THE TWENTY-FOUR

ARTESIA, NEW MEXICO, THURSDAY, OCTOBER 20, 1927

NUMBER 44

Oil Tests Continue To Show Good

Artesia Tests Will Be Watched With Interest—Moving a Steam Engine to Location.

The special election, held Friday to determine whether or not the town of Artesia would grant a gas franchise to V. S. Welch, went over by a vote of 160 to 6. While the vote cast represents only the partial strength of the box, it was a heavier vote than was anticipated, as practically no opposition developed against the measure.

Further plans for starting construction work on the gas lines have not been made known.

Martin Yates, of the F. W. & Y. Oil Co., has been busy since the first of the week, making a survey of the town to determine the number of possible gas consumers. The efforts of Mr. Yates have been very gratifying thus far, although the work is yet incomplete and it will be sometime before the results of the survey are announced.

LITTLE OPPOSITION REGISTERED AGAINST THE GAS FRANCHISE

The special election, held Friday to determine whether or not the town of Artesia would grant a gas franchise to V. S. Welch, went over by a vote of 160 to 6. While the vote cast represents only the partial strength of the box, it was a heavier vote than was anticipated, as practically no opposition developed against the measure.

Further plans for starting construction work on the gas lines have not been made known.

Martin Yates, of the F. W. & Y. Oil Co., has been busy since the first of the week, making a survey of the town to determine the number of possible gas consumers. The efforts of Mr. Yates have been very gratifying thus far, although the work is yet incomplete and it will be sometime before the results of the survey are announced.

THE M. E. CONFERENCE MAY SPEND \$750,000 ON AN ASSEMBLY SITE

Committee Has Several Sites in View, One of Which is the James Canyon Near Weed—Two Artesians on Committee.

The following press report has been sent out of El Paso with reference to the assembly grounds for the Methodist church. While nothing definite has been done toward selecting a site for the proposed assembly ground, the committee in charge is said to have two or three locations in view, one of which is in the James Canyon, near Weed. The press report follows:

As much as \$750,000 may be expended on assembly grounds for Methodist Episcopal Church, South. The unanimous sense of the commission, appointed by the New Mexico conference recently held here, is to have a similar assembly ground now owned and controlled by the Southern Methodist church at Junaluska, N. C. This consists of a mission building that cost \$150,000, a Sunday school building that cost \$100,000, a large auditorium and hotel costing about \$200,000. There are various other buildings used for summer institute work, together with cottages owned by those who wish to take advantage of the assembly program and spend their summers there.

There were more than 50,000 who paid admission into the Junaluska grounds this year. The program runs about four months. For the reason that the programs are held during the summer months, there is a possibility Cloudercroft or some location in that vicinity may be selected. This neighborhood has been mentioned.

It was stated the commission would be governed to a considerable extent in selecting the site by three things: consideration, climate and accessibility. Communications should be addressed to Senator Z. B. Moon, First National Bank building, Artesia, N. M., or to Dr. N. L. Linebaugh, 2831 Lebanon street, El Paso.

Bishop John M. Moore, D. D., is chairman of the commission; Rev. N. L. Linebaugh, vice chairman; Rev. J. O. Cox, secretary; Charles M. Harvey, treasurer. Senator Moon was unanimously elected assembly commissioner and executive officer of the Board. Mr. Harvey, Rev. Mr. Linebaugh and Rev. W. Angie Smith, pastor of Trinity Methodist church, are the executive committeemen.

Members of the commission are: Bishop John M. Moore, D. D., Dallas; C. M. Harvey, president El Paso National bank, El Paso; J. E. Robertson, president Frist National bank, Artesia, N. M.; G. C. Carver, Melrose, N. M.; C. L. Owen, Tucumcari, N. M.; Rev. N. L. Linebaugh, D. D., presiding elder, El Paso district, El Paso; Rev. W. Angie Smith, D. D., pastor Trinity Methodist church, El Paso; Rev. John S. Rice, pastor Lordsburg, N. M., and president of conference Epworth League; Rev. J. O. Cox, pastor, Carlsbad, N. M.

COMMITTEE APPOINTED

A session Tuesday evening of the directors of the Artesia Chamber of Commerce reappointed a committee for the year 1927-28. This committee consists of M. Stevenson and H. A. Stroup and M. A. Stroup, chairman of the community chest.

COTTON MARKET

The cotton market continues on the New York market at 20.10c this morning and advanced to 19.75c at the 11:30 close.

ORGANIZATION CIVILIAN RIFLE FOR ARTESIA

Organizations are underway for the organization of a civilian rifle club. The National Rifle Association, which is sponsored by the government, is the organization to be formed. Up to the time of the meeting, interest locally manifested in such an organization was not great, but it is expected that the organization will start with twenty or thirty members. More details relative to the organization will be known within the next few days and the organizers expect to make an active start in two weeks.

Artesia grounds, located in the pasture, northwest of Artesia, were selected by the club members.

Members, special members—Advocate

COALSONS LEAVE

Mr. and Mrs. Ossie Coalson, who have been with the dry goods department of the Peoples Mercantile Co., since the inception of the firm here, left for their new home at Carlsbad, Thursday, where Mr. Coalson assumed his duties as manager of the dry goods department of the Carlsbad Peoples store. The best wishes of Artesia friends go with Mr. and Mrs. Coalson to their new home.

BULLDOGS ARE BEATEN BY ALBUQUERQUE HI BY SCORE OF 20 TO 0

The Artesia Bulldogs went down in defeat at Albuquerque Saturday by a score of 20 to 0, when they met the Albuquerque hi team at Washington Park. Lack of confidence was probably the strongest contributing factor in the defeat of the locals, when they faced the heavier and more experienced Albuquerque line. This was the first contest between the two teams and although the Artesia boys did not win, the results of the game were gratifying as the score will indicate.

In the early part of the game, the Artesia forward line was impregnable and the gains by the Albuquerque wings. Artesia lost the ball several times on downs when they almost had their yardage. They managed to keep Albuquerque from scoring in the first quarter. In the second quarter House cut off an Albuquerque threat, when he intercepted a pass and ran it back to his 30 yard line. The half ended with the ball on the Bulldogs' 42 yard line, after an exchange of punts.

A fumble for the Bulldogs in the third quarter on their 23 yard line cost them 22 yards. Albuquerque took the ball to the two yard line, but the Bulldogs exhibited a stubborn defense and threw Walsh, of Albuquerque for a three yard loss on the next down. Albuquerque was penalized 5 yards, and gained 6 yards on the next play, losing the ball on the five yard line. The Bulldogs punted 28 yards, but Albuquerque broke through for two downs and went over for a touch down. The locals broke up a pass by Albuquerque for an extra point.

Albuquerque was able to put over another touch down in the third quarter. The Albuquerque reserves went in to finish the game in the fourth quarter. The Bulldogs kept on the offensive and the game ended at Albuquerque's 23 yard line.

Had Artesia been able to work their forward pass system, the score of the game might have been a different story, however, the locals did not register a single gain on a forward pass.

THE ARTESIA-ALBUQUERQUE LINE-UP:

Artesia	Albuquerque
Renfro	Pollard
Canfield	Montague
McCulley	Littlejohn
Boren	McCaw
Miller	Center
Puccetti	Right Guard
Barton	Right Tackle
Glassman	Right End
Prochnow	Quarterback
Vann	Left Half
Walsh	Right Half
	Fullback

CATTLE SALES

J. W. Lee, of Dunken, has sold his steer and heifer crop to McCoy and Horney, for an average price of \$30.00, November delivery. Earl Netherlin, of Dunken, to McCoy and Horney, steer calf crop at \$35.00, spring delivery. Sol Van Clave sold his calf crop to Clarence Prichard at a price of \$32.00, spring and fall delivery.

ROAD SURFACING FINISHED

Work of surfacing a stretch of the south highway from Lakewood south to Rocky Arroyo has been completed, according to Frank Donahue, one of the contractors. The work was completed and the construction crew moved the camps on the 15th. Motorists will find the road from here to Carlsbad smooth sailing. The Lakewood Rocky Arroyo portion of the road was the roughest part of the highway from Artesia to the county seat.

MASONS TO HOLD OPEN MEETING

The Artesia Masonic lodge will hold an open meeting this evening, beginning at 7:30 p. m. for members and visitors. A short program has been arranged for. Refreshments will be served following the program.

PUBLIC SALE

Mrs. Mac Wilkins will hold a public sale on her farm in the Upper Cottonwood community, Thursday, October 27th. Mrs. Wilkins will offer to the highest bidder a number of high grade Jersey cows and other livestock, consisting of mules, hogs, chickens, etc.

BUSINESS HOUSES WILL CLOSE TOMORROW FOR ARTESIA-PEGOS GAME

The business houses of Artesia are closing up for the football game this Friday with Pecos here on the local field. All the dope we have is to the effect that the gridster from the Texas city are coming up this year with blood in their eyes expecting to get revenge for the two defeats administered to them in the last two years.

Coach Priest's delegation are in top shape and everything is being made ready for the fray, even to the sprinkling of the field.

Following is a list of the houses closing for the game. The team wishes to thank them for this show of interest and encouragement.

We, the undersigned business men of Artesia, in order to show our support of the "Bulldogs" in the game to be played next Friday with Pecos, do agree to close our places of business from 3:00 to 6:30 in the afternoon for the game. This agreement is based on the understanding that all places of business do the same thing.

ODD FELLOWS AND REBEKAHS RETURN

The Artesia delegation to Odd Fellows Grand Lodge and Rebekahs Assembly in Albuquerque last week returned Thursday evening much pleased with the hospitality of Albuquerque and the occasion generally. Among other pleasant features of the trip was an evening at the wonderful new Indian theatre, the Kimo, at which they were guests of Albuquerque. The staff team of Sunrise Lodge had the honor of seating the regular officers of the Assembly and installing the newly elected officers. In this they used a special drill arranged by Mrs. Harold Howard. The members of the I. O. O. F. and Rebekah lodges who went to Albuquerque were E. A. Hannah, Abe Conner, Ed Gray, Ed Stone, and C. Bert Smith and Mesdames Ed Conner, Bob Caraway, Mary Abbott, M. W. Evans, Joe Clayton, Ed Wingfield, C. Bert Smith, John Lanning and little daughter, Bettyne, and Misses Ella Bauslin and Marjorie Wingfield. Mr. Medcalf, of Hope, went with the Artesia crowd.

FINGERS TAKEN OFF BY MACHINE

Friends of Mrs. Ossie Coalson, who moved to Carlsbad last Thursday will be sorry to learn that her father, Mr. Will Johnson, had the misfortune to lose part of five fingers in a feed grinding machine last Friday. The accident occurred at his ranch, near Lovington, and he was taken to Carlsbad for surgical attention.

PRAIRIE FIRE CAUSES ALARM

A prairie fire, which broke out yesterday morning north of the refinery, caused some alarm for the safety of the refinery buildings. A number of volunteer fire fighters responded to the call of the refinery whistle and extinguished the flames before they threatened the large oil tanks.

BEANS MADE AVERAGE YIELD

A. C. Crozier, is still maintaining his reputation as pinto bean grower on his farm, southeast of Lakewood. While the yield this year was not as heavy as last, Mr. Crozier says that he secured an ordinary yield or an average of 1100 pounds per acre. Last year he secured an average yield of 1,500 pounds per acre, but approximately twice as many beans were planted on the same ground, which accounts for the excessive production in 1926.

CALENDARS—Call and see samples before you buy—Advocate.

FOUR ARE FINED FOR VIOLATIONS OF THE STATE GAME LAWS

Phillip R. Corkin, deputy game and fish commissioner, who has been in this section for the past few days, reports a number of game law violations, some of these acts are not generally known to be unlawful. Jack Woods, of Hot Springs, this state, paid a fine of \$25.00 and costs on charge of possession and sale of two cub bears. J. M. Jonas of Pinon, paid a fine of \$50.00 and costs on charge of offering for sale a young white tail deer. The fawn was brought into Artesia yesterday and will be turned over to the state game commission. Herman Hender of Carlsbad, paid a fine of \$25.00 and costs on charge of hunting quail on a game refuge, out of season. John J. Small, of Carlsbad paid a fine of \$25.00 and costs on charge of fishing without a license.

ONE MURDER CASE IS HEARD AT FALL TERM OF DISTRICT COURT

Jury Renders a Verdict of Second Degree Murder in The Case Against Juarez Judge Kiker Now Hearing Civil Cases.

The regular October term of district court continues in session, with Judge Kiker of the eighth judicial district hearing the cases except in some civil matters which had been started by Judge Chas. R. Brice, and which he came down Wednesday afternoon to dispose of.

Tecio Munoz, charged with assault with a deadly weapon, withdrew his plea of not guilty and entered a plea of guilty, and was sentenced to serve from 15 to 18 months in the state penitentiary.

Miguel Martinez drew a year to fifteen months in the penitentiary on a plea of guilty of burglary when armed with a dangerous weapon, and with intent to commit a felony.

Miguel Martinez was sentenced also to four to six months in jail on a liquor possession charge.

Pedro Gonzales, charged with assault with intent to kill, was cleared by jury trial, the verdict being returned Wednesday. This case took up much of the day Tuesday.

W. L. Dillon, charged with possession of intoxicating liquors, was found guilty by jury, which requested clemency. Sentence has not been passed.

It was necessary in each jury case to draw a few additional names of jurymen to fill the juries.

Divorce was granted in the suit of H. B. Smith vs. Mary E. Smith, plaintiff being given custody of two children and defendant custody of a third child.

At eleven o'clock Monday night, the jury hearing the charge of murder against Concepcion Juarez, brought in a verdict of second degree murder. Juarez was charged with killing Manuel Olubis, at the Harroun farm on July 8th, at a party. Olubis was shot, and died from the wounds at a local hospital on October 25th, when the murder charge was filed. Ignacio Juarez was arrested with his brother, and held for complicity in the shooting, but the charge against him was dismissed in this term of court.

The trial began Saturday and the jury was held together until Monday.

A. L. Donahue entered a plea of guilty to assault with intent to murder and sentence of two to three years at hard labor in the state penitentiary was assessed. Sentence suspended.

The following criminal matters were continued, which finished up criminal matters to be heard before this term, and civil matters are now being heard, Judge Kiker and Judge Brice, both sitting in civil matters: Pablo Zuniga, R. D. Vaughn possession, Victor Hernandez, possession, Pedro Mejia, possession.

THIS YEAR'S RECORD COTTON PRODUCTION

Wm. T. Haldeman, living southeast of Artesia has set a pace on this year's cotton production, that's going to make some of our southern neighbors in the Carlsbad project hump to beat. Mr. Haldeman has a three acre patch from which he has already picked seven bales. He thinks his chances are good for picking at least a bale and a half more from the same patch. The yield will almost equal three bales per acre.

This cotton, Mr. Haldeman says was planted the third day of March this year, when it was still freezing. He says some people have the idea that early cotton does not do well, but the record from the three acre patch should dispell the theory that early cotton does not produce.

LAST CROP OF HAY

The last crop of alfalfa hay has been cut. Early alfalfa produced five cuttings this year, although in many instances the last clipping was short.

RECOMMENDS NEW REFUGE

The Eddy County Game Protective Association has recommended to the state game commission, a bird and animal refuge east of Carlsbad. This recommendation was made following an investigation by J. Stokley Ligon, state game and fish expert, according to advices received from Carlsbad.

JOE RICHARDS FINDS REMAINS OF A GIANT INDIAN IN THE HILLS

The skeleton of a giant Indian was unearthed by Joe Richards, Thursday, about forty-five miles west of Artesia in the hills. Mr. Richards, who is doing some road work in that section observed a rock mound on the side of a hill and decided to investigate. After removing the rocks, he dug only a short distance when he struck the skull with a pick. Apparently the Indian had been buried in a sitting posture. The bones were fairly well preserved, but the skeleton was dismembered in an attempt to exhume it. The remains were brought here and placed on exhibition in the Brainard Corbin hardware store. Surface evidences indicated that the spot near where the Indian was buried was once an Indian village, as a number of flint arrow heads were found in the vicinity.

Valley Gins Run Total of 16,221 Bales Up to the 19th

North Valley Gins Turn Out Total of 1987 Bales The Past Week—The Present Crop Will Soon Be Out If Fair Weather Prevails.

Ginnings at the north valley points during the past week, through and including the 18th, totaled 1,987 bales and represents a gain of 227 bales over the previous week. One new gin company, the Dexter Gin Co., at Dexter has recently started operations and appears in the line up for the first time this week.

Aided by continued fair weather and a fairly adequate supply of pickers, cotton growers of the north valley will soon bring the cotton picking operations to a close. It is generally believed that more than seventy-five per cent of this year's crop will be ginned within the next two weeks. At the same period in 1926, the north valley ginnings totaled 3,587 bales.

The ginnings follow:

Roswell, two gins	1,036
South Springs Gin	821
Oasis Gin Co.	451
Dexter Gin Co.	5
Greenfield Gin Co.	953
Hagerman Gin Co. Hagerman	459
Farmers Coop Gin, Hagerman	904
Lake Arthur Gin Co.	503
Association Gin Co., Espula	799
Association Gin, Artesia	551
Farmers' Gin Co., Artesia	572
Association Gin, Atoka	624
Total bales ginn.ed	7,678
Previously reported	5,691
Gain over past week	1,987
Total Carlsbad project ginnings to October 18th	8,543
Total north valley ginnings	7,678
Total valley ginnings	16,221

TELEPHONE NO. 7

If you can find anybody but a politician or one who will profit by politics who is in favor of Amendment 2, you will do more than we can do. Every business man in the state is opposed to this amendment which would force on us an election every year.

OCCUPATION TAX UNJUST

We have often meditated on the gross injustice of the law, which permits towns and cities to levy an occupation tax on its industries, and at the same time prohibits the towns and cities from collecting an occupation tax from the itinerant peddler. The peddler gets by we are told because his company pays a state tax and because he merely takes orders for his goods to be delivered at some future date. It is true that a measure passed to remedy this evil might work a hardship on the jobber who sells his goods to the local merchant, if not properly drawn up, but there is no reason that it could not be so constructed to hit the house to house canvasser. While a number of concerns who operate through the house to house peddler no doubt pay a state tax, we have always had a suspicion that a large percentage slip by without paying a tax either to the state or to the community.

There is no argument that the present law works a hardship on the legitimate merchant, who supports his state, county and community by paying a tax and at the same time sells his product as reasonable as he can.

CENTRALIZE OUR CHARITY EFFORTS

If the citizens of Artesia would centralize their donations for charity in the community chest fund the community chest would never lack funds and substantial saving would be effected by the entire community each year. Much money is wasted in giving to the promiscuous beggar, without investigation. In some instances the subject may be worthy, but recent occurrences lead us to believe that more often the public is gypped. We give more to get rid of the beggar, rather than take a little time to conduct an investigation to determine whether or not the person asking charity is really in need.

If the community chest is supported, the directing head of such an organization can conduct an investigation in all charity cases and give assistance to the needy. If all charity cases are referred to an organization, the fact will soon become well known to the professional beggars, who will pass the town up, rather than run the risk of having their little game exposed.

The beggar is not confined to the persons asking alms without giving anything in return. Only last week, the town was overrun with the wicker makers. These wicker baskets were sold at prices ranging from \$1.00 to \$1.75. The price of course depended on the ease with which they were sold. The first price was \$1.75 and the vender would reduce the price to \$1.00. In some cases the sales were made by a boy, who put up a hard luck story about having a sick mother and nothing to eat. The basket was not sold on the basis of its merits, but on the basis of sympathy.

WHAT MAKES A SMALL TOWN, SMALL
(The third of a series of three editorials)

The greatest hindrance to the growth of town or community is the public's apathy toward the support and patronage of the home industries. Much has been said and written on this subject, with very little desirable results. There are

PICKED UP ON MAIN

Several bad colds have been reported over town this week. Who ever heard of a good cold?

A strapping Military Institute Junior, when asked why he had let an Artesia midget throw him for a down, in Friday's football game, replied: "Well, I did not see him."

It appears to be a growing custom nowadays to adorn the lowly Lizzy with cute inscriptions such as: "I don't choose to run in 1928," "The Spirit of Artesia," etc., but the latest we've seen on an Artesia flivver is, F. O. B. (full of boloney).

Every once in a while there is a new doodle bug machine pops up for finding oil. We remember the last machine that was used in this field, although some of the operators no doubt remember it better than we do. It was one of these machines that operated on the radio principle and when you set it over a location and listened in you could hear the thungamadoo spit and fry when an oil strata was supposed to have been struck or when a water strata was hit, the thing would make a noise like water running out of a hydrant. This probably explains why some of the oil men still become nauseated and get out of the room when they hear grease frying or when they hear water running from a hydrant.

Quoting from the New York World of September 29th, we read: "There were, all reports say, many who witnessed the recent pleasantness in Chicago, but apparently New Mexican believe that woman's place is in the pulman. Thus our favorite Artesia, N. M. paper, the Advocate: 'Artesia will be represented at the Dempsey-Tunney fight in Chicago tonight, Wendall Welch started Sunday to take in the big battle. Pearl Morris accompanied him on the train east.'"

We appreciate the compliment paid us by the New York World in quoting the Advocate, but the real humor comes about in the mistaken gender of the word Pearl. In this case Pearl isn't a woman, but a he-man and very much so. Pearl Morris, a driller by profession, grew up out here in the west where men are men. And while we don't know anything about his personal habits, if he can't hide about a half package of Mail Pouch in his left jaw, he doesn't run true to form as a driller. And of course a New Mexico woman would not do this.

AUSTIN PORTER DIES AT ALBUQUERQUE

Austin Porter, well known Roswell business man and proprietor of the Magnolia Service Station at Roswell, died at Albuquerque Saturday evening, following a heart attack. Mr. Porter, in company with his wife and two sons had gone to Albuquerque to witness the football game between the New Mexico Military Institute and the New Mexico University. Mr. Porter went to the football field, but complained of feeling badly at the end of the first quarter and was taken to his room at the hotel, where he seemingly improved for a short time and was laughing and joking with his friends up until a short time of his death. At 8:15 he was heard to gasp and was dead before anyone could reach his bedside.

The remains were shipped to Roswell, arriving Tuesday morning. Funeral services were held yesterday afternoon. Interment was made at Roswell.

numbers of people, who consistently refuse to patronize home industry and yet at the same time they must realize, if they stop to think, that the value of their property is dependent in a large measure upon the character of the community in which it is located. There is no argument but that good schools, good churches, enhance the value of both city and farm property. The larger the taxable value of the town or the community, the greater are the possibilities for improved educational facilities.

The business man is necessarily a contributor to the things worthwhile in the community and his contributions in this direction will more than offset any savings offered by a mail order concern, granting that there may be a saving of a few cents on the mail order purchased, however, we have grave doubts as to actual savings effected, quality considered.

The law of supply and demand has pretty well regulated the price of commodities in any community and always will regardless of all arguments to the contrary notwithstanding.

The community that realizes the benefits to be derived from patronizing home industry will forge and show substantial growth. Improved education facilities, stronger churches, paved streets, better marketing conditions, more employment for our local laborers and more wealth will follow as a natural result.

DID YOU EVER STOP TO THINK?

By E. R. Waite

Louis Wiley, business manager of the New York Times, says: THAT intelligent reading of a newspaper gives you an education broad, liberal, useful in business or home life.

What the world is doing is told in your newspaper. News of nations, of parties, of science, of discovery is educational.

No man or woman can read the worth while, important news in a newspaper without being stimulated to know more of the backgrounds of history, politics and social affairs.

Whoever is not mutually curious and inquiring is mentally asleep. Whoever does not find his brain stirred by the news is mentally napping. What presidents and kings, congresses and parliaments, and plain people are doing in 1927 has its backgrounds in the same history of which one reads in books. The history of the past is not so stirring as that of today.

The newspaper is as interesting as life itself. Read the worth while news in it for your own good.

KOB RADIO PROGRAMS

Now that the days are growing shorter and the evenings correspondingly longer, when 7:30 comes on the farm the chores are all done, supper is over, and the farmer and his family can sit down for a restful evening spent in reading or tuning in on the various radio programs. When Monday nights come, don't forget to listen in on the agricultural programs put out by KOB 394.5 meters, 760 kilocycles, 5,000 watts.

Interesting material put out by the U. S. Department of Agriculture, sometimes in the form of dialogs, will be broadcast, featuring County Agent Robbins, who was so popular in last year's programs, and some of his neighbors. These dialogs will be well worth listening to as the information given is both timely and practical.

"Aunt Sammy" is starting out the fall programs in her usual snappy style and will have something new for her hearers every Monday evening. She will cover a wide range of subjects, all the way from menus and recipes for cooking to what to do when the family furnace goes on a strike.

Music for the programs will be furnished by KOB Studio Orchestra and a strictly musical program will be broadcast on Wednesday and Friday evenings at the regular hour, 7:30 to 8:30. Listen in, you'll be delighted.

Christmas Cards, engraved, embossed or printed—drop in and see them—Advocate.

INSIDE INFORMATION

Don't leave the lettuce on your salad plate. Eat it for the sake of the vitamins it contains.

A flat narrow collar or no collar at all and a V-shaped or U-shaped neck line is most becoming to a short, stout figure. Square neck lines should be avoided.

A little kerosene in clear water helps in window washing. Wash with even overlapping strokes and rub dry with soft paper or clean cloth. A rubber wiper can be used on large windows.

Carrots are a good source of vitamins. In winter, when they are older and have been stored a long time, they may lose some of vitamin C, but they are still valuable for their minerals and for vitamins A and B.

Don't have the same menu every time you entertain. Plan several good "company" menus, according to the season of the year. If the same people come often to your home, it's a good plan to have some record of what is served to guests each time, so you may duplicate your menus.

Much dust and dirt can be kept out of the house by taking precautions. If the roads near your home are not oiled, stop some of the dust at doors and windows. Dust window sills, porches, steps and walks daily. Cover the pantry and storeroom window screens with cheese cloth to keep dust out but let air in. If the walks about the house are muddy get the family to use shoe scrapers and have muddy rubbers and boots outside.

To store farm butter for winter use the best method is to wrap the rolls of prints in parchment paper and pack them in a stone crock, covering them with a strong brine and store in a cool place. The butter intended for winter use should be made from sweet pasteurized cream churned at a fairly low temperature, washed thoroughly and worked merely enough to dissolve the salt.

MAN IS KILLED IN COTTON GIN AT OTIS

While attempting to adjust a belt on a flywheel at the new Farmers Gin company plant at Otis, N. M., Braxton Denton, 22, was instantly killed late Saturday. Denton, who recently came to the Otis community from Arkansas, probably slipped or lost his balance and was thrown on a belt which carried him into the mechanism. His body was badly mutilated. Denton is survived by his wife and a 2-year-old daughter.

Now Read What 11,105* Doctors say About Lucky Strike Cigarettes Because "It's toasted"

Paul Whiteman, Noted Orchestra Leader, writes:

WHAT is the quality that Giacomo Rimini, Margaret D'Alvarez, Cesare Formichi, Armand Tokatyan, Emma Trentini, William Faversham, Florence Reed, Paul Whiteman, and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question:

Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105* doctors answered this question "YES."

These figures represent the opinion and experience of doctors, those whose business it is to know.

"It's toasted"

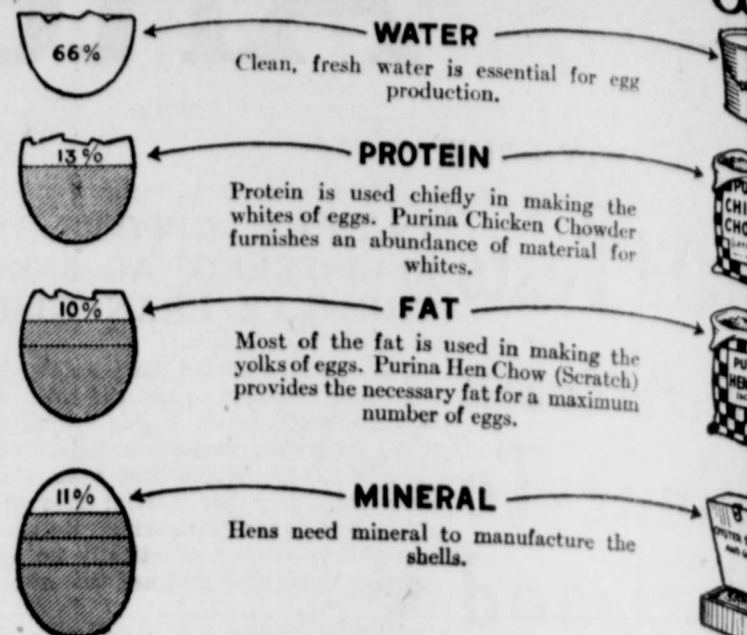

No Throat Irritation—No Cough.

"It was but recently, when I started to act as master of ceremonies with my hand at the Paramount Theatre, that I realized how vital perfect voice condition was to a performer. I have always been a consistent smoker and, fortunately, Lucky Strikes were my favorite brand. I like their toasted flavor and, best of all, I can smoke as often as I like, without fear of irritating my voice, which is becoming a great asset in my work."

* We hereby certify that we have examined 11,105 signed cards confirming the above statement.

TELEPHONE NO. 7

If you can find anybody but a politician or one who will profit by politics who is in favor of Amendment 2, you will do more than we can do. Every business man in the state is opposed to this amendment which would force on us an election every year.

OCCUPATION TAX UNJUST

We have often meditated on the gross injustice of the law, which permits towns and cities to levy an occupation tax on its industries, and at the same time prohibits the towns and cities from collecting an occupation tax from the itinerant peddler. The peddler gets by we are told because his company pays a state tax and because he merely takes orders for his goods to be delivered at some future date. It is true that a measure passed to remedy this evil might work a hardship on the jobber who sells his goods to the local merchant, if not properly drawn up, but there is no reason that it could not be so constructed to net the house to house canvasser. While a number of concerns who operate through the house to house peddler no doubt pay a state tax, we have always had a suspicion that a large percentage slip by without paying a tax either to the state or to the community.

There is no argument that the present law works a hardship on the legitimate merchant, who supports his state, county and community by paying a tax and at the same time sells his product as reasonable as he can.

CENTRALIZE OUR CHARITY EFFORTS

If the citizens of Artesia would centralize their donations for charity in the community chest fund the community chest would never lack funds and substantial saving would be effected by the entire community each year. Much money is wasted in giving to the promiscuous beggar, without investigation. In some instances the subject may be worthy, but recent occurrences lead us to believe that more often the public is gyped. We give more to get rid of the beggar, rather than take a little time to conduct an investigation to determine whether or not the person asking charity is really in need. If the community chest is supported, the directing head of such an organization can conduct an investigation in all charity cases and give assistance to the needy. If all charity cases are referred to an organization, the fact will soon become well known to the professional beggars, who will pass the town up, rather than run the risk of having their little game exposed.

The beggar is not confined to the persons asking alms without giving anything in return. Only last week, the town was overrun with the wicker makers. These wicker baskets were sold at prices ranging from \$1.00 to \$1.75. The price of course depended on the ease with which they were sold. The first price was \$1.75 and the vendor would reduce the price to \$1.00. In some cases the sales were made by a boy, who put up a hard luck story about having a sick mother and nothing to eat. The basket was not sold on the basis of its merits, but on the basis of sympathy.

WHAT MAKES A SMALL TOWN, SMALL
(The third of a series of three editorials)

The greatest hindrance to the growth of town or community is the public's apathy toward the support and patronage of the home industries. Much has been said and written on this subject, with very little desirable results. There are

PICKED UP ON MAIN

Several bad colds have been reported over town this week. Who ever heard of a good cold?

A strapping Military Institute Junior, when asked why he had let an Artesia miget throw him for a down, in Friday's football game, replied: "Well, I did not see him."

It appears to be a growing custom nowadays to adorn the lowley Lizzy with cute inscriptions such as: "I don't choose to run in 1928," "The Spirit of Artesia," etc., but the latest we've seen on an Artesia flivver is, F. O. B. (full of boloney).

Every once in a while there is a new doodle bug machine pops up for finding oil. We remember the last machine that was used in this field, although some of the operators no doubt remember it better than we do. It was one of these machines that operated on the radio principle and when you set it over a location and listened in you could hear the thingumadoo spit and fry when an oil strata was supposed to have been struck or when a water strata was hit, the thing would make a noise like water running out of a hydrant. This probably explains why some of the oil men still become nauseated and get out of the room when they hear grease frying or when they hear water running from a hydrant.

Quoting from the New York World of September 29th, we read: "There were, all reports say, many who witnessed the recent pleasantness in Chicago, but apparently New Mexican believe that woman's place is in the pullman. Thus our favorite Artesia, N. M. paper, the Advocate: 'Artesia will be represented at the Dempsey-Tunney fight in Chicago tonight, Wendall Welch started Sunday to take in the big battle. Pearl Morris accompanied him on the train east.'"

We appreciate the compliment paid us by the New York World in quoting the Advocate, but the real humor comes about in the mistaken gender of the word Pearl. In this case Pearl isn't a woman, but a he-man and very much so. Pearl Morris, a driller by profession, grew up out here in the west where men are men. And while we don't know anything about his personal habits, if he can't hide about a half package of Mail Pouch in his left jaw, he doesn't run true to form as a driller. And of course a New Mexico woman would not do this.

AUSTIN PORTER DIES AT ALBUQUERQUE

Austin Porter, well known Roswell business man and proprietor of the Magnolia Service Station at Roswell, died at Albuquerque Saturday evening, following a heart attack. Mr. Porter, in company with his wife and two sons had gone to Albuquerque to witness the football game between the New Mexico Military Institute and the New Mexico University. Mr. Porter went to the football field, but complained of feeling badly at the end of the first quarter and was taken to his room at the hotel, where he seemingly improved for a short time and was laughing and joking with his friends up until a short time of his death. At 8:15 he was heard to gasp and was dead before anyone could reach his bedside.

The remains were shipped to Roswell, arriving Tuesday morning. Funeral services were held yesterday afternoon. Interment was made at Roswell.

numbers of people, who consistently refuse to patronize home industry and yet at the same time they must realize, if they stop to think, that the value of their property is dependent in a large measure upon the character of the community in which it is located. There is no argument but that good schools, good churches, enhance the value of both city and farm property. The larger the taxable value of the town or the community, the greater are the possibilities for improved educational facilities.

The business man is necessarily a contributor to the things worthwhile in the community and his contributions in this direction will more than offset any savings offered by a mail order concern, granting that there may be a saving of a few cents on the mail order purchased, however, we have grave doubts as to actual savings effected, quality considered.

The law of supply and demand has pretty well regulated the price of commodities in any community and always will regardless of all arguments to the contrary notwithstanding.

The community that realizes the benefits to be derived from patronizing home industry will forge and show substantial growth. Improved education facilities, stronger churches, paved streets, better marketing conditions, more employment for our local laborers and more wealth will follow as a natural result.

DID YOU EVER STOP TO THINK?

By E. R. Waite

Louis Wiley, business manager of the New York Times, says: THAT intelligent reading of a newspaper gives you an education broad, liberal, useful in business or home life.

What the world is doing is told in your newspaper. News of nations, of parties, of science, of discovery is educational.

No man or woman can read the worth while, important news in a newspaper without being stimulated to know more of the backgrounds of history, politics and social affairs.

Whoever is not mutually curious and inquiring is mentally asleep. Whoever does not find his brain stirred by the news is mentally napping.

What presidents and kings, congresses and parliaments, and plain people are doing in 1927 has its backgrounds in the same history of which one reads in books. The history of the past is not so stirring as that of today.

The newspaper is as interesting as life itself. Read the worth while news in it for your own good.

KOB RADIO PROGRAMS

Now that the days are growing shorter and the evenings correspondingly longer, when 7:30 comes on the farm the chores are all done, supper is over, and the farmer and his family can sit down for a restful evening spent in reading or tuning in on the various radio programs. When Monday nights come, don't forget to listen in on the agricultural programs put out by KOB 394.5 meters, 760 kilocycles, 5,000 watts.

Interesting material put out by the U. S. Department of Agriculture, sometimes in the form of dialogs, will be broadcast, featuring County Agent Robbins, who was so popular in last year's programs, and some of his neighbors. These dialogs will be well worth listening to as the information given is both timely and practical.

"Aunt Sammy" is starting out the fall programs in her usual snappy style and will have something new for her hearers every Monday evening. She will cover a wide range of subjects, all the way from menus and recipes for cooking to what to do when the family furnace goes on a strike.

Music for the programs will be furnished by KOB Studio Orchestra and a strictly musical program will be broadcast on Wednesday and Friday evenings at the regular hour, 7:30 to 8:30. Listen in, you'll be delighted.

Christmas Cards, engraved, embossed or printed—drop in and see them—Advocate.

INSIDE INFORMATION

Don't leave the lettuce on your salad plate. Eat it for the sake of the vitamins it contains.

A flat narrow collar or no collar at all and a V-shaped or U-shaped neck line is most becoming to a short, stout figure. Square neck lines should be avoided.

A little kerosene in clear water helps in window washing. Wash with even overlapping strokes and rub dry with soft paper or clean cloth. A rubber wiper can be used on large windows.

Carrots are a good source of vitamins. In winter, when they are older and have been stored a long time, they may lose some of vitamin C, but they are still valuable for their minerals and for vitamins A and B.

Don't have the same menu every time you entertain. Plan several good "company" menus, according to the season of the year. If the same people come often to your home, it's a good plan to have some record of what is served to guests each time, so you may duplicate your menus.

ALFALFA SEED CROP TO 25 PER CENT GREATER THAN 1926

Production is expected to be 25 per cent greater than last year. The U. S. Bureau of Agricultural Economics estimates that 20 to 25 per cent of the crop had left the hands of growers up to October 4, compared with 45 per cent last year and 25 per cent two years ago, and 45 per cent three years ago.

Harvesting began later than last year and was delayed to some extent by rains, in some sections, especially in South Dakota and Kansas. Growers have not sold freely at prevailing prices and buyers have not been so active as a year ago.

Movement has been greatest in northeastern North Dakota, northeastern South Dakota and southeastern Nebraska. In the heaviest producing districts of the Dakotas and Minnesota 20 to 30 per cent had been sold by growers compared with 40 to 50 per cent last year.

Prices declined on an average 30c per 100 pounds during the past three weeks. On October 4, prices in fifteen districts or states averaged \$5.10 per 100 pounds, basis clean seed compared with \$8.35 a year ago. In the main producing sections of Minnesota and the Dakotas the average was \$4.60 compared with \$4.80 three weeks ago, \$8.60 a year ago, and \$5.40 two years ago.

The quality of the crop was reported fair to good in majority of districts, in spite of damage by rain and frost. In a few districts, particularly western Colorado, south central Montana, southeastern South Dakota and southeastern Nebraska the quality was reported good to very good.

SWEET CLOVER SEED MOVING SLOWLY

Sweet clover seed movement has been much slower than the rapid movement of last year. The U. S. Bureau of Agricultural Economics estimates that 20 to 25 per cent of the crop had left the hands of growers up to October 4, compared with 45 per cent last year and 25 per cent two years ago, and 45 per cent three years ago.

Harvesting began later than last year and was delayed to some extent by rains, in some sections, especially in South Dakota and Kansas. Growers have not sold freely at prevailing prices and buyers have not been so active as a year ago.

GAS CONSUMPTION IN NEW MEXICO AN INCREASE OVER 1926

SANTA FE.—Gasoline consumption in New Mexico is showing a steady increase this year over 1923 records of the state gasoline department.

Figures for September show that gasoline tax was paid on 3,177,121 for September, 1926. The increase in income from the gasoline tax if the rate had continued at 3 cents per gallon would have been \$17,774.55 with the 5 cent tax now in effect the increase for September over the corresponding month last year was \$81,316.87.

The increase in collections on gasoline tax and license fees paid by wholesale and retail dealers in gasoline, not automobile license fees as was erroneously stated in a previous item, was \$81,768.58.

TWO MORE GAME REFUGES FOR CHAVES COUNTY

Two more game refuges have been made in Chaves county by J. Stockley Ligon, state game and fish expert, it was announced Thursday. One is located north of Roswell in the caprock area and is known as the Caprock Game Refuge. The other reserve is located on the south caprock, known as the South Caprock Game Refuge, taking in the Douthitt Brothers and Sam Williams ranches. Both reserves comprise approximately 40,000 acres each.

DUCK SEASON OPENED SUNDAY AND WILL LAST UNTIL JANUARY 31ST

SANTA FE.—Use of power boats, sail boats and airplanes are tabooed by federal regulations in duck hunting, State Game and Fish Warden E. L. Perry advised hunters Thursday.

The duck season opened in New Mexico half an hour before sunrise Sunday and continues to January 31, he said.

"Because of the fact that migratory waterfowl are citizens of no one state, they are wards of the federal government which fixes the open seasons, bag limits, and the methods of killing. It is unlawful to shoot such birds between sunset and one half hour before sunrise, or to use a gun larger than 10 gauge in killing them.

"The use of dogs, decoys, and blinds is permitted, though power boats, sail boats and airplanes are taboo. While the federal law fixes the maximum bag limit for ducks for the country as a whole at 25 birds per day, the State Game Commission has reduced the limit to 20 for this state. The federal limit of eight geese and brants has not been changed.

"Water fowl shooting furnishes the most important hunting in the state, affording more sport for a greater number of people than any other species of game. New Mexico is fortunate in having two major water courses flowing from north to south through the state, which makes for leisurely travel of the birds on the fall migration. While reports or this year's flight are still conflicting, it is expected that it will compare favorably with those of other years."

Advocate want ads get results.

WILL YOUR SCHOOL HOUSE BURN DOWN?

How well is the school house to which you send your children protected against fire? If parents would pause to visualize the possibilities for horror in that question, they would not rest until they knew the answer. No better observance of Fire Prevention Week could be conceived than to form a committee of parents to inspect the neighborhood school for this purpose. Here are a few things to look for:

1. Are there accumulations of inflammable rubbish where fire can get it?
2. If there is a furnace in the basement, is there adequate protection for the ceiling over it?
3. Are the stoves too close to the woodwork?
4. Are the flues tight?
5. If there is electrical wiring, is it new or old?
6. Is it installed in conformity with the Underwriters' Code, or was it put in by some "jack" electrician in a rough and ready way? (This is a prolific cause of fires.)
7. Are greasy rags allowed to lie in some wooden closet, where spontaneous combustion can start a fire?
8. Are kerosene and gasoline kept tightly covered and away from fire?
9. Is there regular fire drill? Are all students compelled to participate? Is it orderly and rapid? Does everyone know his part so well that he would act automatically and without panic? When was the last one held, this year?
10. Do the main doors open outwards and are there easily accessible, always open, fire escapes in all two story buildings?
11. Have you seen these things for yourself and do you feel safe in having your child in the building?

Only Buick has an engine Vibrationless beyond belief

BUICK'S remarkable freedom from vibration is due primarily to three vitally important factors. *First*—the inherent smoothness of the Buick Valve-in-Head six-cylinder engine. *Second*—rubber engine mountings, front and rear. And *third*—the scientific and almost perfect balance of the entire Buick crankshaft assembly.

Only Buick enjoys these advantages. And only Buick provides the silken performance—the unvarying smoothness at all speeds—the longer life and greater serviceability of an engine vibrationless beyond belief.

FAREWELL RECEPTION

The membership of the Methodist church gave a surprise farewell reception in the Sunday school room Friday evening to their pastor, Rev. C. C. Higbee, and his family, who left Tuesday for his new field of labor. Short speeches expressing appreciation of the faithful work of Mr. and Mrs. Higbee, during their two years here and also at their departure and best wishes for their success and happiness in their new field were made by representatives of the various branches of the church. Those speaking were J. E. Robertson, John Gage, Mrs. Jernigan, and Mrs. Kinder. To these expressions of good will Mr. and Mrs. Higbee fittingly and feelingly responded. Friendship and good will were also expressed in a practical way by the presentation of numerous gifts from the different groups. Mrs. Blocker, president of the Sunshine class, who was in charge of the program, presented the gifts to Mrs. Higbee and Mr. John Gage, to Mr. Higbee, from the Prayer Circle. Mr. Higbee's class also presented him with a handsome purse. The program began with a musical prelude consisting of a piano duet by Anna Louise and Ola Irene Gage, and a vocal duet by Elizabeth and Elnora Gage.

Following the program there was a period of visiting during which the ladies served refreshments of cake and coffee, Mrs. Dixon, president of the Missionary Society being in charge of this part of the proceedings. This last social affair in the pastorate of Rev. Higbee was a very pleasant occasion, marred only by the consciousness of the impending separation of friends.

McUTCHEON—ROBERSON

Mr. O. L. McCutcheon and Miss Linna Kate Roberson drove on Monday afternoon to Carlsbad, where they were united in marriage by the Rev. Wainwright of the Church of Christ. They were accompanied to the county seat by Mrs. Margaret Ellis and Mr. and Mrs. Roy Hurd, who were present at the nuptials. They returned to Artesia that evening and have gone to housekeeping in the field, where Mr. McCutcheon has a good position with the Snowden-McSweeney Company.

The bride, who is a niece of Mrs. U. M. McCaw, came here from Arkansas some four years ago and has made many friends during her residence here. The groom has been here for the past two years and also enjoys the esteem of those who have had the pleasure of his acquaintance. The friends of both young people join in best wishes for a happy married life.

MARRIED AT CARLSBAD

John Henry Campbell and Miss Carrie DeAlma Chumley, both of Hope, were married at Carlsbad last week, Rev. John Thorne, pastor of the Carlsbad Presbyterian church, officiating.

REDIN TO COME

The Art department of the Women's club has arranged to have Redin bring a new collection of his paintings to Artesia in November. The collection is scheduled to be here on the 15th of the month and art lovers are looking forward to a great treat.

MISS HOGUE WINNER IN STATE AUDITION HELD AT LAS CRUCES

Miss Elizabeth Hogue, supervisor of music in the Artesia public schools and Erwin Hunter of Roswell were the winners in the Atwater Kent radio audition contest held at Las Cruces, Friday evening broadcasted over station KOB at State College. The winners will represent the state in the audition contest to be held in Dallas in November, according to press reports, given out Tuesday. The results of the contest were made known in a telegram sent to Carlsbad, Tuesday morning, at which time the judges decision was announced.

Twelve contestants competed in the audition contest. The other winners placed in the order given were: James Tucker, Las Vegas; Miss Dorothy Frye, Santa Fe; and Carlos Pevery, Belen.

DANCING PARTY

Noble Littlejohn gave a dancing party to a number of his young friends Monday evening. Refreshments were served by Mrs. Littlejohn, assisted by Mrs. Joe Clayton. The young people present were Mary Jackson, Ruth Bigler, Mary Smith, Fern McCaw, Lola Gray, Leon Clayton, Carroll Graham, Billy Garner, Warren Rogers and the young host.

A MATTER OF TASTE

Maid: Do you like my lip-stick?
Blade: I have tasted better.

Advocate want ads get results.

CHILDREN'S PARTY

William Wright Dunn celebrated his ninth birthday anniversary last Thursday afternoon with a party from four until six o'clock. After the children had played games for some time the little boy's mother, Mrs. Rube Dunn, served refreshments, consisting of ice cream and a birthday cake adorned with candles. Mesdames Preston Dunn, Carlos Dunn and Calvin Dunn assisted in serving. Black cats, witches, pumpkins and other Halloween devices made the occasion interesting to the children. The youngsters present were Charles Preston Dunn, Clyde Dunn, Ormond Loving, Delton Loving, Homer McRae, Bobby McRae, Billy Sidwell, Jessie Lee Cunningham, Modene Falkner, Elsie Jernigan, Clementine Cobble, Carlos Dunn, Bully Dunn, Mary Ethel Dunn, Josephine Dunn, Howard Reid, Kenneth Reid, Hannah Belle McCaw and Burton Bishop.

BRIDGE CLUB

The Second club was entertained by Mrs. L. P. Evans Tuesday afternoon. Mrs. Evans gave the club the pleasure of some fine victrola music and served delicious refreshments. Mrs. Ray Bartlett, the only substitute on this occasion, was elected a member of the club to fill a vacancy.

WESLEY CLASS PARTY

The Susannah Wesley class of the Methodist Sunday school, resumed its monthly meetings this week after a summer vacation. The meeting was held at the home of Mrs. O. S. Matteson on Tuesday afternoon and was well attended. The social phases of the party were particularly pleasant and the hostess served light refreshments. Election of officers was held, Mrs. Grover Kinder being chosen president and Mrs. Will Benson, secretary.

WOMEN'S CLUB

The first regular meeting of the Women's Club was held in the I. O. O. F. hall yesterday afternoon, the president, Mrs. C. R. Blocker, presiding.

The program was in charge of the Literary department with Mrs. Sid Cox leader. The program was given by Prof. Reid, superintendent of schools, who gave a very interesting and helpful talk upon the subject, "Women and the Schools." The talk was so full of suggestions as to how the women, and especially the mothers, can co-operate in making the schools the force in the lives of the children that it is intended to be, that the department regrets that all the mothers in the district did not hear it. In honor of the discoverer of our country Mrs. H. A. Stroup made a few brief remarks upon the subject, "Columbus Day," which was celebrated last week in various parts of the country. Mrs. Blocker, only delegate from the club to the State Federation meeting in Las Vegas, gave a splendid report of the first day of the convention, reporting the speeches of the state president, Mrs. Millie Taylor of Springer and one talk of Mrs. John Sherman, president of the General Federation. The report will be concluded at the next meeting, November 2nd.

THOMAS A. EDISON TO BROADCAST

Announcements have been received here that Thomas A. Edison will broadcast a program over forty-three stations tomorrow evening, beginning at 8 p. m. While the nature of the program is not known, radio fans are assured of a real and rare treat. Mr. Edison will broadcast from his laboratory at Orange, N. J., and the program will be relayed by a number of stations.

Artesia fans may tune in on any of the following stations and get a clear reception: KFI, Los Angeles; WOW, Omaha; KOA, Denver and WFAA, Dallas.

ELDER W. J. WADE CALLED BY HOPE BAPTISTS

W. J. Wade, who has been a resident of Hope for the past year, is serving his community in dual capacity. At Sunday's conference the Hope Baptists called Elder Wade as their local pastor. A few weeks previous to this time, he took charge of the Penasco Press as editor.

LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)

Redmon Pate visited in Carlsbad Sunday.

Lyle Moots was in Artesia on business Saturday.

Little Bill Jack Graham is quite sick this week.

Born to Mr. and Mrs. Otto Dozier, October 14th, a girl.

Born to Mr. and Mrs. Basil Kimbrough, October 9, a baby girl.

Mr. and Mrs. E. C. Latta were guests at the Lane home Sunday.

Doyle Nichols spent Sunday and Monday with his parents in Carlsbad.

Owing to engine trouble at the gin, considerable night duty has been necessary.

Miss Opal Ridgway visited over the week end at the home of Luke Alexander.

B. C. Mossman was in town Sunday overseeing the loading out of 2000 head of Turkey Track cattle.

With very few exceptions all the Lake Authorities were visitors at the Cotton Carnival one or more days.

Charley Foster sold 12,000 pounds of oats to the Roswell Trading Co. and had them hauled to Roswell this week.

Mr. and Mrs. J. P. Shinneman visited at the home of their daughter, Mrs. Harry Porter in Dexter Sunday.

Mrs. Howard Sims and children visited Mrs. J. I. McInney Saturday and Sunday and incidentally attended the carnival Saturday.

The first frost of the season bit us a week ago Tuesday night and was heavy enough to kill the cotton, tomatoes and all other products.

Pete Davis and Mr. Dixon are leaving Wednesday for West New Mexico points on business, expecting to be gone a week or ten days.

Frank Frazier is in Dexter assisting Rev. Dyar in the revival services which began there Sunday. Mr. Frazier conducts the song service.

Miss Mabel Baker has resigned her position in Roswell and has accepted a better one in Cuba, New Mexico. She left Wednesday to assume her new duties.

Lee Shinneman and family visited the family of his sister, Mrs. Geo. Benz in Carlsbad Sunday and attended the closing of the Christian protracted meeting which has been in session there.

Rev. J. J. Golden, who has been sent here by Conference to fill Rev. Thomas' place, preached his first sermon Sunday to a good congregation. Rev. Thomas has been appointed on the Clovis circuit, at which place he preached Sunday and he intends to move his family there in the near future.

The So and Sew club met with Mrs. Ned Hedges October 12, with three guests, Mrs. H. A. Sims, Mrs. D. A. Goode, Miss Opal and the following members present: Mesdames Moots, Moss Spence, Walden, Latta, Miss Gertie Moots and the hostess. After the business session, refreshments were served and the ladies adjourned to meet with Mrs. B. C. Moots, October 26. One new member, Mrs. H. A. Sims was elected to receive the honors of the club.

ARTELLS DICKSON CONCERT COMPANY

Appearing on our entertainment course this season is the Artells Dickson Concert Company in a versatile program of arias, ballads and negro spirituals, violin solos and pianologues. Mr. Artells Dickson, a Southern singer, who for two years was baritone soloist in a great New York church has a rich, resonant voice of exceptional volume, his personality is attractive, his manner unaffected. The violin solos by Miss Helen Hunt and the pianologues and other entertain- ment features by Martha Dickson, a charming Southern girl, lend variety and charm to the program.

WILL APPEAR AT HIGH SCHOOL TUESDAY EVENING, OCTOBER 25th.

BUICK BREAKS SALES RECORDS

Increase Averages 4,000 Cars a Month over Same Period in 1926

Flint, Mich., Oct. 15—Buick sales since the introduction of new models in July have shattered all records in Buick history, C. W. Churchill, general sales manager of the Buick Motor Company, announced today. The July, August and September total this year is 82,955 cars, as compared with 70,941 cars sold during the corresponding period in 1926.

"The average monthly increase during the last three months, over the corresponding period in 1926, amounts to more than 4,000 cars," said Mr. Churchill. "This represents an average increase of 1,000 cars a week, or considerably better than 100 a day."

"When it is recalled that these are retail sales figures, and not mere production totals, such a record seems to us highly significant. It means that the instantaneous public reception of the new Buicks was not a mere flash in the pan, but rather the forerunner of a sustained demand for Buicks, all over the country, based on the recognition that here was such style, comfort and performance as best filled the public's conception of value in a motor car."

WHAT CHILDREN SHOULD KNOW

GIFTS PREPARED AT HOME

Home-made cakes, cookies, doughnuts, jams, jellies and, in fact, any dainty for which the house-wife is particularly noted, may well be used as gifts at the Christmas season. How much more acceptable to the city cousin is a package of spicy cookies, a fruit cake, a box of home made candy or even a basket of shiny apples, all reminiscent of days on the farm, than any other gift that the country cousin could offer.

The idea of the attractive packaging and wrapping of these products of the kitchen should receive some thought and the donor will find that her gift gains added value by appearing in a novel and colorful guise.

Cookies may be placed carefully in boxes and then the whole package wrapped in paper, colored or white, and tied with colored cord or ribbon. The use of transparent cellophane, seen on most of the boxes of high grade candy today, offers another wrap for the dainties. Imagine how appealing a dozen or so cookies would look through a wrapper of this material, which would reveal them perfectly. Tying the package with red, green or printed ribbon and inserting a bit of holly through the knot will give it a seasonable touch. Fruit cakes may be given the same treatment and, if a more elaborate package is desired, the same material of transparent wrapping in red or green may be used. This wrapper serves two purposes in the wrapping of food, as it preserves the food in good condition, is grease and odor proof, as well as affording a package with real beauty.

An over-wrap for jars of jam and jelly gives them a sparkling and festive touch. Unusual and attractive is a squatty jar of orange marmalade placed in the center of a sheet of cellophane and the material drawn up around it and tied with a perky bow of gold gauze making a torpedo-shaped package. Home-made candy may be wrapped in this torpedo type of unit in colored wrapping, and several of these in harmonizing colors, placed in a box, thus giving the recipient a variety of home-made confections in a novel container.

Apples, polished to a brilliancy, nuts gathered in the fall and carefully dried, or even winter vegetables, specially prepared and cleaned, may become real holiday suggestions for the busy farmer's wife, as will a jar or so of her preserves from her cellar. Packages of these offerings will place them beyond the pale of ordinary gifts.

Once this idea of using home resources for gifts by presenting them in a holiday guise is inaugurated, it will be surprising to find the number of thoughts that each member of the household will have both as to the gifts themselves and to the wrapping of them.

Goes Back to Old Rome

Vitruvius was an architect of Rome, engaged in the practice of his profession a few years before the beginning of the Christian era. He published the book which bears his name about B. C. 25. Vitruvius mentions that floors of oak were nailed with iron nails. Oak floors today are nailed with steel cut or wire cut nails—through the side tongue—known as blind nailing.

Actions Decide Worth

Not alone to know, but to act according to the knowledge, is thy destination, proclaims the voice of my inmost soul, wrote Fichte, German philosopher. Not for indolent contemplation and study of thyself, nor for brooding over emotions of piety, no, for action was existence given thee; thy actions and thy actions alone, determine thy worth.

Northern Superstition

Elf was the wicked magician of Northern folklore, squat of figure, ugly of feature, and with long-matted hair. The elves were supposed to wound cattle and men with their elf-arrows—stone arrow heads—and children were removed from their cradles and replaced by imbecile elf-children.

Dead Sea Unique

The level of the Dead sea in Palestine is 1,300 feet below the level of the Mediterranean, and its waters are very salty and, therefore, heavy and buoyant. The River Jordan, flowing down from the north, empties into the Dead sea, and there is no visible outlet to the latter.

Ox-Wagon Fortress

Laagar is a term that was first applied by the Boers of South Africa to a defensive camp improvised out of ox-wagons. The wagons are arranged in a circle close together, with the baggage piled up between the wheels so as to form a continuous rampart.

DAYTON ITEMS
(Mrs. W. H. Rambo, Reporter)

B. F. Kaiser and family, of Loving were in Dayton Saturday.

The Stovall Drilling Co. moved their tools from the Terry No. 1 well Thursday.

Bob Gushua returned from West Texas oil field Monday and reports plenty of work.

Wailes Culpepper and family, of Arizona, were guests of the Wailes family here last week.

J. A. Lewis and wife, of Lakewood, were guests at the Earl McDaniel home Monday.

Mrs. Florence Miller was the guest of her brother, Tom Terry, of Cottonwood Thursday.

Earl Bowman and family motored to Malaga Sunday to visit with his parents, Dude Bowman and family.

Dayton Sunday school teachers and classes held their meeting at the B. M. McLarry home at Atoka Sunday.

Rev. and Mrs. J. E. Thomas paid a farewell visit to their Dayton and Lakewood friends Thursday, before departing for their new home at Clovis.

Mrs. S. A. Hughes, of El Paso Gap, daughter of H. N. Owens and wife, was operated upon at Carlsbad Monday by Dr. Pate, for appendicitis and was reported doing well Tuesday.

The Dayton Epworth League met at the Bob House home Sunday and plan to return to the M. E. church building to hold their regular meetings in the future. All members are requested to meet on time and remember the 5th Sunday League meeting to be held at Carlsbad October 30th.

STATE WILL SELL ROAD DEBENTURES \$750,000

SANTA FE.—The state financial board has ordered the sale of \$750,000 additional state highway debentures, state treasurer Warren S. Graham said Friday. Sale of \$500,000 of the debentures has just been completed, which means the pushing of highway construction in New Mexico.

WHAT PRICE MARRIAGE

Note received by a clergyman: "This is to let you know that me and Miss Rachel Gatooski are coming to your church on Saturday afternoon next to undergo the operation of matrimony at your hands. Please be there promptly, as the cab is hired by the hour."

All Termed Kanakas

Kanakas are the natives of the Hawaiian islands, but the name is especially applied to the natives of the New Hebrides and other South Sea islands who were formerly employed on the sugar plantations of Queensland, Australia.

THE DIFFICULT BUSINESS OF GETTING MARRIED

"Has you all made yo' arrangements fo' your marriage, Dinah?"

"Well, not quite all, Mandy. I've got to buy a trooso, an' rent a house, an' get mah husband a job, an' buy him a good suit o' close an' get some regular washin' work to do. An' when them's done, ah kin name the happy day."

DEPRECIATION

In marking up our accounts, we take off depreciation for our auto, our stock of merchandise if we are a merchant, our farm implements, if we are a farmer, etc., but we do not take off a depreciation for the human body. What a difference ten years sometimes makes.

The man who invests in life insurance adopts the only business method known to take care of the depreciation of his physical being.

MOHAIR BIDS ARE AGAIN REJECTED

EL PASO.—Bids on approximately 230,000 pounds of mohair pooled here by New Mexico and Arizona grower opened Tuesday at a meeting of growers and buyers and all bids rejected.

The growers decided to hold another sale here October 31. The highest bid made was 46 5-8 cents, according to W. W. Threagill, chairman of the growers' selling committee. The chairman said he expected to get a price of 52 or 53 cents.

FORTY-NINE TYPHOID FEVER CASES IN NEW MEXICO

SANTA FE.—Typhoid fever is general throughout New Mexico, with forty-nine new cases reported to the state health department last week, some of which may prove to be malaria or malta fever, it was said.

Fifteen new cases of infantile paralysis were reported as compared to thirteen last week, with the most recent cases at Estancia, Socorro and Alamogordo.

Short Summer

The air-mail pilots who fly over the Rocky mountains have a summer that lasts but two months—July and August—the other ten months being so cold in their line of service that they must wear thick, warm flying suits.

Stone Eye Glass Service

We recognize our responsibility in caring for the eye sight of our patients.

Our interest is therefore of a conscientious, sympathetic nature, governed by the desire to alleviate visual defects.

Our thorough, scientific examination, followed by furnishing lenses that are precise and therefore give relief, offers the answer as to why our patronage is constantly growing.

Like the crack of a whip!

IT wasn't so many years ago that freighting, ore-hauling and stage coach transportation were among the chief industries of this region.

That was in the days of the picturesque stage coach and when the "mule-skinner" cracked his whip over from four to twenty hard-working horses or mules. Some of the more artful drivers controlled their teams with a single rein, known as a "jerk line."

Today one man with only the fraction of effort that it required to drive a twenty-mule team, can control the equivalent of hundreds of horses—in electric energy.

The mere pressure of a finger brings into action, as sudden as the crack of a whip, electrical energy to simply light a room, flood a city with light or drive the human voice across the continent over the telephone wire.

TRAINMEN KILLED

VAUGHN, N. M. — Conductor Walter Oehse and brakeman F. M. Kelso were killed at 5:10 Tuesday morning at Tejon, just west of here, when their train was struck by another eastbound freight train which ran into the siding on which their train was standing.
The moving train crashed through several cars of the rear of the standing train. Cause of the accident has not been determined railroad officials said.
Eastbound passenger train No. 22 was tied up behind the wreck. Both dead trainmen lived at Belen.

SELECTION OF JURY IS COMPLETED IN THE FALL, DOHENY TRIAL

WASHINGTON, D. C.—After two days of painstaking examination, a jury was placed in the box Tuesday to decide whether Albert B. Fall, former secretary of the interior, and Harry P. Sinclair, oil promoter, conspired criminally in disposing of the lease of the navys great Teapot Dome oil reserve.

The jury was completed Tuesday afternoon, after a veritable procession of talesmen in and out of the box. Although when court opened only one juror's seat remained vacant, challenge after challenge from both government and defense removed those to whom the lawyers objected.

The jury which will hear the celebrated case consists of two women, one married and one single, and ten men, eight married and two single. The jurors all live in the District of Columbia and are as follows:

- Mrs. Annella L. Bailey, clerk, age not elicited.
- Miss Bernice Heaton, a telephone instructor, age not elicited.
- Gardner P. Grenfell, 26, single, cable splicer.
- Wm. H. Goucher, 39, married, a tire vulcanizer. Conrad J. Herzog, 56, married, salesman.
- Robert C. Flora, 39, married, sales agent.
- John P. Kern, 32, married, salesman.
- Bradner W. Holmes, 34, married, department store floor manager.
- John P. Costinett, 61, married, tailor.
- Norman L. Glassecock, 47, married, clerk.
- Edward J. Kidwell, Jr., 31, single, leather worker.
- Charlie Holt, 63, married, retired brick mason.

Chronology of Events in Oil Case.

Here is the chronology of events growing out of the naval reserve oil leases:
April 15, 1922—Senate inquiries whether leases have been made.
January 16, 1923—Senate finally orders investigation of leases by public lands committee.
October 15, 1923—Public hearing gets under way before senate committee.
January 24, 1924—Doheny frankly admits he sent \$100,000 to Albert B. Fall, interior secretary, in little black satchel during lease negotiations.
January 31, 1924—Senate adopts resolution directing appointments of special counsel to see annulment of leases.
February 1, 1924—House approves senate annulment resolution.
February 2, 1924—Former Senator Atlee Pomerene (Ohio) and Owen J. Roberts (Pennsylvania) appointed as special oil counsel.
February 18, 1924—Edwin Denby resigns as naval secretary after severe attacks on him in senate for his approval of leases.
March 13, 1924—Annulment suit in case of Teapot Dome entered at Cheyenne.
March 13, 1924—Annulment suit in case of Elk Hills entered at Los Angeles.
March 31, 1924—Sinclair indicted in District of Columbia supreme court for contempt of senate in refusing to testify further in senate investigation.
June 5, 1924—Fall, Sinclair, Doheny and son, Edward L. Jr., indicted in District of Columbia supreme court. Fall and Doheny charged with conspiracy; and Fall and two Dohenys charged with bribery.
December 16, 1926—Fall and Doheny acquitted on conspiracy charge.
February 28, 1927—United States supreme court orders Elk Hills returned to government on ground lease illegal and obtained through "fraud and corruption."
March 3, 1927—Sinclair found guilty of contempt of senate by District of Columbia Supreme court, sentenced to three months in jail and fined \$500.
October 10, 1927—United States Supreme court orders Teapot Dome returned to government holding lease illegal and result of "collusion

LAND OFFICE RECEIPTS ARE BREAKING PAST RECORDS EACH MONTH

Receipts of the state land office are breaking the past records each month, according to an announcement made last week in Albuquerque by B. F. Pankey, land commissioner.

Mr. Pankey says: The receipts for September exceeded those for the same month a year ago by about \$40,000, Mr. Pankey said, adding that a comparison of the months of the present year and a year ago showed excess from \$9,000 to the record of last month, \$40,000.

The improvement in the ranges in the state and the better condition of the cattle and sheep growers is responsible for a great deal of the increase in receipts, according to Mr. Pankey. He said he had collected \$7,000 recently from a cattleman, from whom a few months ago he would not have believed he could have gotten seven cents.

While the grazing rentals are increasing, the oil receipts have been falling off due to the poor price of crude oil and the decrease in activity in the leasing of land. The leases that are being made, however, are at better figures, according to Mr. Pankey.

LOCALS

George S. Reardon has moved his family to the Dave Bryant house on Missouri avenue.

Mr. and Mrs. C. A. Bulot and their guest, Miss Barbara Hatch, of Chicago, motored to Tularosa Sunday.

Owen McClay left Sunday for Seagraves, Texas, where he spent a few days looking after business matters.

Mr. and Mrs. J. M. Story started Sunday morning on a motor trip to Albuquerque and other points of interest.

Mrs. Joe Richards and children will leave tomorrow for Pasadena, California for the benefit of Mrs. Richards' health.

C. W. Bartlett, general manager for the Pecos Valley Theaters, to be located in Roswell, has opened an office at 115 West Third street, Roswell and reports that the theater project is moving along nicely.

Mr. and Mrs. Will Edd Carter and little daughter were up from Carlsbad Sunday visiting Mrs. Carter's parents, Mr. and Mrs. T. J. Stagner. Miss Ollie Simmons accompanied her niece and family home for a visit.

Miss Hazel Bynum has resigned her position of book-keeper in the First National Bank and will leave the last of the week to join her mother, Mrs. Gene Rowland, at Las Vegas and attend the Normal University.

Mr. and Mrs. Fred Brainard returned home Saturday from Buffalo, New York, where Mr. Brainard closed a successful season as a member of the Buffalo baseball team. Mr. and Mrs. Brainard were accompanied home by his mother, Mrs. C. V. Brainard, who had been visiting them in Buffalo for several weeks.

"MEET ME THERE"

INTEREST IN THE HOME PAYS

Interest in the Future

Here's a tip for the man of the house in a language he understands: Deal in these "futures" with a large, sure margin of safety and guaranteed return. Invest in new furniture and home happiness, and you'll clip coupons of satisfaction all your life. Good furniture and an inviting home atmosphere curb the young folks' desire to roam all over town looking for outside entertainment. It forms a closer bond between children and parents.

The living room furniture here is sound as a gold note, is made of preferred stock, is comfortable as an annuity, and will pay large dividends in evening relaxation. It's the kind of furniture that should cost many dollars more. Buy it and bank your savings.

LEGAL ADVERTISEMENTS

NOTICE

In the Probate Court of Eddy County, New Mexico.

IN THE MATTER OF THE ESTATE OF AUGUST STRAUSS, Deceased.

No. 564.
LAST WILL AND TESTAMENT OF AUGUST STRAUSS, Deceased.

To Fred Strauss, Baylis, Ill.; Herman Strauss, Ohlman, Ill.; Mrs. Minnie Hansen, P. O. Box 21, South Denver Station, Denver, Colo.; Mrs. G. C. Livingston, Broken Bow, Georgetown Route, Nebr.; J. L. Strauss, Route No. 1, Box 2000, Montrose, Calif.; Jack (Alvin) Strauss, Box 197, Lyman, Nebr.; And to whom it may concern:

You are hereby notified that the alleged Last Will and Testament of August Strauss, Deceased, late of the County of Eddy and State of New Mexico was produced and read in the Probate Court of the County of Eddy and State of New Mexico on October the 3rd, 1927 and the day of the proving of said alleged Last Will and Testament was thereupon fixed for Monday, November the 14th, 1927 at ten o'clock in the forenoon of said day, at the Probate Court room at the Court House in Carlisbad, New Mexico, and all persons having any objection to the Probating of said Will will file their objections in writing with the Clerk on or before the time set for hearing.

GIVEN under my hand and seal of this Court on the 5th day of October, 1927.

(SEAL)
THELMA T. LUSK,
County Clerk.

NOTICE FOR PUBLICATION

Department of the Interior, U. S. Land Office at Las Cruces, New Mexico, Oct. 1st, 1927.

NOTICE is hereby given that Arcadio Hernandez, of Dayton, N. M., who, on August 1st, 1922, made Add'l Hd. Entry containing 160 acres, Act 12-29-16, No. 025758, for N $\frac{1}{2}$ SE $\frac{1}{4}$ and E $\frac{1}{2}$ NW $\frac{1}{4}$, Section 17, Township 19 South, Range 25 East, N. M. P. Meridian, has filed notice of intention to make three year Proof, to establish claim to the land above described, before S. W. Gilbert, U. S. Commissioner, at Artesia, New Mexico, on the 23rd day of November, 1927.

Claimant names as witnesses:
David S. Martin, of Dayton, New Mexico.

Charlie Martin, of Dayton, New Mexico.

Irvin Martin, of Dayton, New Mexico.

Jesse T. Collins, of Artesia, New Mexico.

ORDINANCE NO. 211

"AN ORDINANCE GRANTING TO V. S. WELCH, HIS HEIRS AND ASSIGNS, OF ARTESIA, NEW MEXICO, A FRANCHISE FOR THE CONSTRUCTION AND OPERATION OF A GAS DISTRIBUTING PLANT OR SYSTEM IN THE TOWN OF ARTESIA IN THE COUNTY OF EDDY FOR A TERM OF TWENTY-FIVE YEARS AND FIXING RATES AND CHARGES FOR NATURAL GAS SERVICE AND COLLECTION THEREFOR AND THE USE OF THE STREETS, ALLEYS AND PUBLIC GROUNDS OF SAID TOWN FOR THE PURPOSE OF LAYING GAS MAINS AND LATERALS IN AND UNDER SAME FOR DISTRIBUTING GAS TO THE VARIOUS CUSTOMERS AND INHABITANTS OF SAID TOWN.

BE IT ORDAINED: BY THE BOARD OF TRUSTEES OF THE TOWN OF ARTESIA:

1. THAT V. S. WELCH OF ARTESIA, NEW MEXICO, his heirs and assigns are hereby granted and given the right, privilege and franchise in the town of Artesia, New Mexico, and over the streets and alleys thereof, to transmit, transport and distribute, erect and maintain such system as he may deem necessary for the purpose of transmitting, transporting and distributing natural or artificial gas to the inhabitants of the said Town of Artesia, New Mexico and for the purpose may acquire, own, construct, reconstruct, maintain, use and operate in, over, under and across the present and future streets, highways, alleys, bridges and public ways of the said Town of Artesia, New Mexico, pipes, pipe lines or any other system for the purpose of transmitting, transporting and distributing gas to the said citizens and erecting and maintaining suitable system therefor, with all the necessary and desirable appurtenances, including regulating stations, vent pipes thereto, gate valves, gauges, stop boxes, manholes, mains, low, intermediate and high pressure mains, pipes, feeders, service pipes and conduit and service pipe extension and such other things as may be necessary for use in operating said system for the purpose of transmitting, transporting, conducting, conveying and delivering gas into, within, through and out of the Town of Artesia, New Mexico, and of supplying such gas to the Town of Artesia, New Mexico, and the inhabitants thereof and to corporations, industries, and manufacturers therein for light, heat, power and other purposes, (including any purpose for which gas is now or may hereafter be used) it being expressly understood that all and singular the rights, privileges and franchises herein granted and conferred upon V. S. Welch of Artesia, New Mexico are so granted and conferred not merely with reference to natural gas, but also with reference to the manufacture of both natural gas and manufactured gas, as per terms hereinafter set forth.

2. THAT the said Grantee in laying, maintaining and inspecting its pipes and mains, and installing its system for transmission, transportation, conveying and delivering gas to the various consumers of the said town shall so construct, repair and maintain said system and lay said pipe lines and mains so as to interfere with the use of the said streets and alleys of the said town as little as can reasonably be done; and when said pipe lines, mains and system have been installed, altered, repaired, or inspected, said streets and highways shall be placed in as good condition as before the said highways were disturbed by laying of the said mains and pipes and installing said system, transmitting, transporting, distributing and conveying gas as hereinafter provided and that said Grantee shall interfere with the use of said streets and alleys of said town as little as possible in constructing and maintaining systems, vent pipes, thereto, gate valves, gauges, stop boxes, man-holes, low, intermediate and high pressure mains, pipes, feeders, service pipes, conduits and service pipe extension.

3. Upon request of any person, joint stock association, partnership or corporation, owning or occupying property in said Town on which is situated a building in which said person, joint stock association, partnership or corporation contracts with grantee to use gas, the lines on whose premises shall be along the route of any low pressure main of said grantee and abutt on the street, alley, or public road so occupied by said low pressure main, the grantee shall at its own cost and expense construct a service pipe of proper size and capacity from such main to the curb line of said premises nearest to that main to furnish such person, joint stock association, partnership or corporation connection with such low pressure mains of said grantee, provided said curb line shall not exceed a distance of one hundred (100) feet from such low pressure line. Said grantee may be required in any instance to extend their existing low pressure mains a distance of not more than two hundred (200) feet to supply any person, joint stock association, partnership or corporation with gas, such extension to be at the expense of said grantee and no instance shall it be required at its expense to extend any such main a greater distance than two hundred (200) feet for each customer, contracting to use gas as aforesaid. In those cases wherein said grantee is required hereunder to extend its low pressure mains not exceeding said two hundred (200) feet aforesaid, provided that said grantee shall never be required to connect or allow any connection for any service pipe with any intermediate or high pressure mains and further providing that said grantee shall not be required to run any service pipe from any main to any curb except at right angles to such curb and main, the grantee shall never be required at its expense to lay or construct any service pipe extension beyond the curb lines of any streets or alleys. THE ENTIRE EXPENSE FOR labor and material for such service pipe extension beyond the curb line of any street shall be borne solely by the person, joint stock association, partnership or corporation or industry or manufacturing concern or any other customer desiring same. However, the said grantee at its option and without obligation hereunder may construct said service pipe extension from the curb lines to the point desired by such consumer with necessary connection to the meter provided such consumer shall first deposit with said grantee the reasonable estimated cost of the labor and material required in constructing such service pipe extension beyond the said curb line and out of such sum so deposited, said grantee shall first pay all cost of all labor and material used in the construction of said service pipe extension beyond the curb line, together with a reasonable sum for the overseeing such construction and the remainder of such sum, if any, shall be by it promptly returned to such consumer depositing the same. The said grantee shall not be required to furnish gas to any person, joint stock association, partnership or corporation, industry or factory unless and until such person, joint stock association, partnership, corporation, industry or factory shall have properly piped the premises in which gas is desired as required by said Town as certificate thereof furnished to said grantee showing that the said premises have been properly equipped and properly piped and appliances have been installed therein for the reception of gas therein and thereon before the said grantee shall be required to furnish gas to such proposed customer.

4. The said grantee shall never be required to furnish or continue to supply gas to any customer when the designated official or inspector of said Town shall have reported to it the piping, appliances, fixtures or any part thereof on such consumer's premises as being improper, unsuitable or unfit for gas to be supplied to or through the same to such customer, and in such event said grantee upon notice from such officials shall cease to supply gas to such customer without notice, until such pipe, appliance or fixture on such premises shall have been properly repaired and approved by such official inspector and certificate issued by him and furnished to the said grantee showing the proper repairs of said pipe, appliance and fixtures. The grantee shall at all times furnish gas for light, heat and power service to said Town and inhabitants thereof, and persons, joint stock association, partnership, and corporations therein requesting same, in sufficient quantities to meet all reasonable demands and so far as commercially practicable without undue interruptions or fluctuations, provided, however, that said grantee shall not be liable for interruptions or fluctuations in service caused by acts of God, the public enemy, strikes, riots, bursts of mains, diminution or failure of supply of natural gas or other unavoidable contingencies which could not ordinarily have been foreseen and prevented or remedied by said grantee.

5. Gas meters shall be read at least once a month and said grantee shall render monthly to its customers bills for gas so furnished and services rendered during the period between such meter readings. Said grantee shall have the right to discontinue service to any customer who shall fail to pay any bill for gas and services rendered within ten days after issuance of bill therefor, which shall be sufficient notice when the bill aforesaid has been placed in the United States mail, addressed to the subscriber to the place where said gas has been used, and in case said bill is not paid within the said ten days and said grantee disconnects its lines and discontinues its services to said customer, then said grantee shall have the right to charge for reconnection of its lines and for re-establishing its services to such consumer the sum of One (\$1.00) Dollar for such reconnection, and for each reconnection so made as herein provided, which charge for such reconnection shall be paid in advance, and said grantee shall also have the right to discontinue the services of gas to any customer who shall use gas of grantee not contracted for with said grantee.

6. Meters shall be furnished by grantee as hereinafter provided. The said grantee shall have access to customers' premises at all reasonable hours to install, inspect, test or read a meter, and to repair, remove or replace the same or any property of said grantee situated on the customer's premises. Customers shall permit no one other than an agent, official or employee of said grantee to install, change, remove, connect or disconnect the meter or other property of said Grantee. The grantee shall never be required to furnish gas or services to any customer who is in default in the payment for gas or services furnished by said grantee either at the same premises or elsewhere until the arrears have been fully paid and settled for.

7. The grantee shall furnish gas to the said Town and the inhabitants thereof, as herein provided at the rate of ONE DOLLAR (\$1.00) per thousand cubic feet, same to be paid monthly as bills are furnished as hereinabove set forth to its customers, and in case such bill is paid on or before ten days after issuance, the same shall be discounted at the rate of ten per cent (10%) per thousand cubic feet. Said bills shall be payable at the office of the grantee in Artesia. Said grantee shall furnish gas to industries or factories within the said Town at such rate as may be agreed upon from time to time by them and such customer, subject, however, to the laws of the State of New Mexico in such cases provided.

8. Each customer shall deposit with the said grantee in advance and before it makes connections with the premises of such customer for each meter furnished to such customer the sum of \$10.00 upon which said grantee shall pay such customer interest at the rate of six per cent per annum where such deposit is left with said grantee for a period of at least six months and in addition to the charge of ONE DOLLAR (\$1.00) per thousand cubic feet as hereinabove provided, it being agreed, however, customer shall be entitled to a return of the deposit upon termination of his contract with grantee, grantee being privileged to withhold from consumer the amount of any unpaid debt of consumer to it.

9. The minimum charge for each customer for gas and meter per month shall be Two Dollars (\$2.00).

10. The said grantee shall have the right to excavate along, across or under any of the streets or alleys or bridges in said Town for the purpose of laying its pipes and mains and installing its system to furnish gas to said Town and the inhabitants thereof, and to lay its pipe lines, mains and install its system across, under and on such streets and alleys of said Town, provided however, grantee shall deliver to the Town Clerk a blue-print or map prior to the laying of any mains, gas lines, or the commencement of any other plan of construction contemplated within the corporate limits of the Town of Artesia, showing the exact location of the said mains, lines or other structure and before the said works shall be commenced the said plan of construction shall be approved by the proper officer designated by the town of Artesia.

11. Grantee in accepting this Franchise subject to conditions express and implied agrees to begin construction of its pipe line and mains into said Town within ONE HUNDRED EIGHTY days from the passage hereof, and agrees to have its line and mains into said Town by one year after passage hereof and agrees to continue the laying of its lines, mains and laterals for the purpose of furnishing gas to said Town and the inhabitants thereof with reasonable dispatch after its lines and mains have been constructed in said Town. In event that those things enumerated in this paragraph, by the Grantee to be performed, be not done within the time limit provided for herein or if the Grantee herein fail to furnish and maintain a reasonably adequate supply of gas, or to render reasonably satisfactory service, nothing in the foregoing Franchise to the contrary, the Town of Artesia may after having given written notice to the Grantee of its complaint declare forfeiture of this Franchise after six months from the day of the giving of the said notice, provided the cause

THE INTERNATIONAL ORATORICAL CONTEST WON BY MEXICAN BOY

WASHINGTON.—With a fiery and impassioned address typical of his race and spoken in Spanish, 19-year-old Arturo Garcia-Fermenti of Mexico City, captured the International Oratorical contest from three other young men and a girl representing four other countries.

Young Fermenti made a plea for a revision of the Monroe Doctrine, an American League of Nations and a better understanding among the countries of the two American Hemispheres. Scoring the placid delivery of his competitors and their calm elucidation of national accomplishments, the young Mexican let loose a torrent of words, punctuated by free-moving gesticulations and during his oration abandoned restraint walking rapidly about the stage as he spoke.

The contest was a victory for foreign language, Georges Guiotguillain of France with a fervent exposition in French of his native country's culture took second place. The contest was held at the Washington auditorium Friday night before an assemblage including many diplomatic representatives and government officials.

Miss Dorothy Carlson, 17-year-old Salt Lake City, Utah high school senior, who represented the United States and spoke on the meaning of the American constitution, took fourth place. Frederick P. Hotson of Tavistock, Ontario, Canada, was third, while James K. Watson of England was fifth and last.

Secretary Wilbur presented the contest trophy to Fermenti, while the United States Marine band played the Mexican patriotic airs.

The judges were Minister Van Royen of the Netherlands, of the United States, Professor Rivera of Harvard University, Professor Richard H. Wilson of the University of Virginia, Dr. Glen L. Swiggett, foreign service expert, and Frederick A. Muller, International engineer.

ALONG LIFE'S TRAIL
By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

THE SELF-MADE MAN

HOLMES. I believe it is, tells in one of his essays of an Irishman who built for himself a house down in Cambridgeport of stray materials which he had picked up.

He was his own carpenter and mason and builder. The house was constructed in accordance with his own design, and, as Holmes said, was a wonderfully good house considering who built it. It is true that the chimneys were unsymmetrical and the doors sagged, but how could one expect anything otherwise when one considers the materials with which the Irishman worked and his experience and training in building construction?

"I don't like to have people help me," Jordan said to me once. "I like to feel that what I am and what I have done I am myself responsible for, and that I am under obligation to no one for my present position."

That was the way Stone felt, for Stone was a self-made man who had married a woman who, if she could be said to be made at all, had certainly been constructed in her own laboratory. Stone was very much like the Irishman's house in Cambridgeport.

It would be admitted that Stone had made a commendable success in business; he had made money, but he had paid so close attention to business that he had little or no time for anything else. He lacked the polish and the careful manners and the finesse which come from training and from education. He was narrow in his outlook and narrow in his opinions. And yet, considering the conditions under which he had grown up and the fact that he had made himself, he was really wonderful, and he admitted it.

The self-made man is entitled to a great deal of credit. He works under difficult conditions with ill-assorted materials often. He has many handicaps to overcome, many problems to solve, and he must do these things alone, without direction, often with little companionship and little encouragement from others. He can be excused if his product, as is often the case, is crude, and lacking in beauty and symmetry of design. It may have strength even if it lacks artistic qualities.

Let us send The Advocate to your boy or girl who is away to school—Special rates.

of the said complaint for forfeiture shall not have been corrected.

12. Rights and Franchises herein and hereby granted shall continue for a period of TWENTY-FIVE years from the date of the granting hereof.

By order of the Board of Directors of the Town of Artesia this 20th day of September, 1927.

C. E. MANN,
Mayor.

Attest:
EDWARD STONE,
Town Clerk.

"Gittin' Thar"

He was sparking his girl and was just ing her he had a little farm, a team and some pigs and a cow, and was thinking of building a little home—

But right then the mother called: "is that young feller thar yit?" Mary replied: "ma, but he's a gittin' thar." It is much the way with the thoughtful person who saves each week from his earnings and opens an account at a good bank like ours, where his savings will be secure. He may not be "thar" but he is surely "tin' thar" all right.

are you one of these

—one of the people who still believe that long distance calls are expensive. Although this is 1927, there are still a few such people left.

Of course, long distance calling is not expensive. For instance on a Station-to-Station call of 100 miles, the day rate for three minutes is only 85 cents.

The same Station-to-Station call of 100 miles between 7 p. m. and 8:30 p. m. is but 65 cents, while between 8:30 p. m. and 4:30 a. m. it is only 45 cents.

Rather cheap round trip!

Remember, it is not necessary to wait until midnight to get these discounted rates.

MEXICO CROP REPORT FOR 1927

The condition of corn in Mexico has continued to improve under favorable weather and a production of 3,660,000 bushels is indicated for the crop of October 1, 1926. The United States shows an improvement over 1926, and 2,603 million bushels are estimated, compared with 2,050 million bushels harvested in 1926.

WHEAT: The average yield for New Mexico is estimated at 22 bushels, indicating a production of 420,000 bushels. This is compared with 177,000 bushels harvested last year. For the United States, 2,603 million bushels are estimated, compared with 2,050 million bushels harvested last year.

The yield per acre of oats in Mexico is estimated at 22 bushels, compared with 1,512,000 bushels harvested last year. The United States crop is estimated at 1,250 million bushels, against 1,250 million bushels harvested in 1926. The State barley crop is estimated at 18 bushels per acre, compared with 208,000 bushels harvested last year. The United States crop is estimated at 1,250 million bushels, against 1,250 million bushels harvested in 1926.

POTATOES: The yield in New Mexico is estimated at 150 bushels, compared with 166,000 bushels harvested last year. Potatoes are of importance as a crop in this state. Up to 26 cars had been shipped from Luna, Rio Arriba, and Sandoval counties. The United States production is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested last year. The New Mexico crop is estimated at 123,000 bushels, compared with 135,000 bushels harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested in 1926.

The hay crop of New Mexico is estimated at 400,000 tons, compared with 435,000 tons harvested last year. Of this year's crop, 297,000 tons are estimated as alfalfa, compared with 297,000 tons harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested last year. The New Mexico crop is estimated at 123,000 bushels, compared with 135,000 bushels harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested in 1926.

The apple crop of New Mexico is estimated at 34 per cent of the crop in New Mexico is half as large as last year, and has been shipped to October 1, 1926, and a total of 283 cars shipped for that season. The United States apple crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested last year. The New Mexico crop is estimated at 123,000 bushels, compared with 135,000 bushels harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested in 1926.

The bean crop for New Mexico is reported to have yielded 46 million bushels, compared with 46 million bushels harvested last year. A good quality, has been produced, and the loss from hail and the fields from excessive moisture is reported to be considerably less than at this time to determine how great. The acreage planted in most counties of the year, except in the producing sections, which is reported to be over last year.

CORN: The yield per acre is estimated at 260 pounds, compared with 260 pounds harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested last year. The New Mexico crop is estimated at 123,000 bushels, compared with 135,000 bushels harvested last year. The United States crop is estimated at 1,147,000 bushels, compared with 1,147,000 bushels harvested in 1926.

LOCALS

R. O. Cowan shipped a car of mules to Newton, Mississippi, Friday.

Mr. and Mrs. G. M. Winans and Miss Merrill Bradley motored to Roswell Saturday.

A. A. Kaiser, of Dayton, was attending to business matters here, Saturday afternoon.

Rev. N. C. Whitlock spent the week at Carlsbad, attending to matters connected with his church work.

Elza White shipped out four cars of cattle Thursday from his ranch near Hope to the market at Kansas City, Missouri.

Phillip R. Corkin, deputy game and fish commissioner, spent a short time here Saturday, attending to duties connected with his office.

Mr. and Mrs. Bryant Williams, of Hope, were shopping in Artesia Monday. Mr. Williams informs us that he is preparing to feed 1000 lambs this winter.

Mr. and Mrs. J. S. Worley, Mr. and Mrs. Pete Loving and children and Mr. and Mrs. J. W. Nicholson attended the meeting being conducted at the Church of Christ in Carlsbad Sunday evening.

Mr. and Mrs. Sam Williams and little daughter, Ann Adele, Mrs. Williams' mother, Mrs. Woods, and Mr. Williams' mother, who is here from Oklahoma visiting the family, were visitors to Roswell Saturday.

The state game and fish commission has adopted the recommendation made several weeks ago that the season on quail in Chaves county be closed for the month of November. This recommendation was made by the Chaves County Game Protective Association as another step toward conservation of game in Chaves county. While there are many more quail this year than for several years it was the opinion of the majority of local sportsmen that a 30 day quail shooting season in Chaves county was sufficient. The open season on quail in Chaves county, according to the order of the state game commission, is from December 1 to December 31 inclusive, just what it was last year.—Roswell Record.

WINKLER COUNTY OIL FIELD IS NOW READY TO TAKE OFF THE LID

With the Independent and Pure Oil Companies preparing to bring in several important wells, and drill others, the Winkler County field is now ready to take off the lid, and open up for all it is worth, according to authentic information.

Two wells to be brought in by the Independent company, will cause the drilling of five offsets immediately followed by others. The same condition prevails on the Pure acreage, with a large number of offsets due to be started soon.

A large number of the major companies are in this field, and all who have good acreage, are preparing to develop holdings as much as possible. The Southern Crude Purchasing Company has steadily continued their intensive development, and the other companies are starting their work for protection of their interests.

The field is proven as one of the greatest in west Texas, destined to bring a great quantity of the liquid gold to the surface for consumption during the coming years.

With the development going on in Winkler county, both Loving and Reeves counties are coming into the limelight for more wildcats. Several locations that are contemplated are not ready yet for announcement, due to insufficient acreage in the drilling block, but will soon be completed.—Pecos Enterprise.

QUAIL SEASON CHAVES COUNTY CUT THIRTY DAYS

The state game and fish commission has adopted the recommendation made several weeks ago that the season on quail in Chaves county be closed for the month of November. This recommendation was made by the Chaves County Game Protective Association as another step toward conservation of game in Chaves county. While there are many more quail this year than for several years it was the opinion of the majority of local sportsmen that a 30 day quail shooting season in Chaves county was sufficient. The open season on quail in Chaves county, according to the order of the state game commission, is from December 1 to December 31 inclusive, just what it was last year.—Roswell Record.

SUPPLY THE CATTLE THE MARKET DEMANDS

In days gone by the cattlemen considered a cow was a cow and a calf was a calf, regardless of the type, conformation or quality, but he must look upon his cattle from a different viewpoint today if he expects to stay in the cattle business and meet the demand of the consumer, says Dr. M. R. Sharp of the New Mexico Agricultural College.

Cattle are no longer sold as just cattle or fat animals on the market, but are sold according to conformation, finish and quality; therefore, it is essential that the rangeland become familiar with these various terms, so that he will understand what they mean on the markets.

For the protection of the consumer, the carcass is graded and stamped according to whether it is prime, choice, medium, common or inferior. The carcass being stamped in this way assures us of getting what we pay for and not getting a medium or common grade at a choice grade price.

The cattlemen should learn to grade his cattle at home before shipping because they are never sold as bulk on the market, but must be graded and sold according to the grade in which they are classed. This work must be done by the commission men at the stockyards, but the expense must be borne by the shipper and it naturally means high-priced labor.

It is not necessary for the cattlemen to dispose of his entire foundation stock in order to produce the quality that is in demand, but it is necessary for him to cull out the undesirable animals. He can well afford to take advantage of the present market prices and do intensive culling. Then by purchasing purebred bulls of the proper type, he will soon have a herd that will be in demand by the feeder and will also have the satisfaction of knowing that when his cattle go to market, they will be able to meet the market demand.

Why Chevrolet Performance is Thrilling Millions

Never before was a low-priced car so delightful to drive as today's Chevrolet!
Fast get-away... easy, smooth operation... high speed roadability... unflinching power... and flashy acceleration—
—exactly the type of performance that everyone wants in an automobile today!
In addition, there is all the finger-tip steering, all the positive braking and effortless gear shifting that have made Chevrolet so decidedly popular for congested traffic. And never before was a low-priced car so comfortable—
for Chevrolet springs are 88% as long as the wheelbase... and built of chrome vanadium steel!

Come in! Learn what a feeling of confidence it gives you to drive a car that is powered for the exceptional need... that is smooth and quiet at every speed... that responds to the slightest pressure on the steering wheel.
Then you'll know why millions have acclaimed today's Chevrolet as the finest performer in the low-price field!

MRS. FRANK CHILDERS DIES AT CARLSBAD BURIAL MADE SUNDAY

Mrs. Frank Childers, age about 32 years, wife of Frank Childers, head ginner of the Artesia Alfalfa gin, died at Carlsbad Friday evening, following a brief illness of some three weeks duration. Mr. and Mrs. Childers have lived in this community some two years and Mrs. Childers had made a number of friends here, who will regret to learn of her untimely departure.

Funeral services were held at Carlsbad, Sunday afternoon at 4 p. m., Rev. Coxey, pastor of the Carlsbad Baptist church officiating. Interment was made in the Carlsbad cemetery.

The funeral services were attended by the directors of the Alfalfa Association and a number of friends of the Childers family.

CALL FOR ASSEMBLY COMMITTEE MEETING

Senator Z. B. Moon has been notified that a meeting of the Methodist Assembly committee will meet in Cloudcroft on November 1st. Senator Moon was appointed commissioner by the recent El Paso Conference to assist in locating a summer assembly site for the southwestern district.

Woodstock typewriters for sale—Advocate Office.

DEATH OF MISS MOORE

Miss Ethel Moore, who was taken to the hospital at Alamogordo last Friday passed away on Monday and the funeral services were held there on Tuesday. Both Mr. and Mrs. Moore were with their daughter at the time of her death. The case of Miss Moore is a sad one. She was taken ill with goat fever some months ago and was never able to recover from the effects of the disease. She had been in training for the nursing profession in the Alamogordo hospital before her illness.

NEW ROOF ON LIBRARY

The Library Board feels that it has made a great improvement in the building in putting on a new roof, which is guaranteed to last a life time. Various other improvements have been made recently and the Board is busy continually in improving the efficiency of the library in every way.

CARS STOLEN

Three cars were reported stolen in Roswell Saturday evening. It was also reported that two were stolen from here on the same night, but this report could not be verified by local officers. Neither of the three cars stolen in Roswell have been recovered, according to early information.

Calling cards, 100 for \$1.75, paneled stock.—The Advocate.

HIGH SCHOOL JUNIORS ARE DEFEATED BY THE INSTITUTE JUNIORS FRI.

The Artesia Junior High school football eleven battled the New Mexico Military Institute Juniors to a close score of 12 to 0 on the local field last Friday while the high school lads were in Albuquerque to meet the high school of that place.

The loss to the Cadets was due to the greater weight of the Institute boys over Coach Morehead's youngsters, who average around one hundred pounds per man, with several of the stellar players being much lighter. The advantage in weight was at least twenty or thirty pounds per man. Spectators remarked that the two teams side by side were comparable to the busy ant and the elephant. The Cadet players often objected to being tackled by the lighter opponents as they stated the locals were so small that they could not see them until they were downed.

The game opened with the locals receiving the ball and advanced rapidly down the field after end runs by House and Brown. The ball was lost on down and the Cadets began a series of line plunges, through their lighter opponents. However, they were unable to score until the second quarter, placing the ball behind the goal line by line smashes.

The husky E. Boddy was sent in at fullback for Artesia in the second quarter and strengthened the offense very much. After a long end run for a gain of thirty yards, this man was watched very closely and was unable to cross the goal line, although he threatened to score several times. The institute scored again in the third quarter, but was unable to again advance even by line plunges. House was injured in the second quarter, which weakened the local's offense, as speed on end runs was the only method which proved successful for the Junior line-up.

Stellar performers for the locals were E. Boddy at fullback, Brown at half back, Gage at quarter and Spivey at end. Culberson and Wassell were outstanding players for the Cadets.

Artesia	Position	N. M. M. I.
Hardin	End	Martin
King	End	Adams
Pior	Tackle	Wassell
A. Boddy	Guard	Culberson
Blair	Center	Jones
Bird	Guard	Stouder
Spivey	Tackle	Taylor
Gage	End	Orrell
Brown	Quarter	Sutton
House	Half	Haskins
Cobble	Half	Payas

Substitutions—E. Boddy for Cobble; Gray for Hardin; Cobble for House.

WONDER WELL IN SAN JUAN BASIN

The most remarkable oil well yet brought in, in the San Juan Basin field noted for its shallow wells of high grade oil, was drilled in Sunday by the Great Basin Oil Company forty miles northwest of Farmington at a depth of three hundred feet after three days drilling at a labor cost of one hundred and fifty dollars. The bailer test showed a fifty barrel per day production of oil testing thirty-six Baume. The well brought in is a mile from the discovery well and proves at least a thousand acres for shallow production. A refinery on the ground is furnishing gasoline to adjacent towns. The structure is known as the Mancos river dome.—Farming-Times Hustler.

BIG RAILROAD DROPS "13" FROM ALL TIME TABLES

CHICAGO.—Superstition has won in a battle with railroad time tables. The Chicago, Burlington & Quincy railroad announced here that the number "13" hereafter would be eliminated from all time tables as a result of prejudice of passengers. "We are forced to take this step," declared Passenger Traffic Manager A. Cotsworth, Jr., "because we have lost innumerable passengers who refuse to ride upon any train designated as 'No. 13.' Even though superstition is becoming a thing of the past, more or less, the old hocus-pocus still holds sway and the railroad now thinks it advisable to discontinue the number."

They Eat Grasshoppers

During the late summer and autumn, says Nature Magazine, grasshoppers form a great portion of the garden spider's diet. Do not kill spiders for they are man's friend.

Peremptory Challenges

Our own notion of a peremptory challenge is one that is used by the lawyer for the defense on a prospective juror whom he knows full well he could not fool.

BOY SCOUTS PLANNING STATE JUBILEE AT DUKE CITY OCTOBER 31ST

The Eastern New Mexico Boy Scout Council is planning to participate in the state wide Boy Scout Jubilee to be held in Albuquerque probably on October 31st. The gathering will celebrate the complete organization of the state of New Mexico.

Gov. R. C. Dillon has promised his presence, J. J. Fitch, regional scout executive will be present as well as representatives from the national office.

The state is covered with four councils. The Eastern New Mexico council, with headquarters at Roswell-Rio Grande council, with headquarters at Albuquerque, It Carson, with headquarters at Raton and the Gila Gronda with headquarters at Silver City. This complete council organization places the opportunity to become a Boy Scout in the hands of every boy in New Mexico.

The Eastern New Mexico Council comprising the counties of Guadalupe, Quay, Curry, Roosevelt, Lincoln, Chaves, Otero and Eddy counties in New Mexico, Bailey and Palmer counties in Texas. This council was organized three years ago and covers the largest area of any council in the United States. It has grown steadily and at present time has an enrollment of 800 Scouts. Ivan Bridges, Clovis, New Mexico is the president and Minor Huffman is serving the council as Scout Executive.

EPISCOPAL GUILD MEETING

The Episcopal Guild is having an all day meeting at the home of Mrs. E. N. Bigler today, with a dinner for the families at noon. The Guild is making preparations for the coming Christmas Bazaar to be held the first Saturday in December.

WOOL MARKET FIRM

BOSTON.—Fine territory wools are very firm at the higher range of prices recently established but the volume of trading is more moderate than a few weeks ago on account of the caution mill buyers are exercising in their operations on the market. Dealers anticipating good demand for fine wools to be used in light weight goods and accordingly they are holding their offerings for more money in spite of the resistance, mills are offering to rising prices.

LOCAL

Mrs. Glascock and Mrs. Bridgeman were in town from Hope yesterday.

A daughter was born to Mr. and Mrs. Andy Vaught on the Cottonwood, yesterday, the 19th inst.

Mrs. Lucile Hare came in from Amarillo, Texas Tuesday for a week's visit with her parents, Mr. and Mrs. S. S. Ward.

O. F. Walton, of Alamogordo, state manager for the Liberty Life Insurance Co., spent yesterday attending to business matters here.

Dr. V. H. McNutt, of San Antonio, Texas, arrived here yesterday and plans to spend a few days in this section attending to business matters.

U. G. Stoy, owner of the Stoy Dairy farm, of Hope, Arkansas, has been prospecting in this section during the past week. It is understood that Mr. Stoy is interested in the dairy possibilities of this section and is looking over the farming sector with a view of making some investments.

Salmon Hatch

It takes from 85 to 150 days for salmon eggs to hatch, depending on the temperature of the water in which they are deposited, according to Liberty.

HIT BY CAR AND KILLED INSTANTLY

Timetas Sapien, aged about fourteen, was instantly killed about 1:30 Monday afternoon, when he was struck by a car driven by W. D. Lyon, of Loving, just south of Phoenix, about two miles south of town. Mr. and Mrs. Lyon were on their way to Loving, when they met a Mexican driving with a wagon load of wood, piled high. The boy was riding on the end of the wagon, where he could not be seen, and jumped off and ran around the wagon so there was no chance to turn out or avoid the accident.

A coroner's jury was immediately empanelled and brought in a verdict of accidental death. Dr. Pate made examination of the body and found that his neck had been broken, either by the impact of the car or by the force with which he was thrown to the ground. The body was claimed by his mother, who lives in one of the little tin houses east of the highway, near Phoenix.—Current-Argus.

METHODISTS SEEK JACKSON'S

A unanimous desire to Mims J. Jackson returned of the First Methodist Church expressed by the laymen fourth quarterly conference church Sunday evening. Following his first year congregation including the theerhood Class passed resolution of appreciation, and asked the again named pastor. Both his wife and children had sincere respect of the community. The young pastor has year with the church out of with a balance, and has paid ference collection for the in many years. The review was conducted by Rev. Jackson pronounced a great success spirit it aroused.

SOUTHWESTERN GAS COMPANIES MERGE

NEW YORK.—What is termed one of the largest mergers of natural gas companies ever effected in the southwest has just been consummated. It was announced Tuesday, Negotiations, it was learned, have been completed whereby practically all the stock of the Oklahoma Natural Gas corporation in Texas and Kansas has been acquired by a new company to be known as the American Natural Gas corporation.

Properties embraced in the combination are valued at \$40,000,000. The new company will serve a population of approximately 600,000 in Kansas, Oklahoma and Texas.
