THE TWENTY-SEVEN

ARTESIA, NEW MEXICO, THURSDAY, JUNE 5, 1930.

NUMBER 25

Shell State Comes In 2500 Bbls 4004 Feet

Pay 100 Feet Higher Discovery Well Is Making 30,000,000 Gas—Maljamar Gets Gas 3,145 Feet.

The big producer in the Hobbs make a substantial addition to the production, this being No. 1-A of the Shell Oil Co. from the north line of the discovery well, the No. 1 of the Humble Oil and Gas Co. The State No. 1-A blew out at 100 feet and early estimates of production at 30,000,000 gals. The test flowed open twelve hours before it was under control. The pay of the Shell State was approximately 100 feet higher than that of the discovery well, the Humble-Bowers and others of the opinion that a well would be found, if drilling continued, which it was. The State No. 1-A is about in and would be completed as soon as the gas was available.

The well which has attracted attention is the Byers of the Midwest Oil and Refining Co. in the NE sec. 4-19-38, reaching with a hole full of gas to a depth of 3,175 feet. The Grimes No. 1 in the NE sec. 2-18-38, which developed a show of oil at 3,115 to 3,125 feet. The Grimes is said to be the most promising wells in the area in as much as it appears to be running high.

Number of tests in the Hobbs are racing for the big cases off some good oil that might have made 200 barrels wells. Owing to the practically all tests are under heavy pressure, it is estimated the production showings.

Operations made within the county. These being the Atlantic and Oil Co., No. 1 in the center of the E 1/4 NW 1/4 of the State No. 1 in the NE sec. 6-19-38. This is to be drilled by the Artesia area.

Operations made during the days or two weeks include No. 1 of the Atlantic Production Co., sec. 17-21-36 Production Co., Selman No. 1-19-38; The Midwest Co., State No. 26, SE 1/4 of the NE sec. 2-18-38.

Maljamar Oil and Gas Corp., No. 1 in the SE corner NE 1/4-17-32, developed the big gas well, estimated at five million barrels. According to the presentation the Baish No. 3 is approximately 45 feet higher well yet drilled by the

MEETING ARTESIA SACRAMENTO CAMP CO.

The meeting of the stockholders of the Artesia Sacramento Camp Co. was held at the office of the company Friday evening. All former directors were re-elected. E. A. Hannah, who resigned last year, was chosen in his stead. The personnel of the board includes L. P. C. Martin, J. S. Sharp, and Ray Bartlett.

BIRTHS — FOUR RECORDED IN MONTH OF MAY

Four births were recorded during the past month by the sub-register for the Artesia and Artesia districts. The births were: Mr. and Mrs. J. S. Sharp, son; Mr. and Mrs. J. S. Sharp, daughter; Mr. and Mrs. J. S. Sharp, son; Mr. and Mrs. J. S. Sharp, daughter.

Announcement Cards, blank or printed—The Advocate.

MDC RADIO STATION BROADCASTING DAILY PROGRAM IN CARLSBAD

The McAdoo Drug Co., of Carlsbad has recently installed a radio broadcasting station known as MDC, operating on a frequency of 850 kilo cycles. Mr. McAdoo, proprietor of the McAdoo Drug Co., who was a visitor here Tuesday said that the new station was proving very popular with Carlsbad people and communities south of Carlsbad. Owing to weather conditions, Artesia radio fans have not been able to tune in on the new station with any degree of success.

E. A. CAHOON ROSWELL HEADS SOUTHEASTERN N. M. PROTECTIVE ASSN.

The Southeastern New Mexico Water Protective Association is now a full fledged corporation and is seeking for its membership every citizen, municipality and corporation in southeastern New Mexico, according to George Frisch, director of the association from Artesia. The Artesia members of the advisory board are M. W. Evans and W. R. Hornbaker.

There is no financial requirements for membership, each applicant signing a pledge to support the purposes of the association which are to protect the water supply of the southeastern portion of the state. It is pointed out that every man and woman whether on a farm or in the city should become a member on this basis because the welfare of every individual depends directly or indirectly on preserving for southeastern New Mexico the water. Without water Artesia and other towns in the valley would only be small places, with little business, if they existed at all, as well as undesirable places in which to live.

The situation facing this section now is the diversion of water of the Bonito and Eagle creek from this water shed to the west side of the mountains by the Southern Pacific railroad. The company is now building a dam which is to cost a half million dollars, to aid in this diversion.

Directors of the association are George Frisch, C. W. Beeman of Carlsbad, E. C. Jackson, Lake Arthur, Harry Cowan, Hagerman, M. Y. Monical, Dexter, R. L. Malone and E. A. Cahoon of Roswell.

Officers were selected from the seven directors chosen at the Artesia meeting last week. E. A. Cahoon of Roswell, was made president; Ross Malone of Roswell, 1st vice-president; M. Y. Monical, of Dexter, 2nd vice-president; Claude Simpson of Roswell, secretary and J. Q. Cummins of Roswell, treasurer.

Membership cards may be signed at the Chamber of Commerce or by seeing any director or member of the advisory committee.

SPECIAL SESSION OF LEGISLATURE BACKED

SANTA FE—Another state senator and a state representative Tuesday added their endorsement to a special session of the legislature, if Governor Dillon finds it necessary to call one to complete a Boulder dam power contract with the government.

Senator Moon pointed out that that of Artesia, here on business said, "I do not believe cost to the state or the convenience of legislators should be considered by Governor Dillon in assuring that the rights of New Mexico under the Boulder dam project are fully protected."

Senator Moon pointed out that "any action taken without the approval of the legislature might at some future time, be upset by a supreme court decision."

State Representative Robert Kolahin, republican of Roswell, said, "It is an unfortunate situation but the rights of the state must be protected and it seems to me that a special session of the legislature will be necessary."

Governor Dillon is reserving his final decision pending a further report from Francis C. Wilson, interstate river commissioner of New Mexico, who is now in Washington.

780 BAGS OF WOOL SHIPPED FROM HERE DURING THE PAST MAY

Wool Is Coming In Rapidly Approximately 100,000 Pounds Stored In E. B. Bullock Warehouse—Another Wool Sale To-day.

Approximately 55,000 pounds of wool was purchased at the Bullock warehouse this morning by Charles G. Salter, Roswell wool buyer. The following sales were reported: C. R. Coffin and nephew, 113 bags; at 21 1/4 cents per pound; H. White, 40 bags at 22 1/2 cents; Chas. A. Cole, 7 bags at 21 1/2 cents; Cy Bunting, 41 bags at 21 3/4 cents; D. Swift, 3 bags at 22 cents; Dave Bunting, 45 bags at 23 cents.

During the month of May 780 bags of wool were shipped out of Artesia. This amount represented 154,277 pounds or five car loads, the largest amount to be loaded out of here during May of any previous year, according to tabulations compiled by E. B. Bullock. The following growers made shipments during the past month: T. H. Flint, 6 bags; Buck Wilburn, 62 bags; Sam Hunter, 2 bags; Armstrong and Armstrong 154 bags; Frank Duncan, 2 bags; Hiram Williams, 5 bags; Frank Watkins, 1 bag; Ed Watts, 125 bags; R. E. Hughes, 10 bags; Elmer Teel, 5 bags; John Wake, 3 bags; C. W. Hardin, 40 bags; M. S. Foster, 37 bags; L. B. Foster, 13 bags; Nat Camp, 13 bags; J. H. Welch, 3 bags; Chas. Martin, 4 bags; D. W. Carson, 7 bags; Sox Parker, 3 bags; E. A. Strang, 3 bags; D. L. Stone, 4 bags; Ben Hill, 27 bags; R. N. Teel, 40 bags; D. A. Abernathy, 3 bags; Thelbert French, 6 bags; Howell Gage, 25 bags.

The bulk of the spring clip has brought around 22 cents per pound to date. The clip is coming in rapidly for June. Approximately 100,000 pounds of wool has been stored in the Bullock warehouse ready for delivery. Growers who have stored part or all of their wool with intention of making shipment soon include Col. and Sam Williams of the Plains Cattle and Sheep Co., 50,000 pounds, Charles Coffin, 28,000 pounds; Bunting Brothers approximately 20,000 pounds. Hilary White has started delivery on 1,400 fleeces.

Despite the fact that the present wool market is far under that of a year ago, some growers will realize a fair profit from the present clip, Ed Watts of Hope being among the number. The clip will net Mr. Watts an average of \$2.00 per ewe.

Another big wool sale has been planned for this afternoon. Among the buyers present are: Ralph Vandewart of Roswell, Albert Snyder of Boston, Massachusetts, Walter Connell of Albuquerque and Mr. Maginnet of Boston, Massachusetts.

HIGHWAY DEPARTMENT IS CHANGING MARKERS ON HIGHWAY NO. 83

Motorists on the new transcontinental highway, through Artesia can now travel over 600 miles on highway 83, from La Luz near Alamogordo eastward to Fort Worth, Texas. The transcontinental route, known as the east-west highway through this section has previously been designated by several numbers. From Artesia to Cloudercroft it was No. 34.

Hobbs will be included on the new highway as soon as the highway from Lovington to Hobbs is finished. Temporarily travelers will use the present route from Lovington to Seminole, Texas. The new route however, will intersect the Texas highway two miles north of Hobbs, paralleling the Texas-New Mexico railway into Lovington.

A highway crew is now out straightening the markings on the 83 route to La Luz. The highway which has previously been marked with varying signs will now be 83 throughout.

GEORGE F. GETTY DIES

George F. Getty, 75, president of George F. Getty, Inc., one of the largest oil operators in southern California, died early Saturday at his home in Los Angeles, California.

The George F. Getty, Inc. is a well known oil operating concern of this section. Some two or three years ago, this company opened one of the most productive oil pools yet found in Eddy county.

RAINS AND HAIL DO EXTENSIVE DAMAGE IN SOUTH EDDY COUNTY

Hail Destroys 300 Acres Of Cotton On Harroun Farm And Knocks Holes In Top Of W. Collins Car On The Way From Carlsbad.

Several hundred acres of cotton was damaged by rain of cloudburst proportions, accompanied by large hail stones, which struck the Harroun farm, east of Malaga Saturday night. Hail stones broke windows and pitted the ground with holes several inches deep. Weeds and all growing vegetation was beaten into the ground by the hail. Water cut ditches in Mexican adobe homes. Estimates Monday said that 300 acres of cotton was destroyed.

The farming territory south of Carlsbad received a heavy rain and lightning interrupted telephone communication 30 miles south of Carlsbad. The rain fell here up to June 1st, amounted to 1.58 inches, according to measurements of R. W. Bruce, weather observer. The heaviest precipitation fell here Thursday evening but covered only a narrow strip of territory with Artesia in the center. A slow rain fell southeast of here for an hour at the same time. Some hail accompanied Thursday's rain, but not enough to do any damage.

While returning from Carlsbad Tuesday afternoon, Warren Collins was caught in a severe hail storm near Lakewood and had several holes knocked in the top of his car as result. This was probably the same storm that struck Carlsbad, Tuesday, from the southwest and caught a motorist east of Carlsbad, the hail breaking out all the glass and pitting the engine hood as if made by a hammer.

A rain fell in the eastern edge of the Artesia oil field on the same date and grew heavier as it neared the Cap Rock.

LARK GOLF COURSE

T. H. Whitted, who has almost finished the construction of the Lark Miniature Golf Course across the street from the McAdoo Drug Co., will manage the course during the first two days of the opening, Friday and Saturday. The course will be opened to the public Friday noon. Mr. Whitted will admit all ladies free who are accompanied by a gentleman during the opening days.

FISHING SEASON OPENS

Friday the day the fishing season opened in New Mexico proved a wet one for local anglers. Many who had planned to hike out to the river or Lake McMillan, laid aside their togs after the deluge Thursday, evening. A few braved the weather, but had little luck, only one bass was reported caught during the first day.

FIRE DESTROYS LARGE TRACT OF TIMBER IN LINCOLN NATL. FOREST

One of the largest forest fires the Lincoln forest has known in several years was brought under control on Tuesday afternoon by rangers and a large number of men and boys after the blaze had covered practically 300 acres.

The fire started Monday afternoon at 3:00 o'clock from an unknown source just west of the I. O. O. F. Lodge on Cedar Creek north of the Ruidoso. Fanned by a high wind the blaze rapidly spread to the east and north and for several hours endangered the I. O. O. F. Lodge, out buildings.

More than 40 men and boys battled the flames Tuesday which were gotten under control. The blaze was confined entirely to forest service lands. The blaze had covered an area two miles to the east of the lodge before it was brought under control.

RAILROAD TO LOVINGTON SOON

The Texas-New Mexico railroad line will be built into Lovington, county seat of Lea county by June 30th, according to word received in Santa Fe from J. L. Lancaster, president of the Texas and Pacific railroad of which the Texas-New Mexico is a branch line. Road officials hope to formally open the line into Lovington on July 4th.

AGITATION UP FOR A DIVISION OF LEA CO. INTO THREE COUNTIES

A report from Lovington says that there is a movement on foot to split the present county of Lea into three counties. While the movement is yet in the preliminary stages, the plan as outlined proposes to divide the county so that Lovington, the county seat will retain its position as county seat of the middle county. Hobbs would be the capitol of the south end of Lea, while Tatum will be the county seat of the north county. Lea county is 150 miles long and forty miles wide.

Townsite companies and the recent oil development is said to be responsible for the present move.

SUICIDE AND A DOUBLE MURDER OCCURS ON RUIDOSO SUNDAY P. M.

Dr. R. C. Farmer, age 40, Roswell veterinarian, his daughter, Betty, age 7 and son Billy, age 4, were victims of a double murder and suicide Sunday at Ruidoso. The tragedy is believed to have been the result of temporary insanity on the part of Dr. Farmer, who was in ill health. The bodies were found about a mile southwest of the cabin occupied by the Farmers by Ike Wingfield, Ruidoso storekeeper. The bodies were located at 3:30 p. m. in a dense thicket after a searching party had been organized an hour and a half earlier in the afternoon.

According to advices from Roswell, Dr. Farmer had been in ill health for several weeks and the week end party at Ruidoso was planned primarily for his benefit. Sunday morning he complained of a severe head ache and of feeling ill generally. He started from the cabin and had gone only a short distance when he called his children to him, stating that he was going to take a short walk.

A short time after the three bodies were located lying face down with the father in the middle, members of the searching party located a small glass vial, about twenty-five feet away. The bottle is believed to have contained cyanide of potassium.

Sunday night, Sheriff John Brady of Lincoln county, empaneled a coroners jury and held an inquest at the spot where the bodies were found. The verdict of the jury was suicide and homicide, although the jury did not go into an investigation of the cause of the suicide and double murder.

The bodies were brought into Roswell and shipped to Keokuk, Iowa, former home of Dr. Farmer. The deceased is survived by a mother and a widow, whom he married about a year ago.

ROUGHNECKS DEFEAT AUTOMOBILE MEN IN A GOLF TOURNAMENT

The "Roughnecks," captained by C. E. Bilstone, defeated the automobile men by a lop sided score in a miniature golf tournament held Monday evening. Thirty-two men started in the tournament and only two automobile team members reached the semi-finals, while six "Roughnecks" worked their way to this stage. Bird and Crozier defeated Bugg and Jackson while Cole and Welsh defeated Clarke and Steiwig to go into the finals. Bird and Crozier defeated Cole and Welsh in the finals by two strokes. Bird also made the low score of the evening when he shot a forty-three in the finals.

Results of the match were: First round—Crozier and Bird defeated Monschke and Russell; Bilstone and J. Terry defeated Bolton and Deane; Bugg and Jackson defeated Waldrop and Morgan; Withers and Spivey defeated Gage and Attebery; Clarke and Steiwig defeated Pearse and P. Terry; Barker and Green defeated Glover and C. Withers; Schoonmaker and Bigler defeated Truett and Jones; Welsh and Cole defeated H. Terry and Willingham.

Second round—Bird and Crozier defeated Bilstone and J. Terry; Bugg and Jackson defeated Withers and Spivey; Clarke and Steiwig defeated Barker and Green; Welsh and Cole defeated Schoonmaker and Bigler.

Semi-finals—Bird and Crozier defeated Bugg and Jackson; Welsh and Cole defeated Clarke and Steiwig.

Finals—Bird and Crozier defeated Welsh and Cole. Bugg and Jackson defeated Clarke and Steiwig for third place.

COMMISSIONER'S COURT MET LAST MONDAY

The Eddy county commissioner's court met as a board of equalization Monday at Carlsbad and heard several tax matters. Monday was the final day for the court to meet as a board of equalization.

Refinery At Dayton Sold Will Refine The Getty Oil

Stephen Lanning And Associates Purchase Plant And Are Making Repairs To Start Operations In Next 20 Or 30 Days.

Stephen Lanning and associates have purchased the Dayton Refinery at Dayton, it was learned here recently. The sale was consummated last week, but the consideration was not made known. Workmen have started repairing the plant and plans have been made to begin the refining operations within twenty to thirty days.

The Dayton Refinery was built in 1926 and operated for several months. Capacity of the plant is 1,200 barrels daily.

The refinery plant was constructed after the Illinois Pipe Line Co., had completed a line to Dayton from the Artesia field.

Mr. Lanning is a former resident of Inglewood, California, and is a son of Mr. and Mrs. S. A. Lanning of Roswell. Mr. Lanning is making preparations to move his family to Artesia soon and will assume charge of the plant as manager when it is made ready to operate, it was said here.

It is understood that the new purchasers have arranged to construct a six mile pipe line extension to the Getty pool and will refine the Getty oil for the State Highway Department. Mr. Lanning has been negotiating with the department during the past week with a view to supplying the state with a special road oil to be used on the state highway road oiling operations. All of the oil used thus far by the state has been shipped from California.

NEW PRICE CUTS ON FORD CARS ANNOUNCED

DETROIT, Michigan — The Ford Motor Company Monday announced price reductions of \$5.00 to \$25.00 on passenger cars and trucks.

A statement said: "These reductions in prices are made in accordance with the policy of lowering its prices from time to time in order to pass on to the public the benefits derived from economies in manufacture."

Up to May 20, 610,057 cars and trucks were delivered to purchasers this year, it was announced.

ADVERTISING COMMITTEE MET TUESDAY EVENING

The advertising committee of the Lovington-Cloudercroft-Las Cruces Highway Association met at the Chamber of Commerce office Tuesday evening and outlined plans for the coming advertising campaign of the new highway. Among the communities represented were: Mr. Snyder from Lovington, E. S. Callens of Alamogordo, Paul Lane, advertising man of Carlsbad, J. S. Ward, J. R. Attebery and L. N. Kremer represented Artesia.

CARROL HEARING POSTPONED

The preliminary hearing for Seth Carrol, Roswell resident, who is charged with murder in connection with the death of James C. (Dude) Speed at Roswell on May 24th, which was scheduled to have been held on May 31st has been postponed, says an announcement from Roswell. Carrol is being held in the Chaves county jail, pending his trial on first degree murder charges. Unless preliminary hearing is waived, it will be held sometime this week.

CARLSBAD FARMER IS FATALLY INJURED IN AUTOMOBILE WRECK

Cruz Zuniga, one of the best known cattle farmers of the Carlsbad project, was killed Sunday when his automobile overturned. The car ran off of Dark Canyon bridge a half mile south of Carlsbad.

Juan Valdez who was with him was not hurt. Valdez started to Carlsbad with Zuniga but the man was dead when they arrived at the doctor's office. Zuniga, who was 38 years old, and born in Mexico, is survived by his widow and one child. For the last ten years he has leased the farm of George Brantley, former mayor of Carlsbad, two and one half miles northeast of Otis.

PASSING OF THE VILLAGE

Is the time coming when the little self contained
villages of America, last vestige of our English folk
tradition, will be deserted and lost? The new census
points that way. While the drift from farm to city
is shown to be greatly retarded, the cities are swallow-
ing up the youth of the small towns. Some of the
villages have been found to be almost uninhabited, as
forlorn in their desuetude as a mining camp after the
vein is worked out. Others are peopled only by the
aged.

Long ago the slow and dusty turnpike gave way
to the motor road. The shady somnolence that mildly
echoed the crunch of buggy wheels now is shattered
by the peremptory horn signals of farmers driving thru
to the city for trade and pleasure. No one pulls up
now with a pleasant "Whoa" to chat under the elms
or exchange township gossip across a white picket
fence. Front yards, once velvety and gay with phlox
and petunia, are forsaken to the weeds. Rose vines
irked by long discipline, at last attack doors and win-
dows.

The village seems to be dying. If it dies its slay-
ers are the motor car, the motor bus, the chain store.
Economically and intellectually these may be good;
sentimentally they are a great pity. Soon, perhaps,
there will be no old residents to smoke a cob or push
a checker at the general store, no shrewd patriarchs
of the ilk of Scattergood Baines to wiggle their un-
booted toes in the sunshine and think out the problems
of troubled men in terms of homely philosophy.

If the village dies, as it seems destined to do, then
there dies with it one of the most quaint and flavorful
traditions of American life.

THE STOP SIGNS

The new stop signs recently erected on Main street
at the railroad crossing by the states highway depart-
ment, is a timely move by the department and will
save a few accidents if they are heeded. The chances
are, however, that a number of our local motorists
have never noticed that they have been erected.

While the Main street crossing is not really of the
most dangerous type, there is not clear vision at either
side.

Jones (buying new overcoat): "I can't wear this,
dear it's three sizes too big."

Wife: "Yes you can! Remember, it's got to go
over the radiator of the car in cold weather. That's
what we have to consider first."

THE TAX PROBLEM

The matter of tax adjustments has been the matter
of chief concern for the Eddy county commissioners
during the past week upon the occasion of the visit
of the state tax commission representatives, just as it
has been in other sections of the state. How to take
care of the increasing county and state expenses with-
out raising taxes is a real problem that every county
in New Mexico must deal with. This problem is made
more complicated by the fact that New Mexico almost
reached its limit in the tax rate.

Most people don't mind the increased valuations
so long as the amount of taxes remain about the same.
The primary purpose of re-valuation by the board of
appraisers was a recheck of valuations and the sub-
sequent equalization of the tax rates on all taxable
property. Much has been accomplished in Eddy coun-
ty, not only in the matter of equalizing rates, but in
adding property to the county rolls which will tend
to lower the tax rate.

The Eddy county commissioners have taken the
position that there shall be no raise in taxes this
year, even though it is necessary to use the knife on
some of the current expenses. This will be good news
to the tax payers and is generally regarded as very
commendable attitude at this time. It is assuring to
property owners to know that the amount of taxes
will remain about the same, if a lower amount is not
found to be expedient at this time.

Public schools, the main item of expense have
increased the county budget every year for the past
ten or twelve years. Some communities have reached
their taxable limit and if further increase in school
expenses are not met, the increases if any must be borne
by other communities. Thus it appears that the tax
payer's interest is not confined to the particular com-
munity in which he lives, but he may be interested
in the schools of the surrounding communities.

The attitude of the public in reference to increasing
expenses is partly reflected in a school district of
south Eddy county where a bond election was held.
There was only one vote for the proposed bonds.

MORE HOUSES

Editor Dye of the Hagerman Messenger remarks
that about the only empty building in Hagerman at
the present time is the city jail. "Civic pride should
make us hesitate to tell a decent family of creditable
visitors that they would have to sleep in the jail, if
they were to come to dwell among us," he says.

Practically the same situation exists in Artesia and
has existed for some time. Unfortunately, however, we
have not been able to remedy the condition much
Happily the Artesia city jail has been cleaned up and
given n OK by the county health officer, which would
relieve the embarrassment somewhat if we were
asked to accommodate a stranger under these conditions.
We hope that it will not be necessary to ask a visitor
to take up his abode in the jail, but that some of our
substantial citizens will see the light and provide at
least a few more dwelling houses.

With a stable condition that has existed here for
the past five or six years, there is no reason to believe
that rent property, either apartments or rent houses
should not make a reasonably good return on the
investment. If the Pecos valley is to benefit from the
oil development in both Eddy and Lea counties, which
we believe it will, the demand for rent property should
be even greater by fall, because numbers of substan-
tial oil men will want to avail themselves of our educa-
tional and civic facilities.

ONE OF THE RICHEST

The school for the deaf, dumb and blind at Alamo-
gorde, stands a chance of becoming one of the richest
state schools in the nation, for the reason that prac-
tically all of the operation on state lands in Hobbs
area, happens to be on the D. B. and B. land. Oil
development over the southeastern area, however, will
in time help all the state institutions, including the
public schools. This is one of the prime reasons why
the people of New Mexico are opposed to the federal
oil conservation policy. Nobody believes in the wanton
waste of either oil or gas. New Mexicans, however,
are opposed to any policy, which would curtail the
orderly development of the state.

Orderly development now will give many of our
state institutions a substantial endowment with which
to work. Adequate funds at the present time will mean
much to our state institutions in that they can keep the
funds at work, just as the private individual.

TWO AWARDED MASTER FARMER HONORS

J. A. Wallace, prominent farmer
of Clovis, was awarded master farmer
honors at the commencement exer-
cises at the New Mexico College
of A. and M. A., May 27.

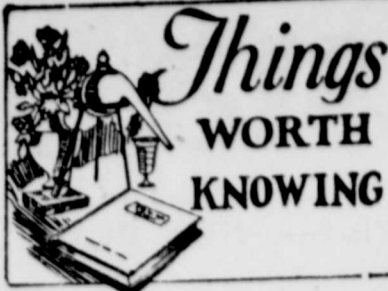

Oscar McGruder of Melrose re-
ceived the same honor but was un-
able to attend the exercises and re-
ceive the certificate given by the
college.

McGruder and Wallace were award-
ed the honor because of the out-
standing success they have made as
farm members, together with the
fact that they have cooperated splen-
didly with the college experiment
station in the farm survey work
which it has been doing during the
past five years under the direction
of Prof. A. L. Walker and Prof. L.
H. Hauter.

President H. L. Kent in announcing
the awards, said: "In selecting these
two men, recognition is made of the
fact that both men have been good
farmers and community leaders. At
tention was given also to the appear-
ance and equipment of the farms
owned by the men and to the fact
that the family of each has been
prominent in church, educational and
general community activities. Each
man was found to be a technical
financial expert in farming.

"The awards will not be made
annually, but at such times when
there are farmers who deserve simi-
lar recognition."

Typewriters for sale or rent—The
Advocate.

When the mosquitos come around
to torment us again, it may be well
to have a copy of Farmers' Bulletin
1570-F, Mosquito Remedies and Pre-
ventatives. This bulletin can be se-
cured free from the U. S. Depart-
ment of Agriculture, Washington, D.
C.

Last year 1,876,000 persons moved
from farms to cities and 1,257,000
moved from cities to farms, a move-
ment away from farms of 619,000,
according to U. S. Bureau of Agricul-
tural Economics figures. The farm
population is now the smallest in
30 years.

Many dairymen believe that cows
should be milked regularly, but tests
at the U. S. Bureau of Dairy Industry
experiment farm at Beltsville, Mary-
land, show that average to good
cows can be milked at irregular hours
without any material effect on milk
production. Apparently cows are more
sensitive to changes in feeding rou-
tine than to variation in the hours
of milking.

Although some broilers may be
fat enough to market direct from the
range, it is often profitable to fat-
ten chickens for a week or two be-
fore marketing. Be careful not to
overfeed the broilers when they are
first put on the fattening ration.
Gradually increase the quantity at
each feeding until toward the latter
part of the fattening period the birds
are getting all they will eat. The
U. S. Department of Agriculture rec-
ommends the following fattening ra-
tions: 6 parts corn meal, 3 parts
rolled oats, and 1 part middlings;
or 6 parts corn meal, 2 parts ground
oats without hulls and 2 parts mid-
dlings. "Feed these rations with milk,
using 2 pounds of milk to 1 pound
of mash.

Practically all farm animals show
a preference for alfalfa hay cut in
the early stages of growth, but this
does not mean that such hay is al-
ways the best for feeding. Some
animals, especially horses and mules,
do much better on hay cut when the
alfalfa is in full bloom, as hay cut
in the early stages is somewhat too
laxative. Hogs and poultry, however,
can not handle such coarse material
and unless the alfalfa is cut while
still young there is considerable
wastage in feeding. It should also
be borne in mind that cutting alfal-
fa while the plants are young re-
duces both the yield and the length of
life of the stand, and the grower
must take this into consideration in
comparing the money value of hay
cut young and at a more mature
stage of growth.

LAND OFFICE NETS THE STATE \$18,615,718.73 IN LAST THIRTY YEARS

New Mexico's 12,644,705.46 acres of state land earned \$18,615,718.73 during the last thirty years, Dr. Austin D. Crile, state land commissioner Saturday announced, of which \$11,460,493.95 went to the common schools of the state.

"From this showing on ever-increasing values of much of the state land," Dr. Crile said, "anyone is at liberty to speculate on what the value to the state would be if the national government cedes to New Mexico the surface rights to 16,500,000 acres of public domain left in the state."

The above figures, however, include oil royalties and sub-surface rights held on the present state land which under the present plan of the national government would not be included in a cession of public domain to the various western states, Dr. Crile pointed out.

Of the above total revenues accruing to the state \$14,750,680.58 represents income and \$3,865,038.15 represents permanent funds as of close of business on May 1, 1930.

The figures are taken from the reports made by the land office to the national committee considering the problem of ceding the public domain and have been sent to the committee which met at Washington June 2.

The land now held by the state in the name of common schools and the state institutions was received from congress in two grants. The first allotment of 5,694,705.46 acres came in the territorial grant of 1898 and the second of 6,950,000 acres was the statehood grant of 1910.

The total derived by the University of New Mexico was \$1,113,089.64; New Mexico A. & M., \$458,104.76; New Mexico Normal University \$159,720.64; New Mexico Military Institute, \$302,729.98; Silver City Normal, \$159,728.88; El Rito Normal, \$48,894.87 and the Embury Eastern Normal on which construction will start with a few months, \$38,547.86. These figures include both income and the amount in permanent funds.

The income to the common school fund was \$9,884,165.60 and its permanent fund consists of \$1,576,328.35.

Of the total acreage the state has sold 160,651.85 acres from which an average price of \$3.78 an acre was received leaving a balance of state owned land of 12,484,053.61 acres. Of this amount the state has under lease to sell 1,778,525.88 acres at \$7,289,097.13 at an average price of \$4.09. Dr. Crile estimates that about \$5,000,000 of this lease money will be paid in during the next five years.

The state acreage leased and annual rental on lands of last year showed 10,706,167.27 acres of grazing and agricultural land drawing annual rental of \$315,421.23 at an average of 3 cents an acre.

The oil and gas report shows \$5,956,689.83 acres under lease for annual rental of \$924,129.88 or an average of 16 cents an acre. In addition to the annual oil and gas rentals the state received from 1925 to May 1, 1930 royalties amounting to \$609,856.72.

From coal and other mineral leases

LEA COUNTY GAS FOR SMELTER SOON

NEW YORK — Louis C. Gates, president of the Phelps Dodge Corporation, Monday announced contracts have been signed with the Western Gas Company to obtain natural gas for a smelter at Douglas, Arizona and mines at Bisbee, Clifton and Morenci.

Mr. Gates said the Western Gas Co., will extend pipe lines from Lea county, New Mexico gas fields to Douglas, a distance of 210 miles.

The Calumet and Arizona Mining company also was said to have signed a contract with the Western Gas company for fuel to be used at Douglas and at a mine in Morenci.

the state received last year annual rentals of \$606.02 on 4,978.00 acres at an average rental of 12 cents an acre.

"It is to be remembered," Dr. Crile said, "that the state's lands are today of greater value than they were in the early days after the grants were made, and that today their value is increasing more rapidly in some sections than it has in any previous period of years. Oil development is bringing a rapidly increasing income from vast stretches of land which previously produced relatively no income at all for the state."

It is Dr. Crile's belief that the permanent funds of the 22 state institutions should acquire at least \$25,000,000 from royalties out of the state owned oil lands.

Social Activities

MISS GABLE MARRIED

Artesia friends of Miss Lois Gable may be interested in her marriage to Mr. Hubert C. Hervey of Corsicana, Texas, which occurred in the Gable home at Lubbock, Texas, Monday morning. Miss Gable was born and reared in the Artesia community and is a graduate of the Artesia high school. An account of the wedding ceremony is contained in the Daily Journal of Lubbock, of Monday, June 2 and follows:

Miss Lois Gable, daughter of Mr. and Mrs. O. R. Gable, 3003 21st St., became the bride of Mr. Hubert Calvin Hervey, of Corsicana, Texas this morning at 6:00 o'clock in the Gable home. Dr. John C. Granbery officiated for the ceremony, which was witnessed only by near relatives of the bride.

Mr. and Mrs. Hervey both are graduates of Texas Technological college. Mrs. Hervey received her A. B. degree, with a major in English, and Mr. Hervey his M. A. in business administration this year. Mr. Hervey is a former student of Southern Methodist University. While in Tech, Mr. Hervey was business manager of Tech athletics for several years, and was president of the local chapter of Phi Gamma Mu, national social science fraternity. Mrs. Hervey was a member of the Press club and of the Torreador staff. She has had a book of poems published.

FROCKED IN PINK

For the ceremony the bride wore an attractive ankle-length frock of pale pink georgette and for traveling she donned a tan tweed suit with accessories to match. The couple left by automobile for an extended trip to Corsicana, where they will visit relatives of the groom, to the Grand Canyon, Yellowstone Park and other points of interest.

COOPER—PETTY

Miss Gladys Cooper and Mr. Lois Petty were married June 1, at the home of the bride, at Cooper, New Mexico.

The bride is a sister to Katie Cooper and Johnnie Lee Cooper, former residents of Artesia. The bridegroom is a merchant at Jal, New Mexico.

The home of the bride was beautifully decorated in blue and white with many beautiful flowers.

Mr. and Mrs. Petty will make their home at Jal after they return from a three weeks honeymoon tour to Yellowstone National Park, Wyoming. They have a host of friends who join in a sincere wish for their future happiness.

BIRTHDAY PARTY

Little Andree Bulot celebrated her fifth birthday anniversary Monday afternoon with a party at which a number of her little friends were guests. Her mother, Mrs. C. A. Bulot, served the children with birthday cake and other "eats" dear to the childish heart and the kiddies had a good time playing games. The little friends present were Peggy, Albert and Dorothy Linell, Shirley Watson, Janice Mann, Billy Sue and Betty Barnett and baby Jack Clady.

CELEBRATES 8th BIRTHDAY

Landis Ed Feather, celebrated his 8th birthday yesterday afternoon with a picnic supper on the lawn of the Feather home. A birthday cake and other refreshments added to the enjoyment of the supper. After supper was served a number of games were enjoyed.

Landis was presented with a birthday present from each guest, which included Charles Mac Knoedler, John Hartsfield and James Robertson.

HAYTER—McCREE

Invitations have been received here announcing the marriage of Rev. Dwight McCree and Miss Jessie Lee Hayter, daughter of Mr. and Mrs. M. O. Hayter of Abilene, Texas, which will take place in the First Methodist church of Abilene next Monday, June 9th, at 8:30 p. m.

Dwight has many friends here, who will be glad to join in extending congratulations and best wishes.

BRIDGE BREAKFAST

Mrs. E. M. Phillips entertained the Idlewhiles Bridge club at 8:30 o'clock breakfast at its regular meeting on Tuesday. There were four substitutes, Mesdames Lewis Story, Virgil Wells and Dalton Wilson and Miss Ruth Morgan.

THE FIRST BRIDGE CLUB

The First Bridge club met at the home of Mrs. S. D. Gates last Tuesday afternoon. There were six substitutes, Mesdames Rowan, Compton, V. L. Gates, L. P. Evans, Aubrey Watson and E. M. Phillips. Delicious refreshments were served.

Social Calendar

TELEPHONE 217

FRIDAY

The Young Mothers Club will meet with Mrs. Howard Byrd at 2:30 p. m.

The Legion Auxiliary will meet at 2:30 p. m. at the home of Mrs. Albert Richards. Mrs. Alex McGonigle will be oint hostess.

TUESDAY

The Fortnightly Bridge club will meet with Mrs. J. B. Atkeson for one o'clock luncheon.

The Passtime club will meet with Mrs. Fred Brainard at 2:30 p. m.

The Second Bridge club will meet with Mrs. F. G. Hartell for one o'clock luncheon.

THURSDAY (NEXT WEEK)

Circle 2 of the Baptist W. M. U. will meet with Mrs. M. W. Evans at 2:30 p. m.

MEMORIAL SERVICES

The American Legion and Legion Auxiliary were in charge of the services last Friday, commemorating the heroic dead of our nation, who gave their lives to their country in its hours of need.

The services followed the usual custom of an address at the church. Preceding this a procession, headed by the Legion and the band formed in front of the Artesia hotel and marched to the Methodist church. There, after music by the band, congregational singing and a vocal solo upon the theme of the day, by C. A. Bulot, Mrs. Ralph Henson accompanying, the address was given by Rev. Harold Scoggins. Mr. Scoggins from his wealth of experience in the conflict over seas, touched the heart of the subject of war. After a tender tribute to the memory of the heroes, sacrificed in the late war, many of whom were comrades and friends and to the veterans of all other wars, he briefly discussed the subject of peace, disarmament and the frightful price we sometimes pay for unpreparedness, giving actual instances of the World War and citing as a notable example the Dutchy of Luxembourg, which is th prey of the surrounding military nations. While advocating peace education he noted the honorable place our county has held in all its wars and looked forward hopefully to the time when our nation need take up arms no more.

Occupying an honored place in the front row at the service were two veterans of the Spanish American War, who joined with the Legionnaires, Auxiliary members and other citizens in paying tribute to the dead at the church service and later at the cemetery, where a brief service was held at the Clarence Kepple grave. Beautiful flowers were strewn by the Auxiliary and Legion upon all the soldier graves, the number of which, unfortunately, is increasing year by year.

TRIP TO HONOLULU

Mr. and Mrs. Oscar Pearson and niece, Miss Alma Pearson, expect to leave here Sunday for California to visit friends. From there they plan to sail for Honolulu, Hawaiian Islands on a pleasure trip. They expect to be gone a month.

ROTARY PROGRAM

C. J. Dexter was welcomed into the Artesia Rotary club as its newest member Tuesday, at the regular luncheon. Judge G. U. McCrary was the only visitor. A round table discussion on the Rotary code of ethics was continued from last week. Several club members were out of town on their vacations.

ENTERTAIN AT HOTEL

Mr. and Mrs. Dick Attebery entertained at a seven o'clock dinner at the Artesia hotel Saturday evening. Their guests being Mr. and Mrs. L. O. Paddock of El Paso and Mr. and Mrs. Lloyd Simon.

LOCALS

Frank Runyan was down from the ranch at Lower Penasco yesterday.

Ted Steiwig has moved into the new Cunningham bungalow on Dallas street.

H. C. Holcomb, warden at the Lakewood dam was trading in town yesterday.

A daughter was born to Alfred Woods, southeast of town Tuesday evening, the 3rd inst.

Mrs. McCord and son, Bert Sinclair have purchased the stone cottage on South Fourth Street.

Mrs. Howell Gage expects to go to Silver City Sunday to attend summer school at the state normal.

Fletcher Collins underwent an operation at Carlsbad Monday. His mother, Mrs. Collins has been with him.

John Clarke is expected home the first of the week from New Orleans, Louisiana, where he has been attending college.

Mr. and Mrs. John Lanning have been here from Roswell this week visiting her parents, Mr. and Mrs. C. Bert Smith.

George Frisch was in Roswell yesterday morning attending a meeting of the Water Protective Association, of which he is one of the directors.

Mr. and Mrs. T. H. McCombs, who have been spending the winter here left today for their home at Vinetia, Pennsylvania. They plan to return here in the fall.

Mrs. A. R. Adams and baby, of Cleveland, Texas are visiting her grandfather, J. R. Thomas and aunt, Miss Edna Thomas, having returned here from a visit with friends in Roswell.

Mr. and Mrs. Raymond Hartell and little daughter, Marie, arrived Sunday from Shamrock, Texas to visit his parents, Mr. and Mrs. F. G. Hartell. The latter accompanied them on a trip to El Paso the first of the week.

Mr. and Mrs. G. R. Brainard have been down from Ruidoso this week, but will return there for the week end. They expect their son, Guy Reed, home from Louisiana University next Tuesday. He comes by way of El Paso and will join them there for a few days stay before they all return home.

Mrs. Dan Eipper leaves today for an extended trip east. She will visit at Wichita, Kansas, Moline, Illinois and later go on to Pennsylvania, where she will be the guest of the Parks family, former Artesians. From there she plans to go with Miss Mabel Parks on a trip to Washington, D. C., New York and Boston.

Mr. and Mrs. Charles Renfro arrived Tuesday from Albuquerque where Mrs. Renfro had been in the hospital where she underwent an operation for appendicitis. After a week's visit here, with her parents, Mr. and Mrs. Tom Spivey, they will go to California for the summer. Russell Spivey who had been with his sister and husband the past winter, came home previously and will remain here for the summer.

USE

Crisp Salads to Serve When Days Grow Warm

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company.

A CRISP vegetable salad or a dainty concoction of fruit will make even the simplest meal attractive. And on these glorious spring days, when we wish to get away entirely from thought of winter—even in the foods we serve—salads are more than ever welcome.

Wise housewives take full advantage of the numerous fresh vegetables available during the spring and summer months. Instead of continually serving hot dishes for dinner, they frequently substitute a thoroughly chilled vegetable salad, prepared with a snappy, well-seasoned French Dressing, or with Mayonnaise. Many a woman, too, finds that a dainty fruit salad often will take the place of a dessert, and thus save her long hours in a hot kitchen making puddings, pies or cakes.

Following are recipes for a number of vegetable salads which are suitable for serving either as the main dish for luncheon or supper, or in place of cooked vegetables for dinner:

Jellied Vegetable Salad:—1½ tablespoons gelatin, ¼ cup cold water, 1/3 cup boiling water, 3 tablespoons vinegar, 2 table- spoons lemon juice, 1/3 cup sugar, 1 teaspoon salt, ¼ cup sliced celery, 1 cup shredded cabbage, 1 cup cooked peas, and a few drops of onion juice. Soak gelatin in the cold water five minutes and dissolve in the boiling water. Add vinegar, lemon juice, sugar, salt, onion juice and vegetables and mix thoroughly. Turn into a ring mold which has been dipped in cold water, and

chill. Remove from mold to salad plate. Fill center with crisp lettuce, and serve with Mayonnaise Salad Dressing.

Lettuce Roll Salad:—Mash a package of soft cream cheese. Add ¼ cup cold cooked ham, finely ground, and 2 table- spoons India Relish. Spread a thin layer of this mixture on crisp lettuce leaves. Roll as you do jelly roll and put in a cool place to chill. Cut into ½ inch slices and place several slices on a crisp lettuce leaf. Serve with French Dressing, or with Mayonnaise Salad Dressing.

Tomato Sandwich Salad:—Dip small red tomatoes into scalding water for a moment so the skin will come off easily—then chill and cut in half cross- wise through the center. On one half place a generous layer of Sandwich Relish or Cream Cheese mixed with Stuffed Spanish Olives. Cover with the other half of the tomato. In the top of the tomato make a little incision with a sharp knife and insert a sprig of crisp parsley.

Chicken and Vegetable Salad:—3 cups cold diced chicken, ¼ cup cooked carrots, diced, ¼ cup cooked peas, ¼ cup cooked string beans, cut in pieces, ¼ cup cooked beets, diced, 1 tea- spoon salt, 1 teaspoon paprika, 1 table- spoon chopped parsley. Mix the chicken and vegetables and add salt, paprika and parsley. Mix well with French Dressing and let stand in ice box until thoroughly chilled. Arrange in nests of lettuce leaves and top with Mayonnaise Salad Dressing. Garnish with beets cut in fancy shapes and asparagus tips.

Macedoine Salad:—1 small cooked cauliflower, 1 cup cooked peas, 1 cup cooked carrots, cut in cubes, 1 chopped green pepper. Separate cauliflower in small pieces. Marinate each vegetable separately in French Dressing and let stand in ice box until thoroughly chilled. Arrange vege- tables on crisp lettuce leaves in separate nests, and sprinkle with chopped green pepper. Serve with French Dressing.

LEGAL ADVERTISEMENTS

Department Of The Interior, United States Land Office, Las Cruces, N. M., April 24, 1930.

Notice is hereby given that the State of New Mexico has filed in this office its Indemnity School Land Selection, List No. 9411, serial No. 041747, for the following land within Potash Reserve No. 6: NW¼SE¼ Sec. 18, T. 18-S., R. 29-E.

The purpose of this notice is to allow all persons claiming the land adversely, or desiring to show it to be mineral in character, other than potash, an opportunity to file their protests against the approval of the selection.

BY NO MEANS

"ONE OF THE STANDARD MAKES"

A really STUNNING new tire you ought to see—

New HEAVY DUTY
GOODYEAR

It gives you extra-style, extra-endurance; extra mileage, at ordinary heavy duty prices.

Lowrey-Keys Auto Co.

Phone 291

The leading tire companies are sometimes called "the big five"—their tires "the standard makes."

We think this is a grand "break" for the other four, but something of a hardship on Goodyear.

The fact is, Goodyear builds MILLIONS MORE tires than any other manufacturer. GOODYEAR GAINED THIS WORLD- LEADERSHIP BY BUILDING TIRES THAT ARE EMPHATICALLY AND CONSPICUOUSLY SUPER-STANDARD! More people ride on Goodyears because Goodyears are BETTER tires to ride on!

They are PROVABLY superior—SUPER-standard! We will show you WHY before you buy. Low 1930 prices on all types. Will you call—or shall we?

IT'S WISE TO CHOOSE A SIX

CHEVROLET'S New Service Policy wins nationwide approval

On January 1st of this year, the Chevrolet Motor Company announced a new service policy—the most liberal ever offered in connection with a low-priced automobile.

Immediately it was greeted with enthusiasm by Chevrolet buyers everywhere—because its many unusual features materially add to the economy and lasting satisfaction of Chevrolet ownership. Briefly, it provides—

—for free inspection and adjustment at the 500-mile mark, and free inspections every 1000 miles thereafter.

—for free replacement of any

material—including both parts and labor—that may prove defective, within the terms of the standard warranty.

—that this replacement will be carried out by any Chevrolet dealer in the United States—regardless of where the owner, may have traveled during the warranty period.

Backing this policy is one of the largest service organizations in the automotive industry—consisting of over 10,000

authorized Chevrolet dealer service stations in the United States alone. Come in! Learn all the other reasons why it's wise to choose a Chevrolet Six!

SIX-CYLINDER SMOOTHNESS AT LOW COST

The Carlsbad Cavern-Grand Canyon Highway Association will meet in Flagstaff, Arizona, on June 23, at 2:30 p. m. This will be an interesting and important meeting for the towns along the route. The following officials have signified their intention of being present: Governor John C. Phillips, of Arizona, and his highway officials, Governor R. C. Dillon, with W. C. Davidson, chief engineer, B. F. Kelley, district engineer and Charles Springer, chairman of the highway commission of New Mexico. The park service, department of the interior of Washington has requested that Thomas Boles, superintendent of the Carlsbad Cavern National Park and M. R. Tillotson, superintendent of the grand Canyon National Park, be in attendance.

This highway which connects two of the greatest national park attractions in the west, is possibly the most scenic seven hundred miles in the country. Leaving the Grand Canyon the most wonderful of its kind in the world, over the highway built by the park service, which connects with Highway No. 66 at Williams, with a good road to Flagstaff. Here one may visit Walnut Canyon National Monument, the home of the ancient cliff dwellers, and Marmon lake. A boulevard has been built to San Francisco Peaks. Between Flagstaff and Winslow, a short detour takes one to Meteor Crater National Monument. Then between Winslow and Holbrook, one enters the Painted Desert. Between

Holbrook and St. Johns is the Petrified Forest. From St. Johns to Springerville we pass the Arizona White Mountains, whose streams afford wonderful trout fishing. After passing Springerville, we find the Dwarfed Forest. Then crossing the Arizona line into New Mexico, we come to the town of Quemado, where one may visit the Burning Mountain and Salt Lake Craters. We now pass over the Continental Divide into the Datil National Forest, and the interesting town of Datil, through Pie Town and Augustine to Magdalena, to the ancient town of Socorro, with its old Mission Church still in a good state of preservation. An oil road leads from there to San Antonio, then to the mining town of Carthage across the Lava Beds to Carrizozo.

From Carrizozo we come to the town of Captain, where by a short detour one may visit Fort Stanton, a hospital operated by the U. S. Public Health Service for lung and throat cases of our sailors. Then to Lincoln, the seat of the Lincoln county cattle war of the early seventies and the old home of the noted outlaw, Billy the Kid. Then traveling down the Bonito Valley to Hondo, through the towns of Tinnie, Piecacho, and over the beautiful hills, to Roswell. Then by the way of the irrigated valley of the Pecos, through Artesia, past the government irrigation project, Lake McMillan and Avelon, into the city of Carlsbad, with its attractive bathing beach, and the Carlsbad Cavern National Park located twenty-eight miles to the southwest.

COTTONWOOD ITEMS

(Miss Alma Bradley, Reporter)

G. M. Norris and family drove to Las Cruces last week after their son and daughter James and Dorothy who have been attending school there. They returned Friday.

Mrs. W. S. Morgan who has been visiting her son in California is now visiting at the home of her daughter Mrs. J. I. Funk and family. Mrs. Morgan will leave today for her home in Corpus Christi.

Miss Leonora Bradley drove to Carlsbad Monday and visited with her cousins Mr. and Mrs. W. R. Anderson.

Supt. and Mrs. C. R. Bernard of Lake Arthur and son, Charles of Colorado were visiting friends on Cottonwood Sunday.

Lee Wright of Carlsbad and his mother-in-law Mrs. Nelson were the guests at the Will Waldrip home Sunday. Mr. Wright returned home but Mrs. Nelson will spend the summer at the Waldrip home.

Mr. and Mrs. A. D. Hill motored to El Paso on business last week.

W. M. Waldrip and son Harold Bill of this community and Bob Vogel of Artesia went fishing near Hope Sunday.

Mr. and Mrs. J. C. Garner and Gene Weeds were visitors in Roswell last Friday.

Mr. and Mrs. J. I. Funk were in El Paso last week on business.

HUMBLE CITY, LEA'S NEWEST TOWN

Humble City, is the newest town in Lea county. Humble City is located on the NE 1/4 sec. 35-17-37, approximately twelve miles southeast of Lovington on the Texas and New Mexico railroad and also on the new state highway from Lovington to Hobbs.

SCOUT NEWS

Minor Huffman, area Boy Scout executive has been granted leave of absence until fall in order that he may give his attention to his private camp.

H. C. Moorehead formerly of Artesia arrived in Roswell to take charge of the Boy Scout vacation program. Mr. Moorehead is an expert in troop management having had several years experience as an active scoutmaster. During the summers of 1927 and 1928 he served as assistant camp director at the Boy Scout Camp in the Sacramento mountains and is well known to the scouts of eastern New Mexico.

Mr. Moorehead has just received his masters degree at the University of New Mexico and is enthusiastic about the work he is to do this summer with the scouts of the eastern New Mexico council. Besides the regular weeking meeting of the

scouts they are to extend their activities to include other boys and girls of the community.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday services at 11:00 a. m.
Wednesday services at 7:30 p. m.
Subject of the Bible lesson for
Sunday June 8, 1930 is—"God The
Only Cause and Creator."

In this lesson the following scrip-
tural selection is found: "All na-
tions whom thou hast made shall
come and worship before thee, O
Lord, and shall glorify thy name.
For thou are great and doest won-
drous things; thou art God alone."
(Isa 8: 9-10).

Also the following citation from
Science and Health with Key to the
Scriptures, by Mary Baker Eddy,
page 286: "Physical causation was
put aside from first to last by this
original man, Jesus. He knew that
the divine principle, love, creates and
governs all that is real."
Visitors always welcome.

FIRST CHRISTIAN CHURCH
6th and Quay Streets
Ralph Waldo Emerson, Pastor

A fine children's day program was
given Sunday evening, directed by the
ladies of the church.

The pastor and his wife, with
Mrs. Alf Coll and Mrs. E. R. Con-
ner are in Roswell as delegates to
the state convention, where Mr. Em-
erson speaks during the session.

We are planning to make the pen-
tecostal anniversary which we cele-
brate Sunday, the biggest day of
the church year. Two special ser-
vices. Let's have have everyone in
the Bible school and in the church
service. There will be a special
chart sermon, "Pentecostal Power."

In the evening the address will be
given by one, G. W. Edmundson, pas-
tor of the Methodist church at
Hope. The pastor will fill Brother
Edmundson's pulpit at the same
hour.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, June 8th, 1930.
This Sunday is being celebrated
by the Christian churches as the
nineteen hundredth anniversary of
the day of Pentecost, when the Holy
Spirit descended upon the Apostolic
church.

9:30 a. m., orchestra rehearsal.
9:55 a. m. Sabbath school.
11:00 a. m. morning worship.

Instead of the regular preaching
service the Sabbath school members
will put on a special children's day
program entitled, "Worship the
King." Members of the primary
and junior departments will present
a missionary pageant entitled "One
And All For Jesus." The children's
day offering will be for the Sun-
day school missionaries of the Pres-
byterian church. V. L. Gates will
be in charge of the program.

At this hour the pastor will be
with the Hagerman Presbyterian
church taking the service for Rev.
J. A. Hadges who is a commissioner
to the general assembly in Cincin-
natti, Ohio.

7:00 p. m. Christian Endeavor,
Junior and Intermediate groups.
7:50 p. m. Song service

8:00 p. m. evening worship, ser-
mon subject—"The Anniversary of
Pentecost." The meaning of what
took place in the upper room at
Jerusalem 1900 years ago. What
exactly do we mean by the living
Christ? In what sense is He alive
today? Does He live only in the
sense that the spiritualists speak
about communicating with the dead?
Is the spirit of Christ and the Holy
Spirit one and the same?

Anthem by the junior choir and
music by the church orchestra.

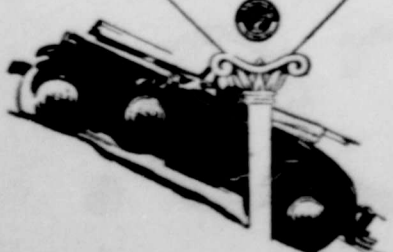

7:30 p. m. Wednesday, praise, pray-
er and Bible study and Christian
fellowship.

"To every man there comes at
times a consciousness that there
blows through all the articulations
of his body the wind of a spirit not
wholly his," so said Robert Louis
Stevenson. To have this spirit con-
tinually felt may be the privilege of
all. Take time on Sunday to come

Holy Spirit.

FIRST BAPTIST CHURCH

We had a good service with a good
attendance last Sunday morning. The
Sunday school was up some and we
had two additions to the church at
the morning service. Secretary Phil-
lips, one of the leading Sunday
school men of the south is to be
with us and speak on Sunday school
work the night of the 26th of this
month. He will no doubt be a great
blessing to our Sunday school and
we should take advantage of this
opportunity to hear him.

Sunday morning the pastor will
speak on, "The Relation of Salva-
tion and Good Works." Our choir
is doing good work. We are expect-
ing our orchestra to assist Sunday
morning. The evening service will
be evangelistic. Our young peoples'
choir is a great help to us in our
evening services. Our B. Y. P. U.
groups are beginning now at 7:00
o'clock and the evening preaching
services at 8:00 o'clock. We extend
to you a warm invitation to be in
our services.

RUIDOSO BAPTIST CAMP

Plans have been made to hold the
annual Ruidoso Baptist Encampment
at Ruidoso July 5th to 13th inclusive.
The Ruidoso Baptist encampment has
become an annual affair and is at-
tracting increasing numbers because
of its educational value and because
of vocational possibilities.

A small fee will be charged to
cover the enrollment cost. A fee of
\$2.00 will admit the visitor to every-
thing during the encampment, in-
cluding three meals per day. Cot-
tages can be rented from \$7.50 to
\$15.00 per week. All guests will be
expected to bring bedding and per-
sonal supplies.

Among the outstanding events of
the daily program will be an evan-
gelistic address each evening by Dr.
L. R. Scarborough, president of the
Southwestern Theological Seminary
at Fort Worth, Texas. Dr. W. F.
Fry of Abilene, Texas, will give a
daily lecture on the Bible. The Pecos
valley orchestra under the direction
of E. L. Harp will render a daily
program.

Leading preachers of the state

LOCALS

A. S. Foster of Lakewood was
trading in town Saturday.

"Dad" Taylor was in town Tues-
day from the ranch at Maljamar.

Mr. and Mrs. B. V. D. Arnold, of
Pinon were shopping in town Tues-
day.

A daughter was born to Mr. and
Mrs. Buster Gray, Monday evening,
June 2nd.

Mr. and Mrs. F. M. Sewell moved
into the Eipper house, which they
have taken for a year.

Mr. and Mrs. E. H. Perry left
yesterday morning for Del Rio, Texas
where they will spend a few days.

Mrs. Earl Hedgecoxe and sister, of
Roswell, were here this week, vis-
iting their sister-in-law, Mrs. Rabb.

John Day was in town yesterday
en route home to the ranch at
Queen, from a visit with relatives
at Pinon.

Mrs. D. I. Clowe and little son,
David, drove to Portales Thursday
with a brother, Roy Reddy, who was
en route from El Paso. They re-
turned Sunday after a visit with
relatives.

Mr. and Mrs. W. J. Johnson of
Loving, and Mrs. Lizzie Hogue of
Carlsbad, spent Sunday here with
Mr. and Mrs. Rude Wilcox. Mrs.
Hogue is an aunt of Mr. Wilcox.

Lawrence Wilde and family are
planning to move to Weed in a few
days. Mr. Wilde has a commission
to carry the mail and Weed is the
most convenient point for his busi-
ness.

will appear on the program from
time to time. There will also be
daily conferences on W. M. U., Sun-
day school work and B. Y. P. U.
work.

Further information regarding the
encampment can be obtained from
Dr. Julian Atwood, of Roswell, pres-
ident of the encampment or Dr. R.
Peterson of Artesia, chairman of the
publicity committee.

THE FIRST NATIONAL BANK

"THERE IS NO SUBSTITUTE FOR SAFETY"

STRONG CONSERVATIVE ACCOMMODATING

825 NEW DEALERS HAVE BEEN ADDED CHRYSLER SALES CORP. SINCE JAN.

Reflecting a movement the purpose
of which is to extend the scope of
operations of automobile dealers so
as to obtain complete coverage of
practically all automotive require-
ments, 825 new dealers have been
added by the Chrysler Sales Corpora-
tion since the first of the year.

More than 500 of these dealers
have joined Chrysler since the intro-
duction of the new low-priced six
announced in March. Sales outlets
for Chrysler cars now total 3,339,
including 193 distributors with the
remainder representing dealers and
associates.

"During the last six months, all
automobile dealers have realized that
they must extend their activities,
place their business on a more ef-
ficient basis and seek improved re-
lations with the manufacturer," said
J. W. Frazer, general sales man-
ager of the Chrysler Sales Corpora-
tion. "They are naturally inclined
to manufacturers whose products cov-
er a wide price range and are in such
demand to assure a volume of sales."

"That retail sales of Chrysler cars
have justified this dealer interest is
indicated by the fact that April
factory shipments showed a 12 per
cent increase over March of this
year, and a gain of three per cent
over April, 1929. Cars in dealers'
hands are considerably under the cor-
responding period of last year."

CHRYSLER "77"

PRICES *Smashed*

\$200 to \$350

This tremendous slash in current Chrysler "77"
prices is occasioned by the fact that sometime
in midsummer Chrysler will introduce a new
model to take the place of the present Chrysler
"77". ¶ Other Chrysler models, "70", "66"
and Chrysler Six, are being continued un-
changed. ¶ Meanwhile the supply of Chrysler
"77" models is rapidly melting away at \$200 to
\$350 off regular prices. An opportunity like this
won't last long. Bring in your present car for
appraisal. Liberal financing facilities are available.

THE OIL PRODUCTION IN U. S. SHOWS INCREASE DURING THE PAST WEEK

NEW YORK, N. Y.—The daily average gross crude oil production in the United States increased 29,950 barrels for the week ended May 31, totaling 2,609,450 barrels, according to the weekly summary of the American Petroleum Institute. The daily average production east of California was 2,004,350 barrels, an increase of 43,550 barrels.

Refineries representing 95.8 per cent of the estimated potential refining capacity, operating at 72.8 per cent of their capacity, reported daily average run of crude oil to stills as 2,566,300 barrels. Daily

average the previous week was 2,587,400 barrels for refineries representing 95.7 per cent of potential capacity operating at 73.5 per cent of their capacity.

The daily average production by states for the week included: Wyoming, 54,550 barrels, an increase of 2,950; Montana, 9,650, an increase of 300; Colorado, 4,650, an increase of 150; and New Mexico, 18,200, a decrease of 2,850.

Daily average imports of petroleum at principal ports for the week ended May 31 were 216,429 barrels compared with 318,571 barrels for the previous week and 283,179 barrels for the four weeks ended May 31.

Daily average receipts of California oil at Atlantic and Gulf coast ports for the week ended May 31 were 25,714 barrels, compared with 55,286 barrels for the previous week, and 51,500 barrels for the four weeks ended May 31.

National FORD TRUCK WEEK

June 9th to June 14th

Examine the Ford Truck in detail

IN BOTH chassis and bodies, you will see important new features that increase the strength, reliability, economy and value of all Ford truck types.

Features of the Ford Trucks

- | | |
|---|--|
| New 4-speed Transmission | Triplex Shatter-proof Glass Windshield |
| New Spiral Bevel Gear Rear Axle | Rugged Strength |
| New Larger Brakes | Reliability |
| New Heavier Front Axle and Spring | Long Life |
| New Power Take-off Mounting on Transmission | Safety |
| More than twenty Ball and Roller Bearings | Economy |
| Cantilever Rear Springs | Dual Rear Wheels Available |
| Simplicity of the Electrical, Ignition, Cooling, Lubrication and Fuel Systems | Two Gear-ratios Optional |
| | Two Wheel-bases Available |

Under conditions of actual usage, these features add greatly to the value of the Ford truck. Many of them increase its strength and reliability. Some contribute primarily to performance. Others provide a high degree of safety. All combine to make the Ford truck a sturdy, economical, haulage unit, excellently adapted to a wide variety of purposes.

....Universal Credit Company Plan of time payments offers you another Ford economy....

LOCALS

Jeff Hightower spent the week end at home.

Mrs. Irving Cox was in town from Hope Saturday.

Mr. and Mrs. R. A. Shugart returned Friday from a short business trip to Santa Fe.

Mr. and Mrs. Joe Hamann returned Friday from a two week's trip, which included visits in Missouri and Colorado.

Miss Gladys Cowan arrived home yesterday from McAllen, Texas, where she has been instructor in the high school for the past two years.

Mr. and Mrs. M. G. Schulze and family left yesterday for Waco and other east Texas points, where they plan to visit relatives for about ten days.

Miss Katherine Ragsdale is expected home tomorrow from Cincinnati, Ohio, where she has been attending the conservatory of music the past winter.

Mr. and Mrs. J. P. Moore drove to Alamogordo Saturday with his mother, Mrs. N. A. Moore, who had been here a month visiting her son and family.

Messrs. and Mesdames Albert Richards, A. C. Kimbrough and Aubrey Watson and H. S. Williams spent Sunday at the dam on the Pecos below Carlsbad.

Lester Henrichsen and family, of Hagerman, spent Sunday, with his parents, Mr. and Mrs. Fred Henrichsen. They were accompanied by Mrs. Henrichsen's sister, Miss Wamble, of Hereford, Texas.

Prof. Mehrens and family, of Vaughn, are visiting Mrs. Mehrens brother, Elzie Swift and family here and her parents, Mr. and Mrs. Dee Swift, at Hope. They will leave shortly for a trip to California.

Mr. and Mrs. R. D. Compton and family left yesterday on a fishing trip. They plan to spend a few days in the northern part of the state and then go into Colorado. Margaret Nellis accompanied them on the trip.

Mrs. Charles Ransbarger and two daughters, Nora Ellen and Mrs. Chas. McNeil, left last week for an extended visit with relatives at Sterling City, San Antonio and other Texas points. Mr. McNeil drove them as far as Midland, where they were met by a brother of Mrs. Ransbarger.

Mr. and Mrs. Arba Green attended commencement exercises at the State University at Albuquerque, on Monday evening. Their daughter, Miss Helen, was a member of the graduating class and accompanied them home. After a ten days visit she will return and spend the summer with the research department in excavating Pueblo ruins.

Mr. and Mrs. C. R. Blocker left Sunday for an extended visit to eastern points. They plan to spend some time with relatives in Ohio and proceed northward to Canada, where they will make a short stop, returning home down the Atlantic coast through the New England States and Washington, D. C.

Raymond Hills arrived Monday noon from California and Tuesday left for Camden, Maine. He was accompanied from here by his wife's sister, Mrs. John Richards, for the trip to Maine, where they will visit the parents of Mrs. Richards for a couple of months. In New York state they will pick up Mrs. Hills, who went by train accompanying a patient, whom she had been nursing in California.

Mr. and Mrs. Burris Crandall, of Enid, Oklahoma, have been visiting their parents, Mr. and Mrs. A. H. Crandall of Malamar the past week. They were accompanied by Mrs. Crandall's sister, Mr. Will Geery and small son, of El Dorado, Kansas. Billy Crandall came with his parents and will spend the summer with his grand parents. Mrs. Geery's husband was here in the early days of the oil development and supervised the laying of the first pipe line from the Illinois camp.

HARDEST PART THRIFT IN SAVING FIRST DOLLAR

By S. W. Srtaus, President of American Society for Thrift.

It is worthy of note that in the experience of thrifty men and women the hardest dollar to save is the first one. And with each succeeding dollar laid away there is less of hardship and more of joy in the experience.

Those who realize this experience realize that at last they are on the high road to success. They have learned the happiness that comes with earned possessions.

Persons who are leading thriftless lives today should bear these thoughts in mind. To deny one's self certain pleasures and indulgences is not an inviting prospect to them. They feel that they should get the maximum amount of pleasure out of life from day to day, and the thought of knocking down to a more prosaic existence does not appeal to them.

To save the first dollar, therefore is to them a task requiring much moral courage. But the second dollar is laid away with a slightly less sacrificial feeling. By the time the first hundred has made its appearance, the practice of thrift has become something of a fixed habit and as they go on accumulating more and more, the joy of possession increases.

Each of us has his duties to society, to the members of his family and to his friends, but duty to one's self is none the less important and the fulfillment of it is just as commendable.

Do not refrain from the practices of thrift because you feel that it will mean hardship and privation. The first few steps may be difficult. But after that it becomes the greatest dividend payer in happiness and peace of mind that can be found.

HERE'S A RED HOT TIP FOR MEN WITH BIG WAISTLINES

Safe Way To Get Rid of Surplus Fat and At The Same Time Gain In Vigor, Energy and Mental Activity—Feel Younger.

NEW YORK MAN TELLS CONCISE STORY TO FAT MEN

Yes, Gentlemen: Writes W. R. Daniels of Richmond Hill—"I have finished my second bottle of Kruschen Salts and have obtained the following results:"

- 1—"I have removed 3 inches from the belt line.
- 2—"Get up in the morning feeling 100 per cent.
- 3—"I am 25 per cent more active.
- 4—"My mind is clearer.
- 5—"My wind has improved 25 per cent.
- 6—"All skin eruptions have disappeared.
- 7—"My face and lips have color.
- 8—"When I go to bed I am motionless—sleep like a brick.
- 9—"Am 46 years old and feel 20 years younger."

Millions of men the world over are taking the little daily dose of Kruschen because they know that it keeps them everlastingly feeling fit and active—life really becomes a glorious adventure—well worth living.

Don't confuse Kruschen with the ordinary salts that are made for just one purpose (to act on the bowels).

Keep everlastingly before you the fact the Kruschen contains the six vital rejuvenating salts that nature put into the human body at the be-

CARLSBAD MEN GET THEIR MONEY BACK

Lawrence Tamme, state bank examiner, Friday delivered \$300 to Carlsbad purchasers of Ford stock of Germany from the Phoenix Stock exchange, representing refunds on stock sold by representatives of the exchange who operated in New Mexico in violation of state laws.

The stock was sold in Carlsbad by an agent of the company named Pettigrew, and Mr. Tamme undertook an investigation when complaints were made to his office regarding the sales.

Mr. Tamme called upon the company to refund to purchasers in this state and the checks were delivered directly to him.

COUNTY IN EASTERN NEW MEX. SHOWS A DECREASE POPULATION

Census figures for five counties in eastern New Mexico were announced Saturday by Col. H. A. Ingalls, district supervisor at Roswell. A comparative report follows:

County	1930	1920	Inc.
Roosevelt	10,516	6,548	3,968
De Baca*	2,890	3,196	306
Lea	5,877	3,543	2,332
Eddy	14,785	9,116	5,669
Curry	15,794	11,236	4,558

The census of farms shows the following:

County	1930	1920	Inc.
Roosevelt	1,484	1,084	400
De Baca*	365	477	112
Lea	566	686	120
Eddy	980	753	227
Curry*	1,172	1,174	2

*—Decrease.

These figures are complete for the five counties, with the exception of one small district in Lea county.

The population of Hobbs, boom oil town in Lea county, is given as 1,008 by census bureau officials, the other several thousands persons living in Hobbs are not being legitimate residents at this time.

NAIL PICKERS SAVE THE STATE \$267,300 TIRE REPAIRS THE PAST YEAR

SANTA FE—Nail pickers used by the State Highway Department saved motorists of New Mexico \$267,300 in tire and tube repairs during the last year is shown in an interesting editorial in the May issue of the New Mexico Highway Journal, just off the press.

Records from a number of cars selected from the department's fleet of automobiles were used in compiling this data.

The cost per mile for tire and tube repairs prior to the use of the nail pickers was \$0.00153. The records show that the present cost per mile is \$0.00097, a saving of \$0.00056.

From gasoline tax reports it is estimated the 43,400,000 gallons were used by the motorist. Presuming that the average performance of a car is eleven miles to a gallon then 477,400,000 miles of \$0.00056 per mile gives a total result saving to the motorists of \$267,300.

The operations of the electric nail pickers cover 5,500 miles of the main trunk line highway system of the state and are kept in continuous service except for times when snow and rain cause a temporary cessation of work.

Keeping the highways cleared of puncture menace not only saves the motorist money on tire and tube repairs but also saves the many costly delays and accidents caused by puncture and tire trouble.

DIET SHOULD CONTAIN SUPPLY OF VITAMIN C

Nutrition specialists urge constantly that the diet of all ages, but especially for children should contain an abundance of foods rich in vitamins. There are now recognized, however, at least six independent vitamins. As each has its own function to perform in growth and bodily well being, it is necessary to know what each one does and what foods supply it. Otherwise a diet might supply some, but not all, of the different vitamins.

For instance, attention is often called to the necessity for vitamin C in the diet. Especially good sources of this vitamin are the citrus fruits, (oranges, grapefruit and lemons), raw cabbage and turnips, and tomatoes, raw, cooked or canned. Other foods mentioned by the Bureau of Home Economics, U. S. Department of Agriculture, as supplying this vitamin are apples, bananas, young carrots, cauliflower, guavas, onions, peaches, pears, pineapple, potatoes, raspberries, spinach, sprouted legumes and string beans.

One reason for insistence on supplying these foods is that the body has only a limited capacity to store vitamin C. Replenishment must go on continually. Another reason is that this vitamin is very easily destroyed by heat and oxidation. If vegetables are cooked too long they may lose their vitamin C. All recent instruction on vegetable cookery stress quick-cooking methods. Canning often destroys vitamin C. In the case of acid foods like tomatoes, destruction is not so extensive. Tomatoes seem to retain most of their vitamin content either cooked or canned.

On diets deficient but not entirely without vitamin C, children become irritable and lacking in stamina, do not grow normally and are less resistant to infectious diseases. Shortage of vitamin C is thought to be an important factor in the prevalence of tooth decay and of much of the so-called rheumatism in children and adults. When vitamin C is entirely lacking, scurvy develops. This used to happen on long sea voyages before it was known that lemons and certain other portable foods contain vitamin C.

INSIDE INFORMATION

Keep the refrigerator well filled with ice. When there is too small a piece the temperature of the entire box rises. This not only endangers the food kept in it but causes the next piece to melt more rapidly in chilling the box to a desirable degree.

By the "hot-pack" in home canning is meant a method of filling the jars or cans, not a method of canning. If the food is put into the jars boiling hot it reaches the temperature for processing more quickly in the canner and heat penetrates better to the center of the jar. The hot pack insures a product of better texture and appearance and shortens the time of canning.

Oven-dried toast is a delicious accompaniment to soups and salads, and is an easy way of disposing of stale bread. Any sort of pieces may be oven-dried and delicately browned in a medium oven, but for passing as a special kind of bread, it is more attractive to trim the crusts off a stale loaf so the slices will be square, cut them very thin, and heat them until they are biscuit colored and slightly curled. The trimmings need not be wasted; roll them out for dried crumbs.

Have meals out of doors as often as you can during the summer time. Keep in the house the "makings" of easy picnic meals, and be ready, on a tempting day, to change the meal program at very short notice. Sandwich fillings, bottled fruit drinks, cheese, and salad dressings are all easily kept in reserve in the pantry or refrigerator. Then with butter, bread, fresh fruit and perhaps tomatoes and lettuce, and eggs or any cooked meat you have on hand, it is a matter of a few minutes only to pick up the family and the supper and drive to a shady spot where the outlook and the surroundings are pleasant. A picnic kit containing paper or enamel cups and plates, knives, forks, spoons, paper napkins and waxed paper for wrapping sandwiches or foods, will enable you to get ready for a meal out of doors in a very brief time. Instead of taking sandwiches you may like to take a steak or some bacon with you to be cooked over a wood fire.

TESTS FOR NEWER AND BETTER CROPS

Variety tests with a new and better farm crops are being conducted this year in a number of New Mexico counties under the general supervision of the county local associations, says G. R. Quesenberry of the New Mexico Agricultural College.

When a new variety appears and shows some merit, before it is widely distributed, advertised or recommended it is given a fair test by the county association under local conditions, planted alongside the older variety, and its actual performance recorded. If it stands up under the trial and proves superior it is immediately recommended and seed made available for planting purposes. These tests are attracting much attention among the local farmers and are affording a means of establishing the newer and better varieties.

Crop seed of superior merit produced by the New Mexico experiment station and the U. S. Department of Agriculture in New Mexico is made available each year to the members

of the local associations where such seed is adapted. They in turn distribute to their members and in this way every New Mexico farmer has an opportunity to obtain the best seed in the same pure and vigorous condition; pure as to variety, strong as to germination.

This means that seed distribution has made it possible for every farmer in New Mexico who plants cotton to get the highest possible quality of seed at a moderate price, the best adapted wheat seed, good grain sorghums and pure broomcorn, the latter something unheard of to many, broomcorn that will grow and produce uniform brush.

LEA COUNTY TO HAVE SECOND PRIMARY TO CHOOSE TWO OFFICERS

Lea county democrats nominated six county and district officers, in the democratic primary held Friday. A second primary will be held to determine the results in two county offices, due to the fact that no candidate for either office received a majority.

In the face of practically complete returns, S. E. Kane, sheriff was defeated by Robert Beverly of Lovington, by a vote of 605 to 234, as a candidate for the second term. W. M. Beaucamp received the nomination for state representative and G. A. Richardson of Roswell was nominated for district judge in a no contest affair.

In the contest for county clerk, B. B. Barnes received 505; Miss Lonnie Gray Heard 306; Tom Tomlinson 249. In the assessor's race, A. A. Carlton 242; J. T. Love 409; Oscar Fisher 295; George Shepard 144. Another primary will be necessary to secure nominations for both of these offices.

Miss Elizabeth Graham was nominated for superintendent of schools without opposition as was E. H. Byers for treasurer and Mrs. C. C. Kindel for probate judge.

KILLING RABBITS

L. Campbell of Albuquerque, with the U. S. Biological Survey has been at work in the Hope community for the past few days poisoning rabbits. Mr. Campbell has moved his operations to the Cottonwood community and will try to exterminate the pests in this section before moving on to the south part of the county. W. A. Wunsch of Carlsbad, came up from his home Tuesday and assisted in the beginning of the work.

Minimum of Waste in Sardine-Canning Plant

In a Down East sardine canning factory the only thing that is wasted is the odor. That may not be a dead loss, for there are persons who assert they like the smell of a sardine factory. The sardines are sold to the manufacturers of artificial pearls. The fish meal is in demand in Germany and in this country. The waste oil is collected and utilized in the production of paints and varnishes. Even the tin cuttings from the cans are baled and shipped to England for reprocessing into new sheets of the metal.

Down East sardines are sent to 95 different countries. In Java, when representatives sought a new market, the natives would have nothing to do with the "little fishes boiled in oil." Two hundred free cases were offered if the prospective customers would place a 1,000 case order. At last the deal was made. The sardines were heaped high on trucks, together with a band of native musicians, taken from bazaar to bazaar, and sold. Thus introduced, there was no further difficulty in adding Java to the list of sardine consumers.—New York Times.

Hard to Grasp Facts of the Stellar System

At first the brain reels a little in the attempt to grasp the facts of the stellar system, even explained with the lucidity and exactness of which Sir James Jeans is a master. From the vast extensions of the sky he carries us into the inmost recesses of the atom, where the electron whirls around its perpetual circuit several thousand million times every second. These numbers, says the London Spectator, are but dazle painting, and it is simpler to say that the electron travels as far in a second as our latest seaplane travels in an hour. Sir James Jeans has a happy fertility in such comparisons, and forcibly strikes the imagination when he tells us that if the carbon atom were magnified to the size of Waterloo station, its electrons would be represented by six wasps flying round in the vast vacuity. All the rest is emptiness; and so in the celestial spaces it is immense odds against any given spot being occupied. "We live in a gossamer universe; pattern, plan and design are there in abundance, but solid substance is rare."

One of Life's Tragedies

They sat gazing into each other's eyes. At last he slipped from the sofa and, kneeling at her feet, gave utterance to the sweeping thoughts that were swelling up his mind.

"Darling," he said, "sometimes I think how lucky I was to be born in the same century as you, to have met you. It seems as if Fate had intended us for each other since the beginning of time, and that at last the great design has been completed in our love. It has been Fate, my dearest, Fate."

"Aye," she replied, a little wistfully, "it was fate all right. Your fate. If I hadna tripped over your fate jumpin' on the bus . . ."

And they pondered over the tragedy of might have been.—London Tit-Bits.

Odd "Break" in Sermon

The former pastor of a Tioga church tells a good one on himself which shows the queer breaks a man can make, even in the pulpit.

The pastor was preaching on "Faith" and among his illustrations of the value of faith declared that "it was by faith that Moses discovered America."

He noticed a smile spread over the faces of the congregation, but couldn't imagine what it was about, and repeated that but for his faith Moses would never have crossed the stormy Atlantic to America.

Having observed that his wife was as much amused as anybody, he promptly asked her on reaching his home what the people were smiling at.

When she told him, he was forced to wonder at the restraint the congregation had shown.—Philadelphia Record.

HOW

FRIGHT ACTUALLY CAUSES HAIRS TO STAND ERECT.—Hair-raising by fright is a reality and not a mere figure of speech. Each hair on the bodies of mammals, including human beings, is equipped with a tiny muscle capable, when properly stimulated, of pulling the hair erect. These muscles are all connected with the sympathetic nervous system by means of nerve fibers and they can act simultaneously in response to a single stimulus. They are especially well developed on the backs of cats and certain other animals. When a cat is suddenly frightened or infuriated the hair on its back rises with an explosive-like rapidity. Perhaps this ability to make the hair stand on end was originally a protective feature in all animals, similar to the porcupine's ability to raise its quills for defense. Be that as it may, the hair muscles in the human race have been dormant so long that they will respond only to a severe fright or other extraordinary stimulus. These vestigial muscles with which the hair are provided have been cited as corroborative evidence of man's evolution from lower animals.—Pathfinder Magazine.

How Word "Capitol" and "Capitol" Should Apply

It is surprising how many people fail to distinguish between "capitol" and "capitol" when used in relation to governments. According to American usage, a capitol is a building in which the legislative branch of a government holds its sessions; a capital is the seat of an entire government and the city where the capitol is located. Thus the United States capitol where congress holds its sessions, is at Washington, D. C., which is the capital of the United States. Both words are derived from the Latin "caput," meaning head, or one of its forms. But "capitol," like French "capitole," is borrowed directly from the national temple in Rome dedicated to Jupiter. It was so called because it was at the head or top of Saturnian or Tarpeian hill. Apparently Gov. Francis Nicholson, who built a government building at Williamsburg, Va., in 1698, was the first to apply "capitol" to a statehouse in America. "Capital" as applied to the chief commercial or political city of a state or nation was originally an adjective used elliptically and meant "capital city."—Pathfinder Magazine.

How Britain Trains Migrants

Migration training centers in Great Britain to prepare young people for settlement in the Dominions have increased from three in 1922, with an annual capacity of a few hundred migrants to 15 at present, with an annual capacity of about 10,000. The aim of the centers is twofold—to test applicants and eliminate those who are unsuitable, and to provide elementary training for those who give promise of making desirable settlers.

The usual course includes the clearing of land and use of farm tools; care of stock; plowing and general cultivation, with care of horses and farm machinery; farm accounts, and English.—New York Times.

How Much Steel Is Used

Iron Trades Review has been printing a series of articles on large uses of steel in small articles. Some of the figures are here shown: Bird cages, 300 tons annually; bolts and nuts, 750,000 tons; brushes in which the bristles are held between twisted wires, 3,000 tons; bill boards, 16,000 tons; book binders, 400 tons; electric bells, 8,000 tons; camp cots, 6,000 tons; eyeglass cases, 2,000 tons; H-cense tags, 12,500 tons; hypodermic needles, 15 tons; paper clips, 1,200 tons; razor blades, 3,000 tons; telephones, 4,350 tons.

How Green Hay May Be Dried

Acting somewhat on the principle of a corn popper, a giant hay drier sheds and removes the moisture from hay in 40 seconds, during which the grass travels through 1,500 feet of pipe and is delivered in bags ready to be hauled to stores, says Popular Mechanics Magazine. Green hay is fed into the machine, cut into inch lengths and then blown through a series of insulated pipes where it is subjected to a temperature of 700 degrees.

How Army Tanks Are Tested

Traveling over rough ground at sixty-five miles an hour and going eighty miles over a smooth roadway, a highspeed tank, successor to the lumbering machines of the World war, recently was tried out by the United States army, says Popular Mechanics Magazine. Machine guns and anti-aircraft guns form part of the equipment of the speedy instrument of war.

How Dimples Are Formed

A dimple is a slight depression or dent in the surface of the human body caused by the adherence of the skin to the deeper tissues, most frequently on the cheek or chin.
