

Artesia Advocate

The Advocate answers the demand for a constructive advertising medium in the middle valley.

WENTY-SEVEN

ARTESIA, NEW MEXICO, THURSDAY, JULY 3, 1930.

NUMBER 29

No. 1-G Important Northwest Extension

Report Says Well Barrels In Two The Ohio And Also Get Good

Reports received here indicate that the State of Texas and Pacific in the SE SE sec. 30-18-38, southwest extension to the well will develop into the wells of the Hobbs area. The test yesterday showed 337 barrels flowing open and 446 per hour. The No. 1-G is approximately one of production.

The well has added water-producing production at the past week and a test of the field. The No. 1-G is in an approximately 4,225 feet, and made the first test yesterday. Estimates have put the McKinley well at 300 barrels after the test.

The most interesting well field for the moment is the No. 1-G of the Texas and Oil Co., in the SE SE sec. 30-18-37, which had a test yesterday making 4,215 feet. Should the big pay area be a mile to the north-

Humble Oil and Refining Co., in the NW sec. 30-18-37, completed at 3,250 feet. The well revealed that the well has a million feet of oil. The State of Texas and Oil Co., in the SE SE sec. 15-19-38, has a test yesterday showing 177 barrels the first test. Drilling has been suspended with the hope of getting a better pay.

It is not yet known when inspectors for the federal aid bureau will make their inspection, but this is planned for the next few days. This link now completes an all surfaced highway from Carlsbad to Roswell and eliminates the famed "Lakewood Stretch" which has for years been one of southeastern New Mexico's most unpopular parts of roadway.

The executive committee of the New Mexico Oil Men's Protective Association held a meeting at the Artesia hotel Friday evening. Transaction of routine business took up the major share of the meeting. The appointment of a federal land regulation committee consisting of H. B. Wright, of Las Cruces, Emmett Patton and J. M. Cullender, of Roswell, and laying plans for completion of the state organization work, were among the more important transactions disposed of during the session Friday.

William Dooley, secretary of the organization reports that the association has had a nice increase in membership during the past few weeks.

Max Wade, of Groom, Texas, son of Rev. W. J. Wade, a former resident of Hope, spent a short time here yesterday attending to business matters. Max is linotype operator for the Groom News.

The school budgets are now complete and the commission will clear the decks for the looming scrap with the railroads because the commission boosted their valuations \$20,000,000.

SECOND PIPE LINE IS COMPLETED INTO THE HOBBS OIL FIELD AREA

The second pipe line into the Hobbs area will be completed within the next few days, according to recent information, this being the line of the Atlantic from its Midland tank farm to Hobbs. The laying of the line has been completed, but it has not been buried its entire length and all connections have not been made.

Two ditching machines are rushing work on the Shell line from Hobbs to Wink and approximately 250 men are now employed laying the line. Engineers have completed plans for the tank farm northwest of Hobbs and have selected a site for the booster station four miles south of Hobbs, according to this information.

5,000 PEOPLE ATTEND RAILROAD CELEBRATION AT LOVINGTON SAT'DY

Approximately 5,000 people attended the ceremonies at Lovington, Saturday and witnessed the first train over the Texas-New Mexico railroad, piloted into the county seat by Governor Dillon. The train arrived at its destination about 10:00 a. m., and a speaking program was held, lasting for about an hour. A number of prominent speakers addressed the gathering. After the speaking a free barbecue was served to the visitors. Three bands, one from Lubbock, one from Dallas and one from El Paso, Texas furnished music for the occasion.

Governor Dillon and his official party paid Hobbs a visit in the afternoon. All towns along the Texas and New Mexico railway are experiencing a rapid growth as result of the oil development. The coming of the new railroad is expected to add greatly to the growth of all towns along the route and especially Lovington, the county seat. Lovington has undergone a rapid expansion for the past few months. With a rail outlet, its growth is expected to be more phenomenal during the summer and fall months.

FOURTEEN MILES OF NEW HIGHWAY OPENED FOR TRAFFIC MONDAY

The newly constructed highway between Carlsbad and Lakewood, 14 miles of one of the highest type roads in the state, was opened to travel Tuesday by the state highway department, according to B. F. Kelly, district highway engineer who was in Carlsbad, says the Current-Argus.

The 14.12 mile stretch of highway 132-A was a very costly link to build, the estimated cost at completion being \$300,000.00. Heavy fills and large bridges were factors of the large cost. Seven major bridges, of up to 420 foot length, are included. There are no spillways, but a number of box culverts are used.

It is not yet known when inspectors for the federal aid bureau will make their inspection, but this is planned for the next few days. This link now completes an all surfaced highway from Carlsbad to Roswell and eliminates the famed "Lakewood Stretch" which has for years been one of southeastern New Mexico's most unpopular parts of roadway.

STATE OIL MEN'S ASS'N HELD AN EXECUTIVE MEET HERE FRIDAY

The executive committee of the New Mexico Oil Men's Protective Association held a meeting at the Artesia hotel Friday evening. Transaction of routine business took up the major share of the meeting. The appointment of a federal land regulation committee consisting of H. B. Wright, of Las Cruces, Emmett Patton and J. M. Cullender, of Roswell, and laying plans for completion of the state organization work, were among the more important transactions disposed of during the session Friday.

William Dooley, secretary of the organization reports that the association has had a nice increase in membership during the past few weeks.

GOOD RAINS FALL ON THE CAP ROCK SECTION MONDAY AND TUESDAY

Heavy Hail In The Capitans —Tornado At Farwell Does No Damage—Light Sprinkle Falls Here Last Night.

A good rain fell over the Cap Rock section east of here Monday night according to word brought in by Will Taylor. The rain which was badly needed amounted to approximately an inch and partly filled some of the larger lakes on the Cap Rock. Some hail accompanied the shower, but did not do extensive damage. The rain fall extended east to Lovington and west about three miles beyond the Cap Rock.

A second rain fell on the Cap Rock section Tuesday evening, but did not extend as far south as Monday night's rain. A heavy hail storm fell over the Capitan section, northwest of Roswell Tuesday afternoon and was four or five inches deep in some places. A small tornado visited the Farwell, Texas section Tuesday, but did no damage. A heavy rain was reported at Clovis.

A heavy cloud coming over from the northwest last night failed to materialize much needed moisture, except a light sprinkle. A good shower, however, fell south and east of town and a small strip of territory between here and Hope received a heavy down pour. The oil field also received a light rain.

EVANGELISTIC MEETING AT THE CHURCH OF CHRIST

The evangelistic meeting at the Church of Christ, conducted by Evangelist J. Emmett Wainwright, started off in a fine way last evening with almost a full house. Rev. Wainwright is a noted Bible scholar and will present a number of interesting subjects during the revival here.

Rev. Wainwright is known to a number of the local people, having visited here a number of times before. He is a forceful speaker and will have a real message at each service. The song service starts promptly at 8:00 p. m. The public is cordially invited.

LEA GAS MAY BE USED IN INDUSTRIES SOON

Possibility of using Lea county gas as a fuel on a large scale in western New Mexico and southern Arizona industries is seen by Douglas Gordon and John Erwin, representing Brockway, Dixon, Garner and Kee of New York, a firm of geologists, says the Carlsbad Current-Argus. Lea county gas will be found very useful by mining and smelting companies and plans may be instituted later to enlarge the El Paso gas line through to El Paso.

GRASS HOPPERS NOT MENACE

Reports that grass hoppers are cleaning out the crops of this section are without foundation. An article published in a Carlsbad paper, stating that the hoppers had eaten up one field of alfalfa in the Artesia community was not substantiated in an investigation made by an Advocate reporter. Grass hoppers have made their appearance in a few fields, but so far have not damaged crops to any extent.

ED SAFFORD HERE

Ed Safford of Santa Fe, chairman of the republican state central committee was a pleasant caller at the Advocate Monday. Mr. Safford is traveling over the state with a view to starting the republican campaign soon.

WILLIAM MITCHELL HERE

William Mitchell, of New York, president of the Maljamar Oil and Gas Corp., arrived in Artesia Tuesday and will spend a few days here looking after business matters.

THE TAX COMMISSION ALLOWS \$150,000.00 FOR SCHOOLS AT HOBBS

SANTA FE—Hobbs, the new oil boom town of Lea county, will receive approximately the same school budget as Roswell. The state tax commission Tuesday allowed \$150,000 for schools at Hobbs and approved the budget for Lea county.

The school budgets are now complete and the commission will clear the decks for the looming scrap with the railroads because the commission boosted their valuations \$20,000,000.

DELEGATES TO DEMO STATE CONVENTION CHOSEN AT MEET SAT.

Ray Soliday Carlsbad Is County Chairman—Mann Named On Central Committee From This District.

Ray Soliday of Carlsbad was elected Eddy county democratic chairman to serve for two years at the Democratic Central Committee meeting held at Carlsbad Saturday afternoon. Mr. Soliday succeeds G. U. McCrary of Artesia, who has served the county organization very efficiently for the past two years. Mrs. C. R. Blocker of Artesia was elected vice-chairman and Will Robinson of Carlsbad, secretary-treasurer. Chairman Soliday was authorized to appoint a second vice-chairman, who is to be a Carlsbad woman.

Nominees of the recent primary were certified and their names ordered submitted to the county clerk. A vote of thanks was also tendered Arthur Seligman, state chairman; G. U. McCrary, county chairman, and Senator Sam Bratton for services rendered the party.

Thirty delegates to the state democratic convention were named upon nomination by committee: Mrs. J. K. Atwater, Mrs. K. I. Reed, Mrs. J. F. Joyce, Mrs. Ethel Highsmith, Mrs. H. I. Braden, Mrs. F. E. Little, Mrs. F. F. Doepp, E. K. Neumann, Robert James, Will Robinson, Ray Soliday, and J. N. Bujac of Carlsbad, Mrs. J. J. Clarke, Mrs. C. R. Blocker, Mrs. G. R. Brainard, Mrs. Abe Burnett, Mrs. John Lowry, Mrs. C. Bert Smith, Dr. C. Russell, Dr. J. J. Clarke, E. C. Higgins, Dr. R. K. Hoover, C. E. Mann and G. R. Brainard of Artesia; A. E. Chambers and Mrs. R. H. Bynum, of Hope; G. R. Howard, Loving; G. W. O'Bannon, Cottonwood; Mrs. M. C. Lee, Lakewood; P. J. McCall, Otis.

On motion of Senator Z. B. Moon, C. E. Mann was named on the State Central Committee, succeeding F. G. Hartell. Other Central Committee members named were: J. N. Bujac, Mrs. J. F. Joyce and Mrs. John Lowry.

The delegation expressed pleasure in the selection of Hon. Arthur Seligman as State Chairman and pledges him the undivided support of the party in this county in every way at all times.

The resolutions committee was composed of Noel Johnson, Herman M. Ingle, Will Robinson, P. J. McCall and F. G. Hartell.

The county central committee is composed now as follows, with the members from Queen to be appointed as no meeting was held there:

Precinct 1, Carlsbad: O. O. Stewart, J. N. Bujac, M. R. Smith, Mrs. H. I. Braden, Mrs. M. O. Grantham, Richard H. Westaway, Mrs. F. F. Doepp, Mrs. J. F. Joyce, C. F. Montgomery, Joe Johns, Mrs. J. K. Atwater, Will Robinson, Mrs. F. E. Little, John Lewis, J. W. Stagner, Ray Soliday, Mrs. Lige Merchant, T. A. Wood, Henry Samples, Howard Prater, Mrs. K. I. Reed, Mrs. J. W. Armstrong, Mrs. Ethel Highsmith.

Precinct 2, Malaga: D. R. Harkey, Frank Beeman.

Precinct 3, Hope: Noel L. Johnson, J. H. Bridgeman, C. A. Hanna, Bryant Williams, E. A. Chambers.

Precinct 4, Lakewood: John H. Angel, Mrs. M. C. Lee.

Precinct 5, Loving: W. L. Card, C. W. Beeman, K. A. McLachlin, G. R. Howard.

Precinct 6, Artesia: E. C. Higgins, Dr. J. J. Clarke, G. U. McCrary, C. E. Mann, F. G. Hartell, Jess Truett, C. Bert Smith, Dr. C. Russell, Joe Clayton, Dr. R. K. Hoover, Mrs. Abe Burnett, Mrs. J. J. Clarke, Mrs. F. G. Hartell, Mrs. C. Russell, Mrs. O. Brown.

Precinct 8, Queen: Ralph Thayer, Raymond Lewis.

Precinct 9, Otis: N. M. Tidwell, Gladys McCall, B. F. Kelly.

Precinct 10, Cottonwood: G. W. O'Bannon, Tom Terry, T. J. Stagner.

REPAIRS ON DAYTON REFINERY ARE MADE—PLANT READY TO GO

The Dayton refinery plant has been repaired and is now ready for operation. New equipment has been installed and tested. Oil trucks will supply the plant with oil from the Getty pool until an extension to the Illinois pipe line can be built, according to Stephen Lanning, manager.

The present plant force will consist of twelve men. All of the employees expect to make their home here.

FIRE DEMOLISHES THE OLD COLLINS FARM HOUSE TUESDAY NITE

The five room residence on the old Collins farm, four miles south of Artesia, burned to the ground Tuesday night about 11:00 o'clock. The origin of the fire is believed to have been from an oil stove. The flames had gained such headway when discovered that it was impossible to control them and both the house and furniture was a total loss. Jim Robertson and family, tenants on the farm lost all of their household goods and personal effects. The family barely had time to escape the flames in their night clothes.

The Collins farms was owned by Harry Carder. Mr. Carder estimates the loss on the residence alone at \$2,200. A total of \$800.00 insurance was carried on the building.

LOCAL PEOPLE OFFERED VARIOUS ATTRACTIONS OVER FOURTH OF JULY

Artesia is expected to pass a quiet Fourth tomorrow. All the business house, with the possible exception of the filling stations will be closed throughout the day in order to give the business men and their employees an opportunity to celebrate.

Local people will have a choice of three diversions. Carlsbad is celebrating with a free barbecue and rodeo and is offering plenty of entertainment for the entire day, ending in the evening with a fire works display. Lake Van at Dexter is also offering many attractions for the Fourth including two baseball games, a picnic dinner, a bathing beauty revue and a dance.

A number of Artesians will find the cool mountain breezes inviting on this occasion and will spend the Fourth in the Sacramento, either in the vicinity of Cloudercroft or at the Artesia-Sacramento camp. Several families will remain in camp during the fourth. Among the families expected in camp tomorrow are: Mr. and Mrs. C. E. Mann and family, Mr. and Mrs. Tex Henson, Mr. and Mrs. Fred Cole and family, and Mr. and Mrs. Stanley Blocker.

LEWIS BAKER CARLSBAD MAN KILLED AT GRADE CROSSING SATURDAY

Lewis Baker, age 23, of Carlsbad was killed and Miss Jewel Bullard Roswell suffered a broken hip as result of an automobile accident, which occurred seven miles south of Roswell Saturday. The automobile in which Baker, Miss Bullard and her sister, Maxine were riding turned over three or four times at the Cumberland crossing, when the driver failed to negotiate the crossing.

Baker, who was driving at a high rate of speed, when he hit the crossing was thrown from the car and was badly crushed. He died a short time after the accident in St. Mary's hospital at Roswell. Miss Maxine Bullard was only slightly injured.

James Baker, brother of the deceased, who is a rancher near Carlsbad accompanied the body to Carlsbad Sunday, where burial was made.

NO BAND CONCERT FOR NEXT TWO WEEKS

We are requested to announce that the weekly band concerts at the City Park will be discontinued for two weeks, Friday, July 4th and Friday, July 11th.

THIRTEEN BIRTHS AND FOUR DEATHS ARE RECORDED FOR JUNE

Thirteen births and four deaths were recorded by sub-register, S. E. Ferree for the Cottonwood, Atoka and Artesia districts during the month of June. The past month far outstripped any other month of the year in the number of births.

Births were recorded to Mr. and Mrs. Herman McCord Gray, daughter; Mr. and Mrs. Alfred T. Woods, daughter; Mr. and Mrs. L. Lujan, son; Mr. and Mrs. Oswald Yturalde, son; Mr. and Mrs. Burr Sanders, son; Mr. and Mrs. E. Marquez, son; Mr. and Mrs. Howard Gissler, daughter; Mr. and Mrs. Ben Lucero, son; Mr. and Mrs. Frank Gonzales, son; Mr. and Mrs. Ramon Galvan, son; Mr. and Mrs. M. Sosa, son; Mr. and Mrs. Gerald O. Smith, son; Mr. and Mrs. William Lee Boyce, daughter.

Death certificates were issued for M. Ornon, Maria Swisher, F. Bernal and Anna E. Bradley.

Staley Will Meet Oil Men At Roswell On July 8th

Will Talk Over The Drilling Problems With Hobbs Oil Men—May Discuss The Proration Of The Hobbs Oil Field.

Press reports from Santa Fe yesterday said that Glenn Staley, state geologist, had called a meeting of the oil companies operating in the Hobbs area at Roswell on July 8th, to discuss the casing program and other problems connected with the development of the Hobbs sector. Geologist Staley has authority to make arbitrary rulings, but prefers to discuss matters with the operating companies, the report said.

Oil operators here are of the opinion that the matter of proration will likely come up before the meeting and some decision may be reached that will affect the future operation of the eastern Lea area. Practically all of the Hobbs operators are willing to sign some sort of agreement that will curtail the potential production of the field, it was said here yesterday.

In a recent visit to Lea county, Governor Dillon is quoted as saying that the need of New Mexico institutions for money, means no proration of the Hobbs field for "some time to come." The statement was said to have been made by Governor Dillon after he had inspected the Hobbs field. Dr. A. D. Crile, state land commissioner is understood to concur with Governor Dillon in this view. State officials claim that revenue is too badly needed by state institutions to consider curtailment in developments of state land at this time.

Earlier it was understood that some effort would be made to reach a proration agreement with production of the field reached 100,000 barrels, which will soon be at the present rate. Capacity production of the Hobbs field is estimated to be between 50,000 and 60,000 barrels at the present time.

ORCHESTRA TO RUIDOSO

The Ruidoso Baptist Assembly orchestra, with members from El Paso, Alamogordo, Carrizozo, Artesia, Hagerman, Lake Arthur, East Grand Plains, Roswell and other New Mexico towns, will play for the Ruidoso Baptist Assembly, July 5th to 13th. The orchestra will be under the direction of Prof. E. L. Harp. Orchestra members will leave Saturday for Ruidoso.

Among those who will make the trip from here are in addition to the Bishop family who are already there, are Prof. and Mrs. Harp and son, Ernest, the Misse Vera Pior, Thelma McCaw, Hannah Belle McCaw, Jeanne Wheatley and Grace Mona and Martha Sinclair, Glenn Stone and Cyril Stone. Miss Linna McCaw will drive some of the party to the camp and Miss Katherine Side who is a house guest of Miss Pior will also be a member of the party. The Bert Muncy family will also attend the encampment.

GEOLOGICAL BUREAU TO OPEN AT HOBBS

The New Mexico geological department opened offices at Hobbs July 1, with a gauger on full-time duty in the Hobbs oil field, State Geologist Glenn Staley of Santa Fe announced recently.

Mr. Staley last week made a detailed survey of the oil field around Hobbs.

SHEEP LEVY CUT

Sheep men of the state the coming year will be allowed a one mill cut in the tax levy on sheep, which will place the figure at four mills.

The decision to cut the tax levy for sheepmen from five mills to four mills was made at the meeting of the New Mexico Sheep Sanitary Board at Albuquerque Thursday. The levy the previous year was six mills.

BURGLARS BREAK INTO SANTA FE MEAT CAR

Burglars broke into a meat car, located near the Santa Fe freight depot, Thursday night and took 629 pounds of meat and lard. No arrests had been made according to an early report, although both the Santa Fe special officer and the local officers have been working on the case.

HON. HOT DOG ARE NOT VAGITABLE

(Essay by Japanese Schoolboy, from Shanghai
China Press).

The banana are a great remarkable fruit. He are
constructed in the same architectural style as the
honorable sausage. Difference being, skin of sausage
are habitually consumed, while it are not advisable to
eat rapping of banana.

Perhaps also intrinsing the following differences
between the two objects. Banana are held aloft while
consuming, sausage are usually left in reclining posi-
tion. Banana are first green in culler, then gradual
turn yellowish. Sausage start out with indefinite cul-
ler (semble terrier cotta) and retain same hue in-
definitely. Sausage depend for creation upon human
being or stuffing machine, while banana are pritrine
product of honorable mother natur. Both article re-
semble the other in that neither have pit or colonel of
any kind.

In case of sausage both conclusions are attached
to other sausages, honorable banana on opposite hand,
are joined on one end to the stem, other termination
are entriely loose.

Finally, banana are strictly member of vagitable
kingdom, while affiliation of sausage are often unde-
cided.

ATTORNEYS OPPOSE INOCULATION PLAN

In recent days there has been much discussion
centered around the proposal to inoculate Woo Dak San,
Chinaman, who is under death sentence in the state
pen, with a germ supposed to cause trachoma. The
Chinck's attorneys object to the plan because it may
cause permanent blindness. Other's object to the pro-
posal because they don't like the idea of making a
guinea pig out of a human being, even though he is
a prisoner.

The ordinary layman does not know what chances
Woo Dak San may have to recover, should he consent
to submit to the inoculation. Neither does he know
whether or not the experiment will be successful. Whether
it is or whether it isn't, the Chinaman will be doing
no more for humanity than hundreds of other
scientists, many of whom have lost their lives in an
attempt to aid their fellow man.

We learn from a trade exchange that the printing
business ranked next to the saloon in importance in the
olden days. It was 38th and the saloon 39th. Now
the printing business ranks fifth and the saloon is
obsolete.

TOMORROW'S LEADERS

We never could figure out why some people try to
be so exclusive. The idea of being exclusive seems
to have gained in popularity somewhat as the popu-
lation has increased. Contrary to the customs of the
early settlers, some of the more exclusive never act
natural except when out on a trip. Some people are
born democratic and it never occurs to them to act
snobbish. Others believe that it is essential that they
maintain their exclusiveness.

The exclusive attitude however, may breed trouble,
for the men in overalls today may be the leaders of
tomorrow. Opportunities for advancement rasn't changed
much and so long as opportunities exist, the un-
known man or woman of today may be the captain of
industry tomorrow.

Even though it may not be an agreeable task to be
courteous to everybody, we believe that it pays big
dividends in the long run, though we view the situation
from a purely business standpoint.

It certadnly pays to be courteous.

TWO KINDS OF BULL

According to an esteemed reader, who seems to know
what he is talking about, there are two kinds of bull.
The one referred to by Webster and other authorities,
he says, is a four legged animal of the bovine species,
masculine gender, but sometimes esthetically referred
to in genteel society as, "the animal," or a "gentleman
cow." Some people think the word bull is vulgar. This
is purely the mental illusion of cracker-fed post-grad-
uate, denatured and prudish people who are what they
are not.

But there is another kind of bull and that is dif-
ferent. This kind of bull may be called a spontaneous
combustion of discordant mental gymnastics. It comes
when the brain cells do not convey the proper amount
of horse sense to the vocal carburetor and thus the
speaker fills the room with this unbalanced concoction
euphonesously labeled bull. When speakers are con-
scious of an improper mixture, or a flooding of the
conversational cylinders, or are threatened with a brain
storm, they should look about for a semi-colon or bet-
ter still a period.—Ben Franklin Witness.

DREAMS REALIZED

For a long time Lea county could boast of neither
a railroad a running stream nor a bridge. Two lack-
ing factors have materialized and with the coming of
a railroad, the dream of the old timer has been real-
ized, for a railroad has been completed to the county
seat. The Pecos valley and more especially the mid-
dle valley has much in common with Lovington and
other Lea county towns. A new transcontinental high-
way has brought the two sections of eastern New Mex-
ico closer together. We therefore hasten to congratu-
late both Lovington and Lea county on the good fortune
that come to our eastern neighbor.

MOSQUITOES

You would think that a place like the Pecos valley
should be singularly free from the pest, mosquito, yet
we are not altogether. The existence of the mosquito
during the continued dry spells used to be a source of
wonder, until the health officer explained that too many
folks have an open rain barrel. A good many towns
close by are having difficulty in controlling the mos-
quito menace on account of the rain barrels and the
stagnant pools.

Your rain barrel may be a convenience to you, but
a menace to yours and your neighbor's health. A
little oil spread over the water will do the work.

LIGHTNING CAUSES MANY FOREST FIRES

Of 41 forest fires in New Mexico in the ten days
from June 10 to 20, 10 were caused by man. Thirty-
one by lightning or other causes.

Fires which burned over less than a quarter of an
acre numbered 29 in New Mexico, and only one of the
41 burned over 10 acres in extent.

Weather as a whole was dry with high winds and
unfavorable conditions generally.

Arizona conditions for the ten-day period are prac-
tically the same as those in New Mexico, with 59 fires
for the ten-day period, nine of which were caused by
human agencies.

OIL WORKER SCALDED

R. R. Murph, Hobbs oil field work-
er was badly scalded when a boiler
backfired, hitting him in the face.
Ray Sendoff, superintendent of the
Eastland Drilling Co., was slightly
injured, according to information
reaching here. The accident occurred
on the location of the Ohio Oil Co.,
State No. 1, sec. 30-18-38. Murph
was sent by train to Fort Worth,
Texas, in an effort to save his sight.

HOBBS MAN SLUGGED

Gilbert Walthal, 26, carpenter of
Texas, was slugged and robbed of
about \$40.00, near Hobbs Thursday
and was found several hours later
in an unconscious condition. His
face was burned and his mouth gag-
ged with phone wire. He was later
revived and rushed to his home in
Coleman, Texas.

Cattle should not be fed within
24 hours before slaughter, though
they may have access to fresh water.

Range where growing poultry has
been kept continuously is likely to be
in poor condition in late summer. If
the range or yard is bare, the chick-
ens should be changed to fresh land,
or the soil should be spaded up or
cultivated. Equipment such as feed
hoppers and drinking vessels should
be moved if the space around them
has become bare. Land to be used
for raising pullets should not be fer-
tilized with poultry manure, as this
may spread worms or diseases to
the growing stock.

Many brick masons say that all
flues leak, but agricultural engineers
of the U. S. Department of Agricul-
ture assert that a flue can be made
tight and that it should be subject-
ed to a smoke test before a heater
is connected to it. Build a paper,
straw, or wood fire at the base of
the flue and when the smoke makes
a dense column, tightly block the
outlet at the top by laying a wet
blanket over it. The blanket must
be kept wet as long as it is in
place. Flues tested in this way often
reveal serious leaks into adjoining
flues, directly through the walls, or
between the linings and the walls.

"Farming is not only a business
but a mode of living," says a recent
U. S. Department of Agriculture pub-
lication, 'Rural Buildings for Busi-
ness and Social Uses,' "and in rec-
ognition of this idea modern farm
business organizations are erecting
rural buildings to relate the econom-
ic and social factors of agriculture."
This publication, which can be ob-
tained by sending to the Depart-
ment of Agriculture for Farmer's
Bulletin 1622-F, contains descrip-
tions, plans and photographs of
rural community buildings in dif-
ferent parts of the country.

Treatment with borax of hellebore
will destroy many of the stable fly
and house fly larvae that breed in
manure. Use the powdered form of
borax at the rate of 1 pound to each
16 cubic feet of manure, scattering
it over the pile and then sprinkling
it with water. Hellebore costs more
than borax. If it is used, soak one-
half pound of the material in 10 gal-
lons of water for 24 hours and use
this quantity to treat about eight
bushels of manure. Neither borax
nor hellebore will injure the fertiliz-
ing value of manure if applied in
these quantities and if not more than
15 tons of the treated manure is ap-
plied per acre.

order the liquor destroyed and, unless good cause to the contrary is shown by the owner, shall order a sale by public auction of the other property seized and the said officer making the sale, who shall be any policeman or any other officer of the City of Artesia, shall pay all liens according to their priorities which are established by intervention or otherwise at said hearing or other proceedings brought for said purpose as being bona fide and having been created without the lien owner having any notice that the vehicle was being used or was to be used for illegal transportation of intoxicating liquors, and shall pay the balance of the proceeds into the general fund of the City of Artesia in the same manner as fines are paid under the present ordinances of the City of Artesia; that if no one shall be found claiming the property so seized, the taking of same with a description thereof shall be advertised in some newspaper of general circulation in such city, having a circulation in the county, once a week for two weeks, and by hand bills posted in three public places near the place of seizure, and if no claimant shall appear within ten days after the last insertion of the advertisement in said newspaper, the property shall be sold, and the proceeds after deducting the expenses and costs shall be paid into the general fund of the City of Artesia.

Section 5. That when the words "liquor" or "liquors," or "intoxicating liquor" are used in this ordinance they shall be construed to include alcohol, brandy, whiskey, rum, gin, beer, ale, port, and wine, and in addition thereto any spirituous, vinous, malt or fermented liquor, liquids, and compounds, whether medicated, proprietary, patented, or not, and by whatever name called, containing one-half of one per cent or more alcohol by volume which are intended or sold for beverage purposes.

Section 6. That any public official, sheriff, deputy sheriff, constable, policeman, marshal, or any one serving in the capacity of a peace officer within the corporate limits of the City of Artesia, who shall vio-

late any of the provisions of this ordinance, or who having knowledge of any violation of this ordinance, shall willfully fail to give notice of said violation to said City or District Officer, whose duty it shall be to prosecute said violation of law, or who shall conspire, connive, aid, assist or abet or directly or indirectly receive or derive any profit or thing of value from any person violating any of the provisions of this ordinance, shall be guilty of a violation thereof, and upon conviction shall be punished by a fine not exceeding one hundred dollars (\$100.00), or by imprisonment in the City or County jail not exceeding six (6) months, or both such fine and imprisonment in the discretion of the Court trying said cause, and such conviction of such officer shall be a forfeiture of the office held by him, and said forfeiture shall be adjudged by the Court before whom such conviction is had.

Section 7. Should any section or portion of any section of this ordinance be found unconstitutional, the remainder shall continue in full force and effect, it being expressly declared that such is the intention.

Section 8. And that all ordinances or parts of ordinances in conflict herewith are hereby repealed and this ordinance shall be in full force and effect from and after its passage, approval, and publication, being hereby declared an emergency ordinance on the ground of urgent public need.

Passed, Approved, Adopted and Signed on this the 27th day of June, 1930.
 (SEAL) D. I. CLOWE,
 Mayor,
 Attest:
 PAUL A. OTTS, City Clerk.

OFFICIAL COUNT OF NEW MEXICO PLACED AT 418,023 PEOPLE

SANTA FE—New Mexico, twin with Arizona as the youngest state in the union, gained 58,573 population during the past ten years for a new total of 418,923.

The increase is almost half a person for each of the 122,634 square miles of this fourth largest state in area. Ten years ago New Mexico had accrued almost three persons per square mile with a total of 360,350 people, and now it has almost three and one-half persons per square mile.

Nineteen counties gained, ten lost and two were created after the 1920 census. Losses to four of the counties was accounted for principally by creation of the two new counties. The increase was found almost entirely in the southeastern and eastern slope counties and in the northwestern quarter counties.

A definite trend toward town growth in New Mexico is established in the fact that 40,119 of the 58,573 increase is found in thirty of the principal towns of the state.

Ever stop to consider why nature gave you two ears, two eyes and only one tongue.

Most carpenters will saw into a nail now and then, but he is indeed dumb who will saw through it.

Stone Eye Glass Service

Painstaking effort based upon scientific knowledge of the construction of the eye and its relative functions with respect to the rest of the human organism.

Proper examination and production of the necessary lenses to insure correct, comfortable vision—

That Constitutes Our Eye Glass Service.

Social Activities

1923 CLASS REUNION

Twelve of the members of the class of 1923, Artesia High school had a very interesting get-together Friday, June 27th. In the afternoon the group met at the home of Vesta Frisch. Individual, family, and group snapshots were taken to commemorate the occasion. Mrs. Frisch served cooling refreshments and everyone thoroughly enjoyed the afternoon.

In the evening the twelve had dinner together at the Artesia hotel. During and after the ingestion of provisions the occurrences of the last eleven years were discussed in detail. Absent members of the class would have made the meeting seem more complete but it is doubtful whether it could have been made more lively.

The members of the class present were: Misses Opal Martin, Juanita Cobble, Vesta Frisch, Mesdames Lois (Muncy) Williams, Mattie Mae (Jackson) Gissler, Lois (Hnulik) Kiddy, Nellie (Jonas) Walters, Margaret (Feemster) Ellis, Zanaida (Mann) Cole, Herma (Welsh) Mead, and Roy Spivey and Ed Welsh. Three others: Phyllis (Polk) Williams, Irene (Syferd) Arnold, and Bertha (Shattuck) Hall, reside near Artesia but were unable to be present. The remainder of the class (originally 27) is pretty well scattered over the country.

While no definite plans were made for future meetings, it was generally agreed that these should be held frequently enough to preserve the old feeling of class unity.

STAGNER FAMILY REUNION

Mr. and Mrs. T. J. Stagner have been enjoying a visit with their children from a distance. Mr. and Mrs. Bruce Dickson, (Bethel Jean Stagner) and children, have been here from Phoenix, Arizona for a fortnight, visiting her parents and last week, Mrs. Rex Ragsdale was here all week from El Paso. Several days last week they all spent in Carlsbad visiting Mrs. Will Ed Carter and family and Jim Stagner and family. Last Saturday Mr. Ragsdale drove over from El Paso and joined the party and was present for the big family dinner at the Stagner home on the Lawrence ranch on Sunday. The Ragsdales returned home Sunday evening and the Dicksons left Tuesday for the mountains, near Prescott, Arizona, where they have a summer cabin.

MR. AND MRS. BOWMAN ENTERTAIN AT DINNER

Mr. and Mrs. J. E. Bowman served a dinner Sunday honoring the visit of their granddaughter, Mrs. L. A. Harris and Mr. Harris of Indianapolis, Indiana, who have been visiting relatives and friends here for the past fortnight. Among the guests of Mr. and Mrs. Bowman on this occasion were Mr. and Mrs. Roy Bowman and family, Mrs. E. A. Bowman and children, Mrs. S. P. Wilburn and daughter Joy Alice.

DINNER PARTY

Mr. and Mrs. R. G. Knoedler were hosts at a dinner party Sunday evening, honoring the house guests of Mrs. Laura Welsh. The dinner was in three courses and was served at 5:15 o'clock. Sweet peas centered the dining tables at which covers were laid for Mrs. Welsh, Dr. and Mrs. Edward Welsh, of Madison, Wisconsin, Mr. and Mrs. William H. Mead, Jr., of Youngstown, Ohio, Mrs. William H. Mead, Sr., and Miss Kelly of Papaskala, Ohio, Judge and Mrs. J. H. Jackson, and the hosts.

SUNSHINE CLASS

The monthly meeting of the Sunshine class was held at the home of Mrs. Jim Berry last Thursday, with an all-day session and a covered dish luncheon at noon. There was no program and business and a social time adequately filled the time. The class has arranged to take over the miniature golf course on Main street next Wednesday afternoon and evening, the proceeds to be applied toward their conference claims.

DINNER PARTY

Mr. and Mrs. C. Bert Smith entertained at seven o'clock dinner on last Thursday evening, their guests being Mrs. Laura Welsh, Dr. Edward Welsh and wife, of Madison, Wisconsin, Mr. and Mrs. Wm. Meade, of Youngstown, Ohio and Mrs. John Lanning of Roswell.

SIX O'CLOCK DINNER

Mr. and Mrs. S. W. Gilbert were hosts at a three course six o'clock dinner last evening. Covers were laid for John Yates and sons, Joe and Tyre, and Harry Reid, all of Missouri, Martin Yates and son, Harvey, and the hosts.

Social Calendar

TELEPHONE 217

MONDAY

The Library Board will meet at the Library at 3:00 p. m.

TUESDAY

The Passtime Bridge club will meet with Mrs. W. J. Haskins in the Phillips Petroleum Co., camp at 2:30 p. m.

The Fortnightly Bridge club will meet with Mrs. Fred Cole. One o'clock luncheon.

THURSDAY (NEXT WEEK)

Circle 2 of the Baptist W. M. U. will meet with Mrs. Ben Wilson at 2:30 p. m.

The Methodist Missionary Society will meet at the church at 2:30 p. m. Business meeting.

The Christian Ladies' Association will hold its monthly missionary meeting at the home of Mrs. Ed Conner at 2:30 p. m.

ANNUAL TRI-STATE PICNIC

The annual event for Arizona, New Mexico and Nevada folks, resident or visiting in California, is the picnic reunion held in Bixby Park, Long Beach, each summer. This year it will be Wednesday, July 16th. It will also be the time when the special excursions from these states will be here and hundreds of tourists present. Meet these tourist friends.

All the picnic attractions will be staged with program, basket dinners, county headquarters. A splendid program will be given after two o'clock including the famous Utica Jubilee Quartet, colored boys from down in Old Mississippi.

DINNER PARTY

Several out of town visitors were honored at a six o'clock dinner at which Judge and Mrs. J. H. Jackson were hosts on Tuesday evening. The dinner was in three courses and was served at a dining table centered with attractive garden flowers. Little Miss Avis Clowe assisted in serving. The dinner party included Dr. and Mrs. Edward Welsh, of Madison, Wisconsin, Mr. and Mrs. Wm. Mead, of Youngstown, Ohio, Mrs. Wm. Mead, Sr., and Miss Kelly of Papaskala, Ohio, Miss Reva Knoedler, of Blandinsville, Illinois, Mrs. Laura Welsh and Mr. and Mrs. R. G. Knoedler and children.

BIRTHDAY PARTY

Little Dorothy Linell celebrated her fourth birthday anniversary last Wednesday afternoon with a lawn party at her home. About a dozen of her little friends were there to enjoy the childhood games and the ice cream, cake and other good things served by her mother, Mrs. William Linell. The children present were Bettyne Lanning, Wanda Story, Lewis Story, Bobby Feather, Billy Feather, Andree and Barbara Bulot, Christine Anderson, Bobby Gates and Peggy, Albert and little Dorothy Linell.

GOLF AND DANCING PARTY

Wallace Gates and Richard Wheatley were host at a golf and dancing party last Tuesday evening, honoring their cousin, Donald Withington, of Tama, Iowa. The young people met at the McLean miniature golf course on Quay street and choosing partners played one round of golf. The remainder of the party occurred at the Gates home, where the young people spent a few hours delightfully in dancing. Punch was served during the evening and light refreshments at a late hour. There were about twenty young people present.

SHOWER

After the close of Rebekah lodge last Monday night the organization was transformed into a social meeting honoring a member, who is a recent bride, Mrs. A. L. Kyte (Irma Woolridge). A miscellaneous shower of beautiful and useful articles was the leading feature, and combined with a social time during which the noble grand, Mrs. A. C. Kimbrough, served lollypops to the company, to make an interesting evening.

SUNDAY SCHOOL CLASS ENJOYS OUTING AT OASIS

Mrs. Rex Wheatley's Sunday school class enjoyed a swimming party at the Oasis yesterday afternoon. Refreshments of lemonade and cookies were served after the swim. Those present were Peggy Linell, Edith Sinclair, Earl Bowman, Ethel Mae Bowman, Wayne Truett, Helen Meredith Gates, Joan Wheatley and little Miss Barbara Wheatley.

MISS DORIS DETER

Head of violin section, Pecos Valley Orchestra, formerly head of the Brazillian Trio, well known radio entertainers, will teach violin in Roswell, Artesia, Carlsbad, Hagerman and Lake Arthur, beginning next school term.

MOUNTAIN TRIP

Mrs. Laura Welsh and house party made a trip to Mayhill, Clouderoft and Ruidoso Monday. Dr. Edward Welsh and family drove up to Mayhill Sunday evening and were the guest of his old school friend, Jim Jackson and wife, until Monday morning, when the rest of the party arrived and they continued the trip around the circle with them.

SWIMMING PARTY

The Intermediate Senior Christian Endeavor had a swimming party last evening at the Oasis. After which the young folks had super and games were played. Those present were: Thelma and Edwin McCaw, Wallace and John Gates, Grace and Mona Sinclair, Jeanne and Richard Wheatley, J. C. and Mary Louise Paris, Donald Withington. Miss Dora Russell chaperoned the party.

BRIDGE PARTY

The Misses Muriel and Dorothy Henderson entertained two tables at bridge last Thursday evening, serving light refreshments. High score was won by Miss Camille Horner. Present were the Misses Ruth Bigler, LaRue Mann, Mary Jackson, Camille Horner, Katherine Clarke, Ethel Bullock and the two hostesses.

THE YOUNG MOTHERS' CLUB

The club met with Mrs. C. A. Bulot last Tuesday afternoon. An interesting paper upon "Child Training," was read by the hostess. There were also games and delicious refreshments. The birthday anniversary of little Barbara Ann Bulot was celebrated with the customary gifts from the other children.

IDLEWHILES BRIDGE CLUB

The club met at the home of Mrs. Chester Russell at two o'clock on Tuesday afternoon for its regular meeting. Delicious refreshments were served in two courses. Substituting were Mesdames Arba Green and Henry Paton and the Misses Vesta Frisch and Dora Russell.

BRIDGE PARTY

Mr. and Mrs. Lapsley were hosts last Tuesday evening, at bridge, entertaining the members of the 12 in 1 evening bridge club. Mr. and Mrs. George Williams were also guests at the party. Light refreshments were served.

SLUMBER PARTY

Miss Ruth Bigler entertained with a slumber party Tuesday evening, the guest being the Misses Katherine Clarke, LaRue Mann, Mary Jackson and Camille Horner. The girls went to the Artesia hotel for an early morning breakfast.

FIRST BRIDGE CLUB

The club was entertained by Mrs. M. A. Corbin, who served delicious refreshments. There were three regular substitutes, Mesdames Rowan, Hartell and Compton.

"Say is with Printing, Flowers die." Telephone 7.

LOCALS

Jeff Hightower spent the week end at home.

Arthur Horner was attending to business matters in Carlsbad Monday.

Mr. and Mrs. C. Bert Smith went to Roswell last night to spend the Fourth with the family of their son-in-law, John Lanning.

E. C. Higgins, S. O. Higgins and Paul Terry left Tuesday for the Chama section, where they plan to spend several days on a fishing trip.

Mr. and Mrs. J. H. Long who are on amonth's trip to Kansas and Nebraska in company with V. A. Buel, write from Kansas that they are having a fine time.

Mrs. Edward Legge arrived last Saturday from Houston, Texas for an extended visit with her sister, Mrs. Ira Reser and Mr. Reser on the Cottonwood.

Mr. and Mrs. Albert Richards and Mr. and Mrs. Howard Williams expect to leave tomorrow for a trip to Yellowstone Park, being absent about two weeks.

Mr. Charles Morgan, superintendent of the Continental refinery, with his family will leave Sunday for a two weeks trip to Denver, Colorado, where they will visit Mr. Morgan's mother, also to Glenn Rock, Wyoming.

Donald Withing arrived last week from Tama, Iowa, for an extended visit with the families of his aunts, Mrs. V. L. Gates and Mrs. Rex Wheatley. He met the Wheatley family, who were spending the week end in Amarillo, Texas and came on from there with them.

J. S. Sharp, accompanied by his daughter-in-law, Mrs. Glenn Sharp, and children left Sunday for Hammond, Oklahoma, where Mrs. Sharp will stop for a short visit with relatives. Mr. Sharp will proceed on to Beloit, Kansas and expects to return in a few days with Mrs. Sharp, who has been visiting their daughter, Mrs. Walsh and family.

Prof and Mrs. Andrew Hemphill were here from Lubbock, Texas, over the week end, visiting Mrs. Hemphill's mother, Mrs. M. E. Bullock, and E. B. Bullock and family. Prof. Hemphill, who is an instructor in music at the School of Technology at Lubbock, for the summer school will leave with Mrs. Hemphill, for Chicago in a couple of weeks to take additional work in music. They will later go to Birmingham, Alabama, where Prof. Hemphill has a position as instructor in music at the University.

CARD OF THANKS

We wish to express our gratitude to our friends and for the sympathy and kindness shown us in the death of our son and brother and for the beautiful floral offerings.

Mr. and Mrs. W. D. Eads and William Robert Eads. 29-17p

CARD OF THANKS

We wish to thank our friends and neighbors, who so kindly assisted us during the illness and death of our mother and grand mother, Mrs. Annie Bradley. We especially appreciate the floral offerings.

Mr. and Mrs. W. L. Bradley and family. 29-17c

Pecos Valley Orchestra

Sixth year under same management will begin September 1st, 1930

Artesia, Carlsbad, East Grand Plains, Hagerman, Lake Arthur, Roswell will have representatives teachers as follows: E. L. Harp, conductor (wind instruments); Mrs. E. L. Harp, (pianist); and Miss Doris Deter, Concert Master, (Head of violin section), Artesia school, Carlsbad school, Hagerman school, Lake Arthur school and Roswell, Mrs. R. B. Harlan (violin), East Grand Plains school and Roswell and Mrs. L. E. Hinrichsen (violin), Hagerman school.

Miss Vera Pior, a gifted reader will give instruction in expression, public speaking, etc., in connection with the valley orchestra work in the towns.

These teachers will assist in valley school and community program school and community orchestra rehearsals, with orchestras in school assemblies and in Pecos Valley Orchestra annual programs.

They will pay 20% of their income from teaching to a fund to help care of expense for orchestra music, transportation, advertising, printing bulletins, folders, programs, etc.

There are now nearly two hundred orchestra members including beginners, registered for next school year's valley orchestra work. Plans being made to finally have a three hundred piece Pecos Valley Orchestra which will be one of the largest amateur orchestras in the Southwest.

If you consider this orchestra work an asset for your town, your community or school and the Pecos Valley, your cooperation will be appreciated.

Miss Deter has had eleven years musical training in one of the best conservatories of Brazil where her father is an American missionary preacher. Most of this musical training was under Ludwig Seyer, formerly of Berlin, Germany.

Miss Deter was born and reared in Brazil but speaks English as fluently as any American.

The following violin solos played by the leading artists are some of the graduating and repertoire numbers:

Mendelssohn's Concerto Op. 64, Max Baue's Concerto Op. 26, Beethoven's Concerto V Op. 55, Beroit's 9th Concerto, Op. 104, Beroit's Concerto, Op. 16, Chopin's Nocturne No. 2, Op. 9, Moszkowski's Guitarre, Op. 45, Johannes Brahms 3rd Sonata Op. 108, Beroit's Scene de Ballet Op. 10, Hauser's Ungarische Rhapsodie Op. 43 and following numbers by Kreisler: Caprise Viennois Op. 2, La Gitano (Spanish Gypsy Song of the 10th century), Preludio e Allegro by Pugnioni-Kreisler, Siciliano e Rigandono Francois Francoeur-Kreisler.

For information or folder, see or write E. L. Harp, Artesia, Mrs. R. B. Harlan, Roswell, Mrs. L. E. Hinrichsen, Hagerman or Mrs. R. F. Bell, Lake Arthur, New Mexico.

CARD OF THANKS

To our many friends who felt thanks and sympathy for the beautiful floral kind and sympathetic attention during our bereavement, we thank you very much. W. M. Swisher and family.

You would not think of a high class salesman as serious a matter to us. Try the Advertiser.

INDUSTRY FACING BILION DOLLARS

The oil industry, with assets conservatively estimated at \$10 billion, is facing a crisis that within the next five years probably aggregate two billion dollars.

The sum will be used to develop the industry to such a degree that some of them for the first time stand as the industry's factors in the industry's development.

Five years unitization, operation of gasoline by the hydrogenation will cover the entire oil industry at a cost to the industry of two billion dollars these lines of evolution will untold millions.

or the retarded and development of new oil fields the interests of the companies and holding programs to the require-ment, will save tens of millions in the drilling of fields.

Gasoline is worth about half times as much as a barrel of oil and will travel the line several times as fast as oil. In the next five years of millions of dollars will be spent to develop the industry.

of the refinery with its process recovered about 10 percent of the crude. Then came the process, widely used for ten years, and that in the recovery of gasoline per cent.

The hydrogenation process will turn a barrel of crude oil into a barrel of gasoline. Hydrogenation will quickly force the equipment and line of the refinery to enable it to follow the general development.

ing fact in connection with the hydrogenation process is, the time arrives that half the oil run to refinery in the United States goes through plants (estimated to be in the year 1934) it will be less crude oil than was used in the year 1929.

hundreds of millions will be saved in the drilling of new oil fields—tens of billions in the cost of the gasoline—and hundreds of barrels of crude saved because of the big amount needed for

the word "conservation" coupled with the oil somewhat accusing way the industry were guilty in nearly every department of it all emerges definite proofs of conservation—the highest type—Stunt to the oil industry—was in saving.

LOCALS

J. K. Wallingford was a business visitor at Carlsbad Friday.

Mr. and Mrs. Will Linell spent Saturday evening and Sunday at Clouderoft.

Messrs. D. S. Mercer and A. L. Tucker of Carlsbad were visiting here Friday.

Messrs. R. E. Chalk and J. F. Wasson of Weed were transacting business matters here Monday.

G. W. Witt and wife, of Lovington, spent the week end here at the home of their son-in-law, Rude Wilcox.

Miss Margaret Frisch returned home Sunday from a fortnight visit to her sister, Mrs. Buford Chunn, at Amarillo, Texas.

Mrs. T. C. Bird arrived Sunday from Tennessee, where she had been spending a fortnight vacation with her father and other relatives.

Rev. Scoggins returned Sunday afternoon from Chicago, where he had represented the local Rotary organization at the international convention.

Willis Berry returned Friday from Pinebluff, Arkansas, where he made an extended visit with relatives. Mrs. Berry remained for a longer stay and will later visit her parents in Missouri before returning to Artesia.

Mr. and Mrs. G. B. Dungan, of Green Valley ranch, enjoyed a visit Friday from Mr. and Mrs. Hunter, old friends and neighbors at Delta, Colorado. Mr. and Mrs. Hunter were returning north from the Rio Grande valley of Texas and stopped at the Carlsbad Caverns on their way here.

Mr. and Mrs. Albert Richards were in Tularosa last Saturday afternoon, Mrs. Richards going over to make an official visit, as department president, to the Mesalero unit of the American Legion Auxiliary. They drove back to Ruidoso that night and were guests at Ruidoso Lodge until Sunday afternoon.

Mr. and Mrs. J. C. Floore enjoyed a visit last Friday from an old friend and pastor at Stevensville, Texas, Rev. Emmett McLaughlin. Mr. McLaughlin came with his daughter and her husband, Mr. and Mrs. Henry, and visited here while the younger people went thru the Carlsbad Cavern, joining them in Carlsbad in the late afternoon for the trip home.

Mrs. G. O. Dotson and baby, and Mrs. Robert Burns of Orange, California, with her two daughters, Bertha and Bobby, came over from Hobbs Saturday to spend the week end at the home of Mrs. Dotson's parents, Mr. and Mrs. A. M. Tarbet. After a visit to her daughter, Mrs. Etta Underwood, in Oklahoma, Mrs. Burns expects to return here for a longer visit before going back to California.

Wm. H. Mead, Jr., with his mother and friend Miss Kelly, after a few days visit at the home of his wife's mother, Mrs. Laura Welsh, left yesterday for their Ohio homes. Mrs. Mead, Jr., and baby remained for a few days and will leave the last of the week with her brother, Dr. Edward Welsh, and family for their home at Madison, Wisconsin, where she will visit. Later Mr. Mead will drive back from Ohio for them and while there they plan to take an airplane trip to Minneapolis, Minnesota.

RIGID RUBBER TESTS GIVEN IN THE CHRYSLER MOTOR LABORATORIES

While testing rubber in the Chrysler engineering laboratories under extreme cold or heat, constant flexing, compression or tension are carried on continually to make sure that this material will stand up in motor car service. Since 40 to 60 pounds of rubber exclusive of tires are used in all Chrysler cars, the importance of these tests to the car owner can be appreciated.

One unique machine gives rubber spring shackles millions of oscillations, at the angle and pressure they must operate in Chrysler cars, to make sure of their long and satisfactory performance. A bushing recently completed 10,000,000 oscillations, equivalent to more than 500,000 miles of car operation and 100,000 miles is an easy goal for every spring shackle under test. To interpret this movement in car miles, a recording device is fastened to cars under test which indicates each movement of the spring under all road conditions.

Rubber assembled in spring shackles is tested to determine the torque required to move the bushing thru a given angle at 100 degrees Fahrenheit and zero temperature. Definite limits have been established so that engineers can be certain extreme weather will not affect the riding ease of Chrysler cars.

One of the important steps in the development of the rubber compounds used for Chrysler engine mountings has been to make this material immune to all temperatures encountered in service. In the Chrysler laboratories, there are a number of De Khotinsky ovens which test rubberized material not only for high temperatures, but also for tensile and compression stresses.

In one of the ovens, a piece of rubber stock developed for engine mountings, undergoes a six day test at two or three times atmospheric temperature under a compression of 600 pounds per square inch. Minimum limits of distortion are allowed for compliance with the rigid Chrysler specifications.

The rubber used in the "silent block" spring shackle mounting is also tested for 24 hours in these ovens under a compression which reduces it to 60 per cent of its original thickness at high temperatures. When the compression is relieved, it must return to within ten per cent of its original shape. Other rubber materials are tested under pressures of 400 pounds per square inch to determine their loss of elasticity when subjected to various oven temperatures.

Only by such exacting tests, can Chrysler engineers be certain that the quality and endurance in such an important item as rubber is being maintained.

TOSSED GUN GOES OFF WITH FATAL RESULTS

Robert Naquins of New Orleans was killed at Hot Springs Saturday when he failed to catch a revolver tossed to him by Paul Silva. The gun struck the floor in such a manner that it was discharged and the bullet went thru Naquins' heart. Silva kept the gun under his pillow for protection against prowlers and Saturday morning when the two men got up, Silva tossed the gun to Naquins to put away. The coroner's jury returned a verdict of accidental death.

CARBON PAPER—The Advocate

PICKED UP ON MAIN

Some of our local bootleggers may become a second Burbank. They are trying to evolve corn plants that all you have to do is tap it like a maple tree and set your bucket down and let the corn flow.

Joe Shuff tells us that he has been pretty sick. In fact his condition was so serious that Mc, the local undertaker smoked a few ten cent cheroots on the prospects of some new business.

We heard it said that the little demo caucus held here one night last week was a dark convention because the moon was not shining. We'd hate to see some of the boys grow moon-eyed, but you know that's just about what'll happen, when the moon turns on his full rays.

We don't like to say too much about the improbable and will not give much mention to the fact that Mr. Kennebrew was in El Paso last week and did not go over the river. The Rio Grande musta been running across the bridge neck deep to a tall Indian.

We are happy to announce that two members of the Advocate force have been distinctly honored. Messrs. George Shores (Alabama Shores) and Paul E. Bugg (Briggs) have been invited to act as judges in the Lake Van bathing revue on the Fourth, being the only single men on the force. In case either are incapacitated, there are more Buggs and shores around, just as there were 27 Willis Morgans on the Clouderoft trip in 1929.

TREASURY SURPLUS \$200,000,000

WASHINGTON, D. C.—The close of the fiscal year of 1930 at midnight Monday found a surplus of approximately \$200,000,000 in the coffers of the government and gloomy predictions prevalent for the year 1931.

At the close of business on Thursday a total of \$4,151,057,206 had been collected and \$3,938,536,837 spent leaving a favorable margin of \$212,520,000. No large payments were in sight for the closing days of the year.

In opposing the enactment of the Johnson-Rankin veterans relief bill Secretary Mellon said present indications pointed to a deficit a year from now. Appropriations for the coming year aggregate about \$4,500,000,000, a sum greater than the estimated government revenue.

The same situation has prevailed in the past, however, and the government, nevertheless, has shown a surplus at the close of each fiscal year since the budget system was instituted.

CHRYSLER SIX

Coupe \$795 F. O. B. FACTORY

What a low price for a Chrysler

Here is a motor car of true Chrysler quality—with 62-horsepower high-compression Chrysler six-cylinder engine mounted on rubber; Iso-therm pistons; low-sprung perfectly-balanced chassis; self-adjusting spring shackles; hydraulic shock absorbers; quiet all-metal bodies of dreadnought strength; and fine broadcloth upholstery.

And with the typical Chrysler power, speed, alertness in traffic, handling ease, stamina and comfort that these features make possible are combined the safety of Chrysler weatherproof internal hydraulic brakes and the distinction of Chrysler smartness and beauty.

All at a price which, for the first time, places a Chrysler within the reach of thousands who never before felt Chrysler ownership within their means.

Arrange with us for a ride in the new Chrysler Six that we may demonstrate today's leading value in the field of six-cylinder motor cars.

COMMISSIONERS. PROCEEDINGS

BE IT REMEMBERED, That the Board of County Commissioners of Eddy County, New Mexico, convened at nine o'clock a. m., on the 17th day of June, 1930, pursuant to adjournment had on the 2nd day of June, 1930, present and presiding as follows:

C. E. Mann, Chairman.
Marvin Livingston, Commissioner Dist. No. 1.
C. W. Beeman, Commissioner Dist. No. 8.
Thelma T. Lusk, Clerk.

A report from B. F. Kelly, District Road Supervisor, relative to the proposed road south of Carlsbad was presented to the Commissioners for their action. The Commissioners referred the matter to the Carlsbad Chamber of Commerce for further investigation and action was deferred until report is made by that body.

J. W. Lewis, County Surveyor, is authorized to survey that certain road commencing at a point on the section line between Secs. 8 & 17, T. 24-S., R. 28-E., thence west through the south part of Secs. 8 & 7, T. 24-S., R. 28-E., and 10, 11 and 12, T. 24-S., R. 27-E., thence northwesterly through Sec. 9 & 4, T. 24-S., R. 27-E., and Secs. 33, 32, 29 and 20, T. 23-S., R. 27-E., to a point on the line between Secs. 19 and 20, T. 23-S., R. 27-E., where said road intersects the county road running south from Carlsbad.

Whereupon the Board adjourned, subject to call.

C. E. MANN, Chairman
Attest: THELMA T. LUSK, Clerk.

RUIDOSO ENCAMPMENT

The Ruidoso Encampment eighty miles west of Roswell, opens Saturday, July 5th, and continues eight days. Dr. Scarborough, one of the best preachers in the south will preach each evening. Dr. Fry, a great Bible teacher will deliver a Bible lecture every day. Conference on various lines of church work will be held from time to time. Other good speakers will speak each day. Prof. E. L. Harp with his orchestra will furnish good music. You will greatly enjoy the program.

Cottages can be rented at from \$7.50 to \$15.00 per week. An enrollment fee of two dollars entitles you to all the program including three good meals per day. Ruidoso is a splendid place to spend your outing. We shall be glad to see you there next week.

R. PETERSON.

If we knew who wrote the following we would be pleased to give credit:

You have a dollar; I have a dollar—We swap.

Now you have my dollar; I have yours.

—We are no better off.

You have an idea; I have an idea—We swap.

Now you have two ideas; I have two ideas—Both are richer.

What you gave, you have; what you got, I did not lose—The Earth.

LOCALS

Mr. and Mrs. William Linell and family were week end visitors at Cloudercroft.

Mr. and Mrs. Alf Coll and two younger children spent the week end with Mrs. Emma Coll and Miss Addie Coll at the Coll cabin on the Ruidoso.

Alf Coll, Britton Coll, J. W. Bradshaw, Ed Gray and D. N. Gray started this morning for the Chama where they expect to spend a week in camping and fishing.

Mr. and Mrs. L. A. Harris of Indianapolis, Indiana, who have been visiting relatives here left Tuesday morning for El Paso, where they will make their future home.

Prof. Adlai Feather and family are expected from Las Cruces to spend the Fourth here with his brother, L. B. Feather and family and will remain until Sunday.

Mr. and Mrs. Francis Painter and baby son, Robert, arrived Saturday from Pecos, Texas, and are spending this week here with Mrs. Painter's parents, Mr. and Mrs. N. T. Kelly.

Mr. and Mrs. J. A. Myers, of Plainview, Texas, were here Thursday until Sunday visiting the families of Harve, Bert and Bun Muncy, brothers of Mrs. Myers. They were en route home from a visit in California.

Mr. and Mrs. L. Perry (Mrs. Willie Cheate) came in from Colorado last week and after a short visit here Mr. Perry went to Santa Fe on business. Mrs. Perry remained for a longer visit and is the guest of her friend, Mrs. Dave Beckett.

Landis Feather has received word that his brother, Lincoln Feather, who has been chemist with the Gulf Refining Co., at Port Arthur, Texas, for some time, has been transferred to Philadelphia, Pennsylvania, and left for that place last Saturday.

Miss Helen Bullock, who has been teaching the Dunning System of piano in Ft. Worth, Texas, left last Saturday with a cousin, also a teacher of the same system, for Chicago, where they will both take a six weeks advanced course.

Mr. and Mrs. Will Buttermore, who had been visiting Mrs. Buttermore's brother, N. T. Kelly, and family will leave Saturday for their home at Postoria, Ohio. Accompanied by Mrs. Nathan Kelly, Jr., they made the trip through the Carlsbad Caverns Monday.

Mr. and Mrs. M. A. Corbin and Mark Jr., returned Sunday from a month's outing which they spent in a camping and fishing trip in the northern part of the state, finishing with a rest at the Brainard cabin on the Ruidoso.

INSIDE INFORMATION

Has your dust pan a firm straight edge so that part of the dust is not brushed underneath? A long-handled dust pan saves much stooping.

Strong soap or soap powder should not be used on dishes decorated with gilt, because these cleaning materials may contain substances which are injurious to gilt.

Do you ever cook cucumbers? They are delicious when peeled, cut in halves or quarters and steamed; or cut in lengthwise sections, stuffed with a vegetable mixture, and baked.

Vary the tartness of your French dressing occasionally by using in place of plain vinegar, lemon or grapefruit juice, or tarragon vinegar, or spiced vinegar form pickles.

A few grains of pop corn on top of a plate of corn soup gives an attractive appearance. A spoonful of whipped cream is a good garnish for clear and cream soups, and adds to the food value.

Designs for small boys' suits originated by the home economics specialists of the U. S. Department of Agriculture combine self help features with smart style. A free leaflet pictures and describes these suits and suggests fabrics for summer and winter wear.

Prepare spring onions this way: trim off the green tops and cook the onions in lightly salted boiling water in an uncovered vessel until tender. This will take about 20 minutes for fresh young onions. Drain add more salt if necessary, and pepper, arrange on toast like asparagus, add melted butter and serve at once.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY

613 W. Main Street
Sunday services at 11:00 a. m. Wednesday services at 7:30 p. m. Subject of the Bible lesson for Sunday, July 6th, 1930, is—"God." In This lesson the following scriptural selection is found: "I am the Lord; that is my name; and my glory will I not give to another; neither my praise to graven images." (Isa. 42:8).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 261: "Christian Science takes naught from the perfection of God, but ascribes to Him the entire glory. Visitors always welcome."

FIRST CHRISTIAN CHURCH

6th and Quay Streets
Ralph Waldo Emerson, Pastor

Bible school at 9:45 a. m. Sunday morning service at 11:00 a. m. Sermon subject: "What Do We Want God To Do?" We will dismiss our next two prayer meetings and Sunday evening services to attend the Church of Christ revival.

The church is planning for the greatest evangelistic campaign in its history to be held in October.

Will J. Wright, one of the outstanding evangelists of the Christian church will be the speaker during this meeting.

Brother Wright was a member of the famous Wright Brothers evangelistic party and has had many successful campaigns in the leading churches of the brotherhood.

FIRST BAPTIST CHURCH

We are anxious that our people do not forget the Ruidoso encampment which begins Saturday evening and runs through next week closing out at the evening service on the second Sunday of this month.

Dr. Scarborough, one of the very best preachers in the south is to preach every evening. Dr. Fry, a great Bible teacher is to deliver a Bible lecture every day. Prof Harp with his orchestra will furnish some splendid music. The cost of staying there is very small. Let us all attend who possibly can.

Next Sunday morning the pastor will speak on, "The Way of Peace." Peace is a very happy possession and one that we all delight in having. We may have it. The how, will be discussed next Sunday morning. At the evensing service the subject will be, "Christ at the Door." How are you related to Christ? We will have good music at both hours. Let us not forget Sunday school at 9:45 in the morning and the B. Y. P. U. services at 7:00 in the evening. We extend to you a warm invitation to attend our services.

R. PETERSON, Pastor.

METHODIST EPISCOPAL CHURCH SOUTH

Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel." The pastor Harold G. Scoggins has returned from Chicago, where he represented the Artesia Rotary club at the Rotary International convention and he will preach both morning and evening next Sunday.

He desires to make this announcement, that while he has never had the reputation of being long-winded, "During the summer months the services will be completed within forty-five minutes or less." He hopes that this action on his part will be appreciated by his people and that they will attend these brief services in large numbers. The sermons will be helpful, thought provoking and inspirational, but brief.

9:45 a. m. Sunday school. George Frisch superintendent.

11:00 a. m. morning worship, sermon theme—"The Desire to Escape." Epworth Senior and Junior Leagues at 7:00 p. m.

8:00 p. m. evening worship. Theme—"What is Better Than Sacrifice?"

Next Wednesday evening the presiding elder will hold a midweek service of prayer and worship and afterwards a brief session of the third quarterly conference.

THE CHURCH OF CHRIST

One Block West of Central School

Our series of meetings, conducted by J. Emmett Wainwright, of El Paso, Texas, started last night, and we are looking toward a fine meeting. The weather is a little warm but bring your fans. When you hear Brother Wainwright preaching you will forget all about the weather.

We are planning on a great feast next Lord's day. Going to have a big basket dinner on the ground and preaching all day. Visitors from other places. Come prepared to stay for the night services. We are looking for visitors from neighboring towns. All who bring eats prepare a little extra for the visitors, we don't expect them to bring their dinner. Bring plenty of plates and cups. We are planning on a great time, don't fail to come and bring someone with you. Be on time for Bible school and help make a record attendance.

Bible school at 9:45 a. m. Preaching service at 11:00 a. m. Basket dinner after church service. Preaching at 3:00 p. m.

LOCALS

T. W. Robertson and family spent the week end with relatives at Hagerman.

John Yates and two sons, Joe and Tyre, of Auxvasse, and Harry Reid of Fulton, Missouri, arrived Tuesday for a visit with Martin Yates and son, Harvey. John Yates is a brother, and Mr. Reid a brother-in-law, of Martin Yates.

Mr. and Mrs. Hugh Mitchell and children, of Roy, New Mexico, were here from Saturday until Tuesday visiting Mrs. Mitchell's sister, Mrs. James Christman and children. They made the trip through the Caverns Monday in company with the Christman family.

Mr. and Mrs. Arba Green expect to leave Sunday morning for a trip to Yellowstone Park, going by way of Salt Lake. They will go to the western entrance of the park, and visit with their daughter and son-in-law, Mr. and Mrs. Bob LaFollette, of North Vernon, Indiana, who are there for the summer in charge of one of the tourist camps, at West Yellowstone. The greens expect to be gone two or three weeks.

Mr. and Mrs. S. Q. Garst and Mrs. Hughes and family arrived yesterday from Magdalena for a few days visit with the W. H. Cobble family. They brought with them the Misses Ethelyn Cobble and Elizabeth Gage, who did not return with the rest of the party last week from their visit at Magdalena. Mr. Garst, who is a brother-in-law of Mrs. Cobble, is forest ranger in the Datil National Forest, some thirty-nine miles from Magdalena.

Preaching at 8:00 p. m. The song service starts promptly at 8:00 o'clock each evening. Don't miss it. Men if you are more comfortable without your coats, just leave them at home, its to hot to wear a coat anyway. Be comfortable and enjoy the services.

FIRST PRESBYTERIAN CHURCH

Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, July 6, 1930.
9:55 a. m. Sabbath school. Adult departments will start a new course of study on "Representative Men and Women of the Old Testament." Subject for this Sunday: "Abraham, a Pioneer of Faith."

7:00 p. m. Christian Endeavor, Junior and Intermediate groups. During July the pastor hopes to be in attendance at the summer school for ministers at the Presbyterian Theological Seminary, Chicago. The elders, will during his absence make announcements of any special preaching services.

Last Sunday was layman's Sunday in the Presbyterian church. At the morning service J. H. Jackson brot a fine report of the recent general assembly which he attended, while at the evening hour William Mead, secretary of the Y. M. C. A., of Youngstown, Ohio, described the work of that institution in a large modern industrial city.

Arrangements are being made for the Presbyterian Sandias conference to be held on the camp grounds near Albuquerque from July 17th to 24th. It is hoped that a number of young people and some adults from the Artesia congregation will be present.

In July 1780, one hundred and fifty years ago this month, Robert Rakes started the first Sunday school in Gloucester, England. It was started to give children in the slums a chance to read and write as well as to learn the Bible and the catechism. The new idea caught on and soon Sunday schools were to be found all over Europe and the American colonies. Now there are thirty million students in our Sunday schools. The recent international convention in Toronto, Canada, unveiled a statute to the honor of the founder. The kind of revival needed in Artesia is a "Re-Bible" when parents will come along with their boys and girls to Sabbath school and learn more of Bible salvation.

WORK STARTED ON WHITE SANDS ROAD

The surfacing of State Road 3, between Alamogordo and the White Sand is now underway using road material from local pits. The work will surface 15 miles of road toward the White Sands which are becoming an increasing source of interest to tourists.

NOTICE DOG OWNERS

The 1930 dog tax is past due. All dogs that do not have tags will be disposed of according to law, unless owners see fit to properly tag their dogs at once.

GAS TAX GAINS

SANTA FE—New Mexico gasoline tax collections for June totalled \$229,869.80, an increase of \$42,233.77 over July 1929, Miss Mary Bartolino said yesterday.

Paint and varnish spatters on glass may be dissolved with turpentine or alcohol or may be rubbed off with a dull knife.

THE COMMON SCHOOL APPROPRIATION IS OVER HUNDRED MILLION

SANTA FE—The state will have available approximately \$1,400,000 for apportionment among the common schools this year, according to Deputy State Treasurer Harry Fincke.

The treasurer's report for June, the last month of the fiscal year showed \$1,064,438.23 in the common schools income fund and \$190,429.47 in the income fund in addition there will be the June and July receipts of the state land office and the unused balance of the land offices maintenance fund.

The apportionment which is about the same as last year will be made this summer by Superintendent Atanasio Montoya and school auditor Carl Comstock, on the basis of the school census.

The state closed the fiscal year out of the red. The \$200,000 worth of casual certificates of indebtedness have been taken up and the appropriations account which has heretofore showed a deficit had a balance of \$214,561.30 on the opening of the nineteenth fiscal year.

The appropriations for July however total \$356,000, so the state will be back to normal by August 1, Mr. Fincke said, because the legislator failed to provide for running the state from the fiscal year on July until taxes begin to come in December 1.

Treasurer Watts' report for June showed a balance of \$1,230,552.92 in the state road fund all of which is available for construction because the state highway debentures are retired from a separate sinking fund.

Treasurer Watts said there was a balance of \$4,732,875.88 to the state's account in banks.

The appropriations account balance was boosted \$48,555.23 in motor bus bureau funds which the board of finance held had not been appropriated by the legislature and therefore belong in the general fund.

The original intention was to turn this money over to the state road fund but the last legislature omitted that specification from the motor bus act.

NOTICE

I have given J. M. Jackson a bill of sale to well machinery and wreckage on DeArcy place southwest of town, except engine and pump jack connected to well and farm machinery sold to Mr. Oscar Campbell from farm. J. E. DeArcy. 29-1tp

HAPPY MOTHER ENTHUSIASTIC ABOUT KONJOLA

Relates How New And Different Medicine Did Wonders For Her Little Boy Of Twelve.

(HARMON GLAZE)

Results are what count, and Konjola can be counted on for results. Sufferers want relief, not promises. Konjola has made a matchless record simply because it does the things it is designed to do. Take, as a typical example of Konjola at work, the case of Harmon Glaze, 12, whose mother, Mrs. Annie Glaze, Route 4, Lonoke near Little Rock, Arkansas, says:

"My boy, Harmon, 12, had typhoid about five years ago, and his health since then was not good. He frequently had fever and had attacks of nausea. He had no desire to play and his appetite was poor. Nothing I gave him seemed to do any good. Konjola had helped me so much that I decided to give it to Harmon. Today, he is like a different person. He eats, sleeps and plays like other children and is no longer subject to fevers. I am still giving him Konjola for it has done so much for both of us."

So it goes: Victory after victory wherever Konjola is given the chance to prove its merits. You can put your faith in Konjola feeling that you will be rewarded abundantly.

Konjola is sold in Artesia at Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

Cold Milk

We deliver your milk fresh and cold at your door. If our customers will transfer the milk to the ice box immediately after delivery, the milk will remain cold and wholesome.

LOCALS

Harry Woodman was in Lovington Sunday.

John Shearman and family spent Monday in Roswell.

Mr. and Mrs. R. D. Compton were Lovington visitors Sunday.

S. W. Gilbert was attending to business matters in Roswell Monday.

Mesdames Preston and Calvin Dunn were Roswell visitors Monday.

Miss Reba Knoedler arrived Tuesday from Blandinsville, Illinois for a month's visit with her brother, R. G. Knoedler, and family.

Mrs. A. C. Kimbrough and daughter, Evelyn, who has been attending school in Santa Fe, were in Carlsbad from Artesia Friday.—Current-Argus.

Miss Margaret Perry, daughter of Mr. and Mrs. E. H. Perry underwent an operation at Carlsbad Friday and is convalescing nicely according to early reports.

Mr. and Mrs. C. R. Vandagriff, who went back to Las Cruces a month ago to settle up their business there, returned Tuesday to make their home here.

Mr. and Mrs. E. E. Freeman and little son, of Long Beach, California, were here several days last week, visiting their friends, Mr. and Mrs. H. F. White, east of town.

Mesdames Albert Richards, A. C. Kimbrough, H. S. Williams and J. L. Truett were in Carlsbad Friday on business pertaining to the American Legion Auxiliary.

Jack Clady, wife and baby drove up to Cloudcroft last Thursday. Mr. Clady returned after a few days, leaving the others there for the benefit of the baby's health.

Bert Bishop is taking his two weeks' vacation from Joyce-Pruit's grocery, and with his entire family, is spending it at their cabin on the Ruidoso and taking in the Baptist encampment, which is held there every year.

Charles H. Rinehart and family of Anaheim, California, arrived Friday for a visit with Mrs. Rinehart's sister, Mrs. E. A. Hannah and family. After a short stay here they will proceed to Kansas, where they will visit with Mr. Rinehart's parents.

Mrs. Alvin Allinger came over from Albuquerque last week after her baby boy, who had been with his grandparents, Mr. and Mrs. A. L. Allinger. On Sunday Mr. and Mrs. Allinger drove with her to Vaughn where they were met by Alvin Allinger.

Mr. and Mrs. Alden Cutler and daughters, the Misses Helen and Hester, of Wessington Springs, South Dakota, were here from Saturday until Monday morning, visiting Mr. Cutler's sister, Mrs. E. M. Phillips, and daughter, the Misses Margaret and Wyoming.

ACCIDENTS INCREASE AS HIGHWAYS ARE MADE MORE MODERN

The less dangerous a road becomes due to new alignment, wider roadway, better surfacing and other modern features the greater the number of accidents on it, a highway safety bulletin points out.

"As the highway construction season gets into full swing with the coming of warm weather many new road projects are being finished up and thrown open to the public," says the bulletin. "Coincident with these openings the accident rate steps up."

"This seems to indicate that when motorists are fearful of the road, they drive carefully but as soon as they hit a new project they press the accelerator to the floor and then lay themselves open to all the hazards of driving, such as defective vehicle, old tires, which may blow out, soft road top resulting from recent rain, soft shoulders which may turn them over if forced to the side and all the rest of highway accident possibilities.

"When driving with the car under perfect control, a motorist does not usually go as far toward the edge of the road when passing yet maintains complete safety passing distance. At a high rate speed when a slight twist of the wheel will move the speeding automobile much farther in a given length of time than at a low speed it is only natural that the speedsters car should swerve too near the road edge. A soft shoulder will not necessarily throw a car when it is under complete control but is very liable to be fatal if the car is rocking along at a too high speed.

"Where projects are new and the shoulders have not yet had time to settle into the firmness rain, compaction and age give them it is a necessary precaution that every motorist must take, to stay safely on the gravel line of the roadway. Further, motorists should remember that the greatest number of accidents resulting from broken steering knuckles, worn tires, and similar defects come on new and fast roads. Dynamite properly handled is one of civilization's great assets, and automobiles like dynamite may be an asset or they may be a terribly lethal proposition. It all depends on the handling."

You would not think of employing unskilled labor to do the work of a high class salesman—it's just as serious a matter to use only good printing. Try the Advocate, phone 7

GARLIC ODOR FINDS GAS PIPE LEAKS

When the U. S. Bureau of Mines introduced a substance that smells like garlic into the gas mains of an Ohio town, one woman threw all of her husband's old shoes out of a closet and a colored woman made her husband take a bath. No divorces were reported. This all came about because the bureau of mines was trying out a new method of finding leaks in gas mains and house connections. The results are reported in its bulletin R. I. 3007.

The material used in the test, called ethyl mercaptan, is not harmful in the quantities required, but does give a "loud" and persistent warning to the nose, if a leaky pipe is anywhere about. When a gas flame is burning, this substance is destroyed by the heat and no odor is given off. In two towns where these experiments were made, several hundred leaks were found in the home of customers, many of which had not been previously suspected.

ROTH ELECTED HEAD OF ROTARY CLUBS

CHICAGO, Illinois.—Almon E. Roth, Palo Alto, California, Friday was named president of Rotary International as the result of elections Thursday, in which he defeated Raymond J. Knoepfel, New York City, the other nominee. The vote was 2,216 to 1,119.

Among directors elected were: Clinton P. Anderson, Albuquerque, N. M.; Claybrook Cottingham, Pineville, Louisiana; Richard C. Hedke, Detroit, Michigan and Howard W. Selby, West Palm Beach, Florida.

THE VALUE OF SOUND DESIGN

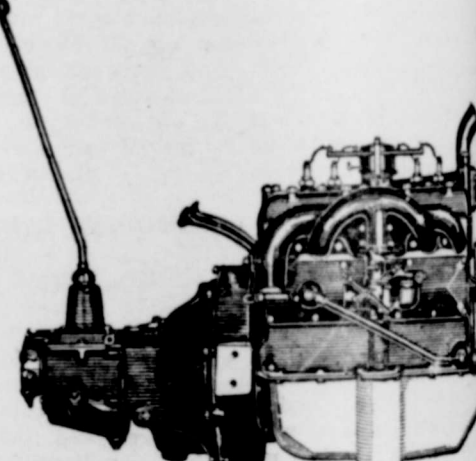

New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy

THE good performance of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It is built to allow free passage of gases through the valves and to thoroughly mix the fuel

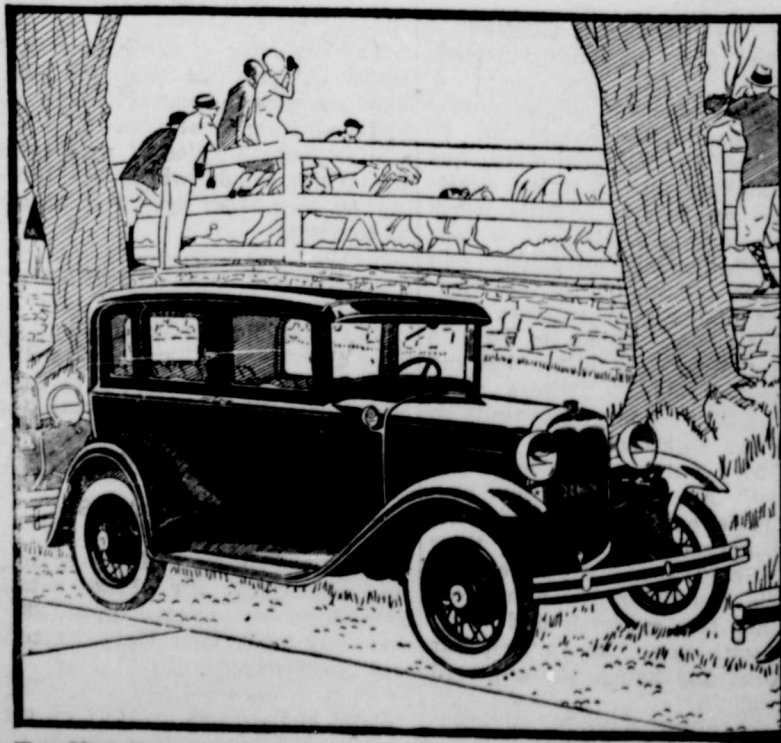

by producing turbulence within the cylinders during compression. The spark plug flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance. Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, the simplicity of the electrical cooling, lubrication, and fuel system and accuracy in manufacturing.

UP THE YANGTZE RIVER IN OLD CHINA LAND

Lieutenant B. K. Kaiser, son of Mr. and Mrs. B. K. Kaiser of the Dayton community, with the 4th regiment U. S. M. C., has written us a detailed account of his trip up the Yangtze river in China, which will no doubt be of interest to many of our readers. Because of the length of the article, we have found it necessary to run it in five or six installments. The article was written from impressions gained by Mr. Kaiser during his two and a half years in China:

(Continued from last week)

I must have looked disgusted or bored or both. The proprietress came over and attempted to entertain me by telling lewd jokes. I changed the subject as I was slightly interested to know if these people had any ideas on religion and morals. I found her, however, much more interested in dollars and cents, in selling drinks and attractive girls. I had always considered religion to be, in varying degrees, instinctive with the human race. With ignorant people it may express itself more as a superstition. Ignorant people are often very religious when brought up in a religious atmosphere but they are invariably narrow and intolerant. Intelligent people, although brought up in a non-religious atmosphere, often study until they arrive at their own conclusions on religious matters. This conclusion will usually be very tolerant in respect to the religions of all races and will have little sympathy with the petty differences that divide the present day Christian religion. I was unable to find a trace of religious interest with this woman. With these people, the religious instinct, if there be one, is stifled and smothered. Callousness and indifference is the attitude encouraged by everything they do and by everyone with whom they come in contact with. She had the European impression that her profession was about as honorable as anything else she might be doing to make a living.

The liquor was apparently bad and Carey began to get sick. Con and I were glad to get him outside and into a ricksha. He threw up his jag and was now quite willing to start back to the ship. We shoved off without waiting for Doc, but he was sober enough to take care of himself.

The dawn was now throwing a golden glow into the eastern skies. We bought a morning paper and awoke a sampan coolie who took us out to the ship. It was too early for breakfast so we went up on upper deck to watch the sunrise and read the morning paper. In the paper I found that a passenger plane had crashed near Gallup, New Mexico and that several people had lost their lives. Sad indeed, but I had read the same article a week before at Shanghai. I also read an exciting account of a double-header between the Yankees and the Athletics who were at this time battling it out for the pennant and it was not until I got to the scores that I noted that I had also read of these games before leaving Shanghai. By this time the sun had broken through the clouds quite low over the eastern horizon and reflected to us a long golden sparkling path of light on the peaceful waters of the Yangtze.

It was now Sunday morning, September 8th. After tiffin, we again went ashore and spent an hour or more looking over the settlement. It is a well kept up foreign settlement Tientsin. The bund is broad and cleanly kept in spite of the incessant lines of cargo coolies loading and unloading ships. The bund is lined with consulates displaying the flags of several nations. After riding around in rickshas for an hour or more we struck out for the race club for tea.

As we crossed the Peking-Hankow railroad, we noted a smudge of dust ahead. We turned out on the windward side to let a drove of ponies pass. By their long ungroomed tails and the long hair which covered their whole bodies, also by their awkward strides, I knew them to be griffins, recently brought down from the Gobi Desert of Mongolia. Each year, quite a large number of these ponies are brought down from Gobi and sold to the racing stables of Peking, Tientsin, Shanghai, Hankow, etc. Every city with a foreign concession of any size has a race club or of even a foreign population of a few hundred. It was not, however, the ponies that interested me. The men driving these ponies were not Chinese. They more nearly resembled American Indians. They were dark, stocky and swarthy with angular noses and heavy dark air. Their faces were like leather, toughened by the beating sandstorms and the blizzards of their desert homes in the northland. They are direct descendants of perhaps the hardest race that ever graced, or should I say cursed the face of the globe. During the twelfth century, the wandering bands of Mongolia were brought together under the leadership of the great Ghenghis Khan, and they conquered for themselves one of the greatest empires ever held by man. Where they conquered, they destroyed. Thus they left no discontented peoples as Napoleon did to smoulder and seethe under the foreign sov-

ereignty, ever ready to join in uprisings. Through ninety degrees of longitude, from the Pacific to central Europe, they spread death, terror and destruction. Their success in the greater number of battles depended upon strategy and tactics as they were out-numbered. Their tactics was invariably based upon speed and endurance. Every man had at least two horses in order to have a fresh horse always ready. These people could do without food or live on very scant food for quite long periods when necessary and they could sleep quite comfortably under the snow. Their homes were tents on the barren wastes of the Gobi where winter winds sweep unrelentingly from the Arctic. They reminded me of the previous year when I was visiting the Great Wall of China, in looking north into Mongolia, I thought it to be the most barren bleak, unwelcome country that I had ever looked upon and I wondered at the Chinese ever having to build a wall to protect themselves from this direction. While watching, I remember seeing one of those long, winding, slow, sleepy looking, camel caravans coming in from the Gobi. The vastness of that wasteland lying north of the Great Wall of China is scarcely realized by the average student of geography.

With a jerk and a chug my reflections were abruptly brought to an end as my ricksha coolie pulled me back into the dusty road and we continued on our way. A sign indicated a road to the right to the Race Club and we turned into a lane lined with towering trees. It was beautiful here with a refreshing breeze no longer laden with dust. There were green lawns, large trees, fragrant flowers and lanes lined with a small variety of trees in blossom. Grounds were laid out for most every kind of lawn sport. There were long lines of tennis courts and courts laid out for lawn bowling and for cricket. A cinder race track passed directly in front of the club house and a stand built up to be used by the judges during race meets. English people are very gregarious and you will find clubs similar to this one in a large number of cities scattered throughout the world. Although far distanced from their native land, they seem to hold fast to the customs of the home land. Even where there are only a few families they gather for tennis and for tea in the cool of

the evenings. Americans do not appear to have such a tendency, when in foreign lands to settle down and prepare to spend their lives there if necessary, hence the English are more successful colonizers and are as a whole steadier on jobs away from civilization. Even American companies such as Standard Oil hire a large number of foreigners even for quite important jobs. Two thousand miles in the interior with only two families there, the English will wear tuxedos or dinner jackets for any unusual evening get together.

We chose a table about sixty feet in front of the main club house. What a pleasant place this was, sitting in comfortable wicker chairs out on a cool green lawn with an orchestra playing in low mellow strains and with the afterglow of a superb sunset still lingering in the western skies. Families and friendly gatherings were chatting and smoking amicably and having tea or beer at tables scattered all over the lawn. Near us an English family was having tea. It was a pleasure to watch this family because there seemed to be a great deal of love between one another and especially for a little girl about twelve years old who was pouring tea. On her right was an amiable old gentleman with iron grey hair, apparently the father or grandfather. On her left was a middle aged, kind faced lady who spoke softly and smiled to many passers-by. I judged her to be the mother. Across the table was an older girl. She had smiling blue eyes and fluffy hair which was inclined to be golden. I could not help from comparing her with those girls whom I had seen that early morning. Nature had favored them with prettier forms and more perfect features, but ideals and character speak thru every look and act. It seemed incongruous that the sweet-faced, innocent acting girl across the table could be associated with evil thoughts or acts. I believe that Con got somewhat the same impression as he presently remarked something to the effect that a good deal of disillusionment and sorrow often awaits that type of girl. It would have been interesting to have met that family, but we were total strangers at Hankow and except in movies and novels, it is really quite difficult to meet utter strangers on short notice. At twilight, the music stopped and the gatherings began to break up and we proceeded back to the Oahu. We did not go ashore again at Hankow and the following day the Oahu continued her journey to the interior.

Middle River
 We did not leave Hankow until the following afternoon. Near sunset there seemed to be quite a few dead

Chinese floating on the river. You quite often see dead bodies floating down Chinese river. I have also seen dead girl babies along the sidewalks in the early morning. Women hold a very inferior position in China and very poor people sometimes refuse to raise girl babies. Human life is held quite cheaply in the Orient. Last year when Canton turned anti-communist, the massacre equaled anything you read about in history, for cruelty and ruthlessness. Dead bodies were so thick that traffic was blocked in some streets until they could be cleared away. The cheapness of human life in China never struck me in full force until I read the yearly report of the Benevolent Cemetery Society of Shanghai. During the year 1929, more than 30,000 corpses were found on the streets or floating in the adjacent waterways of Shanghai. Of these, 28,620 were infants. Those figures almost stagger a mind that can grasp their significance and that can picture the depraved condition of the human kind where such a situation exists.

FORD

Speaking of service and resale value, just look about you and see the great number of more Fords, then look for any other make of auto. You will be surprised how few you find more three years in service. See G. S. Deane, he sells those dependable Ford cars and trucks.

HOBBS MAN FATALLY SHOT AS RESULT OF A FAMILY ROW MONDAY

A coroner's jury at Hobbs, Monday found that J. H. (Whitey) Saxon came to his death by reason of gun wounds, the bullets being fired from a gun in the hands of C. M. Brininstool. The shooting occurred Sunday afternoon.

Brininstool is the victim's brother-in-law.

"I hated to do it, but I had to shoot him," Brininstool told Deputy Sheriff Leo W. DeCordova when arrested, the officer testified at the inquest.

"He beat up my sister and got after me with a knife and I had to defend myself," the suspect explained, according to the deputy sheriff's testimony. Cordova was the only witness called to testify at the inquest.

Two bullets entered Saxon's body. Both passed through the torso, one near the heart.

Brininstool is from Childress, Texas, and Saxon from Borger. Saxon was held in the Eddy county jail at Carlsbad two weeks ago on a charge of disorderly conduct.

LOCAL DEALER JOINS MOVEMENT TO REDUCE DRIVING COST

To make America's 25,000,000 automobiles run better, look better and give greater satisfaction to their owners, is the purpose of the national "Care Will Save Your Car" campaign which has been brought to Artesia by Dr. Loucks Garage, on First street. This great movement is being sponsored by the Motor and Equipment Association, an organization composed of the leading manufacturers and distributors of parts and accessories.

"Too many drivers are careless about permitting their cars to get into a run down condition," explained Dr. Loucks in announcing the affiliation of his service station with this new idea in the automotive field. "It is a national turning to preventive maintenance and by preventive maintenance, we mean keeping an automobile in first-class condition at all times by subjecting it to thorough inspections at regular intervals. Its locking the stall before the horse is stolen, not afterwards.

"A great many accidents and delays might easily be prevented if the trifling adjustments or replacement had been made in time. After any car has gone a certain distance, it needs a going over. Such a precaution is almost certain to save the car owner inconvenience and loss of time. In the long run, this invariably saves the car owner money." Garages, service stations and dealers' stores affiliated with the campaign bear the identifying markers of the Motor and Equipment Association, and insure the customer courtesy, expert treatment and fair prices. The association takes every possible step to safeguard the car owner, and the acceptance of Dr. Loucks is proof of the quality of products and high order of service given by that concern.

ATTENDS SUMMER SESSION

Rev. J. P. Sinclair left for Chicago Monday, where he will spend the month of July attending the summer school for ministers at the Presbyterian Theological Seminary.

DAYTON RESIDENT ILL

J. T. Gillett, pioneer resident of Dayton suffered a stroke of paralysis Monday and his condition was said to have been very serious according to an early report.

F. M. Spencer of El Paso is visiting friends here.

LAKE ARTHUR ITEMS

Mrs. Ned Hedges, Reporter

Mr. and Mrs. Joe Hester are moving to Artesia this week.

J. B. Crook is working on the gas line between Carlsbad and Artesia this week.

Senator and Mrs. Z. B. Moon of Artesia were dinner guests of Rev. Jones and family Sunday.

hospital in Carlsbad aSturday where she is being treated for pleurisy.

Mrs. James Christman and family of Artesia and her sister, Mrs. Mitchell of Roy, were guests of the Jones family Sunday afternoon.

Mrs. Jerry Williams and son, Lee motored to Portales Sunday where they spent the day visiting the family of her daughter, Mrs. Walter Walton.

Mrs. D. A. Goode is in receipt of the sad news from her brother, Tom Ridgeway, now living in Bruin, Kentucky, that his little son, Lincoln Ford, had recently died of pneumonia.

Mr. and Mrs. Joe Hester motored to Clouderft Sunday, returning by way of Alamogordo. In going up they were joined in Artesia by Mr. Mrs. Buck Chester, Mrs. Lilly Lesinger and daughter and the Misses Chester and Edith Briggs.

Mrs. Ollie Smith, and her son, Jim, entertained Monday night for Mr. and Mrs. Orin Smith who returned Sunday evening from their honeymoon trip to Farmington. All of 100 guests enjoyed the Smith's hospitality. Delicious angle food cake and ice cream was served, during which time music was furnished by Ford Frazier and others, in departing each guest wished Mr. and Mrs. Smith a long and happy wedded life.

Mr. and Mrs. D. A. Goode entertained a crowd of friends at their home Saturday evening, at a chicken fry. This is the second time Mr. and Mrs. Goode have entertained a group of friends at a fried chicken picnic supper. The guests on this occasion were, A. V. Flowers and family, the Ben Frazier family and Mrs. Frazier's sister, Miss Brewer, Mrs. Ollie Smith and Messrs Ford and Frank Frazier.

The Lake Arthur Methodist church was fortunate in having five ministers of the gospel with us Sunday, Rev. J. A. Bell, of New Castle, Texas, who was called to Dayton last week when his nephew Stuart East was drowned near Dayton, preached the sermon. He was accompanied by Rev. J. D. Terry of Dayton and Rev. Gordon Sterling, of Artesia. An excellent sermon was enjoyed both morning and evening. Rev. Jones preached at the evening service.

WELL ORDERED VACATION IS A GOOD TYPE OF HEALTH INSURANCE

By S. W. Straus, President American Society for Thrift.

A well ordered vacation is by no means a waste of time. It is a good example of thrift. For it is just as thrifty to conserve one's health and energies as it is to save and conserve one's material resources.

These thoughts are appropriate at this time as the summer vacation period is now at hand. There is a very close connection between the vacation problem and the health problem because in the final analysis a vacation has come to be considered a necessity in these days of strenuous activity.

Recently there was completed a remarkable survey of health conditions in the city of New York. The health facts discovered there may, with more or less accuracy, be recorded as typical of the entire country and are, therefore, of general public value. Here are some of the

1922 CHEVROLET CAR MAKES A 2,500 MILE TREK IN RECORD TIME

CHICAGO, Illinois—An outstanding achievement of the current motoring season was recorded here recently with the arrival of J. M. Griffith from Mexico City, in 138 hours running time, in a 1922 Chevrolet touring car with five passengers.

Although nearing 64, Mr. Griffith drove every inch of the distance himself. After stopping off here two weeks, he proceeded to Detroit where he inspected several automobile plants and the General Motors proving round, and then was impatient to be off on the long trek home to resume his occupation as mechanical engineer.

Leaving Mexico City, on April 30, the party covered the 929 miles to the border, crossed at Laredo, and proceeded to Chicago and Detroit with no mishaps other than two stop-overs, one for tire repairs and one, at San Antonio, for carbon removal and replacement of three exhaust valves in the eight-year-old car. The log of the trip, as reported by Mr. Griffith, provides statistics of interest to those contemplating a lengthy tour this summer.

Distance (Mexico City to Chicago) 2,514 miles; running time, 137.5 hours; average speed 18.28 miles per hour; gasoline consumption, 96.6 gallons; miles per gallon, 26; cost of gasoline, \$33.75; oil and greasing, \$6.25; repairs to car, including tire repairs, \$11.50. The total cost of transportation, exclusive of meals, hotel expenses and personal items, was \$51.50, or at the rate of one-third cent a mile for each person in the car.

Despite the age of his Chevrolet, Mr. Griffith said that he started on the tour with no doubt as to the venerable old-timer's ability to cover the distance without trouble. In driving around Mexico City, prior to the start of the tour, the car was constantly being called upon to climb mountain passes up to 12,000 feet.

The speedometer had registered 28,000 kilometers before leaving Mexico. After spending several days here following his return from Detroit, Mr. Griffith nosed his car toward the south, and started out on the return trip as nonchalantly as though his destination were only a few miles out of town or his car were a new 1930 six cylinder model.

facts regarding health conditions in the nation's largest city: From 125,000 to 200,000 persons are continually sick in bed and from 250,000 to 800,000 more are constantly ill, of the 70,000 deaths per year, a very large percentage are from sickness that might have been prevented or postponed; the total annual outlay for the care of disease is \$150,000,000 the annual loss in wages due to illness is \$75,000,000; amount spent annually in the prevention of ill-health, \$8,500,000.

We hear much about losses incurred by the public through fraudulent or unsound investments. Needless and preventable losses of time and money through ill-health constitute an even heavier economic drain on the country.

Health thrift is more important than money thrift, because without money we still can work and win, but without health we are helpless and advancement is practically impossible.

Fortunately, more thought constantly is being given to thrift of health. It was recently announced that the Rockefeller Foundation last year spent more than \$21,000,000 in practical and experimental medical work while within recent years it has spent \$144,000,000 for the same noble purpose.

Vacations are taken for the purpose of conserving one's health. When they are so planned and carried out as to be helpful along these lines, they are by no means a waste of time—they are, quite to the contrary, a good example of thrift.

How Wind is Measured

The velocity of the wind is measured by an instrument called an anemometer. It consists of three or four hollow hemispheres on the ends of equal rods at right angles to each other and designed to rotate in a horizontal plane about the point of intersection of the rods. The instrument may be seen turning in the wind at any weather bureau station.

How to Repaint Shades

In order to repaint window shades stretch them on a frame of the proper size, dust and wash with soap and water. Dry carefully. To paint white, use pure white lead; for tints, use lithophone; for solid effects in green or yellow, use pure oil color so that a very thin coat or stain will cover in one coat. Turpentine is better than benzene for good flattening.
