... day.

## DEMOCRATS HOPEFUL TO GET THREE PLACES ON THE STATE TICKET

**Election Of Cutting And Dillon Practically Sure—Fortune, Lusk, and Morrow May Be Only Democrats Elected.**

Incomplete returns from all states indicate that Herbert Hoover, republican has won the president contest by approximately 444 votes. In the face of incomplete returns, tabulated yesterday afternoon it appears that Hoover will carry the following states:

Arizona, California, Colorado, Connecticut, Delaware, Florida, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming. Electoral vote 444.

**Smith**—Alabama, Arkansas, Georgia, Louisiana, Massachusetts, Mississippi, Rhode Island, South Carolina. Electoral vote 87.

**The State Ticket**

**SANTA FE**—Herbert Hoover's majority in New Mexico passed the 10,000 mark yesterday afternoon with a report on 311 complete precincts out of the 779 in the state.

Heading the republican ticket in New Mexico, Mr. Hoover's majority has been on a steady incline and Ed Safford, state chairman of the republican party has predicted that it will reach 15,000 before the remainder of the precincts are heard from.

United States Senator Bronson Cutting increased his majority over Jethro Vaught, democratic nominee for the senatorial long term to better than six thousand, while Governor Dillon held more than 5,000 majority over Attorney General Robert C. Dow.

The state so far had given Mr. Hoover 38,394 and Governor Smith 26,639.

On complete returns from those precincts Senator Cutting had 37,226 to Jethro Vaught's 30,350, while Governor Dillon had 35,873 over Mr. Dow's 30,847. Since midnight Gov. Dillon has been gradually drawing away from his democratic opponent and republican headquarters believed that Senator Cutting's majority would reach 10,000 and that Gov. Dillon's victory margin would approach that mark.

Miguel A. Otero, republican candidate for attorney general had come from behind yesterday with a rush to head Frank Patton 32,505 to 28,924.

Juan Vigil gained some strength and reduced the lead of O. A. Larrazola for the senatorial short term to around 1500. The 311 precincts gave them: Larrazola 28,819; Vigil 27,100.

The biggest upset perhaps in all of the state ticket was the long strides taken by Mrs. E. A. Perrault yesterday to overtake Miss Jennie Fortune, and capture one of the three offices which the democratic headquarters felt certain of.

Mrs. Perrault had accumulated a lead of more than 2,000 votes on 311 precincts yesterday afternoon, and further returns coming in while the tabulation was being made showed no indications of decreasing the margin. Both Mora county and Guadalupe from which very little has been heard, were swinging in line for Mrs. Perrault. Their vote stood: Perrault 31,374, Fortune 29,286.

In the congressional race John Morrow continued to run ahead although his first majority had been greatly reduced by Albert Simms. Their vote stood: Simms 31,434; Morrow 31,888.

For lieutenant governor, Hugh Woodward led Coe Howard 27,469 to 24,640.

For state auditor, Victor Ulibarri had 27,929, with some precincts recorded incomplete, while Carlos Manzanares had 26,700.

Emerson Watts led for state treasurer with 28,638, to John Bingham's 25,723.

**Claims Two**

**ALBUQUERQUE**—Clinton Anderson, democratic state chairman yesterday claimed the election of John Morrow for congress, Jennie Fortune for secretary of the state, and Mrs. Georjia Lusk for state superintendent of public instruction on the democratic state ticket. He virtually conceded all other offices to the republicans.

## EDDY COUNTY GIVES HOOVER LEAD--LUSK LEADS DEMO. TICKET

**Artesia Precinct Gives The Republican Ticket A Majority First Time In Its History—Mrs. Lusk Only Democrat To Carry Box.**

For the first time in the history of the town, Artesia showed a decided republican complexion in both the state and national ticket, Tuesday's results indicate. Both the state and national republican tickets showed pluralities ranging from 256 votes for Hoover to 29 votes for Ulibarri over Fortune for secretary of state, with exception of Mrs. Lusk.

Of the nine boxes tabulated as this is written, every box went for Hoover. Carlsbad the home of the democratic nominee for governor, Bob Dow, gave their native son a plurality of 204 votes over his republican opponent R. C. Dillon. The presidential race developed into an interesting contest at Malaga, where Hoover, republican, emerged with two votes over his democratic opponent, Smith. Cottonwood upset the dope in the governor's race, giving Dow a lead of 18 votes over R. C. Dillon, republican. Otis was the only box in the county to give Smith a lead over Hoover. Mrs. Lusk, democratic candidate for state superintendent led the ticket with John Morrow a close second.

Incomplete returns from Lea county indicate that this county gave the democratic national ticket a 2 to 1 lead, while it gave the state ticket a lead of 4 to 1. At Lovington, the largest box in the county, Dow received 274 votes to 63 for Dillon. Smith received 210 votes to Hoover's 110.

Incomplete returns from Chaves county indicate that both the state and national republican ticket received a plurality.

Returns from 10 of the 15 precincts in Lea county were received this morning from Luke Roberts of Lovington and are as follows:

President:	
Hoover, R. ....	347
Smith, D. ....	348
Senate:	
Cutting, R. ....	217
Vaught, D. ....	481
Congress:	
Sims, R. ....	177
Morrow, D. ....	506
Governor:	
Dillon, R. ....	208
Dow, D. ....	475
Secretary State:	
Perrault, R. ....	169
Fortune, D. ....	489
School Superintendent:	
Montoya, R. ....	162
Lusk, D. ....	521

**The Amendment**

The results of the votes on the amendment is not available as we go to press, except in three boxes, Artesia, Dayton and Cottonwood. It is believed, however, that the amendment went over by a large majority in the county. The vote of these boxes as tabulated is:

For amendment ..... 572

Against amendment ..... 39

Later: Totals on the amendment with two boxes missing received from Carlsbad at noon today were: For the amendment 1366; against the amendment 113.

### DEER HUNTERS OFF TO HILLS

A general exodus to the hills is expected to take place Saturday, November 10th, at the opening of the deer season. The two local hardware stores have sold approximately 150 big game licenses within the past few days. The recent sales of licenses does not include the combination licenses sold earlier in the year. Deer and wild turkeys are reported plentiful in some of the game refuges.

### STORES TO CLOSE MONDAY

The Artesia business houses will close Monday the 12th, in observance of Armistice Day, which falls on Sunday this year. The drug stores will observe Sunday hours, while the garages will remain open part of the day. The remainder of the stores will be closed, it was announced yesterday.

### BULLDOGS TO MEET PORTALES

The Artesia Bulldogs will meet the fast Portales Rams on the West Main grid iron here Friday afternoon at 3:00 p. m. According to the dope these two teams are evenly matched and a good game is expected.

## Carr Meets Tragic Death As 600 Qts. Nitro Goes Up

**Explosion Occurs Near Deal Texas As Carr Is En Route Home From Artesia—The Funeral Services Held In Robinson Ill.**

R. L. Carr, age 40, superintendent of the New Mexico Glycerin Co., was blown to atoms Tuesday afternoon about 4 p. m., while en route from Artesia to Borger, Texas. The accident occurred while Mr. Carr was driving the nitro wagon between Borger and Pampa, about eight miles from the nitro magazine of his company. The cause of the unfortunate accident was not learned from an early report. It was said that Mr. Carr left here about 2 a. m. Tuesday morning, with a truck load of six hundred quarts of nitro-glycerin. It was said that Carr was carrying back part of the load of nitro to pay back nitro-glycerin borrowed from Panhandle shooters. A press report from Borger states that late Tuesday afternoon two men came into Borger with the news of the tragedy, bringing small pieces of whipcord trousers and corduroy coat and a Reo hub cap were the only evidences of the disaster except a hole the size of a box car in the road.

Changing her mind at the last minute before her husband left on his trip was probably all that saved Carr's wife from a similar fate. She had intended to go with him, but decided to remain at Borger to take care of the business during her husband's absence.

### ARTESIA BOY MAKING GOOD

Artesia is always glad to hear of the success of any of its young people. Among the latest to be gaining honors is Guy Reed Brainard, Guy is in his senior year at the Military Institute at Roswell and has had the honor conferred upon him of being appointed Chairman of the Board of Honor of the institution. The appointment comes from superintendent of the school, Col. Pearson and is an honor highly prized by the student lucky enough to gain it.

### FORMER ARTESIAN DIES

News of the death of Mrs. George Jackson of Deep Water, Mo., will be received with regret by the friends of the family here. Mrs. Jackson passed away on October 30, leaving a husband, two sons and a tiny daughter. Mrs. Jackson was a niece of Charles Rody and the family lived on the grandpa Rody farm while here. They removed to Missouri some four years ago.

### W. LESLIE MARTIN BUYS INTEREST IN THE ALFADALE FARM HERE

A farm sale of general interest to the people of this section was recently consummated in which W. Leslie Martin bought an interest in the Alfadale farm of G. M. Winans, located near Atoka. This farm has been operated by Mr. Winans for almost seventeen years. During this time Mr. Winans has been very successful and has clearly demonstrated the possibilities of an alfalfa farm in the Pecos valley. The price and consideration was not made known.

### LAKE McMILLAN GAME REFUGE ABOLISHED

A legal published in this issue of the Advocate by the State Game department authorizes the abolishing of Lake McMillan as a game refuge.

## GEORGE M'CLURE JR. IS SHOT BY ROSWELL OFFICER SUNDAY NITE

## COTTON PRODUCTION IS PLACED AT 14,133,000 BALES TODAY'S REPORT

George McClure Jr., an employee of the Suthwestern Public Service Co., at Roswell, was shot and severely wounded by T. U. Alford, Roswell chief of police, near the McClure home Sunday night about 7 p. m. according to a report in the Roswell Record. A story told of the shooting is to the effect that Mrs. McClure rushed to the police station and told Roswell officers that her husband had just returned from a hunting trip and that he had threatened her and others at her home. The officers were told that he was armed with a shot gun and to be on the lookout for him.

Four officers responded to Mrs. McClure's call and went to the McClure home at 305 North Michigan and upon arriving found the dwelling dark. Just as they stepped upon the porch, McClure came from down the street with a shot gun in his hand. "What are you fellows doing here," McClure cried to the officers, who ordered him to put his gun down. Later McClure cocked his gun and kept it leveled at them despite the fact that they endeavored to assure him they meant no harm. Officers Alford and O'Neal managed to retreat to their car and place the car in between themselves and McClure, who kept circling the car. When Alford fired McClure went to the ground and officers rushed upon him disarming him. McClure's gun was said to have contained four shells in the magazine and one in the barrel. The shot that struck McClure entered the left side of his neck and ranged downward. He was rushed to the St. Mary's hospital. (Continued on last page, column 3)

The total indicated yield as of November 1st is placed at 14,133,000 bales according to the government forecast announced here this morning. The average lint yield per acre is placed at 150.6 pounds. Today's total production in bales is 140,000 bales over last month's report announced on October 8th. The number of bales ginned up to November 1st was given at 10,160,000 bales and compares with 9,921,000 ginned on the same date last year and 11,254,000 bales ginned up until the same time in 1926. A twenty year ginning average on the corresponding date is given as 8,463,000 bales and the average percentage of the crop ginned as of November 1st, for the past twenty years is given as 54.5.

An anticipated heavy ginning report has caused the market to decline during the past few days.

The trade discount had followed a production of 14,500,000 bales as of November 1st. The market reacted and went up after the forecast was received. The market opened this morning at 18.86c and advanced to 19.24c after the report was published and made another advance to 19.34c just before noon.

### RED CROSS DRIVE MONDAY

On Monday a drive for membership in the Red Cross will take place in Artesia to secure one hundred members at one dollar each. One half of this sum will remain with the local chapter of the Red Cross which will be organized after the drive.

OFFICIAL PAPER OF EDDY COUNTY

TELEPHONE NO. 7

## THE IMPORTANCE OF POTASH DEPOSITS IN THE SOUTHWEST

Potash deposits of Western Texas and Eastern New Mexico may soon be classed as one of the leading industries of the Southwest. South of Odessa, Texas, the American Potash Company plans to spend \$2,500,000 in the development of its potash holdings says Edward J. Wall in the November issue of The Texas Commercial News. Recent tests reveal that there are plentiful potash deposits in Southeastern Eddy county, where development work is now underway. Whether Eddy county deposits will undergo as extensive developments at the present time as those near Odessa remains to be seen, but the Eddy county deposits will undoubtedly have a commercial value in years to come.

Mr. Wall says:

At the present rate of consumption, the potash deposits in West Texas are sufficient to suffice for 250 years. There are 57,000,000 tons of potash located in this West Texas deposit with a potential value of nearly five billion dollars. Mining operations are to start shortly and a refinery of 2,000 tons daily capacity is to be erected.

"The life of a nation is directly dependent upon its supply of potash," states Mr. Wall. "Plant life cannot exist without potash and, as we exhaust the oil, crops will become smaller and smaller while the prices of foodstuffs mount. The vital necessity of an abundant and unfailing supply of potash was forcibly brought to the attention of the United States when the supply from Germany was cut off during the World War. Every known source of supply in the United States was developed to its greatest extent. The alkali lakes of Nebraska and California were exploited. Seaweed was burned and what little potash was left in the ashes was used. Even the dust from blast furnaces and cement mills and the waste liquors from molasses distilleries were searched for this important substance."

In addition to the importance of potash in agriculture, the need of the mineral in industry is stressed. "If no potash were available in the world," says Mr. Wall, "the wheels of industry would soon cease turning and civilization would soon revert to barbarism. Potash salts are required for practically every important industry process."

## WISHES AND PURPOSE

The difference between wishes and purpose is the same as between dreams and realities, between failure and success. The reason so few wishes come true is because so many wishers lack purpose.

Many a man of superior talent has let others of mediocre ability leave him far behind in the climb up the ladder of life because he spent too much time on wishes and too little time changing his wishes into purposes, his purposes into acts.

The wisher drifts lazily with the current of life vainly hoping that chance will land him on some Treasure Island where he may live in peace and comfort.

The purposer goes forth to achieve with will and courage, and no obstacle is too great to attack—if he cannot go over he goes around.

The wisher fails to see clearly the day's task because a rainbow-tinted vision of his heart's desire hovers between him and the duty next to be done.

The purposer adds day's work, deed to deed, in a steady effort toward making his wishes become reality.

"The heights by great men reached and kept  
Were not attained by sudden flight,  
But they while their companions slept  
Were toiling upward in the night."

Wishes are as spontaneous and plentiful as weeds in a garden; purposes are like shy flowers that require constant cultivation to bloom into sturdy maturity.

The man who wishes for promotion and increased pay will do well to transform his wish into purposeful effort to excel in the performance of his work and to increase the value of his services.

To wish idly for the betterment of one's fortunes is to be of infirm purpose but to wish to a good purpose and to strive with energy and constancy of aim for the attainment of that purpose is the secret of success.

Wishes without purposes are futile dreams, blossoms without fruit, bricks without straw, but wishes plus purposes are the stuff with which we conquer earth, sea, sky and life itself.

The fellow who died or had an accident a few days previous to the election was just out of luck. The papers have just had too much politics to carry a small thing like a death or an accident.

## EXTENSIVE RESEARCH PROJECTED BY THE OIL INDUSTRY COMING YEAR

During the coming year the petroleum industry is to conduct one of the most extensive research programs in its history.

Thirty fellowships, in 17 universities and government laboratories, are to be awarded. Inauguration of the 1928-29 program marked the start of the third year of organized investigation.

The various projects cover many different phases of the industry. Beginning with the origin of oil and the fundamentals of discovery of oil deposits and their working, they include such important topics as the substance present in, and the chemical properties of crude petroleum.

The oil industry is yet, contrary to the common belief, somewhat in its infancy. The tremendous progress of the past few years has far from exhausted the possibilities. Scientific knowledge of petroleum is still elemental.

It is not known, for example, how the oil found in deposits originated and found its way to the natural reservoirs, or how it may most effectively and economically be removed. As well, it is not definitely known exactly what properties constitute raw petroleum or the finished oil products.

On such researches as these the future development of the petroleum industry depends. Intensified production with the greatest possible efficiency and economy must come from new knowledge. This is gradually being found and the result is greater scientific progress and economic soundness.

## MERIT AND ADVERTISING

Edson R. Waite, secretary of the Shawnee, Oklahoma Chamber of Commerce says:

THAT there are two essential elements to the success of any industry; these two elements are merit and advertising. Without one the other is powerless.

THAT the success of merit plus advertising has given to the electric and gas companies a growth unprecedented in American industry.

THAT each succeeding year brings word that public utilities have established new records in growth and service, all due to merit and advertising.

THAT new uses for the services supplied by electric and gas companies are being developed constantly, both for the home and for industry, and sold to the public through merit and advertising.

THAT great progress is being made in the extension of electric service to rural communities and to the farms.

THAT in recent years service has been extended to thousands of communities that could not have been served economically by small isolated systems. Under holding company management the benefits of large scale operations have resulted in better service and reduced rates to customers, this done through merit and advertising.

The electrical and gas industries' greatest progress is yet to be advertised, because both industries are yet in their infancy.

What merit and advertising have done for these great industries will do for others, providing they have merit and advertise.

## NOW THAT IT IS OVER

People generally breathed a sigh of relief when Tuesday's affair became past history, although it is not known at this writing about the ultimate outcome. We have never seen a presidential campaign surcharged with more bitterness. In many ways the past campaign has been the most peculiar in the history of the Union. New alignments were made, the political allegiance which formerly held parties together was forgotten in the scramble to get in line.

There is always more or less an element of uncertainty which pervades the nation on an occasion of this kind and this is possibly one of the worst features of a contest of this kind. While there was less unrest during the past election than in former contests, the restless feeling prevailed even locally.

No less unfortunate is the fact that elections bring ill feelings, sometimes between life long friends, if, however, we enjoy playing the part of a good citizen, we should be a well behaved loser as well as a good winner.

If we would do something constructive, let's direct our surplus energies toward bettering our community and making Artesia a more desirable place to live and forget about the election.

## NEVER A DAY

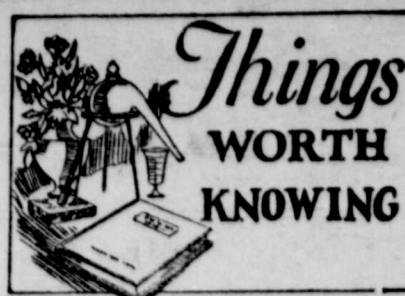

Never a day goes by but we read of automobile accidents and loss of life, broken legs, arms, heads, cars, pocket books etc. It seems when one gets out on the road in a car now days he had just as well be a soldier on the front in time of war. Seventy thousand a month are killed and crippled on the nation's highways. Certainly some accidents are unavoidable, but just as certainly most of them should not have happened and would not but for reckless driving and the failure to use such precaution as would be used anywhere else in the world except in an automobile where the main idea seems to be to step on the gas and land in the hospital or the cemetery as soon as possible.—Groom News

## IF EVERYBODY

If every resident of Artesia worked as hard at town boosting as a few worked during the last few days of the political campaign, what a town we would have, but the ordinary fellow won't do it if it were possible because a consistent effort cost him too much energy. We remember, however, that the successful man puts in long hard hours to keep his business going ahead. The failures are the ones generally who have made spasmodic efforts at doing what the successful men work at every day and sixteen hours a day if necessary.

## CATTLE FED

Information from various states as to the probable number of cattle to be fed this coming winter compared to last winter, based upon opinions of bankers feeders and others, does not point to much increase in the corn belt and to a decrease in western feeding sections. The feeding situation, however, has not sufficiently developed to make any dependable forecasts possible, according to the department of agriculture.

Give the hens a heavy feed of grain at night as cold weather comes on. It is a long time between their evening meal and breakfast.

Horses—like people—appreciate a variety in their diet. It is a good plan to make slight changes in their feed occasionally.

Where moderate applications of manure are made to land at this time of year, it pays to add 40 or 50 pounds of superphosphate with each load. This may be put on the manure either in the stable or after it is loaded on the spreader.

Beef cattle purchased in the fall for grass-grain fattening should be "roughed" through the winter so as to gain from 50 to 75 pounds. Cattle handled in this way will generally make greater gains the following summer than cattle making larger gains in the winter.

Cultivated and forage crops agree with pocket gophers, but strychnine doesn't. These destructive rodents, which do so much damage in the western states to crops, can be controlled by strychnine, distributed on vegetable or grain baits placed in the main runways. Late fall is the best time to go after them in most localities.

Don't let erosion rob your soil of valuable plant food that has been accumulated for centuries and can not easily be replaced. Soil specialists of the U. S. department of agriculture advise terracing and the planting of legumes, rye and various other crops in a rotation which will not leave farm lands so constantly exposed as does continuous cropping of corn, cotton, and other cultivated crops.

Alfalfa grown under eastern conditions can profitably be given a top dressing of well-rotted stable manure in the late fall or winter; this not only furnishes some protection against winter injury but will usually increase the yield the following season. If the stable manure is not available, an application of 300 to 500 pounds of superphosphate (acid phosphate) per acre in the spring helps to maintain a good stand.

With the approach of killing frosts well developed tomatoes that show no color but in which the leaf green is beginning to fade, can be picked and ripened by storing in shallow receptacles in a room where the temperature is about 72° F. If the air is very dry, sprinkle the floor a little from time to time, or set pans of water in the room; otherwise the tomatoes will shrivel during ripening.

Material such as dry leaves, weeds, sweepings from the house and barn, coffee grounds, banana peelings, soot and wood ashes is not necessarily waste matter. According to the U. S. department of Agriculture, these things all have some fertilizer value and can be utilized by the small farmer or suburbanite. The materials can be applied direct to the soil or composted with manure before using.

Take the chinch bugs unawares and burn their winter quarters when they are hiding in November and December. As an aid in controlling this bug, one of the most destructive native pests attacking grass and grain crops, burning is recommended, particularly in the states west of the Mississippi river where bunch grasses are abundant. Every female chinch bug killed now means at least 100 less bugs in the small grain next spring, and perhaps 100,000 of the next generation in the corn.

**PLENTY TIRED, THIS MOTOR CAR**

Even though many motorists believe in equipping their cars with overize tires this set may seem extreme. A tire firm decided to provide its Chevrolet delivery car with something unique and a set of 44x10 inch casings to it. No inflation is necessary, as the sidewalls of the huge tires are strong enough to support the automobile.

**ROUNDS UP HARD FOR "THE ESCAPE"**

of finding the greatest "tough-looking eggs" in the fall to Richard Rosson, director, when he was the task of directing Virgil and William Russell in "The Escape," which will open next week at the Majestic Theatre.

of a modern version of the stage success, written by Rosson and scenarized by Rosson. With the scene set in New York, in the heart of the club district, Rosson found it necessary to arrange his working party of gunmen, bootleggers, and the underworld in general would play prominent parts in the action.

after spending several days in New York, where he made a study of bowery types, rounders and waterfront life, returned to Los Angeles to the difficult business of casting that would fit the strong requirements.

at this time," said Rosson, "earlier training helped me materially. When they tried to learn sketching in school, I presented the idea. It seems to me that in my motion picture, however, sketching has value, and in "The Escape," it is necessary to study so many short order, my notebook and are priceless."

dition to those playing the roles, the cast in "The Escape" includes Nancy Drexel, George William Demarest and James

**COTTONWOOD ITEMS**  
(Miss Alma Bradley, Reporter)

Mr. and Mrs. Tom Johns and family motored to Weed last week end to visit relatives there.

Mr. and Mrs. I. S. Recer went to El Paso, Texas Tuesday to visit their daughter Mrs. Joy Rowe.

Ollie Johnson, who underwent an operation recently in the St Mary's hospital at Roswell, is improving.

Dr. Puckett was at the Cottonwood school Monday and gave the pupils the final vaccination for typhoid fever and small pox.

Miss Exa Terry, who was operated upon for appendicitis in the Carlsbad hospital has returned home and is improving rapidly.

Mrs. W. L. Bradley and her cousin Mrs. W. R. Clarke spent Thursday and Friday in Carlsbad, Thursday they went through the Carlsbad Caverns and spent Friday visiting relatives.

The Misses Mable Vowell, Katie Cowan and Buby Jenkins returned from Albuquerque last Sunday, where they attended the State Teachers' convention. They also visited friends in Las Vegas.

Misses Almer Lee Bankston and Edith Wilson drove over to Plainview last week end with Messrs. Morhead, Carl Faulkner and Reed McCaw to visit Misses Mae and Lula Wilson who are attending Wayland is improving rapidly.

Mr. and Mrs. A. D. Hill entertained Governor Dillon and a number of state officials at their home last Wednesday night with a party. A number of Cottonwood friends were present and after very enjoyable evening of dancing, refreshments of sandwiches, cake and coffee were served.

Phyllis—I'd like to buy a hope chest, please.

Clerk—Here's just the thing for you. This cedar lined one will keep things just lovely for years and years.

Madam (to Chinese manservant)—After this, when you enter my bedroom, please knock. I might be dressing.

Chinaman—Me don't need knock. Me allays lookee in kleehole first.

Tom Freeman, of Denver, Colorado, land man for the Texas Production Co., spent a few days here the past week, attending to business matters.

**GOT THE WRONG JAR**

DENVER, Colo.—When Dorothy Morgan returned to her home from an evening party she mistook the shoe polish for her cold cream. Her mother startled by the blackened face that appeared from the bathroom also made a mistake and telephoned police that a burglar was in the house. The errors had been discovered by the time the officers reached the house.

**High Compression Performance**

**FIRST**, a quick, easy start. Then, high-compression performance from any motor.

That's what happens when Conoco Ethyl goes through the carburetor. This super motor fuel gets the best from all types of motors in all kinds of weather.

By performing perfectly in the new high-compression motors, it releases the full power which these motors were designed to develop. By "turning carbon into power" it makes motors of lower compression deliver high-compression performance.

Conoco Ethyl is indeed the miracle motor fuel. It is giving thousands of motorists an added pleasure in car ownership. When you try it, you'll quickly understand what a difference Conoco Ethyl can make in the general operation of your car.

Get it at the familiar Conoco Ethyl Sign.

## ATTENDS MEETING OF THE DOMESTIC SCIENCE CLUB

Miss Ruth Bigler represented the Domestic Science club of the high school at the state meeting of Domestic Science clubs, which was held in the high school during the State Teachers' Association in Albuquerque. Miss Ruth Morgan instructor in domestic science in the Artesia high school is head of the State Association. Among the many pleasant things was a banquet at the Franciscan hotel.

## SILVER ANNIVERSARY

Mr. and Mrs. M. W. Evans celebrated their twenty-fifth wedding anniversary last Thursday evening, with a six o'clock dinner. The anniversary feature was a surprise to the guests, who learned of this interesting phase of the celebration when they sat down to the dining table with its "Maggie and Jiggs," favors for the ladies and gentlemen respectively. The dinner was served in three courses and was followed by bridge. Mr. Evans presented the bride of the evening with a handsome silver percolator and tray a memento of the occasion. The guests were Mr. and Mrs. Dexter, Mr. and Mrs. E. H. Perry and Mr. and Mrs. Pete Losey of Hagerman.

## LINE PARTY

The Whip-poor-will and Bob White patrols were entertained by a line party at the Majestic Theatre last Thursday night to see the "King of Kings." The party included the Misses Evelyn Cobble, Jaunita Denton, Elizabeth Gage, Romah Cass, Grace Sinclair, Geneva Gilliland, Thelma Mitchell, and Miss Green.

## FIDELIS SUNDAY SCHOOL CLASS ENTERTAINED TUES.

Mrs. Howard Byrd and Miss Ina Cole entertained members of the Fidelis Sunday school class with a number of their friends in the parlors of the Baptist church, Tuesday evening. Light refreshments were served at the conclusion of the entertainment features. Among those present were the Misses Mary Smith, Irene Stewart, Beth King, Clara Harris, Ruth Peterson, Alene Wilson, Ruth Bigler, La Rue Mann, Ethel Ransbarger, Mary Scott, Julia Rader, Victoria Moore and the Fidelis class teacher, Mrs. W. C. Martin, Messrs Charles Horne, Johnny Williams, Walter Robertson, Herman Cole, Kieth Miller, Earl Robertson, Wilbur Stewart, Doris Ransbarger, and Howard Byrd.

## SIX O'CLOCK DINNER TUESDAY

Mr. and Mrs. C. O. Brown were hosts at a six o'clock dinner Tuesday evening complimenting their guests, Mr. and Mrs. G. G. Curtis of Monon, Indiana. Their daughter, Miss Ella came over from Hope to be present. Other guests were Mr. and Mrs. E. H. Perry, Miss Hazel Morris, and Messrs. Pat Riley and Andy Anderson. Mr. and Mrs. Curtis left yesterday morning to visit other relatives at Roswell, Clovis and other points.

## WEEK OF PRAYER SERVICE

The annual week of prayer of the Methodist Missionary Society is being observed with two services. The first was held yesterday in the church and was an all-day meeting with dinner at noon. A good program entering about the mission work of the church was given, with the president Mrs. I. C. Dixon, acting as leader. Another service will be given Sunday night at the preaching hour.

## Smart Vogue Calls for Knitted Ensembles

Clad in a three-piece knitted suit like the one in the picture, or similar, the college girl will realize her cherished hope of arriving at the campus dressed to the 'nth degree of smartness. The new knitted ensembles feature marvelous color blends. The most alluring are those which exploit autumn browns.

## Social Calendar

TELEPHONE 217

### THURSDAY (TODAY)

Miss Anna Frances Jackson will entertain the Bridgits this evening at the home of Mrs. Howard Gissler.

### FRIDAY

The Second Evening Bridge club will meet at the Beecher Rowan home.

### TUESDAY

The Fortnightly Bride club meets with Mrs. C. R. Blocker at 1 p. m.

The Idlewhites Bridge club will meet with Mrs. E. M. Phillips at 2:00 o'clock.

The Second Bridge club meets with Mrs. Fred Brainard at 2:30 p. m.

### FRIDAY (NEXT WEEK)

Circle 2 of the B. W. M. U. will meet with Mrs. J. M. Smith at 3 o'clock.

### ONE O'CLOCK LUNCHEON

Mrs. Frank Linell, president of the American Legion Auxiliary entertained the Auxiliary at a lovely two-course luncheon at the regular meeting of the unit on Monday afternoon. The Linell home was attractively decorated with autumn leaves and the national colors added the patriotic touch to the occasion and brightened the rooms with their colorful note. Covers were laid for thirteen and the hostess was assisted in serving by her daughter, Mrs. Jack Clady, a member of the organization. The honor guests were Mrs. R. C. Worswick and Mrs. H. A. Meyer, of Roswell. The ladies both of whom attended the national convention in San Antonio in October, Mrs. Worswick as chairman of the New Mexico delegation and Mrs. Meyer as representative from the Roswell unit gave interesting reports of that great meeting at the business meeting, following the luncheon. Other items of business transacted included the forming of plans for the annual fall membership drive. The unit was divided into two divisions the losing side to pay a penalty for its failure to win the race.

## NEW FEDERAL HIGHWAY MAPS SHOW IMPROVEMENTS

SANTA FE.—Word has been received in the state highway department offices here of the preparation of new maps by the Federal Aid Bureau of Roads which will show the kind and condition of all roads in the United States. Hereafter, according to the bulletin, it will be possible for the tourist starting on a long trip to ascertain in advance just what kind of conditions he may expect in any part of the country.

The new maps are complete with the exception of the states of Texas and California and these will be completed within a short time. The maps will show the status of all improved roads whether done by federal, state or county work. A system of symbols indicates the type of improvement of all roads and whether the work was done with federal aid or not.

The maps are called progress maps and will be issued periodically to register any change in improvement in the highways. The state highway department has not received any of these maps yet but expects to within a short time, order having been already placed.

## Willing to Drat the Kids

Ad in exchange: "Mother's Helper. Will repair clothing, darn and care for children by day or hour."—Boston Transcript.

## METHODIST MISSIONARY SOCIETY MET THURSDAY

The monthly business meeting of the society was held at the church last Thursday afternoon with Mrs. Dixon, president, presiding. Among business of importance transacted were plans for the annual chicken pie supper and also for the week of prayer services. The latter consists of an all-day meeting, which was held at the church yesterday and an evening service which will take the place of the preaching service Sunday night. The annual election was held and resulted in almost the entire list of officers being returned to their tasks. The list follows: Mrs. I. C. Dixon, pres., Mrs. E. B. Bullock, vice-pres., Mrs. Will Benson, corr-sec'y., Mrs. Ike Keller, recording sec'y., Mrs. O. S. Matteson, connectional treas., Mrs. George Frisch, local treas., Mrs. Reed Brainard supt., of Junior Work, Mrs. Grant Knepple, supt., Young People's Work, Mrs. R. O. Cowan, supt., Mission Study, Mrs. John McCann, supt., Social Service, Mrs. Harold Scroggins, supt., Supplies, Mrs. H. A. Stroup, supt., Publicity, Mrs. Landis Feather, agent for Missionary voice, Mrs. L. W. Feemster, supt., Local Work.

## P. E. O. MEETING

The P. E. O. Sisterhood held its regular meeting at the home of Mrs. Jessie Morgan last Friday afternoon. The study of New Mexico was continued, Mrs. Morgan giving an excellent paper upon the American period in New Mexico history. The roll call was responded to with the names of New Mexico flowers.

## SUNSHINE CLASS PARTY

Mrs. Austin Brown entertained the class at its regular meeting last Friday afternoon. The Bible study, consisting of the seventh and eighth chapters of acts, was conducted by the leader Mrs. C. R. Blocker. This was followed by the regular business meeting and the refreshments were served by the hostess.

## CONFIRMATION SERVICES

Bishop Schuler, head of the El Paso Diocese of the Catholic church, administered the sacrament of Confirmation to 132 candidates at the local Catholic church last Saturday. The children receiving the Confirmation sacrament included a number of babies, as the bishop makes visits here only every few years. He was assisted in the services by Fathers Fredrick, Harrington, and Raymond, all of Roswell, Father Slorentine of Clovis and Father Clement of Carlsbad.

The ladies of the church served dinner at noon for the bishop and the visiting priests at the Dr. Clarke home.

## Winter Protection for Dairy Cows Important

When the cold rains, sleet and snows of winter bother the dairyman, barn roofs prove to be cheaper shelters for dairy cows than the backs of animals. Some classes of stock can be wintered very satisfactorily out of doors in stormy weather, but exposure to such weather will immediately cause the dairy cow to decrease her milk flow. In addition to a decreased milk flow the cow will be required to consume more feed in order to maintain her body heat, both resulting in increased feed consumption in proportion to the amount of milk received.

## Bees Kept Busy

It has been estimated by Department of Agriculture experts that a pound of honey represents the life work of approximately 1,000 bees a bee's working life averaging about three weeks.

## Advocate Want Ads Get Results

## "Watch Your Cattle," the Hunters Are Coming

## DR. ZIMMERMAN IS CHOSEN PRESIDENT OF EDUCATIONAL ASS'N.

Elected Dr. Zimmerman president of the State University, as president of the organization for the ensuing year and selecting Albuquerque as next year's convention city, the New Mexico educational association closed its 43rd annual convention at noon Saturday.

Addresses were heard from Dr. Daniel H. Kulp, Dr. Earnest Horn, Miss Edith B. Joynes, and A. R. Tillman.

Albuquerque received 383 votes, Santa Fe 117, and Las Vegas 104, out of a total of approximately 600 votes cast.

Dr. Zimmerman was elected president unanimously, with Miss Isabel Eckles vice-president, Raymond Huff treasurer and D. N. Pope member of the executive committee.

Awards for exhibits were announced as follows: City—Albuquerque first, Silver City second.

Rural—Colfax county first; Bernalillo county second.

Indian school—Albuquerque Indian school first, McCarty's school, second. Special—Clayton first, Socorro, second.

Special home economics—La Joya. Special drawing—Raton.

## DEATH OF J. V. WHITESIDE

Friends here have received the sad news of the passing of J. V. Whiteside, formerly of this community on September 17th, at his California home. Mr. Whiteside had been suffering from leakage of the heart and death came shortly following a stroke. Interment was in Forest Lawn Cemetery between Los Angeles and Burbank. The Whitesides owned the farm north of town, now occupied by D. L. Abernathy, and left here some nine or ten years ago.

## Cementing Celluloid

Two pieces of celluloid may be joined together by applying glacial acetic acid, pressing the parts together. The principle involved in making celluloid adhere to other materials depends upon dissolving of the celluloid and cementing it to the desired material while it is still in a tacky state. It is possible also that the use of Canada balsam as an adhesive may prove satisfactory. This material gives a surface which remains tacky.

## King of Cars for Court Queen

Helen Wills, monarch of all she surveys in the realm of tennis, has purchased a new Buick for her personal use. Known on the Pacific coast for her ability as an artist almost as well as for her tennis, she believes the new Buick is the most up-to-date in motordom. In the photograph, Miss Wills is shown with her new roadster.

## HEALTH NEWS

### ANOTHER MENACE OF THE MODERN AGE

In tabulating causes of deaths in New Mexico the number of instances of fatal burning with gasoline is striking. Among various causes of such fires is the washing of silk clothing in gasoline. There appears to be a tendency to generate very high electrical charges in these high altitudes. Rubbing silk accumulates a charge rapidly, followed by a spark that ignites the volatile vapor. It is not possible to give final figures on these accidents, at present, as the work of tabulation has just gotten under way and will not be completed for several months.

Eddy County Health Department.

### POOR VISIBILITY CAUSE OF AIRPLANE CRASH

PRECOTT, Ariz.—Poor visibility in the rugged Bradshaw mountain divide south of here was held responsible Wednesday for the crash of the Yankee Doodle in which Capt. C. B. D. Collyer and Harry Tucker were killed while attempting a non-stop flight from Los Angeles to New York.

The verdict was reached by the coroner's inquest Monday night.

Collyer's body will be sent to New York City for burial. Tucker's body was to be cremated in Phoenix Wednesday and sent to Santa Monica, California for burial Friday.

## LOCALS

Mr. and Mrs. William Dooley returned from Kansas City Monday.

Skeft Williams and wife and little son were in from the ranch Tuesday.

Chas Foster of Lake Arthur was attending to business matters here yesterday.

Rube and John Dunn left this morning for the mountains on a hunting trip.

Bert Muncy and family expect to spend Armistice vacation at their ranch, north of Roswell.

Mr. and Mrs. G. G. Taylor, of Amarillo, Texas, spent the week end with Mr. and Mrs. Rube Dunn.

Mr. and Mrs. Harvey Muncy and Neville Muncy expect to go to the Sacramento mountains tomorrow for a hunting trip.

Mrs. E. H. Perry, Mrs. E. M. Phillips, Mrs. C. O. Brown and her sister, Mrs. Curtis of Indiana, motored to Roswell last Friday.

Mrs. E. J. Brooks returned Monday from an extended trip east, which included visits in Chicago, Washington, D. C. and Dallas, Texas.

Mr. and Mrs. Bernard Cleve and children were down from Elk last week visiting Mrs. Cleve's parents, Mr. and Mrs. D. S. Martin, and other relatives.

Max Roady and wife and baby son are expected from Trinidad, Colorado tomorrow for a fortnight visit to his father, Charles Roady and other relatives.

Mr. Morgan, assistant superintendent of the refinery who has recently moved his family here, is now domiciled on Grand avenue in the house of the late August Strauss.

M. Stevenson, deputy game warden, returned the first of the week from the Tucumcari section, where he spent several days attending to duties connected with his office.

Robert Henderson, of Los Angeles, the senior member of Henderson, Dexter and Blair, oil operators arrived here Tuesday to spend some time looking after his oil interests.

Miss Exa Terry, who was operated upon for appendicitis at Carlsbad, was sufficiently recovered to return home Monday, accompanied by her mother, Mrs. Tom Terry, who was there with her.

Mr. and Mrs. S. G. White returned Monday from a two months trip which included visits to their children and other relatives at Quannah, Wellington, Amarillo, and other points in Texas, and New Mexico.

News has been received here of the birth of a son to Mr. and Mrs. Price Gittinger at Berkeley, California on Oct. 13th. Mr. Gittinger is teaching English at the California State University and studying for his master's degree.

Mr. Heart, a brother of Mrs. M. W. Evans, arrived from Pasadena, California, and a sister of Mrs. Evans, from Kansas a few days ago. Tuesday Mr. and Mrs. Evans with their guests, and also accompanied by Mr. and Mrs. Losey of Hagerman, left to hunt big game in the Black range.

A young man, who died for us in France. A thought for Armistice Day.

### HABIT IS FATAL TO FOUR BLOW OUT GAS CANDLE

NEW BRITIAN, Conn.—Habit proved too ingrained in Stefan Glisciak, 50, and Tuesday he and three companions were dead after asphyxiation by illuminating gas.

For years Glisciak blew out a candle before retiring. Recently a gas fixture was installed in the room, which he shared with Michael Bindaz, 18, Michael Granotasky, 19 and Peter Mazen, 35. Saturday night the men had been drinking. His senses befogged by wine, Glisciak mistook the gas light for his candle, blew it out, and went to bed. In the morning the four bodies were found.

## The Business Genius

A man who is often referred to as a business genius recently said: "Early in life, when a boy, I formed the habit of jotting down a record of every penny I spent. This taught me the value of system and frugality. I soon found myself able to save a little money. As I grew, I developed habits of general thrift from this simple beginning, and, with a small amount of capital thus available when I reached the age of maturity, I was able to take advantage of opportunities that led to subsequent success."

Many other men who have achieved great success in the business world could give similar testimony.

## Get More Eggs Now!

BIG poultrymen, little poultrymen, are finding that when it comes to getting more eggs, day in and day out, you simply can't beat Purina Poultry Chows.

Purina puts into hens the material from which eggs are made. That's why Purina-fed hens put more eggs in the nest. No mystery about that.

Change to Purina today. Gather more eggs while prices are high.

## New Radio Discovery

### "NEUTRODYNE-PLUS"

To Neutrodyne, known in radio science for the purest, most stable tone, Philco engineers have now added a PLUS! For the first time in radio history, Neutrodyne has been combined with super-power—and without sacrificing tone quality. The result:—perfect tone PLUS marvelous selectivity and vast distance range. A combination new to radio! "Neutrodyne-Plus!"

### No Aerial Needed

Thanks to super-power, Philco gives perfect reception of local and many distant stations without an aerial. A portable ground is provided—therefore the Philco can be moved from room to room.

### DAYLIGHT RECEPTION

Women folks at home during the day will appreciate the ease with which Philco brings in distant stations with interesting programs in the daytime.

RANGE CONTROL—cuts out local interference and separates distant stations.

PHONOGRAPH CONNECTION—a socket on the dial plate thru which you may play phonograph records electrically.

### All-Electric—Entirely Dry!

The Philco is an all-electric AC set—entirely dry. No batteries, no liquids—no care needed. Just attach to the light socket. These are but a few of the many Philco features.

# FIFTEEN CARLSBAD HOMES ARE LOOTED AND \$300.00 SECURED

Thieves of evident skill, believed to be two men and two women, entered at least fifteen or sixteen Carlsbad homes after midnight, and probably between two and four o'clock Saturday morning, and secured a total of probably near \$300.00.

There is no clue to the smooth working group, and it is believed that they are the same ones that looted Roswell homes on the previous Wednesday evening and Pecos homes on the following night. Local officers had not been advised of the Roswell thefts until after the homes here were looted, but advised Pecos to be on the lookout for such a group. However so far as was learned here, the looters were not apprehended following their Pecos raid.

That they were clever is evidenced by the fact that much of the clothing from which the money was taken, had been secured from near the sleeping victims, in some cases from within a foot or two of the bed. The clothing after a thorough search was in most instances left in hallways or near the door, though L. S. Myers' trousers and shirt were found on the J. R. Holt front porch, across the street.

Sums taken ranged from 56 cents to as many dollars, Claude Eaker being the heaviest loser with the latter amount. Sums of forty-five dollars were secured from several. J. R. Holt, W. A. Moore, F. L. Dearborne, A. C. Windham, Bill Potter, W. T. Reed, E. J. Toffelmire, Claude Eaker, L. S. Myers and others were included among the losers. No jewelry or other things were taken, lending evidence to the fact that the clever fingered visitors were wise in their craft.

There is evidence that at several homes they tried to make an entrance but failed. Where doors were locked, screen had holes punched in them to show that wires were used in unhooking the screens. At least one home reported that a screen had been found unfastened from the outside a day previous, lending color to the belief that the party were here and planning their work for a day or two.

At the George Fredrick home was the only case in which anyone was disturbed a flashlight thrown in his face as he slept on the sleeping porch aroused Mr. Fredrick at 2:15 that morning, but when aroused his visitors made a hurried getaway.

Since none of the victims are able to furnish any information as to the type of their unasked visitors the local officers have found difficulty in making progress, though a thorough and earnest effort was made Saturday, in case the guilty parties had remained in the city, and some possible suspects were questioned without gleaming and needed aid.—Current Argus.

### ELECTION PROCLAMATION

TO QUALIFIED VOTERS OF THE LAKE ARTHUR DRAINAGE DISTRICT:

I, M. W. Evans Chairman of the Commissioners of the Lake Arthur Drainage District in accordance with law, fixing the time for the election of Commissioners, and by virtue of authority in me vested by law do hereby proclaim and declare that a regular election of three members of the Board of Commissioners of the above named Lake Arthur Drainage District in Chaves and Eddy Counties of the State of New Mexico in Place of M. W. Evans, J. R. Spence and C. E. Mann, whose term are now expiring as members of said board. Said election is to be held in the town of Lake Arthur, New Mexico in the office of E. C. Jackson on December 4th, 1928, between the hours of nine a. m. and six p. m. Judges, John Lane, Robert Allison and W. R. Foster. Clerks, Mrs. Ned Hedges and Will Walden.

No list of candidates have been filed with the Secretary of the Board for said election. All qualified electors within the Lake Arthur Drainage District will be entitled to vote and any persons residing in Chaves and Eddy Counties, who is an owner of agricultural land within the said Lake Arthur Drainage District will be entitled to vote.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Secretary of the said district to affix the seal of the district hereto, this, the 3rd day of November, 1928. (SEAL)

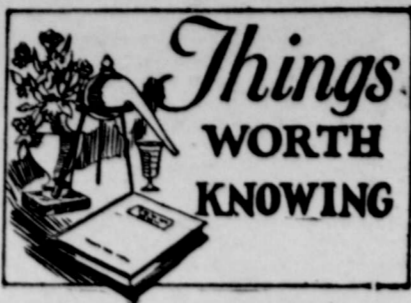

M. W. EVANS,  
Chairman,  
C. E. MANN,  
Secretary. 47-4t.

Heard on the street: "Who's that girl over there near that automobile with a red hat on?" "I don't see no automobile with a red hat on."

### Hymn Revision

"What is that tune?" asked Mrs. Cumrox. "Old Hundred." "I shouldn't think of singing it. Make it at least an 'Old Hundred Thousand.'"—Washington Star.

### AMERICAN GAME PROTECTION

In the earlier days of our country there was only one thought in regard to game, and that was for man to go out with a gun and kill all he could lay low. This led to the annihilation of the herds of American buffaloes. Elk and Moose disappeared in nearly every section of the nation. Deer became scarce. Other game became rare. Game birds were driven out of most of their haunts. In consequence the protection of game became a very serious problem, calling for intelligent consideration and constructive methods. The government and states took it up and passed laws to help preserve and conserve the game. Official bureaus were created in the states throughout the nation.

Sportsmen, conservation bodies and other organizations and individuals, have been giving attention to the diversified angles of propagation, conservation and restoration of small and big game, game birds and fish. As a result, when the American Game Protective Association holds its annual meeting in New York early in December the event will resolve itself into a great national game conference, with official and unofficial participants. The bureau of biological survey, and the bureau of fisheries, the forest service and the national parks service of the United States government, and the game authorities of various states will take part in the conference; as will also the Izaak Walton League of America; the National Association of Audubon Societies; the American Forestry Association; the American Gamekeepers' Society; and many of the other groups and organizations interested in the problems of forest and fields.

**DAILY AVERAGE GASOLINE OUTPUTS ARE AT NEW PEAK**

WASHINGTON.—Daily gasoline production reached a new high record in September of 1,118,000 gallons, the eight successive month in which a new record has been made, the Bureau of Mines, of the department of commerce stated November 1. Crude petroleum production in September totaled 76,404,000 barrels and the daily output again established a high record of 2,660,000 barrels per day, according to the department.

At the same time the bureau of mines made public figures on the world production of crude petroleum for 1927, showing that the output, amounting to 1,261,083,000 barrels, was 164,189,000 barrels, or 15 per cent more than that production of 1926. American production, it was stated, accounted for more than 70 per cent of the world total.

The largest factor in the world increase was due to increased American output in 1927, although a number of other countries, including Venezuela and Columbia, showed marked gains. The output in Mexico showed a heavy decline and Russia passed Mexico to take second place in world production.

**Has Time for Meditation**

One of the loneliest men in the world is a young Briton who has charge of a coconut plantation in the Solomon Islands. It takes almost a year for him to get letters from home.

### LAKE ARTHUR ITEMS

(Mrs. Ned Hedges, Reporter)

The mother of Mrs. E. R. King is visiting relatives in the valley for several weeks.

The Lake Arthur football team defeated the Institute team Friday, the final score being 20-0.

The Parent Teachers' Association are to have a carnival here the evening of November sixteenth.

Another Lake Arthur home is to enjoy electricity, Mrs. Dick Spence is having their home wired this week.

Supt. Bernard, Coach McCall, John Haven and W. A. Hamilton motored to Carlsbad Monday on school affairs.

Rev. and Mrs. Walthall and children were in Lake Arthur Tuesday and assisted the Methodist ladies with lunch they served.

Supt. C. R. Bernard was in Santa Fe last week and also attended the teachers' convention at Albuquerque before returning home.

Walter Walton operated a radio at the school auditorium Election night to accommodate everyone desiring to hear the election returns.

Raymond Burdick one of the Lake Arthur teachers accompanied by the Cottonwood teachers, and Mrs. Irene Hill who will teach at weed returned from the teachers' convention Sunday.

Ollie Johnson who has been quite seriously ill for some time has been in the hospital at Roswell for the past week. Mrs. Johnson is with him. The nature of his illness is not known.

### NOTICE OF HEARING OF FINAL ACCOUNT AND REPORT

In the Probate Court Eddy County New Mexico

IN THE MATTER OF THE LAST WILL AND TESTAMENT OF GEORGE M. WILLIAMSON, DECEASED.

No. 556. TO FLORENCE WILLIAMSON, GREETING:

You are hereby notified that Florence Williamson, Executrix of the Estate of George M. Williamson, deceased has filed in the above entitled Court and Cause her Final Account and Report as such Executrix, and that the Court has set the 7th day of January, 1929 at the hour of 10 o'clock a. m. in the Court Room of said Court in the Court House in Carlsbad, Eddy County New Mexico as the day, time and place for the hearing of said Final Account and Report.

You are further notified that on said date the Probate Court will proceed to hear objections and to settle the same if any there be, and to determine the heirship to said decedent, the ownership of his Estate, and the interest of each respective claimant thereto or therein, and the persons entitled to the distribution thereof.

The attorney for the Executrix is James W. Stagner and his Post Office Address is Carlsbad, New Mexico.

IN WITNESS WHEREOF, I have hereunto set my hand and seal this 8th day of November, 1928. (SEAL)

THELMA T. LUSK, County Clerk.

### DELAYED LETTER FROM CHAIRMAN E. L. SAFFORD

Santa Fe New, Mexico  
October 30, 1928

Dear Editor:

The last installment in our publicity advertising has been mailed to you.

The campaign to get the voters through paid advertisements was an experiment, the wisdom of which can only be determined when the votes have been counted.

We pitched our publicity upon a high plane. At least such was our purpose. We have been scrupulous as to facts. None stated by us has been successfully challenged. Some of our democratic editors have differed from our conclusions. Such was to be expected.

We felt that the republican cause both national and state, should be presented on its merits, and the newspapers should be paid at their regular advertising rates for such publicity.

We recognize the newspaper as a business institution. It must have money for its paper, its ink, its printers. Its owners and editors must live.

The newspaper is indispensable to its locality. It is one of the most important cogs in the machinery of civilization. We have tried to show that it can be used effectively as an advertising medium for state and national politics.

Personally, and as the chairman of the republican state central committee, I want to thank you for the courtesies you have extended. I hope and believe your readers have appreciated our method of conveying the campaign to them.

Very truly yours  
E. L. Safford

### PRODUCTION SLUMPS

TULSA, Okla.—National production of crude oil totaled 2,504,196 barrels daily average.

Mid-Continent field produced 17,957 barrels less than a week before, to a daily average of 1,507,664 barrels.

Oklahoma's output dropped 12,845 barrels to 725,540. Declines in the greater Seminole and St. Louis-Pearson areas caused the slump.

West Texas average yield slumped from 332,851 barrels the previous week to 330,788 barrels last week.

### Poet's Repositories

Coleridge generally kept his money concealed in his hat. His manuscripts, however, required a more spacious container and were stored in a bathtub.—Exchange.

### Turning the Tables

It makes no difference how smart you are, the old cow won't buck up to you while you are sitting in the shade to be milked.—Topeka Daily Capital.

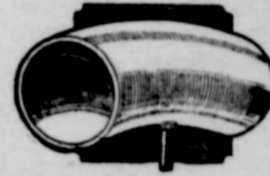

## Six times a year

instead of weekly checking of tire inflation

More than 50% of all tires go to the scrap heap through internal breakdown—with under-inflation one of the principal causes.

Polson Super Tubes are the best possible safeguard against under-inflation and will insure lower tire mileage cost because they maintain air pressure evenly for from thirty to sixty days without attention. Other features are—four to five year service life; 25% increased tire mileage and low cost per mile.

Self-seals 95% of all punctures

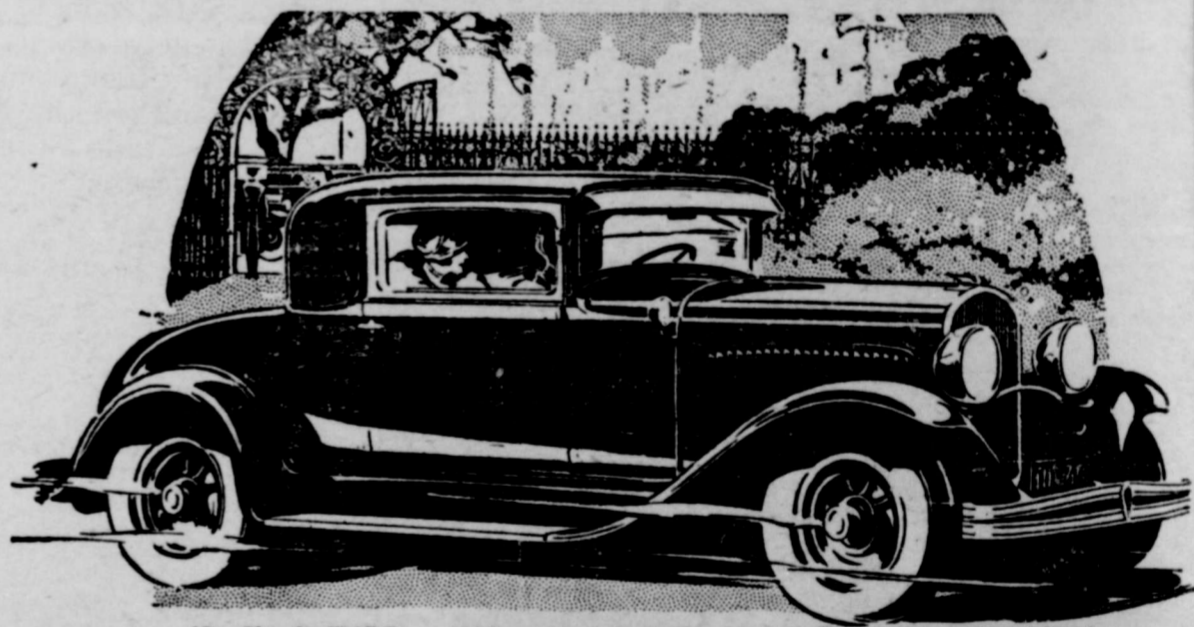

The cross section at the left shows the heavy inner tread of Polson Super Tubes, highly compressed when the tube is inflated. This cushions tires against road impacts and self-seals 95% of all punctures.

JOSE TAROL ON TRIAL FOR OBREGON'S DEATH SAYS HE WAS TORTURED

SAN ANGEL, Mexico.—Jose De Leon Tarol, taking his defense in his own hands at his trial for the assassination of President-elect Obregon last July, described terrible tortures which he said had been inflicted on him at police headquarters in an effort to force from him confession of accomplices.

He said that for six hours he endured in silence while being beaten, burned with matches, stabbed with pins, and hung by his thumbs and again by a restricting cord about his chest. His torturers threatened to subject his wife to the same treatment. Then he was thrown into a narrow cell in which he was unable to move and confined there for 24 hours. Finally, he charged, he was given no food for three days.

Demetrio Sodi, his attorney, demanded that the court investigate the story and punish the police responsible if it was substantiated. This was the first time that the charges of mistreatment had been made public although rumors of torture had led correspondents to question Tarol in the presence of police officials a few days after the assassination. At that time, the prisoner said, he had not been tortured.

It was General Obregon's life and not his soul that Leon Tarol sought, he testified. He said that for a month before the assassination, he had offered prayers for Obregon and that all of his prayers since he had been in prison had been that the general's soul might go to heaven.

SANTA FE.—Out of state hunters who shoot their deer in New Mexico this year will be able to transport it to their homes without fear of being "pinched and fined" for violating the game transportation laws of the states, E. L. Perry, state game warden, said here last week.

The conference of fish and game protective associations of southwest-ern states, held last week at San Antonio, Mr. Perry said, agreed mutually to protect hunters from being victimized by conflicting state laws, until legislative remedies could be obtained.

Last year two hunters who shot a deer in New Mexico, Mr. Perry said, had to cross a section of the Panhandle on their way home. He said they were arrested and fined for transporting game out of season even though the men were not natives of Texas and had killed their deer in New Mexico.

The association, Mr. Perry said, is composed of game and fish protective organizations of Texas, New Mexico, Oklahoma, Arkansas, Mis-ssouri, Kansas and Louisiana, and its purpose is to seek uniform legisla-tion for those various states with re-gard to fish and game. Mr. Perry returned to Santa Fe last week from the convention.

HUNTERS CAN HAUL DEER WITHOUT FEAR OF BEING "PINCHED"

WHAT CHILDREN SHOULD KNOW

Christopher Columbus was surprised when he found the natives in Haiti playing with balls that were made from the gum of a tree. These balls bounded in a way that excited the intense curiosity of Columbus and his fellow-voyagers.

The natives called their playthings "Caoutchouc," which referred to the material that we now call rubber.

In 1492 it seems that the main sport of the Mayas of Southern Mexico and Central America was playing games with the Caoutchouc balls.

Caoutchouc was first utilized for erasing pencil marks and it became "rubber" at the end of pencils. This discovery of its usefulness was due to Joseph Priestley, a clergyman and chemist.

A little more than 100 years ago the rubber industry had its first small beginnings when a Scotchman named Mackintosh dissolved rubber in naphtha, creating a water proofing trade. Mackintosh is still the name for a certain kind of rubber

Black Satin Sponsored for Daytime Wear

No type has been found which from the standpoint of good looks and practicality outrivals the frock of black satin for informal daytime wear. Which accounts for the fact that it is again being definitely highlighted in the autumn mode.

Stone Eye Glass Service

The day of "gettin' a pair o' Specks" at the corner store is past. Science has taken the place of guesswork and ignorance.

The optometrist is a scientist, schooled and thoroughly trained in the examination of the eye without the use of drugs. His deductions are from the use of scientific instruments—instruments of precision—and are positive.

As registered optometrists, licensed by the state after thorough proof of efficiency, we are in a position to serve you, not only in examinations but in furnishing scientifically correct lenses to relieve your eyes.

**Dr. Edward Stone**  
Optometrist

raincoats.

In 1839, Charles Goodyear, who had been experimenting with rubber, dropped some India rubber mixed with sulphur on a hot stove. He got more than a smell out of it because he accidentally discovered the means of

vulcanizing rubber. From the experiment the rubber industry has grown—grown quite as marvelously as did the use of steam resulting from Fulton watching the top of another stove upon which there was a steaming teapot.

Armistice Day!!

DO YOU REMEMBER ARMISTICE DAY 10 YEARS AGO?

On this day, the soldiers near Verdun and all along the front after hearing the continual roar of guns until 11 a. m. could hardly believe their ears when every gun ceased firing. Soldiers regardless of color or nationality, shook hands, put their arms around each other, shouted, laughed and cried for the World War was really over. Before the war, since the war, and as a soldier in the war, the owner of this store has studied groceries and knows how a customer frowns when they have tried everywhere to get something and can't get it. To keep our customers from frowning we nearly always have what they want when they want it. Below are a few things we sell that you cannot buy at every grocery store: Fresh fish, fresh oysters, mutton, bottle milk, Fleischman's yeast, country butter, bulk dates, stove polish, steel wool, perfection wicks, perculator tops, canned cranberry sauce, kraut juice, advertised canned goods and everything good to eat. Hunters will profit by buying their eats from us at pay cash—pay less prices.

TRAVEL INCREASES ON CARRIZOZO-SOCCORRO ROAD

Traffic this year over U. S. road 566 between Carrizozo and Socorro has increased 50% over that in 1927.

A week's count taken recently by the highway department at San Antonio indicated a daily average of 120 cars using this route, 9% of which bore foreign licenses. The count at this point last year was 78.

At Socorro fork west of Coyote station the count this year is 39 cars per day. Last year only 26 autos passed the same point on U. S. 566.

When the new Federal Aid projects located on the federal alignment are completed and the new route between Socorro and Carrizozo formally opened up, it is expected travel on U. S. 566 will show a big gain.

INSIDE INFORMATION

Make hot cheese toast for winter suppers sometimes. For 12 or 14 slices, you will need 1 pound of medium sharp American cheese, 1/2 pint rich milk or cream, 2 eggs, 4 drops of tabasco sauce, 1/2 teaspoon salt, 1 1/2 teaspoons baking powder, and 2 tablespoons of flour mixed with an equal amount of water. Flake the cheese with a fork. Heat the milk in a double boiler, thicken it with flour and water mixture, and cook for 5 minutes. Add the beaten eggs, the cheese, and the salt. Cook very slowly until the cheese has melted and the mixture is thick and creamy. Allow it to cool and add the baking powder. Spread on the untoasted side of the bread that is browned on one side only. Put the mixture on evenly to the very edges otherwise they will be too hard and brown. Brown the cheese toast delicately under a low gas flame or in an oven. If desired lay a strip of crisp bacon across each slice of cheese toast. Serve immediately.

A number of vegetables are suitable for filling with stuffings of various ingredients. Eggplant, green peppers, large Spanish onions, cymplings, tomatoes and cabbage are among those often served in this way. Usually the stuffing is made of other vegetables, ground meat, and some starchy material such as bread crumbs, or cooked rice, or spaghetti, to give body. A great many combinations are possible in stuffings and they offer an excellent way to use up small portions of leftovers. For stuffed onions, for instance, the following combination is particularly good—chopped celery, buttered bread crumbs, ground cooked ham, and a little leftover gravy or sauce to act as a binder. Most stuffed vegetables can be prepared early in the day and set aside until it is time to reheat them. For this reason, and because they are tasty and unusual, they are well adapted to "company" meals when one wants something a little out of the ordinary.

The fellow worth while is the man with a smile when his garter comes down in the middle of the aisle.

The car stood in the muddy road spinning wheels but moved no load. The driver yanked, tore out the clutch, and now the wheels don't spin so much.

Loose-leaf binders, special ruling and stock forms—Advocate.

LOCALS

Judge Atkeson attended court in Carlsbad Monday.

Mrs. Margaret Ellis visited friends in Carlsbad last week.

Mr. and Mrs. Grant Knepple spent Sunday with friends in Loving.

Lee Vandagriff and sister Mrs. Bailey drove to Carlsbad Monday.

Mrs. Ealen Gage and Miss Ethel Bullock, were shopping in Roswell Saturday.

The Sam Williams family returned the last of the week from a short trip to Oklahoma.

C. O. Brown Jr. is here from Clarksdale, Arizona for a few weeks' visit with his parents.

Mrs. Sid Cox returned last week from Temple, Texas, where she spent three weeks at the clinic.

Mrs. I. P. George of Ropesville, Texas is visiting her son, Perly George and family here this week.

Mrs. Bailey and Mrs. Lauderdale of Rankin, Texas are here spending the week end visiting friends and relatives.

Charles Dewell came down from Roswell Saturday and accompanied his sister Miss Frances, to Carlsbad for a week end visit.

The Methodist ladies gave their annual November chicken pie supper in the old Palace drug store building, last Saturday evening.

Mr. and Mrs. John Lanning and little daughter, Bettynelle, left Tuesday for a three weeks visit to relatives at Oklahoma City and Muskogee, Oklahoma.

Friends of Rev. Mims J. Jackson and family will be interested to learn that Mr. Jackson was assigned to the Methodist church at San Angelo at the recent meeting of the Southwest Texas conference.

Mr. and Mrs. C. O. Brown are enjoying a visit from a number of relatives, the company including two brothers and a sister, a brother-in-law and a sister-in-law of Mrs. Brown. They are Mr. and Mrs. C. B. Curtis of Monnon, Indiana, Mr. and Mrs. Carl Mersfelder of Portales and Mr. L. C. Mersfelder of Oklahoma City, Oklahoma.

KOB RADI OPROGRAMS

The main feature of the radio program for November 12 will consist of suggestions to stockmen on how to use the surplus corn to advantage. There are other good tips on livestock management in this talk also.

Aunt Sammy will tell what to do when your child is hurt, giving timely suggestions all the way from automobile accidents to a cut finger.

On November 19 the program will consist of dairy information. Care of milk, getting the stable ready for winter, feeding young heifers and

Re-Roofing at a Saving

Thousands of homes have been re-roofed the EDGWOOD way, during the past few years . . . right over the old roofing or shingles. One of many home-owners, writes . . . "The wonderful results which I have obtained by your method of re-roofing with new red cedar shingles laid directly over the old wood shingles, has made me a very enthusiastic advocate . . . of the double roof. . ."

Double insulation is one of the many advantages of this method . . . the double roof keeps your home cooler in summer, warmer in winter. Saves labor, litter and expense . . . and the EDGWOOD red cedar shingled roof costs 14 to 31% less than any other standard roofing material.

Big Jo Lumber Co.

many other interesting topics are touched upon. Making a perfect pie crust will be the chief topic of Aunt Sammy's discourse.

She will give a recipe and detailed instructions for the making of a perfect crust, also a menu and a recipe for filling for squash or pumpkin pies.

Agricultural programs are broadcast from KOB every Monday evening from 7:30 to 8:30. Wave length

394.5 meters. Listen in a good program.

"Well, if we can't g we'll live in our sedan. "Don't be foolish G could not receive gue sedan."

CONSTANT EXPANSION

- to serve Chevrolet owners better

SINCE January 1st more than a million new Chevrolets have been delivered to owners—making the Chevrolet Motor Company, for the second consecutive year, the world's largest builder of automobiles!

This outstanding achievement has been attained not only because of the quality and value of Chevrolet cars—but also because there has been a constant expansion of Chevrolet service facilities.

In order to bring these mammoth facilities of the Chevrolet factories to Chevrolet dealers and owners everywhere, there have been erected 26 huge parts warehouses in the principal centers of distribution. This expansion program is continually going on—for four great additional warehouses will be in operation by January first and seven more by the summer of 1929.

Into the service departments of all Chevrolet dealers, Chevrolet has brought special tools and shop equipment—designed

under the supervision of Chevrolet engineers. This equipment definitely assures maximum speed and precision and the lowest possible cost in the performance of every Chevrolet service and repair operation—which are charged for on a flat rate basis.

Furthermore, all of these tremendous facilities have been made available to 15,000 authorized service stations manned by skilled mechanics, over 25,000 of whom have been factory trained to efficiently handle every repair operation on a Chevrolet car. In addition, there are over 4,000 other points where genuine Chevrolet parts may be obtained.

Uniformly efficient, uniformly reliable and within easy reach of everybody everywhere—this great service organization is maintaining at peak efficiency the fine performance for which Chevrolet cars have always been renowned.

We cordially invite you to come in and see how our service facilities reflect the influence of this great national service program.

### HIGHWAY BEING BUILT ACROSS THE STAKED PLAINS OF THE STATE

**SANTA FE**—Across the extreme westerly portion of the Llano Estacado, or staked plains, where myriads of wild horses and buffalo roamed, and through the country of "Dead Horse Lake," where hunters of wild horses stalked their game, modern highway construction machinery is laying federal aid project No. 142, according to an associated Press story of recent date this road is to link the Texas Panhandle highways with those going to the Pacific coast.  
This highway which it 15 and three-tenths miles in length, between Clovis and St. Vrain, will be hedged today by vast stretches of agricultural country, for the memories of the romance of its earlier days linger realistically only with a few pioneers.  
The section was primarily animal country. For a long period it was unoccupied by man, and was visited by the Indians only to obtain buffalo meat.  
Under such conditions the buffalo thrived and wild horses multiplied into large bands, so that with the coming of the white man the region became famous for hunting.  
The buffalo were the first to be exterminated. The white man with his rifle killing for profit in meat and the sale of buffalo hides within a few years wiped the buffalo from the plains.  
In the next period of history in this section "Dead Horse Lake" became the center of the activities of hunters. It was at this lake, W. H. Brown, recalls, that mustang men lay in wait for the bands of wild horses.  
Mr. Brown, and his initials happily fit the nickname which has been attached to him of "Wild Horse Brown, king of the mustang men," tells how the hunters used to wait at the watering hole to kill the horses, and it was from that practice that the prairie lake became known as "Dead Horse Lake."  
Then followed the days in which patient hunters stalked the bands of horses across the plains until the animals became used to the presence of their followers. The old timers call it the "gentling down" process, and then came the work of lassoing, snaring and hobbling the horses and driving them over the trails to Kansas markets.

With the buffalo and horse gone from the plains, came the day of pioneer agriculturalist. Giant windmills were reared on the plains to face the onrushing winds and pump to the surface water for the farm household.  
Men brought their families, the old timers say, and drove miles across country to watch the erection of the windmills. Near St. Vrain today stands one of the earliest windmills of the Cury county plains, and as if it were asserting its claim of antecedence and the superiority of its antiquity, it stands today as the most massive windmill of the section.  
Clovis stands as the eastern extremity of the highway. Twenty-one years ago, there was no town of Clovis. Today the town has a population of 6,900 and all around on the plains of the wild horse and buffalo are scores of farmhouses and productive fields of small grain.

She: "If wishes came true what would you wish?"  
He: "Gosh, I don't dare tell you!"  
She: "Go ahead—what do you think I brought this wishing business up for, anyway?"

**Rank Neophytes**  
One of the first signs of inexperience is thinking a thing's unusual because it never happened to you before.—**Farm and Fireside.**

**Jewelry and the Costume Must Be Related**  
It is a simple matter to match up earrings and necklaces and bracelets to the color scheme of one's ensemble for jewelry set with the elaborate-ness of the set pictured is available with colorful enamels, crystals and even some of the new pearls are tinted. The brown tones being the smart new item. In fact, a most important bit of news is that pearls have returned to favor.

**Jesus at the Door**  
If Jesus Christ is at this time knocking at the door of your heart, the fact that He is on the outside. And if He is on the outside, there is but one person who can let Him in, and that is yourself.—**O. B.**

**Live Right**  
While you live right, nothing goes wrong; a soul at peace with God cannot be greatly disturbed by the world, for it hath its pleasures in God and its blessings from God.—**Jackson.**

### NEW TYPE OF EXTENSION IS SERVICE ANNOUNCED

A new type of University extension service, known as the University speaker and entertainment course consisting of five numbers and covering a period of five months, has been announced by J. T. Reid, director of extension work at the University of New Mexico.  
The aim of the course is primarily to present to New Mexico audiences a unified conception of the state's cultural and educational resources. The complete course will consist of one number a month for five months; however, small communities desiring certain numbers but not the entire course can arrange for shorter programs adapted to their needs.  
Arrangements have been made for the presentation of the course at Gallup, and tentative plans have been made for giving it at Roswell, Carlsbad, Raton and Clovis.  
than on supply of feed rich in vitamins.

### MAKE THE LAYING RATION COMPLETE

Poltrymen are realizing more and more that grains, mash and meat scraps do not make a complete ration for the laying flock, says L. N. Berry of the New Mexico Agricultural college. Vitamines and minerals are equally important. Just as an automobile will not run on a supply of gasoline alone, but must be properly oiled, so the egg machine can not last on grain alone, but requires vitamins.  
Green feed is the chief source of vitimine A. With the approach of winter and the housing of the flock this part of the ration becomes more a problem. Alfalfa leaf meal and alfalfa meal are very good sources of vitimine A. The alfalfa leaf meal is made from the leaves, as the name implies, and is the better of the two. It also, of course, is higher in price and sometimes hard to obtain. Alfalfa meal is made from alfalfa hay. It contains more fiber or woody material than the leaf meal and on this account is not as digestible. If, however, it is made from a late cutting of alfalfa hay and is of good bright color, it proves very satisfactory.  
If either of these meals make up 10 per cent of the laying mash, the vitimine A requirements of the flock will be met. In addition to this, alfalfa leaf meal is a fairly rich protein feed, ranking above wheat shorts in this respect. The use of either of these meals has the advantages of being convenient, labor saving, and adequate for the birds' needs.  
In cases where these meals can not be obtained or are too high priced, alfalfa hay can be substituted fairly satisfactorily. Hay is not as efficient as the meal, but is better

## LOWREY-KEYES AUTO COMPANY

Authorized Chrysler and Whippet Sales and Service ARTESIA, NEW MEXICO

### RAMSEY NO. 1 LOVING COUNTY TEX. IS NOW MAKING 40 TO 50 BBLS.

Hadlock Oil Corporation's Ramsey No. 1, is now making between 40 and 50 barrels daily production, following tubing last week.

This well in Loving county, which was a finish job on the old Ramsey well, near Toyah-Bell was made a producer after considerable work. They had water trouble, part of which was said to be caused by the nearby well which had to be plugged. It is the only producer in the field not belonging to the Lockhart & Company.

The two active wells of Lockhart & Co., are drilling steadily. The Wheat and Ramsey No. 1 was reported at 4001 feet last week, drilling in salt. They expect to top the black lime in a few days, and prepare for another producer.

The Allen No. 2 of this company is also drilling in salt, with the last reported depth of 1253 feet.

The rest of the Lockhart wells are on production, the oil being piped to the loading racks at Arno, and then shipped to their refineries in El Paso and California.

In Reeves county, the exploration well, McCarty No. 1 located about ten miles northwest of Pecos, is still fishing for pipe. They have a few more joints to remove, before being able to clean out, and start drilling for contract depth of 4000 feet. Total depth is 2900 feet. Cause for the delay has been constant water trouble. This area has been far different from the Loving area, where the only water is near the surface.

The Kitsos et al well, about a mile north of the exploration is still shut down with a total depth at 175 feet. This well was spudded last month.

The Earl W. Brooks well twenty miles southeast of Pecos on the Edins ranch is still fishing for pipe. Total depth is 5658 feet.

In Culberson county, just across the Reeves county line, the Deep Rock Grisham Hunter location, made recently, is moving in machinery. This is another shallow test, contract for 1700, to explore the area where they have found several shows.

The Hickey & Stevens well, C. O. Finley No. 1, twenty miles east of Van Horn is cleaning out, now 25 feet off bottom. The total depth is 1568 feet.

In Ward county the Cherokee No.

### CHRISTIAN LADIES ARE WAITING TO WIPE UP ON THE WINNERS

The ladies of the churches are showing a commendable interest in athletics again this year and gave their first exhibition of athletic prowess in the Central school auditorium Monday evening. The Presbyterian and Methodist teams led off and their line-up was as follows:

Presbyterians	Methodists
Forwards	
Mary McCaw	Mrs. Haldeman
Mrs. Kerr	Mrs. McCann
Centers	
Mrs. M. Bruning	Mrs. E. Swift
Nola Naylor	Mrs. Patton
Guards	
Florence Oaks	Mrs. Daniels
Ruth Morgan	Mrs. Jim Berry

Fred Cole, Referee.

The game resulted in the Presbyterians defeating the Methodists with a score of 18 to 12. The winning team gets sixty per cent of the gate receipts. The intense political interest kept many away from the game, however, the attendance was fairly good.

### BRATTON SPEAKS HERE SAT.

A large crowd greeted Senator Bratton in Artesia Saturday afternoon, when he spoke at the Bullock banquet hall. By request Senator Bratton was allowed to make his last campaign addresses in his home territory as he termed it in the eastern part of the state. Senator Bratton went to Carlsbad for an address at the Court House, Saturday evening. Judge Kiker, who was scheduled to speak in Artesia along with Senator Bratton could not be present on account of illness.

### BUYS NOBBY CLEANERS

Messrs. Fred Knowles and O. C. Glover have recently purchased the Nobby Cleaners, located on South Roselawn avenue from C. R. Vandagriff and have already assumed the management, changing the name of the establishment from Nobby Cleaners to the Wardrobe Cleaners.

Messrs. Knowles and Glover are both experienced in this line of work and will endeavor to give prompt and efficient service at all times. See their announcement in this issue.

1 of the Denver Production Co., is drilling below 4200 feet.—Pecos Enterprise.

### LOCALS

Born to Mr. and Mrs. Walter Swisher, November 1st, a daughter.

Mr. and Mrs. D. L. Grimm and Mrs. Dayton Reser motored to Roswell Tuesday.

Workmen are preparing to install gas in the furnace of the Hotel Hardwick annex.

J. W. Garrett and wife left yesterday for Tulsa, Texas, where they expect to spend the winter.

Mrs. Laura Welch arrived home last Friday from Ohio, stopping en route to visit in Kansas City.

Mr. and Mrs. John Simons and children visited Mr. and Mrs. Leon Meeks at Hagerman Tuesday evening.

Mr. and Mrs. Roy Muncy left Sunday for a two weeks' visit with Mrs. Muncy's parents, Mr. and Mrs. Ellison, at Albuquerque.

Mr. and Mrs. W. E. Ragsdale came home from Pecos, Texas Monday by way of State college where they visited their son, Wilmer.

Mrs. H. J. Bishop and two children, who have been living here for some time, left Tuesday to make their home at Cisco, Texas.

Mr. and Mrs. Ira Reser left Tuesday for a short trip to El Paso. Mrs. Reser recently had the misfortune to fall on one of her shoulders, but it is improving satisfactorily.

Mrs. Kate Bailey was here from Rankin, Texas over the week end visiting her relatives, the Vandagriffs, and looking after business affairs. She was accompanied by Mrs. Lauderdale.

Charles Hamilton, who was here last week with Mrs. Hamilton, to attend the funeral of his grandmother, Mrs. Langston, is the holder of the world's endurance record of 107 hours for automobile driving.

G. W. Johnson and wife arrived Saturday from Carthage, Illinois to spend the winter in Artesia. Mr. Johnson and family spent the winter here last year and liked the climate so well that they decided to return.

A party which is planning to leave tomorrow in search of big game in the Sacramento includes Mr. and Mrs. Harve Muncy, Neville Muncy, Mr. and Mrs. Albert Richards, Mr. and Mrs. C. R. Blocker and Mr. Cooper.

Mr. G. O. Dotson came from Roxana, near Amarillo, Texas last week, and after a few days visit at the home of his father-in-law, A. M. Tarbet, left with Mrs. Dotson, who had been visiting here, for Carlsbad, where they will be located for the present.

Two sisters, a son, and a lady friend whose name we did not learn, of Mrs. Laura Robinson, a former Artesia resident who recently passed away in Carlsbad, stopped at the Thomas apartments last Thursday en route home to Plainview, Texas after attending the funeral. The sisters were Mrs. A. M. Franklin and Mrs. B. Blackman of Plainview.

A party of friends came from Oklahoma and Texas arrived this week to visit the C. R. Vandagriffs and accompany them on a deer hunting trip. In the company are Mr. and Mrs. W. R. Senter, A. G. Gelwick and Mr. Walling, all of Bristow, Oklahoma, and Floyd Foster of Amarillo, Texas. Mr. and Mrs. Vandagriff started this morning with their guests for the Sacramento. Others in the party are Messrs. and Mesdames Billy Cox, Sid Cox and Rude Wilcox.

### BANKS CLOSE ELECTION DAY

Both local banks were closed here Tuesday the 6th, the election day.

### GEORGE McCLURE SHOT

(Continued from first page)

tal, but no attempt was made to extract the bullet.

Paralysis set in Monday morning and attending physician had little hope for his recovery.

Officers believe that McClure was temporarily deranged when he made the gun play. It is known that he was not drinking or under the influence of liquor.

WE HAVE RECENTLY RECEIVED TWO CARS OF NEW PLYMOUTH MOUTHS AND HAVE ALL MODELS ON DISPLAY. YOU MUST SEE THE NEW PLYMOUTH TO APPRECIATE IT. COME IN AND INSPECT THESE NEW MODELS, NO OBLIGATION.

### OCTOBER IS A LIGHT MONTH THREE BIRTHS ONE DEATH REPORTED

The birth registration for the month of October was rather light, according to a report submitted by S. E. Ferree, sub-registrar of the Cottonwood, Atoka and Artesia districts. The births: Mr. and Mrs. Lee Hays, son; Mr. and Mrs. Mack Roy Hollis, son; Mr. and Mrs. Elmer J. Bujan, of Hope, a son. Only one death was recorded Mrs. Mollie Langston.

### MRS HASTIE SERIOUSLY ILL

News has been received here that Mrs. Hastie, who went to Wichita, Kansas, recently with her daughter, Mrs. Ed Wingfield, was taken dangerously ill and her life was despaired of. Mrs. Hastie, who is ninety years old, was eager to go back to spend the winter in Kansas with relatives. She stood the trip fairly well, but was stricken shortly afterwards.

### LIBRARY IMPROVEMENTS

The board has recently made an expenditure of \$115.00 in improvements in the building. These include the finishing of the rear part of the building, installing new shelves and painting and finishing the woodwork. The board is increasing the efficiency of the institution by enlarging its facilities as rapidly as the demands and finances permit.

### CARTER TRANSFERRED

E. L. Carter, superintendent of the Phillips Petroleum plant will be transferred to Pampa, Texas according to an announcement made here last week, the transfer is effective November 15th. Mr. Carter will be succeeded by J. W. Haskins, chemist at the plant.

### NEW SUNSET STAGE COACHES

Carrying out the idea that Pecos valley people are entitled to the best there is in transportation facilities, the Sunset Stages Inc., have recently added two new coaches to the line from Roswell to Carlsbad. The new cars are straight eight Studebakers.

### FIRE BOYS MEET IN CITY HALL

The regular weekly meeting of the Artesia fire boys will be held in the office of the town of Artesia. The change is made on account of colder weather. The former place of meeting was at the City marshal's office.

### Playing Safe

Mrs. Lydia Barnes of woman's club fame was scoring the modern mother for dressing like her daughter. "What is chic and proper for the young," she contended, "may be and usually is, vulgar and ridiculous for the giddy parent. The worst of it is, that the young folks know this and lose respect for those who should be their guides and mentors."

"The other day I heard one of those modern mothers say to her daughter: 'Gertrude, are you keeping something from me?'"

"Yes, my millionaire boy friend!" was the pert answer."

### Much Alike

"Sometimes I get to thinking about the folks in other towns where I have been," said old Riley Rezzidew. "They just putter around at their tasks, bragging how they put it all over so-and-so, relating their symptoms, trying to get ahead of the other feller, etc. Here in Petunia we are arresting and getting arrested, setting out in the public square, cursing the legislature, and the like, just about like all other towns, big and little. But of course Petunia is the biggest little town anywhere around."—Kansas City Star.

### Radio Transmission

Now that radio has entered the business of transmitting pictures and messages by the square inch instead of by dots and dashes, it is interesting to note that within its first year of operation the speed of transmission has been doubled. Whereas last year 40 minutes were required for a single photograph of standard size, today it can be done commercially in 20 minutes. Under laboratory conditions the same accomplishment has taken but two minutes.

### Self-Knowledge First

People should find out what they can do—which is something that many people never discover at all.—American Magazine.

### TITTA CHOSEN TO DIRECT BAND

At a special meeting of the directors of the Artesia Chamber of Commerce and a few members of the music committee, Fredrick Titta of El Paso was chosen to direct the newly organized Artesia Municipal band. Mr. Titta will work under the supervision of a special committee composed of J. S. Sharp, representing the Lion's club, D. I. Clowe, representing the Rotary club and Jess Truett, representing the City Council.

Mr. Titta comes to Artesia highly recommended as a successful band director. In addition to his experience as a director he has been a member of the Italian Credor band and a member of the Scotch Highlanders band. He has been employed for a period of six months.

The first meeting of the band will be held at the Bullock Banquet Hall Friday evening at 8:00 o'clock. All interested parties are requested to be present.

### TRAVEL GROWING IN P. V.

SANTA FE.—Travel shows satisfactory increases on roads in the Pecos valley. A recent count taken by the highway department south of Roswell on State road 2 shows 1161 motor cars using the Carlsbad route daily.

This is an increase of 17% over the census taken last year. Tourists from other states formed 22% of the traffic.

South of Carlsbad on State road 2 at the intersection of the Cavern fork, the traffic count was 1371 vehicles per day of which 25% were cars from other states.

Two hundred cars per day were counted on the Cavern fork at this point, 42% of them being out of state tourists.

Traffic doubled on the Carlsbad-Van Horn road, is indicated by the count taken at the intersection of the Cavern road. Forty-two cars is the daily average this year against 21 last year.

Between Carlsbad and the Cavern the daily traffic was found to be 105 of which 56 were foreign cars.

### PORTER RESIDENCE IS DAMAGED BY FIRE

The one story frame dwelling belonging to H. A. Porter, situated on West Dallas street, was damaged by fire Saturday afternoon. The blaze was thought to have originated from a defective flue and did considerable damage to the roof of the building before it was extinguished. In fact the roof and the ceiling of the dwelling was practically a total loss. The household furniture of the tenant L. D. Morey was slightly damaged. The loss on the building was fully covered by insurance. One visitor at the fire was fined \$15.00 for running over the fire hose with an auto.

Calling cars, 100 for \$1.75, paraded stock.—The Advocate.

### BOY SCOUT NO.

Ten steaming, hot, glass filled with bubbling pressure cooking on the stove. A tiring mother leaning over her stirring the contents. Her bands and the caps red by.

A cap is stuck—a twist of glass. Mother slips to a chair, the hot fruit poultice her arm while the blood frored artery throbs down her

Now what would you

He eased his mother from to the floor. With deft fingers she slipped the cap from her apron sleeve to the

ers and wrapping a linen drape around her upper arm he tightened with a stove lid lifted the blood flow stopped he the phone and called the physician and then went back to making his mother able. He placed her head low and applied a dressing he took from his Boy Scout kit and bandaged it in place. In the opinion of the can the mother would have not the lad given her first

An unusual boy! No just possibility in the life of every boy in Artesia. Our local Boy Scout organization is now in the midst of a training course. One of the is to see that every Scout prepared to take care of emergency about the home and on the

### WE THANK YOU

We wish to extend our thanks to the people of Artesia for the splendid vote given to us and national republican ticket. We trust that you will never be so casual to regret your action at day's election.
