ARTESIA, NEW MEXICO, THURSDAY, AUGUST 21, 1930.

NUMBER 36

REFINERY AT DAYTON MAKING OVER CAR OF ROAD OIL DAILY NOW

Eighteen cars of road oil were shipped from the plant of the State Oil and Refining plant at Dayton during the first nineteen days of this month. Yesterday four cars left the Dayton plant. In August the plant averaged a little better than a car load of road oil per day, which was shipped to three highway projects at Raton, Santa Fe and Albuquerque. Road oil produced at the Dayton plant in August up to the present time is valued in excess of \$12,000, a sum which formerly went out of the state.

EVERYTHING READY FOR OPENING OF SCHOOLS ON MONDAY SEPTEMBER 1

Everything possible has been done to put the buildings in readiness for the opening of school Monday, September 1. The high school buildings have been redecorated and the library, science and commercial departments have been enlarged to care for the increased activities of these departments.

All freshmen will report at the high school building Thursday, August 28, at 9:00 o'clock for preliminary enrollment and instructions. Freshmen coming from other schools should present a diploma or other evidence or having graduated from the common school.

Friday, August 29, at 9:00 o'clock all sophomores will report for preliminary enrollment.

The completion of enrollment will be as follows:

Monday, September 1, seniors, Tuesday, juniors.

Wednesday, freshmen.

Thursday, sophomores.

All students making up work during the summer will present themselves for examination in room 3, on Monday at 1:00 o'clock.

All sixth, seventh and eighth grade students will report at the Junior High School for enrollment, Monday, September 1. Pupils from other schools should bring their report cards.

All pupils in the first five grades report to Central School, Monday, September 1. No children can be accepted whose 6th birthday occurs after November 1st.

LEGION DANCE CALLED OFF

The American Legion dance, scheduled to have been held last evening, was called off through courtesy to Mrs. J. S. Sharp, who is ill.

POPULATION OF NEW MEXICO OFFICIALLY 427,216

WASHINGTON, D. C.—State population summaries for New Mexico, Montana and Idaho were announced Monday by the census bureau as follows:

New Mexico, 427,216, an increase of 66,866 or 18.6 per cent.

Montana 536,332, a decrease of 12,557 or 2.3 per cent.

Idaho 445,837, an increase of 13,971 or 3.2 per cent.

Mr. and Mrs. George Greiner and son, Ted Chateau of Bartlesville, Oklahoma, Mr. and Mrs. E. M. Hankins of McCamey, Texas and Mr. Hankins sister, Miss Marjorie Hankins, of Houston, Texas, are spending a few days here, guests at the Artesia hotel. Mr. Greiner and Mr. Hankins are making tests of gas in the Artesia field for Phillips Petroleum Co.

HOPE HOLDS THE MOST SUCCESSFUL RODEO IN TWENTY-FIVE YEARS

The Hope rodeo Friday closed one of the most successful performances of its twenty-five years of existence, according to W. M. Coats, manager. The average daily attendance was estimated at 1,500 people by the management. A large number of entries was filed in all contests and some fast time was made in a few of the events. Fifteen hundred dollars in prizes was offered the winners in seven events during the three days.

Winners in the rodeo events were as follows: Calf roping—Everett Bowman, 1st; Tom Taylor, 2nd; Booge Prater, 3rd. Wild mare race—Elmer Hepler, 1st; L. Aders, 2nd; Jess Bates, 3rd. Breakaway—B. Prater, 1st; Allen Holden, 2nd; Tuff Welch, 3rd. Team Tying—Homer Ward, 1st; Buster Prater, 2nd; Bill Lusk, 3rd. Bull-dogging—Tuffy Welch, 1st; Everett Bowman, 2nd; Ed Wilcox, 3rd. Bronc riding—B. Cox, 1st; E. Hepler, 2nd; O. Betsell, 3rd.

Winners in other events were not available.

APPLE CROP IS MOVING FIRST CAR LOAD IS SHIPPED OUT TUESDAY

Gathering Operations Not Yet Well Underway—The Crop Is Cut Short On Account Of Worms And Late Frosts In Spring.

Earlier varieties of apples are beginning to go out of the Pecos valley to eastern points, but it will be some weeks before the popular winter fruit can move. A few truck load shipments have already been made, but no concerted effort at packing has begun. It is evident now that the crop will be short, compared to other years, though there is no reason why quality should not be up to standard which has for forty years or more past, made New Mexico famous. This shortage is due partly to frequent frosts last spring, and partly to worm depredation. The 1929 crop was very heavy, many hundreds of bushels being allowed to waste in the orchards, and some indifferent growers seem to take for granted that no particular attention would be required another season. Smudging against frost was not done systematically, worms appeared early, and a series of daily showers in places washed off poisoning chemicals almost as fast as it was applied. This was particularly true in the big C. A. P. orchard, now owned by the Flints, southeast of Artesia. This is one of the finest orchards in the valley, both as to varieties and average yields. In bearing for the past twenty years, only one complete failure has been recorded. While Mr. Flint's harvest will be considerable, there will be nothing like a full crop.

Chaves county crop is estimated to be about two hundred cars this season, against five hundred and fifty cars in 1929. Information from Hope is that the Penasco crop will be but little less than an average, with the splendid standard of quality maintained.

The early varieties of Stark's Delicious and Jonathans will bring \$2.00 per box on the market, while the later winter fruit will sell for around a dollar per box more. Good quality of eating apples hauled out in truck loads may be had at \$1.50.

Apple growers will push gathering of their crops as rapidly as possible, in order to get them out of the way before cotton harvest starts.

The first car of apples to leave this point was shipped out Tuesday by Bryant Williams of Hope. Shipments this year will likely be made in single car lots, owing to the market conditions. Last year entire crops were contracted, but buying at the present time will usually be made in single cars.

Apple growers will push gathering of their crops as rapidly as possible, in order to get them out of the way before cotton harvest starts.

The first car of apples to leave this point was shipped out Tuesday by Bryant Williams of Hope. Shipments this year will likely be made in single car lots, owing to the market conditions. Last year entire crops were contracted, but buying at the present time will usually be made in single cars.

MEDAL DECLAMATION CONTEST TO BE HELD TUESDAY, AUGUST 26th

A gold medal declamatory contest will be held in the Presbyterian church here on Tuesday evening, August 26th, beginning at 7:30 p. m. The contest is being held under the auspices of the Womens' Christian Temperance Union. A similar contest was held here two years ago and those present at the time recall how well the contest was enjoyed. Contestants from both Artesia and Roswell are expected to participate in the coming event. The program for the evening will be interspersed with selections from the Pecos Valley Orchestra.

Judges for the contest have been selected from Carlsbad except one to be chosen. Judges named include Mrs. W. G. Donley and Miss Dorothy Swigart. It is hoped that friends in Artesia will turn out in good numbers and show their interest in this good cause.

TELEPHONE IMPROVEMENTS

Workmen are laying underground cables as the first part of the contemplated improvement program to be inaugurated here this fall by the Mountain States Telephone Co. An underground cable line will traverse the alleys back of Main street as far east as the office of the Alfalfa Growers Ass'n. The new cable system crosses Main street only one time, at Third street, leading to the time, at Third street building, which has recently been remodeled and all made ready for occupancy. All overhead wires in the residential section will be replaced by airtal cable. Some improvement is also contemplated on the rural lines of the Mountain States, but a detailed program has not yet been announced.

COTTON OPENING NOW GINNING SEASON WILL SOON START IN AREA

Cotton Opening Rapidly In The Carlsbad Section—Gins Ready—The Hot Weather Aids In Checking Leaf Worm.

Cotton picking will be fairly well started by the 25th, unless hindered by excessive moisture. Some of the early cotton will be ready for picking by the 20th. Practically all gins in this section have undergone the necessary repairs and are preparing to start the ginning season by the 25th. Too much rain during the next few days may delay harvesting operations and will increase the prospects for further enroads of the leaf worm, which is being held pretty well in check due to timely spraying.

Growers do not anticipate any shortage of pickers at least at the start of the season. The surplus of local labor is expected to be sufficient to care for needs of farmers, at least during the early weeks of harvesting. Efforts will be made to induce farmers to use local labor as much as possible and thus relieve the unemployment situation.

Cotton picking in most sections will open around 75 to 85 cents per hundred, it was indicated here this week.

Cotton is reported to be opening rapidly on some farms of the Carlsbad project. Aided by hot dry weather, the farmers have pretty well succeeded in holding the leaf worm in check, it was said here yesterday. Some farmers, however, are still spraying.

MORE RENT HOUSES NEEDED

The Chamber of Commerce reports that the calls for modern rent houses and apartments are increasing daily and a number of out of town people would like to move here to take advantage of our school system. While there are a few houses and apartments that may be rented, the number is far too inadequate to care for the needs of many who would like to come here for the winter.

Artesia is now facing the alternative of turning people away or building more houses. If you are interested in making an investment, the Chamber of Commerce officials believe that they can assist you in working out a plan that will provide a reasonable steady income on your investment. At least the proposition is worthy of your serious consideration and you will lose nothing in discussing building plans with the commercial officials. See them today.

LAKE ARTHUR SCHOOL FACULTY IS COMPLETE AND READY FOR WORK

There will be a few changes in the Lake Arthur school faculty for the coming year, according to an announcement made yesterday by Superintendent C. R. Bernard. The complete faculty is as follows: C. R. Bernard, superintendent, history and mathematics; Mrs. Lenora Bradley Funk, primary grade; Mrs. Wilkins, third and fourth grades; Miss Ruby Smith, first and second grades; Mrs. Moss Spence, fifth and sixth grades; Miss Mae Brewer, seventh and eighth grades; Mrs. Weston, home economics and Spanish; L. C. Dalton, Smith-Hughes, Agriculture and science; Mrs. Wilson, commercial and English.

SEVEN HURT AS AUTOS COLLIDE MONDAY

Seven persons were injured at nine o'clock this morning at two automobiles sideswiped on the road south of Carlsbad. The most seriously injured is Ted Wade of Amarillo, Texas, who was in the Eddy County hospital this afternoon with a scalp wound and a fractured elbow.

Wade will recover with at worst a stiff elbow. Dr. L. H. Pate said, and the injuries to the others consisted of no more than scalp wounds and minor body cuts and bruises.

The left sides of the cars were badly battered. They were 60 feet apart before they were brought to a stop after the crash. One, a Buick is owned by M. O. McCoy of Whittier, California. In the other, a Ford, Mr. and Mrs. H. B. Wade, and their children, Ted, Eleanor and Claude, of Amarillo, were traveling.

The Wades were bound for the cavern when the accident happened—Current-Argus, Monday.

ARTESIA FOOTBALL BOYS IN TRAINING AT RUIDOSO FOR 10 DAYS

Twenty members of the Artesia High School football squad with Coaches James Allen and George Wilkins left yesterday morning for Ruidoso to go through a ten day pre-season training period. The squad will go through a practice period, twice daily for ten days. Two or three out-of-town boys who have had considerable practice have joined the training period at Ruidoso. "We are looking forward to a successful season and the squad is preparing to go through a hard training period," Coach Allen said yesterday.

EDDY COUNTY BUDGET IS APPROVED BY STATE TAX COMMISSION TUE.

Eddy County's budget stands at proved at approximately \$48,227, the figure asked against an expenditure last year of \$46,347. The only change made in the Eddy county figure was a reduction of the county road fund from \$18,750 to \$17,260.

Eddy county's budget was recently approved by the State Tax Commission.

Chaves county received \$75,900 for general purposes; \$7,340 for county health; \$770 special health; \$25,000 sniking; \$620 appraisal; \$1,900 artesian wells.

While Eddy county's general purpose fund is lower than this year, special levies which include \$4,650 for jail equipment bring the total budget to an increased figure of \$20,692. The total for this year including special levies was only \$16,047.

Following are the budgets for towns, with the total allowances for general purposes listed, and second the amount to be raised by taxes:

Artesia, \$18,045; \$5,645.
Las Cruces, \$33,370; \$11,950.
Melrose, \$2,380; \$1,055.
Ft. Sumner, \$3,980; \$2,455.
Maxwell, \$1,510; \$686.
Cimarron, \$1,875; \$885.
Hagerman, \$1,595; \$1,200.
Lake Arthur, \$530; \$335.
Dexter, \$805; \$655.

None of the budgets showed the actual expense for this year.

VACCINATIONS AT CENTRAL

Dr. O. E. Puckett, county health officer, who spent Tuesday here at the Central School vaccinating children for small pox, announced that he would return next Tuesday at which time he hopes to finish the vaccination work.

PAT REILLY TRANSFERRED

Pat Reilly, who has served the International Supply Co., here as a local manager for the past two or three years has been transferred to the International office at Hobbs. F. G. Griffith will succeed Mr. Reilly as local manager, who will leave for his new home within the next few days.

ROTARY VISITORS

The Artesia Rotary club enjoyed a visit from two out of town Rotarians, at Tuesday's luncheon. Visiting were Hugo Stromberg of Ardmore, Oklahoma and Dan Wilmot, Mr. Wilmot made an interesting address on the value of service.

Announcement Cards, blank or printed—The Advocate.

SATURDAY THE LAST DAY TO REGISTER—LIST IS FAR SHORT YET

A last appeal is made to those who expect to participate in the coming general election to see that their names appear on the registration list. Under the new law it will be impossible to vote, unless your name is registered. Every citizen should vote and every citizen who expects to vote should ascertain between now and Saturday, August 23rd, whether his name appears on the registration list, posted at the Citizen's State Bank. Saturday will be the last day to register.

The total number of voters registered in this precinct, including the names added in last Saturday's registration total 1,025. The voting strength of this precinct should be approximately 1,500. It is evident therefore that approximately 475 voters will be disappointed on election day, unless immediate action is taken. In the last city election, 1,200 were registered, the precinct also includes a number of farms, which should bring the total voting strength to 1,500 or better, if one hundred per cent registration is secured.

10 Producers Are Drilled In at Hobbs the last Ten Days

New Locations Also Add Much Interest To General Area—Stevens No. 1 In Eddy Drilling Ahead With Hole Full Oil.

Drilling in big wells in the Hobbs field has become more or less of a habit and isn't much of a news item any more. Of the earlier completions drilled in during the past ten days, one well has proved to be more or less disappointing, this being the Texas Production Co., Selman No. 1, in sec. 15-19-38, which was drilled to a total depth of 4,180 feet, where it showed a small amount of sulphur water and plugged back to 4,175 feet where it was recently shot with 180 quarts from 4,103 to 4,175 feet. The Selman swabbed 377 barrels in 24 hours. Another interesting development last week was the blow out which occurred in the Midwest Refining Co., State No. 8, in the NW 1/4 sec. 4-19-38, at 4,026 feet. The showing found at this depth was estimated good for 10,000 barrels, but the well was drilled deeper to the 4,175 foot pay in order to obtain the highest potential rating.

Two new locations made recently is further evidence that the operating companies do not intend to abate drilling operations on account of protraction orders. One of the tests staked is located in the townsite of Hobbs, this being the Midwest Refining Co., Turner No. 29, 660 feet from the west line and 660 feet from the south line of sec. 34-18-38. The other location is the Grimes No. 1 of the Atlantic Production Co., 330 feet from the south line and 1,320 feet from the east line sec. 20-18-38.

The latter part of the week was one of the most active periods of the Hobbs pools in the number of completion made. The producers with their potential production are: Amerada Petroleum Corp., McKinley No. 3, sec. 30-18-38, total depth 4,170 feet, 586 barrels first hours test flowing (Continued on last page, column 3)

THE CARLSBAD-ARTESIA MUNICIPAL BANDS IN JOINT CONCERT FRIDAY

A joint band concert has been arranged between the Artesia Municipal Band and the Carlsbad Municipal Band, to be given at the City Park, Friday evening, August 22nd, beginning at 8:00 p. m.

The following is the program: March—"Oh Them Basses"—Huffine Overture—"Glory of Youth"—Barnard "Venetia"—Zamecnik March—"Semper Fidelis"—Sousa Waltz—"Springtime in the Rockies." Novelty—"Napanee"—Williams March—"The Crimson Flush"—Alexander Sernade—"Rosita"—Dupont Selected Marches "Star Spangled Banner"

TESTING FOR POTASH TALKED WITH SIMMS

Plans of the Carlsbad Chamber of Commerce for a campaign to obtain appropriations by congress for continuing tests for potash in southeastern New Mexico were discussed with Congressman Albert G. Simms when he was here yesterday in connection with his first trip through the cavern.

The act of congress under which \$100,000 a year is being spent in these tests will expire June 30 of next year. Yesterday the chamber announced plans for a campaign to have further sums appropriated.—Current-Argus Saturday.

LIEUTENANT BATES PROMOTED TO CAPTAIN

1st Lieutenant James P. Bates, infantry reserve, of Artesia, has been promoted to the grade of captain, and assigned to command of the service company, 410th infantry. Captain Bates will leave on Sunday for two weeks active duty training at Camp Stephen D. Little, Nogales, Arizona.

EDDY COUNTY

WAR ON HANDBILLS

Numbers of towns and cities now have a city or-
dinance which prohibits the distribution of handbills
or dodgers within the city limits. Such an ordinance
is not out of the question for Artesia since numerous
complaints have been made by local residents with
reference to littering up the lawn with the lowly hand-
bill and other pieces of literature.

An illustration of how careless handling of dodgers
and waste paper may reflect on the appearance of a
town, can be seen on Main street most any Sunday
morning. If Sunday happens to be a windy day, the
merchant must almost scoop his way into the store
on Monday morning.

THE HOUSING SHORTAGE

Just now new comers have been able to find living
quarters in town, but both rent houses and apart-
ments are becoming just a little harder to find as time
approaches for the opening of school. The scarcity
of houses will become more acute within the next few
days. Folks who are looking for an opportunity for
an investment should not overlook the possibility that
a rent house affords here at the present time. We be-
lieve that the housing need could largely be solved by
the local people, who could no doubt secure a desir-
able tenant on a long time lease.

HOT WEATHER VERSUS POLITICS

Soon the date of the democratic state convention will
be set and a start will be made in state politics now
that the republicans have named, September 22nd as
their convention date. Survivors of the state wide
primaries of other states sorter feel like the sunshine
state is passing a real opportunity in not having more
politics in hot weather. Sand, hot weather and water-
melons make a good combination, according to many
ex-Texans in our midst. Candidates do not appreciate
the campaign unless they can sweat a little, wade a few
deep sand fields and grass burr patches.

OUR PART IN THE WORLD'S FAIR

Considerable editorial comment is going the rounds
over the state in regard to the advisability of New Mex-
ico participating in the World's Fair to be held on
the Lake Front in Chicago between the months of May
and November 1933, running for 155 days. The
fair management anticipates an attendance of 55,000,
000 people. The cost to New Mexico of such a par-
ticipation would range between \$35,000 and \$50,000.

No means are provided to raise this sum, except
by special session of the state legislature and the ser-
vice bureau of the state highway department, has en-
deavored through the state press to obtain the public
reaction to such a suggestion. Frankly we are not in
a position to give the local opinion on such an under-
taking. Thirty-five to fifty thousand dollars seems to
be a large sum to saddle off on the tax payers at this
particular time, although conditions could change for
the better or worse before the appropriation would
be necessary. We certainly would not favor some fool
tax on the consumer as a means of raising the neces-
sary funds. If New Mexico goes into the fair with
an exhibit, we would favor a good one, even though
it costs more money. If an undertaking of this sort
is worth attempting, it is worth doing well.

It has been our experience that the mind of the
fair visitor is more or less hazy after viewing so many
things, rather like a reader trying to wade through a
100 page daily newspaper. It is only the outstanding
fair features that impress the mind of the visitors. All
of which means that New Mexico's exhibit would
necessarily have to be easily accessible and some-
thing to make an impression on the ordinary person
that visited the fair.

A TRIP MAY DO YOU GOOD

If you are a resident of the Pecos valley and are
dissatisfied with the general outlook, a little jaunt
over in some of the neighboring states may do you
good, not that it will bring you pleasure, but may
give you an insight into how some of our neighbors
are faring. West Texas generally would be mighty
glad to gather a half crop this year. It will be an
exception, rather than the rule where this is done. Some
sections won't gather a third of a crop. Some places
farmers are facing a third crop failure, a few a
fourth.

Farmers in such unfortunate circumstances have
little or nothing to look forward to. They almost
have to be optimists to live. Thoughts about a new
auto, new furniture, or a new home are out of the
question. People of the drought stricken area are con-
cerned principally with getting enough to eat and
wear.

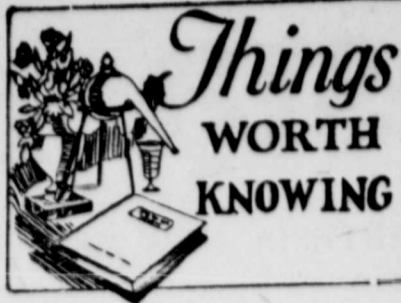

Every section of the country has its draw backs of
course, but in this particular area, only an act of
providence can keep a hard working man from raising
a crop. Farmers who start a crop in the irrigated sec-
tion can work with the assurance that their labors will
not be entirely lost, unless it is through flood or hail.

UNADULTERATED BUNKUM

The craze for tree sitting, chimney sitting, and
various other endurance fads has gone about far enough.
We are getting awfully tired of reading how little
Willie stayed up in a shelter on top of a tree for 430
hours and how Tommy Poor Fish remained in the
desert sun atop a nice sticky cactus tree.

The fools are not the children, but the parents who
seem to crave more publicity for the family album.
If the newspapers had paid no attention to the human
flies, the flag pole sitters and other endurance cranks
there would never have been the great deluge of pure
out and out publicity hunters that we now have seeking
space in the newspapers.

Endurance flights perhaps have some value, but
flag pole and tree tests will never advance man one
bit. They just go to prove that people do love un-
adulterated "bunkum."—Raton Gazette.

Store cement in a dry place. If
exposed to dampness it soon becomes
lumpy or even a solid mass. Don't
store cement on the ground. Build
a raised platform and keep it away
from the sides of the shelter.

A lighted match, cigarette, or cigar
thrown from an airplane or other
aircraft may set fire to a forest,
grain field, or buildings. If you
travel by this modern means of trans-
portation, be careful not to throw
out any burning material.

Wrapping apples in oiled paper
wrappers or packing them in shred-
ded oiled paper protects them from
the scald disease. When shredded
paper is used it is important that
it be well distributed throughout the
package. Apples scald less when
packed in boxes, baskets or ven-
tilated barrels than when packed in
the usual tight barrels.

Be more careful in making silage
from legume crops than from non-le-
guminous crops, says the U. S. De-
partment of Agriculture. Legumes
have a lower sugar content from
which the acids necessary in pre-
serving silage are developed. All
the legumes may be ensiled suc-
cessfully if mixed with a crop con-
taining much sugar, such as corn
or a sorghum; or they may be en-
siled alone if not too succulent when
cut.

The pullets in the poultry flock
should get a good growing ration
in late summer and early fall so
they will be in laying condition by
October, or at the latest by the
first part of November. If the pul-
lets start laying too early, however,
reduce the amount of protein in the
ration. It may also be advisable to
omit milk from the ration. Pullets
that begin to lay too early—4 to 5
months of age—are inclined to lay
very small eggs; or they may lay a
few eggs and then go into a molt.

"Culling the lowest producers from
the dairy herd not only raises the
average production per cow, but also
increases the cash income over the
cost of feed per cow," says O. E.
Reed, chief of the U. S. Bureau of
Dairy Industry. "Figures in the
bureau indicate that culling the low-
est-producing 1 per cent of the dairy
cows in this country would not lower
the milk and butterfat production
as much as 1 per cent, but only 1-5
of 1 per cent; and that culling the
lowest-producing 10 per cent would
lower milk and butterfat production
only 5 per cent."

NEW MEXICO EGGS CAN BE GRADED FOR MARKET

The first part of a study on the market quantities of New Mexico fresh eggs has just been completed by the New Mexico Agricultural College. Many flock owners in New Mexico are keenly interested in the development of a method whereby eggs can be disposed of according to grade and at a price commensurate with their worth.

With this in mind, an experiment was planned to ascertain whether eggs produced in surplus areas during spring and summer months could be marketed to advantage by grades. Flock owners who would be representative of the poultry industry in their respective sections were secured, seven counties in all being represented. During June and July the entire production of these flocks was sent to El Paso, Texas, where College cooperating agencies carefully candled, graded and sold the eggs according to their merits.

With splendid cooperation on the part of the flock owners, it was possible to get very accurate data on the conditions under which the eggs were produced and marketed. While the records of each cooperator have not yet been summarized, some pretty definite results are evident. In order to produce the highest quality eggs during the hot weather, results indicate that eggs should be gathered at least twice a day, stored in a basement or cave until marketed, and sent to market as soon as possible. Hauling over rough roads, especially where care was not taken, greatly reduced the quality. Eggs that were kept in a warm room for several days previous to shipping were of very poor quality. If kept cool, they could be held for several days without severe deterioration.

POLITICIANS TO RECALL MCGEE

New Mexico politicians who always love a sporting proposition are suggesting the recall of Carl McGee from Oklahoma in case Judge Reed Hollomon actually does fling his hat into the ring for governor. Just now, it might not be a hard matter to borrow McGee. He recently made a bad guess up in Oklahoma and got his candidate for governor badly chewed up by "Alfalfa Bill" Murray. A short vacation might do him good, and it is a cinch that his presence in New Mexico would add a lot to the gaiety of what is up to now a rather stupid campaign.

That Grand Old Flavor
XXX
Pearl
Dr. Pepper Bottling Co. Distributor

INSIDE INFORMATION

Blackberry juice make an appetizing punch, combined with other fruit juices, lemon, sugar and ginger ale.

When a baked potato is done, work it until the skin is loose, jab a fork into one side and make an opening to let out the steam. Drop in a lump of butter and serve at once.

Mildew stains when very fresh, may sometimes be washed out with soap and water, or bleached in the sun. The growth of mildew is at first on the surface of materials that have been allowed to become damp, but in a short while these molds penetrate the fiber and injure it, and are almost impossible to eradicate. Soaking the stains in sour milk overnight and placing in the sun without rinsing, will sometimes help. Slight stains are sometimes removed by moistening them with lemon juice and salt and placing in the sun. Javelle water, used as a bleach will take out mildew stains on white cotton or linen but should never be used on silk or wool. Chemicals are also used at times. Mildew on shoes may be wiped off as soon as detected, and the shoes washed with soap and warm water, and well dried. Stuff the shoes with soft crumpled paper or dry oats, and dry in a warm, but not hot place.

Boss—"What are you two doing, walking so slowly up those stairs?"
Midnite—"We's workin', boss. We's carryin' dis desk up stairs."
Boss—"I don't see any desk."
Midnite—"Fo' d' lord's sake, Carbon, we dun forgit de desk!"

HOW TO COOK BEANS USING HARD WATER

A desirable cooked bean should have a pleasing flavor, a good texture, a good color, and remain whole unless a mashed bean is preferred, says Mary L. Greenwood of the New Mexico Agricultural College. When hard water is used in cooking beans, it should be boiled ten or fifteen minutes before using, which destroys some of the hardness. The following methods of cooking, using in each instance 2 cups of beans, 5 cups of water, ½ to ¾ teaspoon of soda (where soda is used) and two teaspoons of salt, may serve as guides in cooking pinto beans in hard water.

Method 1—Beans soaked in soda water, no draining. Wash the beans. Dissolve the soda in hot water. Soak the beans in soda water from 10 to 14 hours. Boil gently in the same water until the beans are tender. Add salt during the last half-hour.

Method 2—Beans soaked, no soda, no draining. Wash the beans and soak 10 to 14 hours in hot water. Boil gently in the same water until the beans are tender. Add salt during last half hour of cooking.

Method 3—Beans not soaked, no soda, no draining. Wash the beans, add the water and boil gently until tender. Add salt during the last half hour of cooking.

Method 4—Beans not soaked, soda, no draining. Wash the beans, add the soda and the water and boil gently until tender. Add salt during last half hour of cooking.

Main Points To Remember
Boil the water before using it. Use as small amount of water as possible, keeping the beans covered. Use a kettle with a close fitting lid to prevent evaporation. Use soda if a more tender skin is desired. Use hot water in soaking. Measure soda carefully when soda

water is not drained (methods 1 and 4).

VALUE OF OIL AND GAS

According to a recent bulletin issued by the Bureau of Mines at Socorro, petroleum and natural gas produced in New Mexico during 1929 was valued at \$2,800,000. During the coming year the value of petroleum products will be several times greater.

OAKES—MORGAN

A pretty home wedding was that of Miss Florence Esther Oakes of Springer and Mr. Willis Edward Morgan of Artesia, New Mexico, at the home of Mr. and Mrs. J. P. Geyer, at 5:00 o'clock Monday, August 9th, 1930.

The decorations for the happy occasion were smilax and pink sweet peas, with gorgeous baskets of dahlias in the predominating colors as a background, and the pink and white candles lent an added sanctity to the whole.

The bride and groom attended by Mr. and Mrs. Fred Geyer as matron of honor and best man entered the parlor to the strains of Mendelssohn's Wedding March, played by Miss Augusta O'Malley. Mrs. Bowen sang very beautifully "At Dawning," and "I Love You Truly."

The bridal party stood under an arch of smilax and wedding bells. The impressive ring ceremony uniting the two was said by the Rev. W. E. Williams of the First Methodist Church of Springer.

The bride was lovely in a beautiful gown of white georgette and lace, and carried a shower bouquet of pink roses and sweet peas, of which Miss Dorothy Wertz was the recipient later in the evening.

Miss Oakes spent her early girlhood in Springer and has a host of friends who wish her happiness. She attended the Normal University at Las Vegas, Colorado State Teacher's College at Greeley, Colorado and the Denver College of Music where she studied violin under Henry Ginsberg and specialized in Public School Music, and is at the present time supervisor of music in the Artesia public schools.

Mr. Morgan is a graduate of the State University at Albuquerque and at present holds a responsible position with Joyce Fruit Co., at Artesia where they will reside.

Miss Oakes was indeed fortunate to have present at her wedding her great-grandmother, Mrs. Nancy Studebaker; her grandmother, Mrs. J. P. Geyer and her mother, Mrs. Esther Geyer Oakes representing the four generations.

After the ceremony an elaborate buffet luncheon was served; the color scheme of pink and white prevailing.

Mrs. H. S. Murdoch and Mrs. Carl Wertz presided at the table and were assisted in serving by Misses Betty and Natalia Murdoch and Dorothy Wertz.

The invited guests were Rev. Williams and wife and son, Walter, Mrs. Clyde Bowen and daughter, Emma Frances, Mrs. Myrtle Forrester, Mrs. Murdoch and daughters, Betty and Natalia and Miss Viola Kimball, all of Springer, Mr. and Mrs. Charles O'Malley, Miss Augusta O'Malley and Miss Dorothy Wertz of Las Vegas and Mr. and Mrs. Dow of Colmar.

Mr. and Mrs. Morgan left later in the evening for a two weeks honeymoon at Denver and Estes Park.—Springer Tribune.

Mr. and Mrs. Morgan are expected to arrive in Artesia Sunday and will take up their residence in the Ragsdale apartments. Mr. Morgan, is the son of Mrs. Jessie Morgan and has lived in Artesia practically all of his life. Before accepting a connection with Joyce-Fruit Co., Mr. Morgan held an important position with the Mountain States Telephone Co., at El Paso, Texas.

REBEKAH INITIATION

Some sixty Rebekahs and Odd Fellows gathered at the I. O. O. F. hall Monday evening for the regular meeting, the special attraction being an initiation. Twenty-five Rebekahs and Odd Fellows were present from the Carlsbad lodges and the others were local members. Dr. Ruth Van Deusen was the candidate and following the initiatory service refreshments, consisting of two kinds of cake and punch were served in the course of a social hour.

BIRTHDAY DINNER

In honor of the 85th birthday anniversary of grandma Rogers, (Mrs. Silas Rogers) the children and grandchildren living in this section gathered at her home for a family dinner last Friday evening. Those present besides grandma and Miss Cora Rogers, were Charley Rogers and family, Mr. and Mrs. Jim Jackson and family from Mayhill and Mr. and Mrs. Harry Jernigan. Mrs. Rogers this past week received the news of the death of a great nephew, Bernard Allen, an aviator, who was instantly killed in an airplane wreck at Terre Haute, Indiana, on the 9th.

FIRST NIGHT BRIDGE CLUB

The First Night Bridge club met with Mr. and Mrs. Earl Bigler last Friday for its regular dinner and bridge. Substitutes were Mesdames M. A. Corbin and M. W. Evans.

Social Calendar

TUESDAY

Mrs. R. D. Compton will entertain the First Bridge club at 2:30 p. m.

The Idlewhites Bridge club will meet with Mrs. M. W. Evans at 2:00 o'clock.

JACKSON—WALTON

Miss Anna Frances Jackson of Artesia and George N. Walton of Lake Arthur, stole a march on their friends Thursday evening, when they slipped quietly to Carlsbad and were married. The young couple were attended by Miss Alene Wilson of Artesia and Jesse Wheeler of Carlsbad. Rev. Tozer, pastor of the Carlsbad Presbyterian church, officiated. The ceremony was performed at the Presbyterian manse.

Following the ceremony, Mr. and Mrs. Walton spent a short time in Carlsbad then returned to Artesia where they have taken up their residence in the apartments of Mesdames Robertson and Paris.

The bride is the third daughter of Mr. and Mrs. J. M. Jackson and has lived in this section practically all of her life. She is a graduate of the Artesia High school and later attended the University of New Mexico at Albuquerque and the University of Washington at Seattle. She spent a year teaching in Alaska and returned home to accept a position with the Jackson-Bolton Chevrolet Co. For the past few months Mrs. Walton has served this firm in the capacity of secretary.

Mr. Walton is well known here and in the Lake Arthur community, where he has spent a greater part of his life. He is a graduate of the Lake Arthur High school and for the past several months has been employed on the Faulkner truck line.

The Advocate joins a host of friends in extending congratulations and best wishes to Mr. and Mrs. Walton.

DOUBLE BIRTHDAY DINNER

Last Wednesday evening Mrs. S. W. Gilbert entertained with a buffet dinner, in honor of the birthday anniversaries of Mr. Gilbert and Mrs. Martin Yates. The birthday feature was a surprise to all of the guests. The dinner took place on the lawn which is a most delightful place these summer evenings about six o'clock, and to add to the attraction, the quartette tables were decorated with pretty pink and white flowers. In addition to the honorees and hostess those present were Martin Yates and children, St. Clair and John Ashby, Mr. and Mrs. M. H. Ferriman and son, George Holden, of Longmont, Colorado, Mrs. Mabel Welton, Mrs. E. J. Brooks and Mrs. Graham.

ARTESIA FOLKS GET TOGETHER AT LONG BEACH

A letter from Mrs. O. J. Adams of Long Beach, California, to Mrs. Alta Linell states that a number of the Artesians there enjoyed a good visit recently with Dr. E. E. Mathes, Dr. Mathes, who has been attending a convention of the Presbyterian church in Los Angeles, visited at the home of Mr. and Mrs. Ralph Henderson, (Mina Collins) at Long Beach, and the other old friends present were Mrs. J. D. H. Reed, Mr. and Mrs. Fred Lukins, of Huntington Park, Mrs. O. J. Adams and Mrs. Henderson, Sr. Dr. Mathes is said to be looking as well as ever and is engaged in ministerial work at Newark, California.

ARTISTS TO GIVE PROGRAM

Miss Doris Deter, violinist, Miss Jessie Ellen Peden, pianist, formerly members of the Brazilian Trio, well known radio entertainers and Miss Vera Pior, reader, will give a program at the Artesia Central school auditorium next Monday, August 25th at 8:00 p. m.

This program is sponsored by the Pecos Valley Orchestra and no charges will be made for admission. Public cordially invited.

FORTNIGHTLY BRIDGE CLUB

The Fortnightly Bridge club was entertained by Mrs. Fred Cole at its regular meeting Tuesday at one o'clock luncheon, served in two courses. Substituting were Mesdames Tex Henson, J. H. Jackson, Stanley Blocker, E. M. Phillips and Dick Attebery.

Jesse Ellen Peden

Pianist and accompanist of Abilene, Texas, will be one of the guest artists taking a part in the program next Monday evening at the Central School auditorium.

FAMILY REUNION

There was a reunion of the J. M. Jackson family at the parental home last Sunday. Every member of the family, parents, children and grandchildren, thirty-two in number, were present at a big family dinner. Mr. and Mrs. Oren Van Winkle and children from Hot Springs, and Mr. and Mrs. Marvin Jackson and children, of Mayhill arrived that morning and Mr. and Mrs. Jim Jackson and children of Mayhill came on Friday. The others living here are Mrs. Luvena Beck and children, Mr. and Mrs. George Walton, Mr. and Mrs. Pete Jackson, Mr. and Mrs. Howard Gislser and baby, and the Misses Mary, Lilla and Nelle Jackson. Marvin and family, and Oren Van Winkle left for their homes Sunday evening. Jim and family returned home yesterday and Mrs. Van Winkle and children remained for a longer visit.

COMPLIMENTING MRS. AKINSON

Mrs. J. F. Atkinson of California, Mrs. James Sangster and daughter, Mrs. Alta Linell, entertained a few old friends of the honoree last Wednesday afternoon, serving ice cream and cake. The guests were Mrs. Atkinson and daughter-in-law, Mrs. Allen Atkinson of Belen, who accompanied her, Mrs. Owen McClay, Mrs. Martha Harris, Mrs. Frank Linell, Mrs. Tom Whitted, Mrs. Bruce and Mrs. Carl Martin and daughter, Evelyn.

BANKESTON—MCCAW

A very pretty wedding occurred at the T. F. Wilson home on Cottonwood this morning at 7:00 o'clock, when Miss Amy Bankeston became the bride of Reed McCaw. The ceremony was performed by Rev. R. Peterson, who used the ring ceremony, in the presence of the family and Mrs. Peterson. The bride was dressed in navy blue georgette with accessories to match and carried a bouquet of baby breath and roses.

After the ceremony the newlyweds left for El Paso, where they expect to spend a short honeymoon, returning here to make their home. Miss Bankeston is a niece of Mr. and Mrs. Wilson and is well known in both Artesia and Cottonwood communities. Miss Bankeston graduated with honors from the Artesia high school in 1928 and last year attended business college in Albuquerque. The groom, the eldest son of Bert McCaw, was also a student in the Artesia high school and at the present time holds a good position with the Artesia Laundry and Cleaners.

Mr. and Mrs. McCaw have the best wishes of a host of friends for a long and happy life.

NEW RULES FOR LEASES STATE LANDS POSTED

SANTA FE—New Regulations governing grazing and agricultural leases on state lands to become effective August 23rd, have been posted at the state land office. Dr. Austin D. Crile announced Friday.

There are no radical changes in the rules, Charles Barker said, and they merely embody practices which have grown up in the past few years and which have become unwritten law with the office.

The regulations deal with procedure to be followed in obtaining grazing or agricultural leases, prescribe the rights of lessees and fix in definite terms consideration to be given perference holders, and set up rules for the sale of land.

Cop—"You say the judge is absent-minded?"

Clerk—"Well, in court today he dismissed the prisoner, sentenced the jury, scratched his desk and hit himself on the head with the gavel."

PRODUCTION INCREASES TWENTY PER CENT ON LIGHT DELIVERY TRUCKS

An increase of twenty per cent in production of light delivery trucks during the first half of this year over the same period in 1929 was announced recently by Sidney Corbett, manager of the commercial car division of the Chevrolet Motor Co.

Figures for the comparable periods were 27,236 units as against 22,613 to July 1, last year.

This production increase Mr. Corbett attributed to the need for light delivery trucks in federal, state municipal and public utility construction projects now under way, and to the growing use of the light truck in rural sections. Farmers, especially are finding the light delivery an economical and necessary addition to farm equipment, he said, and the wide variety of body types available enables the user to choose the exact body for the work to be done.

While commercial car production is necessarily a minor part of the total output of the Chevrolet Motor Company, Mr. Corbett pointed out that it is accounting for a constantly increasing production of each year's output. The company first began building commercial cars in 1916, he stated, and since that date 1,169,000 units had been built, up to the middle of this year, or in the ratio of better than one commercial car to each six passenger cars.

HYACINTHS FOR WINTER

Few bulbs for house flowers are so nearly foolproof as the hyacinth, say horticulturists of the U. S. Department of Agriculture. With good sound stocks, hyacinths blossom if planted with ordinary care. By planting the Dutch prepared or Dutch Roman varieties it is possible to enjoy hyacinth blooms from late December until the end of the outdoor blossoming season. Pot the bulbs in late August, put them in a moist, shady place and keep them as cool as possible for two or three months. When the pots are full of roots and the top growth is 1 to 3 inches high, move the pots into subdued light in a cool cellar until "greening" is well under way. Hyacinths are fairly hardy under the difficult conditions often encountered in rooms where temperatures vary widely and frequently.

"Do you wish the court to understand that you refuse to renew your dog license?" asked the judge. "Yes your honor but,—"

"We want no 'buts.' You will be fined. You know the license has expired."

"Yes, but—so has the dog."

"ALFALFA BILL" MURRAY FOR OKLAHOMA GOV.

Latest returns from Oklahoma indicate that "Alfalfa Bill" Murray, a picturesque character of years gone by, has won the democratic nomination for governor over Frank Buttram, rich oil operator, and, withal, a man well fitted for the place. Al-

ready preparations are being made for the impeachment of Murray, as is the habit in Oklahoma. Lieutenant governors there have a reasonable chance to hold their jobs, but no governor has ever been able to escape impeachment long enough to complete his term of office.

KONJOLA ENDS NEURITIS AND STOMACH PAINS

Grateful Man Eager To Endorse Famed Medicine That Did So Much For Him.

"Konjola is the best medicine ever made," said Mr. W. T. Bryant, 1009 Morrell street, Oak Cliff, near Dallas. "Neuritis became so severe in my legs that I could scarcely walk. There was a constant aching in my back and shoulders. I could never get a perfect nights rest. My bowels were irregular and I was constantly taking cathartics. I always had a sour stomach, frequent accumulations of gas and severe headaches. My vitality was at a low ebb, and I felt miserable."

MR. W. T. BRYANT

"After giving Konjola a trial I am like a different man. Konjola restored my organs to normal condition and they now function perfectly. I am no longer bothered with indigestion or constipation. The neuritis pains have completely left me and my entire system is in good condition. Konjola deserves all the praise it gets—and more."

When taken for six to eight weeks, Konjola the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ills of the stomach, liver kidneys and bowels and of rheumatism, neuritis and nervousness.

Konjola is sold in Artesia at Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

IT'S WISE TO CHOOSE A SIX

Announcing a new production record

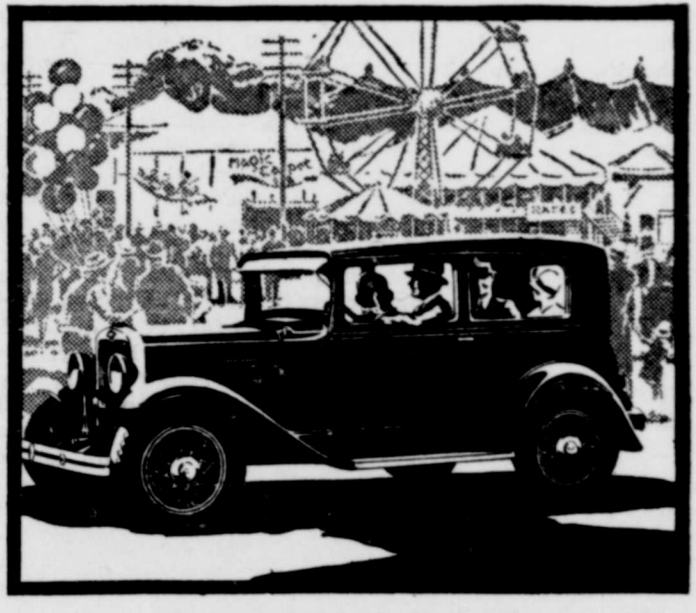

2,000,000 Chevrolet Sixes now on the road

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

—the smoothness, silence and flexibility of a modern six-cylinder valve-in-head engine—the greater comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil,

The Coach, \$565, f. o. b. Flint factory

tire and upkeep economy is unsurpassed. And any model can be bought for a small down payment and easy monthly terms! Come in today. Learn for yourself why two million buyers have agreed—"it's wise to choose a Six."

Some distinguishing features
50-horsepower six-cylinder motor . . . 48-pound crankshaft . . . full-length frame . . . four semi-elliptic springs . . . fully-enclosed four-wheel brakes . . . four Lovejoy hydraulic shock absorbers . . . dash gasoline gauge . . . Fisher hardwood-and-steel body . . . adjustable driver's seat . . . safety gasoline tank in the rear . . . non-glare VV windshield . . . and, for your protection, a new and liberal service policy.

Modern production methods assure high quality

CHURCHES

METHODIST EPISCOPAL CHURCH SOUTH

Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel."

9:45 a. m. Sunday school. George Frisch superintendent.

Last Sunday showed the best attendance at Sunday school for two months. A larger attendance expected this Sunday.

At 11:00 a. m. morning worship. The pastor's theme this Sunday, "Our Distaste for the Simple Things." The sermon lasts only 45 minutes.

Epworth League for both Junior and Senior divisions 7:00 p. m.

8:00 p. m. evening worship. Theme "The Lord God is a Sun."

Wednesday the Woman's Missionary Society will hold an all day meeting at the country home of Mrs. Reed Brainard, all women of the congregation are invited.

CHRISTIAN SCIENCE SOCIETY

613 W. Main Street

Sunday services at 11:00 a. m.

Wednesday services at 7:30 p. m.

Subject of the Bible lesson for Sunday, August 24, 1930 is, "Mind." In this lesson the following scriptural selection is found: "Let this mind be in you which was also in Christ Jesus." (Phil. 2:5).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 191: "As mortals give up the delusion that there is more than one mind, more than one God, man in God's likeness will appear, and this eternal man will include in that likeness no material element."

Visitors always welcome.

ASSEMBLY OF GOD CHURCH

2 Blocks North of Post Office

Rev. A. Davis, Pastor.

10:00 a. m. Sunday school.
11:00 a. m. morning worship.
6:45 p. m. Christ's Ambassadors.
6:45 p. m. Bible study for adults.
8:00 p. m. evening worship.
Tuesday evening, prayer meeting.
Friday evening young people's services.

Everyone welcome, we invite you to come and worship with us.

FIRST PRESBYTERIAN CHURCH

Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, August 24th, 1930.

9:55 a. m. Sabbath school.

11:00 a. m. Morning worship. Sermon subject, "Supplementing the Sufferings of Christ."—The unfinished work of Christ which His followers must finish.

7:00 p. m. Christian Endeavor, Junior and Intermediate groups.
7:50 p. m. Song service, followed by sermon. Subject, "Minding One's Own Business."—"I have had more trouble with myself than any other man I have met." (D. L. Moody).

Wednesday, August 27th to Sunday, September 7th, Guy W. Green lay evangelist will speak each night at 7:30 p. m.

A good prayer for all—"Lord, make our hearts soft, but not, dear Lord, our heads."

You can have an intelligent faith.

FORMER EDITOR COMING TO ARTESIA SOON

The people of Artesia will soon have an opportunity to listen for 12 days to a man who is not a preacher but just an ordinary lay-

man. Yet he speaks on "Everyday Religion." This man is Guy Green, of Kansas City, Missouri, and he will be at the Presbyterian church daily from Wednesday, August 27th to Sunday, September 7th at 7:30 p. m.

"I have never tried to fool any one into thinking I was a preacher, except once," says Mr. Green, "that was at an implement dealer's dinner in Kansas City. I thought I had put it over. But as I was leaving the hotel after the dinner, I heard one big boy from Texas say to another, 'Who was that speaker?' The man addressed replied, 'that is a preacher by the name of Green.' Then the first fellow said, 'Preacher nothing. If that guy is a preacher, Jack Dempsey is the president of the United States.'"

A man who taught the largest Bible class in his denomination, ought to be worth hearing. Guy Green for years taught the men's Bible class of Linwood Presbyterian Church, Kansas City, with its 600 members. The influential Presbyterians of Kansas City asked him to give up his editorial work and devote his time to speaking exclusively on what he calls, "Everyday Religion."

FIRST CHRISTIAN CHURCH

6th and Quay Streets

Ralph Waldo Emerson, Pastor

9:45 a. m. Bible school. C. O. Brown superintendent.

11:00 a. m. sermon: "Christ's Soldiers at Attention Before Paul."

8:00 p. m. the last sermon of the series on church history, "The Sin of Protestants."

FIRST BAPTIST CHURCH

Next Sunday will be the pastor's last Sunday in Artesia as he goes to begin his work as pastor of the Baptist church in Goodwell, Oklahoma. We have greatly enjoyed our work here and for many reasons loathe to leave our many good friends. We leave our best wishes with the good people here and pray the greatest success possible upon every good cause in Artesia.

The pastor will speak Sunday morning on "The Forward Look." The message Sunday evening will be a farewell message. The pastor will also conduct prayer meeting Wednesday evening. We shall be glad to see a large attendance of our people Sunday at both services and also at the prayer service Wednesday evening. We expect good music and hope to have some special music at the morning service. Everybody is most cordially invited to these services.

R. PETERSON, Pastor.

REV. PETERSON RESIGNS

Rev. R. Peterson, who has served as pastor of the Baptist church here for the past three years, has resigned to accept the call of the Baptist church at Goodwill, Oklahoma. The resignation of Rev. Peterson is effective immediately and he with the family plans to move to the new home the latter part of the week. Rev. Peterson and family came to Artesia from Tucumcari and during his stay here the church has shown a consistent gain in membership.

Goodwill, the new home of the Petersons is also the home of the Panhandle A. & M. College. Miss Ruth plans to enter the A. & M. this fall, while Paul expects to enter the senior A. & M. College at Stillwater.

PURCHASE OF MANHATTAN

Previous to the year 1626, the Dutch had occupied the Island of Manhattan merely by sufferance. Being determined, however, to make a permanent settlement there, it became necessary, both in justice and policy, for them to obtain a title to the soil.

Sometime in May, June or July of 1626, therefore, Peter Minuit, third director of New Netherland, bought the Island from the Indians for 60 guilders' worth of goods. Sixty guilders is equivalent to \$24, which seems an insignificant price to pay for such a valuable tract of land. Mathematicians tell us, that if those sixty guilders had been invested at six per cent, compound interest then, and left until to-day, the accumulations would be greater than the present assessed value of Manhattan Island—upwards of \$9,000,000,000!

Although we have no official record of this important transaction, the purchase is mentioned in several letters written about that time. The following is a translation of one of them, which is now in the Royal Archives at The Hague.

High and Mighty Lords:

Yesterday, arrived here the ship the Arms of Amsterdam, which sailed from New Netherlands, out of the river Mauritius, on the 23rd of September. They report that our people there are in good heart and live in peace there; the women also have borne some children there. They have purchased the Island Manhattes for the Indians for the value of 60 guilders; 'tis 11,000 morgens in size. They had all their grain sowed by the middle of May, and reaped by the middle of August. They send thence samples of summer grain; such as wheat, rye, barley, oats, buckwheat, canary seed, beans and flax. The cargo of the aforesaid ship is:

7246 beaver skins, 178½ otter skins, 675 otter skins, 49 minck skins, 36 wildcat skins, 33 minck skins, 34 rat skins, considerable oak timber and hickory.

Herewith, High and Mighty Lords, be commended to the Mercy of the Almighty.

In Amsterdam, the 5th of November, A. D. 1626.

Received the 7th of November, 1626.

Your High Mightinesses' obedient, P. SCHAGEN.

The early Dutch colonists left abundant records of the many seemingly unimportant matters. Yet, for some unknown reason, their records practically ignore the purchase of 22,000 acres of land upon which the world's greatest city—the city of New York—was later reared.

LOCALS

Roy Spivey left Tuesday morning to take a position in the grocery department of the Peoples Mercantile in Lovington.

Lowell Hoffman of Alamogordo former resident of Artesia, spent a few days here last week visiting friends and attending the Hope rodeo.

W. C. Daniel, who is employed on the Mountain States Telephone Co., construction crew, has moved his family into one of the Ragsdale apartments.

Mr. and Mrs. Billy Cox writes from Hot Springs, this state, that they have located there. They have bought a filling station, camp ground and grocery and are quite busy.

A son was born yesterday to Mr. and Mrs. Craig Baker of Webster Grove, Missouri. Mrs. Baker was before her marriage Miss Jane Cooney of Roswell—Roswell Dispatch Sunday.

Mrs. A. F. Atkinson, former resident, now of California, was in town last Friday for a short time visiting old friends. She was accompanied by her daughter-in-law, Mrs. Allen Atkinson of Belen, with whom she is visiting the latter's parents in Carlsbad.

Mr. and Mrs. C. E. Mann and family left Sunday for a short visit to Santa Fe and Albuquerque. Mr. Mann planned to attend a tax conference in Santa Fe Tuesday and drive over to Albuquerque with his family to view the sights connected with the First American.

"So you asked Geraldine to marry you?"

"Yes, but I didn't have any luck."

"Why didn't you tell her about your rich uncle?"

"I did. Geraldine's my aunt now."

FIRST EDITOR ON THE JOB

We think it was rather a coincidence and worthy of mention that The Advocate had its first editor back in charge last week, after an absence of a quarter of a century or more. Gayle Talbot, who established The Advocate in 1903, mounted the editorial tripod and acted as pinch hitter in the absence of the writer last week. It was a mighty good effort too and indicates to us that father time has dealt kindly with Mr. Talbot's ability as a writer. We do not mean to insinuate that The Advocate's founder is growing old, but merely wish to bring out the point that it is difficult for a man to come back and do a good job of a thing he hasn't done for twenty-five years.

Your Children's Eyes

The classroom of today makes greater demands upon the students' eyes than ever before.

Are you sure that your child is not handicapped by improperly fitted glasses or by the need of glasses? This is a vital matter which must not be neglected.

Let us examine your little one's eyes now—it may prevent years of discomfort in future life.

LOCALS

Miss Inez Waldrip arrived from Weatherford, Texas, for a fortnight visit to Miss Mary Jackson and other friends. M. E. Baish and Harry Woodman, Jr., left Tuesday for a ten day's trip to Clouderoft, Grand Canyon, Denver and other points. Mrs. Joe Hamann, Mrs. Leslie Martin and Mrs. George Johnson drove to Roswell yesterday afternoon to witness the air derby. D. R. Reed and daughter, Miss Velma, of Amarill, Texas were here from Sunday until Tuesday morning on their way to Big Spring, Texas, visiting Mr. Reed's sister, Mrs. O. E. Nickey, and Mr. Nickey. In company with Mr. Nickey, they made the Cavern trip Monday. M. B. Burum of Lawton, Oklahoma, accompanied by his daughter, Mrs. I. J. Walker and Mr. Walker, stopped off here Tuesday for a visit with his former neighbor, B. R. Hammond and wife, while Mr. and Mrs. Walker went through the Caverns. Mr. Burum reports crop conditions had in his section of Oklahoma. Mrs. Z. B. Moon went to Ruidoso Friday for a short visit to her friend Mrs. Beasley of Lake Arthur. Howard Beasley of Lake Arthur and Miss Madge Dozier of Dexter, accompanied her. George Deans of Artesia, was also in the party, going up to advertise the Artesia rodeo. They returned Monday, Mrs. Beasley coming back with them. Mrs. Dan Eipper, who has been visiting relatives at Rock Island, and Moline, Illinois for the past three months, expects to leave there Saturday for Charleroi, Pennsylvania, where she will visit Miss Mabel Parks, and her parents, former residents of Artesia. In company with Mis Parks she will make a trip to Washington, New York and Boston. At the latter place they will visit a sister of Miss Parks. Mr. and Mrs. Charley Mitchell, and baby were in town Saturday for a short time visiting old friends. They are now located at Sweetwater, Texas and are visiting his parents at Carlsbad. Mrs. Mitchell's parents, Mr. and Mrs. S. L. Albee are now living at Tulsa, Oklahoma, but Mrs. Albee and daughter, Miss Doris are at present at Woodfield, Ohio, where they have spent the summer. Miss Aline Rowan, after a few weeks' visit to her parents, Mr. and Mrs. Beecher Rowan, expects to return Saturday to Los Angeles. Miss Rowan has the position of director of Physical Training in the Hollywood High school again this year. She also instructs students from the Southern Branch of the State University in a teachers' training course in physical training. Mr. and Mrs. Margaret Brannan enjoyed a visit Sunday from a number of Mrs. Brannan's relatives from Roswell and Hagerman. In the company were Mr. and Mrs. Donald Gillespie and son, T. S. Gillespie, Mrs. Dye, of Roswell and Mr. and Mrs. J. A. Buford, and children of Hagerman. T. S. Gillespie is the father, Donald Gillespie, the brother and Mrs. Buford, a sister of Mrs. Brannan. Mr. and Mrs. Ray Sipple and young son, Gordon, have been here this week visiting Mrs. Sipple's brother and wife, Mr. and Mrs. Clint Rice. They came by way of White Oaks, where they stopped on business and left this morning for their home at Haxtum, Colorado. They report an unusual supply of rain in their section this year, making a record wheat crop, which is still being harvested. Mr. and Mrs. Del Belshe were here last week, guests at the Will McCaw home southeast of town. Mr. and Mrs. Belshe were old residents of Artesia, but have been living in Iowa. Farming conditions in the middle west have made them appreciate the irrigated farming of the Pecos valley. They have bought a 25-acre farm, near Roswell, and will make the valley their permanent home.

LOCALS

Mr. and Mrs. Henry Paton are in Albuquerque this week taking in the First American.

Juanita Wright is here from Carlsbad visiting her grandmother, Mrs. S. Bradley.

E. A. Hannah is spending this week with his family at their cabin in the Artesia-Sacramento camp.

Jeff Hightower left this morning for the northwestern part of the state after spending several days at home.

Marsha Naomi Hatch and Nancy Wood of Clovis came Tuesday to spend the week here, guests of Elsie Jernigan.

Frank Brooks came in from Dallas, Texas, Tuesday to see his mother, Mrs. E. J. Brooks, who has been quite ill.

Mr. and Mrs. Dave Beckett left Monday for a trip to the Capitan mountains and Ruidoso. They expected to be gone five or six days.

Mr. and Mrs. Philip Kranz of Roswell and J. C. Floore, Jr., of Carlsbad spent Sunday here with their parents, Mr. and Mrs. J. C. Floore.

Carl Cunningham took his small daughter, Jessie Lee, over to Santa Fe Sunday to spend a fortnight with her aunt, Mrs. Willie (Choate) Perry.

Mr. and Mrs. Frank Miller and daughters, Lillie Mae and Mary Ann, spent the week end with Miss Virginia Egbert at her home in Alamogordo.

Mr. and Mrs. John Willis and two young sons of Dallas, Texas guests at the Rocky Kile home, made the trip through the Carlsbad Caverns Monday.

Mr. and Mrs. C. Bert Smith and daughter, Mrs. Edson Jones and baby Barbara Nelle, went to Roswell on Tuesday to spend a few days with Mr. and Mrs. John Lanning.

The Calvin Dunn, J. W. Bradshaw and Alf Coll families returned Sunday from a week's fishing on the Chama above Santa Fe. They report plenty of trout and a good time.

Miss Margaret Bishop, of El Paso, came over Friday and will visit her brother, B. A. Bishop and family here and her sister, Mrs. Lillian McNeil at Roswell, until about the first.

T. E. Powell, banker and William Evans, county tax collector, both of Baird, Texas, were pleasant callers at The Advocate office Saturday, en route home from the Carlsbad Caverns.

The Misses Ethel and Virginia LaShier, of La Junta, Colorado, were here from Friday until Monday visiting their old time friends, Mrs. B. A. Bishop and family. They made the trip through the caverns.

Mr. and Mrs. W. C. Martin and family returned last week from a visit with relatives at Abilene and Baird, Texas. Miss Aylene Harris sister of Mrs. Martin, accompanied the family home and will spend some time visiting here.

Mrs. William Berg and daughter, Muriel, of El Paso, Texas, and Miss Mary Gillespie of Santa Monica, California, arrived yesterday to visit Mrs. Martin Brannon, and will remain over the week end. Miss Gillespie is a niece of Mrs. Brannon.

Owen McClay was in Albuquerque the first of the week attending the convention of funeral directors. He made the trip to the Duke City with Mr. and Mrs. Alvin Allinger, who were returning home after visiting a week with Mr. and Mrs. A. L. Allinger.

Mrs. W. M. Osburn, who has been visiting her daughter, Mrs. Ike Keller, left last week to visit another daughter at Bluffdale, Texas. Wilmer Ragsdale accompanied her by auto on his way to take up his studies at Oklahoma University at Norman.

Mrs. Tex Polk left yesterday for Abilene, Texas, in response to a message stating that her step-mother, Mrs. J. N. Ferguson, had passed away Tuesday evening. Mrs. Ferguson was an old settler in the Abilene section and was well known to many of the old timers.

Dr. and Mrs. W. C. Doss accompanied by their daughter, Miss Mildred, expect to leave today for Gallup, the Petrified Forest and the Mesa Verde national park and return to Tucson, Arizona, where she will resume her duties at assistant librarian of the Arizona University.

Mrs. Granville Powers, of Albuquerque, was the week end guest of her sister, Mrs. I. C. Keller, returning home Sunday. Yesterday morning Mr. and Mrs. Keller and son, Osborn, drove over to Albuquerque to visit the Powers family and attend the First American. They expect to return Sunday.

HIGHWAY LABORATORY IS MAINTAINED AT THE STATE COLLEGE

LAS CRUCES—New Mexico is saving between five and ten thousand dollars annually by maintaining her own materials testing laboratory, according to a study of the work of the highway testing laboratory, located at State College, which was recently made.

Approximately 10,000 tests are made annually by the laboratory on samples of materials which are submitted for use in New Mexico's highways. These tests would cost in the neighborhood of \$25,000 if done by a commercial testing laboratory. Such testing on all materials designated for federal aid highways is demanded by the government. The saving to the state is even larger than the sum indicated, the report states, because of the protection offered the state against inferior or unsatisfactory materials entering into the construction of millions of dollars worth of New Mexico roads.

The testing laboratory was founded in 1924 and placed at State College where it is used not only for testing materials but also as a student laboratory, between 15 and 25 engineering students annually are taking work there. In the first six months of its existence the laboratory made 4,900 tests and immediately demonstrated its benefit to the state.

The present appraised value of the laboratory equipment is \$14,000 of which approximately \$6,000 is owned by the college and \$8,000 by the state.

LOCALS

C. M. Cole and daughters, the Misses Gladys and Ina drove to Roswell yesterday.

John Richards and Paris Damewood drove to Roswell yesterday afternoon to see the girl flyers come in.

Mr. and Mrs. R. W. Dunn and two small sons, spent the week end with Mr. and Mrs. G. G. Taylor in Amarillo, Texas.

Miss Bertha Richards accompanied Miss Erminia Grandi and the latter's family of Carlsbad, to Albuquerque Tuesday to see the First American.

Rev. J. T. Ross and family, of Eastland, Texas, were the overnight guests of Austin Stuart and family last Thursday, en route to the Ruidoso.

Mrs. Oren Van Winkle and children of Hot Springs, plan to go up to Mayhill tomorrow to spend a few days with her brothers, Jim and Marvin Jackson and their families.

Mrs. John A. Stuart and daughter, Miss Frankie, and Mrs. Floyd Stuart and children, of Jal, were here last Thursday and Friday visiting Mrs. Stuart's son, Austin Stuart, and family.

Mr. and Mrs. Lewis Story and children left Tuesday for a trip to Santa Fe and were planning to take in part of the First American at Albuquerque. They will return home the last of the week.

Mr. and Mrs. A. C. Kimbrough returned the latter part of the week from their ranch near Lovington where they have been spending the past three weeks. Miss Margaret Frisch, who had been visiting Miss Evelyn on the ranch, came home with them.

Mr. and Mrs. Joe B. Cheaney, of Brownwood, Texas spent Thursday here visiting with Mr. and Mrs. T. C. Bird. While here Mr. and Mrs. Cheaney accompanied by Mr. and Mrs. Bird drove to Clouderoft. Mr. Cheaney is athletic coach at Howard Payne College.

Mr. and Mrs. Ray Bartlett and children and Mrs. C. W. Bartlett of Carlsbad arrived home Thursday from their trip to Kansas and Nebraska, coming back by way of Colorado. They found the weather extremely hot and vegetation pretty well dried up in Kansas and Nebraska.

Miss Virginia Egbert is expected back Sunday from Alamogordo, to resume her work as instructor of violin and will be located at the Frank Miller home this winter. During this summer Miss Egbert has been taking advanced instruction from Miss Helen Woytch, instructor of violin at the State University.

Mrs. Goldie Calvert of Wilcox, Arizona, and Mrs. Jewell Frederick, of Lomita, California, who came here to the funeral of their mother, Mrs. Lee Turknett, left Tuesday morning for their homes. While here they were guests at the home of Mrs. L. W. Feemster. Mrs. Margaret Feemster Ellis and their brother, Nathan Turknett, who also came for the funeral, drove them to Roswell. Nathan came with the intention of staying here for some time and plans to go to Hobbs this week.

SCOUT NEWS

September will find the scout program being planned by Minor Huffman, eastern New Mexico area council scout executive, in full swing. Scout vacationers are now returning home and together with the other fellows and the troop officials are entering into troop activities with great interest and zeal.

The area has already experienced a careful canvass as to proper troop and official registration and everything looks fine for speedy completion of this work. It is essential that all registrations be kept up to date.

Scouts and scouters in every troop are anxious to finish the summer's work such as swimming tests, overnight hikes and other scout activities peculiar to summer conditions before the cold weather gets here.

Some troops are now planning field meets and other contests with the neighboring troops for the purpose of stimulating interest. That's a good idea and will do a lot of good.

Other troops and individual scouts are getting ready for the Cotton Carnival which will be held in Roswell in the near future. Scout exhibits for this celebration are generally appreciated by the public. For the past few years Boy Scouts have received much consideration from the Cotton Carnival officials and they in return have shown their appreciation by assisting in various ways.

Some nice prizes will be offered for the best exhibits set up by scouts of the area. Details concerning this will be given to the scouts at a later date. All scouts of the area have an invitation to enter exhibits. Some troops have looked further to the future and are building their program in such a way as to get ready to make a fine showing in the spring scout jamboree. This is an annual affair of first rate importance to scout troops of this area. Wise scouts and troop officials realize that it takes more than a week's time to get ready for the jamboree.

This is also the time of the year when new boys are received into scout troops. Troops which have a small membership now, will use this opportunity and soon have a full troop. As more boys begin their scouting career more scouters to take charge of them must be enlisted. So the fall program will doubtless add several hundred new scouts and fifty new scout officials to our membership.

Is Now Conducting An

Economy Contest

\$25.00 in CASH PRIZES Given Away **FREE**
Contest ends August 23th

Artesia men and women: this is an opportunity! Make your plans to take advantage of it — and win a big cash prize, absolutely free. Here are the facts: We — The Chevrolet dealers in this city, know that the Chevrolet—a six—is just as economical to run as any car you can buy. So we are conducting this big Economy Contest to prove it!

JACKSON-BOLTON CHEVROLET CO.

Offers the following PRIZES:

- First Prize **\$12.50**
- Second Prize **\$7.50**
- Third Prize **\$5.00**

Come in now! Drive a short distance in a Chevrolet Six—the best gasoline mileage wins!

available at the address shown below. It is equipped with a simple device, consisting of an ordinary Mason glass jar, visibly mounted outside the hood, with a pipe line running to the carburetor. When the car goes out for a test, a pint of ordinary gasoline is poured in this jar. Each contestant, starting at the door of the showroom, must drive the car until it reaches a standstill from lack of fuel. And those who drive the car the farthest win the prizes!

Come in now! Drive a short distance in a Chevrolet Six—the best gasoline mileage wins!

This contest is open to the Artesia public; and any man or woman is eligible to compete. All you need to do is register at our salesroom either in person or by telephone. You can make the test at any time to suit your convenience. And re-

member—it requires only a short time to make the test—for you only drive until the pint of gasoline is exhausted. Register now—and make sure of an early demonstration! Anyone of driving age is eligible to enter the contest.

A WOMAN AND THREE CHILDREN BURNED TO DEATH NEAR PORTALES

PORTALES—Mrs. D. G. Horn and three of her children were burned to death in the Horn farm home Sunday about noon by fire which started while the mother was filling a coal oil stove. The frame dwelling was destroyed and the bodies were burned beneath the debris. The dead children are Junior 8, Doris 7, Robert 5.

Another daughter, Nell, 15, had been sent by her mother to the Strickland home a half mile away to inquire about going to church Sunday evening, and the father and eldest son, Duke, 19, were at the Rogers post office three miles away.

The tragedy was witnessed by a group of children from neighboring farms who were playing at the Horn home. Mrs. Horn had called in the small children to prepare dinner at the time of the accident.

A coroner's jury returned a verdict of accidental death.

Funeral services for Mrs. Horn and her three children were held Saturday afternoon at the community church at Long. All four bodies were buried in the same casket.

MAKE SAVINGS PLANS ON PERMANENT BASIS

By S. W. Straus, President American Society for Thrift.

There are few persons who have not at some time shown themselves able to save money. The trouble has been that a considerable portion of these persons have been unwilling to continue these thrifty practices.

Savings must be continuous. The person who pinches and saves every possible penny for a short time and then gives up and quits, will never reach the goal of independence or success. It is well to have in mind the matter of moderation. Saving a reasonable amount regularly gives increasing stabilization and strength. There is such a thing as being carried away by enthusiasm. The miser is an example of this.

Goethe observed that, "enthusiasm is of the greatest value, when we are not carried away with it." This can be applied to saving money as well as to everything else in life.

Being thrifty does not mean that we must be an extremist in the matter of saving money or in giving up beneficial pleasures. Cultivate moderation. Do not save to the point of being a miser nor to the exclusion of the various uplifting elements that have a rightful place in our lives.

On the other hand, we must use moderation in the matter of pleasure and out of our earnings make sure that we are providing for the lean days that are sure to come.

Plan your savings along sensible lines.

Adjust them to your income and to the conditions of life as they surround you.

Do not try to save too much because it is far better to put away money systematically and persistently than to save intensively for a while and then give it up.

Even in thrift there is harm in over-enthusiasm.

IT HELPS A HEAP!

GETTING BACK TO HAY

Many valley farmers are putting alfalfa back this year on ground that went to cotton when prices were high. Cotton has tumbled and feed crops will go high because of the encompassing drouth over the big central United States grain states. Most of the local alfalfa crops are being stored for certain high prices next winter. Corn jumped to ninety cents, but the valley gets caught short. A yield of seventy-five to one hundred bushels per acre can be secured here any year, and the prediction made that more corn will be planted in 1931 than heretofore. Oats have made as much as one hundred bushels per acre can be secured here any year, and the predictions made that more corn will be planted in 1931 than heretofore. Oats have made as much as one hundred bushels per acre during the recent harvest.

THE BUSY HONEY BEE

In a locality in Wyoming where irrigated alfalfa is virtually the only source of honey, the agricultural department placed some hives eight miles from the nearest nectar supply. The bees made daily trips to the alfalfa, loaded with honey, and returned. Since the bees flew this distance regularly, the department apiculturists assume they might fly even farther, if necessary.

Flying these sixteen mile trips, however, some of the bees fail to return home because sand storms overtake them or headwinds impede them. Under such flying conditions a single pound of honey would represent approximately 18,000 trips of sixteen miles each, or nearly 300,000 miles of flight by bees.

LINT COTTON SUPPLY IN THE UNITED STATES DESCRIBED AS LIGHT

WASHINGTON, D. C.—The supply of lint cotton in the United States for the cotton year which ended July 31 was announced Friday by the census bureau at 17,217,372 bales compared to 17,347,896 bales the previous year and the distribution aggregated 17,347,896 bales compared to 17,458,282 bales the previous year. The detailed figures for the various items making up the supply and the distribution were announced as follows:

Supply:
On hand August 1, 1929, 2,311,988.
In consuming establishments, total 1,052,128.
In public storage and at compresses 984,860.
Elsewhere (partially estimated) 275,000. (x)
New imports of foreign cotton (total) 368,398.
Ginnings:
Crop of 1929, total 14,536,986.
Crop of 1929 after July 31, 1929, 14,459,030.
Crop of 1930, prior to August 1, 77,956.
Aggregate supply 17,217,372.
The distribution of linters totaled 1,409,356 bales, of which 118,124 were exported, 804,395 consumed, 1,000 destroyed, and 485,837 on hand July 31, 1930. The excess of distribution over supply was 41,391 bales.

HOW FAR THEY WALK

Postman on foot walk an average of 170,000 miles each day in delivering mail to more than 20,000,000 persons in the nation's fifteen largest cities, according to the Post Office Department.

Each foot carrier walks an average of about 12 miles a day, it was pointed out, and delivers mail to about 1,500 persons. This 12 miles may be covered in one strip, or several, depending upon the length of the route, it was explained. On a 12-mile route, the postman makes but one trip a day; on a 6-mile route, two trips; on a 4-mile route, three trips; on a 3-mile route, four, and on a 2-mile route, six trips. Each of the postmen, however, walks about 12 miles regardless of the length of his route.

Official postal laws state that a foot carrier may not carry more than 50 pounds of mail in his sack on any single trip.

Typewriters for rent at Advocate.

GOODBYE SHERMAN HELLO MARION

After all, the disposition of American men to get revenge on negro despoilers is not confined to any clime or locality. The idea that this class of moonlight justice is meted out only in the more benighted districts of the south has been proven false time after time. The asserted belief that man is further removed from the primitive "up north" than at Sherman, Texas, or other hot-blooded cities south of '36 is all bosh. Georgia or Mississippi men may show their teeth a bit oftener than their brethren in Ohio or Massachusetts, but it is because the provocation comes oftener by reason of citizenship complexion. Two negroes were taken forcibly from the Grant county jail, at Marion, Indiana, one night last week and given a neat hanging on the court house square, because they had murdered a white man and assaulted his girl companion. Sledge hammers and tear gas bombs were used in the manner so effectively demonstrated by the uncouth savages "down south" with a little additional finesse added when a horde of screaming women danced a cancan over the leavings. The fact that the mob incidentally administered a licking to an innocent man along with the guilty ones, also added a similarity to parties of this kind pulled off occasionally in Texas. The mob spirit was all wrong, of course, but its action goes all the way in illustrating that the sanctity of American homes is going to be well taken care of wherever womanhood is revered, even if methoos sometimes savor of savagery.

FRUIT CROP OVER LAST YEAR'S; UNDER NORMAL

WASHINGTON, D. C.—The 1930 yield of all fruits was estimated by the department of agriculture on the basis of August 1 reports to be 18 per cent above the 1929 crop but ten per cent less than the ten-year average.

"The increase over last year is noticeable in all crops," the department said. "The greatest percentage is in prunes and plums, largely grown in California. The grape and citrus crops are considerably above last year's production."

Technical Report and Certificate of Performance . . .
Certified Test No. 2268
Summary of Results

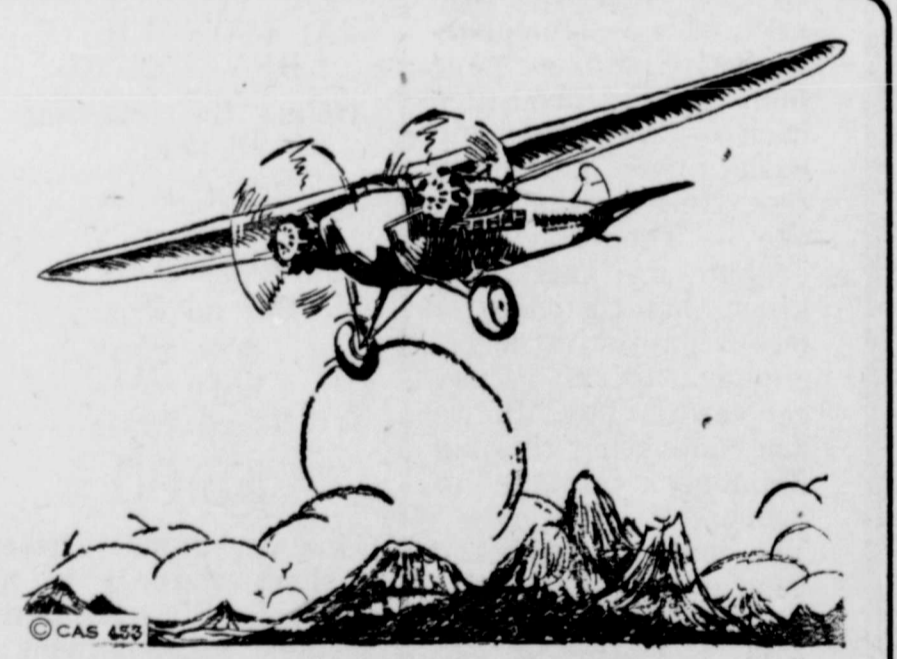

It should be understood that statements made herein are applicable only to tests made under the supervision of the American Automobile Association Contest Board between September 6 and October 5, 1929, over the Pike's Peak Automobile Highway and Colorado Springs and Calhan Road, and the conditions stated, except in so far as the legitimate inferences might be extended.

In consideration of the readings, progress reports, calculations, analyses and general data submitted and attested to by the official representatives of the Contest Board, and in further consideration of the strict compliance of the contestants with the various regulations, we do certify to the statements made herein.

- 1 That the test procedure was followed accurately and that no deviation therefrom occurred which might seriously affect the soundness of any conclusions based upon the data;
- 2 That a reduction in the rate of wear occurring during the use of CONOCO Germ-Processed Motor Oil over that occurring with the other oils used to the extent of 76.4 per cent was shown during these tests;
- 3 That greater stability of the subject oil during these tests was shown by records of examination of drained oils being nearer the viscosity of the original or fresh oil and by chemical tests of drained oils with the fresh oils;
- 4 That frictional temperatures occurring during the use of the subject oil were lower than temperatures occurring during the use of the comparables;
- 5 That higher compression pressures were obtained with the use of the subject oil during these tests than with the use of other oils. It would be directly inferred that this was caused by better ring seal;
- 6 That using the subject oil and during each test, greater gasoline mileage for economy was obtained than during the use of the comparables;
- 7 That less oil consumption 44 shown by the records of these tests occurred with the use of the subject oil;
- 8 That carbon deposits collected from the combustion chambers and cylinder heads and weighed by the official chemist were shown

COMMITTEE NAMED BY A. SELIGMAN TO SET DATE FOR CONVENTION

SANTA FE — Arthur Seligman, chairman of the democratic state central committee, announced Friday the 67 members of the party executive committee. This committee will meet within the next ten days or two weeks to set date for the democratic state convention at Santa Fe.

The executive committee which is made up of nine members, one from each judicial district, is constituted as follows:

First district, Guy H. Herbert, Aztec; second district, Mrs. J. Poyas Johnston, Albuquerque; third district, Mrs. Frances McDonald Spencer, Carrizozo; fourth district, C. M. Graham, Las Vegas; fifth district, Aud E. Lusk, Carlsbad; sixth district, Alvan N. White, Silver City; seventh district, George E. Cook, Socorro; eighth district, Juan N. Vigil, Taos and ninth district, Charles E. Dennis, Clovis.

The committee was provided for in a resolution adopted at the democratic state central committee in Albuquerque a couple of months ago. It will serve jointly, Mr. Seligman said, with the advisory committee of fifty-eight members.

The advisory committee consists of members from every county in the state. There are forty-eight men and ten women. The personnel of this committee by judicial districts, as announced by Mr. Seligman includes:

Fifth district: J. D. Atwood, Roswell; J. Phelps White Jr., Roswell; Sid Cox, Artesia; T. A. Whelan, Lovington; Mrs. Georgia Lusk, Lovington, Caswell Neal, Carlsbad.

Mr. Seligman announced also the appointment of Ed B. Swope of Albuquerque as executive secretary. Judge C. R. Brice of Santa Fe as chairman of the legislative bureau and Mrs. Grace B. Melavin of Las Vegas as vice-chairman of the women's bureau of the democratic headquarters organization.

APPROPRIATIONS AND EMPLOYEES INCREASING

WASHINGTON, D. C.—President Hoover has repeated his plea to government departments, bureaus, independent agencies, etc., for a reduction of expenses to avoid a deficit at the end of the fiscal year because reports on possible reductions requested from them on July 18 have not been coming in as rapidly as expected.

In this connection, Joseph W. Byrns, democrat, Tennessee, ranking minority member of the house appropriations committee who pointed out that the appropriations of the special and the first regular session of the 71st congress were in excess of \$5,000,000,000, which was \$23,785,185.61 less than the President and his budget director asked congress to appropriate, said in his review of these appropriations:

"As evidence of the disregard of his (the president's) own warning he has three secretaries at a salary of \$10,000 per annum each, whereas his predecessors considered that one was entirely sufficient. The White House appropriations under Mr. Hoover were \$529,020 as compared with \$437,180 the last made under President Coolidge. This was an increase in the first year of President Hoover of \$91,840 exclusive of reconstruction due to fire loss.

As an illustration of how White House appropriations, which are under the absolute control of the president, have increased since the last democratic administration, the following appropriation figures for the Wilson and Harding administrations are taken from prior reports of Mr. Byrns:

- "Last year of Wilson, \$197,341.
- "Last year of Harding \$349,380.
- "Last year of Coolidge, \$437,180.
- "First year of Hoover, \$529,020."

Representative Byrns also calls attention to the enormous increase in the number of federal employees citing 587,665 employees under civil service as of June 30, 1929, an increase of 18,950 over June 30, 1928, and only 330,095 fewer than employed on November 11, 1918 when the Armistice halted war-time expense. Since these figures were given the number of employees on December 31, 1929, according to the civil service commission was 589,145, a further increase of 1,480 in the last six months of 1929, and 20,430 over June 30, 1928.

"Many governmental positions are not under civil service," Mr. Byrns adds.

SECOND HAND STORE PASSES TO NEW OWNER

The Conner Second Hand Store, operated about a year and a half by Abe Conner has passed to a new owner, Dave Hill. The purchase was completed several days ago, Mr. Hill has recently taken charge. Mr. Conner also purchased the Devoll Second Hand Store, at the Corner of Main and Fifth streets and the following day sold this establishment to Mr. Hill.

Mr. Conner contemplates running a bunch of sheep on the range near here, if he can find some sheepman that will give him the sheep, which now looks rather probable.

PICKED UP ON MAIN

Jack Cunningham, does not come right out and say that he believes the earth is flat, but admits that it must be lying on the flat side the way its moving.

John Richards, has enjoyed single blessedness long enough to know how to get along with his wife. John reads The Advocate religiously every week and also acts as censor when it comes to sending the old home town paper to the wife, who is way up in Maine.

We've found one of Ma Ferguson's supporters in Artesia. We bet that birds has sorghum molasses for breakfast and thinks that the Ferguson Forum is the Saturday Evening Post.

One of the most peculiar things of nature is how long it takes a person to get Arkansas out of his system. Fred Cole was telling us the other day how cheap labor was in Arkansas. Walter Graham still talks about Arkansas politics, although he's been away from his native state for nigh onto twenty years. H. Q. Haley, who migrated from Arkansas after most of the rougher element had gone over to Georgia to teach school spends most of his time hunting acorns over in the Lea county sand. Jim Berry is still laboring under the impression that a goose berry is a fruit. Out in the Cottonwood community where there is a colony of Arkansayers, pad locks for the smoke houses are unknown and the residents of this section are the only farmers known with an unlimited credit because they admitted that they were from Izard County, Arkansas.

One of the biggest object lessons, we've gotten out of the Rotary club, is how to grow seedless watermelons. The information came from E. B. Bullock, but unfortunately the farmers didn't know anything about it this year, so we're trying to keep the seeds picked out of our ears, so's we can keep the records straight, but find that watermelon seeds hinder telephone conversations.

TOURIST BUSINESS OFF 13 PER CENT FIRST HALF OF 1930

SANTA FE—Incomplete returns from about half of the reporters on the annual tourist business questionnaire which is run midsummer of each year by the Highway Service Bureau shows that New Mexico's tourist business is this year suffering a gross average fall of 13 per cent.

Unofficial reports from various other bureaus in the nation give the national gross average at somewhere around 20 per cent loss, although several western tourist states report as high as 50 per cent loss. Taking the lower figure New Mexico would still hold the white spot for tourist business in a depression year. Two-thirds of the replies received by the Service Bureau show a loss, twenty-two per cent a gain, eleven per cent plus business the same as 1929. Although the detailed study of the questionnaires has not yet been completed early returns seem to show that rise and fall are geographically well distributed and balanced with a large rise being indicated in the same town where another merchant shows a heavy decrease.

So far the tabulators of the vote on the World's Fair have found less than one per cent against participation by New Mexico. Many have written enthusiastic notes on the margins of the questionnaire urging strong New Mexico entrance in the exhibition idea.

MEXICAN KILLED

N. Chaves, was instantly killed in a car wreck, which occurred just north of Roswell when a car in which he was riding overturned several times and went into a cotton field. The car was driven by Jack Lyle, whom officers say was intoxicated. Jesus Servantes, another occupant of the unfortunate car was seriously injured.

Long Miles

in

Short Seconds

BEFORE starting on a trip, other than for a vacation, of course, consider for a minute whether a telephone call might save you the time and expense.

Telephoning is a round trip, the miles there and back are just a matter of seconds, and complete discussion is as easy and satisfactory as being there in person. Friendly telephone visits with friends in other cities are also becoming as commonplace as business calls. Just give the operator the out-of-town number—if you don't know it, the name and street address. The call is generally completed like a local call—while you hold the line. When the operator gives you the number before completing the call, jot it down for future reference.

Here are a few samples of day rates when you do not ask for any particular person at the other telephone:

Albuquerque	-----	\$1.25
Denver	-----	2.05
Los Angeles	-----	3.25
Chicago	-----	4.00

The rate to any point you wish to call can be secured by asking the Long Distance operator

NOTICE!

To Our Friends and Customers:—

We have for several months given careful consideration to our present practice of distributing The S. & H. Green Stamps and have come to the conclusion that this practice is expensive to our trade as well as to ourselves and that we can more economically serve our trade by discontinuing the distribution of these stamps.

Therefore we will on

SEPTEMBER 1st, 1930

discontinue this practice—however we will give S. & H. Green Stamps on all Cash Purchases made prior to that date and will also give Stamps on all accounts covering purchases made during August for which we receive payment on or before September 10, 1930.

We assure you that we at all times are ready to serve you with the best merchandise at the lowest possible price, and that we will continue to give to our customers a service unequalled in Artesia

Thanking you for the patronage which you have given us in the past and looking forward to a continuance of the same friendly co-operation. We remain,

Very truly yours,

STAR GROCERY

J. S. SHARP, Proprietor.

CHEVROLET MILEAGE CONTEST NOW ON

Widespread interest is being shown in the drivers' economy contest being conducted this week by the Jackson-Bolton Chevrolet Co., on First street, for which cash prizes are being offered the three persons driving the greatest distance on a pint of gasoline. A stock model Chevrolet is equipped with a one-quart Mason jar and attached to the outside of the car. Up to Wednesday night—drivers had tried their skill, and mileage ranging from 2.6 to 3.5 miles per pint had been turned in. This gives the unusual average of 2.9 miles on all drives.

So far, Mr. N. M. Baird holds

first place with 3.5 miles. Mr. Wm. Johnson of this city is second with 3.2 miles, and Mr. Polk Turner holds third place with a record of 3.1 miles. An interesting incident took place Wednesday night when Mr. Turner and Mr. White registered a tie in the mileage they obtained.

All drivers go over the same route, which offers a real test for any car. There are no hills to coast down and both gravel and cement roads must be traveled. Some people drive the Chevrolet in high at speeds ranging from 4 to 8 miles an hour, while others attempt to make good records with speeds ranging from 45 to 65 miles per hour. Mr. Bolton, the dealer, explained the high mileage records by saying that Chev-

OILERS SLUG OUT WIN OVER CARLSBAD-WILL PLAY ROSWELL SUNDAY

The Oilers met and conquered the ancient enemy, the Carlsbad Cavemen, Sunday at the Brainard Park, when they romped away with the long end of an 18 to 5 count, thus winning the rubber game. Slim Roberts, Oiler tosser was effective in pinches and was never in danger. Lawrence Carlsbad's pitcher was relieved in the 3rd inning by Crozier, after Artesia had run up a substantial lead.

The Oilers have shown a consistent improvement during the past few exhibitions here. Sunday's game marked the sixth victory for the locals against two defeats. The lineup follows: Artesia—Glasser, c. Roberts, p. Kile, 1b. Ferris, 2b. Brainard ss. Manda, 3b. Slaughter, lf. Burch, cf. Whitey, rf. Carlsbad—Lawrence, p. Welpton, c. O'Connor, 1b. Rogers, 2b. Gerrells, 3b. Wright, rf. Holt, cf. Weldon, lf. Crozier, p.

The score: 123 456 789 R
 Artesia - - - - - 208 300 14x—18
 Carlsbad - - - - - 300 001 100— 5
 Box score was unavailable.

Sunday the Oilers meet Roswell here. This promises to be one of the hottest fracasas of the season! Come out and see a real ball game!

Mr. and Mrs. Bobb Skaggs and little son, Bob Jr., of Belen, were here last Wednesday calling upon old acquaintances of Mr. Skaggs. They were accompanied by Miss Ernestine, daughter of Mr. Skaggs, who has lived for the past twelve of fifteen years with Mr. and Mrs. J. E. Acord, of Alahambra, California. Ernestine was taken by the Acords when she was a small child and accompanied them to California, making her home with them ever since. She is at present visiting her father at Belen. The party was en route from a trip through the Carlsbad Caverns.

LOCALS

Mr. and Mrs. Fred Brainard made a trip to Carlsbad, Otis and Malaga Monday.

Mrs. Pete Cooper had her tonsils and adenoids removed Monday at a Carlsbad hospital.

Miss Martha Frances Eckles, of Hobbs, is here this week visiting Miss Lilla Jackson.

Mrs. A. L. Allinger left Tuesday morning for Albuquerque to visit her son, Alvin and wife.

Mrs. Beecher Rowan, Ted Rowan, and Mrs. Ferris Arnold of Roswell were Hobbs visitors today.

Dick Kimbrough was operated upon for the removal of his tonsils Tuesday morning and is getting along nicely.

Guy Smith and wife have returned from a ten days vacation spent in visiting relatives at Pinon, Hobbs and Portales.

Mr. and Mrs. Carl Joiner motored to Roswell yesterday afternoon, the woman's air derby being the incentive for the trip.

Mrs. Floy Hartsfield arrived home Monday from Silver City, where she attended both sessions of the summer school at the State Normal.

W. D. Pitchford and daughters, the Misses Marjorie and Bernice, and a friend Miss Blanche Matthews, all of Baton Rouge, Louisiana, came in from Colorado, yesterday and left this morning for their home after visiting overnight with Mr. Pitchford's sister-in-law, Mrs. J. J. Clarke and family.

Mrs. Mary Rawls, who has been with the family of her brother-in-law, left Sunday for her home at Marshalltown, Iowa. Mrs. Rawls will arrange her affairs there so that she can return and make her home with the family of her late sister, Mrs. McCaw. She expects to be absent a month.

BIRTHDAY PARTY

Little Mary Frances Lauderdale, celebrated her fifth birthday last Tuesday with a little party, her guests were Juanita Burrows, John Paul and Reese Otts, Quenton and Lawrence Rodgers, Vernon, Eugene and Virginia Watson, Mollie and Kathryn Sinclair. A pleasant afternoon was spent by the little folks.

STATE INSTITUTIONS GET OVER 1,000 BBLs. IN OIL ROYALTY DAILY

SANTA FE—New Mexico receives 1,292.12 barrels of oil a day out of the Hobbs field for institutions and schools, under the new proration announced for the Hobbs oil field, State Land Commissioner Austin D. Crile said yesterday.

The new proration is for the 15-day period beginning August 16. The state's share, which comes as royalties, is distributed in this way: Common schools, 693.50 barrels. Deaf and blind institutes, 436.12 barrels. State penitentiary, 172.75 barrels. The value of the oil is now approximately \$1.00 a barrel.

The royalties for the schools and for these institutions go into their permanent funds. They are not allowed to spend them, but they are permitted to use the income from

the investments into which royalties are converted for purposes.

Fifteen wells are not proration agreement, Crile

Mrs. W. S. Medcalf and McDonald, of Hope guests of Mr. and Mrs. Gage, Monday evening at the show.

Miss Opal Martin, of Wichita Falls, Tex. guest, Miss Ruby M. leaving Miss Mount at company with Miss V. who was with them she planned to visit a Ennard Smith, at Ryan then go to Oklahoma short visit and stop back to see Mrs. Buford Amarillo, Texas. They home Saturday or Sunday.

Only Two Weeks

Through the heat of the summer had you stopped starting the kiddies back to school is almost starting the time for preparing lunch physical condition must be the best. Let us two suggestions:

First—Take the children to your dentist for examination;

Second—Let us supply Brush and an ideal price to insure a proper cleansing of the teeth.

Lessen the absent marks on the report card a little precaution now.
