ARTESIA, NEW MEXICO, THURSDAY, SEPTEMBER 8, 1927

NUMBER 38

THE TWENTY-FOUR

### Flow Found in Rhodes 1 Lately

### Sixteen and One Million Feet of Gas Sand at 3105 Feet

Another Sand at 3130 Feet Tools Up In Hole.

Construction work is progressing very satisfactorily on the new Central school building and will be pushed to completion, in order to inconvenience the school work of the grade children as little as possible.

### NEW SCHOOL BLDNG. WILL BE FINISHED BY NOV. 1 TO 15 SAYS SUPT.

The 120 day contract awarded to Messrs. Kishbaugh and Heflin will expire on November 24th, but they hope to have the building ready before the expiration date, sometime between the 1st and 15th of November.

### ENROLLMENT AT HIGH SCHOOL INCREASED OVER THE PAST YEAR

### Total Number of Pupils for All Schools Shows An Increase of Four—Much Interest Shown in Opening Day Program.

The Artesia Public schools opened the school year of 1927-1928 last Monday morning with the high school auditorium packed to capacity with students, patrons and friends of the schools. Every seat was taken and standing room was above par. Not in recent years has there been such a manifestation of interest and enthusiasm in the opening of school. An appropriate program was rendered, consisting of a violin solo by Professor J. P. Gittinger, a vocal solo by Miss Dorotha Switzer, a new addition to the Junior High School faculty, and a piano solo by Miss Helen Mann of Artesia. Mayor C. E. Mann gave an address of welcome to the teachers and students and pointed out some worthy goals to be reached during the school year. J. T. Reid, superintendent of schools, made a short talk in which he asked that co-operation be made the keynote of the school year and that everybody pull together for better schools for Artesia.

The enrollment of students in the whole school was substantially the same on the first day as it was at the close of the first month last year, the number being 677 this year as against 673 last. There are 24 more students registered in the high school than for the first month last year and 14 more in the junior high school, while there are 34 less in the central school grades. The eighth grade shows the greatest increase, with 75 this year as against 54 last year.

### SCOUT COURT OF HONOR

The regular monthly meeting of the Boy Scout Court of Honor was held in the office of S. W. Gilbert, Monday evening. Johnnie Bill Collins, successfully passed the test for a second class Scout.

### NEW SMOKE HOUSE STARTED

Tom Heflin, who has the contract to build the new Smoke House, began the work of demolishing the old structure Tuesday. The stock of goods was moved to the rear rooms, where the business is going on as usual.

### DOVE SEASON OPENED

The dove season opened Thursday the 1st and will continue until December 1st, a period of ninety days. Hunting in this section is reported to be fair.

### FIRST BALES SOLD

The first bale of cotton, grown in this section was sold Tuesday to V. L. Gates, along with six other bales from the Ralph Hersey farm for \$24.35c. This is the highest price paid for any cotton this season, so far as known.

### REROOFS BUILDING

S. B. Barnett, manager of the Big Jo Lumber Co., here, has recently set a fine example to the patrons of this concern in reroofing the office building of the Big Jo.

We have a complete line of samples of social stationery—Artesia Advocate.

### SIXTY-SIX BALES OF COTTON GINNED UP TO NOON WEDNESDAY

Cotton is coming to the gins more rapidly now and within the next eight or ten days, practically all of the gins in this section will be running full time. Below is a summary of all ginnings secured, up to a late hour yesterday afternoon.

Lake Arthur gin	6
Association gin, Espula	35
Association gin, Artesia	19
Association gin Atoka	6
Total	66

The ginnings of the Carlsbad project gins totaled 498 to 3 p. m. Tuesday afternoon, according to the figures compiled by the Current-Argus.

### FIRST BOY TO RECEIVE EAGLE SCOUT BADGE

LeRoy Collins was the first Boy Scout in Artesia to receive the Eagle badge. The badge was presented to LeRoy by Superintendent J. T. Reid, a member of the Court of Honor at the Rotary's luncheon of the Artesia Rotary Club. The Eagle badge is regarded as the highest degree to which a Boy Scout may aspire and is difficult to obtain, twenty-one merit badges are necessary before the Eagle badge may be awarded.

Tuesday's program at the Rotary club was in charge of the Boy's Work committee. Scouts, Fletcher Collins, Delbert Jones and Russell Simmons told of the interesting features of the Boy Scout area camp, which closed last month.

Among the other visitors present were: Frank Clowe, city and Chester Russell, Jr., of Little Rock, Arkansas.

### HOPE RODEO DECLARED A SUCCESS---FRIDAY WAS THE CLOSING DAY

The 1927 Hope Rodeo, which ended Friday evening was a success from start to finish, Manager Walter Coats, of Hope declared. Large numbers of people from the various towns in the valley attended. Thursday was Artesia day, the business houses here closed in order to be present and witness the feature day.

The following are the results of the various events staged during the three days:

### Calf Roping:

First day, H. Crosby, 1st, time 23 2-5; Second day, Chas. Harding, 1st, time 20 2-5. Finals Carl Shepherd, 1st, H. Crosby, 2nd, Earl Miller, 3rd.

### Team Tying Contest:

1st day, Earl Miller, 1st, time 23 3-5; Chas. Harding, 2nd, time 24 2-5; Carl Paxton, 3rd, time 26 2-5. Second day, H. Crosby, 1st, time 24 1-5; George Woods, 2nd, time 26 1-5; Chas. Harding, 3rd, time 26 4-5. Third day, Carl Paxton 1st, time 25 1-5; Chas Harding 2nd, time 25 2-5; Lloyd Crockett 3rd, time 26 3-5.

### Steer Riding:

### SEVEN BIRTHS AND TWO DEATHS DURING AUGUST RECORDED

Seven births and two deaths were recorded by S. E. Ferree, sub-registrar for the Cottonwood, Atoka and Artesia districts for the month of August. The births followed: Mr. and Mrs. Leo Van Neugart, daughter; Mr. and Mrs. Virgil Wells, daughter; Mr. and Mrs. Oren George, son; Mr. and Mrs. V. L. Gates, son; Mr. and Mrs. John P. Moore, son; Mr. and Mrs. Wray Wilson, daughter; Mr. and Mrs. Lester Barnes, daughter.

The deaths recorded were: Frank M. Robinson and Chas. A. Simmons.

### STUDENTS AT STATE COLLEGE

Artesia students at State College this year include Miss Vella Spivey, Eugene Denton and Paul Stroup. Besides these there are some former Artesians, the sons of Mr. and Mrs. Selby, who have been living in Las Cruces the past few years. The Selbys still have a warm spot in their hearts for Artesia and are not completely satisfied away from the old town. Mr. and Mrs. A. V. Flowers, of Lake Arthur, drove over to Las Cruces Sunday to place their daughter, Miss Jewel, and their son, Baker, in school at State College.

### FOURTH CUTTING HAY PRACTICALLY FINISHED

The fourth cutting of hay is practically finished and the greater part of this cutting has been shipped out already. Some sections in the Cottonwood community, where the alfalfa was late this year, the fourth cutting will close the hay season. In sections where the fourth cutting has been completed, a fifth cutting will be secured before frost.

### A HAGERMAN LAD IS INJURED BY DYNAMITE CAP EXPLOSION WED.

Jack, the thirteen year old son of W. E. Morgan of Hagerman, lost half of his thumb and the ends of two of his fingers, yesterday evening, as a result of the discharge of a dynamite cap, the force of which is said to be equal to 500 pounds. While the details of the accident are not entirely clear, it is said that the lad was toying with the cap and was under the impression that it was a lip stick. When he attempted to heat the cap, it exploded. He was brought to Artesia and received medical attention here.

### MOVE WILL BE MADE TO GROW A UNIFORM GRADE OF COTTON

### Cotton Experts Meet With Lower Valley Farmers—Wants Seed Cotton Grown Under Supervision of the Government.

Farmers of the Pecos valley are urged to plant one strain of cotton, in the advice given out by D. R. Queenberry, agronomist at the State College of Las Cruces, who was here the first of the week in the interest of this move. This is not a new movement, however, as it has been discussed among the farmers on previous occasions, but as yet no definite step has been made toward an organization, which would sponsor the growing of a uniform grade of cotton.

As we understand Mr. Queenberry's plan, it is for the farmers to ship in a few lots of the best grade seed available and grow cotton from these lots under government supervision. After the plan has passed the formative stage or after the first year has passed, other farmers could purchase seed cotton grown under these conditions and thus secure a uniform grade of cotton, which would command a better premium. The Alfalfa Association has manifested an interest in this organization and will likely attempt such a move, for the benefit of its membership, using the Acala No. 5, which appears to be well adapted to local conditions here.

In commenting on a meeting of the cotton growers of the Loving community, the Carlsbad Current-Argus states:

That the raising of one strain of cotton only on the Carlsbad project, from pure seed, would be the greatest step forward cotton growers could take, was the declaration of C. B. Doyle, agronomist from the cotton breeding office, Department of Agriculture, who talked to cotton growers at a meeting at Loving on last Friday night.

Mr. Doyle said that if the farmers of a community tributary to each gin would specialize in just one kind of cotton, it would result in increased values, due to uniformity in length of staple and other characteristics. Slides were shown, depicting the way cotton seed is mixed at the gin, emphasizing the necessity of cooperation in uniformity, as it is impossible for one or two to keep their seed pure from mixture and to command a better price alone.

It is suggested that one entire community about a gin should adopt this plan, and after getting the first year's supply of seed, would produce enough seed for future needs.

Pictures were also shown on the screen, of the working of the boll weevil. The attendance was not large, but the meeting was a very profitable one to those who did attend.

### OILERS TO PLAY CARLSBAD HERE

The Artesia Oilers will meet the fast Carlsbad ball team at Carlsbad Sunday, where a fast game is expected. The following Sunday, Carlsbad will play Artesia on the East Main diamond in a return game.

The Oilers gave the disorganized Roswell Giants a severe drubbing here Sunday. The game scheduled for Monday was called off on account of the condition of the Roswell team.

### Mark't Up On Government Forecast Of 12,692,900 Bl

### Local Market Reaches New High Figure of 2550c To 2600c Following Release Of the Official Estimate At 9:30 A. M. Today.

Local cotton growers, who have received the first government estimate on the cotton production for 1927 are all smiles this morning. It was generally thought that the forecast would be in the neighborhood of the private estimate released last Thursday, which was 13,000,000 but the official estimate received here this morning developed a pleasant surprise, being 308,000 bales under the private forecast or 12,692,000. This morning's report was even 800,000 bales under the first report for the year, received August 8th, which was 13,492,000 and was 2,998,000 bales under the first government estimate received in 1926, which was 15,690,000 bales. The total ginnings up to date is placed at 1,540,025. The condition of the crop is given at 56.1 per cent, while the indicated yield per acre is placed at 149.3 pounds.

The New York market closed last night at 22.77c to 22.79c and after the release of the government report this morning at 9:30 jumped approximately 200 points. October delivery on the New York market advanced to 24.40c while December delivery advanced to 24.72c, most of the local cotton; however, is being bought on the October delivery.

Owing to the staple the local cotton is worth from 100 to 150 points on and adding the extra points to the October market, the local market would figure from 25.50c to 26.00c.

### OLD GLORY SILENT AFTER SOS CALL

NEW YORK—A hasty search of a thirty-mile area around the estimated spot in the north Atlantic from which the monoplane Old Glory sent its dramatic SOS shortly before dawn yesterday, has failed to reveal the plane and its three occupants. The hunt has now turned to the spot where the plane was sighted.

Captain David W. Bone, master of the Cunard-Anchor liner Transylvania, whose wireless picked up the SOS at 3:17 A. M., Eastern Standard time, quickly estimated the position of Old Glory at the time the SOS was sent. He sent the Transylvania ploughing through rough seas and fresh winds, and circled about the spot but saw nothing. His account of the search was related in terse but graphic messages sent the Associated Press and his company's office here.

Having searched the area from which the SOS was believed sent, Captain Bone then sent his vessel coursing through the seas to a spot where the Cunard-Anchor liner California sighted the Old Glory, then in the air speeding toward Rome at 100 miles an hour, at 11:57 Eastern Standard Time last or 4:57 Greenwich Mean Time. Captain Bone estimated the position of Old Glory at the time the SOS was sent as latitude 49.30 north, longitude 41.00 west, some 500 miles east-northeast of the tip of Newfoundland.

### JOYCE-PRUIT COMPANY OPEN THEIR 6th STORE AT CLOVIS MONDAY

The Joyce-Pruit Company has recently established a new department store at Clovis and the store is now in operation. Tuesday the Clovis store was formally opened to the public. This is the sixth store now under the management of Joyce-Pruit Co. in Eastern New Mexico. The Clovis establishment is New Mexico's finest store, being fitted throughout with the latest and most up-to-date furniture and fixtures. The formal opening at Clovis closed Tuesday evening with a banquet for the officials of the company at the Harvey House. Manager Rex Wheatley and C. Bert Smith of the local store attended the opening and banquet.

### DISASTER

There may be more truth than  
poetry to the statement of a Dallas,  
Texas banker last week to the effect  
that 30 cent cotton might bring dis-  
aster to the southern cotton grower,  
in as much as it might give them a  
false sense of prosperity and cause  
them to overreach their purchasing  
power. An increase in the cotton  
acreage is another evil, which would  
be reasonable to expect, following  
high priced cotton.

### GROWING MORE UNPOPULAR

The auto is the most hazardous  
instrument with us today. The death  
list caused from auto accidents is  
mounting each year. There is no  
wonder then, that there is a growing  
sentiment against the intoxicated  
driver. At best the operation of the  
motor vehicle on the crowded thour-  
oughfare is hazardous, but the haz-  
ard is doubly increased when the  
driver is under the influence of  
liquor, which incapacitates him from  
quick thinking, where straight and  
rapid fire thinking is necessary.

The driver, who knowingly op-  
erates an auto under these conditions  
and kills or maims a pedestrian is  
no better than the unfortunate man,  
who crazed by liquor pulls a gun  
and shoots his best friend. Both are  
equally guilty of murder and should  
be punished alike.

The case at Roswell, which hap-  
pened last week, when a driver and  
two occupants, supposedly under the  
influence of liquor struck the car of  
the Salvation Army, endangering the  
lives of over half a score of people  
is a typical example of the result when  
whiskey and gasoline are mixed.

Ordinarily we would favor the im-  
position of the severest punishment  
possible, where the guilt of the of-  
fending person is established beyond  
a question of a doubt, still we be-  
lieve that Judge Winson pursued the  
right course when he remitted the  
fine and let the proceeds apply to-  
ward the repair of the wrecked car,  
otherwise the cause of the Army  
would have suffered.

### WHAT IS SUCCESS?

The death of Judge Elbert H. Gray  
ends a career which long furnished  
texts for the inspirational literature  
of commercial schools. This man  
who went from an Illinois farm to  
teach school at fifteen; who studied  
law and gradually rose to be head  
of the first billion-dollar combine in  
the United States, had long been  
used as an object lesson for aspiring  
youth. What did he think of his own  
achievement?

Reports of a recent interview by  
B. C. Forbes would indicate that  
Judge Gary considered his greatest  
work to have been simply the secur-  
ing of the confidence of the thou-  
sands of employees of United States  
Steel; and his next best effort the  
establishment of co-operation among  
the various companies connected with  
that combine.

The obvious lesson is that this  
dean of American business men  
found most satisfaction in doing  
what every business or professional  
man, every employee, can do to  
greater or less degree. Head of a  
two-and-a-half-billion-dollar corpora-  
tion, possessed of a personal fortune  
of around \$10,000,000, able and will-  
ing to do much for public causes,  
his public utterances seldom referred  
to the far-reaching operations in  
which he engaged. Instead he talked  
of homely virtues, and for young  
men he gave out a decalogue which  
may be summarized in this style:

1. Every young man should be  
thoroughly honest.
2. He must be considerate of  
others.
3. He should guard both physical  
and moral strength.

### KEEP COMMANDMENTS AND AVOID TROUBLE

The following "Ten Command-  
ments" for the irrigation farmer  
were prepared by A. S. Curry of the  
New Mexico Agricultural College.  
Farmers of the state depending upon  
irrigation will find these suggestions,  
taken separately or as a whole, of  
great value and worthy of considera-  
tion.

1. Thoroughly prepare and smooth  
the field to be irrigated. This will  
save labor, water and time.
2. Construct good ditches of the  
proper size in the right location. This  
will save labor and enable the field  
to be more thoroughly irrigated.
3. Place good headgates, check-  
gates, and turnout boxes where and  
only where they are practical. This  
reduces labor and waste water dur-  
ing irrigation operations.
4. Make the "runs" of such length  
that the water will be most economi-  
cally used. "Runs" that are too  
long cause the water to percolate too  
deep. "Runs" that are too short do  
not allow the water to percolate deep  
enough. Test the depth of moisture  
percolation by using a soil auger.
5. Keep all ditches and structures  
in good repair. This saves water and  
labor at the time of irrigating.
6. After the water has been ap-  
plied, cultivate the field. This will  
sometimes eliminate the necessity of  
another irrigation. Land that is not  
cultivated at the proper time will in  
time lose by evaporation all the  
moisture that has been applied by  
irrigating.
7. Do not permit the water to re-  
main standing on the field for sev-  
eral hours in succession. It harms  
the crop by scalding it and damages  
the soil by puddling it.
8. Do not soak the land too deep  
at each irrigation. This is a waste  
of time, labor and water in most  
cases.
9. Do not waste water. Some one  
else will appreciate it. Your waste  
water will make a crop for some one  
else.
10. Study the crop—study the  
field—study the different ways of ir-  
rigating. Each crop in each field is  
a separate problem.

4. He must strive to secure a good  
education.
  5. Natural ability must be supple-  
mented by consistent efforts to im-  
prove the mind.
  6. Habits must be clean and compan-  
ions should be chosen for their  
character.
  7. He should be ambitious to suc-  
ceed honorably.
  8. He must be loyal.
  9. He must cultivate stability.
  10. Most important of all, the  
young man should scrupulously ob-  
serve the Golden Rule, whatever his  
profession, vocation, or station.
- Judge Gary apparently believed  
that if the standards were right,  
success would follow—that wealth or  
power was not the whole of success.  
Colonel Lindbergh showed that the  
theory still works for this generation.  
Youth must choose its standards  
wisely—then live up to them. The  
applause and the glory is always  
there—if Youth can earn it.—The  
Rotarian.

### DISTRICT ATTORNEY GIVES OPINION ON SCHOOL VACCINATION

(State Health Department)  
One of the District Attorneys in  
this state has written the following  
letter to a county health officer and  
county superintendent of schools:

"I wish to call your attention to  
chapter 85 of session laws of 1919  
and chapter 145 Session Laws of  
1921, relating to vaccination of school  
children. You will note that it is the  
duty of the school superintendent of  
each county to see all children of  
his county of school age are vac-  
cinated against small-pox and that  
such vaccination shall be done by the  
county health officer or under his  
direction. Such vaccination shall be  
paid for by the parents when they  
are able to do so but when the par-  
ents are unable, then the county or  
municipal board of education shall  
pay for it. You will also note that  
every child is subject to this vac-  
cination, excepting where it appears  
from the certificate of a duly licen-  
sed and practicing physician that the  
physical condition of such child is  
at the time such that vaccination  
would seriously endanger the life or  
health of such child.

"Needless to explain to you that  
this is a safe and salutary law. If  
this law is enforced we are immu-  
nized from the danger of this malady.  
We all know from experience here  
how much to dread an epidemic of  
small-pox.

"I believe that a campaign should  
be waged at the opening of the com-  
ing school term to see that every  
child is properly vaccinated against  
small-pox. Of course there are many  
who do not believe in vaccination and  
it is very important that unpleasant  
clashes be avoided wherever possible.  
The utmost patience should be used  
until the move gains popularity.  
However, there should be firmness.  
Since it is your duty to undertake  
this campaign, I think it should be  
done without delay. Most counties in  
the state have gone through this  
and are now having no trouble in en-  
forcing this law. I will be glad to  
cooperate with you in such move  
whenever you may feel that I can  
help. Please think this over and let  
me have your ideas about it."

### APPOINTMENT TO U. S. MILITARY ACADEMY

My dear Sir:  
The War Department informs me  
that I will have one appointment to  
make to the U. S. Military Academy  
for entrance in June, 1928, for which  
I am entitled to nominate a principal  
and two alternates.

Continuing my former practice of  
holding preliminary competitive ex-  
aminations throughout the state with  
a view to giving every eligible young  
man an opportunity, arrangements  
have been made with the Civil Ser-  
vice Commission to hold such an ex-  
amination on Saturday, October 15,  
1927, at convenient points. Those  
desiring to take this examination  
should advise me not later than Oc-  
tober 1, 1927, to give the commission  
time to make proper arrangements.

In his application to me the candi-  
date should give his full name, date  
and place of birth, past residence,  
length of residence in New Mexico,  
height and weight, education, mili-  
tary or naval training, if any, a  
small unmounted photograph or snap-  
shot of himself, names and residence  
of parents, and the names of at least  
five responsible persons for reference,  
two or more of whom should have  
personal knowledge of the candidate's  
school work—his general application  
and relative standing in the various  
subjects, particularly English and  
mathematics.

Upon nomination, the successful  
candidate will be mentally examined  
by the Military Academy on the first  
Tuesday in March, 1928.

Nominees who are mentally qual-  
ified to submit certificates from  
schools or colleges for exemption  
from the regular mental examination  
will be required to pass a substan-  
tiating examination in English and  
mathematics only. Those unable to  
qualify on certificate must take the  
regular examination in all subjects.  
Requirements of admission to the  
Academy are that candidates must  
be unmarried, of good moral charac-  
ter, physically sound, well formed,  
and of robust constitution, not under  
17 nor over 22 years of age on the  
date of admission, and not less than  
five feet four inches in height.

To persons interested a copy of  
the rules and regulations governing  
admission to the Military Academy  
will be furnished upon request.

Please address all communications  
to me at Washington, D. C.  
Very sincerely yours,  
ANDRIEUS A. JONES.

### PRELIMINARY REPORT ON MARRIAGE AND DIVORCE FOR NEW MEXICO: 1926

Washington, D. C., Sept. 8, 1927.—  
The Department of Commerce an-  
nounces that, according to the re-  
turns received, there were 4,476 mar-  
riages performed in New Mexico dur-  
ing the year 1926, as compared with  
4,284 in 1925, representing an in-  
crease of 192, or 4.5 per cent.

During the year 1926 there were  
538 divorces granted in the state,  
as compared with 558 in 1925, rep-  
resenting a decrease of 20, or 3.6  
per cent. There were 6 marriages  
annulled in 1926, this being the first  
year for which statistics of annul-  
ments have been collected.

The estimated population of the  
state of New Mexico on July 1, 1926,  
was 388,000 and on July 1, 1925,  
384,000. On the basis of these es-  
timates, the number of marriages per  
1,000 of the population was 11.5 in  
1926, as against 11.2 in 1925 and the  
number of divorces per 1,000 of the  
population was 1.39 in 1926, as  
against 1.45 in 1925.

The number of marriages perform-  
ed and the number of divorces grant-  
ed were reported by the county clerk  
of each county.

Eddy county showed a loss in the  
number of marriages for 1926 over  
1925. In 1926 the number of mar-  
riages were 112, while in 1925, the  
marriages numbered 142. Divorces  
granted during these two years were  
equal, 22 each year.

### THOUGHTFUL CHILDREN

"Are your children thoughtful of  
you?" asked a neighbor.  
"Oh, very," beamed the mother.  
"When they get home in the morning  
they always bring in the milk and  
put it in the icebox for me."

## CHEVROLET DEALERS 72 CAR CLUB INCREASED TO 2790 MEMBERS

A series of nation-wide holidays  
topped off with banquets, the trib-  
ute of a great company to its lead-  
ing retail salesmen, is now being  
staged by the Chevrolet Motor Com-  
pany in honor of 2790 retail sales-  
men who during the selling year end-  
ed August 1 achieved membership  
in the company's "72 Car Club," a  
star salesmen's honorary organiza-  
tion.

This year's roll exceeds by more  
than three times the list for 1926,  
when only 873 salesmen qualified for  
membership, and furnishes a new in-  
dex of the tremendous production and  
sales record established by this com-  
pany during the year.

Winners of the coveted honor are  
being feted for one day at a series  
of special celebrations being held at  
the headquarters of the 43 zone sales  
offices during the first fifteen days  
of September.

Among the 1927 club members are  
583 who also qualified in 1926, and  
who as a consequence have been pre-  
sented with a diamond emblem by  
the company in token of their leader-  
ship among all the more than 14,000  
Chevrolet retail salesmen in the  
country.

Membership is achieved by selling  
seventy-two or more new cars dur-  
ing the twelve months between Aug-  
ust 1 and August 1. During the  
1926-1927 period seventy-two car  
club members sold more than one-  
fifth of the 990,109 units produced  
by Chevrolet in that time.

The 72 car club is believed to be  
the largest organization of its kind  
in the country. It has a national as  
well as a local zone organization  
corresponding to a lodge or frater-  
nity, its officers being the sales  
leaders in their various districts.  
National officers are, President, E.  
F. Cleveland of Ensley, Alabama,  
who sold 431 new cars during the  
year ended August 1; Vice-President  
Chas. Zabel, Reading, Pennsylvania,  
with 337 new cars; Secretary L. H.  
Morrell of Johnson City, Tennessee,  
289 new cars; and Treasurer B. S.  
Reilly of Philadelphia, Pennsylvania,  
with 288 new cars.

In a message to the winners R. H.  
Grant, vice-president in charge of  
sales, stated that "Your extremely  
impressive selling achievement points  
to the great opportunity for the fu-  
ture. I can assure you that the pol-  
icies which have helped so materially  
to bring about Chevrolet's success  
will be continued. They are, first, a  
good product that is constantly im-  
proved, and second, the use of good  
business methods in selling it.

"There is every reason to believe  
that these same policies will bring us  
a large share of the business in our  
price class in the coming year."

to go through ever again. Lugano, a mixture of Switzerland and Italy, O, so lovely, the most placid lake in the center of the town. Here I found a bust of Washington in the park along the lake, palm trees, and peppers and magnolia trees in blossom. Gayest of decorated boats inviting us to row out in the moonlight with the sparkling lights of the town and the hillside all about.

The next morning starting out on a hot, dusty filthy day's ride on an Italian train knowing the almost unbelievable—that we would be in Venice that night. In Milan we visited the wonderful Gothic cathedral, a mass of stone lace work, and the church of St. Ambrose was made pope, Charlemagne crowned emperor and Napoleon, crowned king of Italy. Also the church of Santa Marie della Grande, where Yeonardo de Vinci's "Last Supper" is in the bare-refectory room. Wonderful thing but scaling off badly. Arrived at Venice at midnight with a full moon. Met and taken to hotel in gondola. O, the romance and beauty of it with our gondolier swishing his paddle deftly along and chattering in a scolding voice to his fellow gondoliers and pointing out in his broken way certain palaces of note and the Rialto bridge. Went to bed feeling like a queen in a canopied bed. So, happens that the canopy was a net fashioned to keep out the night insects. Don't know that I was bitten here, but counted eighty some flea bites when I got out of Italy.

From Venic to Florence was an un- speakably dirty ride. Wish I could visit Florence in winter. It was so hot, and so dry and dusty, but that did not spoil the charm of it—Giotto's Tower, which I've always longed to see, the bronze doors of the Baptistry, the Uffizi Gallery and Pitti Palace, where I found so many of my treasured friends, in the way of pictures—Raphael's Madama of the Grand Duke and Madonan of the Chair, and the Botticelli's "Allegory of Spring." And then to find so many of Michael Angelo's things about. There were fascinating little shops everywhere. Of course all the time I was collecting prints and an etching characteristic of each city.

Naples, the dirtiest, but one of the most charming of Italian cities, located exquisitely on the bay and seeming unafraid of the glowering and smoking Vesuvius. Thoroughly enjoyed the trip to Pompeii where we were surprised to find that these ancient people had finer luxuries in the way of hot and cold baths than we have today. From there a ride over the hills to Amalfi. Such driving I

never hope to experience again. I wanted to enjoy the scenery, but couldn't because of holding on, and decided that when I could get time I would have a good cry at Amalfi, that lovely mellow, white city with coral roofs, by the bluest of bays, but we were soon off on a ride over that most beautiful of drives, the "Amalfi Road." Again I feel power- less to describe the loveliness of it—a road with a wall along every foot of it, clinging to tall cliffs with the blue bay far below and yellowish white houses clinging here and there to the hillsides. Beggars every- where. O, the poverty of Naples, and the cobble stones. I was sore for a week having ridden over them. Old Vesuvius glowed rosy red at night and I was glad when we were on our way to Rome.

Arrived at Rome at noon, and American-like, swallowed our lunch and tore off to town to shop, since no trip was planned for that afternoon. We found all the shops closed until 4:30. It was too hot to work and shop-keepers were sleeping or drink- ing tea or eating gilotti or spomoni (ice cream.) We explored about un- til they came to life, and here we bought Roman scarfs, and many ex- quisite prints, and etchings. Of course we saw ruins, but won't men- tion them because you know them. St. Peters is breath-taking in its size and the Catacombs awe-inspir- ing, when you think of the principles lived and died for down in their dark clammy caves. I like Rome.

Then a dreadful train ride to Ge- noa where the statue of Columbus greeted us, and being tired and dirty, we saluted him and agreed that he was a wise man to discover a place

It was too hot to work and shop-keepers were sleeping or drink- ing tea or eating gilotti or spomoni (ice cream.) We explored about un- til they came to life, and here we bought Roman scarfs, and many ex- quisite prints, and etchings. Of course we saw ruins, but won't men- tion them because you know them. St. Peters is breath-taking in its size and the Catacombs awe-inspir- ing, when you think of the principles lived and died for down in their dark clammy caves. I like Rome.

Then a dreadful train ride to Ge- noa where the statue of Columbus greeted us, and being tired and dirty, we saluted him and agreed that he was a wise man to discover a place

never hope to experience again. I wanted to enjoy the scenery, but couldn't because of holding on, and decided that when I could get time I would have a good cry at Amalfi, that lovely mellow, white city with coral roofs, by the bluest of bays, but we were soon off on a ride over that most beautiful of drives, the "Amalfi Road." Again I feel power- less to describe the loveliness of it—a road with a wall along every foot of it, clinging to tall cliffs with the blue bay far below and yellowish white houses clinging here and there to the hillsides. Beggars every- where. O, the poverty of Naples, and the cobble stones. I was sore for a week having ridden over them. Old Vesuvius glowed rosy red at night and I was glad when we were on our way to Rome.

Arrived at Rome at noon, and American-like, swallowed our lunch and tore off to town to shop, since no trip was planned for that afternoon. We found all the shops closed until 4:30. The trip home was a bit of an old story and we were anxious to see the shore of our own good ol' U. S. A. New York seemed so sort of strong and substantial and I adore it. But, O, I love Paris, too.

Teaching Thrift

Many men and women, who never saved before are today laying a nice sum aside each year in the form of a life insurance premium.

Now that your child has started to school, wouldn't it be appropriate to teach him the thrift habit along with his school work? Life insurance will do it—let me explain.

## IN SOCIETY

HOLDS FAMILY REUNION

Mr. and Mrs. S. G. White, of Artesia have enjoyed a visit from their children during the past week, at which time a family reunion was held. All of the immediate family of Mr. and Mrs. White being present except a daughter, Mrs. Laurisa Rowan of Los Angeles, California.

Among those who visited Mr. and Mrs. White were: Mr. and Mrs. E. J. Montgomery of Amarillo, Texas; Jim White, a brother of Mr. White, residing at Wellington, Texas; Mr. and Mrs. O. D. White and family, of Roswell; Mr. and Mrs. Robert White and family, of Wellington; Mr. and Mrs. Roy Vaughn and son, of Amarillo, Texas; and Mr. and Mrs. R. L. Collins, of Hagerman.

Wednesday of last week, the entire party, numbering twenty-five journeyed to Carlsbad and made the trip through the Carlsbad Caverns.

### MISS ALBEE HONORED

(Delayed)

Miss Eloise Albee, who is to leave soon for her home in Ohio, was the honor guest at a party last Friday evening given by Miss Peggy Mitchell. Delicious refreshments in two courses were served. Those present were Misses Eloise Albee, Elaine Feemster, Hazelle Bynum, and Adele Ohnemus, Messrs. Chas. Mitchell, Ray Smith, Ralph Henson, Luther Caraway and Fred Henderson and Mrs. C. O. Gilbert.

### A YOUTHFUL PARTY

A "bunch" of young folks enjoyed a party at the home of Carrol Graham last Wednesday evening as only youth can. There were games in the house and on the lawn and refreshments of sherbet and cake and everything to create a good time. The young folks present were Mary Jackson, Ruth Bigler, Inez Buchanan, Lola Gray, Fern McCaw, Noble Littlejohn, Leon Clayton, Marvin Glenn, J. C. Glenn, Jr., and the young host.

### DINNER PARTY

Mr. and Mrs. Richard Attebery entertained with a one o'clock dinner Sunday. Their guests being Mrs. L. D. McCarley, of Florida, Mrs. J. R. Attebery, Miss Attebery and Mr. and Mrs. Lloyd Simons.

### FAREWELL PARTY

Mrs. H. C. McDade entertained a number of boys and girls at a lawn party last Thursday evening complimentary to her nephew, Curtis Rogers, who was leaving for Cuevo, Texas, to stay with his sister, Miss Danna Rogers, and attend school. The lawn was lighted for the party and made a delightful place for active games. Lemonade was served throughout the evening and ice cream and cake when the games were finished. The boys and girls who were present to bid Curtis farewell in this pleasant way were Evelyn Keiser, Lilla Jackson, Nelda Wilson, Violet Ohnemus, Wilma Robinson, Charley Bullock, Dorris Ransbarger and Raymond Sturris.

### CUMMINS—MARCUM

Chester Marcum, of Artesia and Miss Mary Cummins, of Carlsbad were quietly married in the office of Justice of the Peace, S. W. Gilbert Saturday evening, Squire Gilbert officiating. Mr. and Mrs. Marcum will make their home here after a short bridal tour.

### SUNDAY LUNCHEON

Mrs. Robert Burns, a recent bride, was hostess at a luncheon at one o'clock on Sunday. Covers were laid for the Misses Maxine Rowan, Glenda Gray, Margaret Perry and Exa Terry.

### SECOND BRIDGE CLUB MEETING

Mrs. Hightower was hostess to the Second Bridge club last Tuesday afternoon at which time there were four substitutes: Mesdames Yates, Bigler, Kennedy and Corbin. Light refreshments were served by the hostess.

Let us send The Advocate to your boy or girl who is away to school—Special rates.

### MISCELLANEOUS "SHOWER"

Mrs. Robert Burns, a bride of a week was honored with a miscellaneous shower at the home of Miss Margaret Perry last Wednesday evening. Three other friends of the bride, the Misses Celia Rehberg, Glenda Gray and Elaine Feemster, joined with Miss Perry in giving the "shower." The Perry home was attractively decorated for the occasion in a color scheme of pink and silver, beautiful pink and white dahlias supplying the floral note. The honor guest was "showered" while seated under a pink and silver bell suspended from the ceiling and containing a light, which cast a soft glow over the scene. The gifts were brought in to the room in a small wagon decorated in the color scheme and drawn by the young sister of the hostess, Juanita Perry. The evening was pleasantly spent in hemming tea towels for the bride and in playing a number of clever games. Refreshments were served in two courses at card tables, prettily adorned in the color scheme.

Little pink dolls were used as place cards. Besides the honor guest there were present the Misses "Jack" Hightower, Maxine Rowan, Katherine Clarke, Lola Ward, Exa Terry, Velma Richards, Delores Higbee, Moselle Gable, Ethel Ransbarger, Ruth Morgan and Mrs. Denton, Mrs. Perry and the four hostesses.

The Council of Churches will entertain the faculty of the Artesia schools to a "get acquainted" banquet on Friday evening of this week at 6:45 in the Banquet Hall adjoining the Majestic Cafe. There will be a program of music and talks.

### BIRTHDAY PARTY FOR MISS LITTLEJOHN

The Littlejohn home was the scene of gay festivities, Saturday afternoon, the occasion being the fourth birthday anniversary of Miss Joan Littlejohn, daughter of Mr. and Mrs. J. G. Littlejohn. The little hostess was assisted by her mother in providing entertainment for her guests. Fairy costumes were used to picture the fairyland and paper hats were worn carrying out the fairy motif. Following the playing of a number of games, refreshments consisting of ice cream and cake were served to the following guests: Misses Sybil Paris, Wilma and Mary Paton, Georgia Lee Williams, Rachel Dee Swift, Marjorie Keiser, Juanita Perry, Norma Michael and John and Edith Sinclair, Charles Higbee, Clyde and Charles Dunn, Teddy Vandagriff and Donald Paris.

### PICNIC IN PARK

Mrs. Lewis Cole entertained a number of her friends at a picnic in the park last Friday evening. Mrs. Cole served a fine supper to her guests, who were Mesdames John Dunn, S. B. Barnett, House, Walter Martin, Margaret Ellis, Harold Attebery, Sarad, Schoonmaker, and Ben Dunn and her guest, Mrs. Gud, of Electra, Texas.

### SOME MELON

Back in Arkansas, where syrup is molasses and men still wear pants, they can sure grow the water melons. The following is clipped from the Jonesboro Tribune:

HOPE, Arkansas.—A watermelon brought in by a farmer here today tipped the scales at 143 3-4 pounds, which shatters all known existing record for the United States. This melon was sold by the grower immediately for \$15. This section has become noted the past few seasons for producing record size melons as a result of many specimen melons weighing over 100 pounds each are being expressed from here daily to all parts of the country.

Rev. H. A. Gregory, of McKinney, Texas, who is to be the evangelist for the Nazarene revival meeting beginning Saturday night, Sept. 10th. The tent will be located at the corner of Roselawn and Quay streets.

### CHURCHES OFFICIALLY INVITE SCHOOL FORCES

We believe that human beings are something more than animals with thinking attachments, that there is a higher and finer phase of each individual which demands attention as much as does the body and the mind. We cannot hope to develop balanced and symmetrical persons and at the same time neglect any basic factor of our inherent nature. Like the spokes of a wheel, all elements of our being must advance together.

It is generally recognized that the home is primarily responsible for the physical welfare of the child; the school for the mental training, and the church for the moral and spiritual development. How vitally necessary it is then, that the home, school and church cooperate and correlate their efforts in their attempts to minister to all the needs of each individual and the community in general.

The home limits its service to the immediate family. The school is confined to specified ages. Everybody and all ages are included in the ministry of the churches. We in turn take pleasure in inviting and soliciting the hearty endorsement and whole-hearted endeavor of each member of the family and the faculty and student-body of the schools. It is the duty of all to select the church of his choice where he may render and receive a ministry to be found nowhere else.

You are officially invited to find your place in some one of our congregations, identify yourself with it, receive the benefits which it offers and cooperate to make it a means of grace to all.

Artesia Council of Churches, J. P. SINCLAIR, Secretary.

### THREE BRADLEYS RETURN TO SCHOOL POSITIONS

The following item clipped from the Kirksville, Missouri, Daily Express, will be of interest to friends of Miss Merrill Bradley here:

Wayne Bradley left today for Paris, Missouri, where he has a position as teacher of science and physical education in the high school. His brother, Smoot, left last week to assume duties as principal in the high school at Ashland, Missouri. Their sister, Merrill, of Artesia, N. M., who spent the summer with them and their parents, Mr. and Mrs. G. C. Bradley, and attended the summer session at K. S. T. C., has just returned to Artesia where she also has a position as teacher.

**Qualities Which Guide  
You In Buying**

It isn't very often that a particular type of  
motor in a car affects us in the choice of the auto  
we buy, rather we buy a car from its general ap-  
pearance, and the way it operates. Auto manu-  
facturers realized long ago that looks was one of  
the dominant factors in selling an automobile.

You have one distinct advantage in purchas-  
ing your furniture—you can buy for looks and still  
be able to secure a piece of furniture that will last  
a lifetime. Another advantage in buying furniture  
you can add to your household furniture piece by  
piece without undue inconvenience to your finances  
and eventually have real furniture that you will  
be proud of.

Always glad to talk furniture with you.

THAT the highest tax any proper-

THAT permanent roads not only  
mean much to the cities, but much to  
agriculture in general.

THAT they will make possible the  
rapid development of the dairy and  
poultry industries.

THAT with good roads in every di-  
rection and every community con-  
nected with each other by all-year  
around roads, will make it easy to  
get to market, will increase business  
and will draw additional business  
from other sections that can then  
be reached.

THAT no sensible man can oppose  
good roads and no good citizen can  
afford to be indifferent.

THAT some of the people that are  
using the roads are paying for it—  
some are not.

**MRS. WARREN OPENS  
A SCHOOL WITH  
A DEPUTY SHERIFF**

SANTA FE.—Opened with the aid  
of Mrs. Adelina Otero-Warren, coun-  
ty superintendent of schools, and  
deputy sheriff Ike Alarid Monday,  
the district school at Stanley was  
Tuesday holding classes.

Previously A. W. Chambers, the  
teacher, had been barred from the  
building by two of the school direc-  
tors and a deputy sheriff, it was  
said. Mrs. Warren attributed the  
difficulty to the recent attempt of  
Miss Lois Randolph, state superin-  
tendent of public instruction, to re-  
move her from office on the charge  
that she was illegally serving as  
agent for a book company.

## CONSPICUOUSLY ABSENT

We often wonder how many travelers pass up Artesia, with the thought that they have gone through another town, the name of which is generally unknown, save an occasional weather beaten sign pointing the way. From Artesia south to the Carlsbad Caverns and from Artesia north to Roswell, the traveler never sees a sign directing the way to Artesia, but the road is dotted with signs telling of the distances from Carlsbad and Roswell. It is a comparatively easy matter for the stranger to pass Artesia up at night and never know the name of the town he passes through.

We have never been especially keen about littering a highway with signs advertising this or that, but we do believe that if a town expects to get on the map and stay on the map, it must have enterprise enough to erect an occasional road sign, giving the distance from a given point to the town. All who have traveled know that such information is appreciated by the tourist.

The story of a visitor, who tried to find his way to Artesia after dark illustrates this point. He says "After passing Carlsbad I headed north and kept traveling. I never knew whether I was on the right road or not, I never saw a single sign pointing to Artesia. Finally, I came to a little town and stepped into what appeared to be a store, the proprietor hoveled in sight and shot out the question, 'What do you want, whiskey or beer?'"

"I told him that I wanted neither, but was trying to find my way to Artesia and inquired if a certain person lived there. He gave me the necessary information and I found my way here."

There are a number of little things, which need to be done and which would bring about many needed improvements, but little interest has been manifested in the accomplishment of these things by the civic organizations of the town. We are not going to make any more excuses as to why the town takes no apparent interest in the many civic enterprises. Let those at the head of the various organizations sponsoring civic upbuilding answer.

## HE WAS CONVINCED

He was a tourist and had been sojourning in New Mexico for a month. He had not seen one drop of rain during all of that time. Friday morning he was on the eve of boarding his car to start for his home in New York when a drop of water hit him on the hand. While looking around to see where the drop came from he noticed that the sky was overcast. Suddenly he noticed a second drop had struck the cement sidewalk near where he was standing. He immediately got out his spectacles, adjusted them, then knelt down alongside the spot to take a good look at it. The first person who came along also stopped to see what the tourist was looking at. So did the next, and the next. In less than two minutes fully forty people had gathered, all craning their necks and crowding to see what the trouble was. By this time the drop had dried up and the tourist arose and started to break his way through the crowd. He was the cynosure of all eyes, and the general verdict was that he was locoed. That tourist is convinced now that it really does rain in New Mexico—sometimes, and he can carry the news back to New York with him.—The Deming Graphic.

# GUY REID OF CARLSBAD GETS PLACE ON STATE GAME ASSOCIATION

Judge Colin Neblett of Santa Fe, president of the New Mexico Game Protective association, was re-elected by acclamation Monday afternoon at the annual meeting of the state organization in the courthouse. The other officers, all of whom were re-elected but one, are Charles Springer of Cimarron, first vice president; Fred Sherman of Deming, second vice president, and E. L. Safford of Santa Fe, secretary-treasurer. Guy Reid of Carlsbad was elected third vice president to succeed E. W. Tamony of Gallup.

The purchase of suitable marsh-lands in the Rio Grande valley for state-owned public shooting grounds and game refuges, state-wide support of U. S. Senator Bratton in his efforts to secure a federal fish hatchery for New Mexico, and endorsement of the forest service policy against grazing in wild life areas were recommended in resolutions passed at the afternoon session.

Other resolutions passed at the final session of the annual meeting recommended the suggestion to the state game department that no further fish hatcheries be built until the "right of way" or easement can be secured on privately owned lands adjacent to the proposed site; that the state association go on record as favoring a reduction over the entire country in the federal bag limit on ducks to fifteen, and that the state organization make one of its major endeavors for the coming year the upbuilding of local associations and the establishment of new ones.

## BEFORE BREAKFAST

A BUSY man comes in time to realize that he accomplishes the things he wants most to accomplish by utilizing small units of time which would otherwise be wasted, and the most of us waste more time than we would be willing to admit.

When Jones tells me that he has no time to read or to write a letter of congratulation, or to keep his nails in shape, I always ask him what he does before breakfast. I like to lie in bed in the morning as well as the next man, to feel the soft air blowing in through the window in the spring or to listen to the redbird singing in the early morning; or in winter, when I know that the room is chilly and the floor unpleasant to my bare feet, to draw the covers over me and just rest. But I know that if I am to get a good start toward the day's work, if I am to accomplish the hundred and one extra things which are nagging every busy man to be done, if I am to map out a proper program for the day, I must do it before breakfast.

The house is quieter then than ordinarily, the light outside is softer, my mind seems fresher and more alert, I can get work done more rapidly than at other times. I am writing these paragraphs now before breakfast.

When May comes, my garden will be blooming with tulips and sweet alyssum and irises, and the beds and the borders will all be neatly groomed and in order. I shall have a good deal of pleasure in seeing the effect and in watching the plants grow.

"How do you ever find time to get all these things into the ground?" Jones asked me. He is himself a lover of flowers, and he is not more obsessed with business cares than I am. I do it before breakfast, I tell him, and he seems amazed.

It is surprising, if one is in the mood and is not disturbed, what he can do in a half-hour.

Most of my friendly letters I write before breakfast. It is amazing how easily the ink flows and how quickly one can fill the pages if he gets at it before breakfast. I wrote a book once before breakfast—not, of course, at one sitting, but by having a plan and keeping it at regularly for a few weeks. One can write a thousand words in a short time if his mind is fresh, as one's usually is after a refreshing sleep.

If there is something you really want to do and don't feel that you have the time for, trying getting at it before breakfast.

(Mrs. Ned Hedges, Reporter)

Miss Maggie Lane began teaching in Hagerman Monday.

Miss Margaret Brown leaves this week for Abilene to enter college.

Mr. and Mrs. J. H. Reeves made a business trip to Kenna Sunday.

Bob Rowan and Irwin P. Murphy went to Hope on business Sunday.

Vedder Brown and wife spent Sunday with M. S. Brown and family.

S. L. Terry is sending his children to Hagerman to school this year.

Clyde Whinnery is here from Arizona for an indefinite visit with his parents.

Ned Hedges and Doyle Nichols started Monday on a casing pulling job north of Roswell.

French Pate left Saturday for Silver City, where he will enroll for the coming school term.

B. C. Moots left Monday for Clovis, after spending the week-end and labor day with his family.

Zee Pate left last week for Las Cruces, where he will attend school this coming school year.

Rev. Thomas concluded a revival service here last Saturday night, and is now holding a revival in Dayton, beginning Sunday, which will last two weeks.

There will be a bible class and prayer meeting service at the Methodist church every Wednesday night. Rev. Hedges of Hagerman is conducting this service.

Mrs. McCurley (nee Miss Attebery) from Tennessee, who at one time taught in the Lake Arthur school, was visiting friends in Lake Arthur last week.

Mr. and Mrs. A. V. Flowers left Sunday for Las Cruces to place their son and daughter in school there. This will be Baker's second year. Mr. and Mrs. Flowers are expected home soon.

Miss Myrtle Knox left Monday for Long Beach, California, where she will teach in the Public schools. Miss Knox is a popular teacher in Long Beach, this being her third year there.

Many of the old timers of Lake Arthur enjoyed a visit this week from Mrs. J. D. Bratton and daughter, Mrs. Rose Howell of Fort Worth, Texas. Mrs. Bratton and Mrs. Howell had been visiting in Carlsbad and stopped both going and coming to visit old friends in Lake Arthur.

Mr. and Mrs. Will Reed and children, of Nebraska City, Nebraska, were visiting at the home of Mrs. Reed's sister, Mrs. Tom Ridgeway last week Saturday, Mrs. Rodgway and children went with the Reeds to Roswell to visit the ladies' parents. Mrs. Ridgeway came home Sunday and the Reeds are going on to Globe, Arizona.

The Sew and So Club met at the home of Mrs. B. C. Moots last Wednesday with Miss Gertie Moots and Mrs. Moss Spence hostesses. After the regular business meeting a delicious luncheon, consisting of cake, sandwiches and punch, was served to the members. The next meeting will be at the home of Mrs. D. A. Bradley, Wednesday, September 14.

John Haven met with what might have been a serious accident Tuesday. Mr. Haven was running the pump on his farm when something went wrong with the engine in the pit, he went down into the pit to adjust matters and in some way the shaft hung into his clothing, but by bracing himself against the frame he prevented himself from being hurled around the shaft, as it was, his clothing was torn to ribbons and he was badly bruised about his body.

The outlook on this year's cotton crop is very promising to the farmer. Much of it will make two bales to the acre. The gin has been repaired and is ready to put out cotton in first class shape. Several bales have been ginned already and in eight or ten days will be running full time. John Campbell of Hagerman, a man of several years experience is to be head ginner. With this exception the gin crew is the same as last year.

## INSIDE INFORMATION

Score or prick baked potatoes to let the steam escape when cooked.

Celery for soup should be chopped or cut very fine to give the juices a chance to mix with the other soup flavors.

Beets need not always be served cold in vinegar. The new, young summer beets are especially good hot, with butter and salt and pepper. Cook them in their skins and peel them when done by plunging quickly into cold water.

If your sewing machine has been closed for any length of time, it will probably need a thorough going over. Wipe and dust it carefully, fill your oil can with kerosene, oil every part and run it vigorously without thread until well loosened up. Then oil with good quality of machine oil and go over all the parts again. Wipe and clean carefully, stitch on scraps until the thread is perfectly clean, and as a final precaution, tie a bit of wool on the presser foot above the needle to prevent any oil from running down on the work.

Thinly sliced bacon is delicious when browned under the flame of the broiler in a gas stove. It is then free of excess fat, crisp and appetizing. Good results can also be obtained by frying it in a heavy skillet, draining the slices and absorbing a large part of the fat with brown paper. Apples or tomatoes can then be fried in the fat and according to the Bureau of Home Economics, U. S. Department of Agriculture, make a particularly attractive breakfast dish. The following recipe is suggested for fried apples and bacon: Select good tart apples. Peel and cut them in 3-4 to 1 inch cubes. Fry the bacon in a heavy skillet. As soon as the slices of bacon are crisp, remove and drain them on clean brown paper. For frying the apples you will need about one-fourth cup of bacon fat. Put the apples in the hot bacon fat, piling them up rather high in the frying pan. Sugar to taste. Be sure you use enough sugar; apples fried this way require a little more sugar than apples fried in the ordinary way. Cover and cook slowly until tender. Then remove the cover, and turn the apples gently, so the pieces will keep their shape. Let them brown lightly; they are then almost transparent. Place them in a hot platter and surround them with the bacon.

### WHAT PRICE GLORY

An officer of the Engineering Department fell out of his sampan one night last week while returning to the ship. A snipe seeing him fall overboard jumped in and saved him. "My good man," said the officer. "You have saved my life. I will thank you before the whole engineer's force in the morning."

A look of misery came over the snipe's face as he answered: "For God's sake don't tell 'em, sir. They'd make my life a perfect hell."—Pittsburgh Rambler.

Hot shots from Lea county oil activity: Henderson, Dexter and Blair, shut down, waiting on the new Ford.

"Woman struck by lightning, leaves Dalhart hospital," headline in the Amarillo News.

A railroad is not the only place color blindness may cause trouble. Our attention has been called to a case here in town where a resident espousing a pair of red pajamas hanging on a back yard clothes line, rushed in and called the fire department.

No the Advocate office did not close Monday. We, unthinkingly accepted the literal meaning of labor day.

A subscriber from a middle western point, who claims to be as near the Creator as a man can be and still live on earth, writes a few suggestions as to how our fair section can be made more attractive to the newcomer. He says if we will stage a few bull fights, dog fights, horse races and cat fights and advertise same in the Kansas City Post, that people will flock here to see what we have. Maybe he knows, but we have been unable to see the special attraction in a dog or cat fight. Fact is we have always entertained the opposite view. The same gent also says that he sent us some rain down here, which failed to arrive. This makes us suspect that his delivery service is rather bad.

**HOW THINGS MAY APPEAR IN THIRTEEN YEARS**

Artesia, N. M., Sept. 8, 1940  
J. T. Reid,  
U. S. Educational Director,  
The South Sea Islands.

Dear Tim:  
You may believe me when I say I was sincerely happy to receive your recent communication, after an absence of thirteen years. I know that you will be interested in the many changes which have taken place since you left here in 1927. Fact is you wouldn't know the town, it has grown so much.

The citizens of Artesia have just made their tenth failure in trying to put over a new and modern hotel. Of course one or two new hotels have been built since you were here, but they can not care for the present needs. Most of the travelers are stopping at the New Ragsdale hotel in the growing town of Maljamar, of which M. E. Baish is mayor.

The oil fields of Southeastern New Mexico have just set a new record in production and they are talking of appointing Arba Green as umpire in order to curb the production. Another cut was made on the local market today.

They have begun work, laying a gas main to Crow Flat, which is now a suburb of Artesia.

You no doubt remember our friend, Chester Dexter. Well, Chester has recently been appointed president of the American Petroleum Institute, succeeding Walter Teagle. You know Chester and Charley Blair used to be connected with the Henderson, Dexter Blair interests, which firm was changed to the name of the Gump Oil Co., and put on a non stop drilling campaign to China. They liked to have caused serious international complications, when they drilled through into a Chinese farmer's rice patch last May.

You may also be interested to know that Myron Ferriman, who used to operate a dry goods store here has recently been appointed credit manager of Goldstein Co. clothiers. Myron never would have gotten this job, if he hadn't learned to talk with his hands.

Our genial friends, Mark Corbin has had a recent change of heart. He has just made a half million dollar donation toward the establishment of a home for disabled cats and now carries a half page spread daily in the columns of the Daily Advocate for the B. C. Hardware Co.

You knew V. L. Gates, Luther Burbank the second? Well V. L. has perfected a cross between the bull nettle and tumble weed, which produces a delicious berry. He hopes to make a half a million dollars from this discovery, in addition to a million he expects to lay aside from buying the two inch cotton staple now produced by the Pecos Valley cotton growers.

Mr. and Mrs. E. C. Higgins and their three children are getting along very nicely. Hig you know has moved back to the farm. Saw Mrs. Hig driving their new Spaulding hack around town today.

Slim Evans, who operated a plumbing business in Artesia up until five years ago is now manager of the "Follies" in New York. He may be over your way pretty soon, watch for him.

Another Undertaking establishment took the bankruptcy law, last week. Its getting to be distressing-ly healthy here now.

Congresswoman, Mrs. Martin Yates is down from her Washington home this week probing into the alleged beating which Cashier Bert Shipp received from his second wife. These modern wives are getting to be a fright says Mrs. Yates and if they get any worse, the federal government may have to intervene for the protection of the men folks.

**LINDBERG TO BE IN EL PASO SEPT. 24TH**

El Paso, Texas.—R. E. Thomason, Mayor of El Paso, last week announced that Col. Charles Lindberg, lone ace of the Atlantic, would visit the Gateway City in the course of his continental tour on September 24th.

"Since El Paso will be the only stop Col. Lindberg will make between Tuscon and Ft. Worth we take great pleasure in extending a cordial invitation to the people of the Southwest to come to El Paso September 24, and join us in our reception of this great hero," Mayor Thomason said today.

Col. Lindberg will arrive in El Paso at 2:00 p. m. coming from Tuscon, Arizona. A parade following his arrival at Ft. Bliss will follow. The famous flier will make a short address at the High School Stadium after the parade.

A big civic banquet will be given in honor of the city's distinguished guest in the evening, at which time he will tell of his epoch flight from Manhattan to Paris and also speak of the future of commercial aviation in this country.

**THE HANNETT CASE ELIMINATED FROM CALL**

John B. McManus, state chairman of the Democratic Central committee has addressed a communication to all members of the Democratic Central committee, advising that a discussion of the matter of the suspension of former Governor A. T. Hannett from the practice of law will be eliminated at the call meeting of the Democratic Central committee to be held at Albuquerque next Monday.

The United States government recently purchased a fleet of five Chevrolet touring cars for field use in the Tennessee mountain district by engineers of the Geological Survey.

Uncle Charley was elected governor on the allied socialist ticket last year. Jimmy (Rosey Red) who happened to control the Irish vote of the east side has become quite a political power and has stepped up to the Mayorship of Artesia. Tag any eligible native men on your island and send them here, I want to look them over.

**BOLL WEEVIL APPEAR IN GREATER NUMBERS OVER EAST AND SOUTH**

Reports gathered by the U. S. Department of Agriculture, on the activity of the boll weevil in the cotton growing sections of the east and south, indicate that these sectors have received far more injury from the boll weevil than usual. A report received from fifty-nine counties in Texas up to the first of the month states that in all counties the weevil are abundant except in eight or ten counties and that the weevil has done considerable damage in the wooded sections of these counties. Hot, dry weather has practically stopped the growth of cotton in these areas.

In the western part of Arkansas, the boll weevil has appeared more abundant than any previous year since 1923. More infestation of the weevil is apparent in the hills of this section than has ever been known. In the eastern part of the state the weevil does not appear to be as numerous as usual.

Near Tallulah, Louisiana the average infestations ranged from 56.6 per cent to 75.0 per cent. Parts of the crop around Baton Rouge was rapidly reaching the stage of complete infestation in the undusted fields.

The State Plant Board of Mississippi reports that all previous records of the season have been broken, with an average of 40 per cent of the squares punctured in the hilly sections of the state.

In some of the Piedmont regions of Alabama, the cotton fields will not have over fifty bolls to the acre.

Average infestation of twelve plantations near Florence, S. C., was 77.36 per cent on August 10th, as compared to 66.64 per cent August 2nd. No weevils have been reported in the upper section of the state.

Average infestation near Raleigh, N. C. to coast appear to be about 40 per cent.

## WAYNE B. WHEELER ANTI-SALOON LEAGUE HEAD DIES LATE MON.

BATTLE CREEK, Mich.—Wayne B. Wheeler, general counsel of the Anti-Saloon League of America, died at Battle Creek sanitarium here late Monday afternoon. He was taken to the sanitarium three days ago from his summer home at Little Point Sable, Michigan.

Mr. Wheeler was taken ill last Thursday with a kidney ailment, from which he had been undergoing treatment for several years. He was removed from his home to a hospital and after an examination rushed to the sanitarium, where it was at first decided to perform an operation.

Mr. Wheeler apparently responded rapidly to treatment, however, and showed so much improvement Sunday that it was decided not to operate. A bulletin issued late Sunday night by his physician, Dr. Lloyd E. Verity, said the dry leader's condition had improved to such an extent that it was thought he would be out of danger within a few days.

Sunday, however, his condition took a sudden turn for the worse and he sank rapidly, dying about 5 p. m.

Members of Mr. Wheeler's family were at the bedside when death occurred.

"My girl puckered up her lips when I left last night and I waited a long time to see what she was going to whistle. But she didn't whistle, so I beat it."

Ensign to Fireman picking himself up at bottom of ladder: "Did you miss a step?"

Fireman: "I missed the first, sir, but I think I hit all the others."

## Salesmanship or Love

By FRANCES COWLES

(Copyright.)

JUSTINE CARR was certainly not made of the stuff whereof good salesmanship is compounded. But it was absolutely necessary for her to go to work that summer and the only job available that promised more than a bare living was this job of taking orders for women's gingham dresses. It was in the real country where she got most orders, but there she had to walk endlessly to get to the next house. Really she ought to have had a flyover—but that was out of the question for Justine.

One very hot day in July she was "doing" the country section near Melrose. She had spent a day and a half without a single order and she had to pay for a night's lodging in Melrose besides. Justine wore a fresh pink frock herself. One of the sort that sold for \$2.98. She looked so fresh and pretty in that inexpensive dress that women seemed to want to buy one like it. But the woman at the last farm house had slammed the door in her face and she had walked a good half mile to the next house. She rang an old-fashioned door bell. After waiting quite a while the door was opened and there appeared a very warm looking young man holding a frying pan in one hand and a broom under his arm.

"Good morning," said Justine, using the most ingratiating tone of voice. "May I have just a word with your wife?"

"You could if I had one," said the young man bluntly.

"I should have known," said Justine—"then the lady of the house."

"The lady of the house, if that's what you call her, has gone to Europe. Personally I think she was no lady."

"Maybe there's some other lady here," purred Justine. "You see, I'm taking orders for gingham dresses. This is one I'm wearing—it cost only \$2.98."

The young man whistled. "Gee," he said, "it looks like a hundred dollars to me. But I'm sorry there isn't a lady or a woman in the whole house. If there was I wouldn't be doing this."

"Well, I'm sorry," said Justine, throwing aside her suave manner. "About how far is it to the next house in that direction?" She waved her hand toward the dusty road beyond.

"About a mile," said the young man. "You don't mean you're taking it on foot! Great Scott! That's terrible!"

"Oh, I don't mind the walk—only no one seems to want to order any dresses."

"That certainly is a fine dress you're wearing," he said, and then: "Say, it occurs to me that maybe I might order some—I know my sister would like them. You come on in and get a drink of ice water."

They went into the cool, spacious living room—not at all the sort of living room that Justine had found in other farm houses.

"You see my sister wanted to go abroad with her husband," the young man called from the kitchen while he was getting the water, and then resumed as he came in the living room, "and she asked me to come out and hold the house down. She had a cook and another girl—said they had promised to stay. You see there are three children. Well, I was going to spend two months writing a survey of an expedition I took in South America last winter. I thought I could do my work here as well as anywhere. I managed all right until last week. Then the girls had a row with each other and it ended by their both leaving. They hate it off here in the country. I can't get any one to come out and help me for love or money. I'm doing all the work."

There was a pause and then the young man and Justine spoke at once and each said, "I was thinking—" Peter said that he was thinking that he could get away long enough to drive Justine on up to the next farm house. It was a shame to think of her walking on such a day and Justine said with some confusion that she was thinking that if Peter really did need a woman to work for him she would be willing to take the position. "I can cook and wash dishes and look after the children," she said. "It's hard, but it wouldn't be so hard as walking endlessly over country roads, and it couldn't be less profitable."

So Justine stayed. She just took off her hat and went out into the kitchen, found an apron and began washing dishes. Later she sent home for a few belongings. Peter insisted on paying her the salary that had been left for the two maids who had departed—because as a matter of fact she was doing as much as they both had done—and Peter was left undisturbed to work on his survey. Only sometimes he chose to go out into the kitchen and dry dishes with Justine. One day he told her he loved her. He finished drying a plate and then said he wanted to marry her. Justine went on washing dishes. Then he put down the dish and pulled her, with her hands all covered with soapsuds and dripping with water, and held her in his arms.

"But just think what a shock it would be to your sister to come home and find that you'd got engaged to the cook."

"Well, then, let's spare their feelings. Let's get married—and when they come home I'll just say that I got married and my wife came home to help hold the house down."

## When the Children Are Hungry

By CAROLINE B. KING,  
Culinary Expert and Lecturer on Domestic Science

WHETHER "school keeps" or not, children become hungry—frequently. Just as it is difficult to know what to put in their school boxes 250 days of the year, it is equally puzzling when they are at home all the time to provide wholesome and nutritious little tidbits that will please them.

Not many mothers realize the nutritional value of Swiss cheese, which is very rich in proteins. The function of this food principle is to build body tissue and yield energy, all very essential to a growing child. Real Swiss cheese, being a highly concentrated food with an aromatic flavor, supplies these requisites appetizingly and conveniently. Here are a few suggestions for Switzerland tidbits that suit the school box, the luncheon table, or serve as a tiffin snack.

### Junior High Sandwiches:

Butter thin slices of graham bread and put together in sandwich fashion with a filling made by chopping one hard boiled egg and adding to it two tablespoons of chopped Swiss cheese. Season with salt and pepper, mix with mayonnaise and spread between the buttered slices of graham bread. A leaf of lettuce will further improve this tasty and wholesome sandwich. A few sweet pickles may be chopped with the egg and cheese mixture, or thin strips of sweet pickle may be placed on the filling.

### Swiss Drop Cakes:

Use any gingerbread recipe and bake in muffin tins. Put in enough batter to half fill the tin. Place a thin slice of graham cheese on the batter. Enough batter to fill the tin three-quarters full. Bake in moderate oven.

### Brown Bread Sandwiches:

Butter Boston brown bread the loaf and cut in thin slices. Spread with finely chopped meats, and on each lay a slice of Swiss cheese. Spread bread together sandwich. Honey may be substituted for the nuts, and makes a combination with Swiss cheese.

### Individual Swiss Cheese Cakes:

Butter custard cups and fashion, with a thin slice of bread, then a thin slice of cheese until the cup is full. One cupful of milk and one egg and pour over the cheese filling. Place cup in a pan of water and bake in moderate oven.
