ARTESIA, NEW MEXICO, THURSDAY, JUNE 20, 1929.

NUMBER 27

Spotlight on Eastern Now

Break Found to 3,040 Feet and Good For 40 Daily—State No. Looks Good.

Interest this week is in the Jackson area, in east-central, where the Burch Grayburg Oil Co., in a recently encountered major break from 3,030 feet to be good for according to an early estimate was standing six inches in fluid, but so far as it check up has not determined whether or not the quantity of oil at Burch No. 2 is applicable to the corresponding break No. 1, the discovery well in to-day running Burch No. 2, to approximately 2,900 feet, which extends the Jackson appears that another No. 1 of the Ohio NE 1/4 sec. 22-16-30, of the northwest quarter. Water was encountered at 2,280 feet, an unusual condition was that water was in red sand. The well down at 2,300 feet.

Artesia field, another No. 1 of the Vacuum center of section 17-34, which has less of the spot light at three weeks, gives prospects of developing well. Workmen have tubing to 4,496 feet last Tuesday, the well have made 196 barrels in 9 hours. The test surprise yesterday 241 barrels in 17 hours. The remaining lease is said to be a fine one.

The well is making fourteen and a half sulphur gas at this official report states by No. 1 of the Midland Refining Co., in the 17, showed a million 2,894 and at 2,903 increased to 3,000, 92 feet. Drilling is now 3,004 feet.

No. 1 of the Texas in the center of section, other well that has a surprise since placed on the pump. It at first rated as all has been pumping 4 barrels a day. On all made 996 barrels.

Locations have been in the past two weeks. Petroleum Co., is remade a location in Lea county and the and Gas Corp., has on the Baish permit, Baish No. 2, in the W NE sec. 21-17-32, been granted by the drill the latter well at the Simon No. 1 Oil and Gas Corp., sec. 29-17-32, will not least two years.

ROAD REPAIRS STARTED
Started Monday grad stretch of road extending Cap Rock west. grading operations road will be started from the present highway department will eliminate worst stretches of east-west highway north and Cloudercroft.

PLANTING OF ALFALFA NOW UNDERWAY
Planting of alfalfa hay and will continue days. Some of the has already been shipment.

187 ENTER THE FIRST BABY SHOW OF LAST WEEK AT MAJESTIC

Prizes totalling \$100.00 were awarded the winners in the Baby Show given at the Majestic theater on the evening of June 12th, the prize winners were announced Thursday afternoon. One hundred and eighty-seven contestants participated in the event, the first of its kind ever held in the Artesia community.

The winners were: Johnny Dixon, daughter of Mr. and Mrs. Hal Dixon, 1st; Ralph Shugart Jr., son of Mr. and Mrs. Ralph Shugart, 2nd; John Grossbrenner, son of Mr. and Mrs. Grossbrenner, 3rd; Delores Patton, daughter of Mr. and Mrs. J. A. Patton, 4th.

GOOD WILL CARAVAN MAKES SCHEDULE TIME ON THE TWO DAY TOUR

(By J. S. Ward)

Artesia Good Will Tour was a great success, and much credit is due the twenty seven 'Morgans' who were on the tour.

On Wednesday, fourteen cars and the pig tail left Artesia at 7:30 and owing to the exceptionally good roads the motorcade arrived at Mayhill thirty minutes ahead of the schedule, where they were met by a goodly number of the residents of that vicinity, and a very appetizing lunch was served at the M. D. Brantley lunch counter.

At 1:00 p. m., the motorcade left Mayhill and continued the journey without mishap until when about two miles from Cloudercroft, Walter Graham had the misfortune to turn his car over. But owing to the fore thought of Bill Mount and courtesy of Dunn's Garage, the "wrecker," piloted by John Dunn, they soon had the crippled car in tow and even with the unfortunate delay the caravan arrived in Cloudercroft on schedule, and were welcomed by Cloudercroft reception committee, composed of several attractive young ladies and headed by G. R. Alexander; but owing to the fact that the girls riding in the Graham (Continued on last page, column 1)

LAKE ARTHUR GRANTS THE GAS FRANCHISE

At a special election held at Lake Arthur Tuesday, to determine whether or not the town would grant the Pecos Valley Gas Co., a franchise, the proposition received a favorable vote. The exact count is not known as this is written.

OASIS SWIMMING POOL OPEN

The Oasis swimming pool has recently been opened by Owen Campbell who is operating the McMains farm. The Oasis has enjoyed a splendid patronage and will no doubt prove to be one of the major summer attractions among the young folks.

DUTCH AUCTION ON SEVERAL ARTESIA LOTS

H. Huggins of Galesburg, Illinois is running a "Dutch Auction" on three Artesia lots. He is going to cut \$55.00 from the price of these lots until they are sold. See his advertisement in the classified columns of the Advocate.

Mr. and Mrs. R. DeBoise, of Knoxville, Tenn., stopped off yesterday for a short visit with Mr. DeBoise's nephew, Rex Wheatley and family while on a sight seeing tour of the southwest.

FIRST PERIOD AT GIRL SCOUT CAMP STARTS JULY SEVENTEENTH

Final details are being arranged for the summer camping period at Camp Mary White, for Girl Scouts. The first period will start on July 17th, it was announced at Roswell, and continue for two weeks. Those who have not registered are urged to do so now.

Camp Mary White has undergone a wonderful improvement since it was first established in Bear Canyon, near Weed. Six thousand dollars was spent in camp improvements last year and thirty-five hundred dollars has been expended this spring, completing the building program as follows: Seven sleeping shacks, (Adirondack); one cooking shelter, one infirmary, one spring house, water piped to each kitchen shelter and Emily Ingham hall slabbed. In addition to a number of minor additions a large swimming pool a quarter of a mile square has also been completed.

ABERNATHYS INJURED IN AN AUTO SMASH UP ON WEST MAIN STREET

Mrs. Abernathy Rendered Unconscious By The Col- lision Of The Cars—All Injured Will Recover It Is Said.

Mrs. D. A. Abernathy was seriously hurt and Mr. Abernathy and small son injured in an auto accident that occurred at the intersection of Main street and the Lake Arthur-Cottonwood highway, near the hour of 11:30 Saturday morning. C. M. Jones of Carlsbad, former owner of the Sun Set Stage line, was driving toward Hope, and according to a statement made by Mr. Jones, his attention was attracted to the filling station building on the right and in the next instant a collision occurred. Mr. Abernathy and family were crossing Main street, traveling in a northern direction. A grove of trees on the east side of the street, prevented the driver from seeing the approaching car. Mr. Abernathy endeavored to make a quick stop, but he did not see the Jones car, but the distance was too small.

Mr. Jones, who was driving a Lincoln car, smashed into the Ford, driven by Mr. Abernathy, and turned it over. Mr. Jones swerved to the right and ran into the fence on the west side of the highway before he could make a complete stop. When the Ford was overturned, Mrs. Abernathy sustained severe cuts about the head and was bruised about the body. She was unconscious when brought to the Hardwick annex. Later she was removed to the City Hospital. Mr. Abernathy suffered a scalp wound and cuts about the hands. His son was also cut and bruised, but his injuries were not serious.

Both Mr. and Mrs. Jones escaped with a few scratches. Mrs. J. M. Griffith, who was riding in the Jones car sustained slight injuries.

SCOUTS RETURN

The Artesia Boy Scouts, who attended the first period of the Boy Scout camp, returned to their homes yesterday.

CAR OF WOOL SHIPPED DIRECT TO EASTERN MILL FROM ARTESIA

Sheepmen from the range west of Artesia are bringing in part of the spring wool clip almost daily now. Three or four cars of wool was stored in the Bullock warehouse. Tuesday a car of wool purchased by Ralph Vandavort of Roswell was shipped out to the French Worsted Co., of Woonsocket, Rhode Island. Two additional cars will be loaded out this week.

ALFALFA BUILDING IS NOW NEAR COMPLETION

The new building of the Artesia Alfalfa Association east of the railroad tracks is nearing completion. Practically all of the exterior work on the office building and storage room has been completed and workmen are now finishing the interior. The new office will likely be ready for occupancy shortly after July 1st.

ELKS TO ORGANIZE LODGE AT CARLSBAD

Stray Elks of Carlsbad will soon realize an ambition of many years standing. On July 2, they plan the institution of a lodge and the initiation of several candidates. The installation of the officers of the new lodge will be held the following day in the King's Palace of the Carlsbad Caverns.

WHITE MOUNTAIN ODD FELLOWS ASSOCIATION

The Artesia I. O. O. F. lodge expects to have representatives in attendance at the White Mountain Association, which convenes at I. O. O. F. camp grounds on Ruidoso next Saturday, June 22nd.

MAKES OFFICIAL VISIT

Edward Stone, I. O. O. F. grand master, C. Bert Smith, I. O. O. F. grand scribe and secretary and B. P. Rasmus of Roswell made an official visit to the Odd Fellow lodge at Portales Tuesday evening and also attended a joint meeting of the lodges in the section, which met at Portales on that date.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

MANY APPLICATIONS RECEIVED TO LEASE NEW SIX STORY HOTEL HERE

Two Are Received From Canada—The Preliminary Arrangements Under Way To Have A Formal Opening In July.

The exterior of the new six story hotel is practically completed. Workmen have erected the steel for the grill room and roof garden on the final story. Plasterers are at work in the lobby of the building putting in the tile and the construction crew will start the flooring operations on the fifth floor tomorrow and will complete the other floors in the order of their descent. As soon as all floors are built, the partitions will be constructed and work decorating and painting the interior will be the order of the day.

Preliminary arrangements are underway by the officials of the Artesia Hotel Co., to hold a formal opening when the building is completed and ready for occupancy. Elaborate plans will be made for the entertainment of a large number of visitors and an appropriate program will be arranged for the occasion, according to an announcement made by Charles H. Sharp, president, last week.

The fact that a new and modern hotel is being constructed here, appears to be well advertised. W. T. McAtee, architect and treasurer of the Artesia Hotel Co., states that the concern has twenty applications to lease the structure when completed; two of the applications came from Canada. There are also four or five prospective buyers, Mr. McAtee says. The company, however, has not acted on any of the propositions to either sell or buy.

FIRST BALE OF COTTON IS SENT THROUGH AIR

NEW YORK—The first bale of cotton in the 1929 crop, brought here by airplane from Texas, was auctioned off Monday on the floor of the New York Cotton Exchange. It brought \$1,211 half of which goes to the United hospital fund here and half to the Salvation Army at Corpus Christi, Texas.

ROSWELL GAS MAIN TO BE FINISHED BY JULY 20 SAYS REPORT

Workmen are making rapid progress on the construction of the eight inch gas main to Roswell. The line has been built passed Lake Arthur and the Pecos Valley Gas Co., expects to have the line completed into Roswell by July 20th. The feeder lines in the area of the Texas Company Robinson No. 1 have been completed, a five inch line will be connected with the main running toward Roswell when the main is finished.

The Pecos Valley Gas Co., now has nineteen million feet of open gas flow available and expect to add seven million feet more to the flow, when the auxiliary line is completed. Three new wells recently drilled in the area of the Vandagriff well, northeast of Artesia, have been connected up.

STAR ACTRESS VISITS PARENTS

Miss Marion Wilkins, of New York, with the Radio Keith Orpheum Circuit, a coast to coast big time vaudeville organization, arrived Tuesday on the south bound passenger for a visit with her parents, Mr. and Mrs. E. S. Wilkins of the Cottonwood community. Radio fans in the past few months have had the opportunity to listen to Miss Wilkins broadcast her vaudeville act. A number of local fans heard Miss Wilkins broadcast from Omaha, Nebraska last December.

This is Miss Wilkins first visit home since 1914.

TO GET RID OF THE MOSQUITOES

Dr. O. E. Puckett, of Carlsbad, county health officer, who was in Artesia the latter part of the week in the interest of health work, conducted an investigation to determine where the mosquitoes were breeding. Dr. Puckett found that these pests were breeding in rain barrels, in standing water in the ditches along the highways and in irrigation ditches. Dr. Puckett advises that if a little coal oil is poured on the water when it first collects, the oil will stop the mosquitoes from breeding.

Typewriter Ribbons—The Advocate

COMMUNITY BAND TO RENDER CONCERT ON MAIN STREET SAT.

The Community Orchestra Band under the leadership of Ernest Harp Jr., will render a program on Main street, Saturday evening, beginning at 8:00 p. m.

The program follows:
March, Stars and Stripes Forever
Waltz, Sweet Dream Sousa
Selection, The Sunny South Keifer
Mexican Serenade, A Rose From Mexico Lampe
March, American Republic Cortez
Novellette, The Little Wonder Thiele
Ed Chenette
Taranella, Forosetta L. Arditi
Star Spangled Banner J. S. Smith

SEMI FINALS IN GOLF TOURNAMENT TO BE FINISHED THIS WEEK

The annual golf tourney is still underway, with the championship flight finished. Winners of the first round in the other flights, the amateur, the ham and egg, and the "booby" flight have entered the semi-finals in these respective events. V. L. Gates will meet Joe Clayton for the amateur championship, Albert Richards will meet Ray Bartlett for the championship in the ham and egg event and Jas. P. Bates will meet J. S. Ward for the "booby" championship.

As soon as the championship rounds are finished in the three above events, the winner of the championship flight and the winner of the "booby" flight will meet the winner of the amateur flight paired with the winner of the ham and egg flight for the grand prize.

The Artesia ladies are also holding an annual tournament, although the event was late in getting underway. There are five entrants in the ladies tournament, which is divided in two flights, the championship and the amateur. In the championship flight, Mrs. Joe Clayton defeated Mrs. D. L. Grimm by a score of 9 to 6 for first place. In the amateur flight, Mrs. Albert Richards eliminated Mrs. Richard Attebery by a score of 7 to 4. Mrs. Richards will meet Mrs. M. A. Corbin for first place in this event.

Suitable prizes will be awarded the winners of each flight, it was said.

SINGERS TO ORGANIZE AT CARLSBAD SOON

G. S. Deane was in Carlsbad, Sunday evening and while there he arranged a joint meeting of the Carlsbad churches for Sunday evening at 8:00 o'clock on June 30th, at which time an organization of the singers of Carlsbad will be perfected preparatory to the County Singing convention to be held in Artesia the 4th Sunday of July. Plans are under way for such an organization in Artesia, and Mr. Deane hopes to have them perfected in the near future.

ATTENDS ASSEMBLY

A number of Artesia people are attending the district assembly of the Church of the Nazarene, which opened its session yesterday in Clovis and will continue through Sunday. Messdames E. A. Paton and C. C. Pior left for the Assembly Sunday. Rev. and Mrs. W. A. Huffman and Mrs. Clark Wilde and family left Tuesday and Mr. and Mrs. E. O. Jones left yesterday.

Mr. and Mrs. J. F. Richards spent the week end with Mr. and Mrs. Carl Joiner in the oil field.

COOKING SCHOOL AND DEMONSTRATION WILL BE HELD FOR 3 DAYS

The Southwestern Public Service Co., local distributors for the Hot Point electric range have arranged to hold a three day demonstration and cooking school here, beginning Monday, June 24th. The demonstration was arranged through the courtesy of the Hot Point Manufacturing Co., and will be given under the supervision of a factory representative. In addition to holding a daily session during the three days Monday, Tuesday and Wednesday, an evening session will be held Tuesday evening, beginning at 8:00 p. m., and possibly an other evening session on the closing day.

The place of the demonstration will be in the J. C. Penny building at 327 Main street. Every housewife in Artesia is invited to attend this demonstration and a special invitation is extended the owners of electrical ranges.

R. Wheatley Off For The Big Scout Event Mon.

First Stop At McAlester, Okla. — Will Sail From New York July 20—Will Tour Three Nations Of Europe Before Return.

Monday, Richard Wheatley, Artesia Eagle Scout, expects to begin the first lap of an eventful journey to Arrowe Park, England, where he will attend the International Boy Scout Jamboree.

The fact that Richard will be New Mexico's only representative to the greatest gathering of the scout organization has even undertaken is considered a unique and distinct honor to his state, community and to himself. It will be a new chapter in his life and one that will be the envy of all his fellow members.

Richard will leave for McAlester, Oklahoma, where he will join the Oklahoma scouts for a seven day camping period. After the camping period is completed, he will journey to Ardmore, Oklahoma and after ten days of waiting, he will board the train with the Oklahoma delegation for New York, where on the 20th day of July, the Boy Scouts of America will embark on the ship "Samaria," for Queenstown, England. If everything goes according to the schedule, the scouts will land at Queenstown on July 28th. From there they will go to Liverpool and then to Arrowe Park, where the Jamboree will be held from July 20th to August 13th.

Thirty thousand scouts from forty-two nations are expected to attend the Jamboree including a thousand scouts and five hundred leaders and executives from the United States.

After the Jamboree is closed on August 13th, the scouts will spend the following day in rural England and August 15th in London. On August 16th, they will start on a tour of three nations of Europe, visiting first Holland, then Belgium and then France. The tour will end August 20th and on the 21st the scouts will set sail for home, arriving at New York on August 29th.

BAPTIST ASSEMBLY BUILDING AT RUIDOSO NEARING COMPLETION

The assembly building of the Baptists of southern New Mexico, located in the Ruidoso section is nearing completion and everything will be ready for the annual encampment from July 6th to 14th inclusive.

The plan and purpose of the encampment, while intended to promote the religious welfare, is intended to be recreational as well. At the first gathering in the building, two prominent Baptists will deliver a number of addresses during the sessions. Dr. W. F. Fry, of Abilene, Texas, professor of Bible in Simmons University will give daily lectures on the Bible, while Dr. J. J. Cook, former pastor of the Roswell Baptist church will bring evangelistic messages.

Among the local Baptists making their plans to attend the encampment are Mr. and Mrs. B. A. Bishop and Rev. and Mrs. R. Peterson.

CHANGE STAGE TIME TABLE

The Page Way stage line has announced a change in schedule for the evening stage running north, effective June 25th. The new schedule will enable the Page Way to make direct connections at Pecos and will shorten the running time between Pecos and Roswell. Instead of leaving Pecos at 2:30 p. m. the north bound stage will leave Pecos at 4:00 p. m., arriving at Carlsbad at 6:15 p. m., and will leave Carlsbad at 6:30 p. m., arriving at Artesia at 7:45 p. m., leave Artesia at 7:45 and arrive at Roswell at 9:15 p. m.

JOHN TWEEDY MAY BE NAMED ON FEDERAL FARM BOARD

Senator Bronson Cutting has asked that John Tweedy, of Roswell, Chaves county farmer be placed on the federal farm board. The recommendation was made to President Hoover in a letter written by Senator Cutting. Tweedy, who came to New Mexico about ten years ago is a democrat.

TELEPHONE NO. 7

THE PRESS

A renewal of the demand for freedom of the press
and praise of the New Mexico press were made in
telegrams sent the New Mexico Press Association in
session at Tucumcari Saturday by Senators Cutting
and Bratton.

"The meeting of the New Mexico editors today is
an event of unusual interest," Senator Cutting said
in a telegram to Paul Dodge, secretary of the associa-
tion, "and I send you my sincere and affectionate
greetings. The tremendous importance of the press
is being brought directly home to the nation now that
the main issue before the United States Senate is the
possibility of obtaining a vote before recess on the
antiquated and indefensible rule allowing the people's
business to be transacted in secrecy.

"To the press is due credit for bringing this issue
to the front. If a vote can be obtained I am confi-
dent of the result and that the press will be entitled
to special recognition from the American people. As
usual the newspapers of the nation have shown them-
selves anxious to protect the people's business and
bring home to them the fact that their representatives
are public servants and accountable to them in every
act."

Senator Bratton telegraphed: "Please allow me to
extend greetings and personal regards to each dele-
gate and visitor attending your convention. It is my
hope and belief that your association together in Tu-
cumcari, one of the fittest and most progressive cities
throughout the state will be delightful and profitable.

The responsibility of the press in accuracy and
faithfully disseminating facts, and information upon
which public opinion is founded cannot be overstated.
You have discharged that responsibility in a splendid
manner and I am certain that from an exchange of
opinions you will be enabled to increase your already
excellent degree of service to the people of the state.
"I hope this convention is the best you have ever
had."

WAGES AND INDUSTRY

The outstanding result of our modern industrial
age has been the increased wage level in recent years
with consequent improvement in living standards.

W. Jett Lauck, former professor of Economics and
Politics at Washington and Lee University, traces this
movement in his book, "The New Industrial Revolu-
tion and Wages."

Labor has been gradually reaching a higher social
status. As Mr. Lauck says: "The new industrial era
in America has been built primarily upon the rock
of service and performance, and not the least amaz-
ing of the many marvelous developments of the in-
dustrial revolution has been the discovery of modern
industry that equity and service actually pay and are
the essentials of permanent industrial achievement—
that industrial expansion and operation should pri-
marily be a social function and service."

Industrial prosperity, under the modern scheme of
things, is the result of individual prosperity. The old
theory of getting labor as cheaply as possible has
disappeared. A new industrial philosophy sees the
advantages of paying high wages for good work and
increased output per man.

As Mr. Lauck's very valuable volume shows, a new
age has arrived in the United States—an age of higher
wages, greater production and more general pros-
perity and progress than the world has ever known.

FOR SAFETY'S SAKE

Saturday's auto accident, which came near being
fatal to an entire family serves to remind us of the
need of more traffic regulation. Several suggested
improvements in our present traffic system have been
made to the writer recently and most of the sugges-
tions embody changes that could be made without
much difficulty. Main street should be made a
thoroughfare from one end to the other, and stop
signs should be placed at the intersection of each
cross street. Where the highway intersections Main
street on First street, warnings should be placed a
block away from Main street on each side, calling
attention of the motorist, who is unfamiliar with the
street arrangement to the stop signs along Main and
First streets. Most important of all is that the city
traffic ordinances should be enforced and reckless
driving prohibited.

If Hoover passes a few more regulations similar to
his oil conservation policy and Mrs. Hoover enter-
tains regularly Depriest, wife of the negro congress-
man, do you suppose the dear "peepul" will be
ready for a change four years hence?

Tip to the merchant: When a boy buys a suit of
clothes he secretly thinks he will look like the man
in the advertisement.—Swiped.

GROWING MINDS

The Southwestern Ambassador remarks, "Physically
we stop growing when we reach our eighteenth to
twenty-first year, except possibly for an unwelcome
expansion about the middle when busy rolls around.
However, it is a sad commentary on the human race
that a large number reach the limit of mental growth
about the time they have attained their full height.
At twenty-one most of us have but laid the founda-
tions of our mental structures; we have just learned
to think, yet here many stop. They become men and
women of little trivial minds. Their daily routine of
business and social life absorbs them and shuts them
away from broader, higher thinking. Their associates
are too often their mental equals, rather than their
superiors. They cease to read those things which re-
quire and stimulate thought. They permit the de-
mands of the day to rob them of time for con-
templation.

The mind is not used, which even is not taxed with
difficult problems of thought, like unexercised mus-
cles becomes flat and flabby.

We can not tower mentally above our fellows, but
it is given to each of us to grow in mind; from year
to year to become wiser, broader, more tolerant and
thereby be of greater service to others and live with
greater pleasure to ourselves.

ROAD LAWS PUBLISHED IN BOOKLET FORM

The special road laws and miscellaneous legislation
relating to highways in New Mexico which were en-
acted by the last legislature have been compiled and
published in a booklet by the State Highway and Motor
Vehicle department, it was stated at Santa Fe recently.

The 38 special road laws carry with them levies
which will total \$557,496 when all collected. Most of
these levies will be for the two calendar years 1929 and
1930, although a few run over into 1931 and 1932.

The miscellaneous legislation portion of the book
has the greatest interest for the public at large and
especially out of state persons, as it carries in it the
motor vehicle registration act and the uniform motor
vehicle code. There is also a transcript of the new
anti-theft act. It is possible that these latter laws will
be put up in special form and in large quantities at a
later date because of the demand of the travelling pub-
lic for copies.

HOW LONG

In a recent issue, a contributor asked "How long
is a four-minute speech?"—and told us it was the ex-
act amount of time that it took to express a single
thought. To make that four-minute speech you may
have had to think for four hours or four years.
Thoughts are jewels that lie embedded in the ore of
thinking. The man invited to give a four-minute
speech is usually offended. How could he possibly
say all he has to say on the subject he knows about
in four minutes? He can, of course, if he knows how
to mint his metal.

In the famous lawsuit of Whistler versus Ruskin,
the famous American etcher was asked contemptu-
ously how long it took him to "knock off that Noctur-
ne."

"About two hours," said Whistler.
"And you had the affrontery to charge a thousand
pounds for the work of two hours?" thundered counsel.

"No," replied the artist. "For the knowledge of a
lifetime."—The Rotarian.

DILLON AND SPRINGER ARE FOLLOWING LAW

Somehow or other this newspaper just can't seem
to work up any feeling whatever toward Governor
Dillon and Charley Springer for refusing to take the
funds set aside for highway purposes to defray ex-
penses of the state other than highway construction
and maintenance.

Laws enacted by the legislature specify just how
the highway funds are to be used and for what pur-
pose, and this thing of ignoring and setting aside of
the laws of the state have become entirely too common
in New Mexico.

Good roads will do more to build New Mexico than
any other one thing imaginable, and so long as
funds have been created and are available for road
purposes they should be used on the roads.

"Robbing Peter to pay Paul" has always been con-
sidered poor management, and, beating the devil about
the bush never pays.—Tucumcari News.

WORD TO THE KNOCKERS

Every community of any size and Artesia is no ex-
ception is cursed with a few human pests, who can
not see any good in anything nor anybody. They
cuss the town and its people and wonder why they
can not get along any better, but do not have the
mental capacity to see that such action is far more
injurious to the individual than to the community and
its people.

It is highly distasteful to the better class of citizen-
ship to have to listen to the woes of the knocker, who
thinks the community he lives in owes him a living,
even though he can never find a good word for it.
To such people we wish to extend them a cordial
invitation to leave town and assure them that they will
never be missed.

IT'S BAD BUT COULD BE WORSE

Recent estimates on the damage caused by the hail
to the farmers southeast of Artesia, say the hail last
week ruined about eight hundred acres of cotton.
One cotton grower says that a hundred acres of cot-
ton is worth ten thousand dollars. Figuring on this
basis the loss sustained by farmers of the hail area
would run in the neighborhood of eighty thousand
dollars. This is assuming of course that the cotton
market remains near the 20 cent mark.

The cotton land will be planted in row crops. If
most of the land is planted and feed stuff is a fair
price next fall, the farmer, who lost his cotton by
hail may come out the winner in the long run. Who
knows?

If it's dry weather, we complain of the dust and
if the weather is wet the weed grows. Weeds don't
bother a great deal unless they are on the main
thoroughfare of the town and unfortunately some of
them are. They make an unsightly appearance on
Main street.

The Chamber of Commerce and other civic orga-
nizations of the town can't do much for you unless
you do something for them.

INSIDE INFORMATION

Serve small portions of food to
children so that they can clear their
plates without the feeling of being
stuffed, or nagged into eating.

Grass stains will usually come out
of washable materials with vigor-
ous rubbing, hot water and soap, if
treated while fresh. If traces of
stain remain on white materials,
they may be bleached out with
Javelle water.

The waists for sun suits for chil-
dren should be made of loosely
woven fabrics, so that the ultra-
violet rays of the sun can reach the
body through the large spaces in
the material. All the common tex-
tile fibers stop most of the ultra-
violet rays.

Don't put hot foods in the re-
frigerator. Cool them first to room
temperature. Don't use ice to cool
such things as the tops of carrots,
the outside leaves of lettuce or
thick paper parcels from the mar-
ket. Don't waste ice storing vegeta-
bles for a short time if you are
going to use them immediately.
Opening and shutting the door fre-
quently raises the temperature of
the air in the refrigerator, so that
more ice is required to cool it.

Lemon is not the only garnish
for iced tea, although it is very
commonly used both to decorate the
glass and add to the flavor of the
tea. A spray of mint, a rose ger-
anium leaf, a thin slice of orange
or lime, are other attractive gar-
nishes; and some people like a
flavoring of whole cloves or stick
cinnamon, put into the tea while

Taking A Vacation

Reduced Vacation Rate for Your Telephone
If you are going to be away from home
month or more this summer you can save money
your telephone bill.

With our vacation rate plan you
can have your telephone service sus-
pended, just as you stop your news-
paper, ice or milk service while you
are out of town. This plan for resi-
dence telephone service is available
for any period of more than one
month and less than three months.

The rate during the suspended period will be
half your regular monthly rate. Your telephone
mains connected, you retain your number and dir-
ect listing, outgoing calls can be placed but no in-
coming calls received. Service will be restored as soon
as you return.

During your absence you will
be billed for the regular amount,
when you return you will be charged
with the amount due you on the
reduced rate.

Send us a card a few days before your vacation
over and your telephone will be restored to regular
service when you arrive home.

Retain business contacts by "Long Distance" when you return.

NEW MEXICO COTTON-SEED HAS HIGH OIL CONTENT

A three year test made by the New Mexico Agriculture Experiment Station showed that Acala cotton, the variety grown most extensively in the state, averaged from .7 to 2 percent higher in oil than the averages reported from other regions, says C. W. Botkin, experiment station chemist. The protein in the New Mexico seed was found to average high or higher than averages reported for seed from other states. Gossypol, a toxic substance occurring in cotton-seed, was lower in the New Mexico seed than the percentage reported for high oil varieties in other regions. Less than one-fifth of this toxic material was present in the cake and meal made from this seed.

Acala seed was as high in oil and protein as any variety analyzed. This variety delinted, moisture free, averaged 26.5 percent of oil and 24.7 percent of protein for three seasons. This average for oil, being from .7 to 2 percent higher than averages reported for other regions, classes New Mexico seed with the highest oil yielding seed. Since the protein in New Mexico seed was found to average as high or higher than the averages reported for seed from mother states, this high oil producing seed cannot be classed as low in protein.

Immature or bolly seed were found to contain less oil protein than mature seed. Data for the season of 1927 show that there was no decrease in the quality of the mature seed during the picking season. The quality of the seed was rather uniform for the different cotton growing counties and did not show much seasonal variation. A complete report of these tests has been published in New Mexico experimental station bulletin No. 175 which is available for general distribution.

NEW AIR MAIL LINES ARE RECOMMENDED

Suggestions for a new trans-continental air mail service along the northern tier of the United States between Seattle and St. Paul and Milwaukee were offered to the Interdepartmental Committee on Airways, which met at the Post Office Department to conclude a series of hearings regarding the expansion of the present air mail system throughout the United States.

Senator Jones, of Washington, who made the suggestion to the committee, also requested a direct air mail

service between Pasco and Seattle, Washington, and between Pasco and Spokane, Washington.

Creation of a new network of air-mail services in the Southern States with a trunk line to the middle west to such cities as Cincinnati and Detroit, by way of Washington, D. C., and Pittsburgh also was suggested to the Post Office Department on May 23. The committee is composed of representatives of the Commerce and Post Office Departments.

The cow tree of Guatemala yields milk which can be used in coffee and is fairly palatable.

A Comfortable and Attractive Home

goes a long way toward inculcating the love of home in your children. Keeping the children interested in the home will be made easier if the place you live is made attractive and inviting.

If permitted we will gladly assist you in solving any problem of beautifying the home and in this factor alone, a furniture store can be of real service to the community.

We have stocked a splendid selection of the latest home furnishings, including up-to-date patterns in living room, dining room and bed room suites.

We will be delighted to show you anything in the store and there is no obligation to buy.

"Your Home Should Come First"

MEASURE IS TUESDAY BY HOOPER

WASHINGTON, D. C.—President Hoover signed the census reapportionment bill. It has a two-fold purpose for the regular decennial census of the population and for the reapportionment of the house of representatives. This will be the first reapportionment since 1910. The count will be for the year 1930 and the house seats will be apportioned upon it. Reapportionment a number of states will gain additional seats while several others will lose.

The census-reapportionment bill is one of the special sessions. This bill is now being acted upon by the senate finance committee. The senate has passed a resolution to reappoint a committee to study the national immigration act.

The act also provides for a census of the population and reapportionment of the house of representatives. The work is estimated to cost \$39,000,000.

The act also provides for a census of the population and reapportionment of the house of representatives. The work is estimated to cost \$39,000,000.

TURKEYS LAW GAME TO HIM

SPRINGFIELD, Mass.—It takes a long time to raise a turkey, says J. W. Johnson, of Albany, Ga., who recently celebrated his 75th birthday. He has raised the hen and the turkey. Judas to their wild nature, from chickhood on, they are absolute deerslayers for food and hide. He has spent hours hiding from them, calling to them with a whistle, and all of the wild turkey. He has seen the wild turkey abandoned in the lot-turkeys, they invariably to their hidden owner. He has seen the wild turkey in the swamp. He has seen the wild turkey in the swamp. He has seen the wild turkey in the swamp.

TOOLS FOR UNLOADING HAY ARE IMPORTANT

The Job of getting equipment ready for haying time is not complete, says the research department of the National Association of Farm Equipment Manufacturers, until the hay unloading tools are in good working order and ready for use. If the track is inspected before hand, the carrier and pulleys well oiled and the right kind of slings and forks procured for the crop to be handled, considerable grief may be saved during the rush of haying.

Although the ordinary harpoon fork will generally handle long hay satisfactorily, grapple forks save much time and trouble in the shorter hay such as clover. Grapple forks are becoming more popular every year and work well in practically any kind of hay.

Slings can be used to advantage under some conditions. Some hay growers use a sling and grapple fork combination, placing one sling in the bottom of the rack to clean up the last of the load, and unloading the rest with the grapple fork.

Use of efficient hay tools is highly important, both from the labor-saving standpoint and because of the fact that hay is a highly perishable product. Loss of a few loads of hay because of some delay is more costly than an entire outfit of efficient hay loading equipment.

Although Theodore Purtree of Cincinnati alleges that his year-old son suffered "shame and humiliation" when his picture was used in an advertisement, a jury denied the father \$5,000 damages.

'Round Home

by CHAS. S. KINNISON

Anchored Down

A home in which no children are
Is like a sky without a star,
Or so it seems to me.
But, I suppose, the man and wife
Who live, by choice, a childless life,
Rejoice to be so "free."

"No kids for us," they likely say,
"To have to watch through night and
day—
No, Boy—they're too much fuss!
And furthermore, it costs too much
To buy their clothes and food and such—
No, SIR—no kids for us!"

"We like to roam about the town—
But kids, of course, would hold us down,
Like chains around our feet.
YOU raise the kids—WE'LL have the
fun!
YOU stay at home from sun to sun—
WE'LL live the life that's sweet!"

But, oh, the joys of life they miss,
Who do not know the baby's kiss,
And smiling, sparkling eyes!
And oh, how empty life will grow,
As down the years they slowly go,
And Youth behind them lies!

WE'RE anchored down, I must confess,
But anchored, though, with Happiness,
And all that makes life fine!
YOU live the life that's fancy-free,
Without a child—but as for me,
I'll take the kids for MINE!

Colonial Home Made Attractive by Wide Porch With Glazed Entry

A comfortable looking colonial home. Excellent floor plans, economical construction and an inviting open front porch, distinguish this home.

By W. A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to practical home building, for the readers of this paper. On account of his wide experience as editor, author and manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Here is the type of home which will appeal to a great many prospective home builders, especially those who want a modern dwelling, require only a limited number of rooms and have not a large amount of money to build with. It is a simple colonial home made attractive by a wide porch with a glazed-in entry.

This house is of frame construction and is only 22 feet by 26 feet.

the front, two at the side, one at either side of the fireplace, and two at the back, provide it with an unusually large amount of light and excellent ventilation.

As will be seen by the floor plans, the dining room is also a front corner room and is connected with the living

Second Floor Plan.

room by a cased double opening. This room is 11 feet by 12 feet 6 inches. The kitchen, 8 feet by 11 feet, is directly back of the dining room.

Open stairs run out of one side of the living room directly opposite the entrance door and lead to a central hall on the second floor. Here are found the bedrooms, one directly above the living room and practically the same size, and the other 11 feet by 14 feet 6 inches. At the head of the stairs is the bathroom. Should the family be willing to have smaller bedrooms or should the occasion arise the large bedroom can be partitioned into two, each one being 10 feet by 10 1/2 feet.

The wide porch with the brick steps and the overhang of the porch roof take from this home the plainness which is sometimes a drawback in the true colonial design.

First Floor Plan.

The interior arrangement is such, however, that there is an unusually large living room, 13 feet 6 inches by 21 feet, extending the depth of the house at one end. In the center of the outside wall of this room is an open fireplace while two windows at

Where did you get that eye? You know that pretty little woman we said was a widow?
Yes.
Well, she isn't.

"Oh, Jimmie! What would your mother say if she saw you smoking cigarettes?"
"She'd have a fit, they're her cigarettes."

Sam (watching the construction of a new filling station):
"Boy white folks is sure intelligent."

Sambo: "How do you arrive at such a reduction?"
Sam: "Dawgone if dey don't know just what lots to dig on fer to get gasoline."

In one of the world's deepest gold mines, nearly three-fourths of a mile deep, in Australia, the heat is so terrific that it is necessary to spray the bodies of the miners continually with cold water from above.

MICKIE SAYS—

ADVERTISING IS ONE OF THE FEW SAFE INVESTMENTS THAT WILL PAY MORE THAN SIX PER CENT—JUST WHAT IT WILL PAY DEPENDS ON HOW CLEVERLY YOU USE IT, AND HOW YOU BACK IT UP WITH SERVICE

A German gardener dug up a gold coin minted in 1444. Only one specimen of this coin was known before he received for his find the equivalent of a year's wages.

The legal marriage age for young men in Italy is now 16 and for girls 14.

Coliseum Again The Meeting Place of Multitudes of Romans

Courtesy Navigazione Generale Italiana

THE ancient Coliseum in Rome is again the scene of mighty gatherings of people. Premier Mussolini recently called a mass meeting of the younger Fascists, his followers, who are making a new Italy, at the Coliseum. Twenty thousand young Italians responded and a vast number of people came to witness the athletic games. Every year this ancient structure is made the scene of such demonstrations under the leadership of Il Duce.

Some idea of the antiquity of the Coliseum may be gained by a review of its history. The greatest architectural monument the Romans was begun by the Emperor Vespasian, in A. D. 72, and was completed by Emperor Titus in A. D. 85. It is elliptical and was designed to seat 50,000 people. For nearly four centuries the seat of gladiatorial and fights with wild beasts, the name "Coliseum" is now used to designate large places of amusement.

K. O. B. RADIO STATION HAS INCREASED POWER

K. O. B. radio broadcasting station of the New Mexico State college has been granted permission to increase its sending power from 10,000 to 20,000 watts, according to word just received from R. W. Goddard, dean of the State College school of engineering.

The increased power permit makes K. O. B. by far the most powerful educational station in the United States and places it among the strongest stations in the country.

The permit was granted following a conference at Washington between Dean Goddard and members of the Engineering Department of the Federal Radio Commission. Dean God-

dard designed station K. O. B. has given much of his time to the study of radio engineering states that \$75,000 has been in the State College station the increase in power can be immediately.

The efficiency expert of the statistician but he to the same breed. He will that if a farmer's boy can quarts of cherries in an a girl five quarts, the two together will pick eleven. But any farmer knows that of them together won't pick Gage Readings.

NEW MEXICO CROPS REPORT OF JUNE 1

WHEAT: The wheat acreage reported by twenty foreign countries for 1929, is 98,644,000, compared with 97,927,000 in 1928, and 95,112,000 acres in 1927.

WINTER WHEAT: The condition of winter wheat in the United States on June 1, indicated 622, 148,000 bushels, which is an increase of 4% over the crop on May 1. The 5-year average crop was 549,000,000 bushels and the 1928 crop was 579,000,000 bushels. The increase on June 1 over May 1 condition was due mainly to favorable rainfall in the great plains states, all of which showed an increase. The total increase amounted to 31,000,000 bushels. The other states show a slight decline since May 1. The condition of the crop in New Mexico amounted to 48%, compared with 62% for a 10-year average, and 65% on June 1, 1928. A condition of 84% forecasts 3,612,000 bushels which compares with 2,795,000 indicated by the May 1 condition. The 5-year average production amounts to 1,616,000 bushels compared with the 1928 production of 1,500,000 bushels. The yield indicated by the June 1 condition is the highest since 1926, when the production was estimated at 4,876,000 bushels.

SPRING WHEAT: The condition of spring wheat in the United States averaged 84% on June 1, which is 6 points above the condition reported a year ago, but is lower than the 10-year average of 88.4%. Cool weather has delayed the growth of this crop in the spring wheat growing states, but the plants are reported in a strong well rooted condition. The condition of the New Mexico crop was 89% compared with 90% on June 1, 1928, and 82% for the average of the past 10 years.

HAY: The condition of 86.6% for tame hay in the United States is very much better than for last year, which amounted to 76.5%. Hay prospects are better than usual in most states, except those of the west, where the crop seems likely to be the smallest since 1924. The condition of tame hay in New Mexico was 89% compared with a ten-year average of 86%.

FRUITS: June 1 is too early to forecast the production in the Northern states, but indications are that the production in the country as a whole will be less than usual, especially in California and Florida. Nowhere has the crop been particularly heavy. Apples, peaches, citrus fruits and grapes will be below the average of recent years.

APPLES: In western New York, Michigan, the Ozark region, Kansas and Nebraska, an increased crop is expected over last year, but in nearly all other states the crop will be smaller. For the United States the apple crop seems likely to average 10% less than that for last year, but more than the crop of 1927. The condition of the crop as of June 1, averaged 66.6%, compared with 72.2% in 1928, and a 10-year average of 68%. For New Mexico the condition averaged 63%, compared with 40% last year, and a 10-year average of 65%.

PEACHES: The condition of peaches in the United States averaged 54.7%, compared with 72.7% last year, and a 10-year average of 64%. The crop in New Mexico averaged 46% condition on June 1,

LAKE ARTHUR ITEMS (Mrs. Ned Hedges, Reporter)

W. W. Walton was a business visitor in Roswell Monday.

Little Mozelle Pate left Monday for a few months stay in El Paso with her grandmother.

Rev. Z. B. Moon filled the pulpit at the Methodist church here Sunday and preached an excellent sermon to an appreciative audience.

A large number of the citizens of the community attended the funeral service of George Jordan which was held from the McClay funeral parlors last Thursday.

Mr. and Mrs. Clyde Nihart and daughter Ruth came in last Wednesday from Minneapolis, Kansas, where they had attended the funeral of Mrs. Nihart's father Mr. Copeland.

M. S. Bruning brought in a 2,000 gallon artesian well this week on the old Dozier place now owned by Mr. Glazier. The place will be farmed this year by J. M. Frazier and his sons.

Howard Moots accompanied by his three little girls and John and Charles Aleshire of Los Angeles, California and Mrs. George Copeland of Minneapolis, Kansas arrived in Lake Arthur Tuesday for a few days visit with relatives.

Mr. and Mrs. Jim Murphey of Globe, Arizona and Bob Jordan of Wyoming are visiting at the home of Mr. and Mrs. Milton Godsell this week. Mrs. Godsell and Mrs. Murphey are sisters of George Jordan and Bob Jordan is a brother.

Mrs. B. C. Moots and son, Lyle accompanied by June Moots attended the funeral services of the late Mrs. Howard Moots which was held from the Baptist church in Clovis Saturday morning. Mrs. Moots was a former Lake Arthur girl and her sudden death came as a distinct shock to her many friends here. She leaves besides her husband and three little girls a father, John Aleshire, a brother, Charles Aleshire, and two sisters, Mrs. Adánelle Krest and Mrs. George Copeland.

Herbert Barnard of Chicago testified in his wife's divorce suit that for three years ten of her relatives had "sponged" on him.

In the marriage records in Liverpool, Mrs. Edith Mansall described herself as the 37th child of her father, who had been married five times.

After being engaged three years, Miss Amy Bolton of Buffalo refused to marry Robert Kelders with the ceremony incorporating the word obey.

Martin Chiatovich of Hawthorne, Nev., has received a letter from the Smithsonian Institute, offering him \$2,500 for his 1906 Pope-Hartford touring car.

compared with 25% a year ago, and a 10-year average of 41%.

PEARS: The pear crop in the United States averaged 58.5%, compared with 70% a year ago, and a 10-year average of 65.5%. The New Mexico pears averaged 59% condition on June 1, compared with 33% last year, and a 52% for a 10-year average.

PLYMOUTH MOTOR CONQUERS HILL WITH A 6 PER CENT GRADE

A motorist seldom has occasion to climb a 76 per cent grade, but is none the less gratified to know his automobile can if necessary. In order to determine for himself whether the Plymouth motor car has sufficient power to conquer such a grade, W. F. Hubbard, Plymouth dealer at Bakersfield, Cal., recently staged a hill-climbing trial on Trice Hill, near that city known to automobile drivers as one of the "meanest" hills in the country.

Trice Hill is 840 feet long, has an average grade of 54 per cent, and assumes a pitch of 76 per cent at its steepest point near the summit. To appreciate the angle to such a grade turn the hands of your watch until they register six minutes after twelve o'clock. The angle between the hour hand and the minute hand will be approximately seventy-five per cent, an angle sufficient to intimidate even the most courageous motorist and one which many have claimed only a specially geared car could "make."

It was to this hill Hubbard proceeded with two stock Plymouth touring cars. Five thousand persons, many of them drivers who themselves had endeavored vainly to climb the hill assembled to witness the test.

Following inspection of the cars by a committee of experts, including J. B. Best, manager of the Southern California Automobile Club, who later signed an affidavit that the cars were factory models with no change in engine construction or gearing from stock cars, the trials took place.

Their motors responding to the constant call for power, the Plymouth started up the lone, steep incline. Without faltering, gears in low, they made the easiest of the grades. As each reached a point about three quarters up Trice Hill, the drivers prepared for the final spurt which would carry them over the 76 per cent grade to the top. A slight thrust on the accelerator, and the reserve power, which had not been recalled upon up to that point, came into play. With a roar the cars spurred forward through the breaking ranks of cheering spectators, and over the top.

MCKEE NEW SUPERINTENDENT OF SANTA FE LINES

LAS VEGAS.—H. R. McKee, assistant superintendent of the Arkansas division of the Santa Fe railroad with headquarters at La Junta, Colorado, Saturday was made superintendent of the New Mexico division of the railroad, succeeding J. Fred Anton, who died recently from injuries suffered in an automobile accident near Ft. Sumner.

Willie had returned from his first day at school. "And what did you learn at school today?" asked his father.

"I learned to say 'Yes, sir' and 'No, sir,' and 'Yes, ma'am and 'No, ma'am.'"

"You did!"

"Yeah!"

More WOMEN RIDE on Goodyear Tires than on any other kind

Tire-changing is not a woman's job. Women prefer Goodyear tires because they go farther without giving trouble, hold the car more securely on slippery roads and stop safely. Millions more people ride on Goodyear tires—the percentage of Goodyear-equipped cars increases daily. It's safer, it's cheaper to always buy Goodyears.

STOOD ALONE FIVE YEARS AGO—STANDS ALONE TODAY
"Chrysler came into a seemingly crowded motor car market and almost immediately swept its way into unprecedented acceptance as a quality product. That which ordinarily takes years to achieve was won almost overnight. + + Why? Because Chrysler brushed aside outworn traditions in engineering, in design, and in performance. It brought to bear both scientific exactness and artistry. + + That is why Chrysler has taken the country by storm—why it still stands and will long stand alone—why, if you want what Chrysler gives, Chrysler alone can satisfy you."
—Advertisement Literary Digest December 6, 1924

CHRYSLER'S PLACE IN THE SUN
Prior to five years ago there were no Chrysler motor cars. In five years, Chrysler, from a standing start, has overtaken leading cars of three, four and five times its age.
The spectacle of a newcomer so swiftly becoming a leader can bring the logical mind to but one conclusion: There must be something remarkable, something altogether different and superior, in the cars that Chrysler builds.
There is a definite superiority in Chrysler cars. Hundreds of thousands of motorists the world over have learned it.
There is in Chrysler performance, a thrilling sense of endless power, a swift eagerness of life and spirit, a restful feeling of perfect balance and positive safety that cannot be experienced except in a Chrysler. There is in Chrysler design artistic freshness and modern charm. There is in Chrysler riding qualities a smoothness, a cradled restfulness quite without counterpart.
Drive a Chrysler car today and realize, better than words could ever tell you, why Chrysler has won so glittering a place in the sun—and why Chrysler goes on and on to an ever-increasing popularity and prestige.

Social Activities

BRIDGE LUNCHEON

One of the outstanding social events of the week was a bridge luncheon given at the E. D. Compton home, Friday afternoon by Mesdames E. D. Compton and F. G. Hartell. The Compton home was artistically decorated with a profusion of spring flowers. The hostesses entertained nine tables of bridge and carried out a unique color scheme. Two tables were decorated in pink with place cards and favors to match, two in green, two in blue, two in yellow and a combination of pink and green was carried out in the sixth table.

The hostesses were assisted in serving a delicious three course luncheon by Miss Louisa Compton and Margaret Nellis.

The guest list included Mesdames M. W. Evans, J. W. Nellis, J. H. Jackson, J. M. Story, Albert Richards, Frank Seale, Richard Attebery, W. C. Martin, C. R. Blocker, J. B. Atkeson, Landis Feather, V. L. Gates, Fred Brainerd, Phillips Sr., Desk Phillips, William Compton, Fred Cole, William Linell, M. A. Corbin, C. Bert Smith, S. D. Gates, Martin Yates, John Lanning, S. E. Ferris, E. N. Bigler, G. E. Brainerd, E. J. Brooks, Wallace Anderson, Beecher Rowan, L. P. Evans, Ray Bartlett, Aubrey Watson, J. W. Vasey, Lewis Story, Jeff Hightower, and Miss Ruth Hickerson. Mrs. J. J. Clarke was a luncheon guest.

HIGHTOWER-BLOCKER

A very pretty wedding of last Sunday at high noon was that of Miss Jackie Hightower and Mr. Stanley William Blocker, which occurred at the home of Mr. and Mrs. Leonard Jernigan, of Carlsbad. Rev. J. O. Cox, pastor of the Methodist church in the presence of relatives and a few close friends, with Mr. and Mrs. Jernigan as attendants, performed the simple ring ceremony. The bride is the youngest daughter of Mr. and Mrs. Jeff Hightower, a graduate of Artesia High school, and a popular member of the younger set. Stanley, the son of Mrs. Sophia Blocker has been reared in the lower valley, coming to Artesia from Carlsbad several years ago, and has been an employee of the Phillips Petroleum Co., and the Advocate, at present he holds the position of linotype operator with the Advocate. The young couple will be at home to their friends at 316 Dallas street.

ROBERTS-PRICE

Friends of Miss Ethel Roberts will be interested in hearing of her marriage which took place at two-thirty Sunday afternoon at the home of her parents in Artesia.

The groom, Mr. Bennie Price, has been living in Artesia the past year. He is employed in cement construction work on the new buildings under construction in Artesia.

The ceremony was performed by Rev. W. A. Huffman, pastor of the Nazarene church. Rev. Huffman formerly served the Nazarene church in Hagerman.

Mrs. Price is well known in the Dexter-Hagerman communities. She lived in Dexter for several years. Last year she moved to Hagerman where she lived for several months before she moved to Artesia. Mrs. Price is Mrs. Robert Burrell's youngest sister.

Mr. and Mrs. Price will make their home in Artesia.

—The Hagerman Messenger

FIRST AFTERNOON BRIDGE CLUB

The First Afternoon Bridge club met with Mrs. C. Bert Smith Tuesday afternoon. Light refreshments were served at the close of the afternoon. The hostess was assisted in serving by her house guest Mrs. Emma Alexander. Substituting were Mesdames E. D. Compton and F. G. Hartell. The club decided to adjourn for four weeks during the summer season.

AMERICAN LEGION BENEFIT DANCE

The American Legion benefit dance given at the Silver Moon pavilion last evening was well received and a large crowd enjoyed the festivities until a late hour. Miss Marion Wilkins of New York, headline artist with Radio-Keith Orpheum Co., a big time vaudeville company, was a special guest of the Legion and favored the audience with a few special numbers. Music was furnished by the Red Birds. The entertainment netted the Legion over \$100.00.

Red, White, Blue and Yellow carbon paper for tracing on cloth.—The Advocate.

Social Calendar

THURSDAY (TO-DAY)

Sunday school class of Mrs. J. E. Robertson will have picnic and swim at Oasis this evening.

FRIDAY

Second Evening Bridge club meets with Mrs. Beecher Rowan.

Young Mothers club meets with Mrs. C. A. Bulot at 2:30 p. m.

TUESDAY

Fortnightly Bridge club meets with Mrs. William Linell at 1:50 p. m.

Second Afternoon Bridge club meets with Mrs. F. G. Hartell at 2:30 p. m.

THURSDAY (NEXT WEEK)

Passtime Bridge club meets with Mrs. C. A. Bulot at 2:30 p. m.

GIRL SCOUTS PICNIC

The Artesia Girl Scout council gave the local troops a picnic at the City Park, Friday evening. After the picnic lunch was served, a short business session was held at which time plans were made to send a number of local scouts to Camp Mary White, this summer. The Scouts will likely attend the first period, which begins the first week in July. Miss Hazel Belle Johnson, the new scout master will also attend the first period at Camp Mary White, as a representative of the local council.

At the close of the business session, the council and the scouts accepted an invitation extended by Manager Bartlett of the Majestic theater to attend the picture show.

SWIMMING PARTY FOR SUNDAY SCHOOL CLASS

Members of the Fidelity Sunday School Class of the Baptist church enjoyed a picnic and swimming party at the Oasis swimming pool, Thursday evening. Those attending were the Misses La Rue Mann, Ruth Bigler, Lola Gray, Ruth Peterson, Mary Smith, Beah King, Victoria Moore, with their teacher Mrs. W. C. Martin and daughter Oriana.

PICNIC AT BOWMAN HOME

A number of friends and neighbors gathered at the home of Mr. and Mrs. J. E. Bowman Sunday and enjoyed a picnic and social visit. The picnic dinner was served at 12:00 o'clock and light refreshments were served about the middle of the afternoon.

Among those present were: Mr. and Mrs. Roy Bowman and family, Mrs. E. Cooley, of Phoenix, Arizona, J. J. Potts and family of McCurtin, Oklahoma, Mr. and Mrs. Athal Martin, Miss Lucille Huffman, Mrs. Troy Estes of Sarah, Oklahoma, Mr. and Mrs. W. P. Bowman of Hagerman, Mr. and Mrs. Billie Birchell and family of Carlsbad, Ernest Bowman and children of Roswell, Mrs. Carroll Brown and family of Artesia, Mr. and Mrs. Wright of Carlsbad and V. Wilson of Drumright, Oklahoma.

CHARLES EAKER MARRIED

Miss Bailey of Hagerman and Charles (Bud) Eaker of the Cottonwood were quietly married at Roswell Saturday, according to information reaching here the first of the week. Mrs. Eaker is a sister of Mrs. Price Eaker and Mr. Eaker is a well known resident of the Cottonwood, who is engaged in the sheep business.

IDLEWHILES BRIDGE CLUB

The Idlewhiles Bridge Club was entertained Tuesday afternoon at the home of Mrs. Chester Russell. An extra table of guests were present in addition to the substitutes and members. Refreshments in two courses were served at the close of the afternoon. The guests included Mesdames William Linell, Frank Seale, Lewis Story and Miss Katherine Clarke. Substituting were Mesdames J. A. Yates, J. B. Atkeson and Miss Dora Russell.

PASSTIME BRIDGE CLUB

The Passtime Bridge Club was entertained at the home of Mrs. J. W. Berry, Thursday afternoon. Mesdames H. Q. Haley and J. A. Yates substituted for absent members. Light refreshments were served at the close of the afternoon's entertainment.

Calling Cards, 100 for \$1.75, on best grade paneled or plain stock.—The Advocate.

Her Happiness Dress

By HORTON GAY

"MOTHER, I would rather remain at home than go to the dance in that old blue gown," cried Nancy Deering. "I know perfectly well that everyone there has seen it dozens of times, and of course I cannot have a new one now—I am not complaining—I would really rather not go at all."

"The rather tired of the old crowd," she whimpered.

Her mother saw the red lips quiver and she knew it was because Carolyn Wright would be there with a group of young girls and men from the city, and that Paul Mason might be among them. Paul had been very devoted to Nancy the winter before and people had expected them to marry. But he had gone back to the city and Nancy had fortified herself behind a little wall of pride and gone everywhere. Her observant mother had noticed that she did not wear the rose-colored dress again. It was a charming dress of soft rose satin and Nancy had looked like a rose herself as she danced the evening through. Almost any man would have capitulated to its allurements, but Paul must have been made of sterner stuff for he rode away and Nancy was still free.

"Why don't you wear the rose satin, Nancy?" asked her mother.

"Nancy paled and for a moment she hid her face in her mother's lap. 'I cannot, mother dear; it is such a happy dress,' she whispered.

Mrs. Deering bent and kissed the brown hair. "Wearing a 'happy dress' might bring happiness back to you, dearie," she said, and the words went to Nancy's heart. Of course, Paul would never come back again, but wearing it would help her to forget him, forget his fickleness. She had learned to love the big shy fellow, and she believed that last night at the club dance, when she had worn the rose satin dress, that he would say something about his love, but he had gone soberly away.

So she did not wear the blue dress, but came running down in the rose-colored satin. Her mother admired her from crown to ankles and silver shoes. "Mr. Wright said Paul was coming," thought Mrs. Deering, "and perhaps my girl will be happy after all!"

Nancy went away in her "happiness dress" and mingled with the youth and beauty on the clubroom floor. Her card was nearly full when a big form blocked off other partners and a familiar voice caused her heart to throb madly.

"How do you do, Nancy? Have you any dances left?" It was Paul Mason, looking thinner and graver, but his smile was the same and the wistful look in his brown eyes brought color to her cheeks.

"You are wearing the same little dress," he said after awhile.

"This—rose dress?" Nancy wondered how he could remember.

"Yes—you had it on the last time I danced with you."

Nancy did not tell him this was the first time she had worn it since that unhappy night, which had begun so full of promise and ended in tears for her. "I call it my 'happiness dress,'" she said, determined that he should not guess that she had grieved for him.

"And you have been happy in it?" he asked.

Her eyes flashed him an affirmative, and he looked down at her pink cheeks and the dark lashes that lay thickly against their roundness.

Afterward when he was leaning against the wall, watching Nancy dance with Marty Wright, two girls began to speak of the rose dress Nancy wore.

"She hasn't worn it in ages," said one.

"I thought it was a new one," said the other. "She's been wearing a blue silk and a white one—I never saw this one before."

"It was new last winter for the club dance—I remember she wore it once and hasn't had it on since—it's a darling, isn't it?" she cried enthusiastically.

Paul had the next dance with Nancy and he led her straight away out of the house to the pergolas which overlooked the water. "Nancy, are you happy in your dress?" he asked.

"Why not?" she asked coldly.

"I must know!" he declared passionately.

She turned her head away and he saw tears on the thick lashes. "Tell me, dear," he insisted, "I am asking because—"

Nancy cried softly. Presently she lifted her head and smiled at him. "I am so foolish to cry when I have my 'happiness dress' on," she said, "but isn't that just like a woman?"

He caught her hand and held it. "Nancy, did you read my note?"

"What note?"

"When you wore this dress before—I put a note in that little lacy pocket in the sash—I was sure you'd find it—ah, beloved, it is here, sealed—and you have never known how I love you—I wanted you to answer and tell me if you cared—I was scared stiff in those days—but now my tongue is loosed. If you hadn't worn this dress tonight I would not have dared hope—"

"My 'happiness dress' always!" cried Nancy tearfully. Then Paul kissed her tears, so it was a happiness face, too, that was lifted to his.

Talk Happiness each chance
You get—and
Talk it good and strong:
Look for it in
The byways as you grimly
Plod along:
Perhaps it is a stranger now
Whose visit never
Comes:
But talk it! Soon you'll find
That you and Happiness
Are chums.

GOOD THINGS FOR THE TABLE

Stews when properly made are one of the most palatable of all meat dishes. Most tasty meals may be prepared with left-over meats.

Beef and Rice Stew.—Take one cupful of cooked meat cut into half-inch pieces, one cupful of rice, two

tablespoonfuls of butter, three tablespoonfuls of flour, one-half teaspoonful of salt, one-fourth teaspoonful of paprika, one and one-half cupfuls of milk, two tablespoonfuls of chopped onion, the same of celery, one-half cupful of sliced cooked carrots or any other leftover vegetable. Melt the butter, add the flour and cook slowly, stirring constantly until a light brown color. Add the salt, paprika and milk and cook until a creamy sauce is formed. Add the remaining ingredients and pour into a buttered baking dish. Bake in a moderate oven twenty minutes.

Chocolate Pie.—Prepare the pastry, using whole wheat flour. Bake the shell and fill with the following: Melt two squares of chocolate in a double boiler, add two-thirds of a cupful of sugar, five tablespoonfuls of flour, one-eighth teaspoonful of salt, one cupful of milk and one cupful of water, with two well-beaten egg yolks. Cook until smooth, add one teaspoonful of vanilla and pour into the baked shell. Cover with a meringue or with whipped cream.

Walnut Layer Cake.—Take one-half cupful of sweet fat, one and one-third cupfuls of sugar, cream thoroughly. Add two-thirds of a cupful of milk, one teaspoonful of vanilla, two and one-half teaspoonfuls of baking powder, the whites of two eggs beaten stiff and one-half cupful of walnuts cut into small pieces. Pour into two layer cake tins and use a foamy frosting for filling and topping.

Nellie Maxwell

The KITCHEN CABINET

(52, 127, Western Newspaper Union.)

To do something, however small, to make others happier and better, is the highest ambition, the most elevating hope, which can inspire a human being.—Avebury.

GOOD DISHES

Coconut in the tropics is called the "fruit of life." In the young green fruit the sweetest water is good to drink and the jelly, which later forms the meat, is edible.

Coconut Biscuits.—Grate one large coconut, add one and one-half cupfuls of granulated sugar, one and one-half cupfuls of flour, three

tablespoonfuls of shortening, four teaspoonfuls of baking powder, two beaten eggs, one-half teaspoonful of salt. Mix as usual and drop by teaspoonful on baking sheets and bake until a light brown. These will keep crisp for a long time and then may be reheated in the oven to regain their crispness.

Jamaica Coconut Cakes.—Take two cupfuls of granulated sugar, one egg white and one large coconut grated. Mix the coconut with the egg unbeaten and the sugar, stirring until mixed; place over a slow fire, stirring all the while. The sugar will melt and the coconut oil will melt making the mixture very soft; stir until it is almost dry—twenty to thirty minutes. When the mixture is almost dry but still soft enough to mold, mold in a tablespoon with a knife and place in buttered gem pans. Bake a light brown.

Cherry Sandwiches.—Moisten with cream a cake of cream cheese, add chopped maraschino cherries until well blended—the amount depends upon the taste. Spread on heart-shaped bread lightly buttered.

Chicken a la King.—Take one cupful of chicken broth, one cupful of milk, two teaspoonfuls of flour, four tablespoonfuls of butter, one-half teaspoonful of salt, one-fourth teaspoonful of pepper, three cupfuls of cooked chicken, two eggs, one-half a green pepper chopped, one-half a pimento, one cupful of mushrooms and one-half cupful of peas. Melt the butter and cook the mushrooms and the green pepper five minutes. Add the flour and seasonings. Add broth and milk and cook until well thickened. Add peas, chicken and pimento and beaten eggs. Reheat and serve on toast.

Nellie Maxwell

LOCALS

Mr. and Mrs. W. P. Cox spent the week end with Mr. and Mrs. J. I. Cox at Honda.

Mr. and Mrs. E. T. Jernigan attended the Hightower-Blocker wedding at Carlsbad Sunday.

D. W. Runyan returned yesterday from Hot Springs, where he spent a couple of weeks taking the baths.

Mr. and Mrs. Lee Francis and baby expect to leave for Ruidoso to-day to spend a couple weeks vacation.

Miss Ethel Smith has accepted the position of bookkeeper at Dr. Loukas Garage and assumed her duties, Thursday.

Robert Feemster returned from Norman, Oklahoma, Tuesday, where he attended the University of Oklahoma during the past year.

Mr. and Mrs. W. C. Hughes accompanied by Mr. and Mrs. Henry Paton drove up to Cloudcroft and on through the Ruidoso Sunday.

Mrs. Grover Kinder and family came in from Ruidoso Tuesday after spending a few days in the Elpper cabin as guests of Mrs. Kinder's mother, Mrs. Elpper.

Milford Davis of Delta, Colorado is spending a few days here visiting Miss Edna Dungan. Sunday Miss Dungan and Mr. Davis went through the Carlsbad Caverns.

C. A. Russell, vice-president of the Pueblo Oil Co., and M. A. O'Brien, oil operator, both of San Angelo, Texas, spent the first of the week here attending to business matters.

Mr. and Mrs. Rube Dunn and children, accompanied by Mr. Dunn's mother, Mrs. E. V. Dunn of Fort Stockton, Texas drove over to El Paso to spend the week end. Mrs. Dunn stopped at Alamogordo for a weeks visit with A. L. Dunn and family en route home.

COTTON CONSUMPTION OF 1929 SHOWS AN INCREASE OVER 1928

WASHINGTON — Cotton consumed during May totaled 608,229 bales of lint and 86,445 of linters, compared with 631,710 of lint and 79,008 of linters in April this year and 577,384 of lint and 62,836 of linters in May last year, the census announced.

Cotton on hand May 31 was held as follows:
In consuming establishments 1,477,308 bales of lint and 231,589 of linters, compared with 1,330,880 and 211,141 a year ago.
In public storage and at compresses, 1,847,688 bales of lint and 78,488 of linters, compared with 2,258,763 and 59,399 a year ago.
Imports during May totaled 42,486 bales, compared with 19,842 in May last year.
Exports during May totaled 313,003 bales of lint and 12,942 of linters in May last year.
Cotton spindles active during May numbered 30,910,282 compared with 28,948,144 in May last year.

UNETHICAL SOLICITATION OF ADVERTISING

El Paso, Texas
June 17, 1929.
Artesia Advocate
Artesia, New Mexico
Gentlemen:
An instance of apparently unethical solicitation of advertising has come to our attention. As newspaper people this interests us to a considerable extent, and no doubt it will interest you also. In your locality perhaps several hundred dollars each year, that might be spent for your medium, are taken by just such schemes as I am going to outline to you now.
The Peyton Packing Co., of this city received the following wire: "Alpine, Texas, June 5th, 1929
Would like to use eighteen dollar space in our new menus advertising the products we are using from you wire reply so we can reserve and rush copy you wish used or authorize to make up copy rate is for one year advertising—
HOLLAND HOTEL."

Upon receipt of this telegram, Mr. Miles of the Peyton Packing Company wired a reply stating that they could not use the advertising. He then wrote a letter to his representative in Alpine suggesting that he see the Holland hotel, explaining how frequently they received such requests and that they could not possibly take such advertising in view of the fact that they were using the local paper there, etc. The representative then wrote, in part, the following letter to Mr. Miles: "Coincidentally, I met the gentleman in question who was soliciting said advertising. Mr. Clay Holland was unaware that any such telegram was sent and certainly was not authorized by him, and said he would write you a letter in his own behalf regarding same.
This was a piece of high-powered salesmanship that failed.
Cannot, and never could see where advertising paid on restaurant menus.
Yours very truly,
(Signed) Geo. R. Edwards."

June 17, 1929.
You will notice that the name "Holland Hotel" was evidently forged by the salesman who is trying to sell menu advertising in Alpine. These people will no doubt arrive in your city to sell some such scheme. I am writing this to warn you so that you may meet the situation if you care to, as we will without question meet it when they arrive in El Paso.
Mr. Miles has taken this up with our local advertising club and I am writing this as a member of the

Dr. N. W. Squire of London must pay Mrs. Phyllis Hancock \$1,250 because he said she was "incapable of caring for cats."

NEW MEXICO HIGHWAYS SHOW IMPROVEMENT OVER THE PAST YEAR

SANTA FE — The 3,000,000 tourists who will come to New Mexico in 1929 will find touring conditions better this year than ever before, a survey by the Highway Service Bureau shows.
The trunk line roads and many of the secondary roads are in better shape this year due to the intensive construction and reconditioning work of the fall and winter months. Notorious bad spots have been eliminated by new projects, curves have been flattened, spillways revamped where they have ridden roughly in the past, the new maintainers and advanced maintenance methods taught by the Highway training school are showing good results, while the oil surfacing work is steadily pushing up the total mileage figure on semi-hard surfaced roads.

Many new routes have been opened up since last season, and many old routes which were passable in only the most favorable circumstances have been worked on to bring up to the all-year specification. New road work is constantly reaching out to make accessible major tourist points of interest.
Service stations, campgrounds and hotel facilities have been increased and brought up to new high standards all over the state. Lordsburg, Carlsbad and Raton all have new hotels of the highest type, while several other cities have new high class structures under way which will be finished soon.
Another great step forward over last year's conditions is the adoption of the uniform motor vehicle code. This advance in legislation will have a large appeal to eastern tourists who are used to abiding by the same code in their home states. The new motor vehicle code provides for greater safety on the highways while taking away at the same time that bugaboo of the tourist, the hard boiled traffic cop. The new code also makes it impossible for small towns to lay down speed traps to catch the unwary tourist who is thereupon invited to help pay the town's taxes.

Touring information of a more up to date nature than has been available before is ready for the tourist this year through the cooperation of the various touring agencies, chambers of commerce and the highway department. This service is undergoing constant improvement work to bring it up to a plane of high usefulness to the tourist and state traveler.

A few of the roads which have been worked on the past season or are being worked on now and which will be of definite benefit to tourists are: U. S. 80, The Broadway of America oil work, Carlsbad Cavern, guard rail, new surfacing; State road 2 between Roswell and Carlsbad, oil work and new federal aid project; San Juan Basin roads, new bridges and road projects increasing accessibility to Aztec Ruins; Zuni road, increasing accessibility to Ramah; Inscription Rock and Zuni; Acoma road, new bridge and light grading; state road 11 between Silver City and Springerville, new projects aiding in bringing the hunting and fishing region of the Mogollons closer to supply points; Hillsboro-Kingston new project making the Black Range summer playground more accessible; La Luz-Highrolls, same for the Cloudercroft playground; Hope-Mayhill-Elk, east side of the Sacramento gateway; Socorro-Magdalenita gateway to Datil region, new project; Socorro-Belen, major link on America's oldest road, new projects, etc.

Tourists to New Mexico this year should be pleased with the steps which have been taken to make their stay in the state more enjoyable, says the service bureau. Early reports from the vanguard of the season's tourists indicate that this result is being achieved.

A Virginia house wrecker is living over again the dreams of boyhood. His latest job is to destroy the school he attended six years.

After 40 years' absence, George Ackerman of Covington, Ind., has returned home to find relatives dead, himself declared legally dead, and his estate formally settled 20 years ago.

Lucy and Louise Doyle, twin sisters of Los Angeles are seeking twin divorces from Willis and Alvin Young, twin brothers, on twin charges.

In the midst of agitation over the low salaries of preachers, Rev. W. H. Cooper and Rev. R. C. Radcliff, of London, died, leaving respectively \$450,000 and \$250,000.

After Andrew Gierdon, of Belfast died his life's savings, amounting to \$3,000, were found stuffed into a hollow cane.

COTTONWOOD ITEMS

(Miss Alma Bradley, Reporter)

Mr. and Mrs. Jesse Funk were Roswell visitors Thursday.

E. P. Malone left for Kansas City, Mo., last week, where he is shipping a car of lambs.

Rev. Marlin of Hope filled his regular appointment at the Lower Cottonwood school Sunday.

Miss Emma Briscoe and Clarence Smith of Artesia were visiting with friends on the Cottonwood Sunday.

Mrs. L. J. Vaucelet and daughters, Barbara and Cecelia, of Roswell, who were visiting in the home of Mrs. Vaucelet's sister, Mrs. E. P. Malone and Mr. Malone, returned home Sunday.

Eugene Buck and Mrs. Martin Sealock of Corpus Christi, Texas are visiting their brothers, Noah Buck of Artesia, Lee Buck of Cottonwood and their father, Jim Buck

JOINT MEETING OF CLUBS

The Happy Hour club and the Cottonwood Woman's club held a joint meeting at the home of Mrs. E. P. Malone last week. Miss Velma Borschell, district home agent was present and gave a few helpful hints on sewing. Later she made a very interesting talk on clothing to members of both clubs. Two recent brides were given a shower. Mrs. Ed Parnell was given many useful and beautiful gifts and Mrs. J. A. Clayton Jr., was presented with a berry spoon. The Happy Hour club will hold their next meeting at the home of Miss Beulah Beth Terry on June 21.

Charging that her husband was so stingy that he would set his alarm clock, then awaken before it rang and shut it off to save the spring, Mrs. Helen Johnson of Chicago filed suit for divorce.

ORDINANCE NO. 216

AN ORDINANCE VACATING THE
ALLEY IN BLOCK SIX OF THE
ORIGINAL TOWN OF ARTESIA,
NEW MEXICO, AS SHOWN BY
THE ORIGINAL PLAT OF REC-
ORD IN THE OFFICE OF THE
COUNTY CLERK OF EDDY
COUNTY, NEW MEXICO.

WHEREAS, a proper petition has
been filed with the Town Clerk for
the vacating of the 20-foot alley in
Block 6, shown by the plat of the
Original Town of Artesia on file and
of record in the office of the County
Clerk of Eddy County, New Mex-
ico, and

WHEREAS, the Board of Trustees
are of the opinion that said alley is
of no beneficial use to the public,
and that same is unnecessary and
should be vacated.

THEREFORE, be it ordained by
the Board of Trustees of the Town
of Artesia, New Mexico,

Section 1. That said alley, be-
ginning at the SW corner of Lot 7,
in said Block 6 of the Original
Town of Artesia, and extending East
to the A. T. & S. F. Railway; Thence
South 20 feet to the NE corner of
Lot 2; Thence West 100 feet to the
NW corner of Lot 8, and thence
North 20 feet to the place of begin-
ning, containing a tract of land
20x100 feet, be, and the same is,
herely vacated, and the plat of the
Original Town of Artesia, showing
said alley in said block 6 of the
Original Town of Artesia, New Mex-
ico, be, and the same is, hereby
amended, so as to show said alley
vacated and eliminated from the
plat of said Original Town of Ar-
tesia.

Section 2. That this Ordinance
shall be in full force and effect
from and after five days from date
of its publication, as required by
law.

Passed, adopted and approved
this 10th day of June, 1929.
C. E. MANN,
Mayor.

Attest:
EDWARD STONE,
Town Clerk.

cation will receive bids until 6 o'clock
p. m., June 30, 1929, for flooring the
lower floor of the Lakewood School
Building with Number 1, clear oak
flooring.

The Board reserves the right to
reject any or all bids.
COUNTY BOARD OF EDUCATION,
By, DEAN SMITH, President.

27-3t

CERTIFICATE OF CANVASS

The undersigned authority certi-
fies that it canvassed the returns
of a special school district election
held on the 8th day of June, 1929,
in School District No. 27, County
of Eddy, New Mexico, and finds
the result of said election to be as
follows:

Ballots legally cast for the is-
suanace of school bonds in the total
sum of \$30,000.00 for the purpose
of erecting and furnishing a school
building and purchase of school
grounds, near the center of said
district were One Hundred Eighteen
(118).

Ballots legally cast against the
issuance of school bonds in the total
sum of \$30,000.00 for the purpose
of erecting and furnishing a school
building and purchase of school
grounds, near the center of said
district were forty-nine (49).

Dated this 18th day of June, 1929.

**HOOVER'S OIL POLICY
MAY BE CHANGED**

George Otis Smith, director of
the federal geological survey and
President Hoover's technical ad-
viser is said to have expressed an
opinion in Denver Thursday, that
the public lands withdrawal order
should be modified and probably
would be.

Mother—Daughter, dear, I'm
afraid that young man is a bad egg.
Daughter—He's all that and even
worse.

Mother—What do you mean?
Daughter—He's a bad egg that's
broke.

CARBON PAPER—The Advocate

**MAY WAS BIGGEST
MONTH IN HISTORY
OF CHEVROLET MOTORS**

May was the biggest month in
the history of the Chevrolet Motor
Company. Production for the month
totalled 161,214 cars and trucks,
breaking all records.

Under pressure of the greatest
demand in Chevrolet history, its 16
giant factories in May experienced
the busiest period the company has
ever enjoyed. Factory wheels
turned with all the speed consistent
with Chevrolet's precision manu-
facturing methods to accommodate
the demand for cars that poured in
from Maine to California and from
Washington to Florida.

May was the third consecutive
month to set a new all-time month-
ly production mark. It far sur-
passed the March record of 147,
273 units and topped the April
achievement of 157,522 units.

To accomplish this record per-
formance Chevrolet plants averaged
7,000 cars and trucks daily; an av-
erage of 777 cars and trucks were
built every hour; an average of 13
were built every minute—and one
was built every 4.6 seconds!

From present indications the same
relatively high level of production
will be maintained in June to keep
pace with the demand, which offi-
cials report, continues unabated.
Dealer stocks are still below nor-
mal due to the necessity of filling
orders as fast as cars are received.
Unfilled orders are over 300% ahead
of this same period last year. It
was announced definitely that June
production would break all records
for the month.

The sixteen plants that con-
tribute to the record May per-
formance are located in the follow-
ing cities: Detroit, Flint, Mich.,
Bay City, Mich., Saginaw, Mich.,
Toledo, Ohio, Atlanta, Ga., Buffalo,
N. Y., Norwood, O., Kansas City,
Mo., St. Louis, Mo., Janesville Wisc.,
and Oakland, Calif.

**The Chevrolet Six offers
all the Distinct Advantages of
BODY by FISHER**

Never in all the history of the
automotive industry has a low-
priced car provided coachwork of
such outstanding style and quality
as the new Chevrolet Six.

The smart new bodies are built
by Fisher, with all the mastery in
design and craftsmanship for
which the Fisher name is famous.
Lines are long, low and graceful—
seats are deeply cushioned and
luxuriously upholstered—interior
hardware is fashioned by Tern-

stedt—and finishes are modishly
smart and lustrous.

In construction, too, the new
Fisher bodies represent a marked
advance. Built of selected hard-
wood and steel—they provide a
measure of strength, endurance,
comfort and safety unapproached
in any other low-priced
automobile.

OIL PRODUCTION IS INCREASED 25,644 BARRELS THIS WEEK

TULSA, Oklahoma.—The Oil and Gas Journal Tuesday said the total daily average oil production in the United States during the week ended June 15 was 2,542,196 barrels, an increase of 25,644 barrels over the previous week. This continued the erratic movement that during the last two months has drawn the production curve alternately up and down. The production for the week ended June 8 was approximately 2,096 barrels under that of the preceding week.

The total increase in light oil was 23,250 barrels; heavy oil 2,394 barrels.

Oklahoma fields aided by an approximate 7,000 barrel drop in the Seminole area, decreased approximately 9,236 barrels, while west Texas and other Texas areas showed general increases. The total estimate for the Mid-Continent area was 1,436,960 barrels, but 402 barrels over the production for the preceding week.

VACATION EXAMPLE OF HEALTH THRIFT

By S. W. Strauss, President American Society for Thrift.

This is the beginning of the summer vacation period and, therefore, a proper time for all of us to do some thinking on the fact that thrift in health matters is more important than thrift in money matters.

It has been within recent years that the public generally has begun to understand that thrift means much more than saving money. But if it is thrifty to save money, is it not more thrifty to conserve a possession that is beyond price and value, namely, good health?

A few days ago there was completed a remarkable survey of health conditions in the city of New York. Health facts discovered there may, with more or less accuracy, be recorded as typical of the entire country and are, therefore, of general public value. Here are some of the facts regarding health conditions in the nation's largest city: from 125,000 to 200,000 persons are continually sick in bed and from 250,000 to 300,000 more are constantly ill; of the 70,000 deaths per year, a very large percentage are from sickness that might have been prevented or postponed; the total annual outlay for the care of disease is \$150,000,000; the annual loss in wages due to illness is \$75,000,000; amount spent annually in the prevention of ill-health, \$2,500,000.

We hear much about losses incurred by the public through fraudulent or un sound investments. Needless and preventable losses of time and money through ill-health constitute an even heavier economic drain on the country.

Health thrift is more important than money thrift because without money we can still work and win, but without health we are helpless and advancement is practically impossible.

Fortunately, more thought constantly is being given to thrift of health. It was recently announced that the Rockefeller Foundation last year spent more than \$21,000,000 in practical and experimental medical work while within recent years it has spent \$144,000,000 for the same noble purpose.

Vacations are taken for the purpose of conserving one's health. When they are so planned and carried out as to be helpful along those lines, they are by no means a waste of time—they are, quite the contrary, a good example of thrift.

How much are your fish, Mr. Goldstein?

Eight cents a pound, Mrs. O'Brien. I'll take two of them. How much will they be?

Let's see: eight pounds—eight times eight are 64. Take them for 75 cents, Mrs. O'Brien.

Thank ye, Mr. Goldstein, I'll do that. Ye're always good to the Irish, I'll say that for ye.

Father: "How many miles to the gallon?"

Mother: "What color is the upholstery?"

Son: "How fast will she go?"

Daughter: "Has it a cigaret lighter?"

Neighbors: "How can they afford it?"

Iceland is the largest civilized country in the world without railroads.

THINGS THAT NEVER HAPPEN
 BY GENE BYRNES

SPECIAL FARM OUTLOOK REPORTS TO BE ISSUED

Special outlook reports designed to assist farmers in planning crop and livestock production programs on the basis of the prospective demand for their products will be issued during the current agricultural season by the Bureau of Agricultural Economics in Washington.

An outlook report for hogs will be issued on July 15; poultry, July 22; sheep and wool, August 5; strawberries, August 15 or earlier, prior to setting of new beds; beef cattle, August 26; early potatoes (Florida and lower Texas valley), September 1 or earlier; winter grains, including wheat, rye and southern oats and barley, September 5.

Outlook reports on truck crops will be issued from time to time, provided new information on each product now being collected by the bureau proves adequate for that purpose; on fall, winter and early spring lettuce; fall and early spring cabbage; Bermuda and Creole onions and fall and early spring tomatoes.

January 27, 1930, has been set tentatively as the date of issuance of the bureau's annual outlook report for 1930, which will deal with the production and marketing outlook for all important agricultural products at that time. Annual outlook reports and some special reports have been issued annually by the bureau for the last seven years. The issuance of the special reports in addition to the annual report is to enable farmers to adjust production programs in view of the very latest developments of the season.

Mose, who got put in jail, found his friend Sam in the next cell. "How long you in jail fo', Mose?" said Sam.

"Two weeks," replied Mose.

"What am de cha'ge?"

"No cha'ge; everything am free."

"Ah mean what has you did?"

"Done shot my wife."

"Yo'all killed yo' wife and only got two weeks, while I got six months for stealin' a chicken?"

"Dat's all—den I gits hung."

NO CHANGE IN TIME BE MADE RAIL MATTER

SANTA FE.—United States Senator Bronson Cutting Tuesday advised Chairman Hugh Williams of the state corporation commission by telegram that the interstate commerce commission has refused to alter its rule governing the usual time for the filing of briefs and arguments in such cases as the application of railroads to enter Lea county.

The Texas and Pacific and the Santa Fe have petitioned to construct steel lines into Lea county. "Trust you realize," the telegram said, "that partial cause of delay can be attributed to applications for charter, as they themselves can hasten the matter if they desire, by submitting briefs sooner and arguing the case sooner."

EDWARD STONE OPTOMETRIST

GEN. WILLIAM BOOTH FORMER SALVATION ARMY HEAD IS DEAD

HADLEY WOOD, England.—Covered with a Salvation Army banner, the body of General William Bramwell Booth lay in his pleasant suburban home here Monday. His passing Sunday night was unrecognized by any outward sign of mourning either officially or among the rank and file of the Salvation Army, which he headed so long until disposed recently.

Not a flag was lowered at the international headquarters in Queen Victoria street. "We keep our standard flying high," said a high official. "For General Booth is not dead—he has passed to glory."

But though the Army tradition does not admit loss there was in evidence everywhere among Salvationists a deep sense of personal loss that they felt at the 72 year old General's death, so quietly and suddenly Sunday night after final months of life which had been filled with the agony of ill health, distasteful conflict, and defeat.

"Bob told me I was the eighth wonder of the world."

"What did you say?"

"Told him not to let me catch him with any of the other seven."

"I hear Mr. Brown plays golf on Sundays," she remarked to her husband.

"Well, what of it?" commented the latter.

"Why I think it's dreadfully wicked."

"Wicked! It's wicked to play the kind of golf Brown does on any day of the week!"

Anxious Wife: "Able, have you done anything about that Black Hand letter?"

Able: "Oh, ain't I, through. I turned it over to my insurance company. They got \$20,000 tied up in me; let them worry."

Loose-leaf Binders, Special Rolling and Stock Forms.—The Advocate.

SEN. FLETCHER ANNOTED

Senator Duncan U. Fletcher, of Florida, has made known his irritation over Vice President Curtis' almost constant banging of the gavel to preserve order in the senate. From time immemorial senators have been in the habit of strolling about the senate chamber and holding whispered conferences. Curtis is trying to break up this practice and

restore decorum and dignity at days ago when Curtis' gavel was used to restore order to the Florida senate. "I don't see how you can not transact business in the usual way here without hammering going on."

Dear sinews and tiger used in China in preparing invalids.

The Mire of Debt

There is one certain way to get out of the mire of debt, to rid yourself of a handicap that will, sooner or later, overcome your hardest struggle to get on in the world. You must start to save a part of your earnings. Then as you accumulate a balance, clear up your debts and continue to save.

STRONG CONSERVATIVE ACCOMMODATION

THE BANG OF BURNED OUT BEARINGS YOUR MOTOR CAN ESCAPE IT

If you've ever listened to the anvil chorus under the hood when a bearing burns out, you realize the damage that poor oil can do to a motor. Replaced bearings cost real money—a great deal more, in fact, than the cost of a year's supply of good oil.

Isn't that reason enough why you should always insist upon a brand of oil which has stood the test—a brand backed up by an organization which has spent years specializing in the lubrication needs of every type of motor?

Such are the brands offered you by the Continental Oil Company. You may be sure that an oil sponsored and sold by this organization is the right oil for your car.

You protect the bearings—and your pocket-book, too—when you ask for these brands at service stations and garages.

CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

Conoco Motor Oil insures protection. It seals compression—saves gasoline—fights friction. Stands up under most intense cylinder heat. In short, does a complete lubricating job in all kinds of weather.

Ask for the grade made especially for your car.

EXTRA LIFE for your car

Attention Farmers!

We have four 80 h. p. 15 by 15 Franklin valveless second hand oil engines, all in first class condition and very serviceable for irrigation purposes. Priced to sell. We can also supply you with gas engines, if you contemplate using natural gas for pumping.

We also have all sizes of gas pipe and a full line of gas connections. Also a complete line of water well connections.

PSALM OF PRAISE

TEXT—Psalm 103:1-22.
 EN TEXT—Bless the Lord, O

RY TOPIC—A Song of Praise.
 R TOPIC—A Song of Praise.
 MEDIATE AND SENIOR TOPIC—
 Privilege of Worshipping God.
 PEOPLE AND ADULT TOPIC—
 Habit of Thankfulness.

Beautiful psalm of praise fol-
 lowing the importunate pleadings
 in time of great need. An-
 nular calls it "A Song of a Re-
 demption by the Redeemer's Side."
 It is given up to praise; not a
 supplication being found in it.
Prayer for Personal Benefits

The psalmist calls upon his soul to
 praise the Lord's holy name. Man's whole
 life is spent in praising God. Intel-
 lectually and spiritually, it is
 man's duty to adore God. Note the
 recognition by the psalmist: "Bless-
 ed is the man that doeth not
 forgetfulness of all thy benefits."
 "Blessed is the man that doeth not
 forgetfulness of all thy benefits."
 "Blessed is the man that doeth not
 forgetfulness of all thy benefits."
 "Blessed is the man that doeth not
 forgetfulness of all thy benefits."

A type of library recently intro-
 duced in rural communities is the
 country library, of which there are
 245 in the country. They are gen-
 erally adopted by popular county
 vote and are of two kinds; the
 county contracts with a city library
 or adjacent county library to give
 county service, or the county es-
 tablishes a separate library and ex-
 isting libraries are excluded from
 the county library and tax area if
 they prefer.

Makers of Roquefort cheese in
 the town of Roquefort, France,
 where almost the entire world sup-
 ply comes from, don't have to
 worry about proper temperature,
 ventilation, and humidity for cur-
 ing, as the cheese is cured in caves.
 These caves are of peculiar rock
 formation in which there are caves
 and grottoes connected with one
 another and with the outside by
 numerous channels. The tempera-
 ture and humidity of the caves re-
 main about constant the year round,
 conditions being excellent for mold
 growth and ripening of the cheese.

If it is decided to renovate the
 strawberry bed and keep it for an-
 other year, first mow the tops, par-
 ticularly if the matted row system
 is used, then clean out the bed, re-
 moving surplus plants, and culti-
 vate the soil between the rows.
 In regions where the growing sea-
 son is long, the foliage should be
 mowed and the bed renovated as
 soon as possible after fruiting.
 Some strawberry growers apply a
 small amount of fertilizer after
 renovating the bed.

Many poultry men are building
 up a good trade by selling pullets
 of from 8 to 12 weeks of age. This
 offers a profitable outlet for sur-
 plus chickens and gets the pullets
 off the range before they crowd the
 birds that are being raised for lay-
 ing stock. By the time pullets are
 8 weeks old they are past the stage
 of greatest danger and can be kept
 in colony houses or in summer
 shelters on range at low cost and
 with a minimum amount of atten-
 tion. They usually find a good
 market among farmers, backyard
 poultry keepers, and others who do
 not have brooder equipment.

Peanuts have the reputation of
 being a very satisfactory feed for
 hogs, particularly for fattening
 purposes, when fed alone or with
 mineral supplements. Recent ex-
 periments by the U. S. department
 of agriculture, however, show that
 growing pigs make much more
 profitable gains when tankage is
 included as a protein supplement
 to the peanuts. The feed cost of
 100 pounds of grain, not including
 minerals, was \$9.92 for the pigs
 fed both peanuts and tankage, and
 \$17.86 when only peanuts were fed.
 Each pound of tankage fed saved
 more than 5 pounds of peanuts, re-
 sulting in a saving of \$7.94 per
 100 pounds of grain. The tankage
 seemed to stimulate the appetite of
 the pigs, those fed tankage eating
 more peanuts than those not get-
 ting it.

**C. GODDART KILLED
 BY LIVE WIRE NEAR
 ROSWELL TUESDAY**

Clyde Goddard, aged 35 years, was
 instantly killed Friday evening about
 5 o'clock at the Orchard Camp
 ground, which he was preparing to
 open to the public at Main street
 and the Country Club road, by com-
 ing in contact with the high power
 electric line which crosses his place,
 and on the Berrendo tracts.

Just how the accident happened is
 a mystery, as no one saw the
 fatal accident. An employee heard
 him fall, and ran to his side, but it
 was plain that he was dead.

The high tension line had nearly
 decapitated him and had then ter-
 ribly burned the lower part of his
 body.

Help was at once summoned, but
 it was usable only to remove his
 body to the Dilley mortuary. The
 cause of death being so plain, Sher-
 riff Henry Thorne and Deputy Rufe
 Dunnahoo did not consider it nec-
 essary to hold an inquest.—Roswell
 Dispatch.

**OLD AGE PENSIONS SHOW
 NEED OF THRIFT**

By S. W. STRAUS, President
 American Society of Thrift

Considerable attention at this
 time is being given the subject of
 old age pensions. No one can in
 fairness say that the hand of help-
 fulness should not be extended to
 those whose years are many and
 whose possessions are few. Oppor-
 tunities for employment are not
 plentiful for such as these.

Generally speaking, those who
 have reached the afternoon of life
 must depend on charity unless in
 their younger years they have been
 able to accumulate enough to fur-
 nish a living income. While it is
 right that every humanitarian con-
 sideration should be given to our
 aged dependents these human ac-
 tivities should not bind us to the
 folly of thriftless habits during
 that period of life when we are able
 to earn and save. Even though
 society may throw out its pro-
 tecting arms to those who have ne-
 glected to provide for their old age,
 this assumed help in times of want
 does not in the slightest degree
 justify the neglect of safeguarding
 one's own future.

To shirk one's duty to one's self
 willingly in this regard is to ac-
 cept dependence as being quite as
 desirable as independence.

Every individual should rise
 above the plane simply of striving
 to protect himself against aged
 pauperism. His thrift should carry
 him to the greatest possible heights
 of usefulness and success. He
 should not be satisfied with the
 mere condition of material inde-
 pendence. Nevertheless, the very
 fact that so much attention today
 is being given to old age pensions
 shows that many of our citizens
 have neglected even to care enough
 for their own welfare to provide
 against the existencies of old age.
 Let us view with generous and
 charitable consideration current old
 age pension activities but let us
 meanwhile do all we can to encour-
 age widespread practices of thrift
 which will reduce to the minimum
 the possibility of old age de-
 pendence.

CLEAN THE GRANARY

Meal worms cause much havoc
 if they get into stores of flour or
 meal, but periodic clean-ups of re-
 fuse in mills, warehouses, and grain-
 aries will prevent their becoming
 established, says the U. S. depart-
 ment of agriculture. They are
 found in largest numbers in
 accumulations of refuse meal, grain,
 and sweepings in mills and under
 the litter of chicken houses. In
 commercial plants infested ma-
 terial can be treated with heavier-
 than-air gases or by subjecting it
 to a temperature of 130 degrees
 F. for an hour or longer. Often
 meal worms are reared and used
 as food for birds, fishes, and small
 animals.

"Don't you believe a statesman
 ought to say everything he actually
 thinks?"
 "Yes," answered Senator Sor-
 ghum. "But he ought not to be en-
 couraged to waste precious hours
 trying to say a whole lot more."
 —Washington Star.

NO CHANGE IN HOOVER CONSERVATION POLICY SAYS SECTY. WILBUR

PALO ALTO, California.—Secretary Wilbur does not contemplate any changes in the executive order of President Hoover withdrawing the public domain from oil prospecting.

The interior department head declared here yesterday that careful study of all factors in the handling of the conservation of oil convinced him there would be no change in the order of March 12 barring the further issuance of permits for oil and gas prospecting.

Secretary Wilbur, coincident with officiating at commencement exercises at Leland Stanford junior university of which he is still president, also has been studying reports of the Colorado Springs governors' conference where the Hoover order was attacked by representatives of the Rocky Mountain states. He said that nothing in the reports caused him to contemplate recommending any change in the order.

"Through affidavits," the secretary said, "the department of interior has been able to decide on equities of those who have spent money on the public lands and where such expenditures have taken place, permits are issued or extended."

(Continued from first page.)

car were considerably bruised, the afternoon program was discontinued and the motorcade continued to the Cloudcroft lodge and were received by Mr. and Mrs. M. B. Hutchins, during the entire stay at the lodge Mr. Hutchins, who is manager, spared nothing to make the members visit enjoyable, and extended courtesy privileges to the golf course where a number of the party spent the remainder of the afternoon.

At 7:30 p. m. a banquet was held in the main dining room of the lodge and the members of the tour were joined by a number of the residents of Cloudcroft, with G. R. Alexander as toastmaster, who gave the address of welcome. C. Bert Smith of Artesia made the response. Short talks were made by Mr. Hoover president of Cloudcroft Chamber of Commerce; Miss Hughes, representative of the El Paso Times Herald; and C. L. Birney president of the El Paso Chamber of Commerce and C. E. Mann and D. I. Clowe of Artesia. Immediately following the banquet, a dance was held in honor of the Artesia visitors.

Thursday morning the cars assembled in front of the Alexander Studio and several pictures of the caravan were taken by Mr. Alexander. The first stop of the second day was made at Weed, where the caravan was met by a number of the citizens of Weed and the Artesia municipal band gave several numbers. On leaving Weed a visit was made to the Artesia Sacramento camp.

Lunch was served by the kind hearted people of Pinon and from the many comments heard it is believed that the members of the Good Will Tour, to a man, voted this the best lunch ever served picnic style. The lunch consisted of barbecue, fruit salad and a bountiful supply of pies and cakes that were just a little better than mother used to make. The only disappointment of the trip was the fact that more time could not be spent at Pinon.

The motorcade left Pinon and journeyed to Dunken where they a few minutes with J. L. Kintz, and then on to Hope, where a short address was given by C. Bert Smith and the band rendered a few numbers. The motorcade arrived in Artesia at 7:00 p. m.

Iron Bases for Porch

Columns Prevent Rotting

An iron base for porch columns and newels that raises the column from slightly less than two inches to six inches off the floor, allowing air to circulate between the column and the floor, so preventing rot, is available for round and square columns. Prices are reasonable.

Permitting water to run off the floor without wetting the bottom of the column, these supports, it is claimed, will add years to the life of the columns, saving many dollars in replacement costs and improve the appearance of the porch. Water that clings about the base of columns and causes rot and decay is, through the use of these bases, passed off without causing injury. Water also is prevented from backing under and in between the turned wood base.

As it is necessary for the turned wood base to have an open center a trifle smaller than the opening in the column to ventilate the column shaft, there are no outside fastenings. Holes are provided in the center bearing for fastening the beam to the floor.

The turned wood base is first fastened to the iron base, this is then fastened in position to the floor and the column is fitted into the wood base. Before fastening the column the end should be painted, as well as the wood block upon which the column rests.

LOCALS

Miss Eleanor Clark is attending the district assembly of the Church of the Nazarene at Clovis.

Claude Eaker of Carlsbad spent yesterday visiting with his mother, Mrs. W. A. Eaker and family of the Cottonwood.

Mr. and Mrs. Young of Big Spring, Texas are visiting Mrs. Young's brothers, Herman and Troy Terry of Artesia this week.

Miss Juanita Beard of Carlsbad spent the week end here visiting Miss Oueda Atkins, daughter of Mr. and Mrs. P. S. Atkins.

Mr. and Mrs. Skiles Lively of Forest, Texas are spending a few days visiting Mrs. Lively's sister, Mrs. O. E. Nicky and Mr. Nicky.

Mrs. D. Elpper is visiting her husband Dan Elpper at Las Vegas this week. She writes that Mr. Elppers health is much improved.

G. C. Staley of Santa Fe, state geologist accompanied by his family passed through Artesia yesterday en route to the Carlsbad Caverns.

Sunday Mr. and Mrs. Finn Watson and Miss Ginn Martin and Harold Dunn drove up to Cloudcroft and enjoy a round of golf on the Cloudcroft course.

Mrs. L. O. Paddock of El Paso is spending a few days in Artesia visiting her brother Dick Attebery and family and mother, Mrs. J. E. Attebery and family.

E. H. Brettman of Wichita, Kansas, treasurer of the Big Jo Lumber Co., spent several days here this week assisting in the work of the semi-annual invoicing of the local yard stock.

Mrs. J. H. Messer underwent a serious operation for the removal of a tumor at the Sister's hospital in Carlsbad, Sunday night and according to early reports is said to be very low.

Mrs. Jake Kissinger left this afternoon for California, where she will spend a month or more visiting her son and daughter, Lee Kissinger of Ontario and Mrs. Harry Vance of Rosemead.

Ernest and Robert Ohnemus, who have been attending school in Chicago, Illinois during the past year arrived in Artesia yesterday and plan to spend the summer here with their parents, Mr. and Mrs. Frank Ohnemus.

Mrs. C. O. Brown underwent an operation for the removal of her tonsils at a Clovis hospital the first of the week. Mr. Brown who accompanied her to Clovis Sunday, returned home on the south bound passenger Tuesday.

Mrs. D. A. Abernathy and Mr. Abernathy have been enjoying a visit from Mrs. Abernathy's relatives, Albert Cook, a brother, Charley Cudd, a nephew and Mrs. Yearly, a niece, all from Perryton, Texas, who arrived Tuesday.

Mr. and Mrs. W. T. Gissler, accompanied by Mrs. Gissler's sister, Mrs. F. C. Congdon of Berkley, California, returned Saturday from a six weeks visit to their old home at Olney, Illinois. They visited friends at Olney, Newton, Bellville, Springfield and Sparta Evansville and Princeton, Indiana and Afton and Creston, Iowa.

Mr. and Mrs. B. E. Spencer left Tuesday for Kansas City, Missouri where they will spend several days visiting Mr. Spencer's parents and brother, Dick Spencer, whom Mr. Spencer has not seen for twenty-five years. From Kansas City, Mr. and Mrs. Spencer will go to Wyoming for a brief visit before returning home.

Jack McNess and sister Miss Monica McNess of Pyote, Texas arrived here Tuesday and will spend several days visiting in the A. C. Kimbrough home. Misses Evelyn Kimbrough and Monica McNess were school mates at Stanton, Texas during the past year. The young folks plan a trip to the Carlsbad Caverns before Miss McNess and brother return home.

Johnny Williams, who is attending the Wichita School of Aviation at Wichita, Kansas, writes his boy friends here that he likes the school work fine. Johnny, a former student in the Artesia High school left Artesia on June 9th to enroll for a course in aviation. His mother, Mrs. Col. Williams and brother Woodrow went with him and are making their home in Wichita while he is attending school.

With three punches James Riordan knocked out three Philadelphia policemen, and was sent to jail for three months.

Women buy nearly two-thirds of the men's neckwear sold in the United States.

HOW

WORDS HAVE UNDERGONE CHANGES IN MEANING.—The word "chapel" now applied to a place of worship, comes from the French word "chapelle" meaning a cape or cloak.

A chapel was originally a sanctuary which housed the cappa, or sacred cloak of St. Martin. When the kings of France went to war they carried St. Martin's cape with them as a standard, and it was preserved very carefully in particular towns, called for this reason "chapeles."

The word "cathedral" passed from the Greek into the Latin language, and came into ours without going through the Anglo-Saxon stage. "Kata" means "down" and "hedra" something to sit on—a seat. But the reference is not to pews or seats—the word "cathedra" means a chair, and so the seat of a bishop; seat in the widest sense.

A cathedral, originally, was different from what it is now; the Christians until the time of Constantine—over three hundred years after the birth of Christ—had no liberty to build any temple. When they spoke of churches or cathedrals, it was not of buildings, but of assemblies, and the cathedral was a spiritual court of which the bishop was chairman.

The same idea of an assembly is in the word "synagogue," from the Greek "sun," "with" and "ago"—a place of withdrawing or gathering together. Synagogue, by the way, were not heard of until just before the time of Christ.

How Human Speech Was First Brought About

Sir Richard Paget described, in a lecture at the Royal Institution of Great Britain, how human speech first came into being.

"Primitive man's rudimentary ideas and intentions were expressed by simple pantomime, mostly by his hands, but with the co-operation of his body," he said. "But all this time man was also developing his arts and crafts. His hands became more and more occupied, and he found it increasingly difficult to talk with his hands full."

"Quite unconsciously he began to use his tongue and lips instead of his hands. In Europe the more southern races, leading easier lives with more hand-leisure, have retained many of their hand gestures. The northern races, living under more rigorous conditions, have had their hands too full. The northerners, therefore, were led to gesticulate almost entirely with their tongues and lips."

How Machine Tests Hearing

An audiometer, a machine for the quantitative testing of the acuity of hearing, has been developed at St. Louis University Medical school by Dr. A. G. Pohlman, professor of anatomy. The machine makes it possible for the first time, to measure accurately the keenness of hearing of an individual. In the laboratory at the university, which is one of the best equipped research departments in the world on problems of deafness, Doctor Pohlman has set up his machine. To the layman it looks like half a dozen radios, phonographs and telephones weirdly jumbled together with their multiple batteries, microphones, receivers and records.

How to Keep Paint Fluid

Paint, putty, furnace cement, and similar materials can be kept in open cans without hardening on the surface or deteriorating, by protecting them from the air with a layer of paraffin wax.

In the case of ordinary paint, place the can or bucket on a piece of newspaper, mark round it with a pencil, and cut out a circle of paper, which is then placed on top of the paint. Then pour in melted wax to form a layer 1/4-inch thick. Paste, white lead, putty, and cement require no paper; the wax is poured directly on top of them.

How Long Elephants Live

According to Maj. W. A. Smith, the age cycle of an elephant's life is very similar to that of human beings. "A youngster," writes Major Smith in a recent number of the Atlantic Monthly, "is put to light work at sixteen and gains his full development at twenty-five, and though females may carry calves at eighteen, this is young. The animals are getting past work, at sixty-five, and although there are, I believe, instances of great life in elephants, our experience is that they seldom live beyond seventy-five."

How Putty Should Be Used

Ever have trouble with putty crumbling after it has been applied to the window sash? One way of preventing this is to paint the sash with a coat of oil before applying the putty to the window sash. This prevents the oil from being drawn from the putty into the wood before the putty has had time to set.

Europe Still Is Wild

A forest keeper of Sandricourt, near Meru, has shot down an eagle measuring more than seven feet across. Meru is about 30 miles from Paris. It was also reported recently that a wolf had been shot near Hadrian's villa, at the very gates of Rome.—Grit.

JUNE WEATHER

From June 1st to 18th, the highest temperature recorded at the local weather station was 100 while the lowest was 49 degrees, says R. W. Bruce, weather observer. Precipitation for June up to date amounted to .49 inches.

TRAPPING HOUSE FLIES MADE EASY

Logical Method of Control Is to Prevent Breeding.

(Prepared by the United States Department of Agriculture.)

While the logical method of fly control is to prevent the multiplication of these pests by proper disposal of or treatment of their breeding places, some degree of control can be maintained by the use of traps. Both the house fly and blowflies may be captured in traps, according to the entomologists of the United States Department of Agriculture, but the character of the bait and the location of the traps are important considerations in trapping the different kinds of flies.

Farmers' Bulletin 734-F, "Flytraps and Their Operation," by F. C. Bishop of the bureau of entomology of the department, gives directions for constructing a number of different kinds of traps, the same general principle being used in all these flytraps though they appear to be different. The flies are attracted into a cage through a passage, the entrance of which is large and the exit small. Once inside there is little chance that the flies will find the way out.

Light is an important factor in the success of all flytraps because flies have a tendency to go toward the light, after having been attracted beneath it by the odor of the bait or after entering a room in search of food.

It is important to use a bait suitable for the kind of flies to be caught. For house flies, a mixture of cheap cane molasses with three times as much water is one of the most effective and economical baits to use. Blowflies are more readily attracted by animal matter. Around slaughter houses, markets, and butcher shops where blowflies are troublesome, such baits as mucous membranes which form the linings of intestines of cattle or hogs are suitable.

A copy of the bulletin may be obtained from the United States Department of Agriculture, Washington, D. C.

COUNTY SCHOOL BOARD MEETS

The Eddy county school board met in a special session at Carlsbad Monday. The purpose of the meeting, it was explained, was to attempt to locate the proposed new school building in the Cottonwood district. This matter, however, was not settled. A number of Cottonwood residents attended the session.

FOUR SQUARE BRIDGE CLUB

The Four Square Bridge club met with Miss Velma Richards, yesterday afternoon. Miss Wilma Berry substituted for Mrs. J. A. Clayton Jr. Mrs. Finn Watson won high score and Miss Guinn Martin was awarded the consolation. Light refreshments were served at the close of the afternoon.

CARBON PAPER—The Advocate

HERDER'S DEATH ACCIDENT

Roswell officers, who last week from Hope, found Maximo Otero, a sheep herder, his death accidental, Max found by another herder through the heart and county officers were called to investigate.

MRS. PERRAULT GOVERNOR

Mrs. Edward Perrault, of state, was governor a last week, while Governor was attending the Lee celebration in Arizona, and Woodward, lieutenant governor at the oil conference in Springs.
