**THE SPIRIT OF ST. MARY ARRIVES**--Around 11:45 a.m. Tuesday, a good crowd was on hand at the Bailey County Civic Center to watch the Spirit of St. Mary, from the Flight for Life program at St. Mary of the Plains Hospital in Lubbock, arrive here. The helicopter landed on the south parking lot of the Civic Center, and the three persons aboard the helicopter joined the Muleshoe Rotary Club for lunch and a special program on the air ambulance before opening the ambulance for public viewing at 1 p.m.

### New Tax Law Workshop Set For This Week

Recent changes in the estate and gift tax laws can be quite beneficial to Bailey County residents. To bring county residents up-to-date on the new changes, a meeting is scheduled at 9 a.m. on Thursday, January 29 (today) at the Bailey County Civic Center.

Speaking will be Wayne A. Hayenga, Economist and Attorney with the Extension Service from College Station. "The new law can be a real tax saver, but plans and action must be taken to qualify for the benefits. For example, there never has to be an estate tax paid on the death of the first to die of a married couple," says Dr. Hayenga. "But, if a married couple has a simple will giving all of his or her property to the spouse, the estate cost on the death of the second spouse may be much greater."

Ideas of how to use trusts for both estate tax savings and income tax savings will be covered by the economist/attorney.

Gift tax provisions were liberalized also. Now, any person can give any other person \$10,000 of property per year gift tax free, but giving property away prior to death may cause adverse tax income consequences to the donors. At the meeting, you will learn how to give away 'taxwise.'

Estate taxes, gift taxes and income taxes are hard to understand, but Hayenga is said to be a witty and entertaining speaker with a unique ability to relate

Around 11:45 a.m. Tuesday, the eyes of a good crowd of people at the Bailey County Civic Center were turned toward the sky and to the east, awaiting the spirit of St. Mary, the helicopter air ambulance from St. Mary of the Plains Hospital at Lubbock.

Hosted by the Muleshoe Rotary Club and the Bailey County Ambulance Service, the helicopter was displayed on the parking lot of the Civic Center, and the ambulance personnel spoke to a full house at the weekly Rotary meeting.

Aboard the helicopter when it landed were John Compos, pilot; Mindy Eyre, RN and Flight Nurse and Richard Pope, EMT and Paramedic, who acted as spokesman for the group. Also, greeting the helicopter when it arrived, was Randy Watkins, of Muleshoe, who serves as an EMT-Paramedic on the helicopter ambulance.

Following the Rotary luncheon, Todd Ellis introduced Pope, who spoke to the group, explaining the Flight for Life program involving the Spirit of St. Mary helicopter.

He said the program was instituted at the hospital on January 5, and since it started, had flown on 12 missions, which Pope said was a large number for a start-up of such service, as they usually fly no more than that number during the first two or more months after implementation of a helicopter ambulance program.

Pope also said that although he had not flown on any of the helicopter ambulance runs as yet, Randy Watkins had flown on seven of the 12 flights.

With a range of 135-140 statute miles from Lubbock in any direction, the helicopter has already flown to Carlsbad, Crane, Hobbs, three times; Clovis, Midland and Littlefield. The patients have been obstetric and cardiac, for the most part.

The helicopter can travel two miles per minute, explained Pope, saying Muleshoe is a little less than 40 minutes from Lubbock, and that's bucking a headwind, and it would make better time on the way back to Lubbock.

For patients scheduled for Lubbock General or Methodist Hospital, they are transported by ground once the helicopter gets back to the helipad atop the fifth floor of the west wing of St. Mary's Hospital. However, they are working out landing sites at this time at both Lubbock General and Methodist Hospitals.

There are some conditions, determined by the pilot, that the helicopter will not make flights, although they are available within 5 minutes or less around the clock, seven days a week.

They will not fly in the daytime when the ceiling is less than 500 feet, or the visibility is less than one mile; or at night, when the ceiling is below 1,000 feet and the visibility below three miles. They will also not

### Sunny Sky, Warm Days Melt Snow

All this week, spring-like weather has lingered in this area, with the temperature moving into the low to middle 70's by Wednesday.

However, the National Weather Service has predicted that a cool front will move through the area by Thursday, (today), bringing back more seasonal temperature.

In the meantime, the warm weather, accompanied by light west winds, has eliminated most of the heavy snow that fell over the area during the past week to ten days. In areas where snow was plowed or removed from streets and parking lots, there are still deep snowdrifts. Most streets were clear, except for the edges of streets where some snow and ice remained at mid-week.

The very bright sunshine was welcomed by almost everyone, as coats and sweaters were temporarily discarded for lighter clothing.

## Liquor Tax Rebate Down In 1st Check

State Comptroller Bob Bullock sent checks totaling \$10.7 million to the 221 counties and 421 cities as their share of the state's 12 percent mixed drink tax collected during the fourth quarter of 1986.

The Texas Legislature raised the tax from 10 percent to 12 percent in 1984.

Bailey County reported liquor tax of \$5,749.61 and their check was in the amount of \$718.70, while Muleshoe reported \$3,509.95, and received a check for \$428.74 as their share of the tax.

Cochran County reported taxes of \$665.20, and received a rebate check for \$83.15.

In Lamb County, the rebate was \$665.20, and received a rebate check for \$83.15.

In Lamb County, the rebate was \$926.59 on taxes reported at \$7,412.69, and Littlefield reported taxes of \$4,323.83, and received a check for \$540.48.

Parmer County received the smallest check in this area, with reported taxes of \$369.00 and their check was for \$46.13.

Bullock said the state collected \$44.6 million in mixed drink taxes for the fourth quarter, compared to \$48.7 million collected during the same period in 1985. The fourth quarter of 1986 was the first full quarter since the minimum drinking age was raised from 19 to 21.

Texas cities and counties now each receive a 12.5 percent share of the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks in the state. Cities and counties received 15 percent

## Littlefield Voters Reject Proposal For Liquor Sales

Littlefield voters last Saturday rejected a proposal to legalize the sale of alcoholic beverages.

According to Lamb County Clerk Bill Johnson, the referendum was rejected, 872-694, in what was termed "a relatively light turnout."

If passed, the proposal would have allowed the sale of alcoholic beverages for off-premises consumption. The latest election was one of a string of similar referendums, the most recent in September, 1986.

The County Clerk said alcohol supporters had indicated that efforts will be continuing for another wet-dry vote.

## First History Book Memorial Page Sold

It became a very informative meeting for those interested in compiling and publishing a Bailey County History Book, when they met at the Bailey County Civic Center Sunday afternoon.

Jesse White of Taylor Publishing Co. was at the meeting to help set up committees and explain some of the things necessary to complete a good history book.

Basically, White centered much of his discussion on submitting a family story to the book, and emphasized that no matter how long you have lived in Bailey County, your own family history needs to be incorporated in the book to make it complete.

White said to please limit your family story to 500 words, which is approximately two double-spaced typed pages. If you do not have a typewriter, or anyone to type your story, or information, please write or print legibly.

Each household may submit your own story, and stories in excess of 500 words will be charged 10 cents per word over the 500 limit. You may also submit one photo either black and white, or color, and in any size. A charge will be added for a second photo.

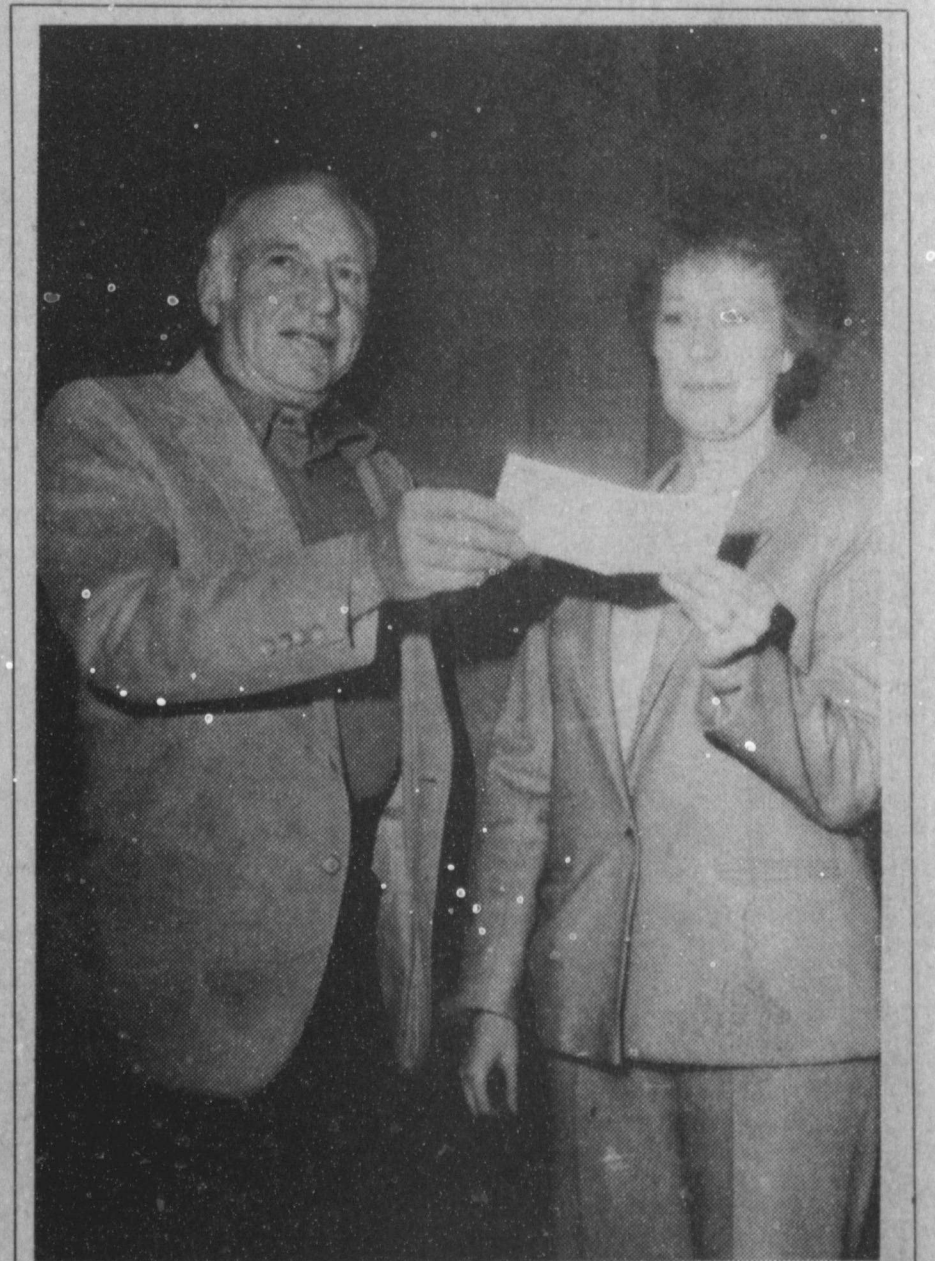

In your family history, list full names of people, and if still living, you may want to include their current location and address. Also include the name of the person submitting the story.

You are asked to make a copy of any rare picture, and please do not write on the back of any photo, you may use scotch tape to tape any information on the picture or photo. The committee cannot accept Xerox copies of pictures, or pictures cut from a newspaper or magazine for publication.

There is no charge for your story -- but one feature is expected to draw a lot of interest.

During the meeting, Irvin St. Clair purchased the first memorial page in the history

book. The \$250 for the memorial page will allow you to have the entire page in the book for your business, family, club or organization, with more than one picture, if you desire. Irvin St. Clair purchased the first memorial page to honor his late parents, Irvin and Naomi St. Clair. He also reserved four history books for his family.

**MEMORIAL PAGE SOLD TO ST. CLAIR**--Irvin St. Clair, left, became the first person to purchase a 'Memorial Page' to honor his late parents, Irvin and Naomi St. Clair, in the upcoming Bailey County History Book. With St. Clair is Evelyn Peat, treasurer of the committee compiling the history book. The cost of a memorial page is \$250.

## Muleshoe Girl Scouts

By Mary Franklin

Girl Scout Troop No. 190 is a new troop under the leadership of Mary Franklin with assistant Renee' Rudd. We had our first meeting on 20th of October in 1986. Since our first meeting we have a better knowledge of what this age of 10 to 12 years old thinks, some of boys and others of how to help others. We hope that we can teach the girls things, because we know they have taught us a few things.

Since we have started this troop here are some of our activities: we have learned the signs, the promise, and are working on the laws, have gone to a workshop in Plainview to earn our Science Slueth badge and after earning the badge we went to the Llano Estacado Museum, the girls report on the museum revealed more than we thought they learned about it. We have put together a self image book, this is to let us know what the girls are about and what their goals are in life. We sang carols and songs and put on a little skit, made gifts and took them to the senior citizens.

We have earned our Science Slueth, Healthy Living, Leadership badges. We are working on Texas Sesquicentennial patch and the Girl Scout 75th Anniversary patch. We rode in the Christmas Parade, two of our girls helped out on other floats.

We also had a bake sale, thanks to everyone who helped us out on this. We had two people donate to our troop but wouldn't leave their names so Thank You to those two special people.

The whole Girl Scouts have sold calendars. We had a toy-food drive for Christmas and donated it to the Jennyslippers, and we rang the bells for the Salvation Army.

I would like to mention that if it weren't for our sponsors, we might not have the uniforms, books and other things to have our troop meetings. We send a special THANKS to our many sponsors. Eugene Black was our guest speaker on Pioneer Days on Jan. 19th.

TROOP 190 KEEPING BUSY--Girl Scout Troop No. 190 is keeping busy earning badges, Scout signs, Scout promise and working on the Scout law. Back row (from left) Connie Olivas, Sandy Olivas and Kristina Soto; Kourtnee' Magby, in center; and lower row (L-R) April Franklin and Gloria Martinez.

**Watson Jr. High Participate in Bluebonnet Program**

Students from Watson Jr. High sixth grade participated in the Texas Bluebonnet Program, a program sponsored by the Texas Association of School Librarians and the Children's Round Table. Its purpose is to encourage Texas children to read more books, to explore a variety of current books, to develop powers of discrimination and to identify their favorite titles through the voting process.

Schools wishing to participate in the reading program pay an annual registration fee of two dollars. Students in grades

three through six are encouraged to read books from an annual master list of titles. Those who read five or more books (or hear them read aloud) are eligible to vote for their favorite book in January.

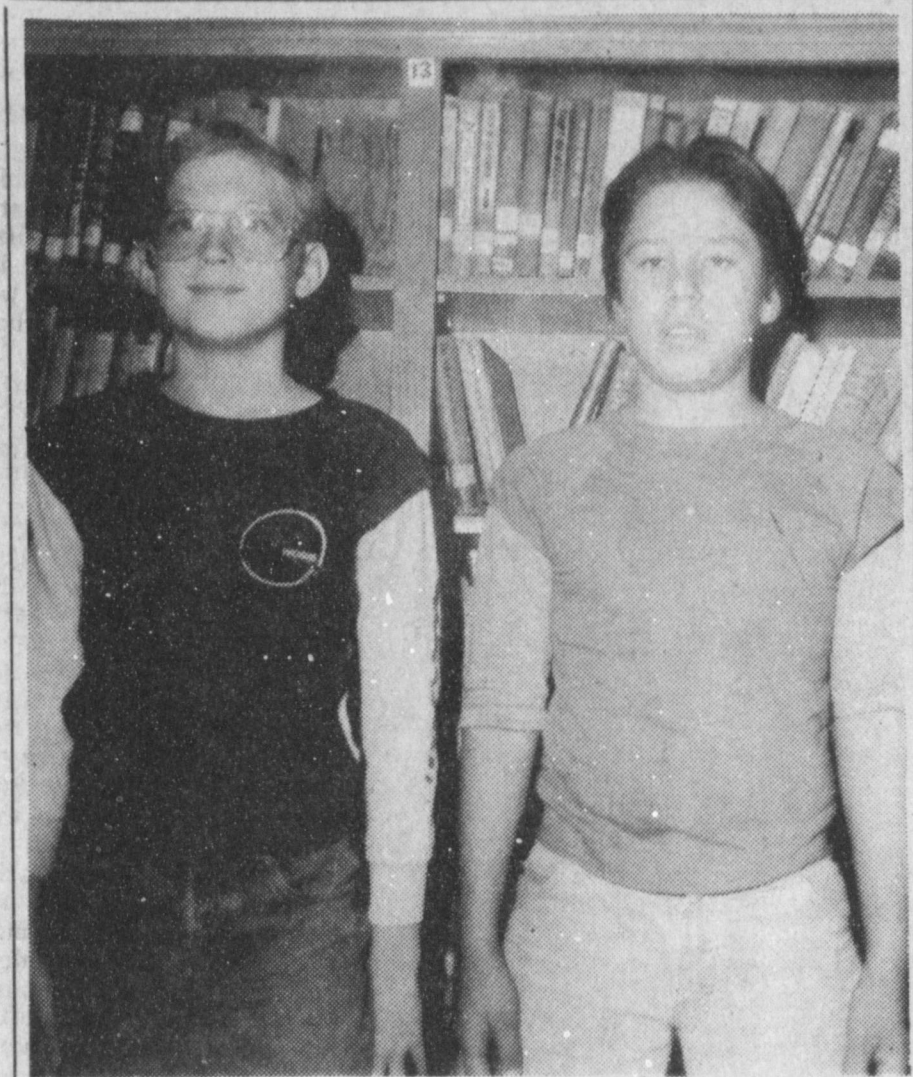

Top readers from the sixth grade were: Eric McElroy, Paula Ruthardt, Michael Cearley, Charlotte Martin, Andy Handy and Douglas Snell.

Other participating included: Jennifer Johnson, Eric Cisneros, Lenny Pineda, Chad Green, Robin Hovland, Rachel McAdams, Virginia Lira, David Lutz, Arturo Estrada, Tracey

**SNOW HOUSE CONSTRUCTED**--Taking advantage of the heavy snow that fell in this area during the last week to ten days, David Ballard, left, and Francisco Franco decided to try their hand at construction. After forming 'snow blocks' the two constructed their very own snow house in northeastern Muleshoe. They were quite proud of their accomplishment.

## Water District Duo Re-Elected

When the polls closed on election night last weekend, and the votes were counted, complete but unofficial results revealed that Webb Gober of Farwell and Jim Conkwright of Hereford had been re-elected to the Board of Directors of the High Plains Underground Water Conservation District No. 1.

Gober, who will represent the interests of the residents of Director's Precinct Three, will be starting his seventh term in office. He was first elected to the Board of Directors in 1973. Gober has served as President, Vice President and Secretary-Treasurer of the Board during his time in office.

He was serving as Secretary-Treasurer at the time of his re-election. Director's Precinct Three consists of the portions of Bailey, Castro and Parmer Counties which lie within the boundaries of the Water District's service area.

Conkwright, who was re-elected by the residents of Director's Precinct Four, will be starting his fourth term as a member of the board, having first been elected in 1979. He has held the position of Secretary-Treasurer and was serving as a member of the board at the time of his re-election. Director's Precinct Four consists of the portions of Armstrong, Deaf Smith, Potter and Randall Counties which lie within the boundaries of the Water District's service area.

Gober and Conkwright will each serve one-year term in office. Another election for the Board positions representing Director's Precincts Three and Four will be held in 1988, to comply with House Bill 332

## Spirit Of St. Mary

Cont. from Page 1

The Spirit of St. Mary's Flight for Life program covers a 125 nautical mile radius from Lubbock and covers cities like Midland, Odessa, Hobbs, Amarillo, Muleshoe and to the east to the areas of Paducah, Guthrie, Seymour, Spur and others. It was explained that the helicopter can travel farther, but it must be at a facility that has Jet A fuel in order to refuel.

The flight team consists of one pilot, one flight nurse and one paramedic on the helicopter and a full-time dispatcher 24 hours a day, 365 days a year, who will be manning the radio.

Flight for Life has received Advanced Life Support Certification from the State Department of Health, and as soon as all the nurses become paramedics, the program will become a Mobile Intensive Care Unit.

There are 151 air medical services in the nation and 48 percent of the flights are trauma, it was explained. In this area, 70 percent of all the trauma cases occur in rural settings.

"That is where a helicopter plays a very important role, for time, plus a very high level of care at the scene. That is why the helicopter can be a major tool in that first hour of trauma patient's life or death status," explained the crew from the Spirit of St. Mary.

There are three pilots for the helicopter, with a combined total of over 25,000 hours of flight in a helicopter. All three pilots are Viet Nam-trained. The pilot makes the decision as to whether or not to fly. The pilots keep updated every six hours when the weather is good and every hour when the weather is bad.

Flight for life is the only helicopter ambulance service in operation from Dallas to Albuquerque.

The \$800,000 helicopter is leased by St. Mary's of the Plains from Evergreen Corp. take off in a windstorm when the wind is above 45-50 mph, or in most icy conditions.

Pope further explained that Denver was the first city in the United States to have the helicopter ambulance service, and the only other service of this type is at Tyler, and they have two helicopter ambulances, across the street from each other.

He pointed out that the Lubbock service has the largest service area in the country, and have logged the most flights transporting patients upon start-up.

The Flight for Life program has also been invited by Reese Air Force Base to join their Search and Rescue team, and becomes the first air ambulance to be named by the military to a Search and Rescue operation for the military.

He also discussed the mobility and the varied type drugs and operations that can be conducted by the air ambulance service that cannot be conducted by ambulances traveling on the ground.

It was explained that the air ambulance can call for surgeons or cardiac specialization that will be waiting when the air ambulance arrives, thus by-passing emergency rooms in the

cases of extreme trauma, which are handled by the air ambulances.

Also, the air ambulance can speak by radio with any vehicle on the ground which is radio-equipped, as well as mobile, hand held units, making communications easier.

Following the meeting with the Rotary Club and guests, the air ambulance was opened up for public viewing, and a very large crowd gathered to check out the newest in medical emergency equipment which is expected to benefit this area.

It was further explained that the reason St. Mary's leased the helicopter is to offer physicians in a 125-mile radius in any direction, a service to their patients when a higher level of care is needed and time is important.

Authorized to summon the helicopter ambulance are physicians, EMS, Department of Public Safety, police and fire departments. They emphasize they are not replacing the EMS, and in fact, work very closely with them because they are the primary medical support in outlying areas.

Local EMS personnel will be trained on how to use the Flight for Life and how to know when to call for the services.

"No hospital will be billed if a patient cannot pay," explained the Flight for Life spokesman. "Once the patient is loaded on the helicopter, there is a \$10 per nautical mile fee."

He explained that they "take Medicare, insurance, cash, but, if the person can't pay, we work that out once we get to St. Mary of the Plains Hospital. We don't want to limit our care because someone can't pay when their life depends on it. Flight for

Life is a very appropriate name for this program because we fly for someone's life. We're not here to fly for dollars."

The \$180 liftoff fee in comparison to other hospitals is very low. Medflight in Oklahoma City has a \$500 life-off fee and Flight for Life in Tyler has a \$250 lift-off fee.

If the helicopter is called, then is turned back, there is no charge for anyone.

Evergreen Corp. provides the hospital with the helicopter, three pilots and one mechanic, dedicated solely to the helicopter. Evergreen Corp. has never had a major accident and never had anyone killed. They are a world-wide organization with an excellent track record.

During the meeting, Bill Liles, Rotary president, told Rotarians and guests that Rotary J.D. Cage has been nominated for Rotary District Governor and asked for the full support of the Rotary Club for Cage.

**Community Church Plans For Revival During This Week**

Community Church, at the south city limits of Muleshoe, will be hosting a revival at the church January 1-8, with Sunday morning services beginning at 10 a.m., and services each night at 7:30 p.m., except Saturday evening.

Rev. H.D. Hunter, pastor, said he and the congregation of the church are issuing a cordial invitation to anyone in the community to attend this week of special services.

Evangelist will be Rev. Charles Wigley, of Athens, who will minister in each service.

The Rev. Wigley has been in the ministry for 33 years with the past ten years at Athens, TX. He has pastored in other Texas cities, along with Atlanta, GA and has conducted many evangelistic crusades, explained Rev. Hunter.

**Carbon Monoxide Common, Dangerous**

The old saying goes that "where there's smoke, there's fire." But some people do not know that where there is fire, there is carbon monoxide, an odorless, invisible, and poisonous gas. Wherever there is combustion without enough ventilation, the gas can reach lethal levels in the air.

Each year, 40 to 60 Texans die from accidental carbon monoxide poisoning, and many more become ill. According to the Texas Department of Health's (TDH) Vital Statistics Bureau, 42 fatalities occurred last year. Myra Winfield, Environmental Quality Specialist in the TDH Occupational Health Program, said the number of such poisonings rises in periods of extreme cold, when some people sacrifice fresh air for warmth.

"Carbon monoxide is a by-product of incomplete combustion," Winfield explained. "A flickering or low-burning flame gives off proportionately more of the gas than a hot fire." Automobile exhausts, unvented or faulty pilot lights and heaters, smoldering fireplaces, and slow-burning fuels such as charcoal release high levels of carbon monoxide into the air. Unconfined, the gas mixes with the air and is relatively safe; but indoors, without ventilation, it can reach poisonous levels.

The Federal Occupational Safety and Health Administration (OSHA) considers carbon monoxide levels above 50 parts per million in an eight-hour work day dangerous to worker's health. But Winfield said that persons at home are often in greater danger than those in large factories, since small,

insulated quarters trap and concentrate the gas. The onset of poisoning begins at a level of about 100 parts per million.

"Many people have experienced the early effects of carbon monoxide poisoning without knowing the cause. Anyone who has awakened with a headache or dizziness, after sleeping in a closed room with an unvented heater, may have felt a mild stage of poisoning," she said. Chemically, carbon monoxide replaces the oxygen in the bloodstream. The oxygen deficiency causes headache, nausea, dizziness and weakness which can progress to coma and death. Several hours or days may be required for a victim to regain normal oxygen levels in the blood. In serious cases, a victim may need emergency treatment.

Winfield said persons who suspect their homes or workplaces contain dangerous levels of carbon monoxide should see that all appliances using flames are properly vented, and that fresh air can circulate.

If a serious problem of carbon monoxide or other gases persists, gas company personnel and some fire departments are equipped to test the air at the site.

**Birthday May Be Milestone For Men**

The selective service system has announced that men who will reach their 26th birthday in 1987 are reaching an important milestone.

Beginning on Jan. 1, 1987, men who were required to register with selective service in 1981 will be turning 26. Selective service does not have the authority to accept registrations after age 26. By failing to register before turning 26, a young man will have permanently forfeited his right to certain benefits including federal student aid, job training and federal employment. In addition to these federal benefits, some states require registration for state student aid, entrance to a state supported college or university, state employment and permission to practice law.

Many of 25-year-olds who have still not registered may be unaware of the requirement or do not understand the importance of the obligation to register. Some may even have served in the military but failed to register either before entering the armed forces or after leaving active duty. Others may have been institutionalized or incarcerated at the time of their 18th birthday and not realized that they were required to register if released prior to age 26.

For those men born in 1961 who have registered, 1987 also marks the year that ends their eligibility for selection for induction under present law should there be a return to the draft. Over 17 million men, age 18 through 25 have registered with selective service since registration was reinstated in 1980. These men comprise over 97 percent of those required to register.

Men age 18 to 25 who have not yet registered will still have a chance to avoid risk of prosecution and loss of benefits by registering promptly at any local post office. Failure to register is a felony punishable by a fine of up to \$250,000, up to 5 years in jail, or both.

**CURB WORK UNDERWAY**-Taking advantage of the beautiful days this week, Vela Concrete of Clovis has been busy erecting forms and pouring concrete for the curbing at the new track at Muleshoe High School. J.C. Pearson, of Pearson Construction, and sub-contractors of the new track, said the track construction is running slightly ahead of schedule and the hot mix will be poured by Chris and Tommy Green next month, then the top will be laid by Vibra-Whirl, general contractors for the construction.

The Board of Directors of Lubbock-based Plains Cotton Growers, Inc. January 14 voted to seek approval for cotton as a perishable crop under the new Immigration Reform Act, heard status reports on the organization's continuing efforts to influence other pending government decisions, and appointed a Garza County gin manager to fill a vacancy on the board.

The move to get cotton included as a perishable crop is aimed at helping producers retain valued employees that otherwise might be deported. The new immigration law allows aliens to apply for a temporary visa if they worked in agriculture for at least 90 days between May 1, 1985 and May 1, 1986, but only if employed in field work related to perishable crops.

Directors decided on the issue after Steve Hay, representing Lubbock's Catholic Family Services, cited "not a few" agricultural employer and worker requests for assistance and offered his group's help in obtaining temporary visas for qualified workers. The new immigration law for the first time imposes employer sanctions for the hiring of illegal aliens.

There is a grace period before full enforcement begins, but after May 1, 1988, violators will be fined from \$250 to \$2,000 per unauthorized worker for the first violation, \$2,000 to \$5,000 for second offenses and subsequently \$3,000 to \$10,000 per alien. Convicted of a pattern or practice of violations, employers will incur fines up to \$3,000 plus up to six-month jail terms.

"Perishable" is defined by Webster as liable to perish; subject to deterioration. Therefore, officials say, PCG will base its appeal for cotton's designation as a perishable crop on Texas A&M and other studies that prove weight, quality and field losses from delayed weeding and harvest operations.

PCG Executive Vice President Donald Johnson gave a somewhat encouraging report on efforts to get requirements under the fragile lands section of the 1986 farm act "that we can live with." Citing a letter from Soil Conservation Service Chief Wilson Scaling to state conservationists, Johnson said, "I believe we are making real progress in the right direction." Lloyd Cline of Lamesa, PCG Director and President of the National Cotton Council, which is also working with USDA on the matter, concurred with Johnson's assessment.

Not so upbeat was Johnson's comment on the efforts of PCG to secure additional funding for the disaster payment program on 1986 crops. Basing his remarks on USDA's Federal Register response to PCG and other requests for funds to supplement the \$400 million initially provided, he said it appears that USDA as of now doesn't favor seeking additional funds. A letter from Acting ASCS Administrator to Texas Senator Lloyd Bentsen, he said, leads to the same conclusion, "but no one has given up yet."

Noel White, manager of Graham Cooperative Gin in Garza County, was appointed by the Board to fill the unexpired term of Ronnie Hardin. Hardin moved from Garza County to Lockney in Floyd County late last year.

**Book of Life**

When all has been said and tried about philosophies of life, how to be happy, or how to be a success, mankind unfulfilled elsewhere will still turn back to this book. Here indeed are the words of life. Here is a guide to your footsteps and a lamp for your path. No man needs to stumble through life as if blind; God has provided a light and it shines through this book. Go where the Book is treasured and understood, to the Church, and hear The Word for your life.

Is something wrong with your life -- an inner restlessness, dissatisfaction? The answer to every human problem comes only from God, our Maker. He alone can forgive and transform. Through the church, God has continued the promise and proclamation of His forgiveness and redemption to us. Without a church relation to one so securely related to God, *Every man should be in the Church and the Church should be in every man.*

**FIRST 'EMPLOYEE' FOR 1987**--Susan Puckett, secretary to Tommy Gunstream, president of First Bank for the past nine years, left, was the first recipient of the Employee of the Month honors for 1987. Making the presentation Monday morning was Ron Montgomery, president of the Muleshoe Chamber of Commerce and Agriculture.

**Thank You**

Words can not express my appreciation for the cards, letters, phone calls, gifts, flowers, other acts of kindness and especially your prayers during my recent illness and the death of my nephew. Friends like you mean so much during these most difficult times. My prayer is that God will bless each of you in His own special way.

Frankly, the longer we travel this road of life, the less we know about it.

Drive carefully and avoid the sorrow that will come to you if you cripple a child for life.

There is some difference between the appearance of fairness and the intent to be fair.

If everyone would stop rushing, life would move along intelligently.

Unless you are paid to do so, never argue over grammar.

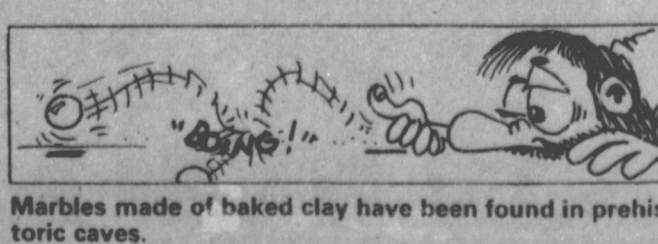

The reputation of a good newspaper is answer enough to its critics.
