ARTESIA, NEW MEXICO, THURSDAY, AUGUST 7, 1930.

NUMBER 34

## TWO ARRESTED HERE ON ROBBERY CHARGE AT GRAND FALLS, TEX.

Two men from Grand Falls, Texas were arrested here Thursday by Ross Conner, deputy sheriff on charge of robbery. According to information furnished local officers, the men Stanley Smith and E. McMann are alleged to have burglarized three Grand Falls, Texas business houses, a dry goods store, a filling station and a garage. Sheriff Dyer of Ward County, Texas, who arrived here Thursday evening identified the hats worn by the pair as part of the loot. The prisoners were returned to Ward county, where they will face charges of burglary.

Smith is a former resident of Artesia and is said to be well known here.

## EDDY COUNTY GIVEN \$52,052.87 IN STATE SCHOOL DISTRIBUTION

SANTA FE—State School Superintendent Atanasio Montoya and State School Auditor Carl D. Comstock Friday apportioned \$1,374,416.83, all but approximately \$1,000 of the balances in the current and common school income funds, among the 31 counties. The 1929 school census was used as a basis.

Last year's total was \$1,453,597.92. Due to the fact the 1929 census shows an increase, jumping from 126,605 to 133,051 and the fact that the amount available is lower, the apportionment is smaller, amounting to \$10.33 for each pupil.

The Hobbs problem was settled when officials decided on the 1929 census as the basis, which credited Hobbs with 95 had they taken the latest census, which the attorney general ruled would be permissible, the twin oil towns would have been credited with 855. This decision was reached when other counties protested, contending they should be similarly treated. Quay, for instance reported a gain of 700. The apportionment by counties follows:

Santa Fe, \$81,226.11; Bernalillo, \$167,590.95; Chaves \$52,631.35; Curry, \$49,800.93; San Miguel \$76,080.45; Eddy \$52,052.87; Catron \$9,937.46; Colfax \$79,974.86; DeBaca \$9,927.13; Dona Ana \$89,395.82; Grant \$68,725.49; Guadalupe, \$23,815.97; Harding, \$17,499.02; Hidalgo, \$16,817.24; Lea, \$13,243.06; Mora, \$37,559.88; McKinley, \$31,640.79; Otero, \$32,188.28; Quay, \$39,026.74; Rio Arriba, \$67,444.57; Roosevelt \$43,406.66; Sandoval \$22,602.04; San Juan \$24,058.57; Sierra, \$15,629.29; Socorro, \$38,313.97; Taos, \$52,963.20; Torrance \$27,901.33; Union, \$41,227.03; Valencia, \$49,914.56.

## RAISING FISH IN THE NEW MEXICO HATCHERY IS NOT COMPLICATED

Raising fish in New Mexico's first warm water hatchery is not a complicated matter, getting them out is an entirely different thing, according to State Game Warden E. L. Perry.

The job, because of the large accumulation of heavy moss in the bottom of the lake, has proven a real undertaking and an expert from Kansas has been employed to take over the case.

Eugene Catte, of Langston, Kansas who has had more than 30 years experience in planting and raising various species of warm water fish will be here within a few days to superintend the removal of more than 100,000 black bass from the Dexter hatchery.

The difficulty at the hatchery is the heavy moss growth, officials said, the fish becoming embedded in the heavy moss making it impossible to either seine or drain them out.

Last year some 20,000 bass were planted from the hatchery, while more than 40,000 were lost in the transplanting process.

Early this season 100 crappie were placed in the hatchery and it is expected that many crappie, bass and perch will be removed for planting in various warm waters of eastern and southern New Mexico this year. —Roswell Record.

## STATE HIGHWAY CHEMIST MOVES TO ARTESIA

Mr. and Mrs. James Breaux of Las Cruces have established residence in the Ragsdale apartments. Mr. Breaux is the chemist for the state highway department and will be employed at the State Oil and Refining plant at Dayton.

## THE REPUBLICANS WILL HAVE FULL COUNTY TICKET FOR THIS FALL

A County Ticket Will Be Named At County Convention In Carlsbad—Resolution Favoring District Ticket.

Eddy county republican will have a full ticket in the field this fall for the first time in the history of the organization. Decision to place a full ticket in the field was reached at Artesia Saturday afternoon, when precinct committeemen from the various precincts met in the office of William Dooley, state committeeman. Practically every precinct in the county was represented. The meeting also passed a resolution in favor of placing candidates in the field for district offices, however, whether or not the republicans will have a district ticket this year will depend on action of the district convention to be held at a later date.

Candidates for the various county offices will be named at a county convention to be held in Carlsbad the latter part of August, at which time a basket picnic will be served to the gathering. Plans have also been made to have a number of prominent speakers at the convention. A short program will be arranged for the morning session, while the afternoon will be devoted to the business of the convention.

The county organization has never had a full ticket in the field. Four years ago a partial county ticket was put out by the republicans.

## MRS. WILLIAM McCRAW DIED FRIDAY FUNERAL IS HELD HERE SUNDAY

The death of Mrs. William McCraw, 47, pioneer resident of this section, which occurred Friday evening, was a distinct shock to the entire community and her passing has touched the community in a real sense. Mrs. McCraw was taken ill on July 4th and shortly afterwards was removed from the McCraw farm home southeast of town to the home of her sister-in-law, Miss Linna McCraw in Artesia. Her condition was not regarded as serious until a few days before her death, at which time she is said to have told members of the family that she was going to die and made a final request, including the funeral arrangements.

Will McCraw as he is familiarly known, came to the Pecos valley in 1906 and four years later was married to Miss Winnie Edith Kurtz. To this union seven children were born, six of whom are living. A son, Glen Kurtz McCraw died in 1924. The children surviving Mrs. McCraw are: Thelma, Jack, Edwin, Hannah Belle, Robert and Marvin. The deceased is also survived by two brothers, Glen and Clell Kurtz of Marshalltown, Iowa and two sisters, Mrs. A. A. Coulter of Charlo, Montana and Mrs. Mary V. Ralls of Marshalltown, Iowa.

Funeral services were held in the Presbyterian church Sunday afternoon, Rev. R. Peterson, pastor of the Baptist church officiating. Interment was made in the Woodbine cemetery.

A number of relatives came to attend the funeral of Mrs. Will McCraw. Her sister, Mrs. Mary V. Rawls, had arrived from Marshalltown, Iowa, a week previous to the end and will remain here for some time. Others were her brother, Clell Kurtz, who came Sunday from Marshalltown, in time for the last sad rites and will remain until the last of the week; Adley McCraw from Chillicothe, Texas, who arrived Sunday, George McCraw from El Paso, and Mrs. E. E. Galloway and daughter, Miss Nettie, of Roswell.

## FLINT FAMILY TO MAKE HOME HERE

Mr. and Mrs. T. H. Flint and family arrived here Tuesday from San Antonio, Texas and will make their future home on the C. A. P. ranch, southeast of town, acquired several months ago by Mr. Flint.

## ATTENTION MASONS

There will be a regular business communication of Artesia Lodge No. 28 A. F. & A. M. at the lodge hall tonight at 8:00 p. m. Visiting brothers are invited to attend.

Loose-leaf Binders, Special Ruling and Stock Forms.—The Advocate.

## LEA COUPLE DEATH BELIEVED TO HAVE BEEN DUE TO POISON LIQUOR

Lysol Taken—Act Believed To Have Been Due To Physical Condition Of Couple — Several Notes Are Left—Probe Made.

Paralyzed from the time they were stricken after drinking poisoned liquor over four months ago, a married couple, Mr. and Mrs. W. W. Beall, died at their home in the new town of Lea, Lea county, Tuesday.

Officers who were called to their home shortly before noon when the pair was reported practically helpless reported there was evidence of suicide by poisoning. They found Beall already dead. His wife died two hours later.

The man and woman had been confined at the hospital at Carlsbad for four months and were returned to their home a few days ago after treatment had failed to relieve them. Mrs. Beall left a note to notify her brother, Frank Cox, in Oklahoma City.

Lysol was used as a death poison, according to word from Carlsbad. Several notes were left, one gave instructions to notify a brother of Mrs. Beall in Oklahoma City. Dependency over their physical condition is believed to have caused the act of Mr. and Mrs. Beall. A probe is being conducted, investigating the circumstances surrounding the death of the couple, but so far no further light has been shed on the affair, it was said.

## NATION MAKES THE GREATEST CENSUS GAIN IN THE PAST TEN YEARS

WASHINGTON, D. C.—The population of continental United States on the basis of official preliminary census figures is 122,728,673.

This figure was compiled Tuesday night from official announcements given out by census supervisors in the various states after completing the enumeration which began April 2.

Only one district in the U. S.—in Clearfield county, Pennsylvania, was incomplete.

The total figure for the U. S. population, however, is subject to revision in the census bureau's official announcement which is not expected for another week or more.

Territories of the U. S. and outlying possessions, not included in the continental United States total, bring the nation's grand total of population to 137,501,561. This figure includes an estimate for the Philippine Islands whose census is controlled by the insular government which has not made an enumeration for several years.

Continental United States had 105,710,620 people ten years ago, while the nation with its outlying possessions totaled 117,859,395.

The country has had the largest numerical increase for continental United States in its history during the last ten years, despite restricted immigration and a declining birth rate. There was an increase of 17,018,253 people in the decade, compared with the previous record increase for a ten year period of 15,977,691, made between 1900 and 1910.

In the rate of growth, the last decade made a better showing than that which ended in 1920. The increase was 16.1 per cent, compared with 14.9 per cent from 1910 to 1920, and 21.0 per cent from 1900 to 1910.

## ROTARY VISITORS

Messrs. Carl M. Einhart of Pasadena, California and Doc. Cowan of Roswell were visitors at the luncheon of the Artesia Rotary club Tuesday. Mr. Einhart, a former resident of Roswell has been spending several days in the various valley points visiting old friends.

## COMMISSIONERS COURT

The Eddy county commissioners court met in regular session at Carlsbad Monday. Only routine matters claimed the attention of the court.

## SOME COTTON

Owen Campbell of the Oasis farm east of town has on display at the Citizens State Bank, a sample of his 1930 cotton. One stalk contains 108 bolls and squares.

## LOCAL LEGION POST ENDORSES SID COX FOR N. M. COMMANDER

Last night at a meeting of the Clarence Kepple Post, American Legion, the members passed a resolution endorsing Sid Cox as state commander of the American Legion. The candidacy of Mr. Cox will be presented by the Artesia delegation at the State Convention, which convenes at Gallup, August 25, 26 and 27. Mr. Cox has served two terms as commander of the local post.

Delegates to the state convention were also selected at last night's meeting. The delegates are: L. N. Kremer, chairman of the convention delegation, Wade Cunningham, Fred Brainard, Alex McGonigal, George King, Joe Duran, Ray Rodgers and Sid T. Cox.

## THE FIRST AMERICAN BOOSTERS GIVEN MELON FEED HERE THURSDAY

A number of local people turned out to greet the First American boosters from Albuquerque Thursday afternoon. Notwithstanding the reception tendered the visitors were more or less informal, owing to the indefinite hour of their arrival, they were well received. The First American boosters headed by Governor Richard C. Dillon, Senator Sam G. Bratton, Congressman Albert G. Simms and Clyde Tingley, mayor of Albuquerque.

The boosters were given an opportunity to address the Artesia people at the First National Bank corner. Chief among the speakers were Senator Sam Bratton, who issued an appeal to the folks of this section to help make the First American a state-wide affair, Arthur Prager, president of the board of directors of the First American and Mayor Clyde Tingley of Albuquerque. Jules Allen, cowboy song artist was introduced to the audience as well as three Indians, Wayne Robe, Blue Sky Eagle and Morning Star.

After the speaking the visitors were invited to the roof garden of the Artesia hotel where all participated in a water melon feed. After the feed the Albuquerqueans departed for Carlsbad, where they made the trip through the Caverns being the first party ever to be taken through the Caverns at midnight.

Friday the caravan toured Lea county, stopping at all principal towns. Those who composed the First American party were:

Governor R. C. Dillon, Albert F. Simms, L. C. Bennett, Arthur Prager, Dan Burrow, Blue Sky Eagle, Wayne Wolf Robe, Morning Star, Edgar Knight, L. E. Pruffin, Clyde Eden, F. W. Fisher, Chester F. French, Douis Pieluck, Clyde Tingley, Sam G. Bratton, F. W. Darrow, R. P. Robinson, J. A. Hobbs, C. B. Redd, George Olson, Bernard Wile, D. B. McLee and Mr. and Mrs. Jules Allen of Taos.

## TWO TONS LOCAL WATER MELONS EN ROUTE TO CAPITOL AT SANTA FE

If the state officials and state house officials do not feel a bit sweeter after tomorrow, it won't be Artesia's fault. Two tons of water melons left by truck this morning for Santa Fe and after a night in cold storage will be served to Governor Dillon, state officials and state house employees on the capitol lawn tomorrow. The melons are being sent to Governor Dillon and his official family as compliments of the citizens of Artesia. One melon weighing 50 pounds was sent in the truck load to the governor with personal compliments of the grower, H. V. Barker of the Cottonwood community.

The enterprise is a result of the efforts of D. I. Clowe, mayor and Chamber of Commerce officials, L. N. Kremer and Fred Brainard, under whose supervision the melons will be served. Several local citizens accompanied the melons to Santa Fe. Included in the number is S. S. Ward, Fred Brainard, L. N. Kremer, E. H. Perry and D. I. Clowe.

## USED CAR SALE CONTINUED

The Jackson-Bolton Chevrolet Co., will continue their used car sale through the month of August. "We have made attractive prices on every used car in our stock, so that we may make room for our new car stock this fall," Mr. Bolton said. See the Jackson-Bolton announcement in this issue.

## Ginning Rate Hearing Is Held Here Yesterday

New Rate To Be Announced Between Now And Opening Of Ginning Season—To Hold Another Hearing At Las Cruces Today.

Hugh Williams, chairman of the state corporation commission and H. S. Bowman, commerce clerk and C. A. Callender, clerk, all of Santa Fe, spent several hours here yesterday, looking into the matter of establishing a uniform ginning charge for all gins in the Pecos valley. Representatives from practically every gin in the valley attending the hearing, which opened at 2:00 p. m. at the Central school building. The hearing was the result of a petition filed by the Artesia Alfalfa Growers Association on July 15 and joined by several other gins, asking that a uniform ginning rate be established in the valley.

In gathering data for a decision in the case, several gin owners and proprietors were asked to testify before the commission representatives, as to the ginning costs, monies earned by the gin companies, average expenses and the amount of depreciation. Testimony of the various gin men made under oath was taken. Mrs. Ethel Lewis and will be transcribed for the records of the commission in arriving at what they believe to be a fair ginning rate.

J. H. Jackson representing the petitioner or complainant discussed the proposition before the commission. Several lower valley gins were represented by E. K. Neumann of Carlsbad, who asked the commission to establish a rate commensurate with a fair margin of profit. In presenting his brief, Mr. Neumann gave the cost of operations with the average ginning charge of seven gins in his territory.

In concluding the hearing Mr. Williams, spokesman for the corporation commission, promised a speedy hearing. He informed the ginmen present that President Kent of State College would not issue ginning permits until the new rate was announced, which would be sometime between now and the opening of the cotton season about the 25th. He said, however, that gins would continue to operate under the old rates until the new tariff was filed.

The commission representatives left yesterday evening for Cloudcroft, where they spent the night, proceeding on to Las Cruces, where they will hold a hearing on the charges made in compressing cotton.

## CALIFORNIA LEASE HOLDER HERE

Irvin M. Grodin of San Francisco, California, was a pleasant caller at The Advocate office today. Mr. Grodin has been looking over the state generally and Chaves, Eddy and Lea counties in particular with a view to drilling several oil wells in the near future. He expressed himself as being well pleased with the prospects for continued development over the state and thinks that the southwestern portion will develop fast. While here Mr. Grodin complimented Artesia very highly on its progressiveness and also complimented The Advocate on its reliability pertaining news.

## REFINERY AT DAYTON NOW SHIPPING ROAD OIL TO NUMBER JOBS

The State Oil and Refining Co., is making regular shipments of road oil to the various highway projects. In addition to the shipments that have gone forward to the Clovis project, the Dayton refinery is supplying oil for the Dalmont project beyond Alamogordo and also for the exposition grounds of the First American at Albuquerque. Heavy rains this side of the Getty field have somewhat delayed the transportation of oil from the wells to the refinery.

## JAMES H. SNOWDEN DEAD

James H. Snowden, vice-president and active head of the Snowden-McSweeney Company and the United States Potash Company, who was a pioneer in potash research in southeastern New Mexico died in New York July 30.

TELEPHONE NO. 7

OFFICIAL NEWSPAPER FOR PUBLICATION OF  
NOTICES OF COMMISSIONERS COURT OF  
EDDY COUNTY

Hobbs boasts of a payroll of a million and a half  
dollars per month and further that the area stands  
first in the state in buying power. A two and a half  
million dollar pay roll is expected within the next  
twelve months.

The other day we read a definition of horse sense.  
Fifteen years ago one thought it strange for a horse  
to be afraid of an auto, but now a good many pedes-  
trians know why. The horse really had more sense  
than we gave him credit for.

The reason more towns have not been caught using  
the booze racket to build the city treasury as Hot  
Springs has done, is because they have never thought  
of it. Now that Hot Springs has given them an exam-  
ple, a few more towns will boom.

Hobbs is one town that isn't bothered with speeding  
on Main street, according to visitors. There are too  
many rough spots to run the risk of speeding. Aside  
from the discomforts, the system is pretty good. At  
least the pedestrian has an even break even on a crowd-  
ed thoroughfare.

We have recently heard the merits and the demerits  
of the oil roads in New Mexico cussed and dis-  
cussed. Being more or less ignorant of the cost and  
maintenance of the oiled roads, which have in the  
past been classed as more or less of an experiment,  
we could not join in the argument. But it would be  
interesting to know about the experience of the high-  
way department in this section, as to the first cost  
and subsequent cost of maintenance.

Bill Robinson of the Carlsbad Chronicle intimates  
that Bill Davidson, state highway engineer would rather  
build a highway from Hobbs into the valley via  
Dayton. Perhaps so. Artesians would accept such  
route rather than none at all. But Robinson's argu-  
ment that the road would miss Lovington, but that  
would be immaterial since Lovington is out of the  
picture, is illogical. Wait until the next twelve months  
rolls around and see if Lovington is out of the pic-  
ture.

## THE TEXAS CAVERN

Twelve thousand, one hundred and thirty-seven peo-  
ple visited the Carlsbad Cavern during the month of  
July last past. Of these, 13,525 were Texans, more  
than six times the number of visitors from any other  
state, Oklahoma being next with 1,924, New Mexico  
third with 1,849, California fourth with 622, Colorado  
fifth with 231, Louisiana 216, Kansas 206 and none  
other over 200.

There were visitors from 45 states, and also from  
the canal zone, Hawaii, Germany, Mexico, Holland,  
Philippines, Panama, Italy, Canada, Denmark, Africa,  
England, Armenia, Austria and Ecuador.

While the cavern business may not be an index to  
volume of tourist travel as a whole, especially in view  
of its Texas character, the comparative figures for the  
past six years are extremely interesting. The business  
started in 1924, and July of that year showed 341  
people. July 1925 it decreased to 338 and the next  
year is jumped six fold to 2,000; it tripled in July  
1927 with 6,881 people, increased 50 per cent to 8,  
523 in July 1928, doubled last year, reaching 15,649  
and increased a third this year to 20,137. Next year  
this freakish tourist business may take another 100  
per cent jump and attain 40,000 in July. The main  
point is that this one scenic attraction of New Mexico  
is actually bringing hundreds of thousands of people  
a year to the southeastern part of the state.

It must be remembered however, that only 3,000  
of these July 1930 visitors came from any great dis-  
tance, and that the national fame of the Caverns is  
yet to be developed on a large scale.

All of which, like Hobbs, shows that you never  
can tell. Twenty years ago anyone predicting a hole  
in Eddy county would bring 20,000 visitors in hot  
July would have been regarded as balmy on the well  
known crumpet.—Santa Fe New Mexican

## TIMES HAVE CHANGED

Some people can't seem to grasp the idea that con-  
ditions have changed and changed radically within the  
past ten or fifteen years. The general impression ap-  
pears to be that the newspaper publisher should be  
about the last one to learn of the changing times and  
should continue to use about the same business methods  
applicable to the pre-war period. It would be hard  
to accept wood on the subscription, because like every-  
body else, we've quit using wood for fuel. Neither  
could we accept pumpkins as payment because we buy  
our pumpkins in a tin can just as the modern farmer  
does. We drive a tin lizzy, possibly more than we  
can afford, but if we drove it much or little, the oil  
companies don't seem to be inclined to swap products.  
We have a printing press, but the government has never  
authorized up to print money and the risk is too  
great to shoulder such an undertaking at this stage of  
the game, so we have to find some way of paying our  
help. We don't have the old spinning wheel and the  
women folks have forgotten how to knit, and we are  
just as ignorant when it comes to tanning leather and  
making shoes, so we have to patronize the merchants.  
The banker has never indicated that he would loan us  
money with which to buy these things without interest  
or security, which makes another expense.

After all the operation of any modern business is  
expensive and unless the methods are efficient, the  
sheriff will eventually get a little fee out of a defunct  
concern when the notice of foreclosure sale is posted  
on the door.

The Chamber of Commerce at New Hobbs has ex-  
pressed appreciation to cities and towns of New  
Mexico in the effort of the latter to provide the Hobbs  
region with a western outlet. It is impossible to ride  
with any degree of comfort from New Hobbs to New  
Mexico cities, says the bulletin. Pecos valley towns  
appreciate the attitude of New Hobbs and pledge an  
increasing effort to get a better road connection to the  
oil region.

July and the early part of August has been the hot-  
test period on record in many places in the United  
States, according to the weather bureau. Wells have  
gone dry, river banks have receded and crops have  
burned up. We do not believe that the Pecos valley  
has entirely escaped the heat. Of course it has been  
hard on the folks in the heat affected area, newspaper  
men included. No man or woman is at his or her  
best, if compelled to endure sweltering heat.

## SAVINGS THOUGH SMALL ARE BIG STEPS TOWARD FINANCIAL INDEPENDENCE

By S. W. Straus, President of  
American Society for Thrift.

An interesting story, with a fine  
thrill application, is told about one  
of America's wealthiest men and  
most able financiers. When he was  
a boy he visited his grand-parents.  
In the household was an uncle who  
never appeared to be very busy. The  
boy's curiosity was aroused, so he  
asked his grandfather why it was  
that his uncle was able to lead such  
an easy life. "He used to work hard  
but he saved his money and now he  
is living comfortably on the inter-  
est," the grandfather replied.

This made a great impression on  
the boy. He had never heard of in-  
terest before but he thought that  
if it was such a powerful thing that  
it could relieve an elderly man from  
all financial worries, it must be fine.  
He resolved that he, too, would work  
hard and save all the money he  
could so that when he became old  
he could live on his interest.

One of the greatest advantages  
of practicing thrift lies in the fact  
that while we are earning an income  
during our active, productive years,  
we are also able to safeguard our-  
selves against the consequences of  
an enfeebled physical condition in old  
age, sickness, unemployment and  
other adversities.

The writer recently was told the  
story of a family in which there  
were seven wage earners. Five mem-  
bers of the family were earning \$150  
a month each, while two others  
earned \$250 a month each. This  
made a family income of \$1,250 a  
month yet it was stated that not one  
penny was saved. Then came un-  
employment for several members  
of the family and today they are  
far from prosperous.

Some other families with a far  
smaller income than this have been  
able to save systematically and safe-  
guard themselves against the days  
of unemployment and distress.

The building on an estate may  
seem to be a slow process but, as  
Benjamin Franklin said, money is  
of a prolific nature and begets  
money. When we begin saving regu-  
lar amounts, even though they be  
small, we have taken the first step  
toward financial independence.

## JUST KIDS—WHEN IT RAINED CATS AND DOGS. By Ad Carter

## INDUSTRY GIVES ATTENTION TO OVER BILLION PEOPLE

The oil industry are used practically everybody. A few stop to think that the industry employs directly some two million people. A billion barrels of oil are produced each year and has total value of eleven billion dollars. The barrels of crude oil in the United States in standard storage tanks (55,000 barrels each) have required nearly half last year's output. These 20,000 tanks had together in a single tank the way tank regularly laid out, the have covered 125

of storing last year's oil in a giant tank. It is a river of oil, 10 feet deep, and has been 1,000 miles long. The output of crude oil, which was transported through miles of trunk (large pipes) and gathering (small pipes). These pipelines average of about 2,500,000 barrels a day and it is an average of about 4 miles, or 100 miles a day. It is transported into the United States 70,000,000 barrels last year in by oil tank

one per cent of the oil produced and stored in 1929 at refineries. About half per cent was exported two per cent used for other purposes. In other words, 95.5 per cent of all oil produced in the U. S. was "used up." This year we produced 45,000,000 barrels of oil in the United States. The amount of domestic oil run is 75,000,000 barrels. Mexico oil were run 75,000,000 barrels of oil to stills (in-plant) it would have of the 45,000,000 barrels above together with 30,000,000 barrels that would have been in storage. Every barrel of crude oil run to stills in place of crude oil produced and, to that extent, in the domestic oil industry, it is slightly less than a barrel of crude oil refined.

Thus a few hundred companies practically control the oil industry because they control the price paid for crude oil and the price at which its refined products are sold.

Wedding Announcements and Invitations, Engraved or Printed—Advocate

less than 50 of the companies market half of the oil sold at filling stations. Other 50 per cent is marketed by thousands of marketers, of whom only one or two are very few of whom are organized chain of stations. The oil in the U. S. is produced by 40,000 companies, partner-ship—this crude is stored by about fifty companies—it is refined in about sixty really active refineries—by about two hundred companies—and the finished product is sold at something like 100 outlets. Companies and refiners are in strategic positions because it is understood that, in most cases, they "make prices" for oil and its finished products. There are only a few pipeline companies and

## INSIDE INFORMATION

When making apple jelly flavor a few glasses with mint and add green coloring. This will be appetizing to serve with lamb.

Take it for granted that your child will eat happily everything served to him, and be sure that he becomes acquainted with a variety of foods.

If your sewing machine has been closed for any length of time, it will probably need a thorough going over. Wipe and dust it carefully, fill your oil can with kerosene, oil every part and run it vigorously without thread until well loosened up. Then oil with good quality of machine oil and go over all parts again. Wipe and clean carefully, stitch on scraps until the thread is perfectly clean, and as a final precaution, tie a bit of wool on the presser foot above the needle to prevent any oil from running down on the work.

Fried okra is one of the vegetables that can be enjoyed from time to time in summer. Select young okra pods, wash them, and cut them crosswise in pieces between a fourth and a half inch thick. Allow 6 tablespoons of butter or 1 cup of salt pork, diced for cooking 2 quarts of okra. I salt pork is used, cook it in a skillet until crisp. Then remove the piece and use 6 to 8 tablespoons of fat. Put in the okra, cover and cook about 10 minutes, stirring frequently to prevent burning. Remove the cover and continue to cook until the okra is tender and slightly brown. Add the crisp pork and serve at once.

## TYPENWRITERS

New Woodstocks and Coronas, Rebuilt in all other makes at The Advocate.

The great bulk of the producers of crude oil and the marketers of refined products are in pitifully vulnerable positions. In point of numbers, the large majority of the producers of crude oil, the Independents (except a few of the larger ones), have nothing whatever to say about what they are to receive for their crude oil, regardless of what it costs them to find it and produce it. They accept what they can get for it. Likewise the great majority of the marketers of refined products, the Independents (except a few of the larger ones) have practically nothing whatever to say about the price at which they will retail their products. The other fellow fixes the price at which they sell.

Thus a few hundred companies practically control the oil industry because they control the price paid for crude oil and the price at which its refined products are sold.

## LOCALS

Mr. and Mrs. A. C. Brown were at home from Hobbs the first of the week.

Mr. and Mrs. J. M. Story spent Sunday at Clouderoft with Mrs. Lewis Story and children.

J. Clark Bruce brought his wife and baby girl home from St. Francis hospital in Carlsbad yesterday.

George Frisch made a trip to Hobbs last Thursday on business for the city. Mrs. Frisch accompanied him.

F. P. Jackson of Amarillo, Texas, former Artesia oil operator spent Tuesday here attending to business matters.

George Schneider and family of Amarillo, Texas arrived Sunday to spend a week or so visiting friends and relatives here.

Mrs. Lee Buck of the Cottonwood community returned home Saturday after making an extended visit with relatives near Blackwell, Oklahoma.

Lewis Story drove to Clouderoft Monday morning and brought his wife and children home, who have been spending a few weeks in the mountain resort.

Mr. and Mrs. A. C. Kimbrough and son, Wade, were in town from the ranch, near Lovington, Sunday morning, en route for a trip to Clouderoft and El Paso.

Mr. and Mrs. Ray Bartlett and children and Mrs. C. W. Bartlett left Sunday for a visit to Abilene and other points in Kansas. They expect to be gone about ten days.

Mr. and Mrs. F. G. Hartell attended the democratic meeting in Albuquerque returning Friday night. Mrs. Hartell was made a member of the committee to draw up a constitution.

Mrs. Valley Couch and Mrs. J. E. Willis and son and a friend of the latter arrived Monday from Dallas, Texas, for a short visit with the family of Rocky Kyle, who is a brother of the two ladies.

Mrs. Martha Harris returned the last of the week from Ruidoso, where she had been the guest for several weeks of Mrs. Wm. Pistole, who is there from Chicago, spending the summer in her mountain cabin.

Ralph Shugart, who is in charge of the audit of the state land office, expects to leave Sunday for Santa Fe, where he will be busy for the next three months. He will take with him a number of assistants among whom are Richard Wheatley and Donald Withington, who have been working with him here and in Roswell during the month of July. The boys will be in Santa Fe until the beginning of school.

## "HE GOT THE JOB"

(Letter of application by a Hindu, from Witter Bynner Collection).  
Most Honored Sir:

Understanding there are several hands wanted in your honour's department, I beg to offer my hand as to adjustment.

I appeared for the matriculation examination at Dotacamud but failed, the reason for which I shall describe to begin with my writing was illegible. This was due to climatic reasons, for having come from a warm to a cold climate found my fingers stiff and very disobedient to my wishes. Further I had received great shock to my mental system in the shape of death of my only fond brother—besides most honored sir, I beg to state that I am in very uncomfortable circumstances, being the soul support of my brother's seven (7) issue, consisting of three (3) adults and four (4) adults, the latter being bairn of my existence owing to my having to support my own two (2) wives as well as their issue, of which by God's misfortune the feminine gender predominates. If by wonderful good fortune these humble lines meet with your benign kindness and favorable turn of mind, I the poor mental shall pray for the long life and prosperity of yourself as well as your Honor's posthumous olive branches.

## MRS. SALTER DEAD

Mrs. Jennie K. Salter, wife of G. Salter, Roswell wool buyer, died on July 30th in Los Angeles. Mrs. Salter has made her home in Los Angeles for the past five years, going to the coast on account of her health. Deceased is survived by a husband, eight sons and one daughter.

### PICNIC SUPPER

The low score members of the Idlewhile Bridge club entertained the high score members at a lovely picnic supper on the lawn of the M. W. Evans home last Friday evening. The husbands of the club members were graciously permitted to participate in the feast and the bridge playing, which occupied the latter part of the evening.

### FIRST BRIDGE CLUB

The postponed meeting of the club was held at the home of Mrs. Jeff Hightower last Thursday afternoon, the hostess serving light refreshments to the regular club members and the following substitutes, Mesdames R. D. Compton, Beecher Rowan, Tex Henson, Stanley Blocker and Miss Aline Rowan.

### BRIDGE PARTY

Honoring her mother, Mrs. Wm. Compton, Mrs. R. D. Compton entertained three tables of bridge on Tuesday afternoon, serving delicious refreshments. In addition to the honoree and members of the Second Bridge club the guests were Mesdames J. H. Nellis, J. H. Jackson and E. M. Phillips.

### THE PASSTIME CLUB

The Passtime club met at the home of Mrs. Lapsley on Tuesday for its regular meeting. Mrs. Bulot won first prize and Mrs. Ted Everts, consolation. The usual light refreshments were served. Substituting were Mesdames Alta Linell, George Blakeney and Ted Everts.

### THE YOUNG MOTHER'S CLUB

The club held its annual election of officers at its meeting at the home of Mrs. Jack Clady last Friday afternoon. Mrs. C. A. Bulot was elected president, Mrs. Rocky Kile, vice-president and Mrs. Morrison Livingston secretary and treasurer. Mrs. Les Barnes was elected to membership. The club members and children and a few guests enjoyed a swimming party and picnic lunch at the Oasis last Wednesday afternoon. The guests were Mrs. Z. B. Moon, Mrs. DeBarry, of Wilson, Oklahoma, who is visiting her daughter, Mrs. Barnett and Mrs. Les Barnes.

### BRIDGE PARTY

Miss Katherine Clarke was hostess to four tables of bridge Monday evening, complimentary to her house guest, Miss Linette Gooden of Carlsbad, also the Misses Muriel and Dorothy Henderson. High score was won by Miss Dorothy Henderson and refreshments were served in two courses. In addition to the honorees the guests present were the Misses Ethel and Edna Bullock, LaRue Mann, Aline Rowan, Mary Jane and Alice Ruth Williams, of Hope and their house guest Mary Alice Waldron of Portales, and Emily Wood, and Mesdames Howell Gage, Joe Hamann, Carl Joiner, Tex Henson and Landis Feather.

### FORTNIGHTLY BRIDGE CLUB

The club was entertained at one o'clock luncheon by Mrs. C. R. Blocker at its regular meeting on Tuesday. Substituting were Miss Dora Russell and Mesdames L. N. Kremer, Landis Feather and Stanley Blocker.

### FORMER ARTESIA GIRL IS MAIRRIED RECENTLY

Mr. and Mrs. E. D. Wells of Tucumcari have announced the marriage of their daughter, Pauline to Wilson D. Dougal of Cleveland, Ohio, on July 26th. Mrs. Dougal formerly lived in this section and attended the Artesia high school. She is a sister of Miss Eunice Wells, of Dallas, Texas, who is connected with the Dallas Chamber of Commerce. Another sister, Mrs. Houston Felton lives in the Cottonwood community.

### LARGE CROWD ATTENDED THE DANCE AT ROOF GARDEN FRIDAY NIGHT

A nice crowd turned out for the dance given at the Artesia hotel roof garden on last Friday evening. A number attended from Carlsbad and Roswell. The music was furnished by Bunney Bennett's orchestra from Albuquerque.

Typewriter Ribbons--The Advocate

## Social Calendar

TELEPHONE 217

### MONDAY

The Legion Auxiliary will meet with Mrs. Gail Hamilton at 2:30 p. m.

### TUESDAY

The First Bridge club will meet with Mrs. C. Bert Smith at 2:30 p. m.

The Idlewhiles Bridge club will meet with Mrs. Jim Berry at 2:00 p. m.

### DANCING PARTY

Mrs. Mabel Welton gave an informal dancing party last Friday evening complimentary to Mr. and Mrs. M. H. Ferriman of Longmont, Colorado. The company was composed of old friends of Mr. and Mrs. Ferriman, those invited being Messrs. and Mesdames M. A. Corbin, S. E. Ferree, J. J. Clarke, V. L. Gates, C. M. Oliver, G. R. Brainard, J. P. Lowry, Earl Bigler, C. A. Bulot, Beecher Rowan, and F. G. Hartell and Mesdames Jeff Hightower, Martha Harris and E. J. Brooks.

### SMITH--DUNCAN

Local people will be interested to learn of the marriage of Miss Ethel Smith to Mr. Ralph Duncan, which occurred at Lovington, Saturday afternoon. After the ceremony the newlyweds departed for Hamilton, Texas, where they will spend a short time visiting with the parents of the bride. They were accompanied by Mrs. Leon Barker, sister of the bride and Mr. Barker.

Mrs. Duncan has been employed as bookkeeper at Dr. Loucks Garage and Mr. Duncan has a good position with the Texas Oil Co. After a short honeymoon spent in Texas, they will return to Artesia to make their home.

Elnora Gage returned last week from a visit to relatives at Elida.

C. H. Quinn of Hobbs was attending to business matters here Tuesday.

Miss Vesta White went to El Paso, Texas Tuesday for a fortnight visit to relatives.

Mr. and Mrs. Tex Henson have moved into the new Rowan cottage on South Roselawn avenue.

George Martin came in from Portales Saturday for a week's visit with his brother, Leslie Martin, at Alfadale.

Mrs. E. B. Fisher came from Pampa, Texas Monday to join her husband, who is chemist for the Dayton Refinery.

Vernon Bolton, son of Mr. and Mrs. V. D. Bolton underwent an operation for the removal of his tonsils and adenoids yesterday.

Mrs. Luna Osborn came down from Roswell this morning for a short visit with Mrs. J. H. Jackson. She will go from here to Carlsbad on business.

Frank Donahue drove over to Hobbs Thursday, where he went to look into the proposed paving program at Hobbs with a view to bidding on the project.

Mrs. George Johnson returned last week from Abilene, Texas, where she had been with her mother, who was recovering from an operation. She left her mother improving satisfactorily.

Mr. and Mrs. M. A. McLean and daughter, Nina Mae, drove to Big Spring, Texas, yesterday with Mrs. McLean's parents, Mr. and Mrs. W. L. Byrd, who have been here a month visiting.

Mr. and Mrs. M. A. McLean and small daughter, Nina Mae, and Mrs. McLean's parents, Mr. and Mrs. W. L. Byrd, drove up to the Girl Scout camp in Bear Canyon, Sunday to see Glenna McLean, who is one of the Artesia girls spending a fortnight in the camp.

## NORMAL UNIVERSITY IS LOOKING FORWARD TO GREATEST YEAR 30-31

As shown by the fall bulletin of the New Mexico Normal University, which has just been published, the Normal University here is looking forward to 1930-31 as the most successful year in its thirty-six years history as a college of higher learning.

With eight major departments, 6 of them headed by Ph. D.'s a considerably enlarged faculty, and the finest prospect for victorious athletic seasons, the Normal U. is expecting a record enrollment when the college opens September 15.

Three new instructors have been added to the faculty for the next year. Dr. F. W. Emerson will head the biological sciences. S. J. Wanous, M. A., is to be the head of the department of commerce. Wanous is planning to make his department one of the finest in the state, having added several new courses to completely modernize it.

Miss Vera Buck, A. B., has been elected temporary head of the Spanish department. She is exceptionally able in her field.

Miss Frances Cronin, A. B., B. of M. E., will direct the musical activity of the college next year. She replaces Inez Donaldson, resigned. The Normal has prospects for a football team which will lead the intercollegiate field this fall. Eight letter men from 1929 will return. The Cowboy schedule for 1930 is: Sept. 27-30--New Mex. Aggies, Las Cruces.

Oct. 4--Military Institute, Roswell.

Oct. 17--Wayland College, Plainview, Texas.

Oct. 24--State University, Albuquerque.

Nov. 1--School of Mines, Las Vegas.

Nov. 11--State U. Frosh, Las Vegas.

Nov. 22--Panhandle Aggies, Raton.

Amarillo Jr. College (date to be closed).

### YOUNG GIRL RECEIVES A FINE VIOLIN

Norma Christman is the happy possessor of one of the famous Stradivarius violins, than which there are none better. The instrument was recently sent to her by her father, James Christman, who received it in payment for a course of instruction in flying, at the flying field at Shamokin, Pennsylvania. The instrument bears the name of the maker, Antonio Stradivarius, Cremona, Italy, with the date 1721, which makes it 209 years old. Age being a most desirable quality in violins, together with the name of the maker, makes this instrument a great prize for the young girl, who has been taking lessons on the violin for some time.

### DR. SCARBOROUGH AT BAPTIST CHURCH SUNDAY

Dr. L. R. Scarborough, president of Southwestern Baptist Seminary of Ft. Worth, Texas, and one of the greatest preachers in the south, who is now conducting a protracted meeting at Roswell has consented to preach at the Baptist church Sunday afternoon at 3:00 p. m. Prof. Garnett, teacher of music in the Seminary, and a very fine gospel singer will be here and sing in the same service. These two men are each a master in his line. It will be a great opportunity for the people of Artesia to hear these two outstanding men. You are most cordially invited to this service Sunday afternoon at the Baptist church.

### R. PETERSON, Pastor.

### AN OPEN LETTER

As I made the promise for the benefit of the public that helped me in the drive to raise money to be used for missions, I am having published the following acknowledgment of receipt of the money that was collected and sent to our Baptist headquarters at Albuquerque, N. M., and through this publication I wish to thank one and all that helped me raise the amount indicated. Thank you all.

### FLAVIA PELAEZ.

### MONTEZUMA ASSEMBLY, Albuquerque, N. Mex., July 18, 1930

Mrs. Flavia Pelaez, Artesia, N. M. Dear Mrs. Pelaez:—

I received your letter of July 15th, enclosing \$21.05 for our mission causes. I want to thank you sincerely for this splendid gift. I appreciate your interest in our Master's cause and trust that you may, now continue to be well and that many spiritual, as well as temporal blessings shall come to you. The money which you sent will help all of the causes of Christ as represented by New Mexico Baptists.

Very respectfully,  
C. W. STUMPH,  
Corresponding Secretary, Baptist convention of New Mexico. 34-lte

**NUMBER OF LOCAL MEN RECEIVE SENTENCES IN FEDERAL COURT SAT.**

ALBUQUERQUE—Forty-two defendants, twenty-four of whom pleaded guilty, were arraigned before Judge Colin Neblett in federal court Saturday. Twenty of the group were sentenced, with decision in the remaining cases postponed by the court.

The stiffest sentence, a three-year penitentiary term, was handed to Ralph M. Linto, who violated the Dyer act by bringing a stolen auto from California to Deming, N. M. Three other persons held under the Dyer act charges were arraigned. Clay E. Woodson, alias F. M. White pleaded guilty to bringing a stolen car from Texas to Roswell, and was sentenced to two years in a federal reformatory. Arthur J. Coppio pleaded not guilty, and his trial was set for today. J. C. Martin, who entered the same plea had his trial Monday.

Smuggling liquor into the United States in violation of the tariff law resulted in six-months jail terms being meted out to Guadalupe P. Chavez and Luis Ruiz. Pablo Ortiz got 30 days on the same offense.

Defendants in prohibition cases who pleaded guilty were sentenced as follows: Onofre Zamora, Gallup, 90 days; Francisco Vega, Roswell, six months; Silvestre "Happy" Dominguez, Artesia, 90 days; E. E. Sutton, Artesia, 90 days; Ricardo Merino, Carlsbad, 90 days; Mrs. Miricana Merion, 2 years probation; Harry Taylor, 60 days; Mary Taylor, 2 years probation; D. E. Smith, Artesia, four months; Ben Smalling, Navajo Indian, \$100 fine.

**ANSWERING A PEST**

A certain well-known business man who is noted for his quietness, was in a Pullman smoker when the general pest well-known for his inquisitiveness, approached him and attempted to start a conversation with this question:

"How many people work in your office?"

"Oh," replied the quiet gentleman getting up and throwing his cigar away, "I should say, at a rough guess, about two-thirds of them."

Individuality in the new car in the low priced possible with the new wire or disc wheels. The new Chevrolet six disc wheels were standard except for sport models. The wire wheels were made in the factory. Since the beginning of July, all passenger cars shipped with wire disc wheels also are made to accommodate those who prefer this type.

The new equipment is finishing up a wide variety of colors with the body trim of the new body models. The new combinations used on the added color hardware on the new wheels, that the purchaser of a low priced field will be able to get greater individuality than was possible heretofore.

During the work season feed the farm horse at regular intervals. He needs concentrated feed for energy to do hard work, and the feeding of quantities of roughages in the work season should be limited to periods of rest. Excessive feeding of hay is inadvisable; it is expensive, reduces the horse's efficiency and may cause respiratory troubles. Give about two-thirds of the daily hay allowance at night, most of the remaining hay in the morning, and only a small amount at noon. Some hay should be fed before the night grain ration. If the horse does not clean up the grain ration in a reasonable time, reduce the quantity.

**BILLION VISITS SCOUT CAMP SUN.**

Gov. Governor's Day at the camp in Bear Canyon. The Congressman Albert Simms and Harry Andrew were on the program at the scout camp on Monday. The governor and the camp early in the day and were the center of the large crowd, which gathered for the day. At noon a dinner with delicious food was served to the campers, numbered five or six. Mrs. E. A. White, of Roswell, who contributed the "entree" with her home. The campers were for six weeks in the shade of the mountains.

Elizabeth Stier was the past president. Mrs. Tom Wright was the new president. Mrs. E. A. White, of Roswell, was the new president. Mrs. E. A. White, of Roswell, was the new president.

Onions for storage should be well ripened and thoroughly cured. Do not store "thick necks," or those that are immature or soft. Good storage onions will rattle almost like blocks of wood when poured from one container to another.

The feeding of some of the succulent feeds to cows too close to milking time is likely to cause undesirable flavors and odors in the milk, says the U. S. Bureau of Dairy Industry. Some of these feeds are: green alfalfa, cabbage, turnips, rape, and kale; and silage made from corn, alfalfa, sweetclover or soybeans. It is well not to feed these feeds within a few hours before milking.

After the lambs have been weaned or marketed, it is a good time to dispose of ewes that are undesirable for another year's breeding. Ewes of the mutton breeds do not ordinarily breed well or keep in good condition after five years of age, though their usefulness depends more on the condition of their teeth than on their age. Fine-wool ewes usually are useful to a later age. Mark nonbreeding ewes, poor milkers, light shearers, and mothers of inferior lambs when these defects are discovered, and dispose of such ewes. Aged ewes should be sold before they become too run down to be valuable to the butcher.

Contract calls for the delivery of 50,000 pairs of plates for pleasure cars; 15,000 for trucks; 1,000 for buses, taxis and driverless cars; 500 for the highway department; 500 for other official cars and trucks (state, city and county); 250 for United States official cars; 300 for dealers; 850 for trailers; 250 for motorcycles, and 200 samples. The prices are 5 cents for duplicates and samples; 6 cents for trailer and motorcycle plates and 35 cents for all others.

These ex-Arkansayers know their okra when it comes to selecting good reading matter as evidenced by the fact that three residents of the Cottonwood community, Messrs. J. C. Garner, E. E. Wood and F. A. Malone have recently authorized us to place their names on the Advocate subscription list. We are not prophets, but predict that one of these three men may be governor of the state some day, if they read the Advocate long enough.

**CHEVROLET ANNOUNCES DE LUXE WIRE WHEELS at no extra cost**

Chevrolet again adds extra value to the Chevrolet Six! Those who prefer may now have any passenger model equipped with beautiful de luxe wire wheels—at no additional cost!

there is an unusually large number of spokes —for extra strength and durability!

**A variety of attractive new colors**

Designed especially for Chevrolet, these wheels incorporate many important features that have won favor on cars much higher in price.

In addition to this de luxe wire wheel equipment, Chevrolet now makes available a wide choice of new color combinations on all models —colors that are rich and distinctive.

The ornamental hub caps are unusually large, and are finished in sparkling chromium plate. The bolts that hold the wheel in place are located inside the hub—thus assuring a smarter, more clean-cut appearance. The spokes are short and sturdy—the wheel construction is extremely rugged. Moreover,

You are invited to come in—NOW—and attend the first showing of six-cylinder Chevrolet models with these striking new colors and wire wheels.

## THE CHURCHES

CHRISTIAN SCIENCE SOCIETY  
613 W. Main Street

Sunday services at 11:00 a. m.  
Wednesday services at 7:30 p. m.  
Subject of the Bible lesson for Sunday, August 10, 1930 is "Spirit." In this lesson the following scriptural selection is found: "The spirit is life, because of righteousness."—(Rom. 8:10).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 334. "Spirit being God, there is but one spirit, for there can be but one infinite and therefore one God." Visitors always welcome.

FIRST CHRISTIAN CHURCH  
6th and Quay Streets  
Ralph Waldo Emerson, Pastor

Bible school at 9:45 a. m.  
The church attendance has been good regardless of the hot weather and many plans are being made for the fall work. Sunday morning services at the usual hour and in the evening the fourth of a series of sermons, which have been causing a great deal of comment and increasing interest will be given. The message will be on the great restoration movement.

Word has been received from Rev. Will J. Wright, evangelist, while vacationing in Chicago, expressing his desire and expectation of great results in our October campaign which he will conduct for us.

FIRST BAPTIST CHURCH

Last Sunday was perhaps the warmest Sunday so far this summer. Considering the heat our attendance was very good. With the assistance of our fans our people keep very comfortable. We are glad to see the interest during the summer months. Our members who are here should all feel their responsibility in helping to sustain the work during the vacation season.

Next Sunday morning the pastor will speak on, "The Gospel, a System of Mercy, Truth and Power." We hope the gospel will mean more to you after you hear this sermon. At the evening hour the subject will be, "The Fountain of Life." What is the fountain of life, what does it do and who are its beneficiaries? Our orchestra and choir will furnish us some good music. We hope to have some special music. We try to make our services as helpful as possible. We shall be glad to have you share the blessings of God with us. You are most cordially invited to all our services.  
R. PETERSON, Pastor.

FIRST PRESBYTERIAN CHURCH  
Fourth and Grand  
Rev. John P. Sinclair, Pastor  
Phone 249.

9:55 a. m. Sabbath school.  
Services will be held at 11:00 a. m. and 8:00 p. m.

7:00 p. m. Christian Endeavor, Junior and Intermediate groups.  
The pastor will be back in his place after a five weeks stay in Chicago during which time he attended the Theological Seminary. Let us have good attendances at both services.

BAND CONCERT

The Artesia Municipal Band will give the weekly band concert at the City Park, Friday evening. Owing to illness, the band concert last week was postponed and the program that was arranged for last Friday will be given the coming Friday evening.

ASSEMBLY OF GOD CHURCH  
2 Blocks North of Post Office  
Rev. A. Davis, Pastor.

10:00 a. m. Sunday school.  
11:00 a. m. morning worship.  
6:45 p. m. Christ's Ambassadors.  
6:45 p. m. Bible study for adults.  
8:00 p. m. evening worship.  
Tuesday evening, prayer meeting.  
Friday evening young people's services.

Everyone welcome, we invite you to come and worship with us.

METHODIST EPISCOPAL CHURCH SOUTH  
Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel."  
9:45 a. m. Sunday school. George Frisch superintendent.

The attendance at Sunday school last Sunday was very good indeed, there were more children than there had been since vacation began and if the mothers and fathers had attended in like proportion we would have had a record breaking attendance.

At 11:00 a. m. morning worship. The pastor's theme this Sunday morning will be, "No Axe, Nor Hammer, Nor Any Tool of Metal."  
Epworth League for both Junior and Senior divisions 7:00 p. m.

8:00 p. m. evening worship. Theme "How To Be Happy and Successful in Life."

Last Sunday was the hottest Sunday in the year, yet there was a good congregation at the morning worship, there were no heat prostrations reported. The worship services are limited to forty-five minutes.

## How to Raise Poultry

By Dr. L. D. LeGear, V. S.  
St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and popular lecturer.

### "TURKEY WILD" LOSING GAME

The man who invented the phrase "wild goose chase," could just as well have substituted a turkey for a goose so far as the popular impression of the latter bird is concerned. Most farmers still believe that the turkey is wild and is never happy unless he can have the run of the place. There are a lot of superstitious beliefs about turkeys and this one in particular has a good foundation. The wild turkey is native of North America. They were discovered in New England by our colonists and taken to Europe. In the early days they were forest birds and lived upon nuts, berries, and the other natural foods of the woods. In spite of this early history of the turkey it is now known that they are gentle by nature and can be very domestic if trained in the right way. The farmer who thinks he cannot raise turkeys because he has no trees on his place is still thinking of stories he has read about the Pilgrim Fathers and their hunting parties.

Experience has proven that the turkey can be raised in confinement with the same success as the chicken. Many breeders, for instance, have used artificial incubation, brooding and confinement of turkeys for several years with excellent results. The reason for this is very clear when you consider that the main drawback to turkey raising is the disease called Blackhead. When the turkey flock is allowed to run at will it mixes with the chickens and it goes onto ground that is contaminated with the blackhead germs. The first and foremost warning is never to let your turkeys and chickens mix.

The reason turkey raising has held up at all is the price the market pays. Time and again breeders have found that by losing 50 per cent of the flock they still make money. When you consider how easy it is to reduce these losses to from 10 to 20 per cent it is not surprising that many farmers are turning to turkeys who a few years ago swore they would never get into the business again.

Under the confinement plan turkeys can be kept on fresh soil and the food regulated. Young turkeys especially have big appetites and if allowed to run and eat without restriction will have difficulty pulling through. Turkeys are creatures of habit and environment. If you use natural or artificial means of incubation you have the poult under easy control from the very start. Your brooding methods can be as simple or as elaborate as you want. Use a brooder house so as to keep the poults away from the hens. This is the only safe plan as it guards against brooder house will allow you to move frequently on to new ground. Once they are past the danger stage they may be put into fenced yards the same as chicks.

As one authority has stated it, the platform of successful turkey raising is clean feed, clean water, and clean range. All three of these can be enforced when raising turkeys in confinement.

There are so many examples of farmers on adjoining land raising turkeys under the two plans that I have no hesitation in recommending confinement. It is not unusual to raise 90 per cent of the hatch in confinement with neighbors next door losing from 35 to 80 per cent under the old plan. Another advantage of yarding is that the young turkeys are not run to death.

### CROSSED WIRES

One evening a young business man called up his best girl.  
"Hello Mary, is that you?"  
"Yes, George dear."  
"What are you doing?"  
"I'm all alone this evening."  
"Gee I wish I was there."  
"I wish so too."  
"If I were there, do you know what I'd do?"  
"What would you do George?"  
Just then the wires became crossed and this is what Mary heard:  
"Well, I'd pull back her ears until she opened her mouth and then I'd put in a lump of mud. If that did not answer, I'd give her a sound thrashing."

And the local veterinary surgeon remarked that anyone who would advise him to cure a balky horse by putting his arms around the animal's neck and whispering words of love in its ears ought to be strung up to the nearest lamp post.—Deming Headlight.

### WILL YOU TELL

Our advertisers, please, that you noticed their advertisement in The Advocate.

## THE WEST MAKES A 32-7 PERCENT GAIN IN THE PAST TEN YEARS

WASHINGTON, D. C.—A 32.7 per cent population gain was made by the geographical section designated as "The West" during the decade just past. This section, comprising Pacific and Rocky Mountain states increased by 2,911,200.

The 1930 total was 11,814,172, as against 8,902,972 in 1920.

This jump, greater in percentage than the growth of "The North" or "The South" was due to the coastal influx, particularly in California.

The Rocky Mountain states, numbering eight, which showed a 26.7 per cent growth in 1920 to compare with the coastal 32.8 per cent, had slowed down to a 9.8 per cent increase in 1930.

But Washington, Oregon and California had jumped to a 46.4 per cent gain over the 1920 figure. In 1920 the census bureau figures showed 8.4 per cent of the total population living in "The West." The 1930 percentage has not been figured.

Montana, decreasing by 2.8 per cent was the only state showing loss. Colorado was the first mountain state ever to number more than a million inhabitants, with a 1930 total of 1,033,156.

The population of the mountain states, with their percentages of increase in the two decades follow:

	1930	1920	1910
Montana	533,519	x2.8	46.0
Idaho	437,440	1.3	32.6
Wyoming	224,693	15.6	33.2
Colorado	1,033,156	9.9	17.6
Utah	503,640	11.8	34.9
Nevada	90,559	16.9	x5.5
New Mexico	418,932	16.2	10.1
Arizona	421,621	23.7	63.5
Totals	3,662,560	9.8	26.7

Mountain states:  
1920 total, 3,336,101; increase 702,584, or 26.7 per cent over 1910.  
1930 total, 3,662,560; increase 326,459, or 9.8 per cent over 1920.  
x-Indicates decrease.

# ANNUAL QUESTIONNAIRE IS BEING MAILED OUT BY HIGHWAY DEPT.

SANTA FE—The mailing out of  
the annual tourist questionnaire to  
all hotels, garages and touring bu-  
reaus who have cooperated by send-  
ing back answers in the past, is now  
under way from the state highway  
service bureau office.  
The purpose of the questionnaire  
this year is in part the same as  
previously. It asks questions re-  
garding tourist flow which when the  
answers are compiled are invaluable  
in planning the following year's  
work. Touring work from this part  
of the year on is pointed ahead,  
the tourist year being figured from  
midsummer to midsummer, it was  
stated at the bureau.  
Added to the above idea this year  
the questionnaire frankly asks the  
opinion of the persons receiving the  
questionnaire cards on the tourist  
advertising work which has been  
carried on by the service bureau.  
This is thought to be one of the  
first instances of such a bureau  
laying itself open to adverse criti-  
cism, but the bureau employees state  
that only by facing facts whatever  
they may be can they so change  
and enlarge their work to get the  
greatest efficiency.  
Following the recent order of the  
governor regarding the participation  
of New Mexico in the World's Fair  
to be held in 1933 the questionnaire  
card asks for a sort of straw vote  
on this topic by those most directly  
affected by state advertising.  
"We hope that the part of the  
public receiving these cards will  
realize how imperative it is to any  
successful advertising work that such  
data as this be collected," a service  
bureau employee said. "If we get  
a full return on the cards we will  
have a true picture of touring busi-  
ness in the state and also what  
should be done in the future."

# NOTICE

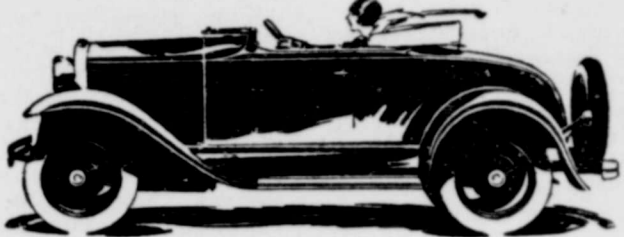

LISTEN FOLKS—its all a mistake about us quit-  
ting the Barber business . . . in fact we are going  
stronger than ever . . . we have established our  
shop on Roselawn, directly in front of the tele-  
phone office . . . here you will find the same  
service which we have prided ourselves in render-  
ing for the past fifteen years . . . you will find our  
shop spic and span at all times and as you know  
we have no room for a barber unless he can render  
the best of service.

**YES WE ARE THE ORIGINATORS OF THE  
SOFT WATER**  
and our plant is large enough for you to have all  
the Soft Water you want  
**FREE OF CHARGE**

If you believe in us as we believe in Artesia—  
then we will meet you on Roselawn.

# A Great Clearance of USED CARS

## Continuing the Entire Month of August

We have cut prices and in addition have given our Used Cars extra re-  
conditioning . . . painting and overhauling motors, replacing old tires with  
new. Every okeyed Used Car, either four or six, must be sold this month  
in order that we may make room for our new car stock this fall.

We have placed some unusually good prices on this bunch of okeyed Used  
Cars and have forgotten our loss and are only thinking of selling our en-  
tire stock of Used Cars this month.

Small down payments . . . convenient G. M. A. C. terms . . . we will  
trade . . . attend this sale today while you have a large selection to  
choose from.

JENSEN if living but if dead all his unknown heirs, the AETNA BUILDING ASSOCIATION, a Corporation, and all unknown persons who may claim any lien, interest, or title adverse to the plaintiffs, Defendants.  
No. 5024.

**STATE OF NEW MEXICO:**

To Katherine Halsey, formerly known as Nannie Fletcher, if living but if dead all her unknown heirs, G. C. Jensen, if living but if dead all his unknown heirs, and all unknown persons who may claim any claim, interest or title adverse to plaintiffs,

**GREETING:**

You and each of you are hereby notified that a Civil Action is now pending in the District Court of Eddy County, New Mexico wherein J. M. Jackson and J. H. Jackson are plaintiffs, and you and each of you are the defendants, Cause No. 5024 on the Civil Docket of said district court; that the general nature and object of said action are to quiet and set at rest the title of the plaintiffs in and to the following described real estate, premises, interest in artesian well, and ditch right of way situated, lying and being in the County of Eddy, State of New Mexico and more particularly described as follows, to-wit:

The Southeast quarter of the Southeast quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ ) of Section Twenty-one (21), Township Seventeen (17) South, Range Twenty-six (26) East, N. M. P. M., containing 40 acres, as per U. S. Government Survey and also a 1-7 interest in and to an artesian well located on the northeast quarter of the northwest quarter of Section 28, Township 17 South, and Range 26 East and of the water flowing therefrom and contained therein and also an easement or ditch right of way through which to convey the said water to the said SE $\frac{1}{4}$  of the SE $\frac{1}{4}$  of Sec. 21, Twp. 17-S., and Range 26 East, beginning at the said well thence north 70 feet; thence south 78 degrees and 30 minutes, east 475 feet to a point 41 feet north of the southeast corner of the northeast quarter of the northwest quarter of Sec. 28; thence east and parallel to the south line of the Northwest quarter of the Northeast quarter of Section 28, to a point 41 feet north and 600 feet west of the southeast corner of the northeast quarter of Section 28; thence in a northeasterly direction to a point 61 feet west of and 610 feet north of the southeast corner of the southwest quarter of section 21; thence east to a point 8 feet east and 45 feet north of the southwest corner of the southeast quarter of the southeast quarter of section 21, this being the land onto which water is intended to be used, and to bar and estop you and each of you from having or claiming any right, title or interest in or any lien upon or against said property adverse to the plaintiffs.

You and each of you are further notified that unless you enter your appearance in said cause at the Court House in Carlsbad, New Mexico on or before Monday, September 15, 1930 judgment will be rendered against you by default as prayed for in plaintiffs' complaint.

You are further notified that J. H. Jackson, whose postoffice address is Artesia, New Mexico, is attorney for plaintiffs.

WITNESS my hand and seal as Clerk of said Court this the 12th day of July, 1930.

(SEAL)  
THELMA T. LUSK, (Signed)  
31-4t County Clerk.

**NOTICE OF PENDENCY OF SUIT  
In The District Court Of Eddy  
County, State Of New Mexico**

**THE CHRISTIAN WOMEN'S BOARD OF MISSIONS, a corporation, Plaintiff**  
Vs.  
WILLIAM E. CLARK & GRACE H. CLARK, HIS WIFE, JAMES H. CLARK, M. O. WILLIAMS, B. P. WILLIAMS, LENA E. McCANNE & DAVID J. McCANN, HER HUSBAND, AND ALL OF THE UNKNOWN HEIRS OF EACH AND ALL OF SAID DEFENDANTS AND ALL UNKNOWN CLAIMANTS, Defendants.  
No. 5029.

To each and all of the above named defendants:  
You and each of you are hereby notified that a suit has been filed against you by the above named Plaintiff, in the above named court, cause Number 5029, in which the said Plaintiff prays for a decree against you and each of you,

1. Declaring and adjudging that none of you, the said Defendants, have any estate, title or interest whatsoever in or to the following described lands and premises to-wit: The east half of the southeast quarter, and the southeast quarter of the northeast quarter of section eight (8); and the west half of the southwest quarter and the southwest quarter of the northwest quarter of section nine (9), all in township 16 south, range 26 east, N. M. P. M., together with two flowing artesian wells, one, six inch, and one, eight inch, located on said premises and full water rights therefrom.

2. That the Defendants and each of them be forever enjoined and debarred from asserting any claim whatsoever in or to said lands and premises adverse to Plaintiff, and that Plaintiff's title to said premises be forever quieted.

You and each of you are further notified that unless you enter your appearances in said cause on or before the 12th day of September, 1930, a decree pro-confesso will be taken and rendered against you and the relief prayed for in Plaintiff's Complaint will be granted.

Plaintiff's Attorney is G. U. McCrary, and his Post Office Address is Artesia, New Mexico.

Signed and dated this 23rd day of July, 1930.

(SEAL)  
THELMA T. LUSK,  
32-4t District Clerk.  
By Norma T. Powers.

**LIVESTOCK SHOWS AN  
INCREASE IN THE  
EDDY CO. VALUATIONS**

In referring to the Eddy county tax valuations, which is \$8,985,670, exclusive of corporation property, the Current-Argus of Carlsbad says:

The number of cattle in the county jumped from 13,217 last year to 20,991 this year, and the valuation from \$189,315 to \$517,365. More certain taxation methods this year than last are believed to account for much of the increase.

The number of sheep went from 30,870 in 1929 to 41,792 in 1930, and the valuation went from \$183,660 to \$227,740.

And as the sheep increased, so did the goats. The goats numbered 5,640 last year and were valued at \$12,960. This year the number is 8,762 and they are valued at \$17,430.

Without material change from last year—there are a total of 2,945 horses and mules in the county, valued at \$108,229. There are 243 hogs, valued at \$1,770.

Agricultural land joined in the general increase, going from 40,644 acres and a value of \$2,111,220 last year to 44,448 acres and a value of \$2,254,560 this year.

Improvements on this land are valued at \$452,550. Farm equipment item is \$85,010 and machinery in the county, exclusive of that on farms, is worth \$305,460.

The value of merchandise is placed at \$817,590 and of fixtures at \$120,945.

Household furniture is valued at \$194,250.

Eddy county does not get rich from oil production, but at the same time there is an appreciable income from that source, and it will be increased by present operations of the Getty Company.

In the period from February 1 to April 30, of this year, districts in the vicinity of Artesia were worth to county and state a total of \$1,600, of which one-fifth goes to the state and four-fifths to the county. In this period the Getty company made a very small production.

By far the largest producer in the county is the F. W. & Y. organization of Artesia. The valuation of the production of that company was valued at \$20,000 for taxation purposes.

Both Carlsbad and Artesia did their bits in giving the rise of valuations. Lot value in Carlsbad moved from \$522,510 last year to \$648,230 and improvements moved from \$1,097,280 to \$1,335,50. Lot value in Artesia went up from \$255,290 in 1929 to \$259,760 in 1930 and improvements went from \$641,530 to \$690,110.

Soldiers' exemption in Eddy county are valued at \$288,000, covering the exemptions to 144 persons.

**SEED CERTIFICATION  
INCREASES IN STATE**

The New Mexico Crop Improvement Association has received an increase in the number of requests for field inspection and certification this year over any previous year, says G. R. Quesenberry of the New Mexico Agricultural College. This is not only an increase in the number of farmers growing certified seed, but a material increase in the acreage. The membership in the association has increased 28 per cent in 1930 over that of 1929 and indications are that certified seed of every crop of importance to New Mexico will be available this year for 1931 planting.

The demand for certified seed has increased materially with all crops during the present year and the seed sales have increased considerably, with the exception of cotton. With this crop it is impossible to move the seed out of the state, due to the quarantine, but most farmers have seed stocks from certified fields. There are possibilities that this quarantine will be removed, thus giving the farmers an opportunity to further increase their high quality seed stocks.

Checks are being kept on the performance of certified seed, especially where seed is moved from one area to another of considerable distance, or from a high to a low altitude. The certified Hardy Cimarron alfalfa seed moved from northern New Mexico is doing exceptionally well in the southern part of the state as compared with the Hairy Peruvian, previously the standard variety in this section. It is also doing well in places in Colorado from which reports have been received. The highest yield of potatoes recorded in southern New Mexico, where seed is not successfully grown, was produced from certified Irish Cobblers, moved from the high altitude around Tres Piedras. The most profitable wheat in the state is a strain of hard red winter, which is now grown extensively in the dry land areas of the state. The strains of grain sorghums which have been developed in eastern New Mexico are doing exceptionally well under irrigation in both New Mexico and Arizona, and reports from the latter state indicate that the large quantities of certified Mexican June corn, which were moved into that state during the past year, are doing exceptionally well.

**HIGHWAY DEPARTMENT  
GETS SHARE TAXES**

SANTA FE—Judge Reed Holloman Saturday granted a writ of mandamus ordering the state auditor and state treasurer to credit to the highway department its proportionate share of delinquent taxes.

These taxes are pledged in the highway debenture bill, the judge held. Chapter six of the special session laws diverts all delinquent taxes to retirement of the deficit in the appropriations account.

Constitutionality of this law may be questioned, the judge said, but even if it is constitutional, the debenture bill was passed first and chapter six does not nullify it.

Delinquent taxes will probably total \$100,000 for the remainder of the year. The highway department will receive only a comparatively small portion of this sum.

# "THINGS THAT NEVER HAPPEN"

## INTERESTING HISTORY CONNECTED WITH THE REMOVAL LAND MARK

After all these years, it looks like old Bill Clark's dream is going to come true. Maybe you never heard of Bill, which is no little loss, I assure you. He was one of the first big business men of Artesia, and laid the first plans for a nifty mercantile emporium on the corner of Main and Roselawn, where Cunningham Brothers are now clearing the deck for a modern brick structure. But for an unfortunate and apparently unavoidable overflow of water one summer night back in 1903, that corner would have long since been graced by a worth-while structure, instead of it coming along twenty-seven years later when Bill and his ambitions have passed into the limbo of forgotten things. Just shows how little things can sometimes change the best laid plans of optimists in a new country. It was this way:

Back in 1902, J. A. Bruce secured an artesian well down toward the Pecos river across from where the Oasis bathing beach brings comfort to young America these hot days to be followed shortly by a gushing fountain on what is now Artesia townsite—to be exact, on the Wetig Roselawn lots. The valley was then an unfenced cattle domain, and very few people thought it would ever be anything else. Being government land and free for taking, it did not take chance visitors long to figure out what a combination of good soil, flowing water and plenty of sunshine would amount to. Among the first to land in the town to be named Artesia (then Stegman with a railroad siding named Miller) were two brothers, W. E. and James Clark. Memory does not tell us much about the latter, as he seemed to fall into place as under study for W. E., who soon was known as plain Bill, mainly because he could not have well been called anything else. Nobody asked any questions, but he was supposed to be a New Yorker, and the more credulous citizens were led to believe that he was an adept in the handling of silk goods—had, in fact, been foreign buyer for some big New York silk importing firm. This may have been true, but Bill didn't look the part. Six foot two in his sock feet, when he chose to wear 'em, with iron-grey, pompadour and a pair of steely eyes that immediately disabled your mind of any idea that he was here as a missionary to look after the spiritual welfare of any far-western heathen. His disposition was sunny enough at times, but occasionally Bill could constitute a full-grown riot all by himself. It was on one of his lapses that delayed the march of progress a quarter of a century, and old timers are not yet convinced that Bill did not have plenty of justification for the party he put on.

The building just moved back from the corner by Cunningham Brothers was built by Clark Brothers and occupied by them as a general mercantile establishment in an humble way, against the time when a real, modern, magnificent structure could be put up. To this end, Bill had a bunch of Mexicans working all summer making and stacking up 'dobs on the back of the lot, about where a beauty shoppe now caters to the complexion trade. They were good brick with plenty of grass to hold 'em together, and Bill was proud of them, and it was a darn shame that he never got to see them in a wall.

Meanwhile, the "town well" was brought in on the lots across the street south from Mrs. Brooks' residence, and enterprising townsite promoters plowed a furrow across the prairie northwest to a corner on what had been designated Main street to where the Artesia Laundry now stands, the water being allowed to run down east through town for advertising purposes, also to afford household water for residents along the ditch toward the railroad.

Of course, this municipal supply was subject to the usual hazards of an unincorporated town in a cow country, but that was a whole lot better than having to hist it by an old oaken bucket that hung in a newly-dug surface well in the middle of the street in front of the present postoffice location. I recall that some finicky ladies who dipped up water along down the furrow used to complain that a certain woman who lived in a store on the Mercantile corner did not have proper control of her stance at times and couldn't always expectorate entirely across the ditch, hence their liquid sometimes had a snuffish color, but that was probably a mistake. That was a good woman, even if she did show more exuberance than caution in controlling her output. But, anyway, that had nothing to do with Bill and the bricks.

One night, some wandering town cow essayed to cross the water ditch up along about where a nice little golf course is now located, and the water proceeded to run across lots and form a lake where Bill Clark had his precious adobes parked. The scattered populace will not forget what took place when their owner awakened next morning and saw what had happened—that the walls of his proposed edifice had melted away and returned to the earthy earth. Bill cussed with a degree of fluency surprising in one so young, he being not fifty at the time. In comparison, a stevedore on night shift would have been chided for lack of expression. No civil official, city, county, state or national, escaped Bill's abuse, until finally he found temporary surcease in the thought and declaration that he would sue the city for a hundred thousand or so, and he was about to cool off when somebody standing by happened to remind him that there wasn't any city to sue.

This was too much, and Bill took out for keeps. He said he wouldn't live in no town where a man didn't have any protection for property rights, so he soon sold out his business and moved away. More than twenty-five years slowly crept across the scroll before another citizen with Clark's vision came along to scrape away those 'dobe brick and improve one of the best corners in town. —OLD TIMER

### DROWNED MAN'S BODY GOING TO WASHINGTON

The body of Timothy Rogers, who was drowned Thursday in the Pecos river was sent to Elma, Washington, where his mother and his brother, James Rogers, live. Request for sending the body was made Friday morning by the brother.

A coroner's jury found Friday morning that Rogers had died from accidental drowning. The jury was composed of C. F. Montgomery, W. A. Nelson, Claude Cunningham, C. C. Sikes, Ernest Bright and Henry Cook.—Carlsbad Current-Argus.

## PECOS VALLEY GRADE SCHOOL AND VALLEY ORCHESTRA

This chorus of two hundred and twenty members and the orchestra with ninety members gave the National Music Week Sunday program at the Roswell Junior High School Auditorium May 4th.

Plans are being formulated to have five hundred Pecos Valley grade school singers and one hundred and fifty school orchestra members in the next National Music Week Sunday program.

These annual programs will be given at the Roswell Junior High School Auditorium on account of the stage being the largest in the valley.

The committee on transportation have a communication from the Santa Fe General Passenger Agent, that a special train can be run from Carlsbad to Roswell for the next National Music Week Sunday program. This will enable chorus and orchestra members, their parents and friends in Loving, Carlsbad, Dayton, Artesia, Cottonwood, Lake Arthur, Hagerman, Dexter and possibly Lovington and Hobbs to go to Roswell in a body.

A well known violin soloist and string quintet in Texas will feature two numbers on the next annual program.

The main object in building up a Pecos Valley Grade School Chorus and Orchestra is to lay a foundation for a Pecos Valley High School Chorus and finally an All-State High School Chorus and All-State High School Orchestra.

### How Static Gets Into Radio

Static is audio-frequency group oscillation discharge between clouds, or clouds and earth. It travels in all directions from disturbance. Static probably impresses its varying frequencies upon the electric waves carrying broadcast signals while they are proceeding from transmitting to receiving station, something like the mix-up of waves that would occur if one were to throw a large rock into a lake upon the surface of which there were previously some moderate waves. The latter would be broken up and changed in shape, but their frequency would probably continue the same as before. Static waves will penetrate any substance that radio waves can penetrate.

### How "Poker" Got Name

The game of poker is evidently an adaptation of the Persian game of As nas, as it was originally played with only 20 cards, dealt to four players, and went to the United States by way of New Orleans. Owing to its resemblance to the French game of pochen the French colonists called it "poque" and this spelling was mispronounced by the English-speaking players as "po-que," easily converted into "poker."

### How Various Trees Differ

Many smooth-barked trees, such as the birch, shed their growth of bark annually. This, however, is not the case of most rough-barked trees. The oak, for instance, retains its annual growth of bark.

### How "Meander" Has Come to Denote Wandering

When you speak of a person who "meanders" you use a word coined from the name of an old river. In ancient times there was a celebrated river in Asia Minor which had no fewer than 600 turns and twists. Travelers who followed it went miles out of their way, only to find, when they reached one of the towns upon its banks, that they had made scarcely any headway, for the river had only wandered up into a great loop and come down again quite close to the last town in which they had spent the night. The name of this river was Maeander, from which our word, meaning to wander aimlessly, is derived.

### How Soap Is Manufactured

In the manufacture of soap, after the mass has been reduced to a semi-solid, the 1,000 pound cake of soap is forced through a framework across which are strung horizontal wires arranged at a distance equal to the thickness of a cake of soap. Thus the soap is cut into horizontal slabs. These are placed on another cutting machine which divides the slabs into long sticks, which are then cut into cakes on the same machine by an other cross motion, wires being employed in both operations. The cakes after being dried in an air-chamber are stamped into the exact shape. The capacity of a stamping machine is 100,000 cakes a day. The cakes are carefully inspected before being put into the boxes.

## LOCALS

Mr. and Mrs. C. O. Brown returned from an extended visit to Arizona, Colorado and Kansas points. They spent a short time with their son, C. O. Jr., at Clarksville, Arizona, then proceeded on to Green Mountain Falls, near Colorado Springs, and returned home by the way of Kingman, Kansas, where they visited the parents of Mr. Brown.

Mr. and Mrs. L. L. Harvey, former residents, came in from Cherokee, Oklahoma, Saturday. Mr. Harvey has been employed by Ralph Shugart to work on the audit of the state land office and will accompany him to Santa Fe on Sunday. Mrs. Harvey and children will be the guests of Mrs. A. H. Crandall at Maljamar, while Mr. Harvey is in Santa Fe.

Mrs. Milton C. Kemp and her son, Franklin, wife and baby, of Houston, Texas, stopped here Monday morning for a short visit with Mrs. J. B. Atkeson. Mrs. Kemp was a sister-in-law of the late E. B. Kemp, and mother of young Robert Kemp who made his home here for some time with his uncle. The party had visited the Carlsbad Caverns and were on their way to California.

Mrs. H. H. McLaren (Lorraine Kirkpatrick) and baby, Billy Janice, and a niece, Vida McLaren, arrived Monday from Dallas, Texas for a month's visit with Mrs. McLaren's uncle and aunt, Mr. and Mrs. Will Benson. They were accompanied by Mr. and Mrs. Pope Guy, of Dallas, who came for a short stay. On Tuesday Mr. and Mrs. Guy, Vida McLaren and William Wright Dunn made the trip through the Caverns and yesterday they took in the mountains, visiting Ruidoso and Cloudcroft on the trip 'round the circle.

Mrs. Adolph Baer, of El Paso, a friend of Mrs. Slight who has been here for the past month accompanied by her two small children, left on Tuesday for Santa Rosa, by auto. The trip proved a disastrous one, according to advices received by her friends here. On the road between Roswell and Vaughn she had an accident, in which the car completely burned up. She and the children escaped from the car through a narrow opening, thus saving their lives, but the small boy was severely cut and otherwise injured. Mrs. Baer was moving to San Antonio, Texas, after visiting at Santa Rosa, and had many personal effects in the car and these, together with all of their clothing were destroyed by the fire.

### CARLSBAD MAN GOES FREE ON LIQUOR CHARGE

ALBUQUERQUE—Wayne Thomas, colored, proprietor of a cafe at Carlsbad, was induced by a prohibition agent to make the sales of liquor which resulted in a charge against him, a jury in federal court decided Monday. He was acquitted on all five counts.

Thomas, owner of the Everready Cafe, testified that R. L. Neal, the officer, had told him he was ill.

"If a man came to me and said he was sick and wanted some whiskey, I'd get it for him," Thomas told the jury.

In his instructions to the jury Judge Neblett stated that an officer is not permitted to induce persons to commit a crime.

### HEAT RECORD EQUALLED

A twenty-five year heat record was equalled again Sunday, when the thermometer at the weather observation station ran up to 107 degrees. Saturday night was the hottest night on record with a minimum of 91 degrees for the night.

### SOUTHWESTERN PUBLIC SERVICE CO. PRESIDENT IN ARTESIA TODAY

Judge I. R. Kelso of St. Louis, president of the Southwestern Public Service Co., passed through Artesia today en route home from a visit to the Carlsbad Caverns.

### POST OFFICE INTERIOR BEING REDECORATED

The many improvements now being made in Artesia, seems to be contagious. In Uncle Sam's place of business, the post office, workmen will soon finish repainting the wood work. The walls have been recalomed and replastering of the side walls has been completed.

### TEN BIRTHS AND THREE DEATHS DURING JULY

Ten births and three deaths were recorded by S. E. Ferrer, sub-registrar for the Artesia, Cottonwood and Atoka districts for the month of June. Births recorded were: Mr. and Mrs. Carl Jenks, daughter; Mr. and Mrs. C. Huerta, daughter; Mr. and Mrs. Clyde Morris Roberson, son; Mr. and Mrs. Boone Barnett, daughter; Mr. and Mrs. Ruben Smart, son; Mr. and Mrs. Jack Hagen McCaw, daughter; Mr. and Mrs. S. Chaharia, daughter; Mr. and Mrs. Y. Lopez, daughter; Mr. and Mrs. Niven M. Baird, son; Mr. and Mrs. Van Bartlett, son.

Death certificates were issued for Rose Flores, O. B. Flynn and Henry Molina.

### GOOD RAINS HAVE FALLEN EAST AND NORTH OF HERE

Threatening clouds have failed to bring much moisture to the immediate vicinity, although good rains have fallen east and north of here. At Roswell, the streets were flooded yesterday by an inch of rain, where the rain fell in torrents for a short time. A good rain fell at Hobbs Tuesday. The moisture was also heavy toward Clovis, but none east of the city. Lubbock and the greater part of the middle panhandle of Texas was also visited by good rains.

### How Earth Turns on Axis

The earth and other planets turn on their axes in accordance with the first law of motion; that is, having received an original impulse of rotation they will continue to rotate uniformly unless acted on by some external force.

## OILERS DEFEAT PECOS 13-8 TO MEET FAST WHITE DEER NINE SUN.

The Artesia Oilers found the Pecos nine easy last Sunday afternoon and trounced the visitors by a decisive score of 13 to 8. The game was featured by two home runs hit by the Oilers. Brainard clouted a homer over the fence and cleared the bases, which were full. Scratchy Rideout following Brainard, polled a homer over the fence. The two home runs account for the major part of the eight runs made in a seventh inning rally. The box score is not available. The Pecos, Texas lineup was as follows: Briggs, c; Librand, p; Whately, 1st base; Williams, 2nd base; Toney, ss; Mount 3rd, base; Lazara, rf; Gonzales, cf; Bird, cf.

Artesia lineup: Glasser, c; Roberts, p; Kyle, 1st base; Farris, 2nd base; Brainard, ss; Manda, 3rd base; Rideout, cf; Fessler, rf; Slaughter, lf.

Summary: Two base hits—Manda, Glasser, Librand, Whately. Home runs—Brainard and Rideout. Struck out by Librand 8, by Roberts 7. Bases off balls—off Librand 3, off Roberts 0.

Score by innings—123 456 789  
Artesia - . . . . .005 008 00x—13  
Pecos - . . . . .000 220 202—8

Sunday the Oilers will meet White Deer, Texas at the Brainard park in one of the best games of the season. White Deer is bringing a strong nine and is expected to put up a stiff fight.
