success.

### NOTICE OF FORECLOSURE SALE

In the District Court of Eddy County, New Mexico.

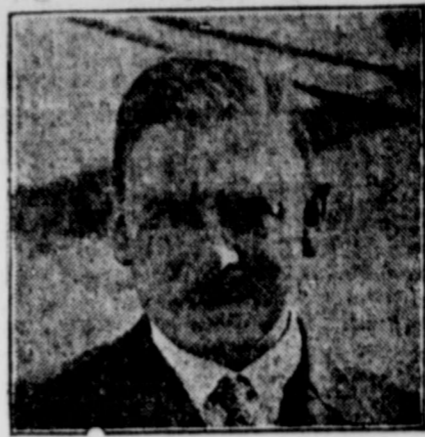

FRICK-REID SUPPLY COMPANY, a corporation, Plaintiff, Vs. ANNA L. BLOCK, Defendant. No. 4365.

WHEREAS, by virtue of a final judgment and decree rendered and entered by the District Court of Eddy County, New Mexico, in the above entitled and numbered cause, on the 30th day of March, 1927, the above named defendant was found and adjudged to be indebted to the above named plaintiff, in the sum of \$3488.64, which includes attorneys fees, said amount of \$3488.64 to draw interest at the rate of 6% per annum from March 30, 1927 until paid, in addition to cost accrued and to accrue, and,

WHEREAS, said indebtedness was for machinery, tools and supplies furnished, delivered and used on the Southwest quarter of the Northwest quarter (SW NW) of Section 17, Township 18 South, Range 28 East, Eddy County, New Mexico, and,

WHEREAS, plaintiff filed its claim for lien within the time required by law and same was duly recorded in Book 3 at page 195 of the records of liens of Eddy County, New Mexico on the 14th day of July, 1926, and whereas the Court found that plaintiff has a valid and existing first lien against the herein-after described property, and

WHEREAS, the Court Ordered, Adjudged and Decree that plaintiff's said lien be foreclosed and the property sold by Special Master appointed by the Court, as provided by law and according to the rules and practice of the Court, or so much thereof as is necessary to satisfy plaintiff's judgment, said property

### "MASTER OF LANGUAGES" HERE TO STUDY IN AMERICA

NEW YORK—Captain Poul J. Mantoux, famous master of languages, who, as official interpreter at the Versailles Conference was the medium of communication of Clemenceau, Oriando, Lloyd George and President Wilson, arrived here today on board the S. S. Acquafana. He is now director of the Institute of Higher International Studies and is here to study America as a part of a world tour.

to be sold to the highest bidder for cash, and

WHEREAS, by said Judgment and Decree, the undersigned, was appointed Special Master, and was authorized and directed to make sale of said property or so much thereof as is necessary to satisfy plaintiff's judgment, including attorneys fees, cost of suit and foreclosure sale.

NOW THEREFORE, I, A. L. Allinger, heretofore appointed Special Master, hereby give public notice, that on the 24th day of June, 1927, at the hour of 3 o'clock P. M. of that day, I will proceed to sell, at public auction, at the front door of the First National Bank of Artesia, New Mexico, to the highest and best bidder for cash, the following described leasehold estate and other property situated in Eddy County, New Mexico, to-wit:

The Southwest quarter of the Northwest quarter (SW NW) of Sec. 17, Township 18 South, Range 28 East, in Eddy County, New Mexico, and that certain Oil and Gas well located on said land, including all casing therein, the pipes used in connection with the drilling of said well, all tanks, piping, tools, cables, pumps, drilling machines and machinery of every description, connected therewith or located upon said land, together with the 30 Horse Power Reid Gas Engine with force feed oilers and cut off clutch using camel hair belting, installed in the 22' x 72' building with 8' walls and two sliding doors, 6 four light windows, concrete floor and bull pen, and all other material and supplies shown in the itemized statement to plaintiff's claim for lien, which is of record in Book 3 at page 195 of the records of Liens of Eddy County, New Mexico and reference is hereby made for the particulars thereof.

All bids must be without conditions or reservations, and each bidder must deposit with me, as Special Master, a certified check drawn on some well known Bank, payable to A. L. Allinger, Special Master, in the sum of \$500.00. All checks of unsuccessful bidders will be promptly returned to them immediately after the sale of said property, but the \$500.00 check of the successful bidder will be retained by me until the sale is approved by the Court and will be credited on his said bid, but if he fails to take the property and pay the balance of his said bid, then his said \$500.00 check will be forfeited to the plaintiff, and said sale will be declared null and void.

Given under my hand as Special Master, the 24th day of May, 1927. A. L. ALLINGER, Special Master.

# Holstein Milk

INSURES THE HEALTH OF YOUR CHILD

Sometimes when breeders of Holsteins say "milk from our breed of cattle is better for children," people think they are speaking from prejudice and without knowledge of facts, however, an abundance of testimonials from leading physicians, who have made a life time study of infant feeding, bear out our conclusions.

Holstein milk does not contain excessive fat although some people using other milk have tried to remedy the excessive fat content by removing some of the top milk before giving it to the child. This of course breaks up the proper relationship between the fats, mineral and protein.

### BOILED BEEF AND—

Note: This is one of a series of cooking articles by 6 famous cooks exclusively in this paper. The way to a man's heart is through his stomach, surely the easiest way is to cook him corned beef and cabbage. That holds true for pretty nearly every man, except, of course, the dyspeptic, who is always hard to suit. Corned beef and cabbage are more delicious than in New England, with a few additional spices, it makes its appearance as the "boiled dinner."

### What Flavor!

The boiled dinner enthusiast says you have excellent flavors are," says Miss Lucy Allen, head of the Boston School of Cookery. "I delight in the boiled dinner, corned beef with cabbage, carrots, potatoes, and carrots. All but the beets I like the same kettle."

### How to Buy

When you can get a more piece of meat if you buy a pound brisket. Ask the butcher for a coarse salt and keep it a few days. Sometimes the fibers of meat get too long in brine get very large kettle. Put in a cover with boiling water. Corned beef has been soaking in brine, start cooking it in a large kettle. Boil for five minutes. Remove the heat and let it cook for two or three hours.

### Add the Vegetables

Cabbage which has been cut into quarters. Then add turnips, whole if small, large, and the carrots or cut into two-inch lengths. Boil beets thoroughly, and put in a separate kettle, covered with water. An hour before serving add potatoes to the large kettle. Process of the dinner depends on each article perfectly and not overdone.

### To Serve

In New England this dinner is served by placing the meat on a large platter, and all the vegetables except the beets around the meat. The beets are served in a separate dish. This is a most delicious and filling dessert is a custard or pudding, as these are not to be served with this substance.

### Golden Gate Custard

A recipe contributed by Mrs. B. B. Vaughn, director of the Los Angeles Evening News, comes the recipe for Golden Gate custard. 1 cup orange rind, 1 egg separated, 1 cup sugar, 1/2 cup milk, 1/2 cup orange juice, 1/2 cup water, 1/2 cup flour, 1/2 cup salt, 1/2 cup butter, 1/2 cup oil, 1/2 cup vanilla, 1/2 cup raisins, 1/2 cup nuts, 1/2 cup almonds, 1/2 cup walnuts, 1/2 cup pecans, 1/2 cup cashews, 1/2 cup hazelnuts, 1/2 cup pistachios, 1/2 cup macadamia nuts, 1/2 cup Brazil nuts, 1/2 cup pineapples, 1/2 cup mangoes, 1/2 cup guavas, 1/2 cup papayas, 1/2 cup kiwis, 1/2 cup avocados, 1/2 cup olives, 1/2 cup capers, 1/2 cup anchovies, 1/2 cup sardines, 1/2 cup mackerel, 1/2 cup herring, 1/2 cup salmon, 1/2 cup trout, 1/2 cup cod, 1/2 cup haddock, 1/2 cup plaice, 1/2 cup sole, 1/2 cup flounder, 1/2 cup rockfish, 1/2 cup sea bream, 1/2 cup sea bass, 1/2 cup sea perch, 1/2 cup sea trout, 1/2 cup sea herring, 1/2 cup sea mackerel, 1/2 cup sea sardines, 1/2 cup sea anchovies, 1/2 cup sea capers, 1/2 cup sea olives, 1/2 cup sea pickles, 1/2 cup sea preserves, 1/2 cup sea jams, 1/2 cup sea jellies, 1/2 cup sea marmalades, 1/2 cup sea preserves, 1/2 cup sea jams, 1/2 cup sea jellies, 1/2 cup sea marmalades.

### Rice Pudding

Mrs. Kate B. Vaughn, director of the Los Angeles Evening News, comes the recipe for Rice Pudding. 1 cup rice, 2 cups water, 1/2 cup milk, 1/2 cup sugar, 1/2 cup salt, 1/2 cup butter, 1/2 cup oil, 1/2 cup vanilla, 1/2 cup raisins, 1/2 cup nuts, 1/2 cup almonds, 1/2 cup walnuts, 1/2 cup pecans, 1/2 cup cashews, 1/2 cup hazelnuts, 1/2 cup pistachios, 1/2 cup macadamia nuts, 1/2 cup Brazil nuts, 1/2 cup pineapples, 1/2 cup mangoes, 1/2 cup guavas, 1/2 cup papayas, 1/2 cup kiwis, 1/2 cup avocados, 1/2 cup olives, 1/2 cup capers, 1/2 cup anchovies, 1/2 cup sardines, 1/2 cup mackerel, 1/2 cup herring, 1/2 cup salmon, 1/2 cup trout, 1/2 cup cod, 1/2 cup haddock, 1/2 cup plaice, 1/2 cup sole, 1/2 cup flounder, 1/2 cup rockfish, 1/2 cup sea bream, 1/2 cup sea bass, 1/2 cup sea perch, 1/2 cup sea trout, 1/2 cup sea herring, 1/2 cup sea mackerel, 1/2 cup sea sardines, 1/2 cup sea anchovies, 1/2 cup sea capers, 1/2 cup sea olives, 1/2 cup sea pickles, 1/2 cup sea preserves, 1/2 cup sea jams, 1/2 cup sea jellies, 1/2 cup sea marmalades.

### Boiled Dinner

Boiled dinner is a splendid strong toaster the market which gives extra satisfaction on gas, oil, and electric stoves. This blue-enameled toaster makes four pieces of toast at a time. Its handle is hot. You'll see it displayed at most hardware stores.

## MIDLAND WANTS A HIGHWAY TO LEA COUNTY OIL FIELDS

The Midland Chamber of Commerce is agitating the question of a highway from that place to the Lea county oil fields. They want a road to connect with that city and the southern side of Lea county. From there it is their desire to connect with a highway running north and south through this county.

Such a highway would not only afford them connection with the oil fields, but would give almost a direct route to the Carlsbad Cavern. This road ought to be built, and we believe the people of Lea county will do everything possible in assisting with the work.

This is a part of the plan for which a bond issue was asked a few weeks ago. Under this proposition a highway was to be opened up all the way through the county from north to south, running through Tatum, Lovington, Monument, Eunice and Jal and on the state line.

There is no doubt that a highway is needed now through the southern part of the county and with the oil developments which are now promised in that part of the country it will become a necessity.

By all means, let us have some good roads in Lea county. And the only way that now seems possible to obtain them is by a bond issue. But before this can be voted the voters must be assured that the money will be expended in each precinct in proportion to the amount of the taxes that precinct must pay upon these bonds.—Lovington Leader.

## FARMINGTON GIRL WINS

CHICAGO, ILL.—Miss Dyvena Stiles, Farmington, high school girl, has won the championship of the state in the fourth national meat story contest. Her story was selected by a committee of prominent home economics women as the best of many submitted in that state. This announcement was made last week by the National Live Stock and Meat Board, sponsor of the contest.

Miss Stiles is a sophomore in the Farmington high school. The title of her story was "Polly Learns About Meat and Its Relation to Health." More than 13,500 high school girls from every state are said to have competed.

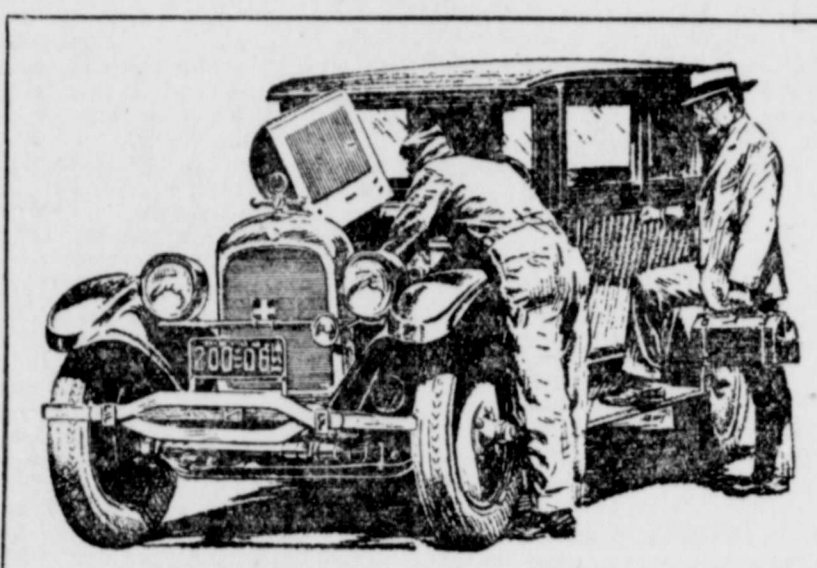

## INLAND OIL COMPANY ENTERS SEVEN LAKES FIELD

The Inland Oil corporation, a New Mexico Oil corporation, will spud in its first well in the Seven Lakes field, McKinley county, this week, according to R. C. Sudbury, president.

The location for the first well is the northwest quarter of the northwest quarter of section 22, township 18 north, range 10 west.

Drilling machinery for the first test has already been erected on the site and actual drilling will commence Tuesday. Several tests will be drilled by the corporation within a very short time, Mr. Sudbury said.

If you are not already a subscriber to The Advocate write or telephone us this week. Get on the list and receive the "Newsy" newspaper regularly.

**"Well, Doctor, we're specialists, too . . . Automobile nerves specialists!"**

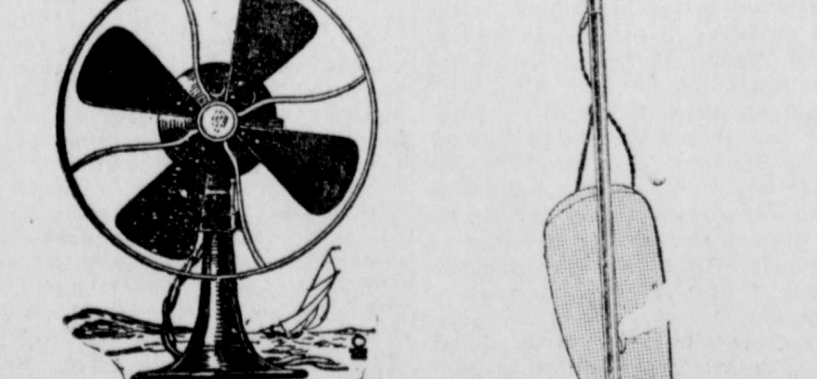

Just as you would call in a specialist in the event of a nervous disorder, so should you drive your car to this Authorized Electrical Service station of United Motors when the electrical system needs attention.

## IN SOCIETY

### Social Calendar

TELEPHONE 217

**SATURDAY**  
Sale of Poppies by the American Legion Auxiliary.

**MONDAY**  
Memorial Day services at the Methodist church at 11 a. m.

**THURSDAY**  
The Presbyterian Aid Society will meet at the church at 2:30 p. m.  
The Methodist Missionary Society will meet with Mrs. J. S. Sharp at 2:30 p. m.

**MISSIONARY SOCIETY**  
The Methodist Missionary Society held its literary meeting at the home of Mrs. A. H. Crandall last Thursday afternoon. Under the leadership of Mrs. Kinder a very interesting study of the value of the child and the importance of its proper training was given. The Bulletin of Missionary News devoted considerable attention to the discussion of plans for Jubilee year in Missions—1928. Mrs. Allinger resigned as superintendent of young people's work and Mrs. Sidwell was elected to fill the vacancy. Little Natalie Kinder favored the Society with a song in lieu of the play which the Children's Missionary Society had prepared to give, but had to postpone on account of mumps developing among the principals. The hostess served delicious refreshments consisting of a salad and an ice course.

**SLUMBER PARTY**  
Ten young girls enjoyed a "slumber party" at the home of the Misses Lois and Loraine Gable last Friday night. They had a thrilling time sleeping out under the stars on the roof at the Gable home and were keen for breakfast in the early morning. The girls on the party were Elsie Dell Beckett, Ruth Bigler, Mary Jackson, Edna Bullock, Inez Buchanan, Jennie Beth Bishop, Lola Gray, La Rue Mann, and the two hostesses.

**MRS. AUSTIN HONORED**  
Mrs. Cash Austin, of Farmington was the honor guest at a dinner given by Mrs. E. T. Jernigan at twelve o'clock last Friday. The guest list included Mrs. Austin, Mrs. Jeff Hightower, Miss "Jack" Hightower, Miss Deter and Mrs. Harry Hunton of Roswell.

**SURPRISE "SHOWER"**  
After the business session of the Rebekah lodge last Monday evening a large box was brought in and placed at the feet of Mrs. Gene Rowland by the Misses Velma Smith and Hazel Bynum. The young ladies began to unload the box before Mrs. Rowland "caught on" that this was a "shower," given her by her sister lodge members. It consisted of miscellaneous articles intended to replace in a measure, those destroyed in the burning of her home a short time ago. The serving of punch and a social time was part of the festivities connected with the "shower."

**THE FIREBOYS ENTERTAIN AND ARE ENTERTAINED**  
Monday evening the fire boys were the guests of the house at the Majestic theatre. The boys included the telephone girls, who are a vital part of their success in fighting fires, in their outing. They took the young ladies to the theatre in the fire truck and did them the honor of allowing them to wear their fire hats. All report the evening a very enjoyable one.

**CARLSBAD COUPLE MARRIED HERE**  
Kenneth M. Davis and Miss Nadine Hughes, both of Carlsbad, were married at the Methodist parsonage last evening by the Rev. C. C. Higbee. The young couple were accompanied by the groom's mother and brother, Mrs. M. L. Davis and Ray V. Davis and the bride's mother, Mrs. Margaret Hughes.

Mrs. Davis is the young lady who took first place in the novice class in the speed typing contest at Carlsbad recently.

Mr. and Mrs. Philip Thomas expect to leave next Wednesday for their old home in Indiana to remain. Mr. and Mrs. Thomas have been long time citizens of Artesia and will leave many here to whom their going is a personal loss, and who extend to them best wishes for health and happiness in their old home place.

Mrs. Willie Choate, who has been teaching at Loving and Miss Mabel Vowell, teacher at Lakewood, came to Artesia Saturday and are keeping house in Mrs. Choate's cottage in the west part of town for a short time. Mrs. Choate is planning to attend summer school at the Normal University at Las Vegas and Miss Vowell will take a trip later.

Advocate want ads get results.

## LOCALS

Howard Stroup is visiting Lowell Hoffman in Alamogordo.

Mrs. Van Welch and son, Jimmie, left Sunday for Robinson, Illinois.

Mr. and Mrs. M. W. Evans made a business trip to Roswell yesterday.

Mrs. Glenn Sharp, who has been severely ill the past week is improving.

Lewis Story and wife and little daughter, Wanda, motored to Roswell Tuesday.

Bryant Williams, of Hope, was attending to business matters here Tuesday afternoon.

Mr. and Mrs. Bob Caraway spent Sunday with Mrs. Caraway's sister and family in Roswell.

Mrs. Agnes Murray, Miss Leota Pettus, Robert Feemster and Fred Henderson visited the Carlsbad Cavens yesterday.

Mrs. Harry Hunton and baby, of Roswell were here several days last week visiting Mrs. Aubrey Watson and other friends.

Rex Wheatley and family and Fletcher Collins went up to the Artesia-Sacramento camp yesterday for a few days stay.

Mr. and Mrs. J. H. Hill, of Roswell, accompanied by Mrs. Solon Spence, of Lake Arthur, were visitors here Tuesday.

Mr. and Mrs. H. C. McDade have moved to Mrs. Schenck's bungalow on Richardson avenue, which they have rented for a year.

Mr. and Mrs. D. I. Clowe and children left for Bowie, Texas Friday, where they expect to visit with Mrs. Clowe's parents for a few days.

Mr. and Mrs. Ossie Coalson were called to Brownwood, Texas Monday evening on account of the serious illness of Mr. Coalson's father, who lives at that place.

Mr. and Mrs. S. R. Saunders returned to their home in Miami, Oklahoma yesterday after a few weeks visit with their daughter, Mrs. J. D. Bewley and family.

Mrs. Nellie Eitelgeorge and daughter, Mrs. Verna Goff, arrived from Sweetwater, Texas last Saturday and are visiting Mrs. Eitelgeorge's sister, Mrs. Ben Wilson, and family.

E. H. Perry and son, Allen, left the first of the week for Rankin, Texas, where Allen will help his father look after the interests of the Illinois Pipe Line this summer.

Sam Marshall, of Los Angeles, chief geologist for the George F. Getty Inc., oil concern left for his home Friday after spending several days here attending to business matters.

Mr. and Mrs. Albert Cochran and baby daughter of Roswell, were here last Friday evening to attend the commencement exercises, their young friend, Miss Delores Higbee being one of the graduates.

Gene Cody of Odessa, a former employee of the Palace Drug Store here, spent the latter part of the week in Artesia, visiting old friends. Mr. Cody reports conditions prosperous over Odessa way.

Miss Nellie Gray drove up to Roswell Tuesday with Mrs. Ealen Gage and from there went on to Clovis to spend a week with Mrs. John Pate. Mrs. Gage returned to Artesia Tuesday evening.

Tom Teal of Tatum, former proprietor of the Sanitary Barber Shop, spent a short time here Tuesday attending to business matters. Mr. Teal states that his section has been visited by some rain this spring, but more moisture is needed.

Miss Zillah Simmons left Saturday to enter the Baptist University at Shawnee, Oklahoma for the summer term. Miss Loyce Simmons, who has been attending the school during the winter, will continue there for the summer term.

Mr. and Mrs. R. E. Higbee and little daughter, who have been visiting his brother, Rev. C. C. Higbee and family, left yesterday for their home in Kansas City, going by the way of Trinidad and Colorado Springs, Colorado to visit friends.

J. M. Rodriguez has sold his pool tables and equipment, located in East Artesia to Messrs. Buck Pruitt and J. H. Hooper of Lovington. The equipment has been moved to Lovington and will be located in a new building recently erected at that place.

Mrs. R. O. Cowan and sons, Don and Ray, attended a picnic at the mouth of Seven Rivers last Friday, which was an event connected with the closing of the Lakewood schools. Miss Katie Cowan, who was one of the Lakewood teachers, came home with them.

Wedding Invitations and Announcements, engraved or printed—The Advocate.

## MISS MARIE CARTER A HAGERMAN GIRL IS DROWNED THURSDAY

Marie Carter, aged 17 years and daughter of Mr. and Mrs. T. M. Carter, of Yeso, N. M., was drowned in the Felix river just this side of Hagerman Thursday afternoon at 6 o'clock. Miss Carter had been attending school at Hagerman, making her home with an uncle.

Together with a number of friends, Miss Carter had gone to the Felix river for a picnic. They had stopped just west of the Felix bridge near the dam and the girls were wading in the water. Marie slipped and fell striking her back on a rock. Every effort was made to rescue her by her companions.

Two of her companions were nearly drowned in their attempts to rescue the drowning girl. Marie grabbed the woman who went to her assistance and two others were nearly drowned. When assistance arrived the girl was dead and all attempts to revive her failed.

Officers of Roswell were notified and went at once to the scene of the drowning. The body was brought to Hagerman and there prepared for shipment to her home at Yeso.

## CRAVE OVERSIGHT MADE BY JONESEY

Snibs, on a flying trip back to his old home town, met his erstwhile pal, Snobbs, on Main street. Snibs inquired about all his school day friends. "And how's old Jonesey?" he asked at length.

"We'll," replied Snobbs, "Jonesey didn't turn out very well, though he sure made a name for himself around here."

"Why, what was the matter with Jonesey?"

"We'll, poor Jonesey took life lightly."

"Too lightly?"

"Yeah. Didn't think up a good excuse. Didn't even think up an alibi."

"Alibi! What do you mean?"

"Just what I say. Took life too lightly. Beat his mother-in-law because he got tired of seeing her around. Now, if he'd only taken life seriously and thought up a good excuse the jury'd probably have let him off."—Philadelphia Ledger.

## LITTLE POLLYANNA SAW BRIGHT SIDE

S. G. writes in great dejection: "There is nothing in life for me now since the shattering of my firm belief that movie serials never end. I have just witnessed the tenth and last installment of a thriller, and the denouement is, I think, worthy of note. The sister of the villain, who complicates the plot dreadfully by being the finest little woman in the world, rides up on her galloping steed to the scene of a bloody combat between the hero and the shameless rascal, but only our hero is visible, his head bloody but unbowed.

"Where, pants she, 'where is my brother?"

"Our hero walks with bowed head to the edge of the cliff, and points to the ledge below where the villain lies crushed to a pulp."

"Oh, well," says our little Pollyanna, "he was only my half-brother, anyway."—Kansas City Times.

## Find Thimble in Use From Earliest Times

Thimbles were in use as long as two thousand years ago. Bronze thimbles, open at the top like those used by tailors, have been found among the ruins of Herculaneum which was destroyed with Pompeii in the eruption of Vesuvius in 79 A. D. Bronze or brass thimbles, differing little from the modern type, have been found in the excavation of Roman dwellings in London, as well as in the Thames off Dowgate, says the Cleveland Plain Dealer. All are of bronze or brass, in excellent condition, and are of two distinct types. One is composed of a strip of metal about two-thirds of an inch wide, rolled round and soldered, leaving the end open in the fashion of the specimen discovered at Herculaneum. Others, found off Dowgate, are of sugar-loaf type, their tops being more conic than those of any grade within the last four hundred years.

## When She Likes a Man

I have noted, writes Ed Howe, that every woman I know pretty well, wants to take a peck at me; straighten my tie, scratch a spot off my vest, or say I should use something for dandruff. They seem to fear other men and let them alone. . . . Not so, we think. Ed is old and experienced enough to know that women confer these little attentions only on men they have some sort of a protective interest in. We can get any amount of testimony to prove it—from the men.—Capper's Weekly.

## Rubbing It In

Friend (to the bald-headed man)—Does the barber charge you full price for a haircut?

E. H. Man—Worse than that, old man. He considers it such a joke that he adds an amusement tax.

Advocate want ads get results.

## ORDINANCE NO. 207

BE IT ORDAINED BY THE BOARD OF TRUSTEES, OF THE TOWN OF ARTESIA:

Section 1. That hereinafter it shall be unlawful for any person, association or corporation within the city limits of the Town of Artesia to manufacture, sell, barter, transport, furnish, or possess for sale any ardent spirits, ale, beer, alcohol, wine, or any intoxicating liquors of any kind, whatever, or any still or other apparatus, mash or worm, containing alcohol for distillation, for the purpose of manufacturing any intoxicating liquors: Provided, nothing in this section shall be held to apply to denatured or wood alcohol or grain alcohol when intended and used for medical, mechanical and scientific purposes, or wine when intended and used for sacramental purposes only, or the possession of intoxicating liquors in a private dwelling possessed prior to February 1st, 1920, and legally certified to under the provisions of the statutes of the United States.

Sec. 2. That it shall be unlawful within the Town of Artesia for the proprietor, owner or manager, or his or her family, or agent, servant or employee of any hotel, rooming house, or place where lodging is furnished for hire, restaurant, or place where meals are served for compensation or any pool or billiard hall to bring into, serve or dispense, or have, or keep in or about any such building or place, or any building or buildings connected therewith or adjacent thereto, intoxicating liquor of any kind or character: Provided, that the provisions of this section as to possession shall not apply to the portion of said premises or buildings adjacent to or connected therewith used and occupied exclusively as the home of any person.

Sec. 3. That any person violating any of the provisions of the preceding sections shall be deemed guilty of a misdemeanor and be fined not less than twenty-five dollars nor more than one thousand dollars or be imprisoned in the jail for a period of not less than ninety days nor more than six months, or both such fine and imprisonment.

Sec. 4. When any policeman or officer of the Town of Artesia, working alone or in conjunction with other officers, shall discover any person in the act of transporting intoxicating liquor in the Town of Artesia, in violation of this act, in any wagon, buggy, automobile or aircraft, or other vehicle, it shall be his duty to seize any and all intoxicating liquors found therein being transported contrary to law. Whenever intoxicating liquors transported illegally shall be seized by such officer, he shall take possession of the vehicle and team, or automobile, or any air craft, or any other vehicle, and shall arrest any person in charge thereof. Such officer shall at once proceed against the person arrested under the provisions of this Act in the Justice court of the Town of Artesia but said vehicle or conveyance shall be returned to the owner upon the execution by him of a good and valid bond with sufficient sureties in a sum double the value of the property, which said bond shall be approved by said officer, or the Town Marshal of the Town of Artesia and shall be conditioned to return said property to the custody of said officer on the day of trial in as good condition as when returned to said person by said officer, to abide the judgment of the court. The court upon conviction of the person so arrested shall order the liquor destroyed and unless good cause to the contrary is shown by the owner shall order a sale by public auction of the other property seized and the said officer making the sale, who shall be any policeman or any other officer of the Town of Artesia, shall pay all liens according to their priorities which are established by intervention or otherwise at said hearing or other proceedings brought for said purpose as being bona fide and having been created without the lien owner having any notice that the vehicle was being used or was to be used for illegal transportation of intoxicating liquors, and shall pay the balance of the proceeds into the general fund of the Town of Artesia in the same manner as fines are paid under the present ordinances of the Town of Artesia. All liens against property sold under the provision of this section shall be transferred from the property to the proceeds of sale of the property. Ten per cent of the sale price to cover expenses shall be deducted from the proceeds of said sale before any of said liens are paid. No sale shall be made until same has been advertised in some newspaper of general circulation published in the Town of Artesia once a week for two weeks or by hand bills posted in three public places near the place of seizure and if it appears that the owner of said automobile had notice that said vehicle was being used for the unlawful transportation of intoxicating liquor or was to be so used, then the entire proceeds shall be paid into the general fund of the Town of Artesia by said police officer in the same way as fines generally are paid. Provided, that nothing in this ordinance shall authorize seizure of liquors, or confiscation of liquor, or a conveyance where such liquor does not exceed one quart unless the same is being transported for sale.

Sec. 5. When the words "liquor" or "liquors", or "intoxicating liquor" are used in this ordinance they shall be construed to include alcohol, brandy, whiskey, rum, gin, beer, ale, port, and wine, and in addition thereto to any spirituous, vinous, malt or fermented liquor, liquids, and compounds, whether medicated, proprietary, patented, or not, and by whatever name called, containing one-half of one per cent or more alcohol by volume which are intended or sold for beverage purposes.

## TEACHER EMPLOYED

Miss Irma Green, daughter of Mr. and Mrs. Arba Green, who graduates from the State University of Missouri next month, has been employed as teacher of reading in the Junior High school, completing the faculty of that building. A few more vacancies remain to be filled.

The American Legion Auxiliary spent Monday in packing for shipment the clothes donated in the flood relief drive. A generous amount of good serviceable garments were donated and filled some ten or a dozen boxes. They will be held here until shipping orders come from headquarters.

## Advocate want ads get results.

Sec. 6. All ordinances or parts of ordinances in conflict herewith are hereby repealed and this ordinance shall be in full force and effect from and after its passage and publication, being hereby declared an emergency ordinance on the ground of urgent public need.

C. E. MANN, Mayor.

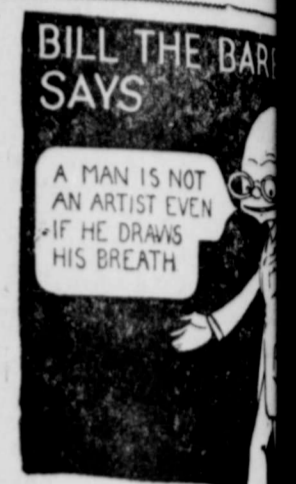

Attest: EDWARD STONE, Town Clerk.

Passed, adopted, signed and approved this 24th day of May, 1927.

## RADIO COMMISSION ASSIGNS NEW WAVE LENGTHS TO STATION

WASHINGTON.—Recasting of the radio broadcasting web which the Federal Radio Commission will put into effect June 1, was announced Tuesday, with the re-assignments of wave-length and power affecting the 600-odd transmitting stations all over the country. Along with the announcement, the commission made public its general order, requesting stations to go on the new wave lengths at 3 A. M., a week from Wednesday and stay there.

For the first time since broadcasting became a general fact, the commission said, there has been provided "a sound basis for radio service to the listener." The reassignment of stations and wave-lengths, added, was not ideal, but all stations will be required to comply with it, and will be given opportunity to present later their petitions for changes and relocations.

"Special attention is called to the fact that the commission has no unused frequencies to allocate," the statement continued. Every broadcasting channel is filled to its apparent capacity and in some cases possibly overcrowded. Accordingly, any person who wants a change must be prepared to show specifically what other station should be required to give up its assigned frequency."

The list of new assignments with kilocycle frequencies, call letters, and power rating in watts, except for New York and Chicago stations whose positions were announced Sunday, include:

- 550 Kilocycles—345.1 Meters: KSD St. Louis, 500. KFUO St. Louis, 500.

## INTERSTATE COMMERCE COMMISSION ORDERS RATE INVESTIGATION

WASHINGTON.—A general investigation into railroad rates on livestock throughout the western half of the United States was ordered Monday by the Interstate Commerce Commission.

Examiners will take evidence at Salt Lake City June 30, Portland, Oregon, July 5 and Los Angeles, July 15. On later dates the investigation will be transferred to southwestern and Mississippi valley territories.

By a supplemental order, the commission arranged for an investigation into livestock rates in the south-east, with hearings at Montgomery, Alabama, July 27, and Louisville, Kentucky, August 1.

As to the western rates, the commission declared that it was desirable "to deal comprehensively with the whole system of livestock rates with a view to bringing about a more harmonious adjustment." Shippers and railroads were advised to consider the possibility of grouping rates within the west on the basis of placing all points in the Mississippi valley on an identical distance scale, with another group including Rocky Mountain territory, and a third group including the Pacific coast states. Railroads were notified to be prepared with statistical studies of shipping costs.

As to the southeastern territory, the commission indicated it had in mind no grouping, but declared that it would endeavor to make up a comprehensive new rate basis.

## ANGELUS OIL AND MINING ASS'N. WRITES

Los Angeles, Calif. May 18, 1927.

Artesia Advocate, Artesia, New Mexico. Gentlemen:

Will you be good enough to enter our name on your subscription list for the coming year.

The Angelus Oil Mining Association is about to resume operations on their test well located in Sec. 20, Twp. 21 S., Rge. 10 West, in Luna County, New Mexico.

At the time operations were suspended in this well, a wonderful showing of oil sand had been encountered, and when the well has been enlarged and a string of eight inch casing installed, it is expected that the well will prove the field.

When this well is brought in it will open a large territory in the Southwestern part of New Mexico which is now virgin ground.

This field has been covered by several reliable geologists, who have all rendered very favorable reports of oil possibilities.

Angelus Oil Mining Association, By B. F. Manley, President.

## CARD OF THANKS

We take this means of expressing our sincere appreciation for the many courtesies shown us at the death of our beloved son and brother, Olin Bowman. Your deeds of kindness will always be remembered. Mrs. Nancy Sears and Family 23-1tp

**DAYTON ITEMS**  
(Mrs. W. H. Rambo, Reporter)

John Shoop was in Dayton last week.

Mr. Cass and daughter, of Lakewood were in Dayton last week.

Will Bradley, of Brownwood, Texas, is staying at the Marable home on the Penasco.

Will Henderson and family, of Carlsbad, were visiting at Dayton Monday evening.

Arthur Stanley and family left Tuesday for a few days outing in the White mountains.

The high winds and rabbits are reported giving the cotton and corn farmers trouble at this writing.

Louis Hellburg and three friends passed through Dayton Monday en route to Carlsbad and the lower valley.

Most of the Dayton farmers have their first crop of alfalfa cut and baled. The hay was light but of good quality.

The Dayton Epworth League spent a very pleasant afternoon Sunday at the cottonwood grove near the Will Marable home.

Miss Velma Owens left with her nephew, Sam Hughes, for his home at El Paso Gap, this state, last week and expects to visit with her sister, Mrs. Hughes for a short time.

Mrs. G. L. Buntin, of Los Angeles, California, spent a few days last week with her sister, Mrs. Will Marable. Mrs. Buntin is a daughter of Jap Coe and was reared at Glenco.

The reporter was wrong last week in saying the children received no honors at the interschool meet held at Carlsbad. Third place was given Miss Emogene Kaiser's class in the forensic meet.

The Pearson Bros. have completed their contract on the Midwest Oil Co. Terry No. 1 and are moving off. The Stovall Drilling Co. moved a standard rig on the place Tuesday and will complete the well.

Saturday A. A. Kaiser, Geo. Kaiser and Miss Emogene Kaiser motored to Lovington to visit with their brother, B. F. Kaiser and family. On Sunday B. F. and family accompanied them through the Carlsbad Caverns.

J. C. Turnbull, wife and daughter, Miss Crissie, left for a short pleasure trip Friday morning. They will visit their son Arden Turnbull and family at Elida, their daughter, Miss Mable Turnbull at Amarillo, and their daughter, Mrs. Marie Juda and family at Panhandle, Texas.

Sunday Mrs. Glaydas Gillette Wright, of Ft. Worth, Texas arrived in Dayton and visited with her uncle, J. T. Gillette, whom she had not seen for thirty-two years. The stay was made pleasant by a motor trip through the valley farms and to the Pecos river. Mrs. Wright was much interested in the valley and expects to return soon.

Sunday a dinner was given at the home of Dude Bowman in honor of Mrs. J. H. House of Colorado, Texas, who is visiting with her children here. Those present were Bob House and family, Jim King and family, Earl Bowman and family, Lyda House and wife, Dude Bowman and family and a brother of Mrs. House, Price Rone, of Hope. All report a very enjoyable day.

Those not absent or tardy from the Dayton school during April, room No. 1, Miss Frankie Waites, teacher: John Gushua, R. L. Horner, Glendine Horner, Junior Stanley, Sam Hughes, Leon Savoie, Mack McDaniels, Maud Bowman. Those neither absent nor tardy during the past month, room No. 1, Miss Frankie Waites, teacher, R. L. Horner, Glendine Horner, John Gushua, Ray Harrison, Junior Stanley, Edna Bowman. Room No. 2, Miss Emogene Kaiser teacher, John Bowman, Stewart Eads, Charles Gushua, R. C. Horner, Fay Gushua, Willie Dane Stanley, Caramay Marable, Wilma House, Claudine House. Those neither absent nor tardy for the nine months term were John Gushua, R. C. Horner, Charles Gushua, Fay Horner. Those not absent a day but late once were Caramay Marable, Willie Dane Stanley and Ray Harrison.

**WHY WORRY**

The bank called up Mr. Cohen and informed him that his account was overdrawn \$19.35, and requested him to come in at once and take care of it. Whereupon, Cohen replied:

"Yust wait a minute! You have the books handy, would you please look back one year ago and see what my balance was in your bank at that time?"

Bank: "All right, hold the phone." In a few moments the bank advised him his balance a year ago was \$165.50. Whereupon Cohen replied again:

"Vell, when you had my money was I worrying you about it?"

Mother (to precocious child) "Willie, go wash your hands and neck." Willie: "Neck who, Ma?"

**YELLOW STRIPE IS UP TO GOVERNOR**

SANTA FE.—No further action was taken by the finance board toward enforcing its decree that all state cars must be painted with a yellow stripe.

The board is not believed to have legal authority to enforce the order, unless Governor Dillon issues an executive order that the rule be complied with. The matter is now regarded as awaiting action of Governor Dillon.

He would not say Saturday whether he will order the stripe painted or not. "You can't tell what I might do," he laughed.

Customer: "Can I change these pants at this counter?"

Clerk: "Well, I'll tell you, mister, we have quite a few women shoppers, so may be you'd better go to the dressing room in the rear."

**HAGERMAN OFF PRISON BOARD**

SANTA FE.—Resignation of ex-Governor Herbert J. Hagerman as chairman of the state penitentiary board and appointment of W. D. Brennan, of Dawson, to succeed Hagerman was announced Saturday by Governor Dillon.

Hagerman is understood to have given as his reason for resigning that he will be out of the state at frequent intervals and cannot give proper attention to the duties as a board member.

Motorist: Sorry that I ran over your hen. Would a dollar make it all right?"

Farmer: "Better make it two. I have a rooster that was mighty fond of that hen and the shock might kill him too."

Do you need distillate? Call 179F3.

**OHIO MAPPING NEW MEXICO STRUCTURE WITH AIRPLANE**

Areal geology is coming into prominence in the Rocky Mountain region. Ohio Oil Co. has an airship in use in New Mexico as an aid to its geological staff in mapping a recently acquired structure in that state.

It is stated that the company has under consideration the purchase of several ships, should the New Mexico experiment prove satisfactory, for use as an aid to geological work and in transportation in the Rocky Mountain region.—Inland Oil Index.

**A REAL PROBLEM**

Runs there are in the banks, 'tis true.

One considers this quite shocking; But it is as nothing to Runs, dear, on my lady's stocking.

—Office Cat in Belen News.

This Company, directly or thru its subsidiaries, supplies every-day necessities in 68 rapidly growing cities and towns located in Louisiana, Texas, New Mexico, Arizona, Nebraska, South Dakota and Florida. Its business is, therefore, inherently stable and its growth is steady regardless of fluctuating general business conditions.

2. Electric light and power service is furnished to 33,190 customers in 55 communities with a combined population in excess of 200,000. The capacity of the electric plants is over 30,000 K. V. A. and the ice plants have a daily capacity of 957 tons.

Number of Electric Consumers, December 31, 1925, 27,068;

Number of Electric Consumers, February 28, 1927, 33,190.

3. Many years of experience are back of its trained organization. These properties and services are maintained

at a high standard under direction of Day & Zimmerman, Inc. A large percentage of employees are stockholders.

4. The net earnings of the Company applicable to the \$7 Cumulative Preferred stock are over three times the annual dividend requirements on the outstanding stock.

5. A strong financial position with ample cash resources is this company's policy.

6. A valuation of the properties of the Company, and its subsidiaries shows a value substantially in excess of all bonded indebtedness and preferred stocks of the Company and its subsidiaries.

7. The money received from the sale of this stock will be expended for income producing additions and extensions which will place the Company's production on a still more economic basis.

**2--Special Advantages**

1. An immediate yield of 7.14% is received by the investor on this preferred stock.

2. It is non-assessable.

3. Dividends are exempt from the normal Federal Income Tax.

4. It assures continuation of the liberal return obtainable under present market conditions as distinguished from the short term investment which may be redeemed when opportunities for reinvestment are not as advantageous as at present.

5. Dividends are paid at convenient intervals, four times a year, on the first day of January, April, July and October. You do not have to clip coupons, because the dividend is mailed by check direct to your address.

6. This stock is listed and traded in on the Boston Stock Exchange. It is an excellent medium of investment of private and business reserve funds.

7. Investment may be made in any amount from one share upward.

8. Information regarding the Company is at all times available to stockholders.

**MONTHLY SAVINGS PLAN OF PURCHASE:**

9. Monthly Savings Plan for purchase of stock on a basis as low as \$10 per share per month with interest at 7% makes this investment opportunity available for everyone immediately.

GENERAL BUSINESS  
CONDITIONS HOLD UP  
FOR THE WEEK  
YORK—General business  
last week continued to em-  
favorable and unfavorable  
with the former of the  
with the balance. The  
side of the valley, with its  
damage to railroad, in-  
and agricultural properties,  
but, nevertheless, the busi-  
ness in this country is too broad  
to be seriously affected as a  
step toward counter-  
ing the evil of over-production of  
in the agreement by nine  
producers to cease drilling  
for a period of two weeks,  
appointment of Ray H. Col-  
car over the district, lent  
to the petroleum  
however, it is agreed that  
of flood output is not  
to the Oklahoma area,  
the incentive in the in-  
giving the situation a  
by with the avowed in-  
formulating, if possible,  
to relieve the oil business  
crisis. The steps to  
are in the hands of a com-  
tee, who expect to work  
Federal Oil Conservation  
which has agreed to give  
per assistance.  
Mr. John Murrar of Carlsbad  
and daughter Mrs. Vande Harvey of  
Las Cruces, visited Mrs. Rachael  
Larremore Sunday.  
D. E. Webb and family and Ralph  
Shafer and family came over from  
the oil field Friday to attend the  
picnic at Linger Longer.  
Mrs. B. L. McAleer has been up  
from Carlsbad the past week, visit-  
ing her sister, Mrs. R. G. Adams  
and Mrs. Rachael Larremore.  
Our teachers, Miss Vowell and  
Miss Jenkins, left Saturday, Miss  
Jenkins going to her home in Por-  
tales. Miss Vowell will visit in  
several of the southern states be-  
fore returning to her home in Ten-  
nessee.  
About ten o'clock Friday the  
teachers, patrons and children of  
Lakewood school with well filled  
baskets went to Linger Longer,  
where a bounteous repast was  
spread in the shade. Everyone had  
all he could eat and then some. A  
very enjoyable time was spent by  
all and all agreed that those oc-  
casions should occur more often.  
Ralph McDonald, and wife, son of  
George McDonald came in from  
Optima, Oklahoma, Wednesday and  
will spend two weeks here and at  
Carlsbad visiting relatives and  
friends. Uncle Lafe McDonald came  
with them. Ralph said he started  
from Optima at 4 a. m. and arrived  
here at 9 p. m., making 500 miles in  
seventeen hours with only thirty  
minutes stopping for necessities.

TELEVISION STATION FOR TRANS-ATLANTIC TESTS  
Baird, Scottish inventor who is developing the television ap-  
paratus in England, believes that within two or three years it will be  
possible to see across the Atlantic. He has already constructed a televi-  
sion transmitting apparatus at Coulsdon, England, from which he intends  
to transmit signals to America. His device has been heard across the  
Atlantic as there was no receiving apparatus in the United States  
known how successful were his attempts. Within the next  
few weeks Baird intends to erect a television receiving apparatus in the  
United States. Photo shows Mr. B. Clapp, Mr. Baird's operator, adjust-  
ing the transmitting aerial at the new Coulsdon power station for televi-  
sion transmission.

### LAKWOOD ITEMS (Mrs. M. C. Lee, Reporter)

Mrs. Dyott Wood received news of  
the death of an uncle, who lived near  
Weed.  
John Fanning and family were in  
Lakewood Sunday taking in the big  
ball game.  
Charles Nelson and wife and Al-  
len Nelson, of Portales, are visiting  
relatives and friends here.  
J. H. Angell and son, Roy, left  
for the mountains to bring some  
cows back for his mother.  
Mr. and Mrs. James King and Bob  
House and families were taking in  
the sights of Lakewood Sunday.

Miss Katie Cowan returned to her  
home in Artesia, after teaching a  
successful half term of school here.  
Mr. and Mrs. R. L. House, of Ar-  
tesia, spent Sunday with Mrs.  
House's parents, Mr. and Mrs. M. C.  
Lee.  
Mrs. Ora Hellyer moved the post  
office from Mrs. Cass' store to the  
D. E. Webb property across the  
street.  
Mrs. John Murrar of Carlsbad  
and daughter Mrs. Vande Harvey of  
Las Cruces, visited Mrs. Rachael  
Larremore Sunday.  
D. E. Webb and family and Ralph  
Shafer and family came over from  
the oil field Friday to attend the  
picnic at Linger Longer.  
Mrs. B. L. McAleer has been up  
from Carlsbad the past week, visit-  
ing her sister, Mrs. R. G. Adams  
and Mrs. Rachael Larremore.

### NOTICE OF FORECLOSURE SALE

In the District Court of Eddy Coun-  
ty, New Mexico.

INTERNATIONAL SUPPLY COM-  
PANY, a corporation,  
Plaintiff.  
Vs.  
VALLEY DEVELOPMENT COM-  
PANY, a corporation,  
Defendant.  
No. 4419.

Notice is hereby given, that pur-  
suant to a judgment of foreclosure  
and Order of sale, made in the above  
entitled and numbered cause, on the  
Civil Docket of the District Court of  
Eddy County, New Mexico, on the  
21st day of May, 1927, wherein the  
International Supply Company, a  
corporation is plaintiff and valley  
Development Company, a corpora-  
tion, is defendant, to which Judg-  
ment reference is hereby made for  
the particulars thereof, I, Paul Kip-  
gen, heretofore appointed Special  
Master in the Judgment and Order  
of sale in said cause and having  
been ordered to sell the hereinafter  
described property at public auction,  
to the highest bidder for cash, I  
will offer for sale and sell, at the  
front door of the First National  
Bank of Artesia, New Mexico, on  
Friday, June 24, 1927, at 2 o'clock  
P. M. of that day, all the right, title,  
interest and claim of the defendant,  
Valley Development Company, a cor-  
poration, of, in and to the following  
described property, situated in E-  
ddy County, New Mexico, and more  
particularly described as

One No. 30 Star Drilling Ma-  
chine complete, with four cylin-  
der W. S. M. Engine and fittings  
and drive belt etc., No. 6264 Pit-  
man Spudder Machine, Electric  
Light System, Iron Rims on  
Band Wheel, Iron Rims on Bull  
Reel Brake Wheel, Bull Reel  
outer Drum and dividing Flanges  
and with belt house on Machine,  
together with all drilling tools,  
small tools and all other equip-  
ment being a part thereto and  
going with the usual complete  
string of drilling tools for Star  
Machine.

Said sale to be made for the pur-  
pose of satisfying the Judgment in  
said cause, in favor of the plaintiff,  
International Supply Company, cor-  
poration and against the defendant,  
valley Development Company, a  
corporation, in the sum of \$1483.18,  
with interest at the rate of 8% per  
annum from May 21, 1927, and for  
the further sum of \$148.32 as at-  
torneys fees, with interest at the  
rate of 6% per annum from the  
21st day of May, 1927 until paid and  
all cost accrued and to accrue in  
said cause.  
Amount of principal and interest  
due on date of sale.....\$1494.04

minutes stopping for necessities.

## Folks--

There is no time limit on the parking around  
our fountain—we'll see that Steve never ties a red  
tag to one of our customers for sticking around  
more than one hour.

After the theater, after the evening stroll,  
after a hard working day, pep yourself up with a  
dish of our inviting ice cream or try our fountain  
service. You'll notice the difference.

Lease contract will be on Form

### ADS ARE HONOR PLEDGES

If you got a letter from any mer-  
chant who advertises in The Advoca-  
te, signed with his own name, you  
would believe what he told you in  
that letter, wouldn't you?  
Of course you would. You know  
our advertisers would not tell you an  
untruth in a letter.

Well, you receive letters from  
them every time you get an issue of  
this paper. For the advertisements  
they print in this paper are just as  
personal and are written with the  
same degree of honesty as if they  
were letters to you, written in ink.

Whenever a merchant signs his  
name to an advertisement, he pledges  
himself to back up every statement  
in that ad just as he would back up  
his promise made in a letter.

The only difference between an ad

of Public Lands, of the State of New  
Mexico, will offer for lease for oil  
and gas, at Public Auction, to the  
highest and best bidder, at 10:00  
o'clock, A. M., on August 12th, 1927,  
at the front door of the Courthouse,  
at Roswell, New Mexico, the fol-  
lowing described lands to-wit:

Subdivision	Sec.	Twp.	Rge.	Acres

and a letter is that in an ad the  
merchants use our type and ink for  
writing you instead of using a pen  
and ink. It's quicker to address all  
of our readers at one time. But the  
fact that we do the printing and  
mailing does not detract from the  
personal nature of the message.

One of the best known local men  
remarked last week that the only  
photograph of himself which ever  
did him justice was an X-ray of his  
kidneys.—Hagerman (N. M.) Mes-  
senger.

## White Light Delivery Trucks Meet All Requirements

for

- Laundries
- Dry Cleaners
- Newspapers
- Farmers
- Truck Gardeners
- Utilities
- Hotels, Florists
- Restaurants
- Nurseries
- Hospitals
- Police and Other City and County Departments
- Banks, Printers
- Engravers

FOR years the four-speed White Model 15 and Model 20 have been the outstanding quality trucks in the light delivery field. No truck of the same size or capacity (3/4-ton, 1-ton or 1 1/2-ton) compares with them in dependable low-cost transportation over hundreds of thousands of miles.

Whether your trucking problem is expressed in gallons or cubic yards, packages or cases, tons or feet, you cannot ask—or get!—more from a light delivery truck than thousands of owners are getting daily in every line of business from these Whites, singly and in fleets.

The new White lower prices—saving \$605 on the four-speed Model 15 and \$825 on the four-speed Model 20—bring White quality transportation within the reach of thousands of operators who formerly found price an obstacle.

Throughout the chassis construction of the White Model 15 and Model 20 you will find inbuilt quality, ruggedness and exclusive White mechanical features that are not duplicated in any other light delivery truck at any price.

Be sure you're right—let us show you the White, before you buy.

### HOPE ITEMS

Fruit Co. are installing  
in their store at Hope.  
Belle Johnson has re-  
moved from Maaga, after  
her school term there.  
Jernigan, who was in from  
the first of the week, re-  
lives doing well.  
rangers are working a  
on the sheepshead of the  
however, no losses have been  
et.  
Johnson and wife, with Miss  
Johnson drove to Hager-  
and will go from there  
Texas, where they will  
summer.

Store is repairing the  
the building and several  
people including J. W.  
D. M. Jernigan, are re-  
and painting their residences.  
Moon returned from Santa  
of the week, where he  
business connected with the  
work on the Penasco river.  
Moon reports that the state  
will continue work on stop-  
banks in the river bed and  
the river canals.

### THE HONEYSUCKLE TWINES

Pete, the Silver Pen-  
Foot of the Sierras)  
honeysuckle twines itself  
and a hickory stump,  
the pale moonbeams gleam  
upon the verdant plain,  
I'll take my ducky-darling  
in my arm,  
and kiss her upturned lips just  
again.

### CHORUS:

The honeysuckle twines,  
the golden punkin vines,  
I'll take my peachy-weachy  
in my arm;  
the lone old owl goes  
trotting  
sheer on the snoot,  
the honeysuckle twines itself  
and a hickory stump.

LEGAL ADVERTISEMENTS

NOTICE

In the Probate Court, Eddy County, State of New Mexico.

IN THE MATTER OF THE LAST WILL AND TESTAMENT OF ROSE K. BAISH,

Notice is hereby given that Mrs. E. E. Mathes, of Clovis, N. M. has been appointed this 2nd day of May, 1927, by the said Probate Court, Executrix of the Last Will and Testament of Rose K. Baish, Deceased, and that all persons having claims against the Estate of the said Rose K. Baish are required to present the same in the time prescribed by law or they will be forever barred.

MRS. E. E. MATHES
Dated May 2nd, 1927.
20-4t

NOTICE TO TAX-PAYERS OF EDDY COUNTY

Section 416, House Bill 355 passed by the recent Session of the Legislature reads as follows:

"Thirty days after the second half of any tax shall become delinquent and unpaid, there shall be added thereto, by the County Treasurer, a penalty of 5% of the amount thereof and thereafter the 1% interest specified in the preceding section shall be computed upon the tax only. Ten per cent of the amount of such taxes, when collected, shall be, by the County Treasurer, paid to the Treasurer of the State of New Mexico and by such Treasurer of the State covered into the State Tax Commission Fund to be used by the State Tax Commission as provided by law."

The attention of the tax payers is called to this clause. This means that if your taxes are not paid by May 31st of this year, the County will be obliged to pay a ten per cent penalty in addition to the 5% penalty which the tax payers pay. As there is about \$100,000.00 unpaid taxes for the year 1926, this means that the County would have to pay a penalty of \$10,000.00, which amount will have to be raised by increasing our tax levy. You are urged to pay your taxes prior to June 1st. The Banks have expressed their willingness to cooperate in every way possible.

G. R. BRAINARD, Chairman Board of County Commissioners of Eddy County, New Mexico. 20-4t

NOTICE OF SALE

NOTICE IS HEREBY GIVEN that the Board of Education of the Town of Artesia, Eddy County, New Mexico will receive bids until One o'clock P. M. on the 8th day of June, A. D. 1927, for the purchase of the negotiable coupon bonds of the School District under the jurisdiction of said Board, known as the Artesia Municipal School District No. 16, County of Eddy, New Mexico, in the principal sum of Fifty Thousand Dollars (\$50,000), to consist of 50 bonds in the denomination of \$1,000 each, numbered consecutively from one upward; the said bonds to be dated the 1st day of May, A. D. 1927, to mature serially Three Thousand Dollars (\$3,000) annually in each of the years 1930 to 1947 and Two Thousand Dollars (\$2,000) on the 1st day of May in the year 1948, both inclusive, and to bear interest at a rate not exceeding six per centum per annum, both principal and interest to be payable at the office of the State Treasurer of the State of New Mexico, or at the banking house of Koutze Bros., New York City, U. S. A.

All bids must be addressed to the undersigned Secretary of the Board of Education at Artesia, New Mexico, and must be without conditions or reservations and accompanied by a certified check on a national bank in the sum of Two Thousand Five Hundred Dollars (\$2,500) to be forfeited if the successful bidder fails to take up any pay for said bonds in accordance with the award. The Board reserves the right to reject any or all bids and sell said bonds at private sale.

BY ORDER OF THE Board of Education of the Town of Artesia, Eddy County, New Mexico. (SEAL)

LINA A. MANDA, Secretary, Board of Education, Artesia Municipal School District No. 16. 20-5t

NOTICE OF CONTEST

Department of the Interior, United States Land Office, Las Cruces, New Mexico, April 9, 1927.

To Andrew Strand of Lake Arthur, N. M., Contestee: Artesia, N. M. Post Office nearest land.

You are hereby notified that Cecil Ricketson, who gives Lake Arthur N. M., as his post-office address, did on March 2, 1927, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry No. 029154, Serial No. 029154 made October 14, 1924, for SE 1/4 Section 9, Township 16 S., Range 24 E., N. M. P. Meridian, and as grounds for his contest he alleges that said Andrew Strand has never established his residence on said land. He has made no improvements whatever; that contestant has made inquiries from neighbors and no one has seen him during the past two years, that his absence is not due to military service.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH

publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you. K. D. STOES, Register. 20-4t

NOTICE OF SHERIFF'S SALE OF REAL ESTATE

SULLIVAN REFINERIES, INC., Plaintiff, Vs. P. H. DARLING, Defendant. No. 4320.

WHEREAS, by virtue of a final decree rendered and entered by said Court in the above entitled and numbered cause on the 10th day of December, 1926, the above named defendant was found and adjudged to be indebted to the above named plaintiff in the sum of \$2,470.59 which includes principal, interest and attorneys fees, in addition to cost of suit and cost of sale, and

WHEREAS, a mortgage deed and a chattel mortgage securing said indebtedness upon the premises and personal property hereinafter described were declared to be valid and subsisting and first liens and foreclosed upon the lands and personal property hereinafter described and said lands and premises and personal property were ordered sold to satisfy said indebtedness by the sheriff of Eddy County, New Mexico.

NOW THEREFORE, I, Joe Johns, sheriff of Eddy County, New Mexico, hereby give public notice that on the 14th day of June 1927 at the hour of ten o'clock a. m. I will proceed to sell at public auction at the south door of the Court house in Carlsbad, Eddy County, New Mexico, to the highest and best bidder for cash, the following described lands and real estate and personal property, to-wit: Lot 10 in Block 36 West Dayton, Eddy County, New Mexico, also Lot 9 in Block 16 in the original West Dayton Addition to the town of Dayton, Eddy County, New Mexico; and One Chevrolet truck, engine No. 1889809, one Chevrolet truck, engine No. 1639496, same being 1925 and 1926 models respectively and equipped with tanks and pumps, also One 1925 model Chevrolet touring car, engine No. 1638568.

to satisfy said indebtedness, cost of suit and the cost of said sale. JOE JOHNS, Sheriff of Eddy County, New Mexico. 21-4t

NOTICE OF FORECLOSURE OF CHATTEL MORTGAGE

WHEREAS, David M. Harper and Margaret Louise Harper, his wife, did on the 19th day of March 1927 make and deliver to Frank E. Miller of Artesia, New Mexico, a certain chattel mortgage conveying to the said Frank E. Miller all pool tables and billiard tables, chairs, counters, show cases, cooking and restaurant fixtures and all other furniture which go to make up and are now in what is known as the Drivers Pool Hall situated on the north side of Main Street in the building located on Lot 10 in Block 8 of Clayton and Stegman Addition to the town of Artesia, New Mexico, and

WHEREAS, the debt secured by said chattel mortgage was evidenced by a certain promissory note bearing date the 19th day of March, 1927 for the sum of \$1296.00 with interest thereon at the rate of 10% per annum from date thereof until paid with 10% attorneys fees if placed in the hands of an attorney for collection, and

WHEREAS, said chattel mortgage provides that if said goods and chattels or any part thereof shall be attached or claimed by any other person or persons, at any time before payment of said note and mortgage, then it shall be lawful for the said Frank E. Miller to take immediate and full possession of the whole of said goods and chattels to his own use and to sell the same in manner and form as now prescribed by law and take all the moneys arising from said sale to pay said note and all charges touching the same, rendering and paying the surplus if any in accordance with the forms of the statute in such cases made and provided to the said David M. Harper and Margaret Louise Harper or their legal representatives, and

WHEREAS, said goods and chattels have been attached by Thomas J. Cooksey in a suit now pending in the Justice Court of Precinct No. 6 of Eddy County, New Mexico, and

WHEREAS, the said Frank E. Miller has taken possession of said goods and chattels, and

WHEREAS, it has become necessary to foreclose said mortgage and that said note and mortgage have been placed in the hands of an attorney for collection, and

WHEREAS, there is now due the said Frank E. Miller from the said David M. Harper and Margaret Louise Harper on account of said note and mortgage for principal, interest, attorneys fees and cost of sale the sum of \$1490.65.

THE SAN JUAN BASIN GETS MORE SHALLOW OIL--50 BARREL WELL

The San Juan Basin which has astonished the oil world before by its unusual high grade oil at shallow depth has again given them another exhibition of the unusual when three days drilling by the Taylor-Burke interests on the Mancos river structure brought in a nifty barrel well of oil averaging markedly from the other shallow wells of the San Juan basin on field. K. K. Burke, in charge of the drill started on a new well a location west of well No. 1 on the Mancos river structure Saturday and on Tuesday ran into a green oil at a depth of three hundred and seventy-five feet. The well was free from water and the drill was kept going for another two hundred feet and oil was found all the way with a forty foot sand at the bottom. The well is estimated to be good for fifty barrels per day production and it has not yet reached the sand in which oil production was obtained in the first well. The oil tests at 31 baume and has a twenty-five per cent gasoline content, and will be very valuable to mix in blending with the high grade crude found in the other producing structures. The actual drilling costs on the well were about \$100. We question whether this record has been equaled anywhere else in the rocky mountain or mountainous basins.—Farmington Times Herald.

FILED FOR RECORD IN CO. CLERK'S OFFICE

May 17, 1927. Oil & Gas Lease: G. Kenna to Pool Oil & Gas Co. S 1/2 NE 1/4 21-22-27. W. D. Baies to Pool Oil & Gas Co. NESE; 5 acres in S 20 N 20 E 22-22-27. Enea Grand to Pool Oil & Gas Co. SENE 27-22-27.

Plans and specifications for said construction can be secured for the president of the Board, J. E. Robertson, at the First National Bank. The Board reserves the right to reject any and all bids. MRS. LINA A. MANDA, Secretary of Board of Education 21-4t

WARDEN FRUSTRATES THE ATTEMPT OF TWO MEN TO ESCAPE PEN

SANTA FE, N. M.—Two men, serving terms in the state penitentiary for larceny, Friday entered their fifth day of solitary confinement as the result of an attempt to escape which was frustrated by Warden Patrick J. Dugan, while the penitentiary superintendent is trying to connect six other inmates with the attempt.

One of the men, Jesus Rocha, 28, was sentenced to 9 to 10 years from Grant county in November, 1925, for larceny. It is his third term in the state prison, once having been sentenced to death for the killing of "Old Ben," jailer at Silver City, and once for bootlegging. Rocha was convicted of the murder of the Silver City jailer, Warden Dugan said, and two of his confederates were hanged while Rocha was deported to Mexico. He was again deported for his second conviction.

Carlos Mesas, sentenced to 5 to 15 years from Luna county last fall for burglary and grand larceny is Kocnas companion in confinement. Both men are now wanted by federal authorities for deportation.

The two men were caught on Sunday, May 15, while working on a tunnel which is believed by Warden Dugan to have been started three years ago and extended from an unused shed back of the brick kilns for 18 feet underground in the direction of the east wall of the institution. At the time the two men were apprehended, the tunnel was still several feet from the wall. According to Dugan, the belief is that the tunnel was started by a man, since pardoned, and was continued by the present inmates and would have resulted in a wholesale delivery if successful.

"WHY PROTESTANTISM"

In response to a request from his bible class, W. R. Hornbaker gave a talk at the Methodist church Sunday afternoon upon the subject, "Why Protestantism." The speaker approached the subject historically and in an unbiased and impartial manner, which gave evidence of a wide knowledge of his subject, explained the reasons for Protestantism. There was a good audience of interested listeners.

Don't Be Too Late

The vanguard of the summer vacation will soon be journeying to the Artesia-Sacramento summer camp in the Sacramentos.

More interest is being manifested in the Artesia-Sacramento camp than ever before. This sort is winning increasing favor with eastern Mexico and more especially with the home here.

Improved road conditions and low cost of living expenses are two factors, which bring the sort within reach of practically every Artesia student.

There is an increasing demand for furnished cabins. Better see about yours now.

# ANY GEOLOGISTS ATTEND THE WEST TEXAS CONFERENCE

Geologists of Texas are attending the geologic conference that was held last week in West Texas. The conference was held at Pecos and was attended by geologists from all over the state. The conference was held under the direction of the West Texas Geological Society and the Bureau of Economic Geology of the University of Texas. The conference was held at Pecos and was attended by geologists from all over the state. The conference was held under the direction of the West Texas Geological Society and the Bureau of Economic Geology of the University of Texas.

# LOCALS

R. V. Young was in town from Roswell Saturday.

C. J. Dexter and Charles Blair visited Big Spring and other Texas points last week.

Mr. and Mrs. Will Henderson and daughter, Miss Linietta, were up from Carlsbad Monday visiting relatives.

Bob Henderson returned Sunday evening from El Paso, where he spent a few days attending to business matters.

Joe Clayton has the contract for building the new school house at Loving. His sons, Vernon, J. A. and Leon, are helping him in the construction.

Mr. and Mrs. Price Gittinger left last week for a fortnight visit with relatives at Woodward and Norman, Oklahoma, after which they will return to spend the summer here, Mr. Gittinger having a position in the Joyce-Fruit dry goods department for the summer.

Mr. and Mrs. Tom Hefflin and daughter, Lillie, made a trip to the Carlsbad caverns Saturday. At Carlsbad they were joined by Mr. and Mrs. Phillips, of El Paso, for the trip. The Phillipses are temporarily located at Carlsbad, while Mr. Phillips is building the Crawford Annex.

Mr. and Mrs. Phillip Thomas, accompanied by his brother, William S. Thomas left yesterday for Keystone, Indiana, where they will make their future home. Mr. Thomas, who has been a resident of Artesia for a number of years was compelled to give up his work here on account of the condition of his health.

Mr. and Mrs. C. W. Bartlett and Mrs. Ray Bartlett and children arrived home Friday after a three weeks' trip north. Mr. and Mrs. Bartlett spent the time at their old home, Fairbury, Nebraska, and Mrs. Ray Bartlett visited her parents at Abilene, Kansas. They made the trip from Nebraska in less than two and one half days and report the crops looking exceptionally fine in Kansas and Oklahoma.

Col. and Mrs. Wm. Pistole and little Bobby Pistole, who have been visiting Mr. and Mrs. S. A. Lanning and other friends the past week, returned Monday to their cabin on the Ruidoso. They recently came out from Washington, D. C. and have been at the cabin and also with Mrs. Pistole's sister, Mrs. Austray, and Mr. Austray at Hondo. After a month's stay the colonel will go to Chicago where he will be stationed for some time, but Mrs. Pistole and the child will remain in the mountains all summer.

Mr. and Mrs. F. G. Hartell spent a short time in Roswell Saturday.

Mrs. McGinn and Mrs. Mike Clark returned last Wednesday from Cincinnati, Ohio.

Lester Henriksen and family were down from Hagerman Sunday visiting their relatives, the Henriksens and Hannahs.

Prof. Gable and the Misses Lois Gable, Lorraine Gable, Edna Bullock and Jennie Beth Bishop visited the Carlsbad Caverns Sunday.

Mr. and Mrs. Harry Vance and son arrived Sunday from Shelton, Nebraska to visit Mrs. Vance's mother, Mrs. Mary Kissinger, and Ed Kissinger and family.

Mrs. Jeff Hightower and daughters, Mrs. Casa Austin and Miss "Jack" went to Clovis Monday to visit friends for a few days. From there they will drive to Farmington, where Mrs. Hightower and Miss "Jack" will visit Mr. and Mrs. Austin for some time.

Mr. and Mrs. Beecher Rowan, son Ted and daughter, Miss Maxine, left Saturday morning by auto for a three weeks visit to their children in Los Angeles. On their return they will bring home Miss Aline Kowan, who has been attending the Southern Branch of the University of California.

M. A. Corbin, wife and son, Mark, Jr. left Sunday for Flagstaff, Arizona, where they will spend the next three weeks on a fishing and sight-seeing trip, taking side trips from Flagstaff for the purpose of viewing the interesting natural wonders in that part of the world. The fishing will be principally in Lake Mormon.

Alvin Allinger attended the banquet of the Alumni of the high school in Carlsbad Monday evening.

D. L. Grimm returned the latter part of the week from Albuquerque, where he has been attending to business matters.

H. R. Evarts, who had been here the past year and a half, conducting drilling operations in the oil field in connection with his son, left last Friday for his former home, Robinson, Illinois.

Mrs. Frank Foster and son, Warren Rogers, will leave next Tuesday for Long Beach, California, where they will spend the summer with relatives. Warren will attend the summer session of the Long Beach Polytechnic. They will visit the Grand Canyon en route.

Mrs. A. L. Allinger and son, Alvin, left this morning for Greeley, Colorado, to bring home Miss Leona Allinger, who has been taking a special course in primary work there for the past year. They will all return home by the way of Oklahoma, where they will visit friends.

Mr. and Mrs. Grover Kinder and daughters, Katherine, Zanna and Natalie, expect to go up to Ruidoso Saturday. Mr. Kinder will return after a short visit, but the others will remain for some weeks, guests of Mrs. Kinder's parents, Mr. and Mrs. Dan Eipper, in their cabin on that delightful mountain stream.

Mrs. Hoch and Mrs. Whalen, of Arlington, Kansas, were here from last Thursday until Sunday evening, guests of Mrs. Hoch's cousin, Mrs. R. G. Knoedler, and Mr. Knoedler. Sunday afternoon Mr. and Mrs. Knoedler drove them to Roswell, where Monday morning they took the stage for Alamogordo, to catch the Southern Pacific for California. From California they will go to spend the summer in Oregon and Washington states.

# FOR FRUIT TREES AND IMPROVE THE YIELD

New Mexico a fruit growing question is often asked in different parts of the state who are not familiar with the conditions. Many kinds of fruit will grow in New Mexico as well as they do in other states, says Fabian Garcia, New Mexico A. & M. College. Its varied climatic and soil conditions and peculiar topography, a number of fruit growing especially adapted to different kinds of fruits. All of our trees and vine are perennial, at no time they are allowed to suffer from lack of moisture. Therefore, it should be understood from the beginning that to get the best from any of these fruits, they should be planted where the orchard is irrigated. This being the best orchards are growing in the large irrigated valleys and the intermountain region. Growing fruit, especially for commercial purposes, it should always be kept in mind that it is important to consider the quality of the fruit produced. Many fruit growers look this very important consideration. If fruit trees overbear, it is probable that a large proportion of the fruit produced will be of poor quality. Fruit of good size and attractive appearance always commands a better price on the market than does fruit of poor grade, undersize fruit. If the trees overbear and are likely to remain small, the grower to see that they are properly thinned. The point that should be taken into consideration in producing fruit is that of properly watering and watering the trees. Fruit trees can not be expected to produce quality fruit. Consideration and care, as well as extra care, are necessary in producing fruit. Feeding, watering, pruning and spraying are very necessary operations in orchard management.

# This age of high standards welcomes the Camel quality

MODERN smokers are the most exacting ever known, and they place Camel first among cigarettes. For Camel was created to succeed in the hardest-to-please age ever known. It was made to satisfy those who demand the utmost, and modern smokers have given it such popularity as no other cigarette ever had. If you're downright hard to please, just try Camels. Tobacco taste and fragrance will be revealed as never before, for Camels are rolled of the choicest Turkish and Domestic tobaccos, supremely blended. This modern cigarette exceeds all other standards but its own. To light one is to find taste fulfillment. "Have a Camel!"

### Why Palms Need Drainage

A perfect drainage of both air and water is of the greatest importance to the successful culture of palms. In order to insure this place at least an inch of broken pots, bits of charcoal or even small stones at the bottom of the pot or tub. Cover this drainage material with sod fiber, cocoa fiber or decayed leaf mold, just enough to prevent the soil from sifting through into the rough material, and this will always insure proper drainage. The best soil for the palm consists of two parts garden loam, one part clay, one-half part sharp sand and one-half part powdered sheep manure. The palm can stand various degrees of temperature, but it always suffers greatly when the temperature is below 45 degrees. It thrives best in 75 degrees during the day and 60 degrees at night. To control scale and fungus growth wash the palm with a sponge with a solution of fish or whale-oil soap in a common bucket, adding three tablespoonfuls of commercial lime-sulphur. Allow the plant to stand for a day and then bathe with clear water.

### Why Wood "Petrifies"

The name "petrified wood" conveys the idea of wood turned into stone, for such is the apparent condition. As explained by scientists, there frequently has occurred in the past and subjected to certain conditions gradual disappearance of the particles thereof, accompanied by a corresponding replacement with a deposit of dissolved silica. As a result the place originally occupied by the piece of wood has come to be occupied by a stone formation corresponding in size and shape with the said piece as it formerly existed and frequently corresponding in texture or grain and more or less in general appearance with such piece.

### Why Sauerkraut "Spoils"

Spoilage of the top layers of vegetables fermented in brine is sure to occur unless the scum which forms on the surface is frequently removed. This scum is made up of wild yeasts, molds and bacteria, which, if allowed to remain, attack and break down the vegetables beneath. They may also weaken the acidity of the brine, in which way they may cause spoilage. The fact that the top layers have spoiled does not, however, mean that all in the container are spoiled.

### Farm Forest Large Labor-Saving Crop

#### Within the Reach of Every Farmer Without Outlay.

Reducing labor costs increases profits in any business and most progressive business men are constantly on a search for labor-saving systems. Farmers do this by installing labor-saving machinery but there is still another way which has been largely overlooked and this lies in giving more attention to labor-saving crops.

"The farm forest is one of the great labor-saving crops for North Carolina farmers," says R. W. Graeber, extension forester. "This crop is within the reach of every farmer without a great outlay of money if he will only co-operate with nature and follow the system which nature so plainly suggests."

Mr. Graeber states that no special soil preparation such as plowing and harrowing is needed for a crop of pines, oaks or poplars. No seed is needed if a few seed trees are left in place. No fertilizer is needed because nature maintains the fertility of the forest soil through the annual fall of leaves and twigs. All that is necessary is to keep out destructive forest fires. When the fires are kept out, a heavy blanket of leaf litter prevents weed growth and helps to hold a good supply of moisture. It is in the harvest alone with a timber crop that labor of man is required.

"Nature has provided fine conditions for tree growth in North Carolina," says Mr. Graeber. "Good soil, ample rainfall and a long growing season will permit any farm woodland to produce an annual growth of one-half to one cord of wood per acre, while many areas of pines are producing two cords and more an acre each year. Where a farmer does not cut more than the annual growth of his timber, a self-perpetuating, labor-saving crop is made an actual reality."

It is not necessary to spare the ax but it is necessary to use the ax that the best tree specimens have an opportunity to contribute their share to an unending crop, states Mr. Graeber.

See our samples of Engraving—Artesia Advocate.

## Things YOU Eat

During the hot weather we are all more particular about what we eat and to relish a meal, it must be prepared and served nicely, and you must have good materials to use if your meals are nice.

At this store you will always find the best that we can get and we keep all perishable food on ice (away from the flies). You can always know that what you buy here, is clean, sanitary and fresh. That is our hobby and we invite you to see for yourself that our store is kept sanitary and clean.

There are other things we give our customers that most people appreciate—We guarantee everything we sell, because everything that comes from this store, must give satisfaction. We offer you the most complete stock of groceries to select from, and our dealings are square, whether you come personally or telephone your orders.

### WINTER RATIONS FOR BEEF GAINS

(Prepared by the United States Department of Agriculture.)

In feeding tests recently completed by the United States Department of Agriculture steers which made only slight gains in weight during the winter put on greater gains on pasture the following summer than those which made larger winter gains. It was demonstrated that differences in gains by steers during the winter due to rations fed are gradually minimized throughout the period of summer fattening on grass. Consequently it is important that cattle to be marketed early from pasture should gain considerably more weight during the winter than if they are to be sold late.

The experiments were begun with 90 good to choice Hereford steer calves of weaning age and continued until the animals were marketed as three-year-old steers. The calves were divided into three lots of 30 each, each lot as nearly uniform as possible in quality, size and condition. The three lots were each given the same amount of space in an open barn and kept under cover all winter. The steers were fed twice a day, and the feed, both concentrates and roughage, was carefully weighed at each feeding. Water and salt were available in the barn at all times. During the period of the experiments changes were made in the grouping of the calves, and several different rations were fed.

Department Bulletin 1431-D. "Effect of Winter Rations on Gains of Calves Marketed as Three-Year-Old Steers," contains a detailed account of the experiments together with suggestions based upon the results. A copy of the new publication may be obtained free, as long as the supply lasts, by writing to the United States Department of Agriculture, Washington, D. C.

### Castrate Young Pigs a Month Before Weaned

It is common practice among many farmers to castrate pigs after weaning, and in some cases the operation is deferred altogether too long. The older the pigs the more they suffer from the operation and the greater is the danger of loss. For a number of years several experiment stations have castrated pigs within 24 hours after birth and with very satisfactory results. The Ohio and Wisconsin experiment stations have done considerable work along that line and the former has come to the conclusion that the sooner a pig is castrated after it is two or three days old the better. Only a very small opening need be made at that time, and if the operation is performed under sanitary conditions the wounds heal very quickly and the pigs seem to suffer no setback whatsoever.

Pigs should never be vaccinated until the wounds from castration have fully and completely healed. This is one reason why they should be operated on while small and at least a month before they are to be weaned.

### Sheep Must Shear Good Fleece to Bring Profit

To be profitable, a sheep must shear a good fleece of wool. And here breed characteristics may be taken into consideration. If not pure bred, a flock usually carries predominating blood of some breed and wool characteristics of that breed should be kept in mind. In all cases, however, the fiber should be of good length so as to grade in the combing classes, dense, and have plenty of "yolk" or oil. Dry wool or wool without yolk is light and brittle. There should be a good covering on the belly, and in some breeds well down on the legs. Uniformity in length of the fiber as well as uniform fineness of fiber is essential. Sometimes there is a tendency toward kemp or hairy fibers among the wool. These are undesirable.

### Balanced Ration Proven to Be Most Economical

A good many farmers are saying that they are not going to feed concentrates this year because they have so much corn. It will be a wasteful mistake to try and feed all corn without supplementing it with protein concentrates. The balanced ration has proved itself the most economical. Corn alone will not give good results with cows, with steers, with hogs, or with chickens. It will, in fact, be likely to injure them just as it used to before balanced rations were understood. If you have a lot of corn, better sell part of it and buy concentrates. It will be better economy.

### Lice and Ticks in Winter

When lice and ticks annoy sheep in winter dipping cannot safely be done, but an application of a mixture of equal quantities of flowers of sulphur and lard to infested skin will soon destroy lice, when only a few are present. When the skin is badly infested it is best to dust it repeatedly with a mixture of one part of freshly powdered pyrethrum and two parts of finely sifted flowers of sulphur. Dipping should be done just as soon as the state of the weather will allow.

### NOT WRITTEN FOR THE GENTLER SEX

Admiral Sir Harry Keppel, the sailor who made over the British navy, was exceedingly fond of his Rabelaisian fund of anecdote, and experienced difficulty in producing his memoirs because his "lady typist" refused flatly to take down his best stories. Harry Furniss, the caricaturist, recalls one tale of the admiral:

When visiting the royal yacht at Cowes, the prince of Wales informed Queen Victoria that "the little admiral," as Sir Harry was called, was about to publish his reminiscences. Her majesty called him before her and said:

"I hear, Sir Harry, you are going to publish your recollections. I shall be glad to read them."

"No, your majesty," he said, "I fear they will not be fit reading for a lady."

The admiral was exceedingly fond of shooting, but was a careless shot. On one occasion he wrote his hostess: "I have had an excellent day's sport. I have shot two woodcock, ten pheasants, a rabbit and your son."—Exchange.

### TEN APOSTLES ON ROLL OF MARTYRS

According to the generally received traditions of the church the twelve apostles came to the following ends: Andrew suffered martyrdom at Patras in Achaea, on a cross of the form known as St. Andrew's cross; Bartholomew was crucified at Albanopolis in Armenia; James the younger was probably stoned to death; Matthew died a natural death; Philip died a violent death at Hierapolis, but by what mode is uncertain; Simeon Peter was crucified at Rome; Thaddeus, or Jude, probably suffered martyrdom in Persia; John, the beloved disciple, lived, according to Jerome, to be about one hundred years old, and died at Ephesus; Simon Zelotes was crucified at one hundred twenty-nine years of age; Thomas was put to death in India, and Judas Iscariot hanged himself.

### Burglar's Luck

Breaking into an office in Bishopsgate, London, England, a burglar had an unexpected piece of luck. His search of the office revealed nothing of value except a key which he discovered in a corner of a desk. He tried the key on the safe, and found that the safe opened easily. He then helped himself to \$750 in money and a deposit note for \$23,000, and made his escape. The key was a spare one which had lain in the desk undisturbed for twenty years.

### Economical Marriages

Economy marriages are on the increase in England. Mary and John are taking vows before a registrar in increasing numbers and eliminating the religious ceremony because of the expense. The civil marriages for a period of five years have made up 24 per cent of the total, which is a marked increase over prewar days. Registrars believe this is no indication of the slackening of religious belief.

### Torch Works Under Water

Engineers in the United States navy have perfected a torch that can melt and cut steel at any depth under water. The device, used in opening sunken submarines, consists of a jet of hydrogen and oxygen which emanates from two separate sleeves to the tip of the torch. From the time the flame is applied the steel plate, usually an inch thick or less on submarines, can be cut at the rate of a foot a minute.

### Forgot the Baby

Three weeks after the birth of her first baby, an Eldorado girl-mother left the hospital. As she tripped along the hall waving farewell to patients in various rooms, she was a picture of happiness and eagerness to be at home. Just as she stepped into an elevator, a nurse hurried from the room the mother had occupied, calling, "You've forgotten the baby!" And sure enough she had.—Capper's Weekly.

### His Job

"Ten thousand dollars more will be needed to complete this film."  
"I won't finish it."  
"Didn't you wish to shine as a movie producer?"  
"Maybe so."  
"Then produce."—Louisville Courier Journal.

### Pertinent Question

Her Father—I do not require that the man who marries my daughter shall be rich! All I ask is that he be able to keep out of debt.  
Sultan—Would you consider a man in debt who borrows money from his father-in-law?

### Joys of Thrift

Aunt—But your fiancé has such a small income, dear. How are you going to live on it?  
Annette (brightly)—Oh, we're going to economize. We're going to do without such a lot of things that Geoffrey really needs.

### Forgotten Polish Colony

A colony of Poles which had been lost sight of since 1873 was recently found by a Polish naturalist in the valley of the Doce river in Brazil. They had been completely isolated and spoke only Polish.

### BODY OF AGED MEXICAN FOUND

The aged Mexican, Marselin Salas, who strayed away from the home of N. Ferro of the Dayton community on May 5th, was found dead by A. A. Kaiser Friday. The body was found on the east side of the Pecos river, according to a communication from our Dayton correspondent.

### NEW BILLIARD PARLOR

Messrs. R. E. Alston and A. F. Waddell, of El Paso, Texas have recently opened up a new billiard parlor in the old City Market building, one door east of the City Market. Practically all of the equipment was moved over the first of the week and the new establishment has been operating for the past few days.

Messrs. R. E. Alston and A. F. Waddell have also taken over and will operate the Silver Moon dance pavilion.

### SWIMMING PARTY

Misses Edna Bullock and Inez Buchanan gave a swimming party at the Oasis last evening honoring Miss Elsie Dell Beckett, who is moving to Hope for the summer. After the swim, refreshments were served on the lawn of the Landis Feather home. A round of skating completed the evening's entertainment.

### SURPRISE BIRTHDAY DINNER

James Nellis was successfully surprised on the occasion of his birthday anniversary Tuesday, by his wife who had a fine dinner prepared on his arrival home at six o'clock. W. P. Cox kept him away from home until the appointed time by the ruse of hunting fish bait and when he reached his own rooftop he found several friends awaiting him. The guests included A. F. Phillips, Mr. van Horn, Judge McCrary, Mike Clark and W. P. Cox. Margaret Nellis assisted her mother in serving the dinner.

W. H. Cobble drove over to Alamogordo Saturday with a truck load of furniture for F. E. Olds.

Mr. and Mrs. Calvin Dunn and family spent the week end with Mr. and Mrs. Harry Hunt on Roswell. Sunday Messrs. Dunn and Hunt on drove to Vaughn.

Mrs. Stephen Lanning and baby, of Ingleswood, California, and Mrs. Harold Keinath of Burbank, California, will leave tomorrow for their homes after a short visit with relatives here.

Mr. and Mrs. Landis Feather and family and Miss Inez Buchanan plan to spend the week end at Cloudcroft with Prof. Adlai Feather and family, who will be there from State College.

### OIL STORY

(Continued from page 1)  
on cement to set, which is expected to shut off the artesian water flow. Operators of this area will find encouragement in the announcement that two of the main fields of the nation are failing to shoot ahead with production, despite new extensions which are being completed each week. While the Seminole Oklahoma pool continues to show gains, the increased production is not in proportion to the number of new wells drilled. The action of the recent completions in the Seal Beach, California field has led to downward revisions in the pools peak. This gives reason to believe that the present production will have to run its course before new areas come into serious production.
